BROWNFIELD, TEXAS

More Silos Needed In Terry County

C. S. News Service

The Farmers' Union has been conducting an exhaustive investigation into agricultural conditions with reference to the cost of producing and value received for farm crops with a view of recommending a substitute for cotton as that industry is already suffering from over-production. In discussing the subject, President Radford of the Farmers' Union said: "The Lord made the greater part of Texas a cotton country and it will always remain the money crop of Texas so long as the farmer markets his crop direct from the harvest field, but I believe with plenty of good livestock and a silo a farmer can successfully raise feed stuff and he will be justified in planting less cotton and raising more livestock."

The Federal Census reports show that we have 14,080,936 head of livestock in Texas, and 96 per cent of our farms reported domestic animals.

There were 233 farms in Terry County that reported livestock when the Thirteenth Census was taken according to a report just issued by the Federal Department of Commerce and Labor and the total number of domestic animals on these farms numbered 32372, which has a combined value of \$762880. Cattle is the predominating class

of livestock in this County as shown by the following table:

Kind	No.	Value
Cattle	25554	\$525894
Horses	2190	\$140324
Mules	716	\$65087
Asses and burros	42	\$11247
Swine	1282	\$7122
Sheep	2569	\$13135
Goats	19	\$71
Total	32372	\$762880

Bank Directors Meet.

The officers and directors of the Brownfield State Bank met in annual session in the office of the bank Wednesday.

Among other business transacted, the same officers were held over; M. V. Brownfield, Pres., A. D. Brownfield, Vice Pres.; Will Alf Bell, Cashier. Also same directors; M. V., A. M. and A. D. Brownfield; Will Alf Bell and Jno. S. Powell. The directors declared a dividend of 10 percent.

Officers of the institution expressed themselves pleased at the showing made in reduction of overdrafts during past year; books now showing only four accounts amounting to \$82.66.

To get prompt service and quick delivery, please phone in your orders early on delivery day. Goods are often ordered at the noon hour, when we can't give quick service.

May & Wright

Nothing Like Terry.

Obrien, Texas June, 1913

Mr. A. J. Stricklin

Dear Sir:—This is to notify you that we are getting on all right. Hope you and all my old friends are enjoying the blessings of health.

We sure have passed over some Lard looking country. Sure hot and dry. Haven't seen anything that looked half as good as old Terry, and the way we craved a drink of old Terry county water.

I am going to start from here tomorrow. Sure have been disappointed about not getting the Herald. Mail one or two to Quanah, Texas, will be there about two weeks. Send the one I subscribed for to Tom Williams, Obrien, Texas.

Hoping to hear from you soon through Herald, I remain as ever your Brother in

F. L. T.

W. D. Williams

Infantile Parralysis

Dr. T. L. Treadaway reports a case of anterior Polyomyelitis, miscalled infantile parralysis, out at John Burnett's. A little three year old child has a well developed case, but we are glad to report it some better at this writing. This dread disease among children is raging in Ark and in and around Burnett, Texas, having carried away

many children.

The disease, we understand, is infectious, and the Federal Health Officers blames the common stable fly for the transmission of this disease. Herald would advise every reader to see that all stables, stalls, cow and pig pens are kept clean and use plenty disinfectants. A united effort on the part of all citizens will rid our premises of these germ carriers.

Good Rain Sunday.

One of the best rains of the season fell here all day Sunday; just a regular old slow wet-the-ground sort that all soaks in right where it falls, and don't pack the ground a particle. It started in with a dense mist after day which turned into rain about 9 a. m. and continued until after dark that night. Probably between 3-4 and 1 inch of rain fell here.

Reports say that over four inches fell in Lubbock and between five and six inches fell at Post, measured by the Government gauge. The rain got lighter west of here.

Probably the south Plains country was never in better shape than just at this time.

Messrs. Homer Scott, Robt. Forrester and their families, and Clay Hughes, have gone down below the cap-rock to gather wild plums.

Meade's Men Meet Lee's at Gettysburg.

Gettysburg, Pa., July 1.—Forty thousand old veterans of the war between the North and South are encamped on the field here, the scene of the greatest battle of the Civil War. The old men are survivors of the armies that oppose each other fifty years ago in that bloody struggle, but they meet as friends and comrades, now, not as foes, of the fiftieth anniversary of that mighty engagement. They have lived long enough to forget past bitterness, and to remember only the courage and the soldierly qualities that made Gettysburg one of the greatest battles of the world's history.

Business is Business.

But to continue in business, it is very necessary that we collect the money we sell the goods for. Therefore customers owing these past due accounts must come in and make settlement. All please note this fact and make prompt settlement. Very Respt.
May & Wright.

Jack Bryan was in this week and reports fine grass, a fine crop coming to fill his silo, peaches smiling on the vine and the beans hanging thick on the trees. He seems to just love every body.

SPRING TIME IS FENCING TIME

Every farm and ranch fence should be thoroughly overhauled each spring, and we want to announce that we have the wire, post and stays at right prices. Don't overlook the fact that we keep the very best coal to be had, and choice feed for stock. Come in to see us.

My! but aint old Terry the trick. A grasshopper could get work here this fall, but we rather not use them.

People are not studying so much about "What will the harvest be?" but "where are the reapers?"

No more sad-faced cows in Terry. They all looks as if they would just as soon run through you—just for fun.

Write your friends that if they ever aim to see God's chosen country on earth, they had better come to Terry this summer.

Oh! that we had a railroad that we might ship out our tons and tons of vegetable and feed that will go to waste in Terry this year, such as beans, peas, tomatoes, onions, potatoes and all kinds of feed. This editor has a vegetable garden 50x100 feet that will supply a half dozen other families, and almost everyone else has one just as good or better.

The weatherman has treated the South Plains like a big stepson for the past four years, but has done herself proud under the heavy chastisement. Now, however, it seems that the above august gentleman has finally cast his eyes across the bosom of the universe, and has discovered the possibilities of this fertile domain and is not averse to trying it out under favorable circumstances—some rain with our abundant sunshine. Truly the plains has on her gladdest rags.

A School of Journalism will be established at the University of Texas at the coming session. The establishment of this school is in response to a popular and wide spread demand from all parts of the State. The Woman's Press Association of Texas, Lieutenant Governor Mayes, former president of the National Press Association, and the students of the University who are interested in journalism, have been insistent in their demands for its establishment. The school will be firmly entrenched upon its inauguration, as it is intended to have a professor and two instructors in charge.

Some have asked us to boost the picnic, but a Terry county picnic don't need any boosts, so for as getting a crowd is concerned. The main trouble is getting some folks to bring something to eat. It has been noticed that there are a few families right here in Brownfield who never carry a bite, but who never miss a picnic, nor give up a cent. Well now, people are getting mighty tired of this and while they treat you pleasantly and invite you to dine, they are inwardly thinking how darn no-count and chinchey you are. Our advice to such drones is either to stay away or come and bring such well filled baskets that no one will ever have the audacity to mention your laziness or stinginess again. You know who you are.

C. W. Post, the big man of Post City, is building fifteen big silos. Mr. Post declares that he

will fatten cattle for the Fort Worth market by modern methods.—Foard County News.

Mr. Post is one of the progressives in Texas who has made good by keeping a close watch on conditions and learning what they demand, acting at the right time. In cattle, silos and the Fort Worth market he sees a big opening and he proposes to get in. He is right. It is a combination that is sure to win. Fort Worth Record.

Could Feed Germany

Who can guess the number of acres of waste land along the right of way of railway lines in the United States? This land properly cultivated would produce enough food to feed a nation like Germany. This land ought to be cultivated. Its crop of rubber weeds and green scum, mosquito malarial breeding cess pools ought to disappear and harvests appear. Gardens, crops, flowers, shrubbery, lawns and landscape views by the wayside would make a pleasing picture to the weary passing traveler. Profit, pleasure and progress would be the trinity. Translating eye-sores into beauty highways would win applause. The railway manager who becomes affected with this kind of a microbe will be permitted to go out ahead. This dream is not impossible. It is practical. It is a prophecy of what is sure to come. Why not have it soon? If farmers would keep down the weeds and beautify public highways, perhaps the railways would get the mourner's bench and get the same brand of religion. The State Board of Agriculture will give all encouragement possible.—Canal Winchester, Ohio Times.

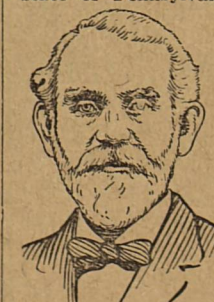

This county received splendid rains this week and the farmers and ranchmen are feeling good. There is now a fine season in the ground—better than for a number of years, and crops are getting a splendid send off. Range conditions are getting A1, and the general condition of the country is good.—Lubbock Avalanche

Business Man Praises Dr. Miles' Heart Remedy

Successful Merchant After Investigation Found a Remedy That Restored His Health.

"This is Thanksgiving day in the state of Pennsylvania, and I want to devote a part of it in writing a letter to you. On the 25th day of November, 1910, I was stricken with heart trouble. My family physician called it Angina Pectoris. I had from one to five attacks in 24 hours, in the latter part of December, 1910. I wrote to the Miles Medical Co., for information concerning my case, and in reply I received a very kind and instructive letter, which I handed to my family doctor, and he told me to use your Remedies in connection with the medicine he gave me, so I did. I used five bottles of Dr. Miles' Heart Remedy and seven bottles of Dr. Miles' Nervine. I was confined to the house for about four months. The action of my heart is now, and has been normal for the last six months. I can truly recommend Dr. Miles' Nervine and Heart Remedy to do what they are intended for, if used according to directions. I thank you kindly for your advice in answer to my monthly reports. I am now sixty-seven years of age, have been in the mercantile business for thirty-five years and lived retired for the last thirteen years." A. B. HOLLINGER, Lincoln, Penna.

Dr. Miles' Heart Remedy is sold and guaranteed by all druggists. MILES MEDICAL CO., Elkhart, Ind.

Address, 1923 commerce st., Dallas, Texas.

We understand the City Barber Shop has changed hands again. This time Bert French sold out to Fred Scudday. We hope Fred much success; also Bert wherever he may choose to locate.

Mrs. J. L. Randal and father, Grand Pa Shrock, and nephew, Gus Farrar, returned last week from a three weeks visit to Nolan county, and all report a nice trip and a good time. Little Miss Jessie Mabel Walker came home with them.

The Hill Hotel wants some chicken, broilers, friers and fat hens. Highest market price paid.

Mr. Sam Houston and family got in from Post City this week, where a successful operation was performed on his son for appendicitis. Mr. Huston informed the Herald man that he might locate in Terry yet, as he had several places in view to look at.

Rev. A. D. Jamesen and wife came in this week after spending six weeks at Georgetown University, where he took a special course and visited friends and relatives in Central West Texas. He says old Terry looks better than any of that country.

CULTIVATORS: We have the best line going. Come in and let us demonstrate them. We want to show you. Brownfield Hdw. Co.

Rev. B. F. Dixon, J. W. Welch, and Misses Mary Dixon and Ivy Green returned Tuesday from Post, where they went as delegates to the Fifth Sunday meeting. Miss Ruth Welch went with them, but visited in Snyder during the meeting.

People are beginning to bring in peaches but there will not be enough to hardly supply home consumption this year. We have seen some nice juicy samples from the Snodgaass and Burnett Bros. ranches and some good early samples from the Randal orchard in town.

If you want money on land, call in.

Geo. W. Neill

Jno. S. Powell was here Wednesday to attend the stockholders meeting of the Brownfield State Bank and said he got about between 10,000 and 11,000 pounds of wool and with all the legislation at Washington, wool was ranging from 12 to 18 cents per pound. Said he had splendid grass.

GOOD STOCK of Dry Goods and groceries in county seat town, doing a good business, to sell or trade for good Terry county land or live-stock.

Brownfield Land Co.

N. N. Ross has recently brought into Terry county a registered German coach stallion, which he purchased at Midland.

This horse was born in the Fatherland, and is one of the finest looking horses it has ever been our pleasure to look upon, and Mr. Ross is to be complimented for both his good judgement of horse flesh and for bringing him to Terry county.

Herald job department put up a nice batch of stationery for T. J. Price & Sons last week. All stockmen and farmers should use printed stationery as it is not only neater and does not cost much more than tablets and just blank envelopes, but every time you write a letter you advertise your products.

Several have had white dirt hauled this week for side walks. The Hardware people re-layed their walk; Coble & Walker filled in with it in front of their livery barn; Percy Spencer made a walk at home and the editor built walks in his front and back yard. Let the good work move on.

WE ARE agents for The Consumers Monument Co., of Ball Ground, Ga., with samples of marble and cuts of Monuments. The finest marble in the south, and the finest workmanship. Price reasonable and satisfaction guaranteed. Brownfield Merc. Co.

R. R. Hughes slipped into town last Friday with his first load of furniture, and tried to dodge his old Bench Warmer associates, but Uncle Jack finally caught him and he and Parker layed the board on good and plenty. You ought to hear him tell about California, and your fever will cease at once.

Mr. and Mrs. J. A. Russing, of Paradise, Texas, left Tuesday morning for home after spending a couple of weeks looking after their property in Terry county. Mr. Russing informed the Herald man that he and family would move out next spring, and the only regret he had was that he did not come four years ago. Two of his daughters are teachers, and one of them has already secured a school in Terry county.

HELPLESS AS BABY

Down in Mind Unable to Work, and What Helped Her.

Summit Point, W. Va.—Mrs. Anna Belle Emey, of this place, says: "I suffered for 15 years with an awful pain in my right side, caused from womanly trouble, and doctored lots for it, but without success. I suffered so very much, that I became down in mind, and as helpless as a baby. I was in the worst kind of shape. Was unable to do any work."

I began taking Cardui, the woman's tonic, and got relief from the very first dose. By the time I had taken 12 bottles, my health was completely restored. I am now 48 years old, but feel as good as I did when only 16.

Cardui certainly saved me from losing my mind, and I feel it my duty to speak in its favor. I wish I had some power over poor, suffering women, and could make them know the good it would do them."

If you suffer from any of the ailments peculiar to women, it will certainly be worth your while to give Cardui a trial. It has been helping weak women for more than 50 years, and will help you, too.

Try Cardui. Your druggist sells it.

Write to: Chattanooga Medicine Co., Ladies' Advisory Dept., Chattanooga, Tenn., for Special Instructions on your case and 64-page book, "Home Treatment for Women," in plain wrapper. N. C. 121

Peach Orchard Shoats.

You've often heard of peach orchard shoats? Yes. Well Dick Brownfield found four in his orchard one night this week—but they run away on four—no, just two legs. One, however, got hung up in the wire and Dick nabbed him, but he squeaked so pitiously Dick turned him loose, after admonishing him to come in the day time from now on; but piggy said never, NO, NEVER! Away he went and scared up a fat shoat hid in a row, who no doubt thought Dick was coming, and away he went through net wire, barbed wire, mesquite and cactus.

About day, one was noticed coming in from toward Meadow, another from toward Tahoka, still another from Gomez, the other from Sawyer's ranch. Some were gant an others lame.

The Mail Order House

A story was recently told of a Honey Grove swell who wanted to cut a dash in the high society of the town. In preparation for this he ordered from a large mail order house a suit of clothes for \$9.98. In one of the pockets of the coat he found a note presumably written by a young lady, suggesting that correspondence with a nice young man would be agreeable to her. This young man answered the note and in a few days he received a letter addressed in a bold masculine hand. It read as follows: "Twenty years ago, shortly before our marriage, my wife was working in a department store. At that time she may have written that letter, but I now want you to understand that she is my lawful wife and the mother of my seventeen legitimate children and if you do not withdraw your attention from her, I'll come down there and make you look like two cents."

The young man is now patronizing home trade—Bonham News.

Our Large Farms.

C. S. News Service

The average farm in Terry County contains 1,641.4 acres and in each farm the average number of acres of improved land is 98.9. The Farmers Union is strongly advocating the reduction of the size of the farms of this state and its President, Hon. Peter Radford, has previously, through the press called attention to the number of large farms in Terry County. Federal Census Records show that we have 222 farms that contain more than 100 acres. Mr. Radford claims that if cheap money were available more tenant farmers would become home owners and the owners of these large tracts could be induced to place their property on the market in small tracts.

We now have 235 farms in this county and 53 of them are operated by tenants.

FOR SALE. 2 Duroc Jersey boar pigs.

VALUE OF CREAM NOT COMPUTED IN CENTS

Devon Heifers.

The following, taken from an exchange, signed by Mrs. Anna Hoffarth, contains some good advice:

In speaking of the value of cream, I do not mean its value computed in dollars, but rather its value as a food and as a time saver to the busy housewife. Cream is the very choicest of fats, both as to palatability and ease of assimilation. People with weak digestions can usually digest cream, and it is very rarely that we find anyone who cannot use cream in some form. A more perfect combination of fat and flesh food could hardly be imagined than exists in cream. Persons who cannot take cod liver oil at all can revel in good, pure, wholesome cream. One noted physician has said that if children were allowed all the cream they desired at all times their parents would not have to buy so many bottles of cod liver oil for them later in life.

I have seen busy, tired, overworked farm women carefully save and hoard

every ounce of cream as a miser would his gold, in order to increase the number of pounds of butter for sale. With the money received for the butter, canned salmons, sardines and other eatables are purchased for the table.

How much better for the health of the family to have served the cream at every meal, and in as many ways as possible; this would have made less work for the housekeeper, by reducing the churning, and less cooking, too. Good bread, butter, fruit and cream in abundance will furnish a dainty, wholesome and palatable meal as the finest pastry, and this leaves the cook enough leisure to rest, read and keep cool. Hence the value of cream is not to be computed in dollars and cents.

Spring Colt.

The spring colt should be as gentle as a kitten by this time and know what a halter is for.

TRADE IN WOODEN SHOES

Scarcity of Willow Wood Has Steadily Market, Which Was Unsettled by Overproduction.

Last year was unfavorable to the wooden shoe manufacturers in Holland owing to the keen competition of the Belgians and a decided overproduction here. This year's prospects are somewhat brighter.

The scarcity of willow wood, from which those shoes were formerly made, has caused the market to steady up a little. Poplar and some Russian woods are also being used more extensively than heretofore.

The cost of the wood from which the shoes are made is about \$6 per cubic meter, out of which 100 pairs of ordinary size can be made. The wholesale price of these shoes is 12 cents. One workman is able to make 12 to 15 pairs in a day, from which it can be inferred how narrow is the margin of profit in the industry.

Relatively few wooden shoes are produced by machinery for export, but with this exception all the wooden shoes are made by hand in Holland. About twenty different tools are required in the operation. A year or so ago several German capitalists started factories in this country to make wooden shoes by machinery, but failed. Machine-made shoes, it is said, are not well finished, and some handwork is always necessary to make them satisfactory.

Wanted by McGraw.

Stone throwing by children is not as common now as when the automobile was a novelty, but it still exists. A big limousine, occupied by a well

known theatrical man and his wife, was running slowly down Riverside Drive, New York, a few days ago when a good sized rock, thrown by a boy not more than three years old, crashed through one of the windows. The chauffeur stopped the car and caught the youngster, who made no attempt to escape. The matter was referred to a policeman by the irate owner.

"What do yez want me to do?" asked the representative of law and order. "Arrest this little lad?"

"Something ought to happen to him," protested the owner.

"Aw, well, he's only a kid. Ye can't do much," counselled the policeman. "Suppose, now, ye take him and turn him over to McGraw. He's looking for this kind of talent."

83 and 75 on a Lark.

Mr. and Mrs. James Stead Biddell came into New York from their home in Passaic, N. J., yesterday to celebrate the fifty-fourth anniversary of their marriage.

"We always go for a lark on our wedding anniversary," laughed Mr. Biddell in their home last night. "We've never missed it."

Mrs. Biddell stood close to her husband and it was plain they were still sweethearts. As he talked she took his hand.

"We've always been happy," he said. "We never had a single quarrel." Then they laughed.

Mr. Biddell is eighty-three and his wife seventy-five. They were married in Flushing, L. I., but moved to Passaic half a century ago, when it was a small village. They look much younger than they are. He retired from business 16 years ago.—New York Telegraph.

BROWNFIELD

TEXAS

Dots From Tokio.

Mr. and Mrs. J. A. Russing, of Paradise, Texas, spent Thursday night with Mr. and Mrs. H. L. Ware. They were looking over their land near Tokio. They seem pleased with the country, and left saying they expected to move on their land some time this fall. They are estimable people and will receive a hearty welcome.

Mr. John B. Slaughter returned to Post, Tuesday, having finished dipping and branding his cattle.

The infant child of Mr. and Mrs. W. G. Meyers, is reported very sick at this writing.

Mr. Elmar Ware of Tokio, and Miss Mae Hill, of Glenpark, were married in Plains on the 26 of June. Rev. S. B. Cox officiating.

Mr. McGather, from Monument, N. M., passed Tokio Monday, moving his family back to Oklahoma, their former home.

Another big load of Terry Co. maize passed Tokio, Tuesday, to be used as horse feed on a Yoakum Co. Ranch. So many Yoakum Co. people are turning their attention toward farming this year, we will doubtless have to find a market elsewhere for our next crop.

Ever body is too busy to tell news now, the weeds are growing so fast during the wet weather, that it takes all the time to kill weeds and let the crops grow.

Frank Watkins came in Thursday with his bride. He expects to make his home in Roswell, N. M.

Digger

Try to get your letter in on Tuesday from now on, as we are now publishing Thursday afternoon. This will be a great favor to the force.—Ed.

Harris Happenings.

The Methodist Quarterly Conference will meet here next Saturday and Sunday and a protracted meeting will continue on the rest of the week. Our good people are prepared to keep those who come from a distance. There will be dinner on the ground each Sunday and every one is cordially invited to come.

Mr. McMillan was selling peaches at the store last Saturday.

McPhaul Bros.' cow outfit returned Friday. They took a herd out to New Mexico.

Mr. Wingo carried a load of chickens to Lubbock last week for his wife. Mrs. Wingo raised about 300 chickens this year. We have some chicken raisers out here. Mrs. McMillan is a close second with about 250 and describes his 103. Those Methodist Preachers shall have chicken alright.

W. H. Harris made a trip to Lubbock last week after freight. Mr. Baker accompanied him and visited his daughter at Lubbock.

Cleve George of Lubbock passed through Sunday with 303 head of cows and some calves which he was taking to pasture near the line of Mexico.

Sand Bur

Baptist Minister Who Died At Haskell Home.

Haskell, Tex., June 26.—The

death of Rev. John A. Arbuckle, pastor of the First Baptist Church at this place, occurred at his home in this city after an illness of three weeks.

Rev. Mr. Arbuckle was prominent in Baptist circles of Texas. For eight years he was pastor of the First Baptist Church at Taylor and served the Cameron and Lubbock churches each several years. He was pastor of the Haskell church a number of years and was popular with not only his own congregation, but the entire citizenship of Haskell. For a number of years he was a member of the board of trustees of the Baylor Female College at Belton and was an influential member of that body.

He had reached the age of 62 years. The body was buried in the Haskell Cemetery yesterday. —Dallas News.

The above minister, while pastor of the Baptist Church at Lubbock, preached many sermons here and held at least one protracted meeting. Bro. Arbuckle has many friends here who will be sorry to learn of his demise.

23 New Farms Opened Up In Terry County Annually.

By C. S. News Service

23 new farms are opened up in Terry County every year and the latest Federal Census Reports which are based on data gathered in the spring of 1910 show a total of 235 farms in this county at that time. In 1900 we had 6 farms. We have a total of \$4,431,806 invested in farm property and our farms are worth \$18,859 each including equipment.

The total number of farms in Texas at the rate of the last census was 417,770 having increased 65,580, or 19 per cent during the past decade. The value of all farm property in the State is \$2,218,645,000. The average Texas farm is valued at \$5,311.

FARM AND ROAD IMPROVEMENT

MANAGEMENT OF CLOVER HAY

Experience Shows It Possesses Higher Feeding Value When Cut and Cured Green as Possible.

(By R. G. WEATHERSTONE.)

Experience as well as exact experiments prove that clover hay possesses a higher feeding value when the crop is cut and cured as green as possible. The majority of farmers allow their clover to get too ripe before they begin the work of cutting and harvesting.

Every practical feeder of dairy cattle and young things knows the

Handy in Clover Field.

value of rowen as food for milk production and growth. What is the matter with making rowen out of the whole of the clover crop?

The clover should be cut as soon as it is in blossom. It cannot be cured as quickly, but it can be cured, and we shall be more sure to get a good second crop.

RESOURCES OVER \$100,000.00

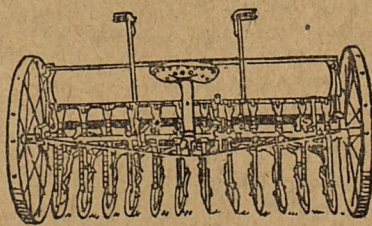

WE WANT YOUR BUSINESS

Much of the feeding value of the clover depends upon how the crop is managed after it is cut; and right here is where we find many practical farmers who fail to agree on how the clover should be handled, although they are all working with one object in view, and that to cure it as quickly as they can and get the crop secured before unfavorable weather delays the work and ruins the feeding value of the hay.

We make a practice of cutting in the forenoon what may be tedded and raked and cocked in the afternoon and allow it to remain in the cocks and cure for two days and open up the third day about nine or ten o'clock in the morning and begin hauling to the mow in the afternoon.

When the clover is handled in this manner it will be cured and the loss of leaves will be reduced to a minimum. Clover that is handled in this manner will retain its delightful aroma. Of course, weather conditions will often upset our most carefully laid plans, and we shall be compelled to cut away from all hard and fast rules and do the best thing possible under the circumstances.

The hay tedder is a necessity if we get our hay into the barn in the best condition, and one day's good sun and two teddings will do more toward cur-

A Disk Plow.

ing a crop of clover than two days' exposure to the sun and weather; besides, when the clover is cocked up and left there is but little danger from rainy weather unless it continues for several days, and even then the loss will be much less than it would be if the clover were left as when first cut in the rows as it was raked up.

Loss From Cholera.

Many thousands of exposed and infected hogs have been vaccinated and treated with serum in practically all the states in the Union. The loss from cholera after treatment has been a very small per cent. The hog cholera serum has been successfully used in many diseased herds of hogs. It is no longer an experiment. Let us get in touch with the veterinarian at our experiment stations and learn just what course to pursue when hog cholera breaks out in our neighborhood or in our herd.

GOMEZ DOTS

The ice cream social at the school house last Saturday night was enjoyed by all present. A good crowd was out.

Born to Mr. and Mrs. Robert Holgate on the 28th inst., a fine boy.

Joe Black and Hosey Key will leave this morning for Chickasha Okla., on a two week's business and pleasure trip.

Bro. Jameson and wife, accompanied by Presiding Elder Terry and son Lee, went to Joe Lane's from which place Bro. Terry will go on to Plains.

Mr. Eldredge Maddux and Mr. Wyatt, of West Terry, were in Monday and took dinner at Dr. Maddux's.

The citizens are gone with the cattle of this community to the T4 and Gordon ranches to have their cattle dipped as there is no dipping vats closer.

John B. Slaughter stopped at the hotel Tuesday, on his way home at Post City. He had been out at his ranch, west of here where he superintended the dipping of 2000 head of cattle.

Mr. Sam Bigger, of Yoakum county, spent Monday night in Gomez, on his way to Lubbock after freight.

Mr. and Mrs. Rotan, of west Terry, were here Tuesday, trading.

Albert Crews was here Tuesday, and reports that he has planted forty acres of sorghum.

The Terry county peach crop is not an entire failure, for Mrs. Cardwell, of Brownfield a sack of as nice ones as we have ever seen to Grandma Willie, Monday, and Miss Defie Black gave a similar treat to Dr. and Mrs. Maddux and Grandma Price. The fruit was delicious and the generous spirit of the donors was commendable.

Mrs. Grady Holmes passed here Saturday enroute to her home in Plains. She has been visiting her parents in Missouri.

Our school is progressing nicely and pupils are getting much better results than in winter. If Terry county trustees would give the mid-winter months a vacation and run the schools the rest of the year, we would save enough on fuel to furnish the additional funds. Some say its too hot but our summers are pleasant and the days are so long that those four or five miles out can attend without moving in or having to board.

Mr. and Mrs. Jim Key visited at Mr. Holland's Sunday. Jim was out helping to gather cucumbers and stepped on a large rattlesnake, but as the snake did not move he did not know it until his baby said "look what you are standing on." He moved and killed the snake too.

Bro. Jameson had the misfortune to get a horse badly cut on wire, over at Tahoka, last week.

The gardens of this place and vicinity are fine. Plenty beans, cucumbers, beets, cabbage, and Mr. Sam Key shows plenty of green tomatoes and grapes. The one drawback is, there is so much there is no market for it.

Mesdames Ed Moore and Guy Taylor visited Mrs. D. J. Broughton in Brownfield on Monday.

West Wind.

Yoakum County Items

From The Yoakum Co. News.

H. A. Tandy brought 500 young steers last week in Gaines county.

The heaviest rain of the season fell in Plains last Sunday after noon, but only covered a small territory. Fortunately rain is not needed in other parts of the county.

Sheriff Keller is putting the court house yard in fine condition. In another year or two Plains will have one of the most beautiful court house parks on the Plains.

Will and Ed McPhaul and Noah Bell, prominent cattlemen, of Terry county, passed through Plains Thursday evening on their return from a trip in New Mex.

Mr. J. D. Earnest in the second Yoakum county man to declare his intention of putting in a silo this season. He says that he has made up his mind to do that and prepare several car loads of steers for market.

J. S. Webber, of Silgo, was in Plains today and informed the News that Pat McHugh left last Tuesday for Lubbock with three wagons to bring back goods for a new store in Silgo. In addition to being a successful ranchman, Pat is to become a merchant.

Reports come from Terry county that the fine rains during that month have made conditions as promising for a fine crop this year as they have ever been since the organization of the county. Terry is one of the very best agricultural counties on the Plains, and is fortunate in being settled up by a class of first-class farmers. Those farmers over there always raise plenty of corn and feed stuff for home consumption and a great deal to sell; in fact there is a considerable amount of corn, maize and kaffir corn of last years raising for sale over there yet. The farmers of Terry are seeing the advantage to be derived by converting their farm products into ensilage and feeding cattle for market, and the consequence is there will be fifteen or twenty silos put in there this year.

Don't wait for a headache to go away. Use Dr. Miles' Anti-Pain Pills and save suffering. [Advertisement.]

Children like Dr. Miles' Laxative Tablets because they taste like candy. Try them next time. [Advertisement.]

Horses in Winter.

The horses will get through the winter in better shape if given a little exercise on the manure spreader occasionally.

Profit in Camphor.

The department of agriculture, after suitable experiments, decides that the production of camphor may be made profitable in Florida.

Different Feeds.

Corn makes fat and heat. Oats, wheat, bran and middlings make eggs.

Fine Art of Giving.

"If one waits to find perfection in his friend he will probably wait long, and live and die unfriended at last. The fine art of living, indeed, is to draw from each person his best."—Lillian Whiting.

Unencouraging.

"That audience cheered my remarks repeatedly." "Yes," replied the morose man. "I never yet saw an audience that wouldn't rather hear itself holler than listen to somebody's talk."

Sincerity Most Valuable Thing.

Next to being honest and able we ought to be sincere men. Sincerity is the quality which not only makes friends, but holds them.

Nowadays.

It's a wise play that knows its own author.—Harper's Bazar.

A Definition.

The dream is conversation arranged.—Lady Gregory.

Unpoetic.

"I shall leave footprints on the sands of time," said the idealist. "What for?" asked the crudely practical person. "Nobody will want to go round looking for footprints. What we want to do for posterity is the help build some good roads."
