Every convenience for the modern care of Patients; trained nurses constantly in attendance

Road Building

There is nearly always a crew of hands out on our main thoroughfares, re-laying and otherwise putting them in good condition to travel, and now we are almost ready to begin the construction of a good road from the Gaines to the Hockley county line, which will give us a larger scope of trade territory. People will come on a good road a long ways to trade here.

Speaking of trade territories, Lubbock and Tahoka should send a delegation of their best citizens down here to compliment and tango, bunny-hug, grizley bear,

turkey trot us around the square for opening up and extending their trade territory. Fact is, Terry has done more than both of them to extend their wagon trade. We were initiatory in the construction of the east and west road, that brought them trade from here to Lovington, N. M., and now, we, with a modest bow, are about to turn Gaines county into their channels of trade. Yes they ought to send a hugging delegation, by all means.

McADAMS at Tahoka sell the "old releable" McCarmick Harvesters and extras.

School Opening.

On Monday, Oct. 6th, our public schools opens for the term of 1913-14, and to say that parents as well as all pupils, should be on hand the first day to lend encouragement, is only to emphasize a duty you owe yourself, your children and your school.

We suggest that every business house in town close for an hour or two on that day, and everybody turn out. We are going to have a good school anyway, but your encouragement means a better one. The reason for the late opening is, because several of the patrons have crops and need the boys very badly in harvesting and storing the same. Anyway, when it does open, we will all be the more anxious. In the meantime, talk it to your neighbor about being on hand the first day.

Harris Happenings.

Mr. and Mrs. B. C. Christianson spent last Tuesday night with Mr. and Mrs. B. Clare.

Mrs. J. M. McMillan and Miss Eva Harris came in from Lubbock last Wednesday with Mrs. McMillan's parents, Mr. and Mrs. Brister, who will spend three weeks with her.

Mr. and Mrs. J. W. Spear visited Mrs. R. K. Benton and family, last Sunday.

J. F. McMillan and H. F. Win-

go, came in from New Mexico one day last week. They brought back some nice apples which they have been selling to their neighbors. We understand they saw lots of the country, but we don't know whether they have the Mexico fever or not.

Miss Olga Fitzgerald spent last Friday night with Mrs. F. M. Ellington.

Roy Harris and Mr. Baker left for Lubbock last Saturday, after freight.

Mrs. Ben Wolfarth visited Mrs. Wingo last Sunday.

Little Miss Fern Harris went over to the Wingo home, Sunday, to visit Miss Gertrude until Tuesday. These little ladies spend some very pleasant times together.

Since the correspondent's reunion, we have been besieged with questions regarding Sweet William's identity. They all praise his poetry, and indeed it is good. I suppose we all desire to please the public, more or less and I wish I were a poet, too.

Mr. and Mrs. Henry George and little son passed thru here one day last week.

PAINTING is still the order of the day. We carry a full and complete line of Sherwin-Williams paints, pure linseed oil and a good assortment of brushes. Brownfield Hdw. Co.

Fair Directors.

Are called to meet at Gomez, Sat. Sept., 13th, at 3:30 p. m., to make final arrangements. Let not only the directors, but every body in the county that is interested in this great institution meet together. There is nothing whatever that will so advance our county as a good fair, and in sending our products to Dallas, we show the world what our great country will do in time of a great drouth that has withered and burned up a great portion of Texas. Now remember the date and be sure you are on hand. By order of W. D. Winn, Pres.

Showers

Local showers have been visiting various portions of Terry county all the week, but in the territory immediately around Brownfield, we did not get any rain to amount to anything till Wednesday night, when about one-half inch fell that was general over the county but probably heavier in most of the county than here. This will give most of the county a grass growing season and mature the late feed. The weather is still very threatening this (Thursday) afternoon.

IF your car gets out of repair, carry it to Royalty & Wilson, Lubbock. They are experienced workmen.

SUMMER, AUTUMN, WINTER OR SPRING

We keep Coal and have a Plains-wide reputation of keeping the best Fuel to be had, and we aim to hold this 'Rep.' Cake and Meal, Stock Salt, Hay, Wire, Post etc. Always ahead; try our Wagon Yard.

Officers will be elected for the ensuing year at the next meeting of the directors. Heretofore this part has been delayed until the fair, when no attention nor crowd could be gotten together.

The announcement of the Pan-handle State Fair came too late this year for us to take any action about having any display on hand, as our fair is to be held at the same time, but we will try to be with them next year.

Right now is the time to begin preparation for the fifth annual Terry County Fair. Begin to cast about you for nice specimen of field and garden truck. Success depends upon the effort of every man, woman and child in the county.

Don't be afraid some one will have a better product at the Fair than yourself, but bring yours along anyway, and if the other fellow beats you, congratulate him and let him know he'll have to hustle if he gets one on you next year. Don't get the idea that there will be plenty without yours; there might not be.

Judge L. S. Kinder has announced that he will not be a candidate for re-election to the office of Judge of the Plainview District when his present term

ends and expects to retire to private life. When asked if he expected to become a candidate for congress he gave his answer as no, in very emphatic terms. —Lubbock Avalanche.

Show us a man in Terry county who is not content with his home, where all the inmates are healthy and hearty—and they generally are—and he is producing as much per acre, or more, than his eastern brother, less the high taxes, malaria and chiggers and we will show you a man who would not be satisfied with Paradise if he were golden street commissioner and had the keys to the pearly gates and pantry.

Friendly rivalry between neighbors, is what makes good farmers and fairs. To be entirely satisfied with yourself and what you produce, is to sit down on progress and await the judgment with an empty pocketbook and a consciousness of having been a failure in life. To be a good producer is to keep your neighbors everlastingly on the jump to keep in your wake. A man thus noticed, in any business, is not only a benefactor to mankind, but a real provider to his family, a Biblical injunction. Show what you have done this year, at the fair.

We kindly direct your attention to the local page, and the correspondent pages that you may figure for yourself just what Terry county people are putting up for in an educational way. Take Brownfield, for instance, it and vicinity are sending enough tenth grade pupils off to college that if the money was put in our school, would add two more instructors, two more grades, and run our school nine or ten months, and sending 'em away is growing into a heavier burden each year. But this is just exactly what other towns, other colleges and high schools want, as they are tickled to get to finish our pupils and get our money. At the same time they are laughing at our damphoolishness. While you are figuring on sending the children away from home, you must not only figure a steep tuition, matriculation, incidentals etc, but high board and much more expensive clothes, the greater part of all which go into the fortunate town with the school. It is simply a drain from us to them, and anybody with horse sense that will take the time and isn't afraid to exercise his brain matter to over-heat, can figure this to his entire satisfaction. The next time a tax for better schools comes up, don't be influenced by men who have no direct benefits from our educational institutions, but figure out the matter for yourself—you'll all have children sooner or later to send away—and listen to the dictates of your own conscience, and after doing this, we believe you will be in for a better school at home. Just ask yourself why these towns with good schools are so flourishing and why they all want our pupils.

Among those who have extended their time on The Herald this week to one year in advance are: Geo. E. Tiernan, A. D. Brownfield, W. G. Hardin for his moth-at Springtown and R. W. Rambo of Gomez. Others could do likewise and never miss the change, and make this editor feel almost rich.

A. B. Bynum took his daughter, Eunice, to Seminole last week where she will stay with her sister, Mrs. L. L. Cobb, and attend school this winter.

FAMILY AVOIDS SERIOUS SICKNESS

By Being Constantly Supplied With Thedford's Black-Draught.

McDuff, Va.—"I suffered for several years," says Mrs. J. B. Whitaker, of this place, "with sick headache, and stomach trouble.

Ten years ago a friend told me to try Thedford's Black-Draught, which I did, and I found it to be the best family medicine for young and old.

I keep Black-Draught on hand all the time now, and when my children feel a little bad, they ask me for a dose, and it does them more good than any medicine they ever tried.

We never have a long spell of sickness in our family, since we commenced using Black-Draught."

Thedford's Black-Draught is purely vegetable, and has been found to regulate weak stomachs, aid digestion, relieve indigestion, colic, wind, nausea, headache, sick stomach, and similar symptoms.

It has been in constant use for more than 70 years, and has benefited more than a million people.

Your druggist sells and recommends Black-Draught. Price only 25c. Get a package to-day. N. C. 123

Saturday noon everybody we met was complaining he had not got his Herald. It was the same way with Gomez people who came over to Commissioners Court Monday, as they did not get their papers till Monday noon.

Value of Advertising

By W. Holt Harris, Chairman of Mercantile Committee Commercial Sec. Assn.

Goods that are advertised are usually priced to give the merchant the percentage of profit he deserves and also suit the customer's pocketbook.

Unadvertised goods, while of the same quality, have to be sold at a much higher price in order to overcome the higher cost of doing business.

When the merchant sells few goods, he must make more profit on each sale and as a consequence, the buyer is sometimes charged an unreasonable price.

Advertised merchandise offers the merchant his best opportunity to make money and the customer also profits by lower prices and has the satisfaction of generally obtaining better quality.

Doctor Defends Meat Eaters.
In his recently published work Dr. Robert Hutchinson observes that energy is not to be confused with muscular strength. A grass fed cart horse is strong; a corn fed hunter is energetic. Energy is a property of the nervous system; strength of the muscles. Muscles give us the power to do work; the nervous system gives us the initiative to start it. Muscles do their work upon carbohydrates (starch foods), which are the characteristic nutritive constituents of vegetable foods; the brain appears to require nitrogen, which can only be obtained in a concentrated form from animal sources. If proteid food, therefore, be regarded as a nervous food, a diet rich in it will make for intellectual capacity and bodily energy, and it is not without reason that the more energetic races of the world have been meat eaters.

The Actor in China.
If the new regime in China succeeds in abolishing class distinction in civil administration it will have accomplished a difficult task. Hitherto three classes of the population have been esteemed by the Chinese "lowest of the low," these being actors, barbers and chiropodists. These and their children are barred from becoming Mandarins. Their grandsons, according to the letter of the law, are permitted to hold government posts, but this permission has seldom been granted. Some years ago a grandson of Cheng Chang Keng, the most famous Pekin actor of his day, was appointed one of the secretaries of the Chinese legation in Berlin. The appointment aroused a storm of protest among official circles in China, and but for the support of the empress dowager would have been revoked.

Oil-meal, properly fed, is considered by our best stockmen to be one of the most nourishing foods that can be fed.

Death.

The grim reaper entered the home of J. W. DeShazo, at Lubbock, last Saturday, Sept. 6th., and broke up a happy home, by removing from earth a loving wife and devoted mother in the person of his wife, (nee) Minnie Gore, formerly of this place, after a terrible battle with typhoid fever. Her body was laid tenderly to rest in the Lubbock cemetery.

Taking her mother's hand, her last words were: "Mamma, all is well; God's will be done. I've gone as far as I can; I've waded almost across and soon will reach the shore. I see my way clear, mamma; will soon rest at Jesus' feet."

Mrs. DeShazo was born March 6th, 1887, being just 24 years old. Was converted in Comanche county, at the age of fifteen and united with the Missionary Baptist church. Moved with her parents, Mr. and Mrs. J. W. Moore, to Terry county about Jan. 1st 1909. Married Joe W. DeShazo, of Lubbock, May 15, 1910; was the mother of two sweet little children, one two years and one eight months old, who will be taken care of by their grandmother, Mrs. J. W. Moore.

Minnie, as she was familiarly known in Brownfield had fast friends just so far as her acquaintance reached, who will be sad to read of her demise in young motherhood, and Herald joins them in extending all the sympathy we possess to the heart broken husband and children.

GOOD ROADS

By Homer D. Wade, Secretary Texas Good Roads Association.

Improved highways increase the size of the load, but it decreases everything else.

The question of public highways is one that affects the fire-side as well as the counting room.

I have not fully made up my mind as to what is meant by the unpardonable sin, but I am inclined to the idea that it is opposition to good roads.

A lie will make good headway over any kind of a road, but truth, if it goes to the mark, must have a straight and smooth road over which to travel.

The essence of false economy is to mire in the mud, when permanent roads can be joined, the high cost of living reduced and travel be rendered a pride and a joy forever.

Preachers are prone to put heaven and hell too far away. Like the poor, we have both with us at all times. This condition will obtain, as long as we have good and bad roads. solve the good road question, and the hell on earth will be reduced to a minimum.

The owner of an automobile enjoys a smooth and permanent road, but what is joy to him is a real saving to the man who markets his crop, and since wealth is an ambition of many, the man who hauls his products over good roads, will have joy as well as economy.

LUBBOCK TEXAS.

Missouri people, fifty thousand strong, have shown the world one way to build good roads. The chief executive took the lead and the citizenship, without regard to political creeds, sex or age followed. It is the co-operative spirit that succeeds, and the sentiment now created for improved roads in the "Show me" state will not down.

City Building Notes

By L. M. Ward, President Texas Commercial Executive Association.

To the builder belongs the spoils.

Healthy discontent is constructive.

Discontent is commercial leprosy.

It's a weak wheel that has a broken cog.

Happiness is the natural reward of hard labor.

The tree of knowledge is fed from the stream of experience.

No city can be perfectly good, but it can be practically sanitary

The good ship of "Progress" makes little headway through the sea of discontent.

The farmers of Texas are no longer villagers, but are cosmopolitan citizens.

Business men will profit immeasurably through the prosperity of the farmer.

Successful and systematic development of a business or community depends upon the united effort of the entire citizenship.

The condition of the city's streets, sidewalks, buildings and residences are always noticed by the visitor. If unkept, an unfavorable impression is left.

There is no disputing the fact we are all in business for what we can get out of it. But it is sometimes necessary to assist others along the commercial highway before we can collect our own reward.

By glancing over the Herald, you will notice several new faces asking part of your trade thru the Herald columns, some of which have never been there before, and between now and the first, you will notice some more.

First, we would direct your attention to Hopkins Drug Store, who are using quite a nice space. While he is comparatively a new man in Lubbock, he is an experienced druggist and we will personally guarantee he will treat you white.

Then there is the Alfalfa Lumber Co. seeking your lumber, paint and silo business. Every body knows Swift, the genial manager, and that he stands for square dealings.

Also the Lubbock Drug Co. that is already familiar with many. Jno. R. King is now sole proprietor, and that is a guarantee of good faith.

Tubbs Bros. Garage, with a full supply of everything about an auto, want you to stop your car with them. Old Phillips-Bradley stand.

Many of our readers have had pleasant business dealings with Downing & Hill. Notice their ad at the top of last page.

While you are thinking about the new ones, don't lose sight of the Western Windmill Co., Rankin & Sons, Lubbock Grain & Coal Co., Lubbock Marble Works and Martin & Walcott (notice later's new ad) many of whom have graced our columns for the past four years, and we know them all to be square business men. Also don't neglect to stop at the Nicollet, as they have the best beds and decidedly the best grub of any hotel in Lubbock regardless of prices. We've tried them all.

We found business good, and collection prompt up at the city. Many improvements contemplated and underway. Lubbock is a live one, but it just cant help it. Look who's there--so ne real business men.

Panhandle State Fair.

Now that the great Panhandle State Fair, to be held at Amarillo, October, 6th to 11th, is only a matter of about four weeks off, all kinds of questions regarding the extent of the fair, grounds, exhibits, attractions, etc., are being asked.

The publicity committee of the Amarillo Chamber of Commerce announces that the grounds will

cover approximately fifty acres; the first stock barns for race horses erected measured 152x84 feet, but the demand for space is so great that this will probably be doubled; the main Exhibition hall is ninety feet square, with 72 booths; a grandstand with seating capacity of several thousand is under construction, underneath which free space for county exhibits will be provided; the present Glenwood Park Auditorium will be equipped as a rest room for the ladies and children, and a restaurant building for the accomodation of guests is under way; cattle sheds 21x260 feet are under construction, and it is figured that this space may have to be doubled. The automobile displays will be arranged in a unique circle around the Meary-Goround. The Figure Eight and some other amusements features are already ready.

Work on the half mile race track has been going on for weeks, and is even now in first class condition. Entries are piling in, and liberal premiums are offered.

Among the attractions will be aeroplane flights on Oct. 7th, 8th and 9th by the famous Young's Aeroplane Co. of Kansas City, guaranteed to fly in any kind of weather short of a cyclone.

The Fair Committee has closed a contract with Prof. R. S. Riggs' Boy Band of Canadian, Texas, numbering twenty-five well trained and uniformed youths, to furnish music on the grounds.

Domestic Science

By Mrs. E. P. Turner, Chairman Rural Homes and Schools, Farm Life Commission.

Home is the place where our thoughts return in the hour of loneliness. Its memory seems to cling to us more in the time of need than in the moments of pleasure. We look upon home as a shelter where we can find safty in the time of distress, as a ship finds a calm sea behind the breakwater, when the waves roll high. Home is where we find a love worth while--a mother's love. Childhood days and the thoughts of home fill the hearts of the lowly as well as the lordly. We all love home but sometimes our thoughts are prone to roam to other things that for the mo-

ment command attention and seem pressing. The awakening sometimes come too late--after loved ones have departed or furious elements have done their work--but it is inevitable as life and death. Home is the natural haven of rest.

Powdery Mildew.

Powdery mildew attacks the leaves of apple seedlings in spring and checks their growth during the summer. The leaves become covered with a powdery substance and shrivel up. The disease may be controlled by spraying with an ammoniacal solution of copper carbonate when the leaves first unfold and four or five times afterward at intervals of 10 days.

Ill-Treatment of Horse.

A man who will work a horse with a sore shoulder and make no attempt to cure it or change the collar ought to be compelled to wear ill-fitting shoes that would raise a new crop of blisters every week.

Burnt or caustic lime is made by burning limestone, oyster shells and other such materials as are high in liming elements.

If you have never tried rape, raise a small field next spring. It is very popular with the hogs and does them a world of good.

GOMEZ DOTS

Prof. Speed, the principal of our school, came in Monday afternoon and will open school next Monday.

Miss Phyllis Holgate is visiting out at Mr. Copeland's this week.

Mr. Leroy McCravy, of Yoakum county, accompanied by his sister, Mrs. Pierce, passed thru last week enroute home from Lubbock, where they had been to attend school opening. Lois Reeves accompanied them to Plains to visit friends.

We neglected to mention last week that Joe Black had returned from a trip to North Texas and Oklahoma. Joe has been gone over two months and says he had a royal time, but claims Terry is the best place he has seen.

Mr. Carrol Phillips and wife visited the later's relatives here last week and left Monday for their home in Tahoka. Mr. Phillips will teach one of the Lynn county schools this term.

Grandma Stapp is at home again after an all summer visit to Commanche and Williamson counties. She enjoyed her trip, but had rather live here than any place she has been.

Rev. Loftin, who moved from here to Central Texas, last spring moved back last week and purchased one of the Garrison cottages. No comment is needed.

Grover Lewis got in Monday afternoon from a visit to relatives in Haskell and Jones counties. He says it is very dry down there the weather extremely hot and crops very sorry.

Rev. Killough from Knowles, N. M., preached at the Methodist church last Sunday night.

Word Price visited old and new friends here, Sunday.

Robert Holgate and family, accompanied by Mrs. Simon Holgate and children, and Mr. and Mrs. DeShozo, of Brownfield, left for Roswell, N. M., this morning for a pleasure trip.

A. C. Copeland has had to suspend the road grading for a few days either on account of a sprain or rheumatism in his left elbow. We hope it will soon be well.

Messrs. A. P. Moore, W. H. Black, Geo. McPherson, W. D. Winn and R. W. Rambo, attended Commissioners Court last Monday, in the interest of a survey to establish the public roads of the county.

There was a party at Robert Holgate's last Friday night as a farewell to Miss Willis Black, who will leave the first of next week for college, we think at Abilene.

Miss Ergie Rambo will leave this week for Plainview to enter Wayland college.

Mr. Norvel, of Big Springs, came in last week for a visit to R. I. Pucket and family.

Farm Facts.

(By Peter Radford, Farmers' Union.)

We can develop ourselves only by our own efforts.

Go to the farm and enjoy the blessings of freedom.

The farmer knows better than to exchange magic for common sense.

The problems of farming are as serious as the multiplication table.

The greatest factor behind all production is the creative faculty.

The farmer can only be helped through common sense and co-operation.

Successful farming and marketing are the basis of all human progress.

Co-operation combines isolated human endeavor into a great central purpose.

The men who till the soil and breed the herds are the chosen people of God.

In farming every man pulls according to his ability and no man rides on the load.

Get the difficulties out of the farmer's way and the farmer's problems will solve themselves.

The increase in prices of farm products has not kept pace with the increased cost of living.

The farmer can produce without organization, but to successfully market he must unite with his neighbors.

The farmer is the directing head and operating hands of his business. He combinds, directs and carries all responsibilities.

No farmer should put up a "no

help wanted" sign but he should be particular in choosing help, both manual and co-operative.

The farmer cannot be helped until he organizes and the government cannot help the farmer except through organization.

The farmer sells at prices fixed in free trade markets and buys everything he wears and uses in a high protective market.

The value of farm crops is determined not only by the amount of labor necessary to produce them but by having them on the market when needed.

A great many people appear to believe that because a farmer pulls off his coat when he thinks, that he is not capable of understanding his problems.

Japan Interested.

Much of Formosa must be farmed according to dry farming methods. The dry farming congress has been requested to send literature and reports to Japan for the consideration of the government.

One From Papa.

"Papa," asks the little boy, "why do they say a woman is 'setting her cap' for a man when she wants to marry him?"

"Because, my son," explains the father softly, "if she sets her bonnet for him she knows blamed well the price of it will scare him to death."—Judge's Library.

Promoting Pleasant Impressions.

"What is leave to print?" inquired the lady who has the art of seeming interested.

"Leave to print," replied Senator Sorghum, "is something that enables a man to pretend that he has delivered a speech, and which also enables his friends to pretend that they have made themselves familiar with its contents."
