## MEN'S SUITS; LADIES COATS

We now have a full line of Men's Suits, Corduroy suits, Duck Coats and Mackinaws. We will have next week a splendid assortment of Ladies and Children's Coats. We would be very much pleased to show you these departments. Our prices are RIGHT and our goods are GOOD.

#### Our School.

One and one half month of our school has gone, and we have made only one trip up there since the school started. How many have you made? If no more than we have made, you have nothing to boast of, in fact you have missed much.

We ventured up there Wednesday before school opened, and stayed with them till noon, the Professor even making us stay in at recess, because we happened to be in a Latin class that did not know their lesson to suit him, but the class knew a lot more than we did about it.

We first visited the primary department under Miss Merriwether, as we consider this the foundation upon which our whole school system rests. Now we want to tell you that Miss Merriwether, is the right lady in the right place, and is preparing a foundation upon which the superstructure can rest securely. She is giving the foundations the training now that will bear them a good part in the years to come. In fact they are learning the lessons right now, that have sometimes been deferred until a higher grade has been reached, when the pupil would think their importance inferior, and therefore they have been half learned or not learned at all. We refer to reading, spelling and punctuation, and especially the latter. The fact of the matter is, we found primer students under her guidance that knew more about what the different characters of punctuation were used for than some tenth grade pupils that have been under our observation in the printing business.

These little fellows can read right off the bat too, not merely saying the words, but giving them the right pitch and expression. Here we became converted to the "new fanged" method of teaching reading before the letters. We had never been able to see the reason before, as we had never seen it tried out, but we shall refer to it here, after as the better method, instead of the "new fanged" method. If you have a child under her care, you should feel proud, and you should go visit this department, and encourage the good work being done. As I stated before, this department is the base of all future education, and if you have to pay a long price for a good, moral, capable teacher for this department, dig down deep and pay it.

We next visited Mrs. Draper's room, and were called on for a talk, and as we can't talk, but never pike, we were in a predicament. We finally thought out and conveyed to those present a few sentences that may possibly be worth something to the coming men and women of our little city, and relieved ourselves of them. About this time, Mrs. Draper took charge of Prof. Draper's room, and the Prof. came in to hear the Latin class that kept us in a recess. We want to say right here, that if a pupil thinks they can play forty-two the night before and get off with it when they are called in account by the Prof., they are planning without the consent of their host, and when he got thro' with that lesson, they knew it. We tried to beg off for the pupils to try his metal, but there was nothing doing, as the popular

saying goes. While he is as gentle as a lady, he is as firm as Solomon, and every pupil has to give an account of themselves. While they may think it a little hard now, in the distant future, these little men and women will look back and thank the Prof., for his care and interest.

After recess, we strolled into the ninth and tenth grade room, and heard the class in English recite, and found that they were mastering our native language right along.

We next visited Miss Lowe's room, and as we have known her so long, we never mind asking questions in her room, for we know we will get a civil answer, and she will act as though she paid no heed to our ignorance. This is her fourth term here, and you can tell by that she is considered just about "it" when it comes to teaching. Here we heard the sixth grade do their examples, and they seem to be doing fine work in seventh grade sections of the book, or at least appeared that way to us. Then we took a spelling book and gave out the spelling lesson to the fifth grade, but Miss Lowe would not trust us with the grading. Pretty good idea, too.

About this time the bell tolled for noon, and while the morning passed ever so quickly and pleasantly for us, we, like the other pupils was glad to go to dinner.

Patrons, go to school some day, and spend the morning or afternoon, the teachers will not think you intruding. They will make everything pleasant for you, and the pupils will be just as glad to see you, and will loan you a book at recitation time. Go and lend

#### Congressman Smith Spends Fri. Night Here.

Hon. W. R. Smith, of Colorado City, Texas, and Congressman of this the 16th District, spent Friday night here, as he is making a hurried tour of a portion of his district that he was unable to make last year.

In conversation with Mr. Smith he said:

"My district is so large that if a person spent his entire time at home he would not be able to more than make all the towns in the district in a year, and as I have not been out this way in several years, am making this hurried tour before Congress convenes the first Monday in December, to get acquainted with new people who are moving in, and renew it with the older ones, and to find out what the people want and need, so that I will be better able to represent them."

When asked what he thought about Texas getting the next Democratic National Convention, he said:

"I believe we stand a good show to get it, and see no reason why we shouldn't, as Texas is in perfect accord with the administration."

When asked how he stood on "preparedness", he said: "I have nothing to say just yet, until I see the whole plan, and find out if there is any underlying plan for certain parties or con-

cerns to get fat orders out of it. "Really, I favor Government ownership of plants for the manufacture of Government munitions and supplies." If the plans are what they seem I will doubtless lend my help when it comes up. You know we could easily convert peaceable America into an armament nation by a little encouragement along this line, and we want to suppress anything that looks too bellicose, you know." He said that as far as he knew at this time, he would be a candidate to succeed himself in Congress.

#### Help Wanted..

Rooseveltian methods are satisfactory so far as they go in Terry county, but George Neill, County Judge, and main spring of the newly organized Terry County Fair Association, is anxious to increase the possibilities under the Roosevelt system by inducing more people to share his county's prosperity.

On the cover of an attractive folder for the Terry County boosters, of which we have just printed a large edition, Judge Neill succinctly sets forth social facts about his county like this—

No Saloons  
No Negroes  
No Mexicans.  
D—m Few White People.  
—Amarillo Daily News.

Mrs. I. H. Hudson was in yesterday, shopping.

cerns to get fat orders out of it. "Really, I favor Government ownership of plants for the manufacture of Government munitions and supplies."

If the plans are what they seem I will doubtless lend my help when it comes up. You know we could easily convert peaceable America into an armament nation by a little encouragement along this line, and we want to suppress anything that looks too bellicose, you know." He said that as far as he knew at this time, he would be a candidate to succeed himself in Congress.

The last thing he said was: "If you people can use me at any time, don't fail to call on me. I will be glad to assist you any way I can."

In his sermon last Sunday night, Bro. Hughes said that lots of people, himself included, had failed to get good out of lots of sermons because they placed themselves in the attitude of critic. They were watching for grammatical errors instead of moral maxims. That's the fault with most of us, we are watching for errors from everything and everybody that don't agree with us, politically, religiously or morally; and we fail to get the kernel out of many a fine nut.

The Lubbock Avalanche says about one dozen new brick bus-

ness houses will be under construction in that city in the near future, beside the half dozen now building; also a \$100,000 court house and a \$30,000 Methodist church. The Lynn County News reports three new bricks under construction and three more about contracted for, not to mention their new \$60,000.00 court house. By the way, the News seems to have struck a streak of prosperity, too, as she came out an eight page sizer last week, well filled with prosperous looking ads, plenty of reading matter, plate matter and other matter. We are glad to see our neighboring towns push on toward real citydom, and wait and

hope for the same infection to strike our little town.

### Bread and Meat.

Northwest Texas has sprung into prominence as a producer of bread. The wheat crop this year will exceed ten million bushels. The acreage now being planted is larger than a year ago and the outlook for another bumper crop is most promising. The Staked Plains have become a great producer of bread and this is doing its share to bring prosperity to the settlers.

Last year the Santa Fe lines alone handled nearly a hundred thousand cars of grain. So far nothing of the bumper wheat crop has gone to market. The farmers are too busy looking after their row crops to haul wheat and then they figure that the price may go up. They do not need the money anyway.

A thousand mile trip this week develops that there never was such a crop in Northwest Texas of kaffir corn, milo maize, and other forage crops. A lot of it is already stored away in silos and the farmers are running their binders more or less night and day while there is moon shine. There is a superabundance of feed everywhere. In consequence farmers are buying hogs, sheep, calves, and steers to eat their feed. Another line of industry is coming into this section.

Long was this country known as an ideal breeding country of stock that might go to Kansas or some other state for the Yankee to finish for market. Now many a farmer is turning Yankee in Northwest Texas and feeding cattle, sheep, and hogs for market. Though the farmers have grain to sell, they do not overlook the profit that comes from feeding the fodder to live stock.

In a nut shell Northwest Texas has become an important factor in supplying the world with bread and the best meat.—A. M. Hove.

Rev. Hughes preached his farewell sermons here Sunday to large and attentive audiences, and will leave today for Clarendon, where the Northwest Texas Conference meets this year. Bro. Hughes has been offered a church in a mile or two of the Southern Methodist University, at Dallas, and will pastor the church and attend school next year. We are real glad to see him get this place.

Grandpa Black and son Will, were over from Gomez, Wednesday on business.

R. H. Banowsky and wife came in Tuesday afternoon from the Dallas Fair, both sick. Well we will have to keep them at home from now on.

Geo. Black Jr., and family, were over from Gomez, Sunday, visiting the Bridges families.

Two of Jim Whisenant's daughters have come in and are attending school here. We understand the rest of the family will be here before long.

Dick Brownfield and family and Mrs. Daugherty and daughter, Miss Dora, got in Wednesday from the Dallas Fair. They report a huge time.

W. C. Smith has been on the sick list this week.

Will Adams has been putting up an additional grainery this week, for his grain crop, he doing the bossing and R. H. McCormack the work.

A. M. Rankin, of Lubbock, a member of the firm of R. A. Rankin & Sons, was down this week installing a binder for Geo. McWhorter, and looking after other business matter for the firm.

It is reported on good authority that Dick Brownfield went so heavy on the side shows at Dallas fair, that he ran out of chink, and borrowed all the children's money. The same report says Dick and R. H. Banowsky both had to eat canned goods before they got home, but both refused to be interviewed.

The Brownfield Merc. Co. got in several large boxes of dry goods this week. This big firm has already sold more dry goods than they usually receive in the fall and winter season.

Burnett Bros. silo force came through Wed. with their machinery. They had been out to the I. H. Hudson ranch, where they filled the last silo of the season.

Oscar Billings was in this week after repairs for their silo cutter, and reported that they were just about done filling. They and John Waltrip were in partnership on the filling machinery.

Tennis courts seem to be the order of the day in Brownfield. There is one in front of Dr. M. C. Bell's residence, and a little further up the street is one in front of the Green boarding house.

The larger children have their baseball, football and basketball, but the little folks have nothing to amuse themselves. Let's all turn out with lots of boxes, and be prepared to purchase all that come. Remember the little folks.

The annual production of the Texas factories is valued at \$272,696,000.

One and six-tenths per cent of the population of Texas is engaged in manufacturing.

## OUR PUBLIC FORUM

Clarence Ousley  
On the Law of Supply and Demand

I am amazed that so long the cotton industry should have suffered the grave disadvantage of an entirely one-sided representation concerning supply and demand. We need not deceive ourselves with the notion that by any act of legislation or any concert of action we can suspend the trade law of supply and demand, but we cannot ascertain economic value without knowing demand as well as supply. When you plant your cotton in the spring the Federal Government counts your acres and publishes to the consuming world the precise figures of cotton acreage in the United States which furnishes two-thirds of the production and thereby constitutes two-thirds of the productive influence upon the cotton market. The government reports the condition of the crop and continues month by month to report its condition until the crop is picked and then it begins in September to count and report the bales that are ginned and continues to count and report the bales every month until the ginning is concluded. So that from the time the crop is planted until the last bale is ginned the buying world knows by accurate official representation the acreage, the condition and output from month to month, and yet at no time does the producing world know the condition of the consumption of the product.

Those of us who have been laboring in this field have made repeated efforts by formal communication and by personal interview with congressional and administrative officials at Washington but have been utterly unable to obtain the desired results.

I am compelled to state this blunt fact, not in any captious spirit but for the purpose of demonstrating to you that relief in this important particular must come through the cotton states themselves.

We Democrats have talked so long about State sovereignty as a negative quality in resistance to the encroachments of the Federal Government and as a bulwark against the usurpation and the tyranny, actual or potential, which follow from the concentration of political power in the hands of the Federal government, that we have forgotten the positive qualities of State sovereignty. We have lost sight of the fact that the State possesses all powers except in so far as it has conferred certain powers upon the Federal Government and in so far as the sovereign people have reserved certain powers to themselves. Sovereignty in the political sense means state omnipotence within the limits of human endeavor. Except as to the limitations to which I have already referred, the sovereignty of the State is as complete and as boundless as the sovereignty of the monarch who assumes the divine right of kings. In an emergency of this kind, the State is warranted, and, indeed, under the very obligation of legislation, this body is commanded to conserve the public welfare by any device of legislation that does not palpably offend the Constitution.

Printing and publishing houses are the predominating class of manufacturing establishments in Texas.

Texas has 814 weekly papers and 95 daily papers. We rank second with other states.

We have 22 semi-weekly papers.

The first newspaper ever published in Texas was the Houston Telegraph. It was established by G. Borden in 1836. It is now defunct.

The first state-wide advertising bureau ever established in the world.

The largest cattle feeding plant in the world.

Longest reinforced concrete viaduct in the world.

The largest cotton seed oil mills in the world.

There are 3,000 steam and 802 gas engines in Texas factories. We also have 3,454 electric, 1 water motor and 31 water wheels supplying power.

Rev. Scroggins gave us an excellent lesson last Sunday. There was quite a number out to hear him, but let's all come. If we could hear something that good every Sunday, we would be better.

Miss Rattan took sick and returned to her home at Matador. Our school will be suspended for some time.

Dudley Arnett and wife were in Gaines county last Saturday and Sunday looking after their cattle interests there. Mrs. S. C. Arnett went home with them Sunday afternoon and on to Lubbock for a few days.

Sam Arnett is shipping cattle from Lubbock this week.

O. B. Williams made a trip to Lubbock the latter part of the week.

Tom Clayton, of near Gail, passed through Wednesday of last week with stuff he had sold to Alexander, in Cochran county, near the line of Mexico.

Mesdames. I. A. Boyd and Frank Porvell of Lubbock, are visiting in the Oscar Boyd home this week.

Marlin Ellington was over from Harris last Saturday.

### Willing to Work Cheap

James Ward, farmer, who resides near Warren, O., was presented the other day by a farm hand, who has worked for him a year, with a list of things the farm hand thought the boss should put up for him to retain his services for another year. Here they are: House rent free, garden for truck; eight loads of manure; six hundred eggs to set; half of young chickens raised; half of eggs produced; half of butter from eight good cows; 100 pounds of flour per month; twenty bushels of apples; forty eight gallons of cider; apples for apple butter; seven tons of coal; three of this fall's pigs or four spring pigs to be fed and fattened free; one third of the calves when old enough to veal and twenty dollars a month salary. That's all.—Ex.

### Debating Societies.

University of Texas, October, 25, Does your school have a literary or debating society? If it does not, maybe you want to organize one. If it does, perhaps you'd be interested in a bulletin, issued free by the University of Texas, giving rules of parliamentary procedure, principles of debating questions for debate, bibliographies and references. If you

want to organize a society of this kind in your school, you will want this bulletin, for it gives also a model constitution, and tells how to go about organizing such a society in the proper way. The Extension Department of the University of Texas will furnish this bulletin free upon request.

### Road Closed.

On and after Nov. 20, 1915, I will close to all travel the road through my pasture. All trespassers will be dealt with according to law after that date.

Dr. Treadaway reports the arrival of a girl at the home of Mr. and Mrs. Geo. Turner, of Yoakum county, last week.

If you will kindly notice Charley Hamilton the next time you see him, you will think he has added at least six inches and twenty pounds to his stature. Reason: A fine girl reached his home, Monday afternoon.

Do you remember us reporting M. D. Williams bringing us two large potatoes a few weeks ago. Well, we just finished eating them this week.

J. R. Lendley, of the Simpson place, moved his family in Monday, for the benefit of our school.

The little people enjoyed a party at the home of Mrs. Kinard, Friday night.

Cashier Bell, of the Brownfield State Bank, informed us this week that he deposited a check for \$107.00 for one of his customers, covering the price of a bale of cotton, and two bales of seed. It doesn't take many bales of cotton this year to make a flush bank account.

C Ullury, is down this week looking after his property interests in town. Mr. Ullury has the only house in town that is likely to be empty in some time, and he said he had three or four chances to rent it, but had rather sell, as it was a little inconvenient for him to look after his rents.

The editor had a look through the Green Boarding house Sunday. They have recently added six rooms, and besides the old boarders, they have the five teachers in the public school, making quite a family.

Mrs. W. B. Snodgrass came home last Saturday after over a months absence at Floydada; also in Kansas. Her health seems to be better than when she left here.

Mr. Hughes, of Abilene, Texas, was here Sunday night and Monday. Mr. Hughes was a member of the firm of Stokes-Hughes, who ran a general merchandise store here eleven years ago.

Will Snodgrass was in town Monday.

Will Winn, Bert Ingram, Grover Lewis and quite a lot of others left for the railroad Monday for freight.

Mr. and Mrs. Wright from north of town, were in Sunday afternoon to bring two of their children to the doctor. The little ones were right sick.

E. W. Maddux was right sick for several days last week and this, but is better now.

Mrs. Norman, of Supulpa, Okla., is visiting Miss Nora Wolfarth at this time.

Mrs. Mashburn visited out at the Wolfarth ranch Sunday and Mrs. Wolfarth and Miss Nora and Mrs. Norman brought her home Monday and visited here in town.

There was no service here at the Baptist church last Saturday and Sunday, but we are authorized to state there will be preaching there on the first Sunday in November; also on Saturday night before.

Richard Crews entered school here Monday morning. Previous to this he has been attending school at Brownfield.

While Messrs. E. W. and W. S. Maddux were in the field just east of town, last Saturday afternoon, they killed a Diamond Rattlesnake that was four feet long.

Mr. Key has installed a new cleaning machine at the gin here to remove all trash and sand from the cotton. Those who have examined the cotton ginned there say the work done is first class in every respect.

A. P. Moore had a warehouse built just back of his store last week, as the store and cellar was not large enough to hold all the goods he wanted hauled in at one time.

Jim Key and wife came in from an all summer trip to the north plains, last Sunday.

J. H. Olds, from Clarendon, Texas, is here now prospecting and visiting his sister, Mrs. William Wright.

Grandma Crews came in to Sunday School Sunday and is visiting in town this week.

Messrs. Simmons and Marcy of Lubbock were around this past week working up an interest in organizing a W. O. W. Lodge. They informed us they expect to organize here next Friday night.

Johnnie Fitzgerald is helping Brit Clare head maize just now.

Ed Heath, of Yoakum county, passed through here Sunday with a bunch of horses driving them east to sell.

Mrs. L. H. Hooker spent last Sunday with Mrs. S. Poynor.

Mesdames Brister and McMillan visited Mrs. B. Clare Sunday.

Mrs. S. Poynor was trading at Harris today, Monday.

The younger set enjoyed a party at B. C. Christenson's Saturday night.

### Harold at the Phone.

What he thought he'd say:  
Hello, dear! I love to hear your voice. It's my inspiration. Won't I see you soon? Tomorrow will be a hundred years. It's unbearable to be away from you.

I'll never tire of you. Your family will like me when they know me better.

My love for you is wonderful. I couldn't live without you.

There is no other girl in the world but you.

What he said:  
Hello, dear! I love to hear your voice—

Gladys: That'll be all right, but father says I can't talk to you until you turn up with a theater ticket every now and then to pay for the fur you're wearing off the sofa.

Harold: Oh! Er—er—I beg your pardon. I've the wrong line.

### NEAR DEATH BY SMOTHERING

But Husband, With Aid of Cardui, Effects Her Deliverance.

Draper, N. C.—Mrs. Helen Dalton, of this place, says: "I suffered for years, with pains in my left side, and would often almost smother to death.

Medicines patched me up for awhile but then I would get worse again. Finally, my husband decided he wanted me to try Cardui, the woman's tonic, so he bought me a bottle and I began using it. It did me more good than all the medicines I had taken.

I have induced many of my friends to try Cardui, and they all say they have been benefited by its use. There never has been, and never will be, a medicine to compare with Cardui. I believe it is a good medicine for all womanly troubles."

For over 50 years, Cardui has been relieving woman's sufferings and building weak women up to health and strength.

If you are a woman, give it a fair trial. It should surely help you, as it has a million others.

Get a bottle of Cardui to-day.
