#### IN TERRY TEN YEARS AGO

From The Terry County Voice, Gomez.

The Fort Worth Record gives us an account of a great battle won by the little Japs at Port Arthur.

W. J. Head, our barber, has just papered and invites the bearded to call.

Mr. Abbott was brought in sick from the railroad, Saturday night.

Rev. J. N. Smith and lady visited at Mr. Hill's in Brownfield last Tuesday. Bro. Smith tells us that they were treated to a very palatable dinner, and that the day was pleasantly spent with the good people of Brownfield.

The public school closed yesterday, but a subscription school

will be continued several months by Prof. Morrill.

Noah Bell from north Terry was in town Saturday.

Mr. Roberts, of Childress, was here this week, looking out a location.

M. L. Nelson came in Friday night intending to leave on the mail hack to attend court at Stanton, but as he was nearly sick, he did not go.

Mr. Bradshaw moved back to his farm near Meadow Monday.

W. E. Hinshaw and wife of Block 20, accompanied by Ural Hinshaw and wife of Newton, Iowa, were here Sunday visiting the former's son-in-law, F. L. Phenix.

How can he be an "effective, energetic and active" congressman among smart men, and Statesman at the Nation's Capitol, and spend half his time chugging over the ballies of the west? How many did the audience number? What ratio was the audience to the county's voters? Mr. Blanton was heard in Brownfield by one man out of every ten voters in the county and some four men out of twenty five in the audience had seen Mr. Smith.

Further answering Mr. Blanton's statements, at least as to his speech here, which we presume was the same with you, permit me to say that as to Mr. Smith's inactivity in Congress this is error. Mr. Smith has done as much or more for his district than any representative from Texas. He has been active in procuring irrigation, Tariff reforms, (a subject Mr. Blanton does not mention) Federal buildings, New Federal District, Postal matters. He helped us get the Mail route from from Lubbock, giving Brownfield and Plains a daily mail. He has worked in our interest, and has represented us effectively at Washington. He is dubbed "Silent William". Well, it is not the report of a gun that kills, its the ammunition it belches out. Still water is the deepest; to our mind the more the silence the greater the William. We want a worker there, not a Phonograph. Mr. Smith has been heard in the halls of congress, one of his speeches brought a letter of congratulation and endorsement from the "Peerless One" whom Mr. Blanton endorses. Of his failure to set the nation afire, remember that until one year ago, Mr. Smith has served under Republican rule, when no democrat did much and since Mar. 4th 1913, the principal part of legislative work is done at the white house, whose

occupant Mr. Blanton endorses. As to speechmaking in Congress this is about the least thing one can do, the actual work is done in Committee rooms, the Library and in the Caucus of each party. The Federal legislation and management is a great, deep, and broad subject; it requires mature judgement, thought and much information; if congress would convene in the Hall only once a month, putting in the rest of the time in Library or hearing the evidence of pending matters, we would like to have better laws. Mr. Smith has just reached the point where he is most powerful, and his influence of some note. In the Caucus (where the bills are really formed) is where ones presence and influence is worth more than his eloquence.

Mr. Blanton did not discuss the Tariff, the Currency Reform Mexican situation, nor did he advocate any policy of reform, or render more than the old wornout threadbare RACE question, which appears more likely to have been discussed here because this is an anti-negro section of the district. He admitted at Brownfield he had no solution for it, more than suggested that we ship them to the Phillipines, which subject was thrashed out right after the Spanish war, and when it was learned 15 years ago that there wasn't enough ships flying the American flag to carry the negros there in 20 years, and would cost a billion dollars. Take the Titanic as a basis of capacity, we havn't enough ships available to carry the "increase" as fast as they are born. Is this his statesmanship? As to immigration, we already have laws forbidding the Japs and Coolies entering this country. We have been regulating immigration otherwise for 20 years, and there is pending in Congress now very

drastic and ample legislation on that subject. He's too late for that.

As to long term in office, Mr. Blanton is serving his third term as District Judge. He's already over run the third term policy. He says he voted for Mr. Smith for his 5th and 6th term, but draws the line at 12 years, why not ten? why not eight? Believing this to be a cattle country, he argues against the garden seed distribution, as the Mr. Smith was to blame for it all, when in fact it is prepared by the agricultural department, and mailed by them to the addresses, furnished by each congressman and Mr. Smith as well give his district its share, for its all paid for anyway. Is Mr. Blanton opposed to the agricultural department.

We believe Mr. Smith is a strong man in Congress, useful to his district and the Nation. That Mr. Blanton has failed to show that he could render us better service, or advocate greater and more useful legislation, and until he does, we think as you stated, "compare the two men" is all Mr. Smith's friends could ask.

Yours truly  
Friends of Smith.

#### In Defense of Congressman Smith

In a late issue, you wrote of "The Difference between men" by reciting the instance in Mr. Blanton's address, where he asked all those in the audience, who had seen Mr. Smith to stand up, when about three responded. Then you argue this shows Mr. Smith is not known to his people. Lets take another vote, "All those who ever saw Mr. Blanton, before he came through on this campaign trip, stand up", Count 'em Mr. Editor. How many?

Mr. Smith came through this country in 1908, with buggy and team, and dragged through the sands of a more thinly settled country than now, when your county was in its organization, before we had even laid off a road

He discussed the real issues of the day, became acquainted with the people and our conditions. Now that we have graded high ways, have spent thousands of dollars and made speed ways for automobiles Mr. Blanton becomes very loving to the people and sails among them on rubber tires stopping for a few minutes at county seats. Mr. Blanton says he will visit each county, each year and "go among his people" that "every person in the district will know him personally", this will require at least two days to each county west of the Santa Fe railroad, and from four to six day in those east of it, according to Mr. Blanton's map, and printed statements thereon, there are 57 counties in the district, it will take him at least 180 days, or six months to "go among his people"

## CHEAP FUEL IS NOT ECONOMY

Don't hear your wife roar about that old cheap, soggy, ashy coal any longer. It cost more time and money in the long run, and a lot of temper. Cottonseed cake and meal, hay, post wire and stays. A good wagon yard.

Straw votes are deceiving, as some weeks ago a vote was taken in a crowd of eleven men, and the vote stood 7 to 4 in favor of Ferguson. A vote was taken last week in another crowd that indicated a big Ball majority in Terry county.

Politics is a funny thing. Only this week we saw one of the strongest anti-prohibitionist in the county circulating Ball Literature, but announced that he would oppose submission. Incidentally he was also handing out sample copies of Home and State and one of his friends asked him where he was going to preach next Sunday. Truly the time has come when the lamb and lion will lay down together.

Last week we received Volume 1 no. 1 of the Plains Producer, a new paper published at Lubbock, but temporarily printed at Plainview. Mr. Biggers, the editor and publisher, is

an experienced newspaper man, and we are sure will give the people of Lubbock and the Plains country a good paper when his new machinery arrives, although we think two papers one too many for Lubbock, though we hope we are mistaken. We might also mention that Mr. Biggers is a popular candidate for Representative of this district. In our next issue, we are going to have some interesting reading matter for the voters to consider, from the pen of this talented writer.

We venture to assert that the biggest water-melons to be seen on the South Plains this fall is in Yoakum county. Now Bro. Stricklin, don't you get on the rampage and say we are trying to belittle Terry county; if we come out first in this respect, we know that she will be a close second.—Yoakum County News.

We are not going to get on any rampage about the matter, for the simple reason that we are not in the least uneasy. We have had enough experience to know that old Terry stands is a class to itself when it comes to the watermelon question, or most any question. We are willing to concede that Yoakum is a mighty good county; in fact it stands a safe distance to Terry, but an equal—never—impossible.

Notice the special sale ad of the Lubbock Merc. in this issue.

We have always voted for submission, but this time we are going further. We signed the petition to have submission put on the ballot, going to vote for it, and if it carries, we are going to vote for the amendment. Still we believe the principle of State wide Prohibition is wrong. The reason for the change is this: In 1911, we opposed State wide Prohibition for the reason that we believed that there were places in Texas that they wanted the open saloon, and was willing to let them have it, because we would not like for them to have the power to vote it on us should the law be reversed. With our vote and a few thousand like us the wets won. Since that time they have joined hands with the pros and made it a felony to ship liquor in local option territory, giving us practically state wide prohibition. It is not all together out of revenge that we have jumped to the other side, but that is the main reason, and we believe there is going to be hundreds that will follow suit and put the saloon anti out of business in Texas. There are lots of decent fellows that are against the saloon in their home towns, that are willing for them to run in the other town, providing they are allowed to have liquor shipped in on occasions, for home use. But the saloon anti in the wet territory care nothing for them save for their vote to help them out in a tight place, and we do not propose that they get ours any more.

Mrs. Dave Broughton's father uncle and stepmother, of Gorman Texas are visiting them this week. They came through in a car.

Advice of Mother no Doubt Prevents Daughter's Untimely End.

Ready, Ky.—"I was not able to do anything for nearly six months," writes Mrs. Laura Bratcher, of this place, "and was down in bed for three months."

I cannot tell you how I suffered with my head, and with nervousness and womanly troubles.

Our family doctor told my husband he could not do me any good, and he had to give it up. We tried another doctor, but he did not help me.

At last, my mother advised me to take Cardui, the woman's tonic. I thought it was no use for I was nearly dead and nothing seemed to do me any good. But I took eleven bottles, and now I am able to do all of my work and my own washing.

I think Cardui is the best medicine in the world. My weight has increased, and I look the picture of health."

If you suffer from any of the ailments peculiar to women, get a bottle of Cardui today. Delay is dangerous. We know it will help you, for it has helped so many thousands of other weak women in the past 50 years.

Moore Bros., the new mail contractors made their first run Wednesday of this week, being the 1st day of July, and came in on time in their new Ford cars. If they do as well as the Marcey's they will never hear a serious complaint. But it cannot be expected that they can do as well at first, and the public must bear with them until they get the run of every thing. Herald hope them much success.

The Marcy Bros. delivered their last mail here Tuesday, and many were the words of commendation they received from a grateful patronage, and well wishes for their success in whatever undertaking they may enter in the future. Accommodation has been their watch word from the very start, and while there was some complaint that their express rates were too high right at first, a complaint was all that had to be made to have the rates adjusted on the spot, and since that time, or for the past two years, we have not heard a complaint. Then they have been

We understand that the Gomez Literary society is fixing to put on an A1 play next Wednesday, and we advise the play goes to be on hand.

It is generally conceded by those present last Saturday night that the play was a great deal above the general average. It was of a high moral character, yet so wholly interesting that any person could become enamored, despite the almost oven heat. An old, old story romance was splendidly interwoven into the play, and as usual featured one of those characters who place dollars above honesty and morality. Then there was the negro, both male and female with their droll wit, that kept the house in an uproar from start to finish. We have some of the best home talent we ever saw in a small town. While we are on the play subject, we could mention the fact that our auditorium is sorely in need of seats, as lots of people had to stand and of course crowded into the doors and windows, making the heat almost unbearable. Our plays are drawing good crowds, as evidenced by the record admissions, amounting to more than \$60. If all societies would

give a portion of their receipts, say \$5, toward seating the building, which is nothing but right as the school belongs to the general public, we would not be long seating it. So far as we know, the Dramatic Club is the only one that has made any effort to improve our play house. We understand that the Woodmen are willing to set aside part of their proceeds for improvement.

## COL. BALL'S CHALLENGE ACCEPTED

Farmers' Union Officials Will Defend Their Organization and Suggest Joint Debate.

Statement Issued Showing Relation of Farmers' Union With Texas Business Men's Association.

Fort Worth, Texas.—We notice from the press that Col. Thos. H. Ball, prohibition candidate for governor, has charged the Farmers' Union with receiving funds from improper sources and making improper application of the funds.

We will accept his challenge against the honesty and integrity of the Farmers' Union and will meet him in twenty joint debates and defend our organization from his charges and insinuations. We will, of course, expect Col. Ball to answer a few questions which

we will propound to him during the debates.

We want it distinctly understood that the Farmers' Union is non-partisan and this position must be protected in the proposed debate, as we will, under no circumstances, be drawn into a discussion in which the political fortunes of any candidate are involved. Our only purpose is to defend the Farmers' Union against adroit attacks made upon it by Col. Ball and his political associates.

We, as the authorized representatives of that vast body of men who bare their backs to the summer sun and who feed and clothe the world, ask that Col. Ball at least give us an opportunity to correct his misrepresentation before his own audiences and to answer the charges that he and his authorized representatives have made against the organized farmers during the past few months.

We hope that Col. Ball will not insist on sending a hired hand to substitute for him in this discussion, as the charges have been made by him personally and he should personally meet the issue, or apologize and discontinue slandering our organization.

### Too Much Free Advice.

We have been receiving with patience and long-suffering a large volume of advice from political experts telling us how to run the Farmers' Union. Our constitution forbids any one belonging to the Farmers' Union except those who follow the plow and, certainly, we could not accept counsel from politicians who have been dodging the plow handles all their lives. We want to say that the Farmers' Union is an organization of farmers and is being run by farmers in the interest of the farmers, and we will not wear the brass collar of the political bosses.

Col. Ball has recently taken extraordinary interest in the welfare of the Union and has been giving considerable FREE advice to our organization—a very unusual thing for a lawyer to do—but the farmers of this State have learned by bitter experience to avoid a corporation attorney as they would a leper and, in any event, when we want advice we will select our own counsel. We are duly authorized to act for the Farmers' Union, understand its constitution and by-laws and likewise understand the farmer and his needs, and we will run the job.

Why is it Col. Ball wants to keep the farmers' organization out of politics and the church organization in politics? If he is as much a stranger to the cross as he is to the plow handles we do not believe he is competent to direct their affairs.

### Beware of Campaign Slanderers.

We want to warn the farmers against campaign liars. Any person who wants to circulate a campaign lie should be compelled to take out a license and be properly tagged. We think this State is suffering as much from liars as it is from drunkards. We believe the man who lies when he talks is as dangerous to society as a man who staggers when he walks. We think honesty is as much a virtue as sobriety and we want the youths of Texas saved from a liar's hell as well as from a drunkard's grave. There is no more pitiful sight in civilization than an innocent preacher circulating a campaign falsehood, and there is no more disgusting spectacle on earth

than a preacher-writer wilfully misrepresenting facts. The Farmers' Union stands for truth, sobriety and progress, but not for any one of these virtues at the expense of all others.

### The Wisdom of Peace.

Much has been said about the Farmers' Union asking for a temporary cessation of liquor strife and that seems to be the bone of contention in this campaign, but we point to the present state of the public mind as proof of the soundness of our position in contending that agricultural legislation can not receive proper con-

sideration while the liquor question is in the way, and as forcibly demonstrating a condition that will exist at the state capitol next January if the legislature deals with this matter, for there can be no simpler form of handling the subject than to vote yes or no to a liquor controversy as now presented to the public. We wish there were some way whereby the liquor warriors could fight it out without disturbing those who desire to engage in peaceful pursuits, but that seems impossible.

It shall not be our policy, as a rule, to reply to enemies of the Farmers' Union, or to make explanations to political critics. We have no authority and no desire to report to anyone except those who have commissioned us to act. Our work is open and above board and there will be no change in the course we are now pursuing. We are carrying out the instructions of the State Convention of the Farmers' Union and we will continue to perform the task assigned to us with such ability as we possess.

We are receiving funds for the work from sources regularly authorized by the Union and from no other channels and in no greater amounts this year than last; we are spending it for identically the same purposes, employing the same methods and insofar as we are able to do so, the same men. The time of the undersigned is devoted exclusively to the cause of the Farmers' Union and not a moment is given to any other cause, industry or interest.

The minutes of all meetings and the books of the Union are open for inspection to all members of the Farmers' Union in good standing, and at our annual meeting in August the usual reports will be made, and we will give a full accounting of our stewardship.

### Relation With Texas Business Men's Association Explained.

Our constitution announces co-operation as one of the fundamental principles of the Farmers' Union and we have solicited and received the co-operation of the business interests in promoting the welfare of the farmers. With their assistance we have for two seasons been able to finance distress cotton at six per cent, which is more than all the politicians of Texas ever did for the farmers. We are planning to build warehouses, to provide money through rural credits to build homes and to better marketing methods. In order to carry on this work in a comprehensive manner, organization is essential and legislation necessary. The Texas Business Men's Association is helping us bear the burden of organization work, and we hope they will assist us in securing the proper legislation. That organization has never requested or suggested that we support any measure in the legislature or before the people, or any candidate for office, and the platform of principles adopted at our annual meeting is the Farmers' Union's own document. The Farmers' Union at its State meeting last January adopted a resolution requesting farmers and other business men to run for the legislature and many patriotic citizens have responded heartily to our call.

We are proud of our associations with two of the most honorable and influential organizations, composed of upright, progressive and religious men of this State, viz., the Farmers' Union and Texas Business Men's Association. It is through the work of these two organizations that the farmers and the city business men must look for results.

The farmers of this State are tired of listening to platitudes and denunciations of politicians, and we shall look to co-operation with the business men for relief and let the demagogues howl. We await Colonel Ball's reply with interest.

W. D. Lewis, President.  
Peter Radford, Ex-President.
