BROWNFIELD, TERRY COUNTY, TEXAS, FRIDAY, OCTOBER 13, 1911

NO 27

THE FAIR WAS A GREAT BIG SUCCESS.

Large Crowds Attend and Splendid Farm, Orchard and Garden Produce Were Much In Evidence and Everybody Well Pleased

The 3rd annual Terry County Fair is now history. Of it there may never be a complete written history, but when the present lads and lassies are grey with age and the present tots are turning the zenith of life, memory's history of the 3rd annual fair will shine still as the noon-day sun, and they will tell their lads and lassies about it. Our Fair, by that time, may have reached the magnificent proportions of the present Dallas Fair. We trust it shall, and it only remains for the people to see that

it does. It will be a matter of pardonable pride, and we no doubt will be looked upon in open admiration by the youths of the misty future because we were the god-fathers and god-mothers present when our Fair donned its swaddling clothes, helped it in its first attempt to stand alone, and were first to hear it prophesy to the world its coming future and importance to Terry county from an agricultural standpoint at the age of three. We only have a faint glimpse

at the great good of our fair at present, and as each succeeding year shall roll by, we will then begin to fully realize that we cannot possibly do without one, cost what it may. It must be maintained. If it is so important to us at the age of three how shall we humble ourselves before her all importance at sweet sixteen; at full fledged womanhood; at the sweet complacency of middle life from which it can only grow older and better?

There was a very good crowd on hand Friday and they were there for strict benefits. Mere curiosity was regaled to the background. A good crowd of farmers, business men and their wives and children heard Director Neill in his address and we venture his expert advice will be carefully followed next year by those who heard him. He said among other things that he had been practically all over the state this year but had seen nothing to equal our display, and thought we stood an excellent chance of taking a prize at the Dallas Fair.

At night there was a splendid play at the school auditorium that was well staged, appropriate to the occasion and each actor or actress did themselves proud. So popular did it prove that it was successfully repeated Saturday night.

We could not attend thesecond day, but have it from those who did that the big crowds came on that day and everything moved on real lovely, and that an enormous dinner of fine quality was set before those assembled and of course full justice was done. We only wish it were possible to give a detailed account of every thing on exhibition but that is well nigh impossible; suffice to say that our Fair is in a class of itself, population and age considered.

Below we give a list of prizes awarded, and we wish to say that 1st means a blue ribbon and 2nd a red one. In some cases no second prize is mentioned;

Died.

Word has been received here that G. C. Parks, the young man whose back was broken in a railway accident in Slaton switchyards, died at the home of his brother in Weatherford, after a lingering illness.—Slaton Journal.

Deceased has a brother living about seven miles west of Gomez who helped to carry Grover to Springtown instead of Weatherford, to a private sanitarium, where an operation was performed, but in vain. Herald joins the

many friends in sincere sympathy.

The Turco-Italian war reminds us of the bully and pick-box of our school boy days, but sometimes the pick-box would become cornered and mad too, then the little show would come off.

The cotton and feed crops in Terry county are turning out far beyond the expectation of our farmers and they are riding early and late hunting hands. But it's of no avail, not for love or money.

Another example of careless handling of firearms occurred in Lynn county last week. As a result another young man lays beneath the sod before his time and a grief-stricken mother mourns the untimely demise of her son. Boys be careful how you handle loaded guns—Yes even empty ones.

The mayor of Indianapolis who has been buying irish potatoes by the car and selling them to home folks at cost, thus eliminating a big middlemans profits, may not be thinking of political capital. His motives may be pure philianthropical, but his constituents will see to it that he has another term just by way of reciprocity.

It would seem from the tone of the Lubbock Avalanche that it is hard for them to get the farmers to bring in creditable exhibits after the merchants raised money to defray expenses to the Dallas Fair. Not so in Terry; for the farmers not only brought in the exhibits but subscribed their part of the money to send them to Dallas.

See Good Crops.

On Monday afternoon of this week, Mr. M. V. Brownfield invited the editor to take a trip with him to one of his farms two miles southwest of Gomez, which we accepted and not only enjoyed the outing but saw some good crops. We will not say that is the best part of Terry county, as the other part might get jelous, but it is good and hard to beat in any man's county.

We found mighty good crops on Mr. Brownfield's place, considering its chance—the cotton never was plowed—and much beyond his expectation.

We found the gentleman who has charge busy gathering a bountiful harvest of large peanuts and filled our pockets. The old maize was not so good, neither the yellow corn, but the young maize and June corn did very well, and the cotton will make a fourth of a bale per acre. They have two bales out and three open on 18 acres.

We saw oodles of feed too numerous to mention, several large fields of peanuts and cotton that will make a third of a bale easy on the road. Oh! Terry has on its Sunday clothes.

W. R. Harris left yesterday for his home in Roswell, after quite a lengthy stay in Terry, straightening up his business matters.

down stairs at times on my hands and knees. My doctor told me I had an acute attack of inflammatory rheumatism. I was in the hospital for weeks, but was scarcely able to walk when I left it. I read about

bought a bottle and began to get better from the start, and for the past six months I have had scarcely any pain and am able to walk as well as ever." J. H. SANDERS, P. O. box 5, Rockaway, N. J.

Few medicines are of any benefit for rheumatism, but Mr. Sanders tells plainly what Dr. Miles' Restorative Nervine did for it. One ounce of salicylate of soda added to one bottle of Nervine makes an excellent remedy for rheumatism, which is now known to be a nervous disease and therefore subject to the influence of a medicine that acts through the nerves, as does

Dr. Miles' Nervine

Sufferers from rheumatism seldom fail to find relief in the use of Dr. Miles' Nervine, with salicylate of soda.

The Texas Dollar.

The Texas born dollar, taken from the soil and from the bowels of the earth, is the most honest dollar in circulation and has more prosperity in it than any other form of legal tender. It spends the week days at the markets and goes to church on Sunday and has few bad habits. It builds our homes, churches and school houses and when these tasks are completed its love for the fireside leads it to prefer doing chores for the family rather than embark in the gigantic enterprise of the 20th century civilization.

It takes special delight in buying the baby a new dress; providing ease and comfort for the home and taking the family on a summer vacation. It is timid and clannish. It will shy at a railroad or a factory like a young colt at a loco motive. As a rule it avoids foreign company and seeks select companions; it travels only in well trodden paths and when it wanders in new fields it soon becomes frightened at the strange sights and goes scampering to the land of its birth.

Along with the noble traits of character, it has inherited some of the frailties of human nature, and one of the most pronounced is idleness. We have \$279,000,000 on deposit in our banks, some of which hides in tin cans buried in the back yards and occasionally a roll of bills is snugly tucked away in the hosiery of the family; the idle dollar seldom moves except to run from the tax assessor. Then we have dollars which are inclined to wander; probably \$100,000 per day leaves the State seeking foreign investments, but like the prodigal son, they usually return after having sown their wild oats and they come home to us broken in spirit, subdued in courage and other evidences of a misspent life and in some instances bring with them a severe case of hook worm. In any event they are too cautious to step outside the bank vault. Many a dollar is now chained to foreign investments that is sadly singing home, sweet home.

The Texas dollar can never develop Texas. The volume is entirely too small and it lacks courage. But with all its faults we love it still and the Texas dollar is a welcomed guest wherever and whenever it appears.

Texas Needs Great Men

III. MISTAKES.

THE statesmen of China have fought back civilization for four thousand years and today it is the most benighted nation of the globe. The Mohammedan government ordered the world's greatest library at Alexandria burned and the followers of the prophet are to this day bound in fetters of ignorance. The dark ages were the result of nations fighting back the tide of civilization. Since the beginning of government, some of the leading statesmen of all countries have become badly frightened at the processes of civilization.

MOHAMED'S MISTAKE.

The smoke of a factory has been distorted into the visage of a terrible ogre; the whistle of a locomotive has been mistaken for the war whoop of an Indian and the approach of capital has scared many of our amateur statesmen into fighting a duel with civilization. Texas needs leaders who will not become frightened at the torch of knowledge or stampede at the forces of progress. Texas needs great men.

week wherein Howard James leased the Terry County Telephone Company's local, long distant and other properties for an indefinite period from the owner, C. S. Cardwell.

Mr. James has had several year's experience in the business as operator, lineman and general electrician and has fully mastered the business. He is a young man of determination, pluck and ability and we are sure he will give the people excellent service.

The Methodist Meeting.

Rev. V. H. Trammell began the meeting on schedule time and did some good and effective

preaching until the arrival of Rev. Cadwell from Baylor county, who did the preaching from then on.

Bro. Cadwell is a forceful and convincing speaker, and soon won over his hearers and was greeted at each service with good crowds; especially at night.

There were several conversions and it is hoped that much invisible good was accomplished.

A LETTER FROM PRESIDENT MAYO

Encouragement from Head of the
East Texas Normal.

Commerce, Texas, 9-29, 1911.
Mr. T. F. Hunter,
Brownfield, Texas.

Dear Mr. Hunter:—
I have your letter of recent date concerning the affiliation of your school with this institution and the scholarship offered to your honor graduate. First, we wish to congratulate you on your efforts and success in building up there a first class high school and wish you continued growth in the splendid work started.

This college will grant you affiliation on all the subjects covered fully in your school, and will give your first honor graduate a scholarship, as is our custom with affiliated schools. This we trust will be of mutual benefit to both institutions.

All is well with us. Our enrollment is good, and we expect a great year for the college.

With best wishes, I am,
Very Sincerely,
W. L. Mayo.

LUMBERING.

Mr. Terry County Man,
Terry County.

Dear Citizen:—I am thinking of building a new house or an addition to the old one, and aim to remodel my barn as I have lots of feed to save this fall and winter and also want to build sheds for my stock as I believe this winter will be severe. Where do you think I can get a bill of lumber to do my improving cheapest?

I thought as you lived near Brownfield, you could give me some idea as how McAdams competed with railroad prices.

Hoping to hear from you at an early date, I remain

Yours Truly,
Yoakum Co. Man.

Mr. Yoakum Co. Man,
Yoakum Co.

Dear Sir:—In replying to your letter, as to my opinion of the Brownfield lumber yard, I will say they have been saving us people in Terry a good deal of money, and would advise you to come here for your lumber; at least let them have a trial at the bill.

TO MAKE AN ASPARAGUS BED

Directions by a Successful Virginia
Grower of the Vegetable.

The first and most important feature in a good permanent asparagus bed is having a piece of good soil, naturally well drained and handy to the house. It should be the best spot in the garden.

Make your soil as rich as you can with thoroughly rotted manure, and set out three-year-old plants so that the crown is just below the surface. Have the roots of each plant well spread out and cover lightly with the richest dirt you can find, or if you are in no hurry for results you can plant the seed either in a bed to be transplanted or where they will remain in the bed. I prefer the latter method, declares a Virginia correspondent of Farm Progress. And when I say "bed" I mean what the term "garden bed" implies—that is, a rich, deep soil, full of humus as well as fresh organic matter, in a dry and sunny place and have the rows to run east and west.

If you plant three-year-old roots you can cut some asparagus the next season if you are in a hurry, but it is better not to. Enough space must be left between the rows to cultivate and walk in when cutting the roots in the spring.

But I would not stop at merely making a bed or two. If you have some rich land along fence rows where there is space enough for something to grow scatter some seed, and the chances are that in a few years you will be getting as much asparagus from these out of the way places as from the beds that you cultivate and pay special attention to. And another point, when you are planting asparagus if you are near a good town it may be well to plant for a great deal more than the family needs. No other

vegetable is more salable. If there are any who feel the need of more information they can get bulletins on the subject from their state experiment station or the department of agriculture at Washington.

As to those who already have asparagus beds, I will say that it will be well worth while to put on them a good thick coat of good barnyard manure free from weed seed. It is better to do it in the fall or winter.

Have you looked at your science watch to find out what time it is? Let's wind it up and push the hands up to date.—Bulletin, Ohio University.

If the young pigs "go down behind" as a result of leg or back weakness, or both, it is more than likely that the ration which they have been receiving has not contained the amount of bone forming material which it should. This should be furnished in the shape of wood ashes, or, better, in cob charcoal, with which some salt and a little sulphur should be mixed. This should be prepared and placed where the hogs can eat of it whenever they like.
