#### Locals from Plains

From the Developer.

Unless we put the road between Plains and the eastern line of county in better shape and make some efforts to keep it up, and unless Terry County gets busy on her roads there is danger of us loosing the highway altogether.

Since the school question is satisfactorily settled for the present, there is no question of anything like so great importance now up to our citizens as the question of a decent road out to the railroad. How shall we do this? For do it we must at as early a day as possible.

The Plains Methodist church was dedicated last Sunday with a most impressive service conducted by Presiding Elder Lyon, assisted by Pastor Fryar. The church is one of the nicest little structures on the South Plains, having been recently completed and when dedicated was entirely paid out.

Mr. and Mrs. Burney, who live six miles east of town on the Brownfield road, are both very ill of pneumonia and other complications. Mr. Burney's condition is considered extremely critical.

E. R. Smith and Lee Brothers received a large herd of cattle Monday from Harrison Brothers. They will run these cattle on the Tandy place, which they recently bought.

F. L. Boyd returned from Hereford last Wednesday where he bought 25 head of high grade registered Herefords from Mr. Ray Barber, one of the most prominent breeders of that section. \$175 each was the price paid for the pedigreed cows.

A number of young people gathered at the home of F. L.

Boyd Sunday night and engaged in singing. Much good music and a pleasant time generally was the result.

Mr. Cadenhead is adding three rooms and a bath to his house. Other minor improvements and a great deal of painting are in progress and all we ask is—Just watch Plains grow.

Mr. Auther Davis had the misfortune to have his finger crushed while working on a windmill last Wednesday.

Mr. Fitzgerald has had the old house at the T2 headquarters moved two or three miles west to a section near the Bledsoe school house and refinished and will have a family in it soon. Many of the old settlers will regret to learn of the breaking up of the old ranch place as it was in its balmy days a ranch of the good old style where weary travelers always found shelter and a hearty meal "no questions asked." Few settlers came in except by the old ranch in the early days as it was one of the oldest if not the oldest established place in the county and all have a kindly feeling for the old place.

We are glad to state that some of the ladies took the sanitary work in hand and raised a fund to defray the expences incident to improving the conditions at the school house, and put a faucet in the pipe so that the children may have fresh water at all times.

JOHN and Clarence are still in the Barber and Tailor business.

Bro. Gary O. Wood, of Collinsworth county, will preach at the Court House Sunday and Sunday night. This is said to be a splendid preacher, and may work with the Church of Christ in Brownfield the coming year, so come out and give him a good hearing.

Winter is here today. The ground is crowned in ice and is snowing. This is the coldest spell we have had this fall.

W. I. Lovelace just got back from Tahoka this eve.

H. L. Ware has sold the store to Mr. Ogletree, so they have moved on Mr. Thompson's place. The carpenters will begin building on the new store just as soon as they get W. I. Lovelace's house done.

Mr. Whitford and Bob Lovelace started to Tahoka Thursday with a load of turkeys. They got home Sunday before the weather got so bad.

There will be preaching at the J Cross school house next Sunday. If the weather is fit let everybody come.

Jack Benton and Hilliard Ware returned home last week from the San Angelo Fair.

Mr. Mangums folks have moved out on their new place. We welcome them in our neighborhood.

Mr. Henry Witt went home this morning as it was so bad he couldn't do anything about carpentering.

The sun is shining this morning but the wind is cold.

All those knowing themselves to be indebted to me, will come in at once and make settlement, as I have some obligations to meet. M. C. Bell, M. D.

Lumber is being put on the ground for a modern home for Will Adams. We have not seen the plans of this home, but we have been informed that it will be a beauty, as well as a comfortable home when complete.

#### Eggs are High

One day this week Mr. Flanekin of the Collins store caught a Mexican in the act of purloining eggs from the the store. When he confronted the hombre he denied having the eggs, and upon being pressed advanced upon Mr. Flanekin with a knife, where upon the latter used an ax handle to good advantage on old Montezuma's head. Sheriff Jim Russell arrived on the scene, and the Mexican still showed fight, when Cap'n Jim took a flyer at him with the barrel of a 45. When he was searched the Mexican had a goodly quantity of eggs stored about his person. He was caaried to Lubbock to jail. —Lamesa Leader.

Cedar Lake in the northeast corner of Gaines County is a magnificent sheet of crystal blue, covering about seven sections of land at flood tide, and the water is tickling the outer edge at this time. It is the finest body of fresh water we have ever beheld and were it closer to town it would be a magnificent site for a country club. There seemed to be millions of ducks on the lake. Quail and other game were seen in the vicinity. —Slatonite

As we go to press today we learn that Russell's D. G. Store, which is the largest dry goods concern at Altus, Oklahoma, closed a deal with Dr. A. C. Daniel this morning for the use of brick building lately occupied by M. A. Smith and will open up a branch house of their business here at an early date. —Odell Reporter.

The expression department pulled off a play at the school house Friday night, that was well attended, and it is reported that it was a good play.

#### Thankful

Brownfield, Texas.  
Nov. 16th, 1916.

To The People of Terry County:  
I have this week retired from the Office of County Judge, which you have so kindly honored me with, and delivered same to my successor whom you selected. I thank you for your trust and confidence, and for the distinction it has brought me.

While I may have erred, in many instances, I assure you I have always acted with clean motives, and unprejudiced mind, and tried to exercise reason and logic, as hedged in by the laws of our state.

I have given ten years of the best part of my life in your service, but my only wish is that you could fully realize my feelings toward you. I expect to remain a citizen at all times, to do the real citizens duty, and gladly bear a liberal part of the burdens toward the upbuilding of progressive Terry.

Permit me to request your assistance and good will, to the new officers that they may render the county better service than it has been used to.

Again thanking you, I am  
Very Respectfully,  
Geo. W. Neill.

Dr. M. C. Bell informed us this week that he had let the contract for a modern home to be situated on the southeast corner of the block that R. H. Banowsky built on. This spells that the doctor is permanently located in the coming city of the South Plains. The Covey boys have a contract to build it.

We understand that Grandpa Shrock is not doing well this week. A physician was called in Wed. morning. We hope to hear of his improvement in the near future.

We do not consider the reelection of Woodrow Wilson so much a party victory as a victory of Americanism. The house of representatives was won by the Republicans by a narrow majority, and the same party made some enroads in the overwhelming Democratic Senate, but in the presidential race, the genuine American, north, south, east and west, had an issue before them that meant Genuine Americanism, or Hyphen-Americanism, and they chose the former by a popular vote never before equalled. In the campaign of the Republicans, Hughes and his cohort, Teddy, could remind one of nothing less than the fabled two headed man, each head having a different plea to a different audience. While one mouth was blasting away at the Allies blockade, and Wilson in particular, the other mouth was roaring overtime at the Hiberno-Kaiserites, so that they kept the average voter guessing. On the other hand, the unity of the Wilson administration was poured from the platform alike, from the ward speaker to the National leaders, and in such plain paragraphs, that no voter need misunderstand them, and as the average voter is not good at guessing contests, he wisely chose the sure thing.

## FAMILY AVOIDS SERIOUS SICKNESS

By Being Constantly Supplied With Theford's Black-Draught.

McDuff, Va.—"I suffered for several years," says Mrs. J. B. Whitaker, of this place, "with sick headache, and stomach trouble."

Ten years ago a friend told me to try Theford's Black-Draught, which I did, and I found it to be the best family medicine for young and old.

I keep Black-Draught on hand all the time now, and when my children feel a little bad, they ask me for a dose, and it does them more good than any medicine they ever tried.

We never have a long spell of sickness in our family, since we commenced using Black-Draught."

Theford's Black-Draught is purely vegetable, and has been found to regulate weak stomachs, aid digestion, relieve indigestion, colic, wind, nausea, headache, sick stomach, and similar symptoms.

It has been in constant use for more than 70 years, and has benefited more than a million people.

Your druggist sells and recommends Black-Draught. Price only 25c. Get a package to-day.

Now that the election time is over, and everything is settled to our satisfaction for the next four years, let us spend our surplus energy to building up Brownfield and Terry county. Let's all unite in making the old town and county look good to all new comers, so they will settle, and help us put a man on every 80 or 160 acres.

Quit talking about your lazy neighbor, his stingy wife and their mean kids and get up and show what there is in YOU. The world is expected to find out about them alone, and we are expected to show what we can do. Don't be a grouch and a consumer both; produce something and the world will be proud of you, and keep your memory green after death, whereas, if

you spend your surplus energy in talking about neighbors, the world soon forgets you, after the man with the spade pats down the last clod over your face

New comers from the sandy lands of Oklahoma and the Pan handle of Texas, say there is no reason why wheat could not be raised here successfully. They say lots of the land up there is not underlaid with clay like this, yet the same land produced the biggest yealds of wheat this year. When the railroad comes in these farmers are going to give wheat a trial here, and we have full confidence in its success. Ten, yes even eight years ago, people said cotton could not be raised here, but one year with another our farmers are defeating the black land farmers

A \$6.00 Daily and Sunday Newspaper for \$3.65.

A PENNY A DAY

IMPORTANT NOTICE!

With the exception of black ink, all raw materials used in manufacture of a newspaper have advanced in cost during the past twelve months approximately 100 per cent. This means that it will cost your publisher practically double to supply you with a newspaper the coming year.

Under stress of these unusual conditions, The Star-Telegram has been forced to increase its "Bargain Days" rate from \$3.25 to \$3.65. An increase of 40c per year (3 1-3c per month) or 12 per cent. Based on the conservative estimate increase in production cost of 100 per cent, under this price the division of added expense will be as follows:

Increased expense to The Star-Telegram ..... 88%  
Increased expense to The Reader ..... 12%

This situation means that after "Bargain Days" the regular rate of \$6.00 per year must be strictly enforced. We have battered the price to the very bottom in order to protect our Annual Subscription Cheap Rate Period, which has been in effect since the establishment of The Star-Telegram.

Do not take chances, save the \$2.35, by ordering before Bargain Days expire. Take advantage of the \$3.65 rate.

The high standard of The Star-Telegram will be maintained as long as there is a Star-Telegram regardless of any war burdens.

MYRTLE WARBLER

(Dendroica coronata)

Length, five and one-half inches. The similarly colored Audubon's warbler has a yellow throat instead of a white one.

Range: Breeds throughout most of the forested area of Canada and south to Minnesota, Michigan, New York, and Massachusetts; winters in the southern two-thirds of the United States and south to Panama.

Habits and economic status: This member of our beautiful wood warbler family, a family peculiar to America, has the characteristic voice, coloration, and habits of its kind. Trim of form and graceful of motion, when seeking food it combines the methods of the wrens, creepers, and flycatchers. It breeds only in the northern parts of the eastern United States, but in migration it occurs in every patch of woodland and is so numerous that it is familiar to every observer. Its place is taken in the West by Audubon's warbler. More than three-fourths of the food of the myrtle warbler consists of insects, practically all of them harmful. It is made up of small beetles, including some weevils, with many ants and wasps. This bird is so small and nimble that it successfully attacks insects too minute to be prey for larger birds. Scales and plant lice form a very considerable part of its diet. Flies are the largest item of food; in fact, only a few flycatchers and swallows eat as many flies as this bird. The vegetable food (22 per cent) is made up of fruit and the seeds of poison oak or ivy, also the seeds of pine and of the bayberry.

Our merchants are still enjoying a good trade, in fact we believe it even better than it was two weeks ago. They have good clean, new stocks, of the best quality and are charging no more than they are charging for shoddy stuff elsewhere, then why in the name of reason don't you give your business to the home merchant, and why in the name of reason don't the home merchant give his work to the home printer.

### Preserve Your Youthful Eyesight

as you journey  
thru the years.

KRYPTOK Glasses restore the eyesight of your youth. They enable you to glance up from your book or paper and see distant objects just as clearly and distinctly as the type on the printed page.

**KRYPTOK**  
GLASSES  
THE ONLY INVISIBLE BIFOCAL

The smooth, clear surface of KRYPTOK Glasses is entirely free from this disfiguring age-revealing lines, seams or shoulders of old fashioned bifocals. You enjoy all the convenience of near and far vision in one pair of glasses without anyone knowing that you are wearing bi-focals.

Put an end to the nuisance of continually removing and replacing your reading glasses — or fussing with two pairs. The lower part of KRYPTOK gives the necessary correction for near vision while the upper part is adapted for far vision.

You can see both close and distant objects with perfect clearness. Yet KRYPTOK (pronounced Crip tock) is a solid lens which cannot possibly be distinguished from single-vision glasses.
