LOST: A number 410 gauge shot gun in town last Saturday. Finder will please return to Dr. C. M. Bell, City.

The Herald was misinformed about the dance part of the entertainment at Mr and Mrs. W. A. Bell's last week. We are glad to make this correction, as we never like to misrepresent anything.

### Poultry Products.

The new settler often overlooks the value of a flock of good chickens and turkeys. There are usually chickens on every place, but not always of the profitable kind. Good poultry well cared for is a material aid in supplying a living for the family until the broad acres and larger live stock yield returns.

But poultry is always a part of a well conducted farm. Eggs form a very important commodity of commerce and are always saleable. Just now the trade is making a survey of the entire country to learn what the spring egg production has in store. The report from about forty Texas points indicate no material increase over last season either in egg or poultry shipments.

The total shipment of eggs from Texas last season was 1,000 cars. Nearly a third of this amount was produced in the spring, several hundred cars going into storage in March, April and May. Texas, though the largest state stands fourth as a producer of poultry products. The quality of poultry products has improved much of late years. The size of the egg is larger, the case now weighing around fifty four pounds as against forty-eight to fifty in former years.

The entire plains country is as well adapted to poultry raising as to the growing of cattle, sheep and hogs. In proportion poultry return larger profit for labor and feed than other live stock. The forage grains are especially good poultry feeds. Many cars of kaffir corn have been shipped to exclusive poultry growers in

California the past year.

This is a reminder that it is poultry time now. It costs no more to raise good chickens and turkeys and now is the time to start out with the best for this season.—A. M. Hove.

Mrs. Oscar Boyd and sons, and Mrs. Dudley Arnett motored down to Big Springs in Mrs. Boyd's car last week spending several days with Mr. and Mrs. Clayton and Mrs. Arnett's sister, Miss Rose Grady, who is teaching at Clayton.

Miss Grace Ellington was the charming hostess to a few invited guests on last Thursday evening complimenting Miss Lina Wester, of Lubbock. Dancing and "42" were the diversion of the occasion. The Slatonite had an article two weeks ago from the Tahoka News concerning the Wilson Lumber Company which stated that the "Corporation was capitalized at \$10,000 and was supposed to be paid in." The article was reprinted merely as a news item with no intention to misrepresent, but we have since learned from Wm. Green of Shiner, Texas, that it was in error. Mr. Green was one of the principal incorporators of the company and was at one

time a share holder therein, and he says that the capital stock of the Wilson Lumber Company was paid in full in cash to the amount of \$10,000. We are glad to give space to this correction of the article.—Slatonite.

The endorsement by popular referendum in St. Louis of the Negro segregation ordinance furnishes an example of tyranny and injustice on the part of a popular majority. As is frequently, if not always, the case with governmental injustice, it is due to an attempt to regulate a matter with which no government—whatever its form—has a moral right to meddle. When a government interferes with the natural rights of individuals it goes beyond its just powers—though its act may be legal. Governments exist to defend human rights, not to violate them. One may disregard a government's order to commit aggression on the rights of others, and be none the less a good and loyal citizen.—The Public (Chicago.)

All the harm we wish the above editor, is that he had to sit and smell of an American Negro the balance of his natural life.

Well, the editor's new home has been completed and he and family moved in Monday, and to say we are pleased, is but putting it mildly. We have not got the largest house in Brownfield, but we believe we can truthfully say without successful contradiction that we have got the best built and prettiest home. R. H. McCormack, formerly of Kansas

City, drew the plan, and had full charge of the work, and it is to his untiring work and willingness to please, that we have such a comfortable home, and we unqualifiedly recommend him as a mechanic and contractor to those who want the very best. This recommendation was not solicited, but comes from a heart full of gratitude from us, in justice to the ability of a fellow citizen.

fresh groceries. Also note the change in the Tailor Shop ad of Jones and Brown, They want your business, or they would not ask for it.

Henry Witt and wife and Clarence McCormack finished the interior of the editor's home this week, in dark oak finish, and believe it one of the prettiest pieces of work we have ever seen, not because its our house, but just because the work is first class in every respect. Mr. Witt followed the trade of painter and decorator in the north for several years, but this is the first chance he has had full sway to show what he can do, and those who want first class finishing in every respect, no matter what color they want, do not have to send to a city for a finisher; we have the man in town. The work will bear the closest inspection, and those contemplating work of this kind are at liberty to call at our home and see for themselves.

**RECIPE FOR GRAY HAIR.**

To half pint of water add 1 oz. Bay Rum, a small box of Barbo Compound, and ¼ oz. of glycerine. Apply to the hair twice a week until it becomes the desired shade. Any druggist can put this up or you can mix it at home at very little cost. Full directions for making and use come in each box of Barbo Compound. It will gradually darken streaked, faded gray hair, and removes dandruff. It is excellent for falling hair and will make harsh hair soft and glossy. It will not color the scalp, is not sticky or greasy, and does not rub off.

**City of Parks.**

There are 182 parks in greater New York. But New Yorkers don't know that. The chances are if nine out of ten of them were asked to state at once which is the largest park belonging to New York, they would answer promptly, "Van Cortlandt." Some would even answer "Central park." But Pelham Bay park is 624 acres greater in extent than Van Cortlandt, and 413 greater than Central park. Pelham Bay park contains trees that are a thousand years old, and still vigorous. The mother of all New York's parks is Bowling Green, which is all of half an acre in extent, and the father of them is the Battery, which is 21 acres. The most picturesque and classic of the parks is Morningside, and the most populous is Tompkins Square.

**SELDOM LIKE THIS IN LIFE**

To Most Married Men the Story Will Seem to Have an Impossible Ending.

House cleaning, like the measles, is disagreeable, but it is a necessary evil which it seems every domestic organization must go through. And the Comely household was no exception. In the course of spring renovation, Mrs Comely's attention was drawn to the proverbial old clothes man.

"Got any old suits of your husband's to sell?" inquired the O. C. M.

Oh, the voice of the tempter! "Sure," replied Mrs. Comely, "he's got a closet full."

Whereupon the lady went upstairs and dug up three suits of clothes, two pair of shoes and two old hats, for all of which O. C. M. segregated himself from six bits.

That night, of course, the housewife told her husband what she had done, for Mrs. Comely kept no secrets from her husband—that is, no secrets that she thought he ought to know—and she took him up to the clothes closet to show him what she had disposed of.

"Sure," remarked Mr. Comely. "I'm mighty glad you got rid of 'em. You didn't sell a thing that I could use again."—Exchange.

**Knew Value of His Work.**

Incomparably the best epitaph for Sir James Murray, greatest of dictionary makers, might be taken from one of the conversations between Johnson and Boswell. In old age Boswell said to Johnson, apropos of the dictionary: "You did not know what you were undertaking." "Yes, sir," was the answer, "I knew very well what I was undertaking—and very well how to do it—and have done it very well."

**The P. & O. No. 111 Lister**

This Lister is known by farmers wherever sold as P. & O. No. 11, but the improved type is called No. 111 on account of important improvements.

There are more of them in the hands of farmers than all other makes combined,—over 2,000 sold by one dealer, in one county in West Texas. The special features on this Lister made it deserving of its immense sale. Its use is not confined to preparing for row crops; it is now almost universally used for plowing for small grain crops by listing and re-listing, leaving the ground in oval waves, which not only catches and holds the moisture but prevents the loose soils of the West from blowing away.

The adjusting link on front end of beam is an important exclusive feature on the No. 111, absolutely preventing the point from running below the desired depth. The wheels are provided with dust-proof levers, an immense help in the sandy loam lands of the West.

The feeding device absolutely deposits one seed at a time of any of the row crops, besides can be equipped for both corn and cotton. You will have to see this wonderful improvement to appreciate it. The tilting hoppers allow change of plates without emptying them. Furnished with either disc or shovel covers.

This Lister has embodied many other important features that will convince you that it is the best on the market.

**The P. & O. No. 123 4-Wheel Lister**

This Lister has all the advantage of the No. 111 and in addition has rear wheels. This is desired in many localities as it enables the operator to see the seed as planted. The rear wheels have cushion springs to hold them in line with the row and following the unevenness of the ground and conform to the ridge without straining the rear frame, compelling, also, the Lister to remain in proper working position at all times. The friction lock disengages automatically, allowing the wheels to castor and turn round in a very small space.

Advice of Mother no Doubt Prevents Daughter's Untimely End.

Ready, Ky.—"I was not able to do anything for nearly six months," writes Mrs. Laura Bratcher, of this place, "and was down in bed for three months."

I cannot tell you how I suffered with my head, and with nervousness and womanly troubles.

Our family doctor told my husband he could not do me any good, and he had to give it up. We tried another doctor, but he did not help me.

At last, my mother advised me to take Cardui, the woman's tonic. I thought it was no use for I was nearly dead and nothing seemed to do me any good. But I took eleven bottles, and now I am able to do all of my work and my own washing.

I think Cardui is the best medicine in the world. My weight has increased, and I look the picture of health."

If you suffer from any of the ailments peculiar to women, get a bottle of Cardui today. Delay is dangerous. We know it will help you, for it has helped so many thousands of other weak women in the past 50 years.
