The Play and Band Concert

The band concert on the streets Saturday afternoon, was well received and appreciated by all, and we heard many compliments passed on the boys about their progress. A large crowd had assembled in town to hear them, and to see the basket ball games, so that a representative crowd of citizens was present.

The play at night was one of the best ever put on the boards in Brownfield, and probably one of the largest crowds saw it, as the proceeds was around \$80.00.

The actors seemed to know their several parts well, and were at themselves, and did good acting through.

After the play, the crowd began to yell for the band again, and the boys graciously consented, and rendered several select pieces. Four of the Lubbock band boys were present and rendered able assistance.

The same troupe are scheduled to render the play at Plains, Saturday night, Feb. 19th, and will give a band concert on the streets over there, afternoon and night.

All whom we interviewed, said they sure got their money's worth, alright. They always do at Brownfield.

Mr. and Mrs. Renfro opened their hospitable doors to the young people Saturday night. Dancing was the entertainment of the evening.

Frank Estes who underwent an operation at a Sanitarium in Lubbock, is well and at home again.

Mrs. Newt Copeland was in Lubbock Tuesday to have dental work done.

Mr. and Mrs. Oscar Boyd was shopping in Lubbock Tuesday.

Sam Arnett and wife were among Lubbock visitors Saturday.

Miss Rowena Peeler was taken to the sanitarium at Lubbock, Tuesday night, where she underwent an operation for appendicitis.

Miss Elsie Beal is spending the week in Lubbock.

Lakeview basket ball teams played Meadow Saturday resulting in a victory for Meadow's small boy team. A defeat for the girls team of Meadow and a tie between the young men of Meadow and the larger boys of Lakeview. The games were well played and the proper athletic spirit shown.

We had a letter from O. L. Allen, of Plainview, this week, enclosing one buck to keep 'er coming. O. L. said he was pleased to hear of the prosperity in Terry, but added that Terry was bound to come.

Basket Ball Game.

The Tahoka and Brownfield basket ball teams met last Saturday on the Brownfield court and had their second game of this season. Tahoka has a well trained and skillful team that has beaten Lubbock, Post, Lamesa and in fact every other place on the south plains worthy of mention, except Brownfield. Here they met their "Waterloo" for the Brownfield lassies, having them outclassed in every department of the game, won over them by a safe margin of 9 to 7.

The only hitch came just before the game when the Brownfield manager requested the Tahoka girls to moderate their by-words. A compromise was finally reached by which the aforesaid girls were allowed to use the substitute "by shucks". The next game between these teams will be at Tahoka on Saturday Feb. 12th.

After the girls game, the Tahoka boys played the Gomez boys. The game was interesting from first to last. Both sides played good basket ball. The result was a score of 15 to 13 in favor of Tahoka.

Dr. Bell and R. L. Verner went over to Tahoka one day this on business, and the doctor informed us on his return that they counted 52 loaded freight wagons on their way over or coming this way. They did not count as they came back, but thought five or six more wagons were seen. Most all the wagons going east were loaded with corn, and those returning with lumber.

Wonder what Representative Dies of the Beaumont district will think when he sees all Texas endorsing the Wilson Preparedness policy?

Our advise to the Beaumont district, which is the 7th, that they elect real old Americans from this time on, as the one now

in their possession has a very foreign sounding name. Why not a Smith, Jones, Brown or Johnson?

The annual revenue paid to the saloons at Clovis over the bar was at least \$100,000. The most of this came from the pockets of laborers who drew small salaries. For the privilege of bleeding the community of this colossal sum every year the saloons paid a license of \$2,700. Clovis decided that an annual trade of \$100,000 for \$2,700 was unfair, and the \$100,000 will now be diverted into the channels of legitimate business. Every merchant, business man, and property owner of Clovis profited in the results of the election.—Slaton Slatonite.

We have oft heard the expression like this: "If I was old like him I would not sell out and go to a new country." Why not? Is it any harder to live in a new country than in an old one? Will it lengthen their days any to live where they are? We believe not. In fact we have seen some mighty old ones come to Terry and make good. In fact, the new location and environments seemed to make them young again, and the very favorable climate

made lots of them forget and get well of their infirmities. Where's the logic in that argument anyway? Come to Terry, big, little, old and young.

It seems that some of our Texas Congressmen, ours not included, however, are against preparedness, and they think they are supported by their constituents back at home, but they had best return and see or offer to resign like Dies of Beaumont. One day this week, the Dallas News asked that a petition be circulated in the various towns and communities, to see just how the people of Texas really stood on the question of preparedness. Grandpa Randal circulated the petition which read as follows: "Are you for or against Wilson's Preparedness policy" with a division line for the For and Against. He got 56 men to sign, and 53 were for preparedness and 3 against. We believe this will be a fair average in Texas. So Mr. Dies, you had as well resign for Texas is with Wilson, first, last and all the time on this vital question, that concerns the freedom and safety of the United States of America.

We had notice from the State Democratic Committee this week, that there would be no Presidential preference primary in May, as required under the new law, as they would have to go outside the law to comply with it, and that any citizen who wished could issue mandamus to force them to order the primary if they wanted, and the law could be tested out. They say further that Woodrow Wilson is the only candidate worth considering before the people of Texas to-day, and that his friends did not think it necessary to tax the people of the several counties the enormous sum of \$500,000 to hold a primary election. In place of the primary in May, they advise that the counties go ahead with the old convention system, as heretofore. The fact of the matter is, that the law was hurriedly gotten together as too many of our laws are, and is not workable. What we really need is to hold the presidential and other primaries at the same time, and hold them earlier than July if necessary.

CUTS PROFITS OF EMPLOYER

Practice of "Sabotage," as Employed by Dissatisfied Workmen, Said to Have Begun in England.

Sabotage, a method of "direct action" advocated by syndicalists and by the Industrial Workers of the World in this country, means, briefly, doing one's work with intentional incompetency. Although the word is of French origin, and its system owes its adoption as an organized method to the action of French laborers, sabotage is said to have been first practiced by English workmen, who called it "Ca' canny," a Scotch phrase meaning "Go slow." It has been described as "striking without leaving the pay roll," the workman who practices sabotage simply turns out bad work, continues to annoy his employer and decrease the value of his employer's output, without actually "going on strike." There are many different kinds of sabotage, from the "open-mouth strike," in which the employee takes pains to inform the public of any adulteration, weakness or dishonesty in his employer's methods, to the actual wrecking of the machinery, which may result in injury and loss of life; of course there are ways of being careless in every industry. Several suggestions have been made as to the origin of the word, which is obviously derived from the French "sabot," but it probably means to go clumsily "as one wearing wooden shoes." The accent is slightly on the first and last syllables, but is nearly even: The first "a" is pronounced as in "at," "o" as in "go," and the second "a" is broad; "g" has the soft French sound of "jh." It is interesting to note that the socialist party has gone on record as opposed to sabotage, along with other forms of violence.

YALE IS "Y'S"

She—The regatta was great. Yale's captain yelled "win," and they did.
He—A word to the "Y's" is sufficient.

"COON" ADOPTED KITTENS.

A large raccoon, mistaking an open door at the home of William Clayton of Murphy, N. C., for an invitation to walk in and make herself at home, went on an exploring expedition and found a basket of kittens which it adopted, after chasing the mother cat away.
When Clayton returned home he hunted for the kittens, and in feeling under the bed he felt a sharp, stinging sensation. Investigation revealed the raccoon, with the strange brood at its side. Clayton declares the animal can stay as long as it behaves and exerts no evil influence over the kittens.

TURNING TO OLD REMEDIES

Popular Demand Nowadays Is More and More for the Herbs Used by Our Grandmothers.

Diet, pure food, pure air and less worry constitute the favorite prescription of doctors in this progressive day, says Leslie's. And we are having a revival of the old-fashioned remedies of our mothers and grandmothers who depended upon nature's herbs for most of their medicines. Never before has there been such a

demand for pennyroyal, peppermint, wintergreen, gold thread and other simple remedies of the old days, and all of these enter into numerous popular medicaments. Now comes the discovery that by a careful refining of crude oil, a tasteless, colorless product can be evolved that will act as an internal lubricant for the human system. This was a Russian medical discovery and the oil received the name of "Russian oil." It was obtaining worldwide fame when the war broke out and interfered with our foreign trade. American ingenuity met the demands of the emergency and replaced Russian oil with a product from the laboratories of our own chemists. So with nature's herbs and the products of nature's distillation, Providence administers its healing remedies to suffering mankind and leaves less for the doctors to do.

BACK TO FLINT AND TINDER

Soldiers in the Trenches in Europe Use Ancient Methods for Producing Necessary Fire.

There are many ways in which old and almost forgotten methods of warfare have been adapted to modern use in the trenches, the hand grenade, the catapult, and even armor having been found efficacious in many instances.

Soldiers in the trenches, who have the very newest inventions in their equipment, are very glad to go back to the old flint and tinder boxes, because they can't use the matches, for they suffer so much from the damp in the trenches that they are soon rendered useless. To meet this difficulty the old flint and tinder boxes are being supplied to the soldiers and the sailors. Another good thing about the tinder fire is that it does not blow out in the wind as a match does, and does not show a flame to attract the enemy's attention.

A specially planned tinder box is being prepared for use in the British army and navy. It is small and compact, only half an inch deep, and contains a 7/16-inch fuse, or length of prepared tinder, a shaped section

of flint, and a hard steel. Inside the lid of the box are printed instructions for getting a light.

DEMAND FOR MARMALADE.

So great is the demand for marmalade in England that Spanish shippers are still sending bitter oranges, which have just arrived on the English market. It is, of course, abnormally late for the fruit, and the oranges are not good, either in quality or condition. Nevertheless, the market price stands at 13c to 14c (\$3.16 to \$3.41) a half chest, which contains about eighty pounds of sound fruit (4 to 4 1/2 cents per pound). This works out at fully three times the ordinary value, and there is keen competition amongst jam makers for late arrivals of bitter oranges.

DIFFERENCE OF OPINION.

"I can't help but admire young Podsley," said Mr. Gadspur.
"Why, he's the father of a fine boy, yet he never bores anybody with stories of the child's remarkable cleverness. Don't you think he's a sensible fellow?"
"No," snapped Mrs. Gadspur. "I think he's an unnatural brute!"

The P. & O. No. 111 Lister

This Lister is known by farmers wherever sold as P. & O. No. 11, but the improved type is called No. 111 on account of important improvements.

There are more of them in the hands of farmers than all other makes combined—over 2,000 sold by one dealer, in one county in West Texas. The special features on this Lister made it deserving of its immense sale. Its use is not confined to preparing for row crops; it is now almost universally used for plowing for small grain crops by listing and re-listing, leaving the ground in oval waves, which not only catches and holds the moisture but prevents the loose soils of the West from blowing away.

The adjusting link on front end of beam is an important exclusive feature on the No. 111, absolutely preventing the point from running below the desired depth. The wheels are provided with dust-proof boxes, an immense help in the sandy loam lands of the West.

The feeding device absolutely deposits one seed at a time of any of the row crops, besides can be equipped for both corn and cotton. You will have to see this wonderful improvement to appreciate it. The tilting hoppers allow change of plates without emptying them. Furnished with either disc or shovel covers.

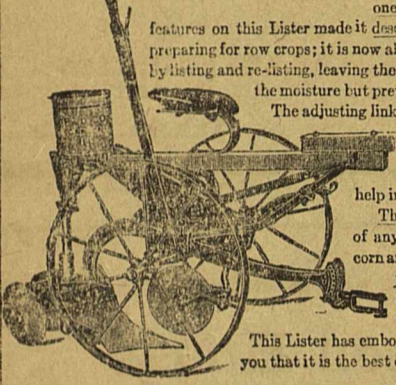

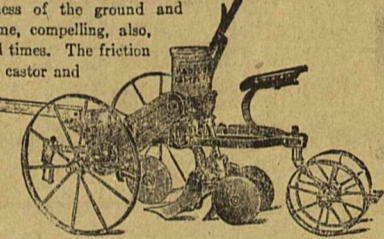

This Lister has embodied many other important features that will convince you that it is the best on the market.

The P. & O. No. 123 4-Wheel Lister

This Lister has all the advantage of the No. 111 and in addition has rear wheels. This is desired in many localities as it enables the operator to see the seed as planted. The rear wheels have cushion springs to hold them in line with the row and following the unevenness of the ground and conform to the ridge without straining the rear frame, compelling, also, the Lister to remain in proper working position at all times. The friction lock disengages automatically, allowing the wheels to castor and turn round in a very small space.

We manufacture the most complete line of Two Row Implements on the market. Ask your dealer and if you cannot be supplied through him, write us for circular and special introductory offer.

Dr. Clayton passed through this week with a lady from New Mexico, and Carl Forkel of Plains, on their way to Lubbock, where the two latter will undergo operations.

The Panhandle and Southwestern Stockmen's Convention meets at Albuquerque, N. M., March 7-8, and the Santa Fe is going to put on a special train out of Lubbock, leaving there at 8 a. m. on March, the round trip fare to be \$18.55. Read the Santa Fe ad, and write the agent at Lubbock for further information.

Alvin Key came in one day last week, and had us change his mail from Tokio to Brownfield, as he is now working for Will Mathis. He also gave us a dollar on subscription.

D. J. Brougheon is having a new barn built at his home, and is filling it with lots of good feed. About one year ago, we reported that a wind storm had blown his barn down because it was a shack, and had nothing in it, and we like to have had to apologize or stand a suit for slander. Now we can repay the wrong by stating he is building a good barn, and has the feed. Also, we might go on and state it will be handy for us to borrow feed from him.

Roy Cardwell went over to Tahoka yesterday after Mr. and Mrs. Smith and son, of Snyder, parents and brother of Mrs. R. Verner, who are here on a short visit to the latter.

PLAINS

By Carl Forkel

Ed Heath who has been away on a business trip to San Saba, Texas, has recently returned home.

Elder M. M. Young of Matador-Motley county was prospecting in Yoakum last week and after looking the country over he made purchase of a splendid section of land near Plains which he intends to improve and occupy as a home after a few months.

Many of the Herald readers will regret to learn of the death of L. R. Bursleson who was shot and killed near Ranger Lake New Mexico, a few days ago. Decayed was manager of the Thompson ranch in that community and reports are that he had been drinking heavily and had gone to the wagon of camper near the ranch where he became involved in a quarrel with the stranger who shot and killed him instantly. Mr. Bursleson resided in Yoakum county for several years and well known here.

David Heath, who has been quite sick for the past ten days, now improving.

Miss Lola Latham of Bronco is visiting at the home of Mrs. Bessie Jamerson this week.

County and District Clerk, F. L. Boyd, has recently returned from a trip to Ballinger, Texas,

where he had been called on business.

Wayne Carlisle has recently disposed of his ranch holdings in this county, having exchanged same for a tract of black land in Tarrant county. Wayne is no less familiar with the east than with the west, and he has already asserted his intention of remaining in the west and in Yoakum county.

H. Field of Bronco is reported to have lost a number of calves lately from blackleg.

The Collector's office was swamped on the last days of the month with non-resident tax remittances, and the employees of the office are still having to labor over them to catch up with the work.

Messrs. Smith and Goodson of Hale county, and a Mr. Chaney of McLennan county were here prospecting recently in an effort to exchange forty dollar land for five dollar land—but none of our citizens could be interested in such a deal.

Ed Smith and Tom Ivey have each purchased a section of fine land in the Bronco community this week.

Mr. and Mrs. E. C. Altman entertained some of their friends with a turkey dinner on the 31st, the dinner being given on the birthday of little Glenna Keller who makes her home with this estimable family during the school term.

MARRIED.

At Brownfield on last Friday Mr. Ben Whitlea and Miss Esther Simms, Rev. Fryar officiating. These two popular young people need no introduction to Terry county readers, as both have been principally raised here. Ben is the oldest son of Mr. and Mrs. Joe Whitlea, and a young man of honor, industry, and a real pleasant disposition and numbers his friends by his acquaintances. Miss Esther is daughter of Mr. and Mrs. E. E. Simms and her sunny smile and sweet disposition added to a perfect knowledge of house keeping and home-making make her a prize well worth living for. To the best of our knowledge it can be said of both these young people, they have no enemies. All who know them join in wishing them success and happiness in life.

Mrs. Tom Glover came in Saturday for a visit to the home-folks and stayed over until Sunday afternoon.

E. W. Maddux was real sick with La grippe all last week but is improving now.

Rev. Durham of Tahoka filled his regular appointment at the Baptist church here Saturday and Sunday.

R. W. Rambo has a new car.

Clint Rambo is at a sanitarium in Sweetwater taking treatment. We are informed that he is thought to be improving but is unable to walk yet.

There was more people in town last Saturday than we have ever seen here in a long while. So far as we could learn they were all Terry people but fully one half of them were new settlers.

R. W. Bassham of Brownfield, was over Sunday. He and Dr. Maddux were originally from the same country and both seemed to enjoy their meeting here although previously they were unacquainted.

Lumber passed through town Sunday to build a residence for Mr. Harland, previously a citizen of Knox county, but now a resident of Terry. We learn he has bought land about three miles from Gomez but did not learn in which direction the land lies from town.

Walter Gainer left Sunday morning for the Ivey ranch in Yoakum county with a huge load of freight.

Lester McPherson, Mr. Weeks, E. E. Simms, Richard Whitlea, Joe Whitlea, Bert Shepherd, Houston Shepherd, W. D. and Will Winn were all railroad bound Monday. Most of them carried grain.

Alvin Key moved to Brownfield last Friday.

Rev. Fryar will conduct a protracted meeting here at his regular appointment in March.

E. E. Simms has sold the one fourth section of land, that he bought recently from Joe Lane, to a gentleman from Haskell county, who will move on to it immediately. The land is a part of the Ed. Key home section, which lies one mile south of Gomez.

FOR YOUR NEXT LUMBER

There is not a better or higher grade stock on the Plains, yet the price is no higher than for inferior grades others handle. Besides lumber, we have the best in paints, oils, cement, lime, post, wire and wind-mills. Just give us a chance at your bill.

Joe Lane was in town Monday. Mr. and Mrs. Carl Hudson and Master Happy Hudson were in trading last Monday.

Messrs. Ted Poore and Easton Wolfarth and Misses Bessie Knox and Ada Riley attended the ball game in Brownfield last Saturday afternoon. Mesdames Ben Woffarth and Simon Holgate were also over there.

Lloyd Greathouse and Ben Brannon both moved into the two rooms vacated by Lester McPherson last week.

John Hays of South Terry was in town last Saturday. John spent all last summer traveling in New Mexico and other places hunting "the honey pond" and from the way he talked we think he has decided the biggest pond to be found is right down there on the Hays ranch in South Terry.

In conversation with Mr. Bassham this week, we learned that he was going to sell coal a little cheaper than the retail price with freight added from Tahoka, providing one would take as much as one ton. He is hav-

ing a 20x24 foot grain and coal building put up this week, and will be ready for business in a few weeks. Let Brownfield grow. He also said that his father would be in this week, and would occupy the little Jack Head house temporarily.

FAMILY AVOIDS SERIOUS SICKNESS

By Being Constantly Supplied With
Thedford's Black-Draught.

McDuff, Va.—"I suffered for several years," says Mrs. J. B. Whittaker, of this place, "with sick headache, and stomach trouble.

Ten years ago a friend told me to try Thedford's Black-Draught, which I did, and I found it to be the best family medicine for young and old.

I keep Black-Draught on hand all the time now, and when my children feel a little bad, they ask me for a dose, and it does them more good than any medicine they ever tried.

We never have a long spell of sickness in our family, since we commenced using Black-Draught."

Thedford's Black-Draught is purely vegetable, and has been found to regulate weak stomachs, aid digestion, relieve indigestion, colic, wind, nausea, headache, sick stomach, and similar symptoms.

It has been in constant use for more than 70 years, and has benefited more than a million people.

Your druggist sells and recommends Black-Draught. Price only 25c. Get a package to-day. N. C. 123
