From The Terry County Voice, Gomez.

Messrs. Price & Phenix, our blacksmiths are busy working old plows over this week.

H. L. Ware drove the Gomez and Chicago mail hack two days last week.

W. R. Glover and Jno. Mauldon returned this week from Hale county with feed.

J. A. Long of northeast Terry was in town Monday, and reported the arrival of a fine boy at the home of W. H. Long.

Last Sunday was Bro. Lane's day to preach, but as he was sick Bro. Roberts held a short prayer service.

We failed last week to get our paper on time and did not print.

Lawson Bess left Monday for Big Springs, after freight.

W. E. Bradshaw got in this week with a load of groceries for J. J. Lane.

W. A. Pyeatt got in this week from a business trip to Midland.

W. R. Dixon and Lence Price are drilling a well for Mr. Branch this week.

W. T. Dixon, W. A. Shepherd and I. H. Hudson moved the south windmill on the Shepherd section to the Turner place, last week.

J. T. Gainer has been breaking up ground this week for a garden.

A one inch rain fell in Gomez last Friday night. It is reported general all over the county.

The hard wind last Saturday blew over Mr. Nelson's barn and tore up several tents.

OBITUARY: On last Tuesday at 12 o'clock, Mrs. Irene Adams departed this life. She was the wife of Mr. Will Adams, who lives seven miles south of town. Her remains were taken to Brownwood cemetery for burial. The Voice extends sympathy to the bereaved husband and relatives.

A mass meeting for early organization was held here recently. There were 42 favoring it and 18 opposing.

Bids Wanted.

We the undersigned committee will receive bids for the cold drink and novelty rights for the Woodmen picnic of July 17th, at Brownfield. Bidders must be on hand in front of the Hill Hotel promptly at 3 30 p. m., Saturday July 4th. The committee reserves the right to reject any and all bids. Persons unknown to us will be required to put up a forfeit.

We call your attention to the change in A. P. Moore's ad in this issue. He wants to sell you a cream separator.

Mrs. J. P. Kelley, of Lamesa, a sister of Aunt Graham, is visiting him.

J. M. Courier and family and Irvin Gainer and family who are visiting the former from Ellis county, came over in the latter's car last Saturday, and spent the day with Judge and Mrs. Neill.

Judge Neill made a trip to the Meadow country this week in the interest of his candidacy.

Geo. Black Jr., of Gomez purchased a No. 1 Sharples cream separator from the Merc., Monday.

Miss Etta Kinard reports that lightning struck a large plum tree near their yard Sunday afternoon and destroyed it.

D. R. Carter says the lightning struck a gate post at his place last Sunday and tore it all to pieces. He was in the window and the flash blinded him. We understand that the bolt that hit the Lee Cowan home just over the line in Hockley county, stunned some of them pretty badly for a while.

Beginning on Tuesday night after the 2nd Sunday in July, Bro. B. F. Dixon will start a series of revival meetings at the Baptist church. He will have associated with him in the meeting, Rev. J. E. Nicholson, pastor of the Tahoka Baptist church. Everybody earnestly requested to attend this meeting and help make it a success.

Fred Scudday has installed one of the latest improved radiators in his barber shop for heating water for baths etc., which will be very convenient and economical compared with the old system of heating water over a gasoline stove, besides have hot and cold water at his convenience in the tonsorial department. We congratulate this hustling young man for his thus providing for the needs and conveniences of his trade.

W. B. Snodgrass and son Bob, called the Herald last week over the phone and had us put four of their friends back east on the mailing list. Mr. Snodgrass already having some three or four going out. This is the way to get homeseekers and settle our county cheaply, and at the same time is much cheaper than writing your friends letters. By the way, it is reported that Mr. Snodgrass says he had the biggest rain Sunday evening that he ever saw fall.

In company with Lee Allmon, the editor had the pleasure of inspecting one of the best, if not the best improved places in Brownfield, Sunday, that of H. H. Longbreak. He had invited us up some time ago to see his place, and as Sunday is our day off, we used it for that purpose. We had not seen the place since Billie Byrd lived there four years ago, and it is almost unbelievable how shrubby and trees can grow in the course of four years. Then they were mere switches, now almost a forest, and a hammock under their spreading branches is a thing of beauty and a joy forever. Why don't everybody have trees? Then there is his vineyard and orchard full of luscious fruit that goes to make home worth while. Mr. Longbreak is especially

proud of his vineyard, which gives promise of turning him dollars and pleasure both in the near future. While the vines are young, they are full, and he has plenty peaches and apples.

NEW WORK FOR AGRICULTURAL DEPARTMENT

Farmers' Union Would Have Commissioner of Agriculture Organize Co-operative Association of Farmers.

A Practical Farmer Demanded to Head Agricultural Department—No Lawyers Wanted.

Fort Worth, Texas.—The Commissioner of Agriculture has greater opportunities for service than any other official in State government. In addition to the important duties which have already been assigned that department by the Legislature, it is generally conceded that the Legislature will devote itself almost exclusively to agricultural problems and the proposed system of new and untried laws must be adjusted to working conditions by the next Commissioner of Agriculture in co-operation with the farmers.

The next administration will be confronted with the enactment and application of agricultural legislation and the Commissioner of Agriculture must be a practical farmer. The law requires, and public necessity demands, that he be a man who has firsthand knowledge of farming conditions.

We Stand for Law Enforcement.

We quote in part from the law on this subject: "The Commissioner of Agriculture shall have a knowledge of agriculture, manufacturing and general industry; shall be an experienced and practical farmer, etc."

We are going to put up a "posted" sign on the Agricultural Department against lawyers. There is no more reason why a lawyer should run for Commissioner of Agriculture than why a farmer should be a candidate for Attorney General. We know of no lawyers who contemplate entering the race, but we want to notify them not to hunt on our preserves in this campaign. We stand for law enforcement and call on all good citizens to see that the constitution is upheld and that no lawyer is permitted in the Department of Agriculture.

The Farmers' Union takes science by the hand and welcomes progress. We have been the pioneers in the movement for improved cultural methods but increasing production is not sufficient. The farmers have many important problems that cannot be solved by free garden seed, skillfully written bulletins and eloquent lecturers. We will mention a few of them:

Organization and Co-operation Needed.

The farmer has the best security on earth, yet he pays an average of from 10 to 30 per cent in-

terest on his money, against four to eight per cent paid by other lines of industry on less stable securities. Is it education the farmer needs to reduce his rate of interest? We think not. He might raise the largest pumpkin; the biggest bushel of corn and enough vegetables per acre to fill a silo, but his rate of interest would remain the same.

The farm laborer works an average of 12 hours per day the year round at 11 cents per hour and boards himself. The brick mason in Texas receives 87 cents per hour, the highest of any State in the Union, and farm labor ranks thirty-fifth. The laborers in all other trades work approximately an average of 9 hours for 25 cents per hour. Is it education the farm laborers need to bring their earning power up to that of their city cousins? We think not. He might read farm bulletins every night until the chickens crowed for day and he would not increase his wages one penny.

The average farm yields a net income on the investment of 4 per cent and the average business 10 to 30 per cent. Will any one contend that this difference is due to ignorance on the part of the farmer? We think not. He might listen to agricultural lectures until he became gorged with knowledge and he would have no more to say in fixing the price of his products than he has today.

The world is one great corporation of which the farmers are the largest shareholders, but when we call at the counter of industry for our dividends we are handed a package of education and the other fellow gets the gold. We are glad to get the suggestions, printed and otherwise, but we want in on the dividends and a voice in fixing the price of our products.

The Remedy.

We must further improve our cultural methods and move forward more rapidly in all branches of practical science of production, but the remedy for the present difficulties must come through organization and co-operation, and it is this new field of activities that the agricultural department must enter. Legislative permission to form rural credit associations; to build warehouses; to form co-operative cotton gin companies, to organize market associations, etc., is necessary, but it is not sufficient. To get the full benefit of these laws the farmers must be encouraged and directed in the organization of the respective associations needed in his community and this work properly belongs to the Department of Agriculture. It is as important a function of government to demonstrate the advantages of organization for the transaction of the business of farming as to demonstrate the advantages of cultural methods, and far more profitable. The formation of co-operative associations that will introduce economies in farm operations, reduce rates of interest, and afford facilities for the more profitable marketing of the crops, are what the Texas farmer needs today and needs badly.

The farmer has so often become the victim of designing promoters who operate under the guise of agricultural philanthropists that he very properly hesitates to enter into any voluntary organization that binds him financially. We have a very recent instance in which the farmers of this State were fleeced out of a few hundred thousand dollars by promoters, which illustrates the willingness of the farmers to cooperate in an effort to better their condition and demonstrates the disadvantage of no authoritative plan of action. He is entitled to the sanction of State and the endorsement of its authorized representative to co-operative contracts, in which his property and that of his neighbors are involved, and his faith in government will encourage him to enter into these new forms of business transactions when its seal of approval is placed upon them.

The appropriation should be made with a view to extending the work into rural credits and marketing, which is the most needed and most neglected factor in agriculture at this time. The farmers pay more into and get less out of government than any other class of citizens and have less to do with its management.

The next Commissioner of Agriculture should not only be a capable producer but a successful organizer as well. He should be a man who understands the business side of farming and of proven ability in co-operative work, and one who enjoys an extensive acquaintance and possesses the confidence of the farmers of Texas.

It is as important that we select the right man for Commissioner of Agriculture as that we enact constructive legislation on the subject, for laws that are not properly used are worse than no laws at all.

W. D. Lewis, President.
Peter Radford, Ex-President.
Texas Farmers' Educational and Co-operative Union.

TAPPING THE SOURCE OF CHEAP MONEY

EDITOR'S NOTE.—This is the third of a series of Articles on AGRICULTURAL PROBLEMS prepared by Judge S. A. Lindsey, chairman of the Texas Farm Life Commission.

There are land loan and trust companies throughout this nation. They operate in this way: they will take up land notes drawing 8, 9 and 10 per cent and sell them in the East at a rate which will net the investors 5 and 6 per cent. In this way they make from 2 to 5 per cent per annum on each note. This is legitimate. I only mention it to prove that our land securities can and do find cheaper money than the local market's offer.

The bill now before Congress proposes to authorize the organization of Land Mortgage Banks, with Federal supervision same as National Banks. These Land Mortgage Banks will make loans on land notes where the title is good, to the extent of half the appraised value of the land. The mortgage bank will see that the title is good and the value is there, just as banks usually do. They will file these notes with Uncle Sam who will authorize the bank to issue its own bonds or promises to pay in such denominations as are easiest sold, not to exceed in the aggregate the sum of the mortgages and notes held. On these Uncle Sam, who is known as a square man all over this and European countries, will affix some kind of stamp or sign which will mean that the bank issuing it is under his supervision, and that no fake methods have been used. The capital of the bank will be involved and will insure great care on the part of the bank taking the land note and mortgages, and Uncle Sam's supervision will give the investors confidence.

Uncle Sam requires that these banks must lend money on land notes and mortgages at not exceeding 1 per cent above what they can sell their bonds for. So if the bank pays 5 per cent on its bonds the borrower will pay the bank 6 per cent which is from 1 to 3 per cent less than other loan companies now make. You say no one would organize one of Uncle Sam's banks when he is allowed to make but 1 per cent on loans. But Uncle Sam is going to en-

courage his land banks. He now lends his Postal Savings funds to banks at 2 per cent, and that money is used in commerce. Henceforth he is going to lend it to the mortgage banks, who are to let the farmers have it. He is going to let his land banks take mortgages and land notes and sell their bonds up to fifteen times their capital and surplus. You see these mortgage banks are nothing but a kind of note-broker concern for the farmers, and their compensation for finding the source of cheap money and keeping that class of securities in good standing is 1 per cent per annum to be paid by the farmers whom they serve. They can make over 15 per cent on their capital and surplus. That is pretty good.

But before one of these banks can be organized in Texas we will have to adopt the Torrens system of land title registration. We should have done this long ago. The money people pay to record titles would build up a fund ample to insure all land titles and leave an immense surplus besides.

But the land mortgage banks will not entirely enable the landless man to buy a home. In my next article I will suggest an easy and feasible method by which this can be done.

TEXAS FACTS

LUMBER AND TIMBER.

Texas forests grow four and one-half millions feet of timber per day.

The value of the annual lumber production is \$53,000,000.

The value of raw timber cut yearly is \$32,000,000 and the factory adds a value of \$21,000,000.

Texas ranks seventh with other states in timber production.

The lumber mills of Texas employ more men than any other of the state's industries.

Thirty-three per cent of the industrial laborers are employed in the lumber mills.

There are 800 lumber mills in Texas, representing an investment of \$45,552,000.

IRRIGATION.

Texas has 5,238 irrigated farms, comprising 451,000 acres.

There are 1,480 miles of main line irrigation ditches and 1,225 miles of laterals in Texas.

The cost of constructing our irrigation systems is estimated at \$13,500,000 by the United States Census Department.

The quantity yield per acre of irrigated crops is approximately 45 per cent higher than that of those raised by natural methods.

Eighty-three per cent of the water for Texas irrigation projects is supplied by streams, 13 per cent by wells, 3 per cent by springs and 1 per cent from lakes and reservoirs.

Rice is our principal irrigated crop.

There are 287,000 acres of irrigated land in Texas devoted to the culture of rice.

Jefferson County has 76,000 acres of land under water and leads all other counties in this respect.

During the past decade the population of Texas has increased 27.8 percent and the United States 21 percent.

There is a child born every four minutes in Texas.

We build seven homes in Texas every working hour in the day.

J. W. Hooker and wife arrived from Lubbock last Tuesday to visit their son L. H. Hooker and family here. They started on to Lovington N. M. Sunday to visit another son, Jeff Hooker. Mr. and Mrs. Hooker will spend a few more days here on their return trip.

Brit Clare went up to the U-Ranch last Tuesday returning Thursday. They were branding up there. Brit bought 50 head of heifer calves from J. W. Gordon.

Mrs. W. J. Satterwhite and children accompanied by her sister, Miss Tommie Bess, visited Mrs. Brit Clare last Wednesday. They all called on Mrs. W. H. Harris in the afternoon.

Wiley Bridges was around soliciting votes and took dinner at Brit Clare's last Thursday.

J. E. Fitzgerald branded his calves last Wednesday. Some of our young folk assisted at the round-up and that night the whole soiree enjoyed a party in the Fitzgerald home.

Mesdames J. W. and L. H. Hooker and children spent last Thursday with Mrs. Jim Merritt.

We hear lots of complaint of worms bathering stock this year. The Mallet Ranch dehorned 1500 head of steers recently and they were having a time doctoring them for worms.

Brit Clare and family visited at L. H. Hooker's last Friday.

W. H. Harris and J. W. Spear and families attended church at J Cross Sunday. They say church was alright and the dinner too, but the rain was furious. From all accounts the rain was much lighter here than there.

W. H. Harris and family were water bound at B.C. Christ

Bryan's Ambition

Secretary Bryan recently revealed his early ambitions, and disclosed during an address, the proof that he has gone far afield from what he anticipated would be his life work, Mr. Bryan says: "I commenced with a desire to be a Baptist preacher. Before I was six years old I wanted to be a farmer and raise pumpkins. My father was a judge, and I remember the old courthouse where I used to listen to cases. This ambition guided me through my boyhood and college days. Following along the events of his life, Mr. Bryan says that he got into politics by accident and stayed there by design. He says that when he was first nominated for Congress that there was no thought that he would be elected. His comment was to the effect that circumstances rule our lives. Mr. Bryan says he has gotten along so far in his languages that he is able to dream in Spanish." Incidentally the Secretary has practically completed arrangements for an

active season on the Chautauqua platform.

Adonis and his sweetheart Patsy (a colored Gentleman and Lady) will entertain you at the show Saturday night June 27th.

Gomez

By West Wind

Rev. Hicks preached at the school house here Sunday.

The entertainment last Friday night drew a good crowd and was enjoyed by all present. The program of music and recitations was real good. The refreshments were cake, ice cream and grape juice.

The play "Rocky Ford" is now being rehearsed and will be both interesting and amusing when it is rendered to the public.

Messrs. Jim Moore, Ben Whitta and Misses Ruth Watson and Esther Simms went "Hunting" Monday afternoon and they did not bring any game home, so we just "vestigated" that hunting trip and—they went to Ben Broughton's peach orchard and ate ripe peaches until not one of them would eat any supper. "Hunting," well they sure found what they hunted.

Reports from west of here are that last Sunday's rain was as heavy if not the heaviest ever witnessed there. The rain here in Gomez was heavy and lasted most of the afternoon, but the rain was harder west, and people at church could not go home until near night. There was some hail at Mr. Lemley's that destroyed his garden and at Mr. John Day's the water fell so fast that it washed up 15 acres of his crop. Several people from west Terry and Yoakum claim there was a 7 inch rain out there last Sunday. All the out of town people who were here stayed over and most of them stayed until Monday.

Mrs. Geo. McWhirter and Miss Jewell Nichols visited Mrs. A. E. Moore Tuesday.

Mrs. Reeves visited out at W. A. Fultons last Sunday and little Misses Tommie and Pat came home with her.

H. D. Leach was in town Monday and traded a mule colt to Walter Gainer for a cow.

John Day was in both Brownfield and Gomez Tuesday. He carried his little daughter to Dr. Treadaway to have a sprained arm treated.

Roy Scudday was here Monday shaking hands with the voters.

Hosey Key went over to Tahoka and spent last Sunday, and he looks more cheerful this week.

Old Reddie, the fine Durham cow, belonging to A. P. Moore, is sick and as she has been furnishing milk for four families, quite a lot of us are interested in her recovery. We don't suppose there is a better milch cow on the Plains.

Word Price and Miss Zellica Knox came in horseback, Sunday evening. They had been out in that heavy rain.

Miss Jewel Nichols will leave Thursday for her home in Hamilton county. She has been visiting her sister, Mrs. George McWhirter, several months past.

The Misses Leveridge's of Tulia, neices of Joe Lane, has been visiting him for nearly two weeks.

I. H. Hudson has finished his underground silo. He had some

trouble in digging it as they had to blast part of it through rock.

News from Cisco is that Marvin Lane is quite sick and his physicians pronounce his trouble to be tuberculosis.

Messrs. Simpson and Goldston, were at the hotel, Tuesday.

Mr. and Mrs. Will Black went to Tahoka last week to visit Miss Willis, who is there attending the Normal. Mr. Black purchased a new buggy while there.

Messrs. Grover Lewis, Joe Griffith and Whisenant, were at the hotel, Sunday.

Henry Pullium and wife and little Miss Duke were in trading Saturday.

Booth Hays and wife and little Edna were in town and visited at Oral Adams' Tuesday.

Bert Kennedy and wife passed through Saturday evening enroute to Tahoka to visit relatives.
