#### Home Talent Minstrel Benefit Of Red Cross.

On Friday night of December 14, a minstrel performance will be given at the Queen Theatre for the benefit of the Brownfield Chapter of the Red Cross.

This will be a strictly Home Talent performance and bids fair to be the first of this kind ever produced here.

There will be a large orchestra composed for the most part of musicians who have had years of actual experience in band and orchestra practice.

A first class selection of voices have been assembled and the musicians and singers are receiving regular instructions and practice under the supervision of Mrs. J. P. Rhodes and Mr. J. S. Powell. This performance should be given a large attendance both because of the patriotic motives which prompt its production and the pleasure which all will derive.

#### Union Thanksgiving Service.

A Union Thanksgiving service was held last Thursday at the Methodist Church, and attended by a large crowd.

The service consisted of prayer, songs, the reading of the President's Proclamation, Bible readings, etc.

A splendid sermon along the theme of Thanksgiving, was delivered by Rev. J. M. Fryar.

At the door was placed a barrel, in which those entering deposited potatoes and apples, which were latter distributed to the poor of the town.

Prayer meetings were held at a number of homes at night.

#### The Red Cross Carnival.

The largest crowd that ever assembled in the Queen Theatre, was on hand last Friday night for the Red Cross Carnival, and the entire program was carried out without a hitch, amid frequent applause and enthusiastic yells.

About forty or fifty firms were represented by that number of young ladies, dressed and labeled to represent at a glance the line of business she was advertising, and while some of them simply advertised in a modest way, and a few well chosen words, others brought roars of laughter from those present.

The last thing on the program was the singing of the Star Spangled Banner by a bevy of pretty girls that know how to sing, and during the chorus a large flag was waved on the front part of the stage. This brought the entire assembly to their feet instantly, which either yelled or joined in the chorus.

The proceeds of the evening entertainment, was well up in ninety dollars.

#### Cards of Thanks

We take this method of thanking our many friends and neighbors of Brownfield and Terry county, for their many acts of kindness and expressions of sympathy, in the recent loss and burial of our nephew and brother. May God's blessings rest on each of you.

#### OBITUARY.

Our hearts are made sad this week on hearing of the death of one of our schoolmates and friend, Emmet Horton.

Emmet and his little brother came to live among us about five years ago. After their mother's demise, at that time her request was for them to go and live with their Uncle John Brown, who lived in this neighborhood. Emmet has attended the Primrose school every session since until last term. He was a bright and loving schoolmate of a quiet disposition, a favorite of every one; made no enemies and was kind to all alike.

He volunteered in September and was at Camp Bowie when he was stricken with the measles, that caused his death.

We express sympathy to his sorrowing relatives and his little brother Homer, who shared all his joys and sorrows together. We pray the good lord will speak peace to them in this hour of sorrow and they will remember all is well with God. While we lose a loving schoolmate here, we have the assurance that we can meet some day in the great beyond.

Contributed by his Schoolmate of Primrose School.

#### The Horton Funeral

One of the largest crowds ever seen at a funeral here, followed the remains of Emmet Horton the first Terry county soldier to return to sad homes, from the Hill Hotel to the cemetery, the hearse of the Robinson Undertaking Co., of Lubbock, having stopped at that hotel in order to permit the business houses to close and the people to form in procession.

This was the only funeral ever held in Terry county with anything like a military significance. More than 200 school children, each with a tiny American flag pinned on their breasts, marched to the cemetery and formed solid ranks from the gate to the grave, between which hundreds marched. During the ceremony, Raymond Speegle, one of the high school boys, stood at the head of the casket with a huge flag.

While the school children rendered "America" the audience filed past and viewed the remains. Special songs were rendered by special choirs and choral clubs of the town, after which Rev. M. D. Williams spoke comforting words to the heart broken relatives, and words of warning to the unprepared.

The flag enshrouded casket was then lowered into a vault lined with bunting, and after the Stars and Stripes were placed at the head and foot of the new made grave, instead of a military salute, a prayer went up for the preservation of our many brave boys who are either fighting or preparing to fight for the liberties of the world.

Prof. Bishop, of Gomez, was over this week on business.

#### Notice

To our Friends and Customers  
Owing to conditions now existing in our trade territory, due to the drouth, we wish to call your attention to some facts which we feel will be beneficial to us all. Read on; We have a very large number of accounts should be paid now in order that the we may be in position to extend a line of credit to you until crop and range conditions are more favorable. Unless our customers favor us with a settlement of their accounts we will be forced to go on a cash basis. Help us to avoid this. We all know the need of credit in normal times and conditions now demand that we have our money thereby avoiding hardships to many. Shall we or shall we not go on a cash basis?

#### Texas Girl Gets New York Editor.

Bartlett, Texas, Dec. 3.—Miss Virginia Bell of this city, was married to Mr. Clyde Oswald of New York. Mr. Oswald is editor and publisher of the American Printer, New York, and known throughout the country as one of the leading editors in America. He was formerly president of the National Editorial Association and became acquainted with Miss Bell at a meeting of this association in Houston in 1913. It is said that Editor Oswald is possessed of the usual newspaper man's modesty and declined to furnish his picture for publication.

Atty Wm. F. St. John and wife left this week for Eastland, Texas, to visit relatives.

### MAKING WATCH TELL TRUTH

Traveler Hits Upon Plan to Make It Unnecessary to Turn His Time-piece Forward or Back.

The average commercial traveler who journeys about the United States has to keep a close watch on his time-piece to see that it is telling the truth. There is an hour's difference in time when you enter and leave some cities, and it's an important matter that you do not forget to set your watch back or forward an hour, according to which way you are traveling. If you overlook it you may miss a train.

An express official who travels almost all the time and is so busy that he sometimes forgets to change his watch at Detroit, Mich., for instance, or at Dodge City, Ia., has frequently had an experience of this kind. Sometimes he has arrived an hour ahead of time, or perhaps an hour after a train has left, giving him time enough for reflection.

Recently he conceived the idea of making his watch tell all four different times—Eastern, Central, Mountain and Pacific. He went to a jeweler and had extra hour hands put on his time-piece—each of a different color, so that he can recognize it at a glance, on the face of his watch. For instance, the ordinary hour-hand, set at Eastern time, is silver; a blue hand, set an hour back, represents Central time; a red hand, for Mountain time, is set two hours back, and a green hour-hand three hours back, represents Pacific time.

You can do this to your own watch. The jeweler will make a set of hands of these colors and alter your watch for a consideration of a few dollars.

### EACH NEW SWORD IS BLESSED

Japanese, Past Masters in Art of Making Weapons, Offer Them When Completed to Goddess.

That the Japanese are past masters in the art of swordmaking is proved by the splendid weapons, equal to those of Toledo and Damascus, which they turn out. The actual method of sword-making in Japan is jealously guarded,

an extraordinary feature of the industry being the religious ceremony which accompanies every process of their manufacture. The walls of every swordmaking shop in Japan will be found to be covered with allegorical representations of the swordmakers and the chief goddess of the Shintos.

Even the final processes of polishing and sharpening are characterized by certain religious ceremonies, and finally the weapons are offered, one by one, to the sword god to be blessed, says London Tit-Bits. This ceremony consists in placing the swords in front of the goddess of the Shintos on the wall, with an offering of sake, rice and sweetmeats, after which prayer scrolls are read and blessing upon the work is invoked.

### Their Appetites Were Poor.

It was the boast of a certain famous gourmand about New York that he counted a full-sized tenderloin steak surrounded by a half-dozen lamb chops merely as the foundation of a fair meal. Another celebrated bon vivant and host, taking his preprandial cocktails, invited his guest of honor to mention his preference in the way of an appetizer. The guest, a food worshiper and running true to form, allowed as how three dozen cherry-stone clams might start him off right. And the hideous part of it is none of the party regarded the order as in any way unusual.—Exchange.

We learned this through rumor, that George Smith, son of Jim Smith of the north part of Terry county, who is in training at Camp Travis, was married recently to Miss Gibson, of Post Texas. When George was operated on for appendicitis at the Post Sanitarium last year, and Miss Gibson, a trained nurse fell in love with each other, and the wedding recently was a culmination of this love affair. If the rumor is true, and we have reason to believe it, Herald hastens to congratulate them.

## Information About Farm Loans.

Houston, Texas, Nov. 26, 1917  
I recently received a letter from a Dawson County citizen asking me to induce the Federal Land Bank to come that way. The letter was handed the President of the bank and he says: "The bank has always been ready and willing to accommodate Dawson County, that when the inspector for the Federal Land Bank reached Lamesa for the purpose of inspecting lands offered for loans that some of the members of the local Association at Lamesa thought that on account of the drouth then prevailing, Dawson County would not get the valuation that it was entitled to and prevailed upon the appraiser to wait until a rain came."

So it not the fault of this bank that Lamesa and Dawson County is not now receiving the benefits to be derived from cheap money, but if there be any blame to be attached to any one it is some other than this bank; the correspondence of the appraiser shows the above to be the facts.

Big Springs and Colorado Associations took the appraisement that was given to each of them and each of these Associations have been accommodated in every instance where they have furnished a merchantable title to this bank. Inspectors have been exceedingly liberal considering the time and the prospects. A loan value of \$10 per acre in some instances has been granted along the Texas and Pacific R. R. Company, in one of the Associations just named; but the average valuation is about \$6.00 per acre loan value. When one considers the fact that the loan can be made for 36 years and the rate of interest is 5 per cent it ought to be considered as a blessing to any country to have the privilege offered.

This bank, at present, is inclined to be liberal in the definition of a farmer; if one is in charge of and over-seeing his farm or ranch, though he may hire help to run the same and pay a part of what is raised as wages, he is considered as eligible for a loan; unbroken land used as a ranch is being considered as a good collateral and the stock raiser a stock farmer. Why more stock farmers are not taking advantage of this system is because they have not tried; the writer knows many stock farmers who are now paying eight and nine per cent interest for their money that could better their conditions by asking

The great beauty of these loans is the plan adopted by the bank enable the Borrower to wipe out his mortgages in a given number of years from the date at which the loan is made; it is done by adding one percent to the interest which sum is paid on the principal each year until the entire principal is paid, it is called "Amortization." 3 percent paid semi-annually on any amount borrowed will pay the interest 5 percent and will, in 36 years, extinguish the entire mortgage; this is demonstrated by tables which can be furnished free of charge by the Federal Land Bank, Houston, Texas, or the Federal Farm Bureau, Washington D. C.; as either one of these places will take pleasure in giving information desired.

Owners of School Land have now about thirty years in which their contracts will mature with the State; at that time, as the law now stands, they must patent their land. In 33-1-3 years they will have paid out as interest, at the rate of three percent the amount which they originally gave for their land and then owe for it besides; if their land has a loan value now of \$6.00 per acre one can borrow the money and patent his land and by paying the same amount as they now pay as interest twice instead of once a year they will have had the use of the money for 36 years and at the end of that time their land will be patented and the entire sum of money borrowed will be paid back.

If one thinks 36 years is too long to owe a debt on his farm or ranch, he is given the privilege, after five years from the date of the loan, to pay back at any period of interest-paying time as low a sum of money as \$25.00 or any multiple of that number greater than \$25 which he might want to pay. It is one of those kind of contracts payable on or before after five years have expired.

These banks are the greatest blessing that have come to the land tiller and stock farmer.

Yours very truly,  
J. D. Cunningham  
P. S. Now a word of encouragement to you and me and all those who have been voting our way for many years; there is a question as to the origin of this system of money lending called "Amortization." But there is no question that we never had 5 per cent money until we had Democratic rule and this system was given to us by a Democratic Administration. There

may be a question as to who first thought of the power and capacity of a Reserve Bank, but we never had a sound money system until we had Wilson for President.

There may be a question as to the cause of financial panics, but we never had a man with foresight enough and courage sufficient to prevent one in prosperous times until we found McAdoo.

This Postscript is written without the knowledge of the Bank or any of the Officers of the Bank.

Yours very truly,  
J. D. C.

## Gets Car of Holsteins

One of the prettiest sights we have seen lately was last Friday afternoon late, when we started home, and came upon Geo. Black Jr., assisted by Will Winn, who had just finished unloading eleven baby holsteins from a car into a big farm wagon.

George informed us that they had been on the road about ten days from their home in Wisconsin, having been sent through mistake to Lamesa. As a consequence, they looked worried and thin from their long haul, but as hungry as wolves. George said he ordered twenty, and only got eleven, the demand for this breed of cattle is so great.

These calves are 31-32 pure blood, and we predict they are the beginning of one of the best dairy herds to be found on the great South Plains in the near future.

George is one of our most progressive stock, fruit and truck farmers, and has the stuff in him to make the dairy business a go. We hasten to congratulate him on this last acquisition, and we hope to see others follow suit, so that old Terry will some day become what she ought to be—a stock farmers paradise—and its adjuncts, creamry industries.

Solo's, both violin and piano, songs, quartette, readings and impersonations will occupy your time between acts at Gomez, Dec. 15.

Several cars of cattle came in from Knox county last Friday, belonging to Dr. Smith of that county, and consigned to Mr. Bennett, the doctor's manager in this county, who will put them on the Smith lands in west Ter and east Yoakum.

The Gomez High School will play "Dixie, the Hired Hand" on Sat, night Dec. 15, 1917. Admision 25, 35, and 50c.

### High School Notes.

The Thanksgiving program was a success in every way. From the first grade to the Senior Class, each performer did himself or herself credit. The rendition of the program was carried on well. Recitations, dialogues, music, quartets and acrostics composed the program. There were several visitors present and we should have been pleased if more had come to see what the children are doing.

School was dismissed Wednesday afternoon and Thursday was a Holiday. Mr. Rhodes tried to impress upon the minds of the pupils the spirits of thankfulness, especially in such a crisis as we are now in. War, Shortage in food, high prices, and other things should put us in thankful spirits considering things in general.

Friday, school was lined up in double file and marched to the cemetery with the teachers with their pupils. At the cemetery the school formed two lines and the corpse and mourners passed between. In due respect to the first home soldier boy who sacrificed his life for his country, patriotic songs were sung and "Old Glory" floated in the breeze. Many compliments have been received upon the conduct of the school children in general, of which we are grateful.

The third month closed with several examinations last week. As a whole good work is being done in various departments.

In the seventh grade the following pupils were perfect in spelling for a week.

Reatha Corning, Alfred Daniell, E. B. McBarnett, Lela Hill, Oscar Sawyer.

Up to the present time there have been 265 enrolled since the beginning of the term. However there are a few number less than that in attendance.

Its time to replace those broken window glass. You can get any size at the City Drug Store.

## From Camp Travis.

Division Publicity Officer  
Ninetieth Division, N. A.  
Camp Travis Tex.

Major General Henry T. Allen commanding the ninetieth Division, at Camp Travis, believes that the American soldier, if he knows the reason why, will respond to any call that can be made of him. While exacting the kind of discipline that must be had if the lives of the soldiers themselves are to be safeguarded, General Allen typifies in his every action Paragraph 3 of the Army regulations. This paragraph reads:

"Superiors are forbidden to injure those under their authority by tyrannical or malicious conduct or by abusive language. While maintaining discipline and the thorough performance of military duty, all officers, in dealing with enlisted men, will bear in mind the absolute necessity of so treating them as to preserve their self respect. Officers will keep in as close touch as possible with the men under their command and will strive to build up such relations of confidence and sympathy as will insure the free approach of their men for counsel and assistance. This relationship may be gained and maintained with relaxation of the bond of discipline and with great benefit to the service as a whole."

The question of selecting candidates to attend the next training school for officers has been receiving the most thorough consideration of the authorities both at Washington and at Camp Travis. Political influence, personal appeals and all that sort of things that sway the civil population are thrown to the four winds in the plan that has been evolved. The question of what a man was, who was his father, and the prominence of his wife's relative are all ignored. No stone is being left unturned to pick from the soldiers of the selected draft only those who have shown by their work since they have been in Camp Travis those elements of capacity and leadership that officers must have, and who, prior to coming into the National Army occupied, spheres of activity that would tend to make stronger these essentials. In other words this war is not to be fought by soldiers led by accidents, but by soldiers led by officers who have gone through the mill, as it were, and have emerged therefrom with demonstrated fitness of their capacities to be officers in the American Army.

Just a suggestion to the Folks Back Home. Write to the soldiers now in the army, write often and write all sorts of gossip. True, the soldiers may not write home as often as they should, but then there is the sameness and such a grim reality in their lives here, that coupled with the tremendous amount of work they are doing with cheerful spirits, they sometimes procrastinate about writing until the days grow into weeks and the weeks roll into months before they are aware of it. But this does not mean that they do not delight in receiving letters from their relatives and their sweethearts! In fact those who know the soldiers best, believes that the sweethearts at home can well afford to do just a little flirting in their letters, if need be, to keep aroused the interests of the soldiers. If such a thing should hurt the conscience of those sweethearts, it can be stated with some room

for the assertion, that flirting is a game that two can play at and both win or lose.

If the fond father who thinks their James, (camouflage for army "Jim"), or Henry (ditto for army "Hank"), is without a bit of boy in him, they should come to Camp Travis between 3:00 and 1:30 o'clock any week day afternoon, except Wednesdays and Saturdays. This hour is devoted to games and such games as the boys play would put to rout a case of any rubs of the everything from prosy to rat and tan, which is played with a piece of rope and a piece of anatomy. A running course, is indulged in. While called lay, these games all assist in making supple muscles, quick the eye and the brain and heart for the things just ahead of them at Camp Travis. Any game that will cause a soldier to get a fifth of a second quicker than the soldier he is warring with is invaluable. The first second may not be so important in a man's life, but its that last fifth of a second that counts big with a soldier in actual warfare.

### Teaching for Future Endeavor.

If the teacher knew what field of endeavor each pupil would seek in later life, he would be greatly helped in making school plans. In the case of boys he can rarely know, for the employments of men are many and unlike and unforeseen circumstances often determine what their vocation is to be. In the case of girls, however, the difficulty is not so great, for of a hundred girls more than eighty will become homemakers; they constitute so large a group with a common life business that special studies and methods adapted to their needs may fairly be required of all.—Youth's Companion.

## WAR TALKS

By UNCLE DAN

Number Six

Billie and Jimmie Will Take Military Training.

"I am mighty sorry, Uncle Dan, that this is your last night with us. Can't

you stay longer? We boys are having a peach of a time," said Billie.

"Well, if you get more out of it in the way of pleasure than I," said Uncle Dan, "you are going some."

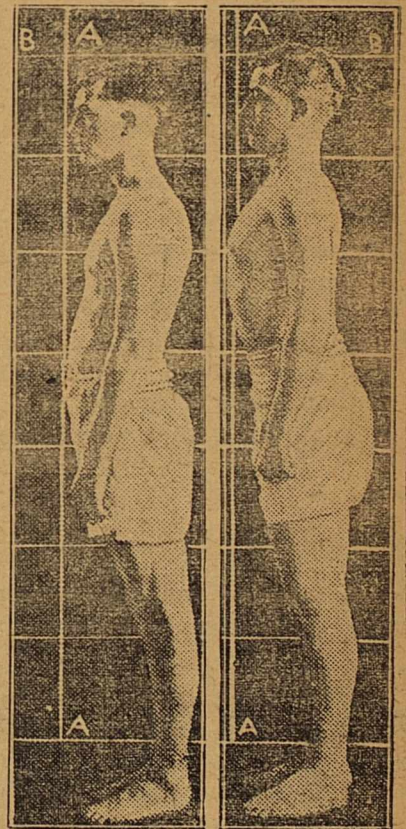

"Billie, I have been talking seriously with your father and mother about sending you to a military academy and they asked me to talk with you about it."

"Whoopie!" Billie screamed, like a wild Indian.

"Now, hold your horses," said Uncle Dan, "and listen to me. You know I sent my boy, Howard, to one of these schools for a year when he was about your age. He was narrow chested, stoop shouldered, rather loose jointed; he had the big head and needed discipline and physical development. He was growing fast and I wanted him to be strong physically."

"Say, Uncle Dan," said Billie, "I believe your description of Howard fits me pretty well, eh?"

"Well," said Uncle Dan, "to be frank I think it does; you need the same thing. Howard did not like it at first. I am told for a few weeks he had 'rough sledding', but after he found that the only way was to obey orders, he caught the spirit of the institution and liked it. We did not see him for about six months, then he came home for a few days. We were astonished at his appearance. He had gained about 20 pounds in weight, his muscles were as hard as nails, he stood as straight as an arrow, he was courteous, consider-

ate and manly. His awkwardness had disappeared. The change was wonderful and it was all to the good. Here is a photograph showing 'before and after taking,' and I am sure no patent medicine advertisement could beat it.

"Well, mother and I were delighted. That was ten years ago, and Howard says the year he spent at the military academy was the best year of his life."

"Now," said Uncle Dan, "with great earnestness, 'when such training does so much good, makes better citizens and at the same time fits a man to defend his country, why should not Uncle Sam furnish this training at the government's expense? The government has the right to call anyone to serve in case of war, and without training, a man is worth nothing as a soldier. Uncle Sam has splendid new training camps that will soon be available for the purpose, therefore, here is double reason why the Chamberlain bill for compulsory military training should be passed at once, so that every boy physically fit may have this training and not leave it for his parents to pay for. On account of the expense, not one boy in 50 can take the training now. I am glad that you can do so. These big crops and big prices, I find, make the farmers rather 'cocky,' and that the best is demanded by them."

Billie was up with the lark the next morning, more excited and enthusiastic than ever. He had a plan. He knew Jimmie owned a colt worth \$100; that he would make almost another \$100 on his potatoes if they turned out well, and that he had from his previous savings, bought a \$100 Liberty bond. Billie's plan was to have Jimmie cash in and go with him. He was disappointed to find that Jimmie would still lack about \$900 of having enough to see him through. His lip quivering, he said: "Em mighty sorry to leave Jimmie."

Uncle Dan was silent a moment or two, then he asked Billie to go down to the orchard and get him some apples to eat on the train. While he was gone, it was arranged that Uncle Dan, and Mr. and Mrs. Graham would advance the money necessary so that Jimmie could go. When Billie returned he was told about it. He ran to the phone and called Jimmie, saying: "Come on over, run just as fast as you can, I've got the greatest news you ever heard of."

Ye editor said last week "If the paper is not as good as usual blame it on the correspondents they all layed out." That paper was much better than the average; so as a fair rule should work both ways, the correspondents should get the credit. Ahem; Thanks. We always heard there "was but a pennys difference in the wages of the worker and the player; and the player got the penny, but its the first time we ever tried it, and the maxim sure proved true.

A Red Cross society was organized here last Sunday evening with a membership of thirty. Now we want this chapter to number one hundred members and just must have that many. The next meeting will be at the school house Friday afternoon. Come on good people you are needed, it is not "the other fellows war" it is strictly ours, and we have got to win it; no matter how great the sacrifice here, "our boys" are dying in the trenches in Europe, and if those inhuman savage, Germans should win this war then we who are left alive would realize that the soldier's who died on the battle field were a thousand times better off than the women who lived to fare the fate that has already been meted out to the French, Belgian and Armenian women, and once more I plead let all fall in rank and give every hour and every dollar you can to our Red Cross.

Mrs. R. E. Cleveland and children, Virginia and R. E. Junior, left last Saturday for their new home 6 miles south west of Scholle, N. M., Mr. Cleveland had preceded his family there, while his wife and children spent a week here visiting her mother, Mrs L. T. Brooks.

E. E. Simms came in last Thursday from Magdalena, N. M., He reports that Mrs. Ben Whitley is able to be up; also that Ben has recovered from a very severe case of measles.

W. C. Wright and son, from their home near Seagraves, spent Tuesday night in town.

Lee and John Johnson and Mr. Fleming came in Monday in Lee's new Ford roadster. It sure is a nice looking car. Lee informed us that his hand that he accidentally shot the finger off of is doing well.

Tom Mathews and son, of Crosby county, visited here at Dr Maddux's Monday night and Tuesday. They were neighbors many years ago and the Dr. and family sure enjoyed the visit.

Mrs. R. W. Glover received a letter from R. W. Monday. He is in Arkansas and reports that they landed with their horses all o. k. and he thinks the prospects are good for selling them.

A new family (we did not learn their name) but they are relatives of Joe Whitley; have moved onto Henry Ward's farm, one-half mile east of town.

Henry Ward received news recently that his mother, Mrs. C. C. Short, who lives near Phoenix, Ariz., was quite sick, and Henry left last week. We understand that Henry stopped at Clovis, where he has several uncles, but intends to go on to Arizona, soon.

Mrs. Artie Shepherd of Seagraves, came in last Friday and spent the night here visiting her mother, Mrs. Summitt. She went to Brownfield Saturday and from there home. She seems to be much pleased with their new home and reports the trade to be real good.

Mrs. Mashburn and Mary Zozo spent last Saturday afternoon visiting at Dr. Maddux's and on Tuesday they went out for several days visit with Mrs. Rambo.

### Meadow.

BY FARMER.

We had a real Thanksgiving service and all seem to enjoy it. At night at the school entertainment there was the largest house we have ever had at Meadow. It is putting it mildly to say the children did well. If we are the judge, the school is doing fine. One new pupil for the eight grade this week.

Early in this week the Post Office was moved to the new town. We have quit saying "old Meadow" and "new Meadow" It is just Meadow, the coming town in the richest cat-claw land on the plains.

Bro. Fryar preached to an appreciative audience, Sunday afternoon. Bro. Stricklin will lecture next Sunday afternoon on Pauls trials before the different rulers.

While most of our cattlemen are minimizing, Otis Copeland is leasing and buying more land and increasing his stock of cattle.

Edú Copeland, of N. M., was seen here this week.

Wallace Bankenship, Edd Timmons and Neva Stricklin, spent Thanksgiving at home.

Mrs. J. T. Stricklin and son Glenn, spent Sunday night in Lubbock.

Mr. and Mrs Raimier went to Noah Bell's Sunday afternoon.

Cake and hay are being shipped in rapidly now.

One of our best citizens, Mr. Wilson, and family left last Thursday for Granberry, Tex. to make his future home. We believe the man that stays with this country will reap the harvest.

(Please try to get your letters in earlier, Farmer.—Ed.)

Preaching at the Methodist Church next Sunday at 11 a. m. and 7:30 p. m. Morning subject "The Gospel a Light Unto Our Path." Evening Subject: "The Diseased Soul Healed." You are cordially invited to these services. J. M. Fryar, Pastor.

### A NERVOUS WRECK

From Three Years' Suffering. Says Cardui Made Her Well.

Texas City, Tex.—In an interesting statement, Mrs. G. H. Schill, of this town, says: "For three years I suffered untold agony with my head. I was unable to do any of my work.

I just wanted to sleep all the time, for that was the only ease I could get, when I was asleep. I became a nervous wreck just from the awful suffering with my head.

I was so nervous that the least noise would make me jump out of my bed. I had no energy, and was unable to do anything. My son, a young boy, had to do all my household duties.

I was not able to do anything until I took Cardui. I took three bottles in all, and it surely cured me of those awful headaches. That has been three years ago, and I know the cure is permanent, for I have never had any headache since taking Cardui. . .

Nothing relieved me until I took Cardui. It did wonders for me."

Try Cardui for your troubles—made from medicinal ingredients recommended in medical books as being of benefit in female troubles, and 40 years of use has proven that the books are right. Begin taking Cardui today. NC-134
