VOL. 11.

BROWNFIELD, TERRY COUNTY, TEXAS, FRIDAY, JULY 23, 1915

NO 11

\$1500.00 NET EARNED

In the last twelve months by a bare dozen Terry county farmers; enough to pay their grocery bills. Why dont you join this band of money makers with Cream Separators. We sell them on terms that they pay for themselves. Then, besides, skimmed milk is better for hogs. Just received, a big consignment of furniture. Come in and inspect it. Priced Right

Cooperation Wanted.

Beginning next week, the Herald will start a series of pictures of interesting scenes in Terry County, and among them may appear some of your fine stock, house, barn, silo, or orchard, and it will pay you to keep your subscription payed up, as we are not going to carry any dead heads during this campaign, as this service is going to be expensive, and we've got to have the cold cash to carry it along. If we get the right kind of support we are going to carry it on indefinitely.

That this service will be a great boost to old Terry, and help set her before the eyes of the world, is an assured fact, for the simple reason that while prospective settlers may doubt the word of the Herald or any number of private individuals, they can hardly doubt an actual photograph before their eyes.

Now, as said above, we are going to run a series of interesting pictures with appropriate write-ups, at least the balance of the summer, and probably all the fall and winter, and we want the loyal and patriotic citizens of this county to throw in and help us with the burden. They can do this by paying their own subscriptions in advance, send the Herald to those they think will be interested, and may be the cause of some good settler coming into their midst to help develop the best county on earth. Now lets see how many will come forward and start the ball

to rolling for a bigger and better Terry.

We know there are some skeptics that are not going to try to help us in this cause, at least until they see for sure it is a go, but after it is started, their help will be as good then as at any time.

We are not asking you to donate a cent toward this campaign, gratis, because we are not on starvation, but we propose to give you dollar for dollar in service, and if you don't believe it, try it. To the non-resident, that wishes to help, and wants the Herald to go to some of his friends, we will certainly appreciate any help or encouragement that they may offer.

The reading matter to go along with the pictures, will be conservative and not in the least overdrawn, for the "Truth is Good Enough for Terry." Some of the products that grow here are almost unbelievable in size and flavor, and to overdraw them is entirely unnecessary. We want new settlers and plenty of them, but not at the expense of the truth. Neither do we want anything but a voluntary settler, for they are the ones that make good. We advise all to come and see first, and then if they do not like they have no one to blame but themselves.

Sudan.

That sudan grass is going to be one of the main crops on the plains from now on is no longer doubted, even by the heretofore most staunch skeptics, for every day that it is being tried out it is proving its worth not only as a good food, but one that can be depended on to produce the maximum crop on the minimum rainfall.

Only about four years ago, the United States Government distributed out small bags of them over the United States, and while the seed were precious and scarce, those who received them in the portions where a superabundance of rainfall greets them each year, in many instances, did not as much as try to save the seed. But not so on the Plains of Texas, for the farmers in the west are always looking for something that will resist drouth, and produce an abundance of foliage, for the western farmer always has more or less stock to carry through the winter, and he found that this new plant was about what he was looking for and carefully saved every seed.

Of course, as a natural consequence, the seed were high, because they were scarce, and the owner wanted a good long price for them. His neighbors were skeptic, more over the price than anything else, and only a few bought, and that sparingly, but last year saw a big yield, and the price for seed within the reach of all. In fact, despite organiz-

ation, and holding for better prices, the seed went so low, that practically every farmer that wanted them, was able to buy all he wanted at from five to ten cents per pound, and as there will no longer ever be a scarcity of seed likely in the United States, experiments have been tried this year with Sudan, that have never been attempted before, owing to the fact that every body was trying to save seed before this year.

For instance, W. R. Bridges put in a small patch of seed near his house this year, that probably contains one and three quarter acres, and has a bunch of about fifteen hogs on it. Well, they are going for it like good fellows all the time, and cannot even keep it down around the sloping place, much less out twenty feet from there. He informed us that he was feeding just one-fourth grain rations that he was before he turned them in, and if anything they were fatter, and growing much faster.

C. S. Cardwell, is turning his milch cows on his patch, and they are giving lots of milk, and are fat enough for beef.

To our notion, it will not be many years until thousands of acres of it will go in for pasture, and then you are going to see some sure enough good stock on the Plains.

Done Gone Busted.

The Merchants Fire Insurance Co., of San Antonio, Texas, went in to the hand of a receiver the 12th of this month, and as usual left a lot of policy holders to hold the sack, and among the policy holders, nearly every business man in Brownfield was included, as they had just renewed for another year. The list included many residences in town that were insured for a few hundred, and the loss was not great, but the business houses take a much higher rate, and of course were the heaviest losers.

Among the heaviest losers, were, the Brownfield Hdw. Co., \$85.00; Brownfield Merc., \$50.00; Brownfield State Band, \$45.00; Herald \$30.00 and the Barber shop about the same.

Now, the business men of the town are talking strong of buying a small cart fire engine of the chemical order, install from one to three small ones in each place of business, appoint a fire chief to drill the company and to inspect flues and in fact, take their own risks. Money spent in a few good precautions is all right, even if we do carry insurance. Come, let us get together in better protection.

Don't forget that cider mill, neighbor. Remember we have ordered them.

Corn fields look like black clouds rising in old Terry. It looks like another hundred car surplus.

Prepare to plant a patch of Sudan next year and fence it with hog wire. Then raise hogs cheaper than ever before in your life.

The improvement boost that is now going the rounds of Brownfield homes, is also taking the day at Gomez and vicinity. Let the good work go forward.

And fruit is going to waste in old Terry, the county of eleven years organization, and lots of it is old juicy Elbertas. What other county of eleven years duration can say that much?

Let Brownfield have the fire engine by all means. Talk it up, and even if we do want insurance we ought to get rates so much cheaper, with a well drilled volunteer fire squad, that the investment would pay for itself in a year or two.

The Ozark mountain resort that advertises from 66 to 68 degrees as their early morning mountain temperature, will have to come again, as old Terry scored a new record of 58 on the morning of the 22nd inst. This is enough to make Kul Kolorado turn green with envy.

Let's make Terry the banner hog county in Texas. Can be done easily, as hogs are almost free of diseases here, and with the advent of Sudan, and our cheap land combined, they can be raised a third cheaper than anywhere else. And there is money in pork anywhere else, if you happen to ask

Stay with Terry and it will be you making. Those who have followed this out are now living at the top of the pot, and those who poked back to the tall timber are in worse shape than ever and would give half they have to get back here. Stay while you are here and you will not have the trouble and expense of moving back. They all say its the best place when they get back.

Cracks Calan in the Star-Tele-

gram, in offering unlimited advice to Edison and board of civil inventors, who are looking into the future welfare of our navy, advises the use of explosive phonograph records to lend our enemies abroad as well as next door. He might have suggested a movie film giving off destructive vapors to the eye sight, then sail the explosive records among them as hand grenades, thus receiving a Carnegie medal for his brilliant ideas.

In conversation with a prominent citizen, some time ago, he said he was opposed to over-boasting people to settle here, for if they became dissatisfied for any reason, they would blame those who got them here. He further stated that voluntary settlers were the ones who stay and make good. This is correct as a whole, and we agree that over-persuasion is bad business, occasionally, yet we believe in urging people to come and see. Come talk with our best and our worst farmers; talk to the optimist and pessimist, if you find the latter; talk to all, and as a further precaution, rent the first year and buy the next, if satisfied. Another thing; when one tells you that all the coons are up one tree here, don't believe it. While we have as fine water as there is in the State, make fair to bumper crops every year, enjoy good health, schools, churches, lodges and society; have as fine climate nine months in the year as anywhere in the world, there are about three months that are rough three days per week, and contain some as fine sandstorms as one could wish to see. But what are they compared to stumps, chiggers and crab grass.

Correspondents

On the same day that the old Soldiers and Woodmen meet, August 6th, we want all the correspondents to be on hand, and we will have our annual reunion with them, meeting in the County Clerk's office at 3 p. m., when new officers will be elected and other business transacted.

On account of serious sickness in the family of West Wind, the correspondents did not meet at Gomez last year as planned, but we will meet this year. Lets all try to be on hand.

What Bill Did.

Bill Turner was a farmer, he

labored all his life. He didn't have no schoolin' and neither had his wife. But Bill was built for business and made the wheels go round, and left a healthy fortune when they put him under ground. He was always taking chances, paid a hundred for a bull. His neighbors called him crazy, but he left a stable full of cows that broke the record, making butter by the ton, an' Bill had his picture printed in the Squeedunk Weekly Sun. He had newfangled notion of making farming pay. He even bought a fool machine to help him load his hay. The neighbors fairly snorted when they saw the bloomin' thing; said Bill would never make it work. It wasn't worth a ding! Bill didn't say a single word, an' didn't care a darn 'bout what they said, fer slick as grease, his hay went in the barn an hour before a thunder storm came sailin' out that way and caught his neighbors in a pinch and spoiled their new mown hay. Bill's neighbors put their milk in cans and set 'em in a tank. Bill skimmed his milk with a machine and turned it with a crank. Smith chops his firewood with an ax. Bill used some gasoline and saws a hundred cords a day with another blame machine. Today Bill's wife rides in a car and dresses up in silk. Smith's wife rides in a wagon and keeps on skimming milk.—Taylor County, Ky, Enquirer.

SAVES DAUGHTER

Advice of Mother no Doubt Prevents Daughter's Untimely End.

Ready, Ky.—"I was not able to do anything for nearly six months," writes Mrs. Laura Bratcher, of this place, "and was down in bed for three months.

I cannot tell you how I suffered with my head, and with nervousness and womanly troubles.

Our family doctor told my husband he could not do me any good, and he had to give it up. We tried another doctor, but he did not help me.

At last, my mother advised me to take Cardui, the woman's tonic. I thought it was no use for I was nearly dead and nothing seemed to do me any good. But I took eleven bottles, and now I am able to do all of my work and my own washing.

I think Cardui is the best medicine in the world. My weight has increased, and I look the picture of health."

If you suffer from any of the ailments peculiar to women, get a bottle of Cardui today. Delay is dangerous. We know it will help you, for it has helped so many thousands of other weak women in the past 50 years.

The young people enjoyed a party at Henry Pulliam's, Saturday night. He recently moved into the old Brownfield home.

Mrs. Treadaway and daughter, Miss Mozelle, came in last week from a long visit to the Miles country. They were accompanied home by Mrs. Butler and children, of Bronte.

H. T. Brooks paid the price this week, and said keep 'er comin'.

We had a letter this week from Lee Morrow, of Rotan, enclosing check for two "where-with-alls" and said he was always glad to get the Herald and all the news from old Terry.

Uncle Horace Adams had fever again last week and had to retake his bed, but he is now clear of fever.

Arch Fowler and Chock Hamilton went out one day this week and killed ten coyotes.

Teddy Pore, just out off the U. S. S. South Dakota, in the Pacific squadron, has decided not to ship over, for awhile at least, and

instead will go to the Panhandle wheat harvest.

Lester McPherson of the west side brought his family over this week so Mrs. McPherson could be with her sick father, Uncle Horace Adams, while Lester was at the railroad after freight.

Uncle Tom DeShazo brought the Herald three mighty fine onions this week. The largest of the three measured twelve inches in circumference, and the three weighed nearly two pounds.

I. H. Hudson was in after supplies this week. After his long seige of sickness, he looks as well and hearty as ever.
