#### "Lige" Andrews Killed at Roswell

At Roswell N. M. in Baumer Park, last Friday afternoon just after the goat roping contest in which Lige Andrews won \$25 of the purse, Lige's neck was dislocated, his horse falling with him. Lige, Jerdon Woolson and Clabe Kyle were after a loose horse when Lige's horse ran against Clabe's horse and fell, so it is reported here. Lige tried but could not get out of the saddle in time. The accident occurred between 3 and 4 p. m. and he died about four hours later, not having regained consciousness. Lige was 25 years old and is survived by his parents, two brothers and a young sister living at home near Knowles and two married sisters.—Knowles (N. M.) News.

Mr. Andrews was known by many of the old timers and has been in a number of roping contests in Seminole. He was held in high esteem by his cow-boy friends, which fact is evidenced by the following clipping which appeared in the Roswell Register Tribune.—Seminole Sentinel.

"Andrews had many friends on the field and many of them wept as he lay unconscious on the ground. One man who pleaded with the crowd to stand back, and with the physicians to do all in their power, said as he was at Andrew's side, bathing his face: "There lies the best friend I ever had, boys." Tears filled his eyes and when he was able to speak

again he continued, 'Lige was as good and honest a boy as ever lived.'"

#### Harris Happenings.

Oct. 30

Rev. and Mrs. A. D. Jameson closed a meeting here Sunday afternoon and returned to Gomez. Miss Emma Spear was converted and joined the Methodist Church during the meeting.

Ellington Bros. moved their calves to Meadow this week to wean them.

Mr. Baker made a trip to Lubbock last week after freight for the Harris Store.

F. M. Ellington is attending court in Brownfield this week.

Lynn and Glean Harris arrived from South Dakota last Saturday. They came through from Clark, South Dakota, in an Automobile, making the trip in 81-2 days. The boys enjoyed their summer in Dakota just fine, but they are glad to get back to Texas where the winters are not so cold and where they can eat "good old southern biscuits." Mr. Baker is helping Brit Clare head maize this week.

Mr. Herring and little son came down from Lubbock last week after their stock and the remainder of their household goods.

Mrs. Robison and little ones from Gomez, visited her parents Mr. and Mrs. J. C. Dooley last Sunday.

Roy Harris traded for two more young mares last week. Roy will soon have a bunch of horses if he keeps on trading for them.

#### Sneed Granted Bail

Dispatches from Austin state that Beal Sneed has been granted bond in the sum of \$20,000 00 by the higher court for the slaying of Al Boyce at Amarillo, thereby reversing the opinion of District Judge Browning. However, Judge Pendergast desisted from the opinion of Justices Harper and Davidson, saying that it was his opinion that the sum should be at least \$35,000 00 if a bondable case at all.

#### Died

At her home on Red Creek Saturday, Sept. 14, at 3 o'clock, in the afternoon, Miss Frankie Gentry passed from this life to the one beyond. She had been ill only a few days when the Death Angel came to claim her. Thus the all wise God of heaven has called another jewel to Him another home has a vacant chair which can not be filled another community is filled with sore and bleeding hearts.

This fair creature with whom we have just bade farewell leaves a spotless record; since early girlhood she has lived a devoted Christian life. Her merry cheerful disposition, her innumerable acts of kindness, have linked the cord of affection so closely to our hearts that its severing makes a wound that can never be healed; time may partially soothe our sorrow but never wholly mend our broken hearts. To the loved ones it seems almost impossible to

struggle on to fight life's battles without her. Deceased being placed in the most beautiful white casket her many sorrowing relatives and friends followed this young lady's mortal remains to Red Creek Cemetery where at 3 p. m. Sunday, they were laid to rest.

We now live by the sweet hope that at no distant day we shall again meet our lost treasure in a land where there shall be no more goodbyes.

#### Doings in District Court.

District Court convened Monday morning with Judge W. R. Spencer on the bench, and Hon. J. E. Vickers representing the State.

The Grand Jury was at once empaneled, and thoroughly investigated one case, but after two days deliberation was dismissed, failing to find a bill.

There being no criminal cases the following civil cases were tried Tuesday and court adjourned to next term.

Caroline a Bailey Executrix of Willis Bailey deceased vs. J. R. Lanier. Judgment for plaintiff in the sum of \$2548.38.

Elizabeth Griffice vs. Jno. Q. Bradish, suit to remove cloud from title. Judgment for plaintiff.

First National Bank of Tahoka vs. T. J. Pruitt. Non-suit.

Molley Brabson et al vs. M. V. Brownfield, continued to next term.

John Penny vs. L. S. Gamble

et al. Judgment for plaintiff in sum of \$1049.40.

John Daughery vs. Wilbur F. Faulley; suit to remove cloud from title on land. Judgment for plaintiff

Henry Shaffer vs. Garret H. Block. Judgment for defendant in sum of \$5267.50

C. F. Morris vs. G. E. Lockhart. Judgment for plaintiff for sum of \$843.00

A. M. Brownfield vs. R. J. Heflin et al., for recovering of all of north half of Survey No. 103 in Block T. Judgment for plaintiff for all except the Alexander tract.

D. C. Walker et al. vs. A. B. Halbert & Sons. Dismissed at cost of plaintiff.

J. B. Stone vs J. T. May et al. Continued to perfect service.

Lee Allmon acted as door bailiff for Grand Jury.

J. F. Winston, W. M. Adams and A. M. Brownfield were elected by court as Jury Commissioners to select the next list of Grand and Petit Jurors.

### TEXAS HOSPITALITY

We Shake Hands With 250,000 Tourists and Welcome 69,000 Immigrants Annually.

True Southern Hospitality abounds in Texas. We frequently visit each other at our homes, shake hands with 250,000 tourists and welcome 69,000 immigrants annually to their new Texas homes, and royally entertain many National conventions. We have many parks and public places for recreation and amusement.

We are equally as generous and hospitable to capital. We have given the right of way to railroads, factory sites to industrial enterprises, built a new town every thirty days, opened up 6,418 new farms per annum and looked after the comforts and conveniences of all forms of investments, in addition to cultivating 10,000,000 acres of cotton, 8,800,000 acres of corn, 1,252,000 acres of wheat, cut 1,310,000 acres of grass, gathered fruit from 25,000,000 trees, taken care of 13,000,000 head of live stock and manufactured \$178,179,000 of raw material, as well as run the errands of civilization. We are doing considerable construction work, and we offer no apology to visitors for our physical appearance, as our trash is the litter of the work-shop and our dirt the smudge of toil; but we are always glad to answer questions and never too busy to show visitors through our storehouse of opportunities; in fact, our liberality with our advantages has been the marvel of visitors and the opportunity of outside capital.

#### We Are Good People.

Texans have all of the nobler impulses of human life, and many of our virtues abound to an unusual extent. We entertain capital, and take care of a multitude of investors. We are perfectly frank in our statements and honest in our views and transfer the title of magnificent opportunities to fortunate purchasers without envy or jealousy.

When you start to Terry, don't let them head you off with the cry of just as good. Tell 'em you're headed for the Blue Ribbon county, that there's none so good. Come straight to Terry.

Next Tuesday is the day and

CLEVE WILLIAMS, the confectioner

your poling place is the place to stack them up for WILSON. Don't forget the time and place.

We have always believed all along that there were no Republican papers on the Plains, but it seem we are mistaken for the Lynn County News had about two pages of Taft-Sherman dope last week. Why, Bro. Crie, we thought we had taught you better since you came South? Come to Terry.

We grown folks are mighty apt to place ourselves away above the small boy or girl, and really think their mind carries no further than mere infantile deliberations, which we consider silly babble that bears no higher thoughts, but we are only "wise in our own conceit." For instance only this week a little fellow of only about three summers ran off from home and upon striking papa announced suddenly that mamma wanted him home, when in reality his mamma didn't know where her child was that minyute, but you see the little fellow just wanted a wee excuse for coming to town, just like papa does when he gets home late, and was willing to fib just a little to have smooth sailing with papa. Yes their little minds think of something besides silly babble some times. They are so keen of wit that they often get their sayings in comic sections and can ask their parents such pointed questions that—well, the answer they receive such as go along son, papa's busy now—show conclusively that papa's not often able on the spur of the moment to answer its questions, and his excuse is nothing more or less than just begging time.

For the benefit of the Postmaster General, and the prying Administration, the Herald will publish next week a statment of who is owner, editor, manager and publisher of the Herald,

which will simply show Stricklin to be the whole shebang. We have reasons to believe that this will be the last of the affair as the Journal of Commerce suit against the Government is now pending before the Supreme Court, and we believe that body will declare the measure unconstitutional from the standpoint of this being a stab at the freedom of the Press. Besides, a new President, House and probably a Democratic Senate with a Democratic Postmaster General, who have always stood for freedom of press and speech, will repeal all such Tom Rottery. As for the Herald, we are not ashamed to disclose it ownership, management, etc., to the world; indeed, we publish the fact at the head of our editorial columns in each issue, but the reason we kick is simply the fact that it is a discrimination. If we have to disclose our ownership, bondholders, etc., why don't they also demand as much of all other public and private businesses? Why?

We noticed in the Dallas News that among other Texans to whom patents were granted, one was granted to Joe W. Black of Gomez, on a currycomb. While we have not seen the article in question, the mere fact that a patient was granted a boy scarce ly seventeen is some rep, and we expect to see Joe numbered one day among the great men of our country.

#### On Deck.

After a vacation of six months, I am back in the Harness, and you will find me back in harness behind the counter, ready to serve my friends and the general public in my same old fashion and courteous way. Live and let live, is my motto. Come to see me and I will tell you the rest.

## The Manufacture and Sale of Lumber

ANNUAL FACTORY VALUE OF LUMBER OUTPUT  
\$32,000,000.

The Texas forests have built the nation's homes; our lumber is the foundation material of empires and our timber runs the factories of the North and East. The Texas forests are equal in area to the German Empire and the timber growth during a year is equal to one and a half billion feet. We have in our forests 35,000,000,000 feet of marketable timber. Lumber leads all other industries in the value of the manufactured output.

The manufacture and sale of lumber is a subject that will be considered by the Texas Welfare Commission. Jno. H. Kirby of Houston is chairman of the sub-committee having the subject in charge.

NOTICE—We want the fellow who took the feed fork from the mill to please return same. Mill & feed Co.

In returning from Marshall and the Dallas Fair, Will Alf Bell found passage with L. B. Minor from Lubbock to Brownfield and of course Minor came down at his usual reckless speed, when he struck a large gas pipe laying across the ruts, which jolted the passengers nearly out of the car and sprung his front axle, that caused him to loose control of the car which turned out of its course quickly, throwing out and right painfully lacerating Bells face. before he could gain his equilibrium from the jolt. He denies being boozey.

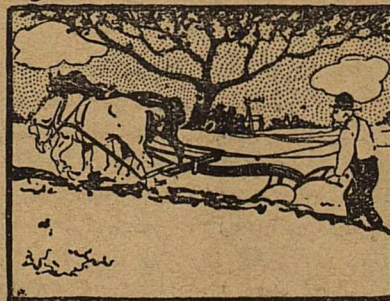

no improvement on it for artistic delicacy, for beauty and for quality. In subtlety of likeness, nothing ever has equaled the daguerreotype of seventy years ago, and those who possess any of them should treasure them as the choicest heirlooms.

"Most styles move in cycles, and it is the same with photographs. Many photographers are taking up the daguerreotype again. In view of the advance in photography, it is now possible to make daguerreotypes that are permanent, for the originals were wont to fade when exposed to light. That's why they were always put in covered cases.

"There is at least one very good reason for the daguerreotype being better, and that is that there is nothing but the camera lens between the subject and the picture, and the only loss is the reversal of the subject. Another thing is that the highly polished silver plate of the daguerreotype makes possible the greatest amount of detail, and the softer shadings, much of which is lost in photographs today by the rough surface of the emulsion on the negative, by the opaqueness of the glass in printing, and the unevenness of the paper."

## TEXAS PROGRESS

A Magnificent Prosperity Awaits  
Texas Investors.

All things come to him who waits, but in Texas you don't have to wait long. The tide of civilization is rushing into Texas like a surging sea; our mines are opening up like springs flowing from the mountain side; our farms are pouring forth a stream of golden riches into the channels of trade, and our factories are belching forth fumes of newly-made wealth—all uniting in forming an industrial current that is carrying ownership to prosperity. Man's persistent enemy—Father Time—is making a contribution of a half million dollars per day to the property owners of Texas, and this heritage is shared by all who become identified with our progress and its distribution is made with the equity of nature and falls as gently and universally as the dew from heaven. No subtle hand can divert it, and no siren voice allure it from its ordained destination. It is yours if you will stay with us.

More important than money is opportunity. We have a young, vigorous civilization yet in its 'teens that is beginning to unfold its powerful agencies for progress, and one that can give greater dividend to honest effort than any other country on the globe.

**We Are Practical, Prosperous  
and Progressive.**

We have taken the wild shrubs and herbs and by working intellect into the soil and inspiration into vegetation have developed fruits and vegetables sought after by the markets of the world. We have builded cities and dotted the valleys with happy homes, and have made greater contributions towards the progress and prosperity of the nation than the citizens of any other state in the Union.

### Go to the Polls and Vote

Here is a final appeal to Democratic voters, written to Herald by Senator Josephus Daniels of Virginia:

"As a Southern man, I know the difficulty of getting out the fall vote in an election when there is no need for it to secure the election of our candidates, but in this campaign you will appreciate the importance of Wilson having cast for him in the ballot box every vote to which he is entitled. I am therefore writing to beg that in every issue of your paper, from now until the election, you will call upon your people to come out and vote so as to poll the full Democratic vote for Wilson and Marshall. If this is done in every Southern State, Wilson and Marshall will not only have a majority of the electoral vote but a majority of the popular vote. You appreciate the importance of this. If he is elected only by a plurality, the Republican and Roosevelt parties will say that by uniting they can defeat us next time, whereas, if the Democrats have a majority over both, the opposition four years hence will find it difficult to give us trouble."

THE YOUTH'S COMPANION  
FOR 1913.

The Youth's Companion appeals

to every interest of family life, from housekeeping to athletics. It begins with stories of youthful vim and vigor, with articles which disclose the secrets of successful play in the great games, with charming tales of life at the girls' colleges. But the companion does not surrender these readers when they have entered the more serious paths of life. Mothers will welcome the page for little children and the weekly doctor's articles. Fathers will find the imported news of the day as it is, and not as it is rumored to be. The entire household will appreciate the sketches which touch gently on common foibles or caricature. In short, for less than four cents a week The Companion brings into the home clean entertainment, pure inspiration, fine ideals, increase of knowledge.

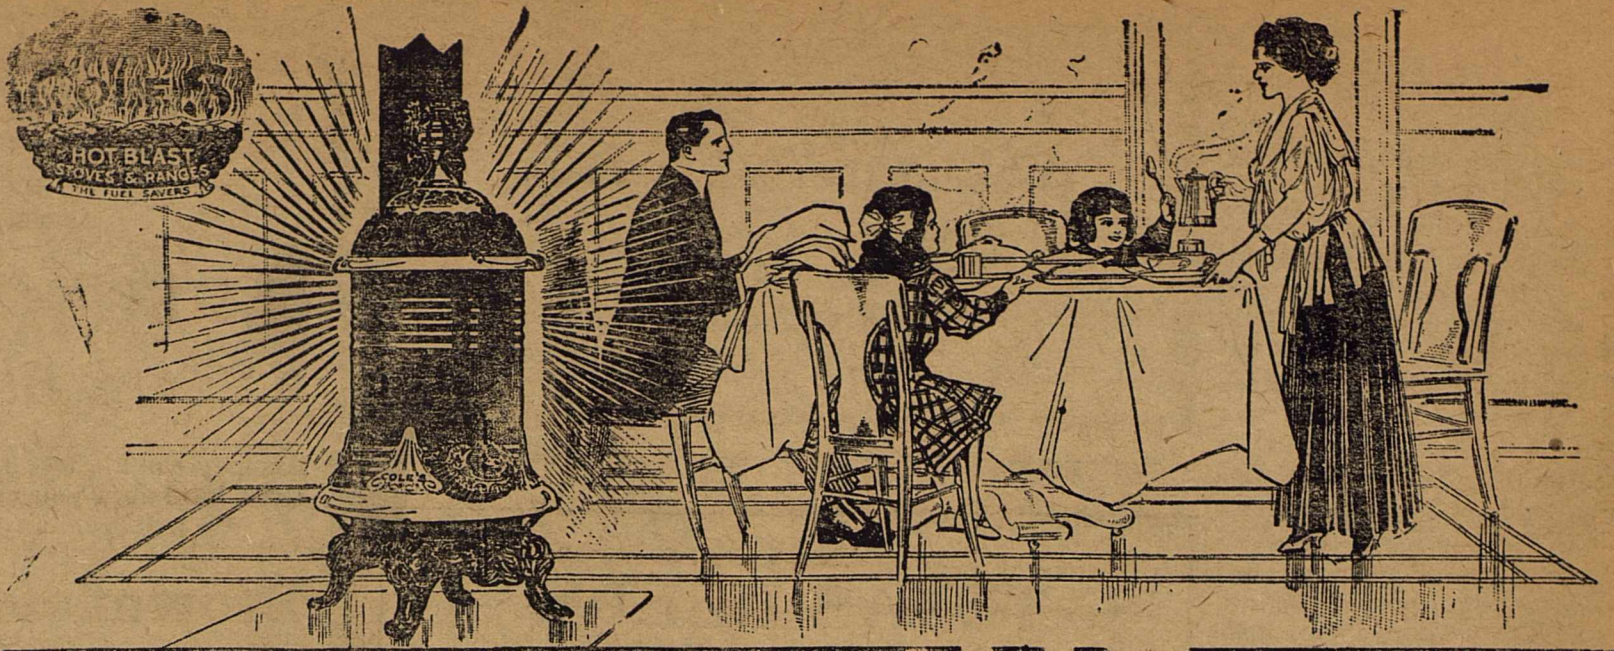

Names rarely seen in tables of contents will be found in The Companion's Announcement for 1913, which will be sent upon

James Burnett made a trip to Tahoka this week after coal but reported the dealers temporarily out of fuel. Jimmie brought back a nice ad for the Herald.

## Your Breakfast Room Made Comfortable With Fuel Supplied the Night Before

Cole's Hot Blast Heater maintains a continuous fire—also a steady even heat. It will hold fire from Saturday night until Monday morning (48 hours) without attention. It will hold fire over night with less coal than any other stove.

Open the drafts in the morning and the rooms are quickly heated with the fuel put in the night before. No other stove does this.

Burns Soft Coal, Slack, Siftings, Hard Coal or Lignite. One ton of either kind of fuel goes further and gives you more comfort than two tons, using any other kind or make of stove.

Your attention is called to the unparalleled statement made by the manufacturer of

## Cole's Hot Blast Heating Stove

"For several years we have authorized our Agents to sell Cole's Original Hot Blast Heater on the guarantee as follows:

- "1—A saving of one-third in fuel over any lower draft stove of the same size, with soft coal, slack or lignite.
- "2—That Cole's Hot Blast will use less hard coal for heating a given space than any base burner made with the same fuel.
- "3—That the rooms can be heated from one to two hours in the morning with the soft coal or hard coal put in the stove the evening before.
- "4—That the stove will hold fire with soft coal from Saturday night until Monday morning.

- "5—A uniform heat day and night, with soft coal, hard coal or lignite.
- "6—That every stove will remain absolutely air-tight as long as used.
- "7—That the stove door is and will remain smoke and dust-proof.
- "8—That the stove's Non-Puffing Draft will prevent puffing.
- "All stoves that the stove shall be operated according to directions printed with a good flue.

**GOMEZ DOTS**

Oct.

Grandpa Bridges and wife, also Wiley Bridges and wife, left Sunday morning for Tahoka, where they will take train for their future home in Arkansas. Quite a crowd of relatives from here accompanied them to Tahoka; Charley Moore and wife, Sam Funderburk and wife and Mrs. F. C. Black were part of the crowd. We regret to lose the Bridges families from our midst for they are good people in every sense of the word and possessed the love and good will of all their neighbors. As they have only leased out their land we hope they may return here to live.

Mr. Tom Conally, who lives near Harris, was in Gomez Monday.

The little Leach baby is improving.

Well there may have been a deficiency in cattle in some places during the past season, but decidedly it was not in Terry county. We have seen more herds pass through Gomez on their way to market or east or northern pastures, during the past six weeks than we ever did in the same length of time when this was all a ranch country. The only one we have seen going west was a very large one that was carried to Will McPhaul's ranch the middle of this month.

Walter Gainer left for Tahoka last Monday morning. He was hauling a cow and calf over there to Atty. Lockhart and will bring a load of freight back.

R. W. Glover left for Tahoka Monday for a load of coal.

An auto from Roswell, with three men aboard, passed through here on Monday. They were on their way to St. Louis, and will go through in the auto.

Mesdames J. T. and W. B. Hays were trading in town Monday.

Carl Sams, a former Terry citizen, but now living in New Mexico, was in on business and stopped at the Hotel here on Sunday.

Mr. Lipscomb from the Shepherd farm was in trading Monday.

Ben Hurst came in Saturday and stayed until Sunday afternoon and carried Mrs. Hurst home, who had been spending the week here visiting her parents.

Rev. A. D. Jameson and wife, came in Sunday night after more than two weeks absence holding meeting in West Terry and Yoakum.

Miss Zellica Knox visited Mrs. Simon Holgate here Sunday; also Uncle Horace Adams and wife and Aunt Lou DeShazo, were all here from Brownfield.

We learned over the phone Sunday that a son of Mr. Jim Yeates was thrown from a horse and seriously hurt.

Joe Youngblood whose father owned a place two miles west of Gomez, some years ago, but now lives in southwest Texas, is visiting friends near here. He is out at Mr. Snodgrass' at this writing.

Mrs. J. T. Gainer came in from Cal., last week. She stopped over in Brownfield until Monday and went on to Plains. She did not stop in Gomez.

**TEXAS NEEDS  
GREAT MEN**

**XXXIV. BEAUTY**

**T**HE GREEKS loved beauty, but ugliness gave them a pain like a blow. They planted in human life a love for the beautiful which has lifted mankind into a brighter world and widened the horizon of human happiness, and the lives of their great men were models of human effort and examples of marvelous achievement which have encouraged and inspired the world.

There is no nobler deed than to plant in the garden of civilization flowers that will blush and bloom and shed their fragrance to future generations.

**THE GREEKS LOVED BEAUTY.**

Let those who would pluck roses of fame, plant seed thoughts that will blossom along life's highway and laden the atmosphere with progress; scatter prosperity germs in the life of state that will flourish and bring forth the fruits of industry and open up the gates of wonder on a world of opportunities as inviting as a night sky full of stars. Texas Needs Great Men

Mr. and Mr. Woodard, also Mr. and Mrs. Parks were in last week having dental work done.

Mr. Lemly came in from Lubbock Saturday evening with a load of freight. He was accompanied by his father and two little daughters from Fenley, Ohio. We extend a hearty welcome to the new comers and hope the little girls may make their future home here with their father, as they were very pretty and pleasant looking little ladies, apparently about ten years of age.

Well if this weeks grand jury don't find out some law violations, it will be because there has been none; or else some of our citizens suffered from "loss of memory" for the men of entire west and south side of the

county and part of Gaines, have been called before that body.

Say we failed to make our box supper notice plain; the proceeds of the supper are to go to the fund to purchase a piano for the public school so the pupils who take music will not have to leave the building to take their lessons. But the main object of the Halloween party was just a general good time for all.
