The Play.

That old and popular novel and play, Tempest and Sunshine, by Mary J. Holmes, portraying the life of the old South on the plantations of old Kentucky, interwoven with a beautiful and touching romance, was staged at the schoolhouse Tuesday night, by home talent under the auspices of the Mothers' Club.

A large and an appreciative audience responded well to the play, and all we have heard express themselves, say that a better play has never been staged in Brownfield. There were scenes in the play that touched the tender points of the heartiest, and others provoked all to laughter.

There were a couple of new actresses on the roll, being Miss Merriwether of the primary department of the literary school, and Miss Wise of the music and expression departments, and we must say that they add greatly to our home talent. Miss Merriwether played Sunshine, and Miss Wise played Tempest, and one could see that their whole life was wrapped up in their part. The rest of the troupe was composed of the best of the old standbys, and proved themselves Johnny on the spot in this instance as well as others heretofore.

The total proceeds was \$56.65, and will go toward painting the school rooms, the overplus, if there be any, will go toward seating the rear of the auditorium, and we understand that all the next play will be for finishing these seats, which will be raised on the circus style, only better seats.

Jury List.

This list was drawn at last session of District Court, and are called for the first week of District Court, beginning, Monday, Nov. 1st.

GRAND JURY

M. C. Adams, A. M. Brownfield, John Burnett, Ben Broughton, O. R. Copeland, Brit Clare, W. E. Cherry, W. J. French, W. A. Fulton, W. B. Gainer, E. A. Graham, B. M. Hunter, J. M. Hays, Robt. Holgate, T. E. Hobbs, and R. H. Timmons.

PETIT JURY

W. M. Adams, D. A. Armstrong, J. R. Burnett, W. H. Copeland, A. C. Copeland, J. K. Cunningham, C. S. Cardwell, W. S. Crowder, F. M. Ellington, E. N. Eicke, J. C. Green, T. H. Green, I. H. Hudson, C. F. Holt, W. G. Hardin, J. M. Johnston, J. T. King, J. J. Lane, I. A. Lowe, H. D. Leach, W. E. Moore, E. W. Maddux, L. W. McPhaul, Geo. McPherson, W. C. Mathis, J. P. Nichols, T. J. Price, E. T. Powell, J. A. Parks, R. I. Puckett, R. W. Rambo, G. W. Snodgrass, W. C. Smith and A. P. Seitz.

Elder Knox requested us to announce that he would preach at Gomez Sunday. Everybody invited.

Notice the change in the Lubbock Merc., ad in this issue. They are advocating the Buy-It-In-October movement.

George Bragg carried Arnett Bynum and his mother to Post City this week, where Arnett will undergo an operation for appendicitis.

A Jitney Ride.

Tuesday night during or just after the play, three of the town boys, including one of Mr. Cardwell's boys got in to Mr. Cardwell's cellar, and obtained several drinks of his home made grape wine, and then felt so good that they got in Mr. Cardwell's Ford and joy rided something like 35 miles, or until they were halted near the Tiernan residence by Mr. Cardwell and the sheriff.

These boys were carried before Judge Neill Wednesday morning pled guilty and were fined one dollar each. The Judge made the boys a fine talk, telling them he was giving them the very lowest penalty, but told them that a repetition of this would cost them the maximum.

It is hoped this will be a lesson not easily forgotten, and that this and other petty disturbances will cease. In fact the officers say all uncalled for disturbances have got to cease, and they have the citizenship of the town and county behind them.

Percy Spencer came through this week from attending District Court at Plains, and informed us that his client, Boss Ray, had been indicted by the Grand Jury, and that the Dr. Beeson case would be tried at Post City, and the Keller case at Crosbyton. His bond was fixed at same amount as before indictment, \$10,000, covering both cases.

Chas. Boone had some fine late roasting ears here this week, and found a ready sale for them. A late roasting ear patch is always easy money.

M. and M. Club.

The Maids and Matrons met with Mrs. Will Adams, Oct. 16. The teacher, Mrs. Bell, heard the lesson, Act. 1 of Henry 8th, which was very interesting. Mrs. Bell has a way of explaining things that no one can help but understand the plot of the play. As the President, Mrs. D. Brownfield, had moved away, the Vice President, Mrs. A. J. Stricklin was elected President, and Mrs. R. H. Banowsky, Vice President. Three new members, Misses Wise and Merriwether and Mrs. Draper, were taken in. The President appointed Miss Merriwether Critic.

Let every member be present the next meetings and let us make this a very profitable club year. Refreshments consisting of tea, cakes and sandwiches were served.

The following is the program to be rendered at Mrs. W. A. Bell's Oct 27th.

Roll call: Literature of the period of Henry 8th.

Paper: The Court of Henry Tudor.—Mrs. Hardin.

Discussions: 1. Katherine's plea for the common people.—Miss Merriwether. 2. Anne as the Talcum of the Dramatic Plot.—Mrs. Drinkard.

Queries; Act. 1 scene 2, 3, 4.—Miss Hamilton.

Lubbock To Have A Grain Elevator Soon.

Lubbock is fast getting the things that are needed to make it a bigger and better town. Among the late acquisitions is a grain elevator, which is now assured.

The Lubbock Grain and Coal Company has let the contract for the erection of an elevator, which will have a capacity of ten thousand bushels and will be equipped with all modern equipments including a chop mill, cleaner and Richardson's Automatic Scales.

A representative of the above named firm stated that construction work would begin on the elevator in a short while and will be located near the present grain house of the Lubbock Grain and Coal Company.—Avalanche.

Prof. Grant of Abilene, the inventor of the home ice plants, as used this year at Plains, was here this week in the interest of his invention. He said he had improved on it considerable over the old model, and had hopes of selling one to Brownfield parties. Prof. Grant was one of Dr. Treadaway's first instructors, way back forty odd years ago in Georgia.

J. T. Blankenship, of Stanton, Texas, was here this week looking after his property interests, and visiting at the home of County Clerk, D. J. Broughton.

Dick Banowsky and family and M. V. Brownfield and family, went to the Dallas Fair this week.

WE WANT YOUR BUSINESS

Sometimes you walk into a store and a clerk jumps to be the first to wait on you. He is there to sell goods and work never bothers him. He is willing to take down half the goods in the store in his efforts to please you. He makes sales and will rise in life. But there is another class of clerks. They sit or lay round on the counters and let you hunt them up when the boss is not around, show you as few goods as possible, and are not at all bothered if you walk away without finding what you want. They get their salaries just the same—it is only the boss who loses. They will always be clerks—just clerks.—Stanton Reporter.

The people of the east have heard the old story about the

west being on starvation so much they believe it. Yes, this old lie has been repeated so often, they actually believe it. But some are getting skeptical, having used West Texas feed for the past few years, have come to see and are converted. You good renters back there who have had your nose to the grindstone for years, come out and buy a small place, and play independence yourself for awhile. Those big land lords of yours have just been telling you these wild stories to keep your nose right on their grindstone. Cut loose and come out to liberty.

It is astonishing the amount of gall some people have. Only this week a secretary of a certain fair in West Texas wrote us for some space in the Herald;

gratis, of course, save a couple of complimentary tickets, which we can't use, and are not transferrable to even a friend who might use them. But this is customary, and was mentioned here only to lead up to what we termed "unlimited gall." We noticed his letters were printed at Stockton, Mass., and we wrote him at bottom of his letter to get the Stockton, Mass. firm to boost his fair. There are several large printing establishments in his city, too, and we know his local papers are good ones, sparing neither time nor money in advertising his section, often coming with 100 page special editions. We gave the fair a little space, however, not to help this fair's management, but because we love West Texas and glory in her advancement. But with all this, we believe reciprocity should be practiced, not theorized, by all local institutions.

We have not closely inspected but three cotton patches this year, but each will make in the neighborhood of three-quarters of a bale per acre, this being a conservative estimate. The kafir, maize and feterita of the county will go near a ton to the acre, while corn will average about 30 bushels to the acre over the county. Now when this huge crop begins to move, for it is a huge crop, as it must be remembered that an average crop in Terry is more than 100 acres, you are going to see money roll in by the spade full, and all will meet and shake hands with old Prosperity. Cotton is bringing \$60. per bale, seed \$35. per ton, colts \$65. each, calves \$30 each, and our people are going to have enough of these to wait till prices suit them to turn their feed crop or any other crop that is not bringing what they want. The cellars are full of good things to eat and we must not forget the good and faithful work of Biddy, the many Thanksgiving and Christmas birds growing and nearly twice as much pork as usual is going to be shipped. Hale county, according to statistics of Federal Government, now produces more pork than any county on earth, and the Panhandle of Texas will excel any state in the union in the next decade. Watch our prediction. The north is already watching her laurels go, slowly but surely, and the rest of the south can't hold us a light now.

OUR PUBLIC FORUM

Henry N. Pope

On Waste in Cotton Marketing

Henry N. Pope, lecturer Texas Farmers' Union, when asked to estimate the annual loss due to improper methods of marketing the Texas cotton crop said in part:

"The waste in cotton marketing begins at the gin and it follows the product through every step from the gin to the mill and it aggregates an enormous waste which could be prevented, amounting to not less than five dollars per bale. Samples taken from the bale by the cotton buyer amount in the United States annually to 100,000 bales, which is known to commerce as the 'city crop'. At normal prices, that cotton is worth \$60 per bale making a total of \$6,000,000 per year. Experts calculate that storage for cotton can be provided at a cost of \$1.50 to \$2.00 per bale for the permanent structure. This loss, amounting to \$6,000,000 occurs annually and the saving of this item alone within two or three years would provide all the cotton warehouses that the South can possibly use at the time of its greatest need for storage and with the largest crop that it can possibly produce, for cotton will move continually from September to March and at no time, nor under any circumstances, would there ever be more than one-third or one-fourth of the total crop under shelter.

As a consequence of the cutting of the bale for the sample, the cotton must be repacked at the compress. The ragged condition caused by much sampling and exposure in the gin yards, or in the back yard, or in the cotton yards, or on the railroad platform, or elsewhere, from the gin to shipside, results in an accumulation of dirt and trash in 'pluckings' on compress platforms and in cotton yards in increased insurance, in damage from exposure, in increased fire hazards and the deduction for the tare which always exceeds the actual weight of the bagging and ties by ten pounds at least—I say that these several items of waste and graft amount in the aggregate to a sum not less than five dollars per bale, every cent of which is calculated in advance by the purchaser, and is deducted from the price which the spinner pays the farmer. None of this appears in the bill of lading but is all in the transaction and it all accrues to the loss of the producer.

The next process is official grading of the cotton sample. In my judgment the farmers are losing from fifty cents to one dollar per bale by the grading of the cotton buyer, who naturally will give himself the benefit of the doubt in order to protect his own business with the mill. A cotton buyer, uncertain as to whether a bale of cotton is strict, middling or middling fair, will buy it at the lower grade rather than the higher. We must allow that there are many dishonest men in the cotton trade, as in other vocations, and that a large number of them will take advantage of the farmers' ignorance and possibly grade the cotton much lower than its actual grade."

Judge Slaton Would Divide Texas.

The Amarillo Daily Panhandle says:

"Judge. J. P. Slaton of Hereford, passed through Amarillo last Saturday evening, from an extended trip through the central portion of the State.

"The Judge favors the splitting up of the Lone Star State into two or three sovereign states, and referred to the question by saying:

"The time has arrived for the agitation of the question of a separate sovereignty for the Texas Panhandle and Plains. With its endowment of youth, virility, vigor and productive and creative capacities, the Texas Panhandle and Plains region should under its own unfettered guidance and untrammelled control develop into the wonder state of the American union."

A CONFESSION

Hopes Her Statement, Made Public, will Help Other Women.

Hines, Ala.—"I must confess," says Mrs. Eula Mae Reid, of this place, "that Cardui, the woman's tonic, has done me a great deal of good.

Before I commenced using Cardui, I would spit up everything I ate. I had a tired, sleepy feeling all the time, and was irregular. I could hardly drag around, and would have severe headaches continuously.

Since taking Cardui, I have entirely quit spitting up what I eat. Everything seems to digest all right, and I have gained 10 pounds in weight."

If you are a victim of any of the numerous ills so common to your sex, it is wrong to suffer.

For half a century, Cardui has been relieving just such ills, as is proven by the thousands of letters, similar to the above, which pour into our office, year by year.

Cardui is successful because it is composed of ingredients which act specifically on the womanly constitution, and helps build the weakened organs back to health and strength.

Cardui has helped others, and will help you, too. Get a bottle today. You won't regret it. Your druggist sells it.
