BEDS! BEDS!

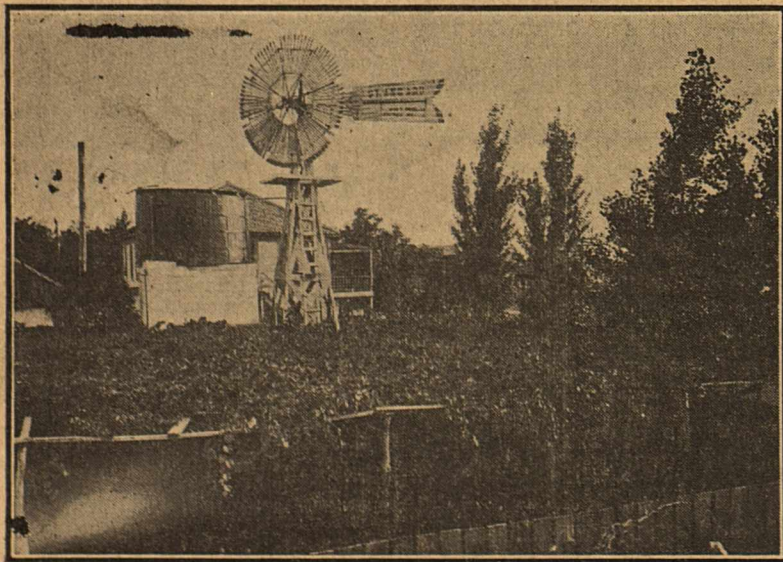

We have a very complete line of **STEEL Beds**, and can supply you with any color or weight that you might desire. Our prices range from \$3.50 to \$15.00. These are not the common iron beds, but genuine tubular steel, thereby giving greater strength with less weight. We also have a full line of **SPRINGS**, from \$2.50 to 5.00. We are anxious to

show you our new Furniture stock, which is the largest we've ever had on our floor. It will make you money to come in and look through it before buying or ordering elsewhere.

"SEEING IS BELIEVING"

EIGHT GRAPE VINES COVERING 40X60 FEET TRELLIS

Grape Culture In Terry.

In the no distant future, this is going to be a big industry in Terry county, in fact grape growing in Terry county is already far beyond the experimental stage, though there never has been a grape expert in the

county that we know of. Yet, the people have learned enough by reading and experience that they are handling the situation fine.

It seems the greatest trouble is that it is hard matter to get the people to prune them back enough, as they have not all

learned that important lesson in grape growing, that the pruning process has to be carried to such proportion, that it looks as if you were going to ruin the vines.

As we have stated several times here before, anything in the shape of a vine does extra well here, and we don't believe there is a country on top of the earth, with the same climatic conditions that will grow finer grapes, or that the vines will reach the same length in a years time, that they will in Terry county. Any family with a windmill can have enough grapes in their back yard after the second year from cuttings, to more than supply the family in season, and then put up enough fruit and grape juice to run any ordinary family throughout the winter.

For our illustration this week, we are giving you a view of the splendid grape arbor at the back of the Hill Hotel. At any time during the hot months, this arbor is worth many times the price for the ladies to wash or rest under, not to say anything of the value of the fruit. The oldest vine in this arbor is now in its sixth year, and measures 11

inches in circumference and covers an immense lot of surface with a dense shade, the other seven vines making up this arbor are only three years old, and they cover a space 40x60 feet, but you can hardly realize it from this picture.

Mr. Hill has canned 40 gallons of fruit from these vines this year, not to say anything of the immense quantities that have been eaten by the hotel guests, carried away as samples, and his back yard gate stands open to any of the town people who wish a baste of grapes all the time, and we want to say, the people accept the opportunity.

Come to Terry, and live at home, boarding at the same place.

Preserving Season

There's the fragrance of the orient thru all the house today, The spicy smell of cinnamon, cloves, nutmeg and bay, And it mingles with the perfume of the peaches and plums; Do you recognize this fragrance when preserving season comes?

There are baskets heaped with apples, with damson plums and pears;

Jelly glasses by the dozen; Mason jars long stored down stairs,

Have been washed in boiling water, and now stand in gleaming rows,

And neatly written labels soon their contents will disclose.

Blackberry jams and melon pickles, brandied peaches, apple jelly,

Preserved pears (least season's winner) and quince marmalade as well;

All the sunshine of the summer for the winter time put by; All the orchard's golden sweetness ripened under azure sky.

Like the squirrels of the forest women folks are full of thrift When Queen Nature in her beauty pours before us gift on gift,

And I seem to read a promise in the kettle's frothy foam

That the summer time will linger in the heart and in the home.

TEXAS, two year old Jersey, male; sire registered and dame entitled to register. May be found for service at J. C. Green's barn.

CORRESPONDENTS will endeavor to get their letters in early next week, as the editor will be in Tahoka the first of the week, and week after next we want them early, as we want to attend the fair at Gomez, one day.

Typographical Errors.

Every week this paper, and every other paper in the country, has a number of errors—typographical and otherwise. That's one of the reasons a good many people think the editor should have been a blacksmith. But what of the editors viewpoint? If there's on thing better calculated to turn rosy youth to dodder old age than, for instance, to get death notices and weather predictions mixed so that the darn thing comes out in the paper, "Mrs. William Williams died last night. She has gone where it is—116 degrees in the shade and with rising temperature tomorrow," well—we'd like to know what it is. Maybe you think it pleasant to walk down the street and hear some grinning idiot with a head like a German pancake and a brain like an addled egg holding up the sheet to caustic criticism and the editor to consciousness scorn! Maybe you think it nice to hear some member of the vacuum family remark that the editor must make up his paper with a shovel! Or some Pinhead Percy wonder why the editor doesn't learn how to set type! No doubt you think it excruciatingly delicious when an item announcing that Miss Merry Merryville is to be led to the altar gets into the paper as "led by a halter!" Funny, isn't it? Yes it is! It depends on the point of view.

Some people may think a paralyzed man with the itch is the height of the ridiculous, but what does the paralyzed man think about it? We are all apt to make mistakes. Don't forget that. What would you think if the editor put some of your mistakes into the paper? Remember when —, who shaves himself, came to church with a fine patch of whiskers on his chin which he had overlooked? And when Miss — let the shoe string on her switch hang down her back? And how Elder — caught the tail of his long coat over the neck of the bottle in his hind pocket and went down the street showing that sometimes the strongest in faith are weakest in the flesh? But we have no intention of telling these things. As an editor we wouldn't be much of a hair pin if we were bent that way. Just remember, though, that we are all prone to errors, and the next time you see something in the paper which you regard as a sure sign of the editor's feeble mindedness just say the devil did it, and, by heck, we'll back you up.—Ex.

On Bankers Helping the Farmers

It is a great thing to make two bales of cotton grow where one grew before, but a much greater achievement to make a bale of cotton worth twice what it was before. It is a great thing for a banker to lend money on property he never loaned on before, but a still greater achievement to lend a dollar at one-half the rate of interest and make a greater net profit than he did before. The Texas Bankers, in co-operating with the Farmers' Union, are bringing about these happy results.

When the State of Texas established a warehouse commission it gave the marketing side of agriculture recognition and when it based success of the law upon co-operation the legislature paid a tribute to the intelligence and patriotism of the farmers, bankers and business interests.

Mr. Joe Hirsch, president of the Texas Bankers' Association, when asked to define the position of the Texas Bankers on cotton warehousing and financing, said in part:

"As a result of the vigorous cotton warehouse campaign now being undertaken, the Texas Bankers' Association, backed up by the Federal Reserve Bank of Dallas, will endeavor to market the Texas cotton crop gradually and to obtain for the farmers of Texas a reasonable price above the cost of production.

The Federal Reserve Bank of Dallas is urging the bankers to assist in financing the Texas cotton crop and is offering to rediscount, for its members, notes secured by cotton warehouse receipts, giving preference to cotton stored in bonded warehouses. With this powerful backing for the first time in the financial history of the state, Texas bankers are prepared to finance our cotton crop, but the success or failure of this movement depends entirely upon the construction of adequate warehouse facilities, upon the willingness of farmers to store their cotton and upon the co-operation of country merchants and bankers agreeing to extend credit facilities upon cotton when warehoused.

A cotton warehouse can be constructed at a cost of not exceeding \$1.00 to \$1.25 per bale capacity. Plans for warehouses, prepared for the Texas Bankers' Association, may be obtained by writing Nathan Adams, Chairman Texas Bankers' Warehouse Committee, Dallas. It is suggested that communities build warehouses in units of 1000 bales each, situated not less than 100 feet from each other. This takes a low fire rate. Call a meeting of your local merchants and bankers. Procure a guarantee of enough money to build your warehouse. Apply for your charter and start work immediately.

The Texas Bankers' Association is composed of seven units, or groups, comprising seven sections of the state. A group chairman is actively in charge of the work in his own district. A banker chairman has been appointed in every county who reports direct to the group chairman. The campaign has been conducted vigorously and applications for charters are pouring into the State Warehouse Department daily and it is hoped that, as a result of the campaign now being waged, the warehouse capacity of the State will be largely increased."

Have you a turnip patch to feast off this year? If not, why not? It would have only cost you a few hours work and 15c worth of seed to supply your family with this delicious dish.

Several of our farmer people have made cellars this summer to store their winter fruits. It is also a nailing good place for sweet spuds, as most authorities agree that potatoes should be dug before frost kills the vines, thoroughly dried, then stored in a cellar where the temperature will be near the same all winter. The cause of so many potatoes rotting is, they claim, from the fact that sudden changes of temperature effect them.

Governor Ferguson has ordered an election to be held over the 122nd Representative District on the 9th day of October, for the purpose of electing a representative to fill out the unexpired term of Hon. Don H. Biggers, resigned. Now is the time for all the candidates to get in the field,

tell who they are and what they are, where they are from, what they know and what they want, if they are after this luxurious position. As to the Herald, it don't wish to pulverize, but we hope and believe that "now is the time for some good man to come to the aid of the party."

We often wonder why the farmers of Terry county don't have some bacon for sale in the summer time. We suppose that one reason is that some have not found a ready market because of the fact that they let their meat get so rank that it turned yellow, thus discouraging others. Yet we eat meat throughout August, brought in by a local farmer, that was treated with liquid smoke, that we had rather have than anybody's pressed meat from the packeries; it would season your cabbage and beans. Often, on account of rains or misplaced orders the town is without meat for a week. This would not occur if we could depend on a local supply. Try it farmers.

Recently a friend of ours said he wanted us to help him locate a few families here from his old community back east. We asked him if they were socialists, and he replied that one of them was inclined to be one, but he thought all hands might reform him after getting him out here. We then promised to do all we could. There are two kinds of socialists: One that tends to his own business and makes a living for his family; he makes a fair settler. Then there is the wild eyed kind with more hot air and theories than common sense, with his pockets stuffed with "Appeals From Reason" and wears the back of his pants out, who is ready to blow all substantial men to kingdom come, because he has worked and made something instead of talking his head off on street corners. We don't need his stripe in Terry; we had rather want neighbors. What we need is old fashion democratic and republican farmers, especially the former, who wear galluses and patch their bretches in front as well as the rear. Come to Terry.

SEVERE PUNISHMENT

Of Mrs. Chappell, of Five Years' Standing, Relieved by Cardui.

Mt. Airy, N. C.—Mrs. Sarah M. Chappell of this town, says: "I suffered for five years with womanly troubles, also stomach troubles, and my punishment was more than any one could tell.

I tried most every kind of medicine, but none did me any good.

I read one day about Cardui, the woman's tonic, and I decided to try it. I had not taken but about six bottles until I was almost cured. It did me more good than all the other medicines I had tried, put together.

My friends began asking me why I looked so well, and I told them about Cardui. Several are now taking it."

Do you, lady reader, suffer from any of the ailments due to womanly trouble, such as headache, backache, sideache, sleeplessness, and that everlastingly tired feeling?

If so, let us urge you to give Cardui a trial. We feel confident it will help you, just as it has a million other women in the past half century.

Begin taking Cardui to-day. You won't regret it. All druggists.

Atty. Thomas L. Hunter, of Wichita Falls, Texas, was here this week visiting relatives, and looking after business matter, leaving his wife and baby at Wilson, with her parents. Mr. Hunter was principal of the Brownfield High School one term.

W. J. French and son, Luther, and another gentleman, from the Lou community, was here this week in the former's new Maxwell car.

Little John Scudday, was here this week on business.

Mr. and Mrs. C. A. Lord, of Beaumont Texas, were here a few days last week, visiting Mrs. Lord's brother, J. C. Green and family. These people are terribly struck on the South Plains, and will likely invest here in the immediate future, and move here some day to make it their home.

J. A. Williams, of Buffalo, Tex., is here this week looking at the W. C. Slaughter land in the southwestern part of the county. In conversation with the editor, he informed us that he was almost sure he would trade for a section of this land, and would move here the coming year. He also informed us that Mr. Slaughter would move back on the rest of his property, as soon as he could turn his property in Clay county. Let 'em come.

J. H. Hall and Jim Lewis, left Monday morning for Lubbock in the former's car, to carry Clarence Lewis to a sanitarium in that city. Clarence is suffering from an acute case of gall stones, and it is hoped that treatment under the supervision of trained nurses will benefit him.

Dr. Treadaway left Tuesday afternoon for Post City with Miss Dessie Lewis, who has been suffering very much lately with appendicitis. They were accompanied by Earnest Burnett, who will undergo an operation for the same disease. Earnest has been suffering with this disease for two or three years.

One of the correspondents wrote us this week to keep saying something about the fair, as half the people do not know there is going to be a fair. Well, if the people won't read the paper and find out anything, we can't make them. But we think that correspondent is sadly mistaken, as we know that most everybody that we see, know we are going to have one, and where it is to be, and when.

Will say again for the benefit of doubtful Thomases that it will be held at Gomez, Texas, on Thursday and Friday, October 6th and 7th, 1915. Be sure and be on hand with some grub, and something to display too.

Married.

Mr. Will Adams and Miss Ethel Treadaway, were quietly married at the home of Rev. Durham, pastor of the Baptist church, Wednesday night, Sept.

22nd, at 8:00 o'clock.

Will is one of our hustling business men, having half interest in the Brownfield Hardware Co., and is rated as one of the cleanest and most substantial business men in the county; there being no reproach on his character, and his friendship is courted by all who know him.

Miss Ethel is the oldest daughter of Dr. and Mrs. T. L. Treadaway, and is given up to be one of the most popular, and most beloved girls in Terry county. She is of a gentle, retiring disposition, but has a knack of drawing friends, that captivate all who know her. She is well educated and highly accomplished, and we predict that Will has a wife in every way worthy to be his helpmate.

Herald hopes them a pleasant voyage down the stream of conjugal bliss.

Uncle Jake Beal, was here this week with a combination load of apples, peaches and plums. Uncle Jake informed us that he would have quite a lot of late fruit for sale. It is estimated that his orchard produced in the neighborhood of 1000 bushels of fruit this year, and of this amount, probably 500 bushels went to waste because he could not use it himself, or dispose of it. Come to Terry, where you can have an abundance of fruit that your system has been craving for years. Get out of that old exclusive cotton country, and enjoy yourself the rest of your days. You've only one life to live on earth, why not live that life where you can enjoy it most.

We went over to the courthouse Saturday where they were getting the exhibit together, and saw some of the best corn we have ever seen in any man's country, and if we do not take some prizes on it at Amarillo, they have certainly got good corn elsewhere this year. The peach and apple collection was far above the average, ever for this county, and the other products that are being carried, are fine indeed. J. H. School opened here Monday morning. An unusually large crowd of visitors and patrons were present and more than unusual of the pupils. In fact, both patrons and pupils in our school this year seem to have the fixed determination to get all that is coming to them, out of this term of school. Instructive and interesting talks were made by Rev. Ledger and Rev. Hughes and Mr. Will Black, after which Prof. Henderson outlined the plan of this particular campaign against ignorance. Every patron we have heard speak of the present rules and regulations, heartily endorse them and we hope for a successful and harmonious term. We only have three teachers this year, Prof. Henderson, the higher grades, Miss Riley in the intermediate department, and Miss Dumas in the primary department.

The rustle for rent houses and boarding places here for the past two weeks has been unusual. Some families stayed in their wagons for a week waiting for someone to vacate, and every house that is large enough has two families in it. Some have moved to Brownfield and there is not even a vacant room in town now.

The boarding population of school so far is: Easton Wolfarth, Hilliard Ware and H. D. Currier at the Hotel, Misses Adie Bell Ware and—Randolph at Robert Holgate's, Miss Riley at Simon Holgate's, Nora Black at her brother, Joe Blacks.

Clint Rambo's household goods were moved out to his father's last week, and Prof. Henderson moved into the house, and Grover Lewis, whose furniture was in the house Prof. vacated, moved there.

Mrs. Eldrege Maddux' parents, Mr. and Mrs. Leslie, from East Texas, are visiting her at this time.

The Woodman Lodge of this place initiated eight members last Friday night.

The Whitehead Moving Picture Show came in here early last Friday morning from Brownfield, and to some who questioned them, they stated that the previous night at Brownfield was no crowd, "preached out" Rah! for Ledger and Hughes. A preacher who can freeze out a "movie" by holding the crowd, sure must be "on-to-his job." Well the Woodman Lodge here Friday night left them with a very small audience, Saturday night it rained and nobody went. They tried again Monday night

but a cold norther and lessons to study again left them with almost no audience.

Reed Wolfarth and Irvin Rambo accompanied Misses Eargie Rambo and Lois Reeves to Tahoka, last Friday, where the young ladies took the train for Waco, to enter Baylor University.

Mr. Troupe and family from Tennessee, came in last week and located out at Bert Shepherd's. We welcome them to our midst.

Mesdames J. M. Currier and Ed Neill were in from the west side Monday. We are glad to state that Mrs. Neill's health seems to be improving.

Teddie Poore came in last Sunday from the North Plains.

Henry Pullium and wife of Brownfield, visited here Monday.

Dr. Treadaway and Dr. Maddux were called to Southwest Terry to see Mrs. Charlie Garrison last Monday. She is quite seriously sick.

A wagon load of people from here attended church services at Brownfield almost every night last week, and Sunday night most all of the young folks and some older ones went.

O. B. Curlin has sold out to Dick Brownfield, and we heard that Mr. Brownfield had sold the place again, but do not know that the report is true.

Johnnie Dumas is staying with his sister Nancy and attending school here.

Simon Holgate has gone to Dallas for fall goods, this week.

W. B. Snodgrass came in from Kansas, last week. He reports that the physicians there thought that his wife would soon recover. Later: A letter from Mrs. W. B. Snodgrass states that she is improving and hopes to soon be well.

S. H. Key is having the gin cleaned up this week, and will be ready to go to work in a few days. We heard him say today that he would not charge anything for ginning the first bale that comes in this season. The farmer will only have to pay for the bagging and ties.

Carrol Phillips came in this week, as he had to make a trip to Lamesa, as a witness in the recent killing at Tahoka, wherein a white man layed out a Mexican. The white man helped Carrol make sorghum the day before the difficulty took place.

PLAINS

By Carl Forkel

The Plains school opened on Monday, the 13th., with perhaps the largest enrollment it has ever had on the day of opening and as is customary with our patrons, a number were present to indicate the deep interest they feel in the welfare of their children, and in the success of the school.

Brother B. F. Dixon was present and addressed the children and patrons, and following his address were a number of informal talks by the trustees, patrons and teachers.

That parents as a rule are zealous of the welfare of their children and will make great sacrifices to advance them in education is well attested by the inconveniences they so willingly take upon themselves to give their children the advantages of school. Several homes in Yoakum county have been severed for this cause, and the mothers with their children have moved into Plains for the term, the fathers remaining on the ranches to take care of their interests there.

The school is that part of our social life which must be encouraged and advanced if society may ever hope to remedy the many and manifold evils of our social and industrial life. The parents' zeal should be encouraged and backed by the zeal of the public, and working in harmony, much can be accomplished in Plains this year for the home and for the State. The increased enrollment this session is taxing to the limit the seating accommodations of the old school building, but it is expected that funds will be available soon for the construction of the new building, bonds having been voted for this purpose some months ago.

The school has three teachers employed at present, Prof. R. P. Moreland having charge of the higher grades, Miss Willie Roy the intermediate grades, while Miss Mattie Stanford has charge of the primary department.

Fine rains have again covered Yoakum county and the entire South Plains so far as heard from.

Prof. S. Poyner of the Harris community, was in town recently and reports the crop conditions are fine in his community.

J. F. Merritt has sold his crop of calves to Johnson and son of Terry county.

George McDowell and Walter Potts have recently completed a large under ground silo.

Hub Hooker has recently purchased a new row binder with which to harvest his own crops and to assist his neighbors in harvesting theirs.

Joe Robinson of Southwest Yoakum passed through Plains last week on his return trip to Galveston where he will enter upon his 3rd years' work in the State Medical College.

S. J. Parker and wife are spending the week on the Lupton ranch, and are now considering remaining with us permanently, so much this climate has attracted them. South Plains' summers are hard to beat.

FOR YOUR NEXT LUMBER

There is not a better or higher grade stock on the Plains, yet the price is no higher than for inferior grades others handle. Besides lumber, we have the best in paints, oils, cement, lime, post, wire and wind-mills. Just give us a chance at your bill.

Doughdy of San Angelo, were prospecting and visiting in Yoakum last week. Mr. Gentry owns land in this county a may become a citizen in the near future.

Messrs. Vernon and Carmack of Snyder, Okla., were in Yoakum this week on business.

Messrs. A. S. Robins of Athens, and Sam B. Dodson, of Waco, were visiting on the Beal Ranch in Northwest Yoakum last week.

Judge J. T. Gainer is in receipt of an order from the Governor for an election to be ordered and held on Oct. 9th., for the purpose of electing a Representative from the 122nd, District to succeed Hon. Don H. Biggers, resigned.

Miss Josie Smith, of Jayton, Texas, sister of W. E. Smith of this place, will attend the school here this session, making her home with her brother and family.

T. W. Hague has just returned from a trip to Bronte, Texas, where he has been on business. He reports crop conditions good in that part of the country.

The managers of our approaching fair which will be held on the 1st and 2nd of October, are bestirring themselves and have put the various committees to work.

Messrs. Beal and Earnest have all their plans for the roping and branding contests arranged.

Murphy Luna, manager of the tournament riding is making arrangements to have this a feature also.

E. S. Rowe, manager of the baseball game, is training his boys, and will have a team that can play some when they come to the bat. The game will probably be with the Plainview N. M. team, since Brownfield has reported that owing to the busy season, it is improbable that they can get its team together. It is hoped, however, that all the Brownfield boys will be on hand to share in the fun.

The interest being manifested in the live stock exhibits assures us the best representation we have ever had, while the farm and garden displays will also excel in amount and quality.

Novelty men from a distance have heard of our program, and our managers have contracted with some of them who will be present with their wares on these dates.

Arrangements have been made

by which a bountiful supply of grass fattened barbecued meats will be served hot from the pits on the second day, while the dinner for the first day will not be found wanting.

Harris

By Sand Bur

Prospectors are getting numerous here of late. Several were around Harris this past week. Well we have lots of room for the right kind of folks that is, those who expect to stay.

P. J. Ross and D. M. DeVitt have the east T F M pasture leased now and have stocked it with steer yearlings.

J. W. Hooker and wife returned to their home in Lubbock, Saturday, after spending several days with their son here.

Several men from around and near Harris, went over to T. C. Ivey's ranch last week to help Mr. Ivey fill his silo.

Bob Redding received a letter from his father last week informing him of the latter's marriage which took place recently in Scurry county, where Mr. Redding has lived since he left here.

Jack Mahoney bought Walter Frazier's calves last week. We understand this is Jack's first venture in the cow business and we wish him success.

Walter Potts and George McDowell have recently dug an under ground silo on their place and expect to fill it soon.

Hand the Herald man 85c and get the daily and Sunday Fort Worth Record to December 1st.

We will trade you new furniture for your old. Riley Duff & Co., Lubbock, Texas.

Dr. Treadaway made a trip to Lubbock Sunday to have some dental work done.

Wiley Bridges left this week for Tahoka, to purchase lumber for a home for his father, H. M. Bridges. We understand that they will just build a couple of rooms on Wiley's house, as he wants his parents, who are getting old, to be near him. His father has bought ten acres of land from him, and will raise hogs, chickens and keep a cow.

L. J. Mathis, and daughter, of Quanah, Texas, are here this week visiting his brother, W. C. Mathis and family. His daughter will visit here for some time.
