The Mid-day Ride of L. P. Lomis

The Slatonite editor had what was to him a thrilling experience Tuesday noon. Borrowing a Ford we took a friend and went to the depot to transact a little business with a passenger on the Lamesa Limited. Now we never had an introduction to a Ford, but we have that curiosity learned in childhood and carried with us into mature years that prompts us to try anything once. We goosed the Ford and reached the depot without being taken in for violating the Jay ordinance. The Lamesa Limited left the station and we started to try to come back to town, but at that moment a very estimable appearing lady approached us in great distress and asked us if we were there in a car. We modestly denied the imputation but acknowledged to the Ford. She then asked if us we could drive a car. We said we could, but as we yet had serious doubts as to a Ford. She then said that she had missed the train which was then manuvering about the Wye, and would we please take her in the Ford and catch the train at the first switch.

We said that if her misfortune was so great that she would trust to luck and place her confidence in a lucky star we would strive our mightiest to catch that train at the first switch. Taking our 200 pound friend along for ballast to hold the car in the road we invited the lady to a seat and set forth on a wild and exciting race with the train. We jumped ditches and cut corners and strained every nerve and muscle to hold the bucking Ford to the road, and hollered back every few seconds to learn if our fair passenger was still aboard. She replied every time that she was

still with the car and had a firm grip on the seat; that she was game if we would just overtake that train.

We steamed into the switch ten seconds ahead of the train and judging from the rattle in various portions of the jitney, that we actually attained a speed of 27 1/2 miles an hour in the race on the smooth stretches of road. We are some service car man driving a Ford.—Slatonite

Married

Mr. Leslie Green and Miss Eula Alexander, of the Harris community, drove in Wednesday afternoon late and went immediately to the Baptist parsonage, where Rev. J. B. Vinson united them in holy wedlock.

Leslie is the son of Mr. and Mrs. J. C. Green, of this city, was practically reared and educated here, but since graduating, has been employed by the Mallet ranch. Here by dint of close application to business, has already worked himself up to one of the head positions on the Mallet, and by economy with his funds, has accumulated quite a nice little herd of his own.

Mrs. Green is the charming daughter of Mr. and Mrs. W. H. Alexander, of Harris, and we have it from all sources that she is highly accomplished, and a jewel that Leslie may well be proud to possess.

Herald extends hearty congratulations.

Enoch Hunter got in from Coleman county, where he had been to sell his land. In the deal he took a seven passenger, six-cylinder Mitchel car, and now busy learning to throw it in high.

Fannie M. Randal

Mrs. Randal has been an acute but patient sufferer from cancer of the stomach for more than a year, during which time she has been carried to some of the most noted physicians and surgeons in the State, but to no avail, and about dark Tuesday night her gentle soul was wafted back to the Maker.

A large and sorrowing concourse of people followed the remains to the Brownfield cemetery, Wednesday afternoon, and heard a beautiful discourse by her pastor, Rev. J. B. Vinson, of the Baptist church. The floral offering were profuse.

Fannie M. Stringer was born in Kansas City, Kan., Oct. 11, 1868, and moved with her parents to Fort Worth, Texas in 1875, and latter moved to Palo Pinto county. Here she married Horace E. Randal on Dec. 25, 1888, who survives her.

Mrs. Randal was the mother of nine children, six of whom are living, Mrs. Ada Kershner, of Roswell, N. M.; Miss Clara, Gibson, Ernest, Jessie and Bessie live at their home in Brownfield.

Mrs. Randal has four brothers and two sisters: Mr. Alex Stringer and Mrs. Dell Farrar, of Pickwick, Texas, Mr. Frank Stringer of Bunker, Texas, Mr. Dick Stringer of Baird, Texas, and Mr. Harry Stringer, of Ft. Worth, Texas, and Mrs. Annie Melton of Roby, Texas.

Mrs. Randal joined the Baptist church in her early young ladyhood, and has lived a consistent Christian life. She was always ready to lend a helping hand, and encourage by words of sympathy and love.

Herald joins the entire community in sincere sympathy to the bereaved family in this their sorest trial.

Organize a Chamber of Commerce

For a long time Brownfield has stood sorely in need of a Commercial Organization, not only to answer questions of inquiring strangers within and without our gates, but for our mutual good, protection and growth, but it took a rank stranger to most of us to put seam in the boiler, pull the throttle, and watch the drive wheels move.

As mentioned elsewhere in the paper, we had for our guest last Friday night, Hon. Neill Douglas of Roaring Springs, and as he has had considerable experience in organizing such clubs, having done considerable work with Homer D. Wade, of Stamford, the most noted Commercial Secretary in West Texas, it was no rated on the streets late that afternoon, that he would lecture on this subject at the courthouse at night.

As the meeting was not given any great amount of publicity, there was not as many out as we desired, yet a representative set of our business men were on hand, and were rewarded with a splendid speech on this important subject. Mr. Douglass is not a bloisterous speaker, but is thoroughly familiar with his subject and clinches his arguments with sledgehammer facts. He was followed by Asberry McCants, of Dallas, who represents the Lincoln Paint Co. in western Texas, who made a good talk, telling us how the drummers were acting as missionaries to help build up the glorious West. He ended his talk by wagering a suit of clothes that Brownfield would have 5000 inhabitants in three years, basing his wager on the productiveness of the surrounding country, saying that

May Organize Own Express Line

The Santa Fe is preparing to take over its own express business, according to reports in the Santa Fe circles here.

The Wells Fargo now holds the express contract on the Santa Fe. The "Santa Fe Express" will be the new name of the company owned system.

If this deal is consummated, this will be the first road in the United States to transact its own express business. It will add more than \$3,000,000 annually to the Santa Fe system, however.—Star Telegram.

SAVES DAUGHTER

Advice of Mother no Doubt Prevents Daughter's Untimely End.

Ready, Ky.—"I was not able to do anything for nearly six months," writes Mrs. Laura Bratcher, of this place, "and was down in bed for three months."

I cannot tell you how I suffered with my head, and with nervousness and womanly troubles.

Our family doctor told my husband he could not do me any good, and he had to give it up. We tried another doctor, but he did not help me.

At last, my mother advised me to take Cardui, the woman's tonic. I thought it was no use for I was nearly dead and nothing seemed to do me any good. But I took eleven bottles, and now I am able to do all of my work and my own washing.

I think Cardui is the best medicine in the world. My weight has increased, and I look the picture of health."

If you suffer from any of the ailments peculiar to women, get a bottle of Cardui today. Delay is dangerous. We know it will help you, for it has helped so many thousands of other weak women in the past 50 years.

The Course of Empire.

The first spike in the construction of the Midland & North-western railway was driven at Midland the other day. The Crosbyton & South Plains railway is being constructed from Lubbock toward Seminole, and now it is reliably reported that the Lubbock & Great Northern railway, recently incorporated, will build through Childress and Floydada to Hollis, Okla.

This is but new evidence of the great development which is going forward in the territory "west of ninety-eight." At a time when not a foot of new railroad is being built in any other section of Texas, West Texas and the Panhandle have three new railroads in sight, with two of them actually in course of construction. There is no boom on. There is no artificially manufactured prosperity. It is solid development, and best of all, it is just beginning.

More and more we are coming to realize that the great empire to the west of us is destined to see an era of growth during the next ten years unequalled in the history of the state. Its people are of a sturdy race of builders and they are rearing out there on the plains a civilization which will command the admiration of the entire country. Time was when that section was regarded only as grazing land, and the general belief was that it would remain little more than an open range. But already prosperous and progressive towns have risen as if by magic. The magic, how-

ever, is not mysterious when one examines it closely. It is the magic of brain and brawn, of far-seeing vision and courageous enterprise. The people of that section are of a true race of pioneers. They are winning an empire from what was once a wilderness. The time will come when all that territory will be netted with railroads and spotted with cities. The movement already is under way and there will be no pausing in its progress. Steadily and surely it moves forward and its destination is a glorious tomorrow of permanent prosperity and the blessings of a splendid civilization.—Star-Telegram.

Farmers Institute Organized

Messrs. Marks and Winn from the north plains were here Tuesday afternoon, and succeed in organizing a nucleus of what we hope to see a large and flourishing Farmers Institute, some day.

Both gentlemen are forceful speakers, and after hearing them no one can fail to understand the purpose and intent of this organization that has the Agricultural Department of the great State of Texas behind it.

Rev. J. C. Lewis was elected president and W. G. Hardin, Secretary, and a program for discussion was selected for the next meeting.

As most people know, the purpose of the institute is to get the farmers and business men together to discuss the best meth-

FOUR BIG EVENTS IN ONE

That the International Farm Congress (the Dry-Farming Congress) will be staged amid lively surroundings and in good company this year is realized when it is known that the lively city of El Paso, Texas, the center of United States army life and the pivotal point in international relations between the United States and Mexico, has been selected as the place of meeting.

Just what the conditions along the border will be in October cannot be exactly foretold at this time, but it is certain that there will be many thousands of Uncle Sam's soldiers at El Paso, and that it will be perfectly safe for everybody to go there and view the stirring scenes.

The International Soil-Products Exposition, which is held under the management of the Farm Congress, will open at El Paso on October 14, and continue ten days. This Exposition, together with the Congress, was held at Denver last year, and at Wichita in 1914. It is recognized as the greatest show of its class in the world.

The Elephant Butte Dam, the largest irrigation dam in the world, will be dedicated just prior to the opening

of the Exposition, by President Woodrow Wilson.

The International Irrigation Congress will hold a three days' session at El Paso, beginning October 16 with an opening session at the Elephant Butte dam on October 14.

The International Dry-Farming Congress will meet October 19, 20 and 21.

Thus, within the period of October 14 to 24, three of the big events of the year will be staged at El Paso, with the fourth, the Elephant Butte dedication, at the same time, and close enough for everybody to attend.

PLAN FOR HEALTH INSURANCE

Important States Are Taking Up the Matter Since Its Importance Has Been Recognized.

Compulsory insurance of the worker against the chances of sickness is the reform now in the order of the day. The institution is already established in Germany, Austria, Hungary, Luxemburg, Norway, Holland, Great Britain, Russia, Roumania, Serbia and Greece. When a social reform has won success in Russia and the Balkan states one may suppose that it is about to receive a hearing in the United States of America. And now three of our chief industrial states, New York, Massachusetts and New Jersey, are discussing sickness insurance bills under the more optimistic name, "health insurance."

These bills spring largely from a common source and are almost identical in terms, says the New Republic. If they pass, the manual worker or any other employee with a salary under \$1,200 a year will be assured medical and surgical attendance and nursing through a period of sickness extending to six months; medical and surgical supplies up to a cost of \$50 and money benefits equivalent to two-thirds of his wages for a period not longer than six months. In return for his advantages under the law he will be forced to contribute, in the ratio of his earnings, toward two-fifths of the aggregate cost of insurance. His employer will contribute another two-fifths and the remaining fifth will come out of the state budget.

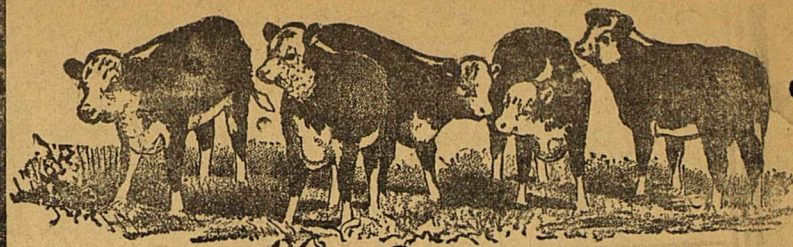

FISH CULTURE SUCCEEDS.

Systematic attempt to establish the quinnat salmon in New Zealand waters was first made in 1899. It was decided to concentrate efforts on one river on the east coast of the South island—the Waitaki river. For several years after that large importations of ova were made, and in 1907 it was found that the fish were returning from the sea to spawn. Since then their numbers have been found to be increasing yearly, and the inspector now states that the number of running fish this year was much greater than since the commencement of the experiment. It was also found that there was a large run of fish up the Rangitata river, about seventy miles north of the Waitaki, and some had found their way even farther north. The largest quinnat salmon yet caught in New Zealand weighed over thirty-two pounds.

MARRIED

Mr. Arthur Haley and Miss Eula Fabree were married at or near Matador, Texas, last Thurs. and came to Mr. Haley's home, eight miles south of Gomez, on Friday. Mr. Haley came here last spring and has made a host of friends during his short stay. He and Ross Renfro are partners in the stock business on the ranch formerly owned by Joe Lane. His beautiful bride is an entire stranger here, and we can only say, if she is as perfect in disposition as she is in form and features, he sure has won a jewel. All join in wishing them a long and happy married life.

Saturday afternoon Ross Renfro's auto turned over, smashing the windshield, injuring the engine and otherwise wrecking the car. Mr. Renfro was right badly bruised and received a severe cut on the back of his hand, which severed some of the leaders. The accident occurred this side of Lubbock, and he was taken back there for treatment. Mrs. Renfro is with him and he was reported doing well, Mon.

W. B., R. A., George and Hugh Snodgrass passed through Sunday evening with a large bunch of horses, that they had sold and were going to deliver.
