Wichita Falls Gets Insane Asylum

Austin, Nov. 28.—The board to Northwest Texas Insane Asylum consisting of Governor Hobby, W. A. Johnson, president pro tem of the Senate, and Attorney General B. F. Looney, to day, after hearing the claims of the four cities seeking the location unanimously selected Wichita Falls on the first ballot. The other applicants were Fort Worth Mineral Wells and Sweetwater.

The board indicated that its intention is to have the contract let as soon as possible and to have work of construction begun early next spring, the asylum to be completed and ready for occupancy by January 1, 1919. The Thirty Fifth Legislature appropriated \$400,000 for the establishment of this institution.

Paying for Liberty Bonds

On November 15, which was the date on which the first installments on Liberty Loan Bonds was due, approximately \$2,400,000,000 was paid in, although less than a third of that amount was due.

In other words, nearly two-third of the aggregate subscriptions to the Second Liberty Loan have been paid in full, the purchasers not availing themselves of the right to wait until December 15 and January 15 to make their other payments.

From Camp Travis.

Division Publicity Officer
Ninetieth Division, N. A.
Camp Travis Tex.

Too much stress cannot be laid upon the splendid tonic effect letters from home has on the soldiers at Camp Travis. Those letters are looked forward to with a zest that can be compared only with the expectations of a child at Christmas time. When the mail comes and is distributed and there is no word from relatives and friends, it takes a terrible amount of mental shaking to loosen the feeling of disappointment in the of the soldier-boy. Mother is naturally expected to write often, and mother seldom fails her boy. But Maud and Mabel, Elsie and Alice are the ones the soldier-boy thinks about the hardest and fret over the most when they fail to write. There is just a sort of feeling that can't be accurately described in the hearts of the soldier-boys that, when they don't hear from their sweethearts, perhaps some fellow who is at least 35 percent slacker has cut a corner and has gotten in the graces of the "girl left behind". The more letters the soldiers receive, the better soldiers they are, and then again the extra cent now put on every letter makes it just that much surer that Berlin will be reached.

A Hostess House has been erected at Camp Travis for the purpose of offering a place where soldiers can entertain their mothers, wives and sweethearts when they come to visit them at Camp Travis. The Hostess House is a large, wide spread one-story building with a screened porch, big living room, simply

but attractively furnished and with a large open fireplace at one end. There are arrangements for a tea room with service on the cafeteria plan, and a comfortable rest room. The Hostess House is conducted under the auspices of the Young Women's Christian Association. If you are coming to Camp Travis to visit your friends or family, the Hostess House is an ideal place where you can be entertained.

To the Herald and its many readers.

Dear Friends:-
The Dear old Herald reached us on time this week and of course was read with eager eyes for it is just like getting a long letter from home. Of course we are interested in our work here but we are always glad to get the news from Terry. When one soldier meets another the first question asked is, "When did you hear from home?" So you can readily see that the Herald is a mighty good friend to "Terry's Soldier Boys."

We rec'd the news last week that there would be no furloughs issued for Xmas, except in case of serious sickness or death. Most of the boys report that their folks were never in better health so we have about come to the conclusion that if there is any visiting done that you will be the one to do it.

I have not seen all the boys this week as they are all quarantined, either against the measles or mumps, but from all reports they are getting along O. K. There just three boys from Brownie in my company, Skinny

Williams, Jack Wright and myself. I guess we are making pretty good soldiers as Uncle Sam has raised our wages to \$36 per.

The Government issued us our winter underwear, a good overcoat and a heavy duck suit last week. We are beginning to think that they are going to move us some where pretty soon. We are expecting to get our O. D. before this week is gone.

We had a nice Thanksgiving dinner and we are now whetting appetite for that Xmas dinner. Nearly every boy got a cake from home so we had enough cake to last nearly a week, and believe me it was certainly appreciated to. The Lieut. made us a nice talk and said he wished we could have that kind of a dinner every day, but I am afraid he is mistaken for there would not be much drilling.

To give you some idea how we are fattening I will tell your our weights, I tip the scales at 175, M.E. Williams 189, and Lawrence Green at 200 lbs.

As we have just returned from the Y.M.C.A. and is near bedtime, I will bring this to a close, so girls, if you want to spread joy in Camp Travis, just drop us boys a line once in a while.

Yours truly,
Terry County Boys in Motor 2

Some Facts About War Insurance

Any man or woman in the active military or naval service of the United States can obtain Government insurance. It has been ruled that members of the Officers' Training Camps are under the act and can obtain insurance. The cost for each thousand dollars of insurance is from from sixty-five cents a month to one dollar and twenty cents a month to those of the age of fifty one.

The beneficiaries are limited to wife, husband, child, grandchild, brother, or sister, stepbrother or stepsister, adopted brother or adopted sister of the insured, as well as the parent, grandparent, or stepparent of the insured of his or her consort.

The insurance is not compulsory, but the cost is low and the protection great, and not only are all persons eligible afforded every opportunity to obtain this insurance without trouble or extra expense but they are specially urged to do so.

Gen. Pershing and thousands of other officers and tens of thousands of soldiers have already taken out insurance. Up to date policies of insurance have been issued aggregating \$1,032,938,000.

The Case Against Rats and Mice.

Rats and mice are among the worst animal pest in the world according to biologists of the United States Department of Agriculture.

From their home among filth they visit dwellings and store-rooms to pollute and destroy human food.

The rat carries bubonic plague and many other diseases fatal to man and has no doubt been responsible for more untimely deaths among human beings than all wars of history.

In the United States rats and mice destroy each year in homes in factories, stores, and warehouses, in cars and on ships, crops, poultry, and other property valued at more than \$200,000,000—an amount equivalent to the gross earnings of an army of 200,000 men.

Grain eaten and wasted by rats and mice on many farms would pay all the farmers' taxes.

Rats and mice breed from 6 to 10 times a year, producing their destructive kind at an alarming rate.

They are parasites without a single redeeming characteristic.

SOME MARKS OF BRIGHTNESS

Intelligent Boy and Girl Declared to Be Conscientious, Moderately Robust, Athletic and Popular.

In summing up his conclusions on the relationship of intelligence to the size and shape of the head, Karl Pearson is quoted in the Journal of Heredity as making these statements about the intelligence of children:

"To sum up, then: While no characters in schoolchildren so far dealt with show very high correlation with intelligence, we may yet say that the intelligent boy is markedly conscientious, is moderately robust, athletic and popular; he tends rather to quick than to sullen temper. He is more self-conscious and quieter than the dull boy; he has a slightly bigger head, and possibly lighter pigmentation than those of more mediocre intelligence. His hair has a larger percentage of curliness.

"The intelligent girl is also markedly conscientious, moderately robust, athletic, and popular. She, too, tends to quick and rather sullen temper. She is less self-conscious than the dull girl, and noisier than the girl of mediocre intelligence. It is the slow girl who is quiet and shy. The intelligent girl has a slightly bigger head than the dull girl, and her hair is more likely to be wavy and much less likely to be curly.

FOUND THE PRISONER GUILTY

But Jury's Verdict Had Nothing to Do With Charge on Which Defendant Was Tried.

A barrister with a long experience of queer juries in the mining regions of Pennsylvania tells the following amusing story as illustrating their eccentricities:

A man was charged with committing a murderous assault upon another as a result of some political differences.

The assault having been committed at night, there appeared to be some difficulty in identifying the assailant, and, as a matter of fact, the counsel for the defense made out an excellent case for the prisoner, calling witnesses to testify that he was nowhere near

at the night. Everybody expected that the jury would return a verdict of acquittal. To the general astonishment, the jury announced that the prisoner had been found guilty. "But," he added, describing the general consternation created by his statement, "not guilty of this assault, yer honor. This is the spalpeen who stole Biddy McCarthy's pig last year, and we found him guilty of that!"

To Bead Georgette Crepe.

To bead georgette crepe stamp the pattern to be beaded into a piece of heavy white writing paper, then baste this onto the cloth with little, fine stitches. The pattern can be very plainly followed, and, being on the stiff paper, it is very easy to handle.

The Sign of the Red Cross

Millions and millions of stricken people in devastated Europe must depend on the activity of the Red Cross alone for the most meager necessities of life—just enough to keep body and soul together. The Red Cross organization is the universal helping hand. But in order to extend this hand to the sorrowing and afflicted, it must have your support. In fact, if you would do your part to relieve the suffering in the world, you can do it most directly and efficiently through the Red Cross. Become a member today.

Are You Serving
The Enemy?

It is and must be a characteristic of this world war for De-

mocracy that each and every one of us serve in it—not now and then, if we happen to feel like it—but all the time, whether we feel like it or not. If we go to the front we are serving; if we eat less bread we are serving. When we write a letter and put a three cent stamp on it we are serving. And we are serving in this war just the same if we dodge, or attempt to dodge, our duties as loyal Americans—only we are serving the enemy, Prussia.

Without question we serve this enemy if we fail to do our utmost to support our great national organization the Red Cross. No second agency can do so much to bring cheer, comfort, succor to our boys abroad—to our sons, husbands, brothers "somewhere in France." No agency can do so much to foster the good will of our allies toward us, or their whole-hearted confidence in us. Not to be a member of the American Red Cross (and simple membership cost \$1 yearly) is definitely, even though thoughtlessly, to help the Kaiser. There is no exaggeration in that statement. The fighting marole of our troops, and of those of our allies, will very largely depend upon what you and you and YOU, men and women of America, enable your Red Cross to do for them. In the final analysis it is up to you.

So if you have failed, through thoughtlessness or merelaziness to become even a dollar member of the Red Cross, think over it for a minute (or less)—then decide that you are pro-Americans to the core and join today.

This Christmas membership drive of the American Red Cross was launched expressly to bring ten million thoughtless Americans into the patriotic fold. When the drive is over, if you have not joined your local Red Cross Chapter you will no longer be allowed to plead thoughtlessness. You will be looked at with growing suspicion by your loyal neighbors who have the Red Cross serving flag in their windows. And they will be right.

Thrift Thought

Spread the meat flavor over other foods, and so economize on the quantity of meat consumed, says the United States Department of Agriculture. Here is one way to spread the flavor.

Meat stew with dumplings.—Make a stew from a cheap cut of meat cut into small pieces, potatoes and such other vegetables as are desired. Thicken with a little flour diluted with cold water. Serve with dumplings made as follows:

Mix and sift one cup of flour, two tea-spoonfuls of baking powder, and one-fourth tea-spoonful of salt. Work in with the fingers one tea-spoonful of butter; add gradually one-third of a cup of milk, or a little more if needed. Roll out one half inch thick and cut with a biscuit cutter or in square pieces. The dumplings may be steamed, baked like biscuits, or cooked with the stew. In the latter case remove enough liquid to permit the dough to be placed on the meat and vegetables.

Baby beeves give quicker returns on the money invested in them, but to raise them requires more skill, better stock and more grain.

Poultry The Best Chance

Poultry must be produced next year in places where it has not been produced before, and everywhere that poultry has produced that production must be increased. It is necessary that people in the country and in the towns answer alike to this call. Farms and backyards must both do their bit, for the doubling of our poultry production next year is an indispensable item in the Nation's food production program—a program which must be carried out if we are to win the war.

The meat supplies available for European use are short. Meat must be supplied if the war is won—by the forces who fight for freedom. The war will be won if we fail in food production but not won by us. We must understand that what will happen if we do not provide the enormous quantities of foodstuffs that the allies cannot produce for themselves.

Are we going to feed our Army on chicken and eggs? Of course not. But by greatly increasing our production of chickens and eggs, and by eating those chickens and eggs ourselves we will, naturally, eat that much less beef and pork. In turn, that beef and pork can be sent to Europe.

The United States Department of Agriculture calls upon the country to double poultry production next year. That can be done if the farms will keep an average of 100 hens instead of an average of 40 hens, as at present and if every family in town will keep enough hens in the backyard to produce all the eggs used by that family, or two hens to each person.

Have you investigated the war saving stamps at the post office? If not, better go in and have the postmaster explain. You can start a saving account with 25c, and when you get four dollars, add twelve to twenty-four cents, owing to how long you are about raising the four dollars, turn in the stamps, and get a government bond that Uncle Sam will cash for \$5.00 in 1923. Get the saving habit.

Brownfield, Texas

We had a letter this week from our old friend, J. T. Gainer, who is now at Midlothian, Texas, ordering us to send his Herald there. He says he is getting along fine, though anxious to get back to the Plains.

Some of the coldest weather of the season, was registered at the Government station recently. Last Saturday morning, the minimum registered 4 above, Sunday morning 17 above, and Monday morning 7 above, Tuesday morning 9 above and Wednesday morning 18 above zero.

L. C. SMITH No. 2. typewriter, full tabulating attachment, in perfect condition; at a bargain. See O. T. Halley at bank.

We request the readers who have relatives in the service of Uncle Sam, other than Camp Travis, to let us know every once in a while how they are getting along, as we do not hear from any except Camp Travis. We do not want to publish letters to relatives as that is against the wishes of the War Dept., but we do want to let people know how they are getting along.

The job department of the Herald printed a batch of two-page circulars this week for the popular dry goods man, M. A. Smith, and before many readers get this paper, one of the biggest dry goods sales ever put on in Brownfield, will be in full blast. Many things in the dry goods line will go in this sale at less money than the wholesale cost on that article now, and those in need of dry goods can well afford to come a long distance to Brownfield, to attend this sale.

Don't forget that Sunday is Bro. Liff Sander's day in Brownfield, at the Church of Christ. You are invited to be on hand at both morning and night services. Despite the cold weather, the mid week Bible study and prayer meetings are kept up, and the Sunday School attendance is well around 75 every Sunday.

THE GREAT QUESTION

PART II.

We will assume that you have agreed the conclusions in Part I, and have resolved to produce more wealth, to work harder, and to deny yourself in the matter of food and luxuries.

Soon after adopting these measures you will find yourself growing richer, accumulating money at a much greater rate than ever before.

Your duty and your common-sense demand that you loan this money to your Government.

By doing this you will make a very definite contribution to the success of the war. The additional crops you grow, the additional hours you put in at your work, the little hardships you endure, as you economize, will feed soldiers, will buy guns and ammunition, build air-ships; will crush Germany, will make the world safe for business and safe for democracy.

How can you best lend your wealth, the product of your labor and self-denial, to your Country?

By buying Liberty Bonds.

"But," you say, "The Campaign for the Second Liberty Loan is over."

Yes. The flags have ceased to wave, and the bands have stopped playing, but have you a Bond? Or if you have, have you purchased to the limit of your ability?

In those sections where people were indifferent to The Loan, the Bankers came forward, shouldered the responsibilities of their customers, and bought Bonds far in excess of their share, because they believed that sooner or later, their customers must see reason, and would be anxious to purchase Bonds. If you have no Bond, purchase one from your Banker just as soon as you are able. You will be doing a man's part, "doing your bit," shouldering your own responsibilities, instead of allowing the Banker to do your duty for you.

Some men seem to regard the purchase of Bonds as a mysterious business, and feel that they are sinking their money forever in the purchase.

A Bond looks like a great big \$50.00 or \$500.00 Bill, and is wonderfully like one in its uses. There is one great difference, however, a

\$50.00 or \$500.00 Bill bears no interest, whereas, a Liberty Bond bears 4% interest.

How easily can a Bond be turned into money?

Almost as easily as a Bill of large denomination. While you buy your Bond with the idea of lending the money to your Government, there are thousands of people ready to relieve you of your responsibility, should you find such a course necessary.

Millions of Dollars worth of Liberty Bonds change hands every week. Everywhere, Commercial Firms are beginning to advertise that they will accept Liberty Bonds in payment of accounts.

"Why," you say, "I might as well own Bonds as money."

Better; far better.

"Why then, do you make this special appeal, and beg of me so earnestly to buy Bonds?" you may ask.

Because, when you buy these Bonds, the Government has the use of your money; can use it to win the war. If you from failure to understand the situation, insist that your money shall not be used by the Government, you are taking up a selfish attitude, lacking in both common sense and patriotism.

It may be your money was not available when the last Loan Campaign was in progress. It may be you intended to buy a Bond, but allowed the lists to close before you got around to it.

Here is your chance. Go now to your Banker, ask him whether this little article contains the truth, ask him whether he has Bonds on hand or will obtain one for you, then buy to the limit of your ability.

Whatever you do, whoever you are, and whatever your business start working, saving, economizing now for future Loans. There will be others, one probably early next year, for the end of the great struggle is by no means in sight.

The writer of these lines has nothing but the good of our beloved Country at heart--no one makes one cent out of your Liberty Bonds, but yourself. Earnestly, sincerely, as one American to another, he bids you remember this message and warning.

"We must get together for greater efficiency."

"We must save or perish."

Turning Hose on Your Clothes.

Have the garden hose so adjusted that it will give forth a fine spray; then use it to sprinkle the clothes while they are still on the line. They may then be rolled up and laid in the basket ready for ironing as soon as they can be taken down.

Brownfield's music and Literary talent have arranged a most attractive program for Monday night, Dec., 31st, at 7:30 o'clock sharp, at the Queen Theatre. Publiccordially invited to attend. Watch for full program in next week's issue of Herald.

Mrs. J. M. Courrier went to Haskell, Tex., after her daughter, Mrs. Ed Neill, who is in bad health, and on their return Mrs. Neill took worse and they stopped at a sanitarium at Lubbock, where she will remain until improved enough to be brought on here. Mrs. Neill, formerly Miss Lula Courrier, has many friends here who will be sorry to hear of her sickness.

Homer Ingle recently sold his home just across the draw to John Hall, and Shorty is building another neat little cottage in the eastern part of town. That is one way to make a city out of a town.

The Baptist people aim to begin weekly prayer meetings and Bible study in a few weeks. Aside from the devotional part of these meetings these long winter nights, the chance to learn God's will and the diversion are fine.

Sullivan & Scott have discontinued their repair business in the rear of the Bradley Garage, thus turning over the whole building to the latter. Mr. Sullivan has accepted a lucrative position with a garage at Tahoka and we understand Mr. Scott will push the sale of Overlands.

News from Stanton Tex., is that Mr. Blankenship's dwelling there burned last week, with all its contents. The fire is supposed to have started from an oil cook stove, but no one was at home at the time the fire started, which was near nine o'clock in the morning.

Jim Moore made a business trip to Lubbock last Thursday afternoon returning home Friday.

Messers N. W. and Ira Jones got in last Friday from their trip to Red River Co., where they went with a drove of horses to sell.

Dr. Ed Lee and family of Plains passed through our town last week enroute to Big Springs where they expect to make their home in the future. We have known Dr. Lee for many years, and can say without reserve that both as a citizen and a Dr., he and wife are a desirable addition to any community. We wish them success and happiness in their new home.

Messers W. T. Fulton, O. E. Adams, Dr. Maddux and Gus Randolph all spent last Monday in Brownfield.

Misses Mildred and Belle Odam of south Terry were here Monday.

Mr. Jim Whisenant and his cousin, Miss Myrtie Whisenant came in Tuesday. Miss Myrtie spent the day here, but Jim went on to Tahoka returning late in the afternoon.

Since last Thursday the weather has been as cold as we have ever seen it here, when the sun shined all day and there was neither snow or fog.

Late news from R. W. Glover and Will Moore states they are still in Arkansas selling out the horses they shipped there.

Although our merchants had a full stock of vegetables and fruits on hand, they report no losses from freezing except A.P. Moore lost a bunch of bananas and a sack of Irish potatoes on Thursday night; he did not think there would be ice in the store, and so left them unwrapped.

Mrs. Miller and Miss Clara Summit went to Brownfield

Wednesday, shopping.

A piano recital was given at the school auditorium on Friday evening Dec., 7th, by the pupils of Miss Blankenship's music class. The program was as follows:

Duet—(a) Charge of Uhlan (b) Morris Dance—Clara Summitt and Bernice Shepherd

Reading—Josie Hudson
Solo Piano—Intermezzo—Bernice Shepherd

Solo Vocal Perfect Day—Clara Summitt
Duet Vocal—Clara and Doyle Summitt

A good crowd was out despite the severe cold weather, and those present said the entertainment was real good and all who taken part in it done well.

"By My Grace, Ruler of The United States of America."

Out of the archives of the British Government, comes a secret report of a speech made by the Kaiser at a war council in Potsdam in 1908. The All-Highest said:

"Even now I rule supreme in the United States, where almost one-half of the population is either of German birth or German descent, and where 3,000,000 voters do my bidding at the Presidential elections. No American administration could remain in power against the will of the German voters who, through that admirable organization, the German American National League of the United States of America, control the destinies of the vast republic beyond the sea. If a man was ever worthy of a high decoration at my hands it was Herr Dr. Hexamer, the president of the league, who may justly be termed to be, by my

grace, the acting ruler of all the Germans in the United States."

Hexamer was President of the German American Alliance, member of the Executive Committee of the National Associations of Commerce and Labor, the oddly named "dirty work" bureau of the United States Brewers' Association, and Supervisor of the Beer Lobby in Washington.

Hexamer was decorated by the Kaiser with the Order of the Red Eagle.

It will be decades before this country realizes the immeasurable debt it owes to its loyal German-American citizens who refused to follow the brewers and the Kaiser, standing steadfast for America and the flag.—Board of Temperance Clip Sheet.

CONSTIPATION

And Sour Stomach Caused This Lady Much Suffering. Black-Draught Relieved.

Meadorsville, Ky.—Mrs. Pearl Patrick, of this place, writes: "I was very constipated. I had sour stomach and was so uncomfortable. I went to the doctor. He gave me some pills. They weakened me and seemed to tear up my digestion. They would gripe me and afterwards it seemed I was more constipated than before."

I heard of Black-Draught and decided to try it. I found it just what I needed. It was an easy laxative, and not bad to swallow. My digestion soon improved. I got well of the sour stomach, my bowels soon seemed normal, no more griping, and I would take a dose now and then, and was in good shape.

I cannot say too much for Black-Draught for it is the finest laxative one can use."

Theford's Black-Draught has for many years been found of great value in the treatment of stomach, liver and bowel troubles. Easy to take, gentle and reliable in its action, leaving no bad after-effects, it has won the praise of thousands of people who have used it. NC-135

\$100 Reward, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Cure is taken internally and acts thru the Blood on the Mucous Surfaces of the System, thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative powers of Hall's Catarrh Cure that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.
