THE 2ND ANNUAL TERRY COUNTY FAIR

Is Now History. It Pleaseth Directors. Amazed Terry County in General, and Astonished Visitors. Great things Planned for the Future.

Gomez, Texas, Sept. 25, 1910— Editor Herald—The second annual Terry County Fair was held here at Gomez on the 23rd and 24th last as heretofore advertised in your paper. We are glad to state that even the managers were surprised at the fine display of farm products.

Friday the first day was good and we were pleased at the good showing of fine stuff that our farmers had brought in but on Saturday the climax of western county farms was reached. No man ever witnessed a finer exhibit of western Texas products than we had on display. Our farmers deserve the highest praise for their untiring efforts in helping the managers to make it the success which it was. Not only the farmer to be praised, but their good wives always ready to do their part in advancing any good cause. They were on hand with a fine assortment of good things which they with their own efforts caused to be the best of the kind ever exhibited on the south Plains. All kinds of canned fruit, preserves, jams, jellies, pickles—even to great loaves of fine bread—showed Terry county woman can do. All kinds of fancy needle work, such as Mexican drawn work (done by Terry county ladies) embroidery, etc., were on display.

Fine lot of choice poultry—as good as you will see in Texas. Fine stallions, both draft and driving.

Fine mules and mule colts. Good geldings and mares. A great herd of colts that can not be surpassed in any state was here. And the beauty of this—all were raised in Terry county, the livest wire on the Texas Plains.

Some fine cows and calves were here to show for themselves.

Our fine hogs were not shown this year on account of the extreme heat which prevailed, making it dangerous to the swine family to be moved.

No man in east, west, north or south Texas ever witnessed a better show of good things than old Terry had here on display.

Below we give you the list of prize winners.

This concludes the list of prize winners.

Finances were close with us all this year; consequently, we could not offer cash prizes.

Next year it is the aim of the Fair Association to double in capacity on every line of display. We expect to be fixed for it next fall. Two years success tell us that we can do on the large scale. Consequently, we expect great things for the coming next fall far.

Now a word to the Terry county farmer and stock raiser. We have passed through the experimental state. You know what your soil will raise when you get the water; you know that with the start on stock raising, you can't be beaten anywhere.

Now, let us work as a solid body for the betterment of Terry County Fair; if you are not a member, come get in the harness and do your part. Every farmer and every business man in the County should be a member and willing to help make old Terry out shine any county in the West. Now, in behalf of the President and Board of Directors, I thank you all for your kindness in helping us and beg that you put forth your best efforts for the next year.

Dr. M. T. Griffin,
Secretary Fair Association.

By kindly rushing our business last week, we were afforded the rare pleasure of attending the Fair and Old Soldiers' Re-Union at Gomez last Saturday. We arrived late, and therefore only heard a little of Maj. Perryman's address. Major Perryman is the excellent County Judge of Lynn county, and is a member of Stonewall Jackson Camp No. 1708, of Terry county, and every year a part of the program is the annual address of the Major. Nor is his speeches the same on every occasion, for he usually approaches the historical part or the rights of a sovereign state from an altogether different point of view. On the right of a state to secede under the Federal Constitution of that time, or in the discussion of the historical making epoch of the 50's and early 60's, the Major is at home, and he holds the attention of the school children as well as the older people, because his addresses are full of facts and unwritten history. When we arrived he was discussing the raids of the famous outlaw, who was busy in the south in the 50's insurrecting the negroes and ruthlessly destroying property and murdering innocent women and children. He went on to show that the Legislature of the great State Massachusetts came within one vote of adjourning one day in honor of this old murderer when he was hanged at Harper's Ferry after trial for murder.

But the Major did not defend the acts of vice of any ally of the south that needlessly destroyed life and property. All in all his

Stick to Terry. There is a fortune awaiting for you. Mark our prediction.

And again we will say: Plant plenty of corn, maize, potatoes and hog. You haven't got far to haul it.

Uncle Billie Bryan has bolted the Nebraska Democrats because they like "red licker." Come to Terry.

We can almost smell spare ribs and "sassages" on these northers. Time's almost here alright.

Just two more years and Fatty Taft may call his dogs to tall timber and hunt 'possums while some one else ramrods the cabinet.

Hard times is a general topic lately, but will venture the assertion that "hard times" was not breathed in 100 yards of the exhibits last Saturday.

We noticed one of our exchanges was giving the Legislature down the lower country last week about the I. & G. N. bill—whatever that is—and in the next breath began lambasting another exchange because it wanted to divide Texas. We are sorter like the lambasted brother. We have mighty near become a secessionist.

WINDMILLS

We have them in all sizes from 12 to 16 foot of the famous Star and Leader brands.

IMPLEMENTS

We have a full line of the Standard makes of impliments. Let us show you through our stock.

Brownfield Hardware Co.

Don't become discouraged. Every one coming in, homefolks or visitor, say Terry county is in the best shape of any county for hundreds of miles east or south of us.

We have been under the impression that this was no apple producing country but we saw some Terry county apples last Saturday that looked just as big and juicy as those from Missouri, Arkansas, Van Zandt or any other apple producing state.

Visitors ask us if we expect a railroad soon, and we usually tell them, "not till we see it coming." Not because we do not want one, for they are mighty good things, but we will not get one a day sooner by lying about it, besides they are getting to be mighty costly conveniences. Fifty or seventy-five thousand dollars are not raked up every day, and during these hard times a road within 28 miles of us looks good.

Dr. Maddux, of Gomez, has informed us just who Bob Hatton was that we published from the old West Tennessee Democrat some time ago. He said that while he differed vastly with Mr. Hatton politically, Mr. Hatton being a Know Nothing and he a Democrat, but that Mr. Hatton was a gentleman in every sense of the word, and fell in the battle of Manasses in defense of Confederate flag. He was as gallant as he was gentlemanly.

The Board of Directors of the Terry County Fair Association wish it distinctly understood that the fair is no Gomez, Brownfield or Meadow institution, but is as broad in its scope as the county itself, and large enough to include exhibits from neighboring counties if they see fit to bring them, and at the same time small enough to listen to the wants and suggestions of the most humble citizen.

Although Gomez is the city of its nativity, and for two years, or since organization, it has met in Gomez, this is no reason why they do not desire and work for the co-operation of all the county without regard to section. It is hoped that Brownfield and surrounding country will send a strong delegation at the next meeting of the directors and put in their membership. Your help and influence are needed, and when at last this institution,

that had a small beginning, has been put on a paying basis, you will be glad to see your name as one of the early boosters.

THE FAIR, Tahoka, Texas

The French Juveniles.

Every school day at noon for the past month, we have noticed one of our most famous pugilistic, base ball and wrestling fans assemble himself at the diamonds of the small boys and root like a wild man, though usually in the capacity of umpire. This daily gathering somewhat aroused our curiosity, and one day this week we went out and watched Mr. M. L. French—for it was no other than the esteemed bookkeeper in the Brownfield State Bank—umpire a game. He took so much interest in the game, rooting for first one side then the other, although being umpire and supposed to be neutral at all times, we concluded to interview Mr. French. We found him a pleasant and affable gentleman, very enthusiastic and inclined to be talkative on the subject. He said: "I am whooping up these boys with the intention of select-

ing a juvenile nine from them that will just wipe the socks off anything their size in America. After clothing them in paper regalia, I—as manager—aim to trot them over Texas as the most famous juvenile teams in existence. I don't intend to stop in just one season, but aim to follow the field until they have developed into robust manhood, and then I will have at my beck and call the most famous aggregation of ball players the world has seen."

We watch results under his training with interest.

EQUINE FLIGHT.

Horse Makes Cruise in Airship

It has been said, and justly, that wonders never cease—for each day brings to notice something new—but it has been left to the proprietors of the large circuses to scheme and plan, invent and produce novel features that are beyond the wildest dreams of the imagination, and to accomplish the seeming impossible.

When the airship was recently perfected it was thought that the ingenuity of man could devise nothing greater than to make the air navigable—but it was left for Dode Fisk to accomplish a still greater wonder, that of sending a horse on a cruise in an airship.

It is beyond human belief that this is done—but one has only to witness the most sensational of the world's greatest triumph of wonders to be convinced.

Murcury, the Airship horse, Aviating Equine Feature with the great Dode Fisk Shows, makes a sensational ascension twice daily with bewildering pyrotechnic display, making this the most extraordinary feature ever presented by an Amusement Organization in America.

The Great Dode Fisk Show will exhibit afternoon and evening at LUBBOCK, MONDAY OCTOBER 3rd.

Double Header Ball Game.

The ball game Saturday afternoon at Gomez between the 1st nine of Gomez and Brownfield resulted in a victory for Brownfield in a score of 8 to 7. This was a hotly contested game and was thoroughly enjoyed by all who attended. Many good plays on each side was made.

This is the first game the Brownfield boys have been able to take from their old adversaries in a number of years and they are real proud of the achievement. We suppose there will be another game in the near future between the two teams. After this game was over, a fast one was played between the Brownfield first nine and the Brownfield school boys that resulted in a victory for the first nine by a score of 2 to 0.

The Horse's Prayer.

TO THEE, MY MASTER, I offer my prayer: Feed me, water and care for me, and, when the day's work is done, provide me with shelter, a clean dry bed and a stall wide enough for me to lie down in comfort.

Always be kind to me. Talk to me. Your voice often means as much to me as the reins. Pet me sometimes, that I may serve you the more gladly and learn to love you. Do not jerk the reins, and do not whip me when going up hill. Never strike, beat or kick me when I do not understand what you mean, but give me a chance to understand you. Watch me, and if I fail to do your bidding, see if something is not wrong with my harness or feet.

Do not check me so that I cannot have the free use of my head. If you insist that I wear blinders, so that I cannot see behind me as it was intended I should, I pray you be careful that the blinders stand well out from my eyes.

Do not overload me, or hitch me where water will drop on me. Keep me well shod. Examine my teeth when I do not eat, I may have an ulcerated tooth, and that, you know is very painful. Do not tie my head in an unnatural position, or take away my best defense against flies and mosquitoes by cutting off my tail.

I cannot tell you when I am thirsty, so give me clean cool water often. Save me, by all means in your power, from that fatal disease—the glanders. I cannot tell you in words when I am sick, so watch me, that by signs you may know my condition. Give me all possible shelter from the hot sun, and put a blanket on me, not when I am working but when I am standing in the cold. Never put a frosty bit in my mouth; first warm it by holding it a moment in your hands.

I try to carry you and your burdens without murmur, and wait patiently for you the long hours of the day or night. Without the power to choose my shoes or path, I sometimes fall on the hard pavements which I have often prayed might not be of wood, but of such a nature as to give me a safe and sure footing.

Remember that I must be ready at any moment to loose my life in your service.

And finally, O MY MASTER, when my useful strength is gone, do not turn me out to starve or freeze, or sell me to some cruel owner to be slowly tortured or starved to death; but do My Master, take my life in the kindest way, and your God will reward you here and hereafter. You will not think me irreverent if I ask this in the name of Him who was born in a Stable. Amen.

Butter and Butter Substitutes.

The great majority of people eat butter and much prefer it to any of the substitutes which have been put upon the market.

However, a great many people must use a substitute on account of the high prices which prevail during certain months of the year.

Oleomargarine is the most common substitute for butter and millions of pounds of this product are consumed each year. The difference in cost of production between oleomargarine and butter is so great that when butter is retailed at forty cents per pound, oleomargarine may be retailed at twenty cents per pound at a great a profit to the dealer.

The person who chooses to purchase the substitute should be allowed to do so and he should be required to pay only the price of the substitute. The difference in price between the genuine product and the substitute is so great that dealers are tempted to sell the latter for the former. Only by requiring that that the consumers may differentiate between the two articles can honest traffic in the substitute be insured.

This was contemplated by Congress when the present international revenue tax of ten cents per pound was levied upon "artificially colored oleomargarine." Many people think that all oleomargarine is taxed ten cents per pound. This is not a fact. Oleomargarine which is "artificially colored" so that the consumer can not distinguish it from butter is the only oleomargarine that is thus taxed. When it is thus put upon the market in its natural color, it is only taxed one-fourth of one cent per pound.

It is only when the product is made to look like butter so that it may be fraudulently sold as butter that a burdensome tax is imposed upon it. The imposition of the tax is not to suppress the sale of oleomargarine or to make it more expensive to the consumer, but to prevent fraud in its sale.

Where Texas Got Its Name.

When Texas was a Province and hanging on the ragged edge of Old Mexico like a sort of fifth wheel, she had but twenty counties. When Texas got from that mangy set of Aztecs, of course she had her twenty counties to go to houre-keeping with. These were called "original" or "charter counties." These old origi-

nal counties made the base of the Texas Republic.

It is interesting to note the names of those old counties. In the main they bear the names of Spain and Mexico, such as Matagorda, Lavaca, Bexar, Goliad etc. But after Texas became free, she began to make new counties and they bear the name of patriots and leading Americans, such Polk and Dallas, Houston and Lamar, Crockett and Bowie, Travis and Austin, etc.

Later on, when her brood of counties began to come she continued to name her territorial children after the men who had helped make Texas. This is seen when she cut up her big Panhandle and her wide Plains into counties. So we now have Lubbock and Lamb, Donaly and Dekens, Floyd and Fisher, Hale and Hartley, etc.

Strange to say, however, in this new batch of baliwicks, we have held on to a pure old Spanish name. This is seen in the name of Garza. This is a pure old Castilian handle and Texas is to preserve it for all time to come, it seems.

Garza county gets its title from Leonard Garza, a close descendant of Madam Betancourt, a Spanish lady who was first to settle San Antonio. Her children became such good Americans, and especially Texans, that her monument is here in the name of son, Garza county.

Terry county is for Benjamin Franklin Terry. He was a Colonel of a regiment of Rangers who long years ago patrolled the ragged edges of Texas and New Mexico. Col. Terry and rough riders were a terror to the wild red skins who used to raid and then fly to the high plains of Texas.

These red rovers used to steal woman and children of the whites and take them to those far away Plains. The history of Texas recites many touching incidents where helpless woman and children were carried captives to that section. Col. Terry and his men recaptured many of these.

Terry county then must have been a wild looking place to those white captives sixty years and more. If those canyons and draws could speak they could relate some bewitching sotories, paint some melting scenes and recount some gruesome spectacles of the long ago.

Names to such men are monuments. They outlast the polished shaft or marble plinth. You have to go to Mt. Vernon to see Washington's tomb, but Washington City is on everybody's tongue and will be as long as "Old Glory" lives.

Terry county is a modest shaft to a soldier whose trained eye watched the West long ago.

address was a fine one and was heartily applauded throughout.

After Maj. Perryman's address, Col. J. T. Gainer announced that there would be plenty dinner for all present near the bank building. When it was announced ready, we found his statement more than true, because there was plenty for a crowd twice the size of this one, and we estimated the crowd at between 500 and 800. Not only was there plenty of it, but a variety and flavor you wont find outside of grand old Terry county, because she produces the best meats, fruits and vegetables, and her cooks can't be equaled the world over.

At 2:30 p. m. the soldiers again repaired to the auditorium and after song and prayer, entered into a business session. After the election of officers whose names will be printed later, Brownfield was selected as the next place of meeting and they adjourned. This camp will no doubt elect a delegate to represent them at Little Rock next May.

FARM PRODUCTS.

When we reached the streets on which the farm, orchard and garden products were tastefully displayed we were astonished and amazed. We had expected something nice, but did not expect to see the Dallas Fair on a smaller scale, but rivaled. These are absolute facts, as we have attended the Dallas Fair a number of times and at no time during the most favorable years have we seen a single exhibit that approached this one for variety and beauty.

We did not expect 72 pound melons, ten pound cucumbers, beets and potatoes nearly as large one's head and much longer. Neither did we expect okra that one could almost stand on the lower limbs, and cotton that would make a half bale per acre. We were not looking for peaches, pears, or plums as fine as are being shipped in from California, but we saw them there. We also saw corn, maize and kaffir that would make a creditable show in any hard land county of their best years.

POULTRY.

In this department we noted specimens of the most noted breeds. Both Barred and White Rocks, Rhode Island Reds Bantams and Leghorns predominating. For a list of prizes, see the article by Dr. Griffin.

LIVE STOCK.

We have on number of occasions noted the number of well bred horses and mules in Terry county, but Saturday we saw an aggregation that would make a creditable showing in most any thickly settled county in Central Texas.

We heard some of the early settlers in Terry county say that this is no horse country. No, we'll admit that, neither is there any horse country. Wild horses are small anywhere, but when he becomss domesticated and is provided with food and shelter during bleak cold winter, he thrives. A grass hopper wouldn't do well like some people try to raise horses in this country. But we are glad the country is being settled by a thrifty set of farmers from the east that are firmly demonstrating the fact that this is an ideal horse country when given the right kind of

BABY SHOW.

The trying hour came late in the afternoon when some one hollowed "baby show," and we rushed forward—for we do sure like to gaze on these minute specimens of the coming men and women—only to be chosen with Jno. W. Gordon and another bachelor, Mr. Pulliam, of Mississippi, to act as judges. After being chosen we were not so ungallant as to back down, but stood hitched like an old horse. Now, we all did the best we knew how and were severely complimented—by some—on our decision. After a blue and red each was finally placed, we three judges beat a hasty retreat the back way and turned up at the cold drink stand, where hastily stimulated our nerves. We need not have done so, though, for the Terry county ladies are all civilized and take defeat in the true Spartan spirit.

On every side and turn every one express themselves as being highly entertained and pleased, and we believe this successful

meet will be a great stimulent towards better and more glorious things in the future. Now is the time to begin work for the next Fair if we want it to exceed this one—and we all do.

Some one at Crowell, Texas, sent us a remedy for vegetable flees this week, which consists of a heaping tablespoonfull of sulphur to a gallon of wood ashes, to be sifted heavily over the plants. We have no further use for the remedy as one of the glorious town cows broke in one day this week and cleaned our truck patch, but maybe it will help some one else. We wouldn't have given our truck patch for the cow even money, neither are we going to print our exact language—when we discovered our loss.
