## DAILY DELIVERY

By special arrangement we are now prepared to make your deliveries daily. We have inaugurated this in our own policy for better service to our customers? We attribute our success in business to the good will of the citizens of Terry county, which we try at all times to merit by fair dealing and courteous treatment. Our stock is now complete, but our prices NOT CHEAP, but as low as are consistent with present abnormal conditions that exist in the market. We thank you for all favors extended to us.

#### Food Situation Serious

To the Press and People of Texas:

I have just returned from the conference of the United States Department of Agriculture officials, agricultural college representatives, and agricultural commissioners of the principal food and feed growing states, held at St Louis this week, and my information concerning the food and feed supply for 1917 was more than confirmed.

Present prices are not due to speculation; they represent a real world shortage of all the things eaten by man or beast, and they will go higher if the supply is not increased and if our extravagance and waste are not curbed.

Every pound of energy must be employed during the present planting and growing season and every reasonable economy must be practiced by all the people by all the well to do, especially if we are to sustain the soldiers now fighting our battles in Europe, and they alone must do the fighting for a whole year while we get an other army ready for another year.

No body in Washington, in a position to know the truth, expects the war to end in 1917. The wisest of our statesmen are calculating upon two years at least.

We will win of that there is no doubt sooner or later. But the quickest and surest way to win is to feed our armies and our selves to keep energy at its highest efficiency.

We may depend upon it that the government will feed the armies, even if it must limit the rations of civilians.

Every farm and every community should do its utmost to be self-sustaining, or it may not be able to buy the food it needs at any price.

It is unnecessary here to suggest crops or methods of farming. Each farmer and each community knows best what can be done in each case. Common council will find the wisest way.

But if all is done that can be done in planting and if the land yields its utmost bounty, the supply will be sufficient to feed the people on the present scale of living and supply the armies besides. The farmers will do well if they increase staple crops to 20 per cent; the weather and insects may not permit any increase. The consumers must economise. They can easily save another 10 to 20 per cent without the least sacrifice of health or comfort, if they will control their luxurious tastes and appetites. We are the most extravagant and wasteful people in the world.

Extra effort for production on one hand and a little self sacrifice on the other will save a situation which otherwise will cause wide spread suffering and national humiliation.

The Extension Service of the Agricultural and Mechanical College will be glad to mail planting data to any inquirer, but the main point now is to drive home the truth that the people of the United States, as that of the whole world, confront a grave food and feed crisis, which is to be met only by increased production on the one hand and economical consumption on the other.—Clarence Ousley.

#### New Press Soon to be Here

We are pleased to be able to present the Herald readers this week with a good likeness of the press that is soon to be installed in the Herald office. It is what is known among the printing fraternity as the Country Campbell, and has always been a favorite among country papers, for the reason that it is as simple to operate as a wheel barrow, yet does good and moderately fast work.

When this new press arrives,

which we are expecting in time to publish the paper next week or week after at the outside, we will be able to print four pages faster than we can now print one thus making press day a joy, instead of a burden. Then it is our intention to publish late Thursday afternoon, instead of all day Friday, getting our paper in the mails Friday at noon, thus obtaining a good circulation of the Herald the week it is printed. When the press is well installed and we get the run of matters, we want our old friends to come in and see 'er toss 'em off 'er horns.

#### THE OLD "RELIABLE" COUNTRY CAMPBELL

Dimension; 6X9 feet. 5 1-2 feet high. Prints 4 pages of a 6 col. paper at the rate of 1000 per hour. More than four times faster than old press, and requires but on hand to operate, instead of two.

#### First Hostilities.

It never has been the policy of the Herald to mention fistic or other brute combats that occur between our people, but we heard of one recently that will bear publicity. One of our boys who joined the army last week, was setting quietly in a Lubbock hotel lobby, listening to the run of bull, when a swell dressed guy with more gab than discretion remarked with some scorn that "he didn't see why the government was sending down a kaffir corn headers to the front as they didn't have sense enough to make soldiers."

Whereupon our new recruit calmly remarked that "he acknowledged being a deborner of the aforesaid kaffir, and aimed to fight the Dutch, but before doing so, was determined to clean out an American dude."

We have have it on authority of about 100 Lubbock citizens, who failed or refused to interfere, that the job was well done, and that Mayor Schenck found excuse of war times to remit the soldier's fine.

It has ever been thus, that the city smart Alex could boast and spring his fine spun theories, laugh at the awkwardness of raw youth from the farm and small towns, but when the real pinch of war comes, Mr. Wise Guy suddenly find he is needed badly at home while the country boy went to the front and won at Bunker Hill, Yorktown, New Orleans, Bull Run and San Juan. The back bone of this or any other nation lies in the country boy.

**BULLS** for sale, both registered and full blood Herfords, by Pierce & Benson, Lubbock, Tex.

WESTERN WINDMILL COMPANY

Is Terry county so very poor that it cannot afford to fly Old Glory from the Court house? We think not, and believe it is only because the county officials have not thought about putting it there.

Owing to the high cost of material, and the fact that every thing else has advanced, including food and clothing to almost double what it was two years ago, the Herald is forced to ask its readers \$1.50 a year for the Herald, on and after June 1st. It will then cost you 75c for six months, and 40c for three months. Up to that time you can renew for the same old price. Nearly every other paper has advanced the price to that figure and we should have done so long ago. We are, however, going to try and make the Herald worth that much more to our readers.

The Herald never likes to be forced into any thing, but it is actually been forced into putting on eight pages before the arrival of our new press. It was our intention to hold it down to its old size, six pages, but were soon forced to put on seven pages in order to accommodate our fast increasing host of advertisers, but last week found us with eight pages, all home print, and that means a burden on a one page press, with our present circulation. After the arrival of our new press, we can handle even twelve pages, if necessary better than we can handle four now, thus giving us more time with the ads and news gathering.

President Wilson made it very plain in a proclamation this week, just what constituted treason, and cited the penalties. He also let it be known that the usual leniency of the United States in time of peace was not countenanced in time of war, and that plots and treason would be dealt by with an iron hand. A few, just a few, though, in this vicinity have made remarks about the president that would almost subject them to arrest, and all true and loyal citizens are urged and commanded by the President to report all such remarks to local and Federal officers. We advise Tories of all description in these parts to put on the soft pedal.

### The Rain

The rains that fell all over the Plains last week were noticeable by their absence in Terry county. Less than enough to lay the dust fell in the vicinity of Brownfield, but we understand that a very good shower fell in the east and north east part of the county.

Also it is reported that a good rain and a big hail fell east of us this week, but nothing better than a big dust storm reached us from the cloud that gave them the rain and hail.

Lubbock, Slaton, Tahoka, and Lamesa reports more than an inch rain, and Falls over two inches, last week. Maybe our time will come next.

Earnest Burnett and Thomas Brooks, who have been with the Santa Fe Surveying crews in the

Panhandle and Oklahoma since last fall, are now at home for good as they have finished their work.

## Power For Victory

Faced with the alternative of skulking like a whipped hound to its kennel, America has elected war.

The first enemies to be confronted are traitors (to be promptly hung, failures (to be speedily retrieved), weaknesses (to be cut out with a swift moving hand)

We have to defeat veteran armies and it will require men perhaps millions of them. We have munitions and equipment to make—hundreds of millions of tons of manufactured products. We have ships to build and guns to fashion.

Above all we have grain to grow and we must grow it in quantities never grown in America before. The safety of democracy, the very security of our homes, necessitates the production of a crop which will keep the cost of living within the bounds at home and assist the allied nations to strengthen their grip of safety.

Shall we see troop trains side tracked that beer trains may pass as we did 19 years ago. Shall we see priceless brain and priceless brawn being destroyed by a rascally poison? Shall we see labor wasted in the manufacture and distribution of a commodity far worse than useless? Shall we see the prices of food stuffs mount while grain is being destroyed to make beer?

Shall we see distillers making drunkards or munitions; breweries making poisonous swill or packing meat?

The prohibition amendment to the constitution can, if need be, wait. But let us have Prohibition for the war, and for victory!—Ex.

**Catarrhal Deafness Cannot Be Cured** by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Cure acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Cure. Circulars free. All Druggists, 75c.

## RAILROAD SITUATION IS NOW LARGELY UP TO CONGRESS

Must Share Responsibility In Future Development.

ROBERT S. LOVETT'S VIEWS

"Unification of Regulation Is Essential." A Complete, Harmonious, Consistent and Related System Needed—Federal Incorporation of Railroads by General Law Favored.

Washington, March 26.—Responsibility for the railway development of the country, for providing necessary transportation facilities to care for the growing business and population of the country, now rests largely with congress and not entirely with the railroad managers. This was the statement of Judge Robert S. Lovett, chairman of the executive committee of the Union Pacific system, to the Newlands joint congressional committee when that body resumed its inquiry into the subject of railroad regulation this week.

In making this statement of the changed conditions of the railroad situation Judge Lovett undoubtedly had in mind the decision of the supreme court on the Adamson law, handed down last week, which establishes the right of the federal government to fix railroad wages and to prevent strikes. This decision is regarded by railroad men and lawyers as marking an epoch in the development of transportation in the United States.

"We have our share of responsibility," said Judge Lovett, "but it rests primarily on congress. When the government regulates the rates and the financial administration of the railroads, the borrowing of money and the issuance of securities it relieves the railroad officers of the responsibility of providing and developing transportation systems, except within the limits of the revenue that can be realized from such rates and under such restrictions. "For a country such as ours, for a people situated as we are, to blunder along with a series of unrelated, inconsistent, conflicting statutes enacted by different states without relation to each other, instead of providing a com-

plete and carefully studied and prepared system of regulation for a business that is so vital to the life of the nation, is worse than folly."

He summed up the present problems and difficulties of the railroads as follows:

First.—The multiplicity of regulations by the several states with respect to the issue of securities, involving delays and conflicting state policies generally dangerous and possibly disastrous.

Second.—The state regulation of rates in such a manner as to unduly reduce revenues, to discriminate in favor of localities and shippers within its own borders as against localities and shippers in other states and to disturb and disarrange the structure of interstate rates.

Third.—The inability of the Interstate Commerce Commission, whoever the commissioners may be, to perform the vast duties devolving upon it under existing laws, resulting in delay—which should never occur in commercial matters—and compelling the commissioners to accept the conclusions of their employees as final in deciding matters of great importance to the commercial and railroad interests of the country.

Fourth.—The practical legality that has been accorded conspiracies to tie up and suspend the operation of the railroads of the country by strikes and violence and the absence of any law to compel the settlement of such disputes by arbitration or other judicial means, as all other issues between citizens in civilized states are to be settled.

Fifth.—The phenomenal increase in the taxation of railroads in recent years.

Sixth.—The cumulative effect of these conditions upon the investing public, to which railroad companies must look for the capital necessary to continue development.

"We believe that the unification of regulation is essential," said Judge Lovett, "and that with the rapid increase of state commissions in recent years congress will in time be compelled to exercise its power in the premises. To unify regulation there should be a complete, harmonious, consistent and related system. We believe the best, if not the only practical plan, is the federal incorporation of railroads by general law, which will make incorporation thereunder compulsory, thus imposing on all railroad companies throughout the United States the same corporate powers and restrictions with respect to their financial operations and the same duties and obligations to the public and the government, so that every investor will know precisely what every railroad corporation may and may not lawfully do."

Judge Lovett contended that the solution of these problems and difficulties rested with congress. He told the committee that under the constitution the authority of the federal government is paramount, that congress has the power to legislate for a centralized control of railroads under federal charters and that it only remains for that body to exercise that power.

**No Trick to Reduce.**  
If you are too stout, don't take fat reducing medicine; cut down on your diet, get out-of-door exercise, and you will assume normal lines and reduce to normal weight. Avoid sweets, eggs, cream, fat meats, and especially potatoes. Live mainly on lettuce, spinach, cabbage, lean meats, young onions, celery, tomatoes, etc. Take salted toast instead of bread and butter. If you cease to give your body fatmaking foods you will cease creating fat cells. It is no trick to reduce if you practice self-denial.

**Shall Women Propose?**  
Of course women should propose. It is women who change their entire lives by matrimony; it is women who take on colossal responsibility by matrimony. The woman should surely be allowed to choose the man for whom she feels herself able to work and give. Men propose; men have had it all in their own hands up to now, and if they have married the wrong woman they have only themselves to blame for it.—Women of the World.

There were church services at three places last Sunday, and reports say that a good crowd was in attendance at all places. Bro. Sanders had a good crowd at the Courthouse about all that could be seated comfortably; the Presbyterian pastor had a fine crowd at the Baptist Church, and Bro. Fryar had his usual good crowd at the Methodist church. This shows three things. That Brownfield is getting to be a city making all hands to make a comfortable audience, but three things can run at the same time successfully now, and third that the new comer population are good church goers, which is something good to be said in their favor.

### Girl's Statement Will Help Brownfield

Here is a girl's own story: "For years I had dyspepsia, sour stomach and constipation. I drank hot water and olive oil by the gallon. Nothing helped me until I tried buckthorn bark, glycerine, etc., as mixed in Adler-i-ka. ONE SPOONFUL helped me INSTANTLY." Because Adler-i-ka flushes the ENTIRE alimentary tract it relieves ANY CASE constipation, sour stomach or gas and prevents appendicitis. It has QUICKEST action of anything we ever sold.

You are hereby commanded to summons Dinah Blenn and her husband, \_\_\_\_\_ Blenn, and also the unknown heirs of Dinah Blenn and the unknown heirs of \_\_\_\_\_ Blenn, the husband of Dinah Blenn by making publication of this citation once in each week for eight successive weeks, previous to the return day hereof, in some newspaper published in your county, if there be a newspaper published therein, but if not then in any newspaper published in the Seventy-Second Judicial District; but if there be no paper published in said Judicial District, then in a newspaper published in the nearest district to said Seventy-Second Judicial District, to appear at the next regular term of the District Court of Terry County, Texas, to be holden at the courthouse thereof in the city of Brownfield on the fifth Monday in April, 1917, the same being the 30th day of April, 1917, then and there to answer a petition filed in said court on the 27th day of February 1917, in a suit numbered on the docket of said court No. 534, wherein W. L. Ellwood is plaintiff, and Dinah Blenn and \_\_\_\_\_ Blenn, husband of the said Dinah Blenn, and the unknown heirs of the said Dinah Blenn and of her husband, \_\_\_\_\_ Blenn, are defendants.

As his cause of action, the plaintiff alleges that on the 20th day of February 1917, he was lawfully seized and possessed of that Six Hundred Forty acres in Terry County, Texas, known as Survey Twenty-three (23), in block E, located by virtue of Certificate 1121, issued to E. L. & R. R. R. Co., and patented to William Desbro on the 10 day of January, 1880, by Patent 256, Volume 53, that on the date aforesaid, he held and claimed said land in fee simple title; that on the day and year aforesaid the defendants unlawfully entered upon said premises and ejected him therefrom, and do unlawfully withhold from him the possession thereof, and to his damages Fifteen Thousand (\$15,000.00) Dollars. He also pleads the Three, Five and Ten Years' Statute of Limitation of the State of Texas, as against all the defendants. He prays for the recovery of the land against all the defendants, and for writ of restitution, and for all other relief in law and in equity to which he is entitled. Herein fail not, but have you before said court on the first day of the next term thereof this writ, with your return thereon, showing how you have executed the same.

### Soon to Build On

It has been rumored here for some time that the Santa Fe would not stay at Blythe long, but would move on toward the line of old Mexico, to be in a position to take their share of the heavy traffic of that Republic to the big cities of the Central West such as St. Louis, Kansas City and Chicago, as soon as peace is restored. It is thought they will stay there long enough to dispose of their lands, or most of it.

This rumor seems to have some weight too, for the reason that they are cutting down all grades, and have decided to raise the grade one foot since actual construction started. Add to that the fact that they are laying

new 85 pound steel, and you can see that this is not intended as a branch road for long, but a main trans-national road.

A gentleman was in Brownfield not long since that has had considerable experience in rail road construction, who said the company had enough material at Lubbock to build 300 miles of road. Of course he may be mistaken, but he is well known here.

### Kill Flies and Save Lives

Kill at once every fly you can find and burn its body. Observers say that there are many reasons to believe there will be more flies this season than for a number of years.

The killing of just one fly now means there will be billions and trillions less next summer.

Clean up your own premises see and insist that your neighbor do likewise.

Especially clean out of the way places and every nook and cranny.

Flies will not go where there is nothing to eat and their principal diet is to filthy to mention.

#### THE TIE THAT BINDS

The fly has no equal as a germ "carrier" as many as five hundred million germs have found on the body of a single fly.

It is definitely known that the fly is the carrier of typhoid fever it is widely believed that it is also the carrier of other diseases, including possibly infantile paralysis.

The very presence of a fly is a signal notification that a house keeper is uncleanly and inefficient.

Do not wait until the insect begin to pester; anticipate the annoyance.

April, May and June are the best months to conduct an anti-fly campaign.

The farming and suburban districts provide ideal breeding places and the new born flies do not remain at their birth place but migrate, using railroads and other means of transportation, to towns and cities.

## The P. & O. No. 111 Lister

This lister is known to farmers wherever sold as P. & O. No. 11, but the improved type is called No. 111 on account of important improvements.

There are more of them in the hands of farmers than all other makes combined,—over 2,000 sold by one dealer in one county in West Texas. The special features on this Lister made it deserving of its immense sale. Its use is not confined to preparing for row crops; it is now almost universally used for plowing for small grain crops by listing and re-listing, leaving the ground in oval waves, which not only catches and holds the moisture but prevents the loose soils of the West from blowing away.

The adjusting link on front end of beam is an important exclusive feature on the No. 111, absolutely preventing the point from running below the desired depth. The wheels are provided with dust-proof boxes, an immense help in the sandy loam lands of the West. The feeding device absolutely deposits one seed at a time of any of the row crops, besides can be equipped for both corn and cotton. You will have to see this wonderful improvement to appreciate it. The tilting hoppers allow change of plates without emptying them. Furnished with either disc or shovel covers. This Lister embodied many other important features that will convince you that it is the best on the market.

### The P. & O. No. 123 4-Wheel Lister

This lister has all the advantage of the No. 111 and in addition has rear wheels. This is desired in many localities as it enables the operator to see the seed as planted. The rear wheels have cushion springs to hold them in line with the row and following the unevenness of the ground. The friction lock disengages automatically, allowing the wheels to castor and turn round in a very small space.

Yes, sure the Gomez representative of Terry county, won at the District school meet at Lubbock, last week, in the spelling contest. Garland Miller was our representative, and he says there are a lot of spellers in the Gomez school who can spell as good as he. Will Black, Prof. Bishop and Miss Aline Miller, attended the meet, from here.

E. E. Simms lost a valuable horse one night last week. The horse was in Dr. Maddux's pasture east of here and was found dead, badly wire cut, beat and bitten by apparently some animal. The pasture fence was torn down in several places, one half mile apart or more, and appearances indicate that some other animal run the horse into the fence and kept on chasing him until loss of blood and abuse killed him.

Boone and Dee Hunter and Mart Key have gone to New Mexico, on a business trip, this week.

The last of the Gomez Merc building was moved away, this week.

Mr. and Mrs. Bob Snodgrass, of Brownfield, went to his ranch Tuesday to brand calves, and stopped here a short time, as they passed through.

Quite a crowd of relatives and friends gathered at Will Black's last Saturday for a fish fry, and plenty of fish and a real Terry county dinner, which means one that could not be excelled, and was enjoyed by all. In the afternoon, the ladies of the party attended the Crochet Club at Mrs. Chas. Moore's. So closed a day of perfect pleasure to those who attended.

Uncle Tom and Mrs. DeShazo visited at Brownfield, Tuesday.

E. W. Maddux was quite seriously sick last week, but is improving now.

Messers. Brown and Armstrong, of south west Terry, were in Gomez trading, Tuesday.

Mrs. Joe Nickles came in Monday afternoon, trading.

Oral Adams' family have all recovered from measles, but the baby has been suffering quite seriously with a rising in one of its ears. It is thought to be better, this Wednesday morning.

Messers. Clifton and Carter from Eddy county, N. M. came in Tuesday to visit Mr. Carter's father; and also Mrs. Joe West here in town, a sister of Mr. Clifton's.

Dr. Summit left Monday for Post City, to visit his daughters there. He will return Wednesday.

Mrs. Randolph was taken quite seriously sick on Monday, and at last accounts was still quite sick.

Mr. Brinam was in from his home two miles west of town Tuesday; and reported two more cases of measles at his home.

Mr. Renfro will leave in a few days for Lubbock with a bunch of cattle, which he will ship to a ranch near Texline. Mr. Arthur Haley, his partner, of last year is located there. Mr. Renfro has not sold his stock, but is moving them to a larger range.

Miss Archer, from Mississippi and her brother, Mr. Reed, are are visiting Mr. Burnett's family at this time. They visited Mrs. W. W. Spear here Tuesday, and we learn that they are going to locate on the Lupton ranch south west of here, it now belongs to Dr. Smith.

Mr. Fenwick's little boy, 9 years old, was bitten by a snake on the fore finger of the right hand, Tuesday evening. It was a small reptile and escaped with out being killed. It was not a rattlesnake and the little fellow Wednesday, was better and arm was badly swollen.

Mrs. Flannagan and Misses Lois Reeves and Eargie Rambo, went out to Plains Wednesday to visit Mrs. J. T. Gainer.

## DIZZY SPELLS

Relieved After Taking Two Bottles Of Cardui, Says Tennessee Lady.

Whitwell, Tenn.—Mrs. G. P. Cartwright, of this place, writes: "About four years ago the dizzy spells got so bad that when I would start to walk I would just pretty near fall. I wasn't past doing my work, but was very much run-down.

I told my husband I thought Cardui would help me, as a lady who lived next door to me had taken a great deal, and told me to try it. This was when we were living in Kentucky.

My husband got me a bottle and I took it according to directions. It helped me so much that he went back and got me another bottle. I got a whole lot better and just quit taking it. I got over the dizzy spells...I took no other medicine at that time nor since for this trouble. No, I've never regretted taking Cardui.

I felt just fine when I finished the second bottle."

Purely vegetable, mild and gentle in its action, Cardui, the woman's tonic, may be the very medicine you need. If you suffer from symptoms of female troubles, give Cardui a trial. All druggists. NC-129
