Camel's Great Usefulness. For safety and endurance in traveling in desert regions the camel has been found unequaled by any other animal. Shoes That Hurt.

When you buy a new pair of shoes and they hurt your feet, place them in warm water (not hot); let them remain five minutes, take them out, shake out the water, put them on your feet, go about your domestic work, don't sit down until your shoes are dry. You will find that you have as comfortable a pair of shoes as you ever had on your feet. Try it and see if my story is not true.
