Brownfield Mercantile Company

Wants Information.

H. M. Little, of Austin, Texas, sent us a dollar on subscription, this week, and asked us the following questions. "What are the crop prospects?" "How have the rains been?" "Is there any fruit?" He adds that he is very much interested in Terry county and shows the Herald to others who are interested, and closes by wishing us much success in fighting for "old Terry."

Well, the crop prospects were never better, just at this writing, and while there was approximately 100 car corn and maize shipped out from the 1914 crop to the poor inhabitants of the blackland regions, and we aim to do even better this year. There was more cotton made here last year than ever before, and the plant looks just as good this year. Grass is as luxuriant as a rich man's front lawn, and the live stock look like pictures from the fat stock show at Ft. Worth. The war in Europe is not worrying the South Plains stockman and farmer.

As to rains, we have had above 14 inches, already this year, and more than two inches of it in this month, and June is ordinarily dry here. We have already received enough rain to make a good crop if distributed right, as it stays right here and doesn't go roaring down creek or rivers menacing life and property, as it does at Austin. While we are needing a shower now, we can make out a week or so longer very well, as our best farmers tell us there is plenty moisture just under well stirred ground. But our leading prognosticators say there will be rain inside of three days, and it does look very

favorable, though we are not predicting, as we have been here more than three years. The other man has also been here more than three years, but look who he is. The Herald, however, will report the rain when it falls.

As to the fruit, why man, it is just hanging in bunches, and while the orchardman has no fear of the crop otherwise, he is dreading the consequences to the trees bearing their burdens. There is easily enough fruit to supply the county, though most of the orchards in any new county are necessarily young, and some to spare less fortunate places, and Mary and daughter, Sallie, are preparing to put up enough good eating to keep John and the boys in a fine humor all winter.

We thank you for your enquiry and interest in the county and the Herald. Also, you may think this article partly a joke, but it is the whole truth. Come and see! 'Come to Terry!'

Dr. J. J. Randal, Dentist, of Paducah, will be in Brownfield June, 15, for 30 days. All work guaranteed first class and prices reasonable.

About the fullest plum tree we have noticed this year is in Mrs. Kinard's orchard. The fruit is large and healthy.

Rev. Hughes returned Tuesday from Plains, where he filled his regular appointment. He reports the largest crowd he has had, as they had a special program.

Uncle Joe Beal was in with a load of peaches this week. He also has a big crop of berries, apples and plums.

PLAINS

By Carl Forkel

From the Plains Developer.

In accordance with previous announcement, Plains celebrated on the evening of the 19th, its first home moving picture entertainment, and not since the picnic on the 4th of July, last, have there been so many parents and happy children assembled. The entertainment was enjoyed and was pronounced a success by all present, our managers, Messrs. Forkel and Gainer, receiving the thanks and congratulations for their untiring efforts to have the equipment and all arrangements ready for the occasion. This being the first try-out of the camera, the first views thrown on the canvas were a little out of focus, but soon Mr. Forkel had this trouble adjusted, and then the audience was treated to a voyage in other lands where forest loomed high and mountains steep, and where the restless waves beat upon the shore. In one of the reels shown were fleeing criminals in autos, pursued by officers in still faster autos which pleased the children greatly; also a moving, throbbing train steamed in to Plains and stopped long enough to unload its excursionists whom we can believe had come to help us celebrate. Around the booth gleamed the electric light, the first to have been seen in Plains, and all in all, this occasion is one long to be remembered with pleasure, and will mark a page in our county's history.

T. R. Long of Garden City, brother of J. P. Long, in company

In copying a West Texas paper recently, which said a tenant farmer in its vicinity, would get about 40 bushels of wheat per acre and had been offered \$1.00 per bushel for same, State Press in the Dallas News advised this renter to sell. Probably this unsolicited advice is good, and also that part advising this tenant to become a home owner, but where the advice ceased to be a virtue was in his information that one good wheat crop in West Texas would buy a home in East Texas. Why East Texas? He probably left there because he couldn't clothe, feed and educate his family. If he can make enough in the solubrious climate of west Texas in one year to buy a farm in the pine stumps of east Texas, what inducement would that be? Lots of the tenants out here are doing better than the landlords there; making a living easier too. Why not buy where he made his stake? Land is still cheap in west Texas. He can pay for a small place here in one year, too, Mr. State Press.

There are two proposed amendments to the State Constitution to be voted on at the July election, that Herald would like to see carried, more than any of the others, as they relate to better education. One relates to the separation of the A. & M College and Texas University, while the other pertains to creation of a Student's Loan Fund. It seems that the two schools referred to above, have in the past created so much animosity toward each other, that instead of harmony and good will they spend both time and money squabbling over the division of funds, and therefore the best thing the tax payer can do to get the most for his money, is to separate them, each having its own directors, funds and appropriations. As to creating a loan fund for poor but worthy student that they may obtain a higher education along with the children of the rich, there need be no argument advanced in its favor; the cause is sufficient. Besides there is nothing lost, as the money is paid back in time with a small rate of interest.

HELPLESS AS BABY

Down in Mind Unable to Work, and What Helped Her.

Summit Point, W. Va.—Mrs. Anna Belle Emey, of this place, says: "I suffered for 15 years with an awful pain in my right side, caused from womanly trouble, and doctored lots for it, but without success. I suffered so very much, that I became down in mind, and as helpless as a baby. I was in the worst kind of shape. Was unable to do any work."

I began taking Cardui, the woman's tonic, and got relief from the very first dose. By the time I had taken 12 bottles, my health was completely restored. I am now 48 years old, but feel as good as I did when only 16.

Cardui certainly saved me from losing my mind, and I feel it my duty to speak in its favor. I wish I had some power over poor, suffering women, and could make them know the good it would do them."

If you suffer from any of the ailments peculiar to women, it will certainly be worth your while to give Cardui a trial. It has been helping weak women for more than 50 years, and will help you, too.

Try Cardui. Your druggist sells it.

Meets first Saturday night after the full moon and two weeks thereafter in each month in Odd Fellows Hall

J. H. Hall and wife, accompanied by John Scudday Sr., in the former's car, made a trip to N. Mexico, last week to visit relatives.

The Tahoka base ball team came over Sunday to cross bat with the home team, the score resulting 14 to 11 in favor of Brownfield. This is the third game between them Brownfield winning two of them. We did not attend the game, as we don't believe Sunday the day for ball games.

Several from here attended the play at Gomez, Saturday night, and all pronounce it a fine play.

Some time ago, the Brownfield ball team went up to Lubbock to play their team, and the boys paid all their expenses but a hotel bill, which as customary, they left charged to the Lubbock boys. The home team has had a statement from the hotel man asking them to pay the bill as the Lubbock boys refuse to pay it. It seems to us that this is very un-sportsman-like for the Lubbock boys, as their bills have always been paid at Brownfield and we understand that our boys were thinking of asking them down for a game during our picnic, but since this occurrence, will likely negotiate a game with some other town.

Mrs. Graham, of Sweetwater, a daughter of John C. Scudday, Sr., came in last week for a visit to her parents. Also another daughter, Mrs. Nora Smith of Alpine Texas, and a brother of Mr. Scudday, of the Colorado country. We understand that Roy and Fred will be here in a few days from Sweetwater, and there will be a family reunion celebration.

Little Miss Addie Hamilton left Tuesday for Plainview to visit relatives for a month. She went as far as Lubbock with Mr. and Mrs. Sawyer in their car and took train there for Plainview.

R. H. McCarmick is putting in a front gallery at the livery stable for Uncle Jack Coble. Uncle Jack isn't willing for the Hardware store to get all the Bench Warmer trade and stale jokes.

Mr. Alexander and family

from the Harris community, were here this week, shopping.

Mrs. J. H. George, of New Mexico, came in this week to pay her husband's Woodman dues.

Frank Jones bought a fine span of mules from W. B. Carson, last Saturday, paying the sum of \$300 for them.

Alvin Duke of Tatum, N. M., came in this week to visit his parents, E. L. and Mrs. Duke.

A. C. Beard was in with a load of fine plums this week, the first on the market this year. Some one was in with a load of small seedling peaches, last week.

Uncle Bart McPherson came in last week from a long visit to his son, Will, of Comanche county.

Mrs. Will Mathis and children were in this week after supplies for the ranch.

The young people enjoyed a moonlight party last Friday night out in the courthouse park, Mrs. R. L. Verner acting as chaperone. Such games as snap and good old fashion sparking was the features, and all seemed to enjoy it hugely.

The Walters sisters, Misses Bertie, Edith and Gladys, came in to the party Friday night and took supper with ye editor and family.

Mr. Garner, father of Mrs. Moore, is visiting her. Mr. Garner has spent a number of years in old Mexico, but left when the second revolution started, and talks very interestingly of that country of misfortune.

Messrs. Tiernan and Scudday left Wednesday for New Mexico, where George will look at a bunch of yearlings.

Rev. M. D. Williams and wife left Wednesday morning for Durham where he will preach Saturday night and Sunday.

Want Information—Not Advice.

It is information the farmer wants. If some one will fill in the figures on value of the 1915 crop per acre, the farmer will know what to do and he is ready to listen to business reasons and discussions relative to prospective price per pound of the 1915 crop based upon practical, not theoretical, conditions. If he is

convinced it will be more profitable to plant other crops he will do so and if not, he will plant cotton and that is all there is to it.

The Farmers' Union stands for reduction of cotton acreage by diversification but it is difficult to induce a farmer to plant a product that will yield \$15.00 per acre so long as he can plant one that will make \$20.00. The subject of diversification always opens up a fertile field of discussion for the book farmers who hold a recipe for doubling production without an increase in the cost. It is passing strange that these magic plowmen who can make a hundred bushels of corn grow where fifty grew before are usually standing on street corners looking for jobs and how they have survived so many hair-breadth escapes from wealth, is truly marvelous. The practical farmer knows that prosperity predicated upon such a basis is a myth and the business man knows it too if he would only stop and think.

Out of the mass of suggestions now before the public the one, in our opinion, most desirable is the plan of the national bankers, headed by Festus J. Wade of St. Louis, which proposes to lend the farmer money on cotton at 6 per cent without any strings tied to it. This plan originated in Texas and proved successful and satisfactory in operation.

The problem before us involves principally organization of the farmer and co-operation of the business interests. We will have more to say on this subject at a later date.

W. D. Lewis, President, Farmers' Educational & Co-operative Union of Texas.
Peter Radford, National Lecturer Farmers' Educational & Co-operative Union of America.

A successful farmer must at least possess three virtues—honesty, energy and economy.

THE VAST PANAMA-PACIFIC INTERNATIONAL EXPOSITION AT SAN FRANCISCO

Transportation reports show that every state in the United States and most of the nations of the world were represented in the great throng of 250,000 people who inaugurated the Panama-Pacific International exposition at San Francisco on February 20. This picture, showing the mighty South gardens, gives a glimpse of a small fraction of the opening day throng. In the first five days of its progress the exposition had an attendance larger than the combined totals of the Chicago and St. Louis expositions and the ratio continues in a degree to justify predictions of the most spectacular success for the exposition.

The editor and family went over to Parson Williams' Tuesday afternoon to fish, look at the stock, orchard and crops. This preacher farmer has about the finest selection of horses, hogs and milch cows in the county, and all the young stuff is thrifty and doing well. His orchard is simply loaded with fruits of all kinds, and he will have more than it will take to do the two families on the place. As to the fishing, the wind was most too high to do much with the hook, but along toward night the boys quit plowing and seined the tank, catching two or three big messes of the carp variety. Along about this time the good housewife announced supper, which was of the good old country variety, and consisted of fresh beans, well seasoned with country pork, country ham, corn pone and biscuits, coffee, milk and butter, and a desert of this crop apricot cobbler.
