Educational Department

For some years the Herald has tried to prevail upon the teachers of the county to start an Educational Department but have signally failed until the recent Teacher's Institute when they agreed to such a departure, and Prof. A. K. Huckleberry leads off with an article on the County Institute. Hereafter it will be entirely unnecessary for the Herald to make any explanation, but if teachers wish to criticize each others articles in a short, concise way, then take to 'em.

COUNTY INSTITUTE

I have no apology for my subject; it was assigned to me by the Terry County Teachers Institute.

Much has been said for and against the County Institute as a teachers training agency. Some say it costs the State more than it is worth. Some say the teachers ought not to be required to attend.

Just to get a start I will state three facts. 1. A good school is worth all it costs. 2. A poor school is dear at any price. 3. As the teacher is, so is the school. I think all will agree that these three things are true.

Most men also agree that the greatest question confronting us as parents of today, is the proper education of our children. This cannot be accomplished with out efficient and properly trained teachers, and I might add, with

out paying the price.

If a man is a good school man, he will be deeply interested in anything that will inspire and elevate the teacher. A County Institute is such an agency when properly conducted.

This is a progressive age and a teacher must keep pace with the times educationally. A teacher of twenty years ago, using the methods of those days, would be much out of place in a modern school room. Texas has been occupying a place, educationally, very near the foot of the ladder. Such a condition should cause a blush of shame to mantle the cheek of every true Texan, and he should be willing to make an effort to better this condition. We are not going to stay at the foot always. Of late years, Texas has been going forward by leaps and bounds, and one, not the least of the agencies of our progress has been the County Institute.

I will close my argument in favor of the institute by quoting from our late State Superintendent, Hon. F. M. Bralley; hear him: "That the institute is worth all the time and money it requires is no longer debatable among competent and reputable school authorities." Rather emphatic isn't he?

Possibly the teachers are not expecting what I have to say. I am persuaded that the ones to blame, primarily for the adverse criticism, are not the people, but

the teachers themselves. Teachers have not explained and defended their institutes as they should. When questioned as to why they attended; they too often reply: "Because we are compelled by law to do so." This is a wrong attitude. Teachers should be glad to go. They, more than any others, should welcome every means of improvement and advancement that may be offered.

Let us put honest effort and time into our institute and when we present our vouchers for the necessary signitures, we can look our trustees squarely in the eye.

I am for better institutes, better teachers and better schools,
A. K. Huckleberry.

Fair Directors.

Are called to meet at Gomez, Sat. Sept., 20th, at 3:30 p. m., to make final arrangements. Let not only the directors, but every body in the county that is interested in this great institution meet together. There is nothing whatever that will so advance our county as a good fair, and in sending our products to Dallas, we show the world what our great country will do in time of a great drouth that has withered and burned up a great portion of Texas. Now remember the date and be sure you are on hand. By order of
W. D. Winn, Pres.

Benjamin Franklin Terry

For the benefit of Herald readers, we publish the following brief history of the great man for whom our splendid county was named. Taken from Saturday's Dallas Morning News.

"Benjamin Franklin Terry was born on the 18th of February, 1821, in Russellville, Ky. In 1831 he, in company with his mother and three younger brothers, also his mother's brother, Major Ben Fort Smith, came to Texas and settled in Brazoria county. He and his younger brother, Daniel S. Terry, ran away from home just before the battle of San Jacinto to join Houston's army, but learning of the battle, returned home. He married Mary Birmingham, Oct. 12, 1841. Her father was one of Austin's original 300 colonists. In 1849, he and his brother, David S. Terry went to California. David remained and became Chief Justice of the Supreme Court of that State, and Ben F. Terry remained only 18 months. He returned to Texas and located at Houston. In 1852 he purchased the Oakland sugar plantation in Fort Bend County and was there engaged as a sugar planter in 1861. He was elected as a delegate to the secession convention in 1861, and after the adjournment of that body, he, in company with Thomas S. Lubbock, repaired to the seat of war in Virginia, both participating in the battle of Manassas, July 21.

Immediately after that battle they returned to Texas and organized at Houston a regiment of calvary which became famous in the annals of the Confederacy as Terry's Texas Rangers. Terry was chosen Colonel and Lubbock Lieutenant Colonel. Immediately after the organization and equipment of the regiment they went to the seat of war in Kentucky. In an impetuous charge upon the enemy he was killed at Woodsonville, Ky., Dec. 17, 1831.

Tubbs Bros. Moving

Tubbs Bros. are preparing to move their garage to the old W. E. Robinson furniture store and the Bacon building on the corner.

They have secured the Buick agency and will have a number of new machines to arrive soon. They will continue to do a general garage, repair and service car business.

Their former stand, the Phillips old garage, has been purchased by the Western Windmill Co. and will be converted into a warehouse, which that company has been in great need of for some time, in order to take care of immense stock of goods, which their main building will only partially hold.

A deal was closed this week whereby the Tremont hotel building on North Cedar Street, was leased by Dr. M. C. Overton, for the purpose of converting it into a hospital.—Lubbock Avalanche.

LUBBOCK

TEXAS

Your presence at the meeting of the Fair Directors is much needed at Gomez tomorrow, not only to lend your support to an enterprise calculated to enhance the value of your property, but because it is your duty.

You may say what you please about 15 cents cotton, but as long as this editor could make \$2000 worth of feed on 100 acres with 60 days work and sell mule colts at \$60 and calves at \$25 each, then we would not be much long on cotton.

We understand that over 200,000 worth of land has been sold near Ralls lately, to homeseekers from the north, in small farm tracts. Some day this plains land will go so fast you will not have time to bat your eyes between deals. Better get on the ground floor.

For the past five years, the Plains country has been shipping feed east and has averaged as much cotton per acre as they have in the meantime. Still there are some numpsculls back there still asking what the Plains country produces.

"By the sweat of thy brow, thou shalt eat," was no less mandatory to the ancient He-

brew nation than to we of the twentieth century, of Terry Co., Texas. Then there is another scripture that says "he that provideth not for his household, is a hypocrite and worse than an infidel. Pretty strong language for old lazy-bones to get upon, isn't it. There are seemingly honest people right here in Terry county who seem to think they have nothing to do but get their feet above their heads, fold their hands and await the shower of manna and quail from heaven. No matter what preachers may tell you about special providence, you had better get it out of your noodle that we still live in the age of miracles. We are no longer under the law, but the spirit, and have the Word to guide us, and it is very plain about the fact that we shall expect spiritual blessings, but promises of financial or physical blessing are noteworthy for their absence. Some effort is expected of those who are responsible for the well being of those dependent upon them. A herd will not prosper without plenty of water, good grass and some nourishing food in winter, and big ears of corn and golden heads of maize do not grow amid weeds and grass, here nor no where else. Do you follow us? Then a hint to the wise is sufficient.

Appraisers Heard From

Notices have been received here from the Board of Appraisers of school land under the new law, by practically all of the owners, who let their lands forfeit for reduction, re-appraising their lands. The new price is fixed at not less than \$5 and some at as high as \$7, the former price ranging from \$5 to \$10 and some even higher. This reduction is taken by some as satisfactory, yet it is a disappointment to the most of them, as they expected it to be re-appraised at about \$3 to \$5, and point to the fact that other lands, including patented lands, is offered for sale at an average of \$5 per acre.

One feature of the Board's work in this county which is not understood by the people, is that quite a number of sections, adjoining or cornering, with same quality of soil, are fixed at a difference in value, in some cases as much as \$3 per acre.

Some say that owing to the price being so high, they will not likely re-file.

Farmers.

Between now and Oct. 1st we want you to bring in samples of your field and garden products and turn it over to Winston & Hill, as we aim to send our exhibits to the Amarillo State Fair.

Understand that this has no connection whatever with our fair or the exhibits we get together for the Dallas Fair at that time, but the citizens of Brownfield will send this exhibit.

The Panhandle State Fair men have phoned Judge Neill that they have all kinds of money up there to pay out on products, and that exhibit space is absolutely free. As all surrounding counties will have exhibits there, it will be to our advantage to also be on hand as the Panhandle has no crops this year and are depending on the South Plains to show 'em up.

Don't neglect this men, as it means much to our county.

We respectfully call your attention to the quarter page ad of the Guaranty Life Insurance Co. of Houston, in this issue. Note the figures and you will be ready for their agent when he arrives.

SEVERE PUNISHMENT

Of Mrs. Chappell, of Five Years' Standing, Relieved by Cardui.

Mt. Airy, N. C.—Mrs. Sarah M. Chappell of this town, says: "I suffered for five years with womanly troubles, also stomach troubles, and my punishment was more than any one could tell.

I tried most every kind of medicine, but none did me any good.

I read one day about Cardui, the woman's tonic, and I decided to try it. I had not taken but about six bottles until I was almost cured. It did me more good than all the other medicines I had tried, put together.

My friends began asking me why I looked so well, and I told them about Cardui. Several are now taking it."

Do you, lady reader, suffer from any of the ailments due to womanly trouble, such as headache, backache, sideache, sleeplessness, and that everlasting tired feeling?

If so, let us urge you to give Cardui a trial. We feel confident it will help you, just as it has a million other women in the past half century.

Begin taking Cardui to-day. You won't regret it. All druggists.

Sweet William was in one day last week with a load of his famous ice cream melons, that'd almost melt in one's mouth. The good old deep sand of Terry puts the size as well as flavor in our melons that make them famous.

Terry county will make some good cotton this year. While the acreage is not up to some years, conservative farmers put the yield between a fourth and a third of a bale per acre, and some fields as high as one-half bale per acre. We have heard several say that Mr. R. R. Lewis would get that much cotton.

McADAMS at Tahoka sell the "old releable" McCarmick Harvesters and extras.

East and Central Texas Grain dealers are beginning to write dealers here for maize. One Plano firm has written the business men of the town for several cars, offering \$14.50 per ton. This is considerably better than it opened up last year. The Plains country is destined to become the grainery of Texas in the near future.

As advertised, the Masons met Saturday night for the first time since the fire and had a great time. Some twenty odd members being present, among which were District Judge, W. R. Spencer, of Lubbock, and District Atty., G. E. Lockhart, of Tahoka, who came over in the latter's car from Tahoka. The

Lubbock Masonic lodge gave this lodge a full set of nice regalia, which was a very generous act, indeed.

Mr. and Mrs. R. R. Hughes and the editor and family spent Sunday at the hospitable home of Com. and Mrs. E. L. Duke, who is one of our progressive suburban farmers. Mr. Duke will make from 1000 to 1200 bushels of corn, and about 1000 bushels of maize and plenty of cane, etc. He will clear at least \$1500 on his 100 acre farm this year and was only assisted by Dewey, his fourteen year old boy (who, by the way did most all the work we believe.) Mrs. Duke served a typical farm dinner, consisting of good old cabbage, tomatoes, onions, sliced potato pie, green pepper and fried chicken, all of which were home grown, with the usual sweet meats. My! how farmers do live in good old Terry. It will be remembered that Mr. Duke sold 400 or 500 bushels of corn and several tons of maize last year, and has old corn yet. Still some people say you can't make a living here farming. Well you can't if you sit around town playing forty-two, or cussing the government, the churches and schools; not here nor no where else on God's green earth.

Good roads are monuments to the future. Let every man build a monument.

The only thing that Julius Caesar did that exists today are the good roads he built.

The most antiquated laws upon our statute books are the laws. Good roads can never be made a reality until these laws are modernized.

Children going to school, the farmer going to market, the clerk going to town and the driver in his auto, all enjoy the benefits of good roads.

Long life to auto tires, much less expense to draught wagons, and pleasure and comfort attained by having good highways.

The man who trods his beaten path continually will eventually get a rut for himself. The rut that permits her people to wade through the mud, will drop behind her educationally, morally and socially. Build good roads and be happy.

Finds Cure for Epilepsy After Years of Suffering

"My daughter was afflicted with epileptic fits for three years, the attacks coming every few weeks. We employed several doctors but they did her no good. About a year ago we heard of Dr. Miles' Nervine, and it certainly has proved a blessing to our little girl. She is now apparently cured and is enjoying the best of health. It is over a year since she has had a fit. We cannot speak too highly of Dr. Miles' Nervine."

This company, since commencing business in Sept. 1906, has paid out five annual dividends to the stockholders, amounting to forty-four per cent interest on the capital stock.

This Company has grown up during the past seven years in the midst of competing companies, many of which had large surplus to spend in securing business. While there are other good life insurance companies in this state, a number of them started with a large surplus fund contributed by the stock holders, the GUARANTEE LIFE INSURANCE COMPANY started with a paid up capital stock of \$100,000 and a very small surplus of \$25,000, and by work, close attention and economy, has build up a large surplus fund which on Jan. 1st 1913 was assigned and unassigned \$172,000 all of which was derived from earnings on its business. If you are going to deposit your accumulations of years in a saving bank for those dependent upon you after you are gone, which institution would you select, one that had started with little money and grown to be strong as a result of years of hard work, close attention to business and economy of management, or one that started with lot of money contributed by stockholders, whose existence was of short duration and experience limited? Isn't it true that men who save and safely invest their own accumulations are most likely to safely invest and preserve the money of others entrusted to their care?

Value of Advertising

By W. Holt Harris, Chairman of Mercantile Committee Commercial Sec. Assn.

The object of an advertisement is not to create admiration for the writer but a desire for the article advertised. Advertising is salesmanship on paper and no discussion should be tolerated in printed talk that would not be countenanced in personal selling. An ad should speak the plain English language. Muslin cannot be sold with quotations from Omar, or trousers with excerpts from Marie Corelli. Cut out clever phrases if they are inserted to the sacrifice of simple facts and write copy as you talk, only be more brief. Sir Isaac Newton's explanation of gravity covers six pages but "what goes up is bound to come down" states the case in eight words.

The skilled advertiser works with simple words—they fit into more minds than flowery phrases; he seeks to inform rather than instruct. All minds are not built for high grade thinking and the buying public is only interested in facts. The advertiser who takes up the least of his readers time and states the most facts gets the best returns. Cultivate brevity and simplicity.

Dots From Tokio.

R. A. Snodgrass brought his binder over and cut feed for H. L. Ware and sons last week.

Miss Rena Lewis began teaching the J Cross school the 7th of this month. As the pupils all seem to have learned the first lesson; we predict a successful term.

Mr. and Mrs. J. W. Spear visited Mr. and Mrs. H. L. Ware Sunday.

Mrs. A. V. Taylor and children visited Mrs. R. K. Benton, Sunday.

Good rains have fallen over west Terry and Yoakum counties and as far west as Bronco, perhaps farther, and stockmen say winter pasturage is assured, while those who have late feed crops are prophesying the biggest yield in several years. There will be a fair crop of late corn made in this part of the county.

Mr. Will McPhaul came in

Saturday and reported that Enmet Green was driving the mail hack between Gomez and Harris and his team ran away, tearing up the vehicle considerably, but after some time spent in patching up, he went on his way with Uncle Sams luggage.

Miss Ori Ware visited Miss Emma Spear, Saturday.

Mrs. Annie Wright and sister, Miss Emma Spear, left Sunday morning for Tahoka, where they will take the train for Knox City, to visit their sister, Mrs. Bennet. They expect to go from there to Okla., to visit relatives and will probably be gone until November.

Quite a number of Mexicans have passed here during the last two weeks going east to pick cotton.

Mr. Lovelace, of Springtown, Texas, came in Monday evening accompanied by three of his sons and their families. He bought the place now occupied by Mr. J. H. Wyatt, and is now moving in with the intention of making Terry county his future home. He said two more families from his part of the state would be in by Wednesday, and all of them expects to locate in west Terry.

COLLIES MADE VERY USEFUL

Animals Can Easily Be Taught to Go Long Distances Into Pastures or Woods for Cows.

We do not think collies are dangerous with children. We have raised two farm puppies and they became firm companions for the children and we never knew them to snap at the little ones or show a disposition to

harm them, says a writer in an exchange. Collies are very useful on the farm. They can easily be taught to go alone long distances if necessary into the pastures or woods for the cows, bringing them home night and morning for milking. It is far

pleasanter to send a dog for them, especially on a wet stormy morning than to walk a mile or so for the animals or to hire a man to do it.

Presence of Mind.

Watching her house burn down, the woman suddenly bethought her that she had written out a check and left it lying on her desk. Fortunately she could remember the number of it—281. With rare presence of mind she at once called up the bank. "Please stop payment on check numbered 281!" she directed, with the crisp brevity characteristic of those balanced souls who know exactly what they want.—Puck.

GOMEZ DOTS

The public school here opened Monday morning. Interesting talks were made by Judge Neill, Prof. Speed, Mr. A. P. Moore and Mrs. Reeves. Owing to the feed cutting, silo filling and cotton picking, only a few of the men patrons were out, and about one third of the pupils are in the field at work, but will enter as soon as the rush of work is over. We have an efficient corps of teachers and the outlook for the school is bright.

Mr. Roy Garrison who has been visiting here for some time, left for his home at Matador, on last Friday.

Mrs. Wolfarth moved here from the TFM ranch, last week. They come for the benefit of the school and we welcome them to our town.

Mr. Davis' family from Yoakum county moved into their house here on Sunday. They moved to their farm in Yoakum last spring and have now moved in for the school.

Mr. Guy Taylor made a trip to Plains last Friday, returning Sunday.

Rev Lofton preached at the school house on last Sunday.

Miss Mary Pullium, of Plains, is visiting at Walter Gainer's at this time.

Walter Gainer made a trip to Tahoka after groceries last week and got back Sunday evening. Our town for several days was out of flour, meal and sugar and right now is preserving and sweet pickling time.

Mrs. Ben Hurst is staying at her fathers here, while Ben is running the row binder on the farms around town.

Mr. Will Black is filling his silo this week and there is quite a demand for work hands in the fields here. If there is any idle men here they sure keep out of sight.

Little Eddie Snodgrass is boarding an Mr. Simon Holgates here to attend school until her parents get ready to move in.

Miss Ergie Rambo gave a farewell party to her young friends on last Friday night. All the young people of Gomez went out and those of the surrounding country were there. Punch and cake were served and at a late hour the guest departed. All say it was one of the most pleasant entertainments they ever attended.

The Garrison cottages were moved out of town last week, one to Mr. Dooley's place one mile east of town and the other down to Will Black's west of town.

We learn Mrs. Moore of Brownfield has purchased the the Glover cottage and will move to Brownfield in the near future.

Domestic Science

By Mrs. E. P. Turner, Chairman Rural Homes and Schools, Farm Life Commission.

At the present time there seems to be an organized effort underway in Texas for the extermination of the fly, and the consensus of opinion is that swatting is the solution of our fly troubles. Several communities have offered large prizes for

the greatest number of flies killed, while others have advocated the screening of all places where food is kept. All this is evidence of right intent and an entire willingness to safe guard public health, but merely swatting the fly is sheer waste of energy, and energy, except in a worthy cause, should be conserved, not dissipated. It is difficult to beat even a fly at his own game, but attack him from the right vantage ground and the victory is won.
