IN TERRY TEN YEARS AGO

From The Terry County Voice, Gomez.

One of our merchants placed a page ad in the Voice last week and Monday sold \$300 worth of goods.

The boys report a nice dance at R. W. Glovers Monday night.

Mr. Andy Pyeatt and daughter of Gail, who have been visiting his brother, W. A. Pyeatt, returned Wednesday, accompanied by Miss Dollie.

Charlie Roland of Anson, came in with lumber to put a house on his bonus.

R. Conley returned last Sat-

urday from Stanton, where he attended court. What if Terry County had a court house?

Prof. W. P. Florence and Miss Loula Spinks were happily married last Thursday at the close of school Rev. Roberts officiating.

Walter Gainer and family returned to Yoakum county last week.

J. T. Gainer and Bruce left for Stanton Monday. Mr. Gainer will take the train at Stanton for Big Springs on business.

with beef to cook next Thursday morning.

Woodmen To Celebrate July 17th

Everything is now under way for the big Woodmen Celebration to be pulled off here the 17th of this month. Committees have been assigned to the usual department that go to make a picnic and celebration a success.

It goes without saying, that Brownfield and Terry County will give the visitors all they are looking for in the way of chuck, so there is no use going into detail about the matter.

The citizens of Terry County do not wait on each other to do the feeding, but all bring well filled basket without being told.

The entertainment committee promise to make special effort to outdo any similar undertaking in the way of amusements, and will put forth their best efforts to get some of the leading candidates to be on hand that day.

We have not been able to get the program so far, but we understand it will be a good one. The Woodmen will provide people

The Farmer's Greatest Burden

The Greatest burden imposed upon the producing and consuming class is that of distribution, or marketing. The commission outfits in the big cities and distributing centers are crushing the producer to death and taxing the consumer beyond the limit of endurance. I speak from experience, not from theory. The farmer, the merchant, the banker and the toiling consuming masses everywhere cry out for relief. Millions of dollars worth of stuff, particularly fruits, vegetables, poultry, melons, etc., rot in the patch while there is a great demand and high price for it in other sections not so very far away. The freight and express rates may be too high, but the real trouble is the powerfully entrenched middlemen in the distributing centers. A full ex-

pose of their methods is little less than revolting. It is certainly disastrous to the producing and consuming class and legitimate business interests of the whole country and must be stopped, or at least remedied along just and practical lines. Everything I have is tied up in an irrigation truck farm. I can and have raised tons of cantaloupes, melons and vegetables of all kind. But getting by the middlemen has consumed my profits. Stuff that sold in other markets for a fancy price brought me little or nothing. My experience is merely illustrative. Thousands of farmers and truck growers in all parts of the United States are up against the same thing. Actual facts show that the middleman tax or graft ranges all the way from twenty-five to ninety per cent, and it is a shamefully common thing for the producer to lose his stuff and have to pay the freight or express besides. It is not the country merchant, the railroad and express companies that are ruining the producers, and over taxing the consumers. It is the commission outfits. We have a railroad commission to regulate freight and express rates, an agricultural department to educate us in scientifically producing stuff, but absolutely no state or national aid or protection in marketing our stuff. I would not waste one minute nor spend five cents to go to the legislature if it was not in the hope of doing something to correct this awful distribution wrong, this graft that makes hundreds go hungry near plenty and gives back nothing to the man that toiled and produced. This commission graft or tax is levied alike on everything produced in the field the vineyard, the orchard, the poultry yard and the garden. My proposed remedy, the creation of state distribution department, has been endorsed by the

best informed and most prominent farmers in the country. I believe it will in a great measure remedy the evil, and am confident in my ability to get it through. I am a poor man, not able to make the time and money sacrifice necessary in canvassing a big district like this. But something must be done. I am one of the victims of the distribution graft and know from sad experience what I am talking about.

Respectfully, Don H. Biggers, Candidate for Representative 122 District.

We will all be showed after the 25th.

Ferguson says he is getting ready to move to the capitol. Talk is cheap, besides he has a game of Ball to play first; after that he may move up salt river.

Next Friday Terry county will be called upon again to act hostess to the crowd, and the crowd will go away filled on amusement and full of roast, ham, yellow legged chicken, pie and cake.

Smith and Blanton are busy passing the lie. If they are as bad as each claim the other to be, they are bad ones, and entirely unfit for Congress.

If you miss the big Woodman picnic at Brownfield, you will never know what you missed. There will be varied amusements and you know Terry never fails to ante with the chuck.

This is one year that Plains cattlemen don't give a continental where the northern buyers buy or not; the former have a good lot of grass and prospects for good feed crops. In fact there are not near enough cattle in the country. The sheep men are also feeling the best prices in years. Good rains, fat cattle and prices is all we can ask of the good old Democratic administration, says Claud Criswell of the Star-Telegram, and we quite agree with him.

With a bumper small grain crop in course of being harvested, and prospects of a bumper corn crop, said W. H. Weeks, general manager of the Kansas City stock yards, on a recent Texas trip, I am expecting to see the best demand for Texas feeder cattle from our section of the country ever known in the history of cattle production. Farmers will be compelled to stock up on cattle to take care of the surplus grain harvested, and Texas is the only state to which they look for general shortage of cattle in Kansas, because of drouth in previous years when farmers were compelled to ship stuff to market. And now since they have made a bumper crop, they must restock. Receipts in the Kansas City yards have fallen off 25 percent in the past month because of existing conditions. In the pasture section of Kansas there is a dearth of cattle. The supply is at least one third off, due for two reasons, the drouth of previous years and the increased acreage allowed to the head. Cattlemen will be compelled to come to Texas and buy to restock pastures. The cowman will not allow his grass to go to waste, that you can rest assured of. I am expecting cattle prices to soar, because cowmen can afford to carry over all their herds having good pasture and good crops of grain harvested, they can afford to carry stock over—Stockman and Farmer.

SEVERE PUNISHMENT

Of Mrs. Chappell, of Five Years' Standing, Relieved by Cardui.

Mt. Airy, N. C.—Mrs. Sarah M. Chappell of this town, says: "I suffered for five years with womanly troubles, also stomach troubles, and my punishment was more than any one could tell."

I tried most every kind of medicine, but none did me any good.

I read one day about Cardui, the woman's tonic, and I decided to try it. I had not taken but about six bottles until I was almost cured. It did me more good than all the other medicines I had tried, put together.

My friends began asking me why I looked so well, and I told them about Cardui. Several are now taking it."

Do you, lady reader, suffer from any of the ailments due to womanly troubles, such as headache, backache, sideache, sleeplessness, and that everlastingly tired feeling?

If so, let us urge you to give Cardui a trial. We feel confident it will help you, just as it has a million other women in the past half century.

Begin taking Cardui to-day. You won't regret it. All druggists.

Did you see those cute boudoir caps at the Merc.

Mr. Black the recent purchaser of the old Groves place, was in with some fine plums last Saturday.

Attys. Klett and Vickers, two of the leading lawyers of Lubbock, were here this week on legal business.

Big German Millet Seed at \$1.60 per bushel at Graves & McWhorter's Lubbock Texas.

Aubrey Thomas, of Augusta, Ark, nephew of the editor, came in last Sunday and will visit for some time. He says if the people back there knew what a fine country there is here, they would get a hustle for some of it. But he says some of them think Texans wear horns and couldn't raise a parasol out here.

Dr. J. J. Randal, dentist of Padukah, Texas, will be at Brownfield, Texas, July 11th to 19th. If in need of dental work, call and see me. All work guaranteed first class. Remember the dates.

Bro. J. B. McReynolds will begin a meeting at Gomez Texas Sunday, to run over the 3rd Sunday. He asks the co-operation and help of all who feel so disposed in this meeting.

Walter Duke, son of Mr. and Mrs. E. L. Duke, of this city, has been visiting them from Dallas Texas, this week, but returned yesterday.

Luke French, erstwhile banker but now a Jim Ferguson farmer, was here this week in the interest of his candidacy.

The Mercantile received an up-to-date line of novelties this week among which was beads, crosses, hearts, fans etc.

Dr. T. L. Adams, accompanied by Misses Ermine and Sue and Mr. Mark Hill, of Navarro County are visiting their relatives, the Adams in this county.

Tom May came in this week and put his Herald one year in advance just before leaving for his home at Buckhannan N. M. We hope Tom much success out there.

"Quit depending on the weather" Let the Brownfield Merc. Co. show you a Sharples Tubular Separator that separates the golden cream, that brings you gold. Your neighbors are getting gold why not you?

Mr. Childress, one of our prominent young farmers, was in this week and informed us that he had a good crop.

Brownfield Merc. Co. wants your cream whether you run a separator or not.

W. G. Hardin, candidate for County Judge, rode out toward the west side, this week.

The rain last week amounted to more than 2 1/2 inches, and .83 fell Tuesday afternoon, making near four inches for July already.

We have been requested by the Ladies Aid Society to thank those who help put on and make the play recently put on by them a success, as well as the big audience that greeted the players. They appreciated the help of all.

We learned from Dick Brownfield's hired man this week that Dick's mule colt output would fall far short of that last year, probably less than forty this year.

Claud Criswell, cattle inspector for the Federal Government, is spending this week in town with his family.

J. R. Hill paid the Herald a pleasant call this week.

Remember that the Baptist protracted meeting starts in Brownfield, next Tuesday night, and your attendance is urged and will be appreciated.

We call your attention to the statement of the Brownfield State Bank in this issue. It is a fine one for the time of year, especially when one takes into consideration the fact that the movement of cattle and colts has never started.

Several of our people went over to the play at Gomez Wednesday night and say it was fine. The editor had four tickets, but on account of the inclement weather could not use them.

Eb Ivey of the 666 ranch was running a horse Tuesday when the animal stumbled and fell with him, breaking a wrist bone near the joint, bruising and lacerating the flesh badly. Dr. Treadaway concluded that the wound was so serious that he took him to the Overton Sanitarium at Lubbock, where he can receive careful nursing. We hope to see Eb back home in a few weeks.

Mr. and Mrs. Youngblood, parents of Mrs. M. V. Brownfield, came in this week to make this their future home. They spent quite a while here last winter and spring and of course it is almost impossible for them to live at their old home at Hilton, Texas, any more. Mr. Youngblood informed us that he thought he had good water until he went back down there, but could hardly drink it on his return. Mr. Youngblood had us send the Herald to his son at Blackwell, Texas.

enquiring their business, they brought forth a large syrup bucket filled chuck full of as fine apples and peaches as one ever saw, and said "We saw in the Herald where Messrs. Howard and Brownfield brought in a sample of their fruit, and thought we would bring some of ours." We want to say right here that these boys have the two above mentioned gentlemen skinned more ways on fruit than a farmer can whip a mule. The apples were of the June variety and finely flavored, and the peaches reminded us of old Elbertas and some of them measured 9 1/2 inches in circumference and when you eat them the juice ran off at the point of your chin. They were simply larapin.

FARMERS PLEAD FOR CO-OPERATION

Business Men Asked to Vote Like They Talk—The Farmers Under Fire of the Politicians.

Ft. Worth.—To the Business Men of Texas: For years the business men have been crying aloud for the farmers to rid the State of demagogues and emancipate business from political tyranny. Much has been said about frightening investments, about the duels which some of our politicians have been fighting with progress, and about the uncertainty that politics has put into business, which is directly traceable to political agitators who feast upon the offal of strife. The farmers of Texas now answer the call and give the business men an opportunity to vote like they talk. The farmers present a platform, and candidates, running upon it, pledged to an agricultural administration and agricultural legislation, and every citizen who desires to render a service to agriculture and eliminate the demagogues from this campaign can do so by co-operating with the farmers at the polls.

All efforts that make for progress when viewed from a partisan angle have their obstacles, objections and disadvantages. No forward movement can obtain through methods that suit everybody. It must be borne in mind that salvation never comes in machine-made packages or by messengers approved by the high priests of politics. It is a substance that political conventions can not manufacture. It must spring from out of the hearts of the common people.

But why quibble over technicalities? What difference does it make whether the goddess of opportunity wears silk stockings or goes barefooted when she knocks at your door? Is it not sufficient that she knocks? Why pound on the log after the coon is gone? Why weep, for it has been well said that it was unbecoming for even Achilles to sulk in his tent.

A Square Deal Requested.

We want to appeal to all business men to "be calm, be just, be fair" with the farmers of Texas. We realize that the processes of politics have galled the shoulders of some of the wheel-horses of democracy, and we do not expect them to pull against a sore, but the militant body of business men, whose good judgment balances the wheels of commerce, should not permit ingenious campaign managers to summon the evil spirits of prejudice, revenge, superstition, fear, envy, hatred and all agencies that temporarily dethrone reason and disqualify citizenship. The responsibility of the ballot should steady men—especially strong men.

We fully understand that when custom of long standing is violated, leaders tremble and the superstitious shy, but Nature, which moulds the form of a scrub woman as perfectly as that of a queen, can give a farmer as much political sagacity as she does a gum-shoe politician, and one who lives by the sweat of his brow can be endowed by Nature with as noble a mind and as patriotic a heart as one who lives by the sweat of others.

The farmers are the bread winners of civilization and if we are capable of feeding and clothing the world, we ought to be able to assist in running government and at any rate we are going to try our hand at it.

We are the nation's jurymen and settle the disputes of industry in court. It is our blood shed upon the battle field that pre-

serves the liberty of the people. It is around our fire side that the problems of this nation must be solved. Then, we furnish the cities with their wisdom, commerce with its brains, and science with its intellect and keep our brightest minds on the farm.

Platforms and Candidates Analyzed.

The issue in this campaign is business vs. politics and platform, candidates and campaign managers, typical of each class, are before you.

Look at the line-up. On one side is a machine-made candidate for governor, underwritten by demagogues who have been a torment to the progress of this state for the past decade; whose campaign is managed by political bosses who have manipulated every political convention held in Texas for the past quarter of a century and whose gum-shoes have trod every by-way known in the political forests. To speak the name of some of these managers is to profane progress and to examine their record is to feel the scars of industry, across their forehead, it has been well said, their Creator wrote "without recourse on me." This candidate is surrounded by pulpit politicians who have thrown down the cross of Christ and picked up the club of the policeman, who would substitute the jail for the altar, and statutes for the Bible; is running on a platform that mutters and mumbles like the Oracle of Delphi, and that gets on all sides of all subjects and then flaunts a red flag at progress.

Look at the other side. An unbossed candidate who is every inch a free man, who has terrified the demagogues, defied the bosses and denounced the fanatics, who has dipped from the pool of experience every element in business life and who can feel the heart-throb of the farmers; every plank in his platform hewn out of the sound timbers of agriculture and quarried from the solid rock of commerce. He is the farmers' hope and the business man's salvation.

The Farmers Persecuted by Politicians.

Since the beginning of time, the persecution which organized agriculture is now undergoing has been felt by every nation, race and class of people which has undertaken to break the shackles that bound them. The children of Israel felt it when they were run into the Red Sea by the Egyptian politicians because they would no longer serve them; our forefathers felt it when they fought for human rights in 1776 and were run down by hired Hessians and pursued by Tories because they refused to wear the yoke of the British politicians.

Every man who has attempted to uplift his occupation and his fellow-men has felt the bayonet of the political bosses and has been hounded by the hirelings of government, all because he demanded human rights for his fellow-workers. We have no quarrel to make with human nature or criticisms to make of the pathways to success, but we are going to fight the battles of farmers to success if it drives every demagogue in Texas to the lower regions. The agitators, the demagogues and the bosses are well bunched in this campaign, for "birds of a feather will flock together," and they are pitted against the farmers.

This is an age of organization and those who are not with the farmers are against them. There is no other way, for in public affairs unity is oftentimes the better part of wisdom and independent action the evidence of folly. Let us, for the moment, cease trying to educate each other and co-operate. That is the magic word that strikes error to the demagogues and cements the interest of the farmers and all other business men and insures the prosperity and welfare of the people.

We make this appeal as practical farmers in the interest of

honest men and honest dollars, believing that co-operation of the people is better than dictation of the politicians.

Peter Radford.

HELP THE TENANT FARMER

The Tenant Farmer is the
Backbone of Agri-
culture.

Vote For Sally and the Babies

Fort Worth, Texas.—Before discussing the tenant farmer, we want to state that we hope in this campaign that the consideration of the principles of state government will not be permanently interrupted by the search of the sewers of the private lives of candidates. We feel sure the farmers of this State would like to have pointed out to them new-found pathways of progress rather than to be shown skeletons in family closets. Good government we believe as contingent upon sound policies as upon clean men. Both are essential and neither should be minimized.

A few newspapers have opened their columns to hate and spite and political preachers have in some instances succumbed to temptations to misrepresent. The Texas Christian Advocate, the official organ of the Methodist Church, recently carried an editorial entitled "The Saloon Under The Masque" Of The Farmers' Union" which contained many misrepresentations concerning the writers. We had hoped that the religious press would keep free from the influence of church politicians, but when those whom the Lord anointed to teach us how to pray deliberately lead us into temptation and deliver us in to evil, we can hardly hope for the press and the forum to keep free from iniquity.

Tenant Farmer Holds Pivotal Position.

The tenant farmer is the most talked of individual in Texas today. All candidates are featuring him in their discussions and when the spell-binders want to make the American eagle scream and soar to giddy heights of fame, they sprinkle star-dust on the tenant farmer. There has been enough printer's ink used in his behalf in this campaign to swim a team of mules and his problems are being discussed from the Red River to the Gulf.

He is the most important factor in agriculture; the most powerful citizen at the polls and from a neglected and unappreciated position in civilization he has become recognized as the bone and sinew of agriculture and well he may, for he cultivates 13,000,000 acres of land, produces \$335,000,000 of wealth per annum, constitutes 53 per cent of our agricultural population and if we add to the tenant farmer the farm laborer, we have 320,000 farmers of voting age.

Where The Tenant Farmer Lives.

The commanding position which our tenant farmer occupies in our civilization and the pivotal place he holds in this campaign justifies the inquiry of, who is the tenant farmer? Where does he live? Where did he come from? What

is the remedy?

The tenant farmers of Texas are in the main free-born white men. There are 170,970 white and 48,605 negro tenant farmers. There are 92 counties in the state that have no negro farmers, and 57 counties that have from one to 25. The white tenant farmer abounds more abundantly in the black land belt and his principle

product is cotton. Collin County, which has more farmers than any other county in the State and is the only county that has every foot of its tillable land under cultivation, has 4475 white and 135 negro tenant farmers. Ellis County, which produces more cotton than any other county in the State or any equal area on the globe, has 4005 white and 563 negro tenant farmers. We have a few Mexican farmers classed as whites but very few of them are in the black land belt of the State. The heavy negro farm population is in East Texas near the border. Harrison County leads with 3306 negro and 1295 white farmers.

The Texas tenant farmer made his first appearance in the Federal Census report in 1880. Prior to that time he was not classified. The record begins with 65,468 tenant farmers or 37 per cent of all farmers and in 30 years—less than a generation—the number has swelled to the alarming total of 219,575 and the per cent of increase to 53 and 2400 farmers per annum are now passing from home owners to tenants.

The Farm Laborer Has His Problems.

There is yet one strata in agriculture below the tenant farmer and that is the farm laborer. We have approximately 100,000 farm laborers in Texas and when they board themselves they receive \$1.35 per day. Then to the shame of Texas manhood, many farm women work in the field with babes clinging to their skirts as they toil side by side with the beasts we plow.

In presenting the claims of the tenant farmer and the farm laborer for consideration of the Legislature, we do not ask for a legislative cure-all that will make a man whole after God Almighty failed or that will punish a man whom the Lord delighteth to honor with wisdom. The poor we will have with us always and without the able and ambitious society would wither and die.

Let us lay aside strife and dissension that so easily beset us and approach the task with a calm and deliberate mind. The situation may suggest pity to the sympathetic and revenge to the impatient but let us apply sound business principles and be guided by wisdom, justice and common sense.

Let Us All Pull Together.

The tenant farmer is not the black sheep of civilization, the prodigal son of society nor the result of a business accident. He is a capable, honest and progressive citizen. He has become the victim of a social system that has robbed him of the power to either increase his receipts or decrease his expenses and he can not extricate himself without the aid of the government. He can only decrease his expenses by shortening the shirt of his children, raising his family in ignorance and lifting additional burdens. He cannot, unaided, enter the cheap money markets with his securities, nor house and market his crop most economically and advantageously. He has no voice in fixing the price of the things he sells or buys and he never will be able to barter until he acquires power through organization and legislation.

The Farmers' Union is asking the Legislature to throw a lifeline to the tenant farmer and all farmers are invited to join the Union and avail themselves of the advantages of organization. We have adopted a platform declaring the problems of the farmer to be the paramount issue in this campaign and we have made pub-

lic a list of candidates pledged to give the interests of the tenant farmer first attention. All that is necessary is for the farmers to stand by the Union. Let us give a long pull, a strong pull and a pull all together by voting for Sally and the babies.

In our next article we will invite the city men to come "Back To The Soil" with their votes.

Peter Radford, Ex-President,
Farmers Educational and Co-operative Union of Texas

Ed Spear and Charlie Baker left for Tahoka Wednesday. They were expecting to take in the big barbecue there and return with a load of freight. Mr. Baker accompanied the boys to Tahoka from which place he will go to Snyder to visit his daughter.

Nick Beal came in with his cow outfit Tuesday, gathered his cattle in the Hooker pasture Wednesday, and left for Lubbock with them Thursday morning. He will bring down steers to put in the Milton Robinson pasture which he acquired recently.

J. W. Hooker and wife and Mrs. L. H. Hooker and little ones started to Lubbock Wednesday afternoon.

Millard Ellington went up to Meadow Wednesday to visit his home folk. He returned Monday.

Roy Harris made a trip to Lubbock last week after groceries for the store.

Everybody enjoyed the ice cream supper at W. H. Harris' last Friday night. The crowd just simply couldn't eat all the ice cream.

G. W. Alexander's father and mother are visiting in the Alexander home.

Mrs. L. H. Hooker came in from Lubbock Sunday where she met her mother, and sister, Mrs. Thornton and Miss Loa, who will spend a few weeks visiting here.

L. W. McPhaul spent Saturday night with Brit Clare.

Mrs. J. M. McMillan and little son, Douglass, and B. C. Christenson and wife visited W. H. Harris and family last Sunday night.

J. W. Spear has been on the sick list for several days but we are glad to be able to report him better now.

Miss Ora Ware visited at W. J. Satterwhite's Sunday and Sunday night. Miss Tommie Bess accompanied her home Monday and spent the night.

The Methodist Meeting begins here next Sunday July 12th. We will also have quarterly conference here during that time and Bro. Terry, the presiding elder will be with us. We invite everybody to attend this meeting.

Two Cents Difference

Down in Oklahoma a man went into a store to buy a saw. He saw the kind he wanted and asked the price. It was \$1.65, the dealer said.

"Good gracious," said the man. "I can get the same thing from Sears, Roebuck & Co. for \$1.35."

"That's less than it cost me," said the dealer. "but, I'll sell it on the same terms as the mail order house just the same."

"All right," said the customer. "You can send it along and charge it to my account."

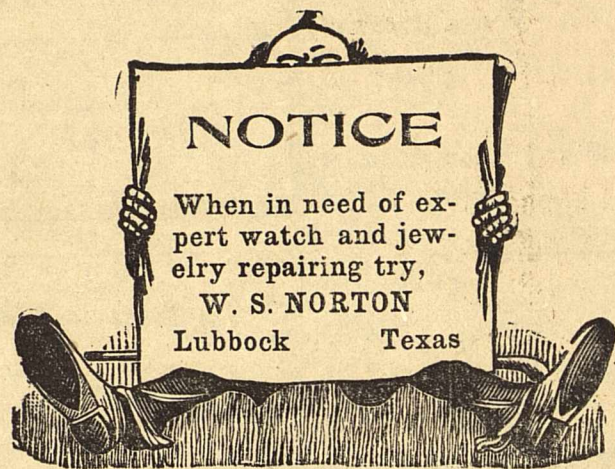

"Not on your life," the dealer replied. "No charge account. You can't do business with the mail order house that way. Fork over the cash."

The customer complied. "Now 2 cents for postage and 5 cents for a money order."

"What—"

Blacksmithing

T. H. GREEN recently of Comanche County, has opened up a shop in GOMEZ, TEXAS and will do general blacksmithing. Your trade will be much appreciated and he promises satisfactory work.

"Certainly, you have to send a letter and a money order to a mail order house, you know."

The customer inwardly raving, kept to his agreement and paid the nickel.

"Now 25 cents expressage." "Well, I'll be—," he said, but paid it, saying, "Now hand me that saw and I'll take it home myself and be rid of this foolery."

"Hand it to you? Where do you think you are? You are in Oklahoma and I'm in Chicago, and you'll have to wait two weeks for that saw."

Whereupon the dealer hung the saw on a peg and put the money in his cash drawer.

"That makes \$1.67," he said. "It has cost you 2 cents more and taken you two weeks longer to get it than if you had paid my price in the first place."—Square Dealer.

Meadow

By Sandy

Billy Boyd, son of O. F. Boyd, who was hurt some time ago by a horse throwing him and stepping on him, is still not able to walk much.

Bro. Chambers preached a good sermon Sunday. Was sorry more were not out to hear him.

Clyde Lewis, of Brownfield, is going to teach a class in singing, at Lakeview, the first week in August.

Dudley Arnett is having a house party this week. Three young ladies from Colorado City are attending.

Miss Nell Ruth Arnett of Colorado City, is attending the house party, given by her brother, Dud. Mrs. S. C. Arnett of Meadow, is also attending.

Mesdames Boyd, Peeler and Herring, visited Mrs. Emmitt Moore, who has been quite sick, but is able to be up again.

Miss Gertrude Clifford, sister of Mrs. O. R. Copeland, who has been visiting her, since September, went to Alpine, Texas, last Sunday.

One grey mare mule with blue specks all over body, unbranded about ten years old. Owner will call for her at Ben Hurst's ten miles north of Brownfield.

Sow some Big German Millet this year; plenty seed at Graves & McWhorter Lubbock Texas.

We notice in the Andrews County Times that one Fred Heine, an old citizen of Terry, would have charge of the barbecue for their blowout. Fred used to act in the same capacity here, and we know they will have some well cooked meat. Incidentally we might mention that they claim to have had a 11 inch rain last week.

Graves & McWhorter have plenty Molasses feed; see them at Lubbock Texas.

Reports are coming in to the effect that the largest crowd that ever has been here will attend the picnic next week. Let old Terry come out prepared to make herself felt next week. The advertising will be worth many times the price expended—but Terry won't fail.

TEXAS FACTS

MINERALS.

Practically every mineral known to the geological world is found in Texas.

Compared with other states, we rank twenty-third in mineral production.

We produce 19 minerals in commercial quantities.

Texas' available coal supply is valued at \$10,000,000,000 more than all the farm property of the United States.

The first commercial mining in Texas was in 1882. Since then, the mines, wells and quarries of the state have yielded products valued at \$227,000,000.

The Texas mines produce \$20,000,000 annually.

Texas mine employes receive \$5,300,000 annually in salaries and wages.

The mining industry of Texas represents a capital investment of \$20,000,000.

Thirty-five thousand people are dependent on the Texas mining industry for a living.

NATURAL GAS.

The gas wells of Texas produce a million dollars a year.

There are 70 active gas wells in Texas that produce 5,500,000,000 cubic feet of gas annually.

We have 416 miles of gas mains which were constructed at a cost of \$2,500,000.

Twenty-five Texas cities are furnished gas from the Texas fields.

Our natural gas area is one of the largest in the United States and covers 130 square miles of territory.

Texas ranks eighth with other states in natural gas production.
