From East Texas

By J. W. Lively

Politics have about quieted down over here in East Texas.

Even the antis and pros are singing a lullaby and the Ramseyites and the Colquittites are having harmony meetings. It is a long lane that never turns some-

time, somewhere. Only the matter of the next president stirring things some. Mr. Taft don't seem to be in it. Its Prof. Wilson and the untterrified Teddy. Of course everybody nearly, think the Prof. will win, but there is a growing uneasiness about Teddy. They are both good men. No doubt either would do well in the White House. The Democrats have the chance of their lives. If they win it burries the old G. O. P., but will strengthen the Progressives. If they fail both old parties go to the junk pile and American politics will expand to new issues, and our young men are at the dawning of a new era.

Mr. Taft is the weakest man since John Tyler. He tried to fill the place of Democrats and Whigs at the same time. That's what brought in the great Democrat, Jimmie K. Polk. He was the last real Democrat we've had.

Now if Gov. Wilson can follow our present mugwamp president and do as Polk did, the old Democrat party will take another lease of life. The first thim Jim Polk did was to settle things in Mexico and that's needed mighty bad now. Wonder if Wilson will do it?

One thing is sure if Teddy gets in the saddle, that mangy, mongrel set of Spanish Aztes will have to listen to our Uncle Sam. They'll quit worrying our borders and quit butchering each other. When a people get to be a national nuisance, they need cleaning out.

Looks like we are going to have trouble, not only with Mexico, but all Central America. Uncle

Sam has four hundred million down there in the canal. Sooner or later that big ditch is going to wipe out all that mangy mess. If our Prof. Wilson can manage this, he is the man of the hour. If he does, he'll have to get a move on. Its a bigger job than being governor of little New Jersey or lecturing boys at Princeton. But if he don't, Teddy with the Big Stick will.

Providence provides and the Lord takes care of fools and poor folks. Millionares think they don't need him. Just as these great national issues come the Progressive party is born. How is this? What does it mean? It don't seem to be a bastard or a weakling. Really it is headed by the most progressive, aggressive American living.

The time has come when plain thinking men have quit looking to parties, but to issues and principles and men who stand on their principles. Mr. Taft stands for nothing today. He plays golf and runs steam rollers, and lets the poor people go to the devil and the country to the bow wows. If either of the other candidates are to be mere peg heads, providence will have to provide yet. A man with backbone, fearlessness and common sense is what is needed now. Who's who, and where is he? If its the Prof., well done for the old party of Thomos Jefferson and Hickory Jackson.

Texas Needs Great Men

XXVIII. CONDEMNATION

AN ATHENIAN peasant voting to condemn Aristides the Just was asked what wrong this good man had ever done him, "None," he replied, "I don't even know him, but I am tired of hearing him called 'The Just.'" Envy always snarls at the heels of distinction. It is one of the penalties of success to be condemned by your fellow men, and this condition not only applies to philosophy, art and science, but to business as well, and sometimes success weighs heavily in the scales of justice. The soul of state is in its people and a narrow, jealous and envious citizenship results in bigoted, revengeful and dangerous leaders and a weak and tottering government.

CONDEMNING ARISTIDES THE JUST.

Let those who would see their country rise to the towering heights of power remember that in the race of nations an ounce of malice is a dangerous handicap; that a country torn by the demon jealousy cannot long survive the corroding influences of civilization, and that a people whose prejudices will respond to the call of agitators like unclean spirits at the summons of a wizard, must soon drink the bitter dregs of factional strife and writhe in the agony of national decay. Texas Needs Great Men.

It will not cost much now to repair these places and keep them in good shape for heavy fall traffic. Remember a stitch in time saves nine.

Herald's Future Home Moved to Site.
 Monday of this week, Claud

Criswell, J. W. Welch, Lemmie McDaniel and Chas. Copeland, loaded the Herald building and placed it on the corner lot on the southwest corner of the square, where it may remain several years.

Carpenters Drinkard and Almon are busy this week remodeling and will probably have it

ready for occupancy by Saturday or Monday. This office will be particularly well lighted by numerous windows, and therefore made comfortable and pleasant for the business for which it is intended—good newspapering, and neat job work.

Many have already responded with liberal amounts on their subscription. Let others get busy, and we will try to give you better service all the time.

Brownfield High School opened Monday.

Large Crowd of Patrons Present Flattering Prospect for Good Term.

As was promised by the signed statement of our business men in the issue of the Herald of Aug. 30th, all stores and other business houses that could be closed, were shut and a good crowd of parents and friends were on hand Monday morning, and if the enthusiasm of all those present was any index to the coming term, we are simply going to have the best school ever taught here.

The speeches were all good and to the point, and had the ring of optimism, good cheer and confidence, not only in the trustees and faculty, but in the pupils also. Our faculty this year will consist of W. G. Hardin, Principal; Miss Zellica Knox, 1st Assistant; Misses Bert and Deane Lowe, Intermediate and Primary respectively. Miss Pearle Stewart has very graciously consented to teach in Miss Zellica's place until she arrives from Dublin, which will be along about the 20th.

Parents and friends of the Brownfield school, lets take Mr. Banowsky's advice, that "if you have been using your hammer, lay it aside and take up the crow bar and give the school a roll." that is the way and only way to have a good school and that is exactly what you want.

WHEN in need of SCHOOL BOOKS, go to MCGILLS DRUG STORE, Tahoka, Texas.

Edwin Groves phoned the Herald late yesterday afternoon to send him about six boats. Said they had three of the largest rains he most ever saw fall.

While we are building and laying out new roads, lets not overlook the importance of keeping the old ones in passable shape. As there has been some mighty big rains this season on

the Tahoka road, and water has stood over it several times in places, freighters report that the road is in deep ruts and has been washed down in places, on account of never being settled.

Henry French left last week for Quaro. He will be back to Brownfield alright.

Gus Farrar left last week for Canyon City, where he entered the Normal. He's done wrote back for the Herald. We hope Gus much success.

ASK the Lubbock Grain & Coal Co., about cotton seed cake.

Mr. J. P. Nichols came in this week and helped the Herald out a dollar's worth. Many thanks brother.

W. D. Winn, Commissioner elect, was over trading this week.

WHEN in need of SCHOOL BOOKS go to **McGILLS DRUG STORE**, Tahoka, Texas.

Mr. and Mrs. Dee Brownfield returned last week from Roswell where they have been visiting the latter's parents for some time.

The Herald very heartily thanks Willie Peters for a 41 pound melon, given us yesterday. It was of the black and green stripe variety and the meat was delicious.

THE CHEAPEST and best reading you ever heard of is a combination of The Herald, Farm and Ranch and Hollands Magazine; \$3.00 worth of papers for only \$1.75. Get this combi- for your summer, fall and winter evenings.

THE Lubbock Grain & Coal Co have just received a large supply of fresh cotton seed cakes.

Mr. and Mrs. Dick Brownfield returned Wednesday from a visit to Sterling and Sweetwater. They were accompanied home by an aunt and uncle.

Will Ed Harris came in yesterday with Mr. and Mrs. Tom Ivey from Lubbock. He had been to Dallas to have an operation performed on his eyes.

SEVERAL are taking advantage of our low rate of Herald, Hollands Magazine and Farm and Ranch for \$1.75. What are you going to do about it?

Mr. and Mrs. Frank Proctor and family, have returned from Roswell, where they went after apples.

H. E. Proctor, a prominent stock farmer, of Yoakum county, was over this week visiting his son, Elbert and wife.

Mr. and Mrs. Tom May returned from Roswell this week where they went after apples and on a hunt. Tom brought down a deer while out there.

Uncle Mose Dumas and his two beautiful daughters were in town last week in order for the girls to take examination.

F. Longenbeck, of Lynch, Cal., who owns property in Terry, sent us a M. O. for \$2 on subscription this week.

Good showers have visited parts of the county this week that will greatly help the grass and late feed.

Miss Lottie Atkinson has returned from Austin and will enter school here. She did not like her position there and her brother told her to come back and go to school. She will stay with Mrs. R. H. Banowsky.

Mrs. J. Randal entertained the M and M Club very pleasantly at her hospitable home last Friday night. We understand that there were more than twenty couples on hand.

WHEN in need of SCHOOL BOOKS, go to **McGILLS DRUG STORE**, Tahoka, Texas.

See Downing and Hill's ad in the Herald. This firm is handling two fine grades of coal and all kinds of feed, and wish very much to make your acquaintance when in Lubbock.

A Miss Davis from Yoakum county has entered school here for the term. She is staying with Mr. and Mrs. Lemmie McDaniel.

The case of State of Texas vs A. E. Moore, for failure to work the road, was tried before Justice E. L. Duke, last Friday. T. F. Hunter represented the State and Percy Spencer the defendant. The jury fined the defendant \$1 and cost.

GOMEZ DOTS

Sept. 10th.

Another car of coal for Gomez people came to Tahoka last week and the freighters who went after it got back here on Sunday morning. The coal trust, viz the dealers at the nearest railroad point, were unreasonable in their charges last winter but it wasn't any use to growl about it, for we couldn't help ourselves, but "It's a long lane that never turns." Last winter experience has caused the people of Gomez and vicinity to order their coal by the car load, and quite a lot here have their winter fuel laid in and the price of coal at the Tahoka coal yard has declined from \$9.50 to \$7.50; coal just costs \$6.75 per ton laid down at Tahoka.

Rev. Charley Jameson begun the Methodist meeting here at the church Sunday morning. Bro. Jameson for two years had charge of this church, and has a host of friends who are glad to welcome him back. The services are now conducted at the tabernacle.

Mrs. Joe Lane and the little ones are spending the week in town to attend the meeting. Joe has gone to Lubbock to attend the Masonic meeting.

Mr. Proctor also Will Satterwhite, of Plains, spent Sunday night here at the hotel.

Mr. Matt McPherson rented the livery stable here, also the Glover cottage right west of the stable and moved back here last week. Mr. Glover moved back to the Hotel.

Mesdames J. M. and W. B. Hays, from the ranch 14 miles southwest of here, were visiting and trading in Gomez last Saturday. They report the heaviest rain of the season down there on the evening of the 6th.

A phone message passed through here Tuesday morning notifying Mr. A. J. Burseson, of Plains, that his mother had died on Monday night, at El Paso.

Prof. Harrison and wife, came in Monday evening from Sunset Texas, where they buried Grandma Adams; Professor's mother.

Mrs. Simon Holgate and little Von Ceil, came in Sunday from their long visit to Comanche, Dublin and other points near there. Mrs. Holgate left here early last spring to teach a music class at Plains, and when that closed, she went East, and her many friends here are glad to have her back among us after her long absence.

Uncle Tom Deshazo is taking the shed room off of the East side of the drug store this week. He will move the shed to Brownfield.

School will commence here next Monday morning and the trustees and teachers request that all parents and others interested in the school, be present at the opening, and do try to start all the children in the first day, and let them get the full benefit of the school.

Dock Powell passed through here last Monday evening, with a bunch of cattle going out to Mr. Guy Taylors.

Miss Ergie Rambo changed her mind about where she would attend school and has gone to Plainview. She will attend Wayland College there.

Drug Store Receives Cold Drink Fixtures

The Randal Drug Store received a new fountain last Saturday that is superior to anything we ever saw away from a railroad, and rivals the best anywhere. He did not get a mirror for the simple reason he did not have the room in his present building. It has a highly polished granite slab on top and around the base, is fitted up with all the latest accessories and the beautiful chandelier on top the marble fount is fitted for electric lights, and when we get our light system working, we will have just as pretty fountain and Drug Store as any town.

Mr. Randal has confidence in the future of Brownfield, and deserves the patronage of the public.

When in Lubbock don't forget that Long Bros. have a splendid stock of groceries and racket goods. Call in to see them.

Brownfield May Have Electric Light Plant.

Everything is taking definite shape for a 200 light dynamo to be placed in Brownfield at an early date.

Just now we are not at liberty to disclose the names of the parties interested, but will say that they have plenty of capital to back the enterprise and enough lights to make it a go. Mr. M. V. Brownfield alone has donated \$100 and will light every building he has in town. The owner and manager has had years of experience at the business and is a local man.

Herald will keep its readers posted and believe we will have something definite to give out in the near future.

We respectfully call your attention to the McAdams Lumber Co's., ad in this issue. When in need of lumber, it will pay you to see them at Tahoka.

W. H. Manley, of Perry, Okla., a brother of Mrs. J. T. May, is visiting the later. He is here for some time to try our climate for asthma. He likes our country fine and says it is benefiting him wonderfully.

J. O. Jones, the hustling stock farmer of the southside, came in Monday and wiped up his back subscription and paid a year in advance. Many thanks kind friend, "The Herald's home is that nearer paid for."

REMEMBER that we are not only agents for the Semi-Weekly News, but the Daily News as well. Now is the time to prepare to keep tab on the National Campaign now as hand. Get the Daily News habit and you wont quit soon.

RABBIT TRAP HAS OPEN END

Scheme Devised to Capture Pestiferous Little Animals in Groups of Two or More.

In response to a query as to how to make a rabbit trap that catches more than one animal without being reset a writer in the Kansas City Star gives the following instructions:

Make the box 4x4 feet and bury it in the ground so the bottom of the trapdoors which extend out on either side will come level with the surface of the ground. Make these trapdoors

Open-End Rabbit Trap.

so the inner ends will pass when tilted. Hang these doors on pivots where they cross side of box, and have outer ends a little heavier than

inner end so when the rabbit is off the board will swing back to its horizontal position again.

Sides must be nailed to edges of door inside the box so rabbit will have to pass off at the ends, the inner end being entirely open so when rabbit comes along and sees bait (which is hung under center of door in top of box) it also sees straight through box and thinking it can pass through and eat of bait, it tips the trap and falls into box.

I have known as high as 15 to be caught at one time. Use an apple or corn for bait and set trap somewhere in a rabbit trail, and it is best to place the box about six weeks before using it so things will look familiar. Use stick fastened to underside of door in top of box to fasten bait to. We have splendid results from the use of this trap.

When the hogs are watered with patent waterers both the drinking part and the barrel should be kept clean and sweet. A lump of quick lime dropped into the barrel occasionally will keep it pure.

To disinfect yards that have contained diseased fowls, dissolve one pound of coppers in two gallons of boiling water. When cold add one gill of sulphuric acid. Use a sprinkling can and sprinkle every part of the yard.

Should Fix Wagon Road to Brownfield

People Will Come to Lubbock to Trade if Sand is Moved

Lubbock wants the western trade, you bet! The people of that section want to come to Lubbock too, to do their trading, but there is a slight requirement that the trade in Terry, Yoakum and away over in New Mexico, demand of Lubbock and it is not beyond our reach either, and that is to clear out about a mile of heavy sand between here and Brownfield. It is our understanding that this can be done, putting the road in fine shape for not exceeding \$250. That being the case, not another day should be lost in getting busy on the proposition and raising the money by popular subscription for this purpose and put the teams and men to work on that portion of the road immediately.

The merchants of this town should expect a heavy trade from the country west of us this fall and winter. The grain and coal dealers, the lumbermen and the wholesale merchants should at once take thematter up and interest enough in the improvement of this road to raise a sufficient amount of cash to have the work done. It will not cost any firm in the town more than \$25 and if all take an interest in it, that will be directly benefited, it should not cost over \$5 each; so lets get busy. We are confident that we can count at least half of the amount now that will be willing to contribute toward it.

We believe we will state in this connection that the Avalanche will have in its office a subscription list for this purpose and ask all who are interested in this improvement to call at our office and put their names down and the amount they are willing to pay and we will turn it over to a committee to be selected by the business men's league of the city to make further investigations and to let the contract for the work. We believe that if necessary that Brownfield will cooperate with us in this road proposition and it would be a good idea to confere with them anyway as they have had considerable experience with sandy roads that we have not and might be able to save us considerable money in connection with the work. At any rate get busy! Let Lubbock business men take the lead. We are confident we can get help all along the line.—Avalanche.

In this connection we want to say that we had a talk with one of the Commissioners this week and he was inclined to think that if Lubbock would raise \$250 to be used on our roads, that the Commissioners would open a road running straight on north from Lover's Lane to the line of Hockley county and clay and grade all the sandy places.

Now here is the point we wish to drive at. If this money is used on a public road instead of a near shoot, it good effect will stand for years. Again; after traveling this north road about nine miles, one will intersect the Lubbock Plains wagon road that is in good shape from there to Lubbock, and while lacking about four miles being as near as by Meadow, would be much super-

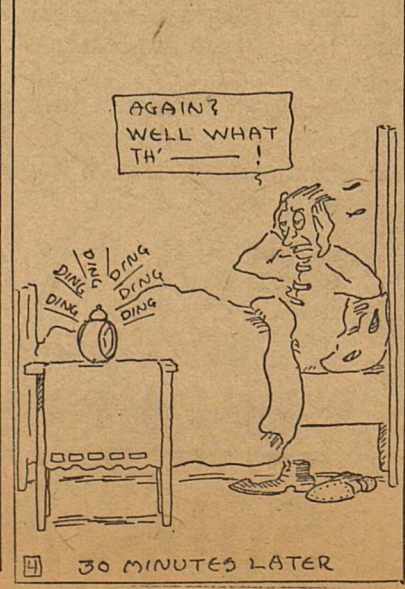

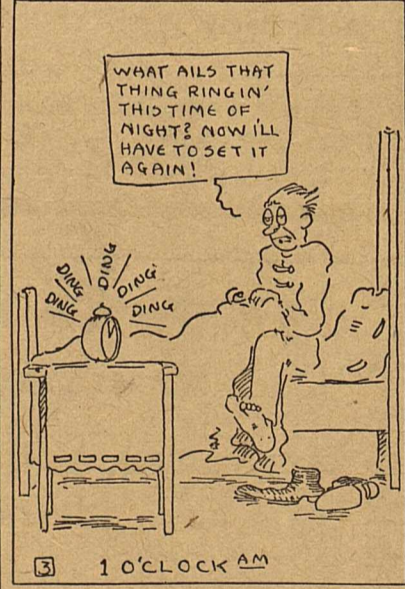

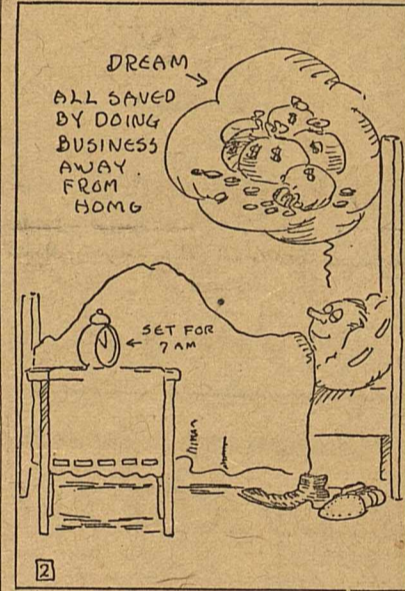

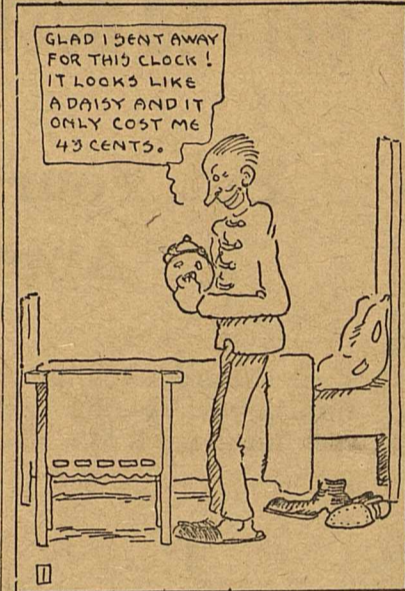

ior to that route; a comparison is out of the question.

Now let the Lubbock business men come on with a good donation. Tahoka gave us \$150 on our road and we believe Lubbock will go \$250. Let the Terry county people do their part also. and we believe the Commissioners will do theirs. Let us have a good wagon road to Lubbock by all means.

There is no longer certainty of a crop of fair fruit without spraying with insecticides, no matter how propitious the season otherwise or how fertile the orchard soil.

Proof piles up that there are scores and hundreds of dairy cows that are not paying their way while many others are making a handsome profit for the owner. Which kind do you keep?

Be sure to cool down each skimming before putting it into the cream jar or storage receptable. Then keep it cool ready to ripen with the prepared starter.

With dry corn stalks and hay for roughage, one would want to feed pretty liberally and would hardly expect to have the cows eat up this roughage very clean.

One of the great advantages that come from getting a catch of clover on the light soils, is that the clover roots make humus, or decaying vegetable matter in the soil.

Make a small paper cover and place over the mouthpiece of your telephone to keep out the dust which will gather and is finally breathed into the lungs of the person who is speaking.

There is much talk now and discussion in the creamery circles to have a butter standard instead of a moisture standard, and it is probable that this will be worked out and in all probability the standard will be fixed at 82½ per cent. fat for butter.

A great mistake that many dairy-men are making is the placing at the head of their herds a bull of feminine appearance. In addition to having lineage of high producing dams the bull should have a distinct masculine appearance about the head and neck.

WEALTH OF FARMER GROWS THE FASTEST

RURAL INCREASE 117 PER CENT
AGAINST CITY'S 59

121 NEW TOWNS IN TEXAS

During the past decade the value of our property assessed as town and city lots, which includes the lands and buildings within our city limits, has advanced in value from \$189,760,828 in 1900 to \$506,255,238 in 1910, making an increase of \$317,495,410 or 167 per cent, but city property not being rendered at its true value it is likely that its actual increase in value will exceed \$600,000,000. No attempt is made to separate the value of the buildings from the value of the land within our city limits by either the State Comptroller or the Federal Census Bureau and the information is therefore not available.

The Federal Census shows that we have built 121 new cities during the past decade, and our city population has increased from 559,872 in 1900 to 938,104 in 1910, making an increase of 378,232 or 67 per cent. We now have twenty cities with ten thousand population and over, and three cities that approximate 100,000 in population.

The per capita increase in wealth of city population, taking the assessed value of city lots and buildings as a basis, has advanced from \$339 in 1900 to \$540 in 1910, making an increase of \$210 per capita or 59 per cent.

Compare these figures with those of the per capita increase in farm wealth and we find the farmer has made an increase of 117 per cent against an increase of 59 per cent within our cities. These figures prove that we have greater opportunities on the farm for money making than in the city and if our citizenship could fully appreciate the force of this comparison it would turn the tide of our population back to the soil.

Texas has probably suffered less from the rush of its citizenship from the farm to the city than any other State in the Union. While our cities have shown a rapid increase in population our farms have considerably more than held their own. Our cities have been built up by immigration, inter-state and foreign, and have drawn very little from the farms.

9-11th

Mr. and Mrs. Tawver, of Floyd county, accompanied by Mrs. Tawver's parents, Mr. and Mrs. Reed, of New Mexico, passed through last week on their way to Floydada.

Mr. Ross Wingo, of Plainview, who has been spending a few days here visiting his brother, returned home Monday to enter school.

Mr. Baker came in last Friday after spending some time in Scurry county.

In last weeks news items, the statement that Revs. Harris and Cornelious would begin a meeting here Friday before the 2nd Sunday, should have read, "Friday before the third Sunday."

Mr. Herring has traded for the Jackson Hotel at Lubbock, but we understand he will not leave us just yet.

Mr. Redding and family moved away last week. They will probably stop in Lubbock. A certain young man in Gomez will have further to go now.

Mrs. McMillian called on Mrs. B. Clare last Monday.

Mr. Wingo started to Lubbock last Monday to take his brother, Ross. He will bring back some groceries for Harris store.

Texas Needs Great Men

XVII. QUARRELS

THREE hundred times the Imperial City of Rome witnessed the triumphant procession of her victorious generals celebrating conquests in all parts of the world, and for nearly a thousand years she levied tribute upon three continents; but, weakened by the quarrels of her Senators and the strife of her leaders, she became an easy prey to the barbarians. There is no more pitiful sound than the moan of a nation writhing in the throes of internal dissension.

QUARRELSOME LEADERS

Let those who search for power understand that no nation can endure leadership that plunges in the tidal wave of unrest, like a maddened soul bellowing with rage and belching forth flames of spite and hatred hot from hell, and that no country can prosper while cringing under the leaden heel of partisan and factional strife, which blights it like terrors fresh from the devil and are as bitter as the dregs of sin. Texas needs great men.

Railroad Plow and Two Fresno Scrapers

The Commissioners received a big railroad plow and two Fresno scrapers from the J. I. Case Company, last week, which will

be kept in the Court Park, and may be used on any county road at the overseers direction, by seeing the proper authority, who is Judge Neill, we presume. Terry county people not only spends more money on roads, but have the best roads of any sandy land county on the Plains. And still we keep building them.

Resolutions.

In that the Death Angel has visited the home of one of our fellow teachers, A. G. Harrison, and has taken from him his beloved mother,

Be it resolved: that we, the members of this Institute, extend to the bereaved family our sincere sympathy and condolence,

Be it further resolved: that these resolutions be spread upon the minutes of the Institute and a copy sent to Mr. Harrison.
