#### Blizzard

A brisk sand storm surged up from the south Wed., and prospects were good for rain about night, as clouds were to be seen hovering in the north and west, and indeed rain did begin falling just after dark, and during the night some snow fell, but by daylight, all prospects for the long awaited moisture was gone, as a howling norther had struck — the all too frequent visitor here in winter.

Three hours after the above was written, we found we were a little too previous in our prognostications, as during that interval, the wind had shifted to the northeast and the elements were full of snow. In fact, we found ourselves in the big middle of a regular Kansas blizzard and mercury seeking the bottom.

This spell will be real tough on cattle, which are already

rather thin, but we understand most all the stockmen are pretty well fortified with cake and hay. However, the moisture will put life into the farming and business elements.

**LATTER:**—The storm developed into the worst seen on the Plains by even the oldest cowmen. All day and all night snow and sleet were driven by a wind that rocked a high velocity, and by morning mercury had reached 7 below zero. Sat. morning was not much better, still being five below zero, and to cold to print the Herald, which will be delayed until a change in temperature.

Albert Crews and wife and W. G. Hardin got lost in the blizzard in a car and spent a horrible night near the Lynn county line, and in half a mile of a house. They came very near freezing, as also did Dr. Ponton and wife, and Homer Scott, but the latter had the advantage of feet warmers and blankets.

Hundreds of cattle, chickens etc., froze to death. Snow drifted six feet high in places.

More next week.

**MONDAY:** Another snow falling this morning, as we get ready to go to press.

#### Duke-Whisenant

Mr. Dewey Duke and Miss De Alva Whisenant were married here Dec. 25th, at 3 p. m., Rev. Vinson officiating.

Mr. Duke was practically reared here, though has been living at Tatum N. M., the past year. He is a splendid young man, and has many friends.

Miss De Alva is one of our best and most highly respected young ladies; is talented and a beauty. They will make their home in Fort Worth.

Herald extends congratulations. This article should have appeared last week, but in the rush was over looked.

#### LOCATING SLACKERS

Through the presistent efforts of the Local Board they now have one deserter in jail in Colorado, another in hands of Sheriff above Lubbock, and expect to land the third one before the week is out, being on a hot trail.

These three white men, failed to answer the orders and calls. One Negro is also delinquent, from the old call, but as they all look alike to the Board, and they not beins used to the African, are at loss in hunting for him.

These are the only four, out of 150, that failed to come when called.

GEO. W. NEILL

After considering the matter very seriously, and talking with my friends I have decided to sell my three year old Durham Bull for \$50.00. See him at the pasture or me at the office.

#### Feeding Cottonseed Meal or Cake to Hogs.

Mr. C. M. Evans, Chief Animal Industry Division Extension Service Agricultural and Mechanical College of Texas, says:

"Cottonseed cake or meal is not a satisfactory feed for hogs when fed alone. A full ration of cottonseed meal or cake will cause death after a short feeding period; however, if only a certain amount of cottonseed meal or cake is fed in connection with corn, rice bran or some of the grain sorghums to balance the ration, splendid results may be had. For this purpose not more than 1 pound of cottonseed should be fed to every 10 pounds of corn or similar feed. For further information write to the Extension Service, College Station, Texas."

R. M. Kendrick, cashier of the First State Bank, of Plains was over here on business last week.

## SAWYER-SPEEGLE

Mr. Arther Sawyer and Miss Irene Speegle were married at Sherman, Texas, Dec. 31st about 3 p. m.

Miss Speegle who is a niece of W. G. Hardin of this city, was here during Christmas, and left for her home at Dennison soon after and in a few days Arther disappeared and the wedding culminated at above place.

About four years ago, Miss Speegle made her home here with her uncle, and their courtship dates back to that period.

Mr. Sawyer is the eldest son of Mr. and Mrs. M. B. Sawyer, is a young man of splendid manner well educated, and as a stockman has made his mark; was reared here and ever body is his friend.

Mrs. Sawyer, is modest refined and beautiful. There is no compliment to high for us to pay her as she was a member of the Herald force for several months a few years ago, and we are in a position to know her.

Herald joins their many friend in wishing them a prosperous matrimonial voyage, and welcoming them back to old Terry.

## A Remarkable Sorghum Yield.

The following incident reported by the County Demonstration Agent of Donley County to the Extension Service of the Agricultural and Mechanical College illustrates the value of farm Demonstration methods when properly followed:

"Mr. I. H. Doom, a farmer of Donley county, planted ten acres of honey cane and from the product made 135 gallons of syrup per acre, or a total of 1350 gallons. The entire expense of planting, cultivating, harvesting and making syrup is reported to have been \$85, including all man and horse labor. The yield from the ten acres was sold at 80 cents a gallon, bringing a total of \$1,080, leaving a profit of \$993.50, which is \$99.35 an acre. Besides this Mr. Doom will have 200 bushels of seed, worth approximately 10 cents a pound. A photograph taken of this field in October shows a wonderfully thick and even growth, these features being especially noticeable since it was produced in an extreme western county in a dry year. For information regarding farm problems write the Extension Service, College Station, Texas.

#### Preamble.

Whereas, the teachers of Lubbock, Crosby, Garza and Terry counties realizing the great responsibilities resting upon them in this great crisis, when the civilized nations are fighting to make the world safe for democracy and eventually to establish universal peace, have assembled in the city of Lubbock to better prepare themselves to meet these responsibilities; therefore, be it resolved:

1. That we extend our thanks to the people of Lubbock, and especially the reception committee, for their courtesy and generous hospitality during our stay among them.

2. That we extend our thanks to the orchestra for the splendid music, also to those who have been instrumental in preparing and executing the very interesting program each morning.

3. That we as a body of teachers desire to express our appreciation and the untiring and successful efforts of our visiting instructors, Dr. Fletcher, of the University of Texas; Dr. Taylor of Howard Payne College and Dr. Hays of the A. & M. also to State Superintendent Doughty and Mr. Hill of Canyon Normal for their instructive lectures. Thanks are also due to the local talent for their able assistance.

4. That we heartily commend the action of the county superintendents of the several counties for making it possible for the teachers to assemble in one great institute for the purpose of studying and trying to solve the great problems of education that confront them, and we also desire to endorse the committee for making the same arrangements for another year.

5. That we extend thanks to Mr. Tackett, Mr. Hodge and Miss Halsey for their kindly assistance in the demonstration work.

6. That a copy of these resolutions be sent to the papers of the different counties for publication. (Signed)

Millella Doolen

#### Feeding Hog.

Mr. Don T. Griswold, of the Extension Service of the Agricultural and Mechanical College of Texas, in replying to a recent inquiry regarding feeding out hogs which weigh about 100 pounds, says:

"Where corn is fed in the proportion of 10 pounds of corn to 1 sound of either tankage or cottonseed meal, you may reasonably expect 10 pounds of pork to each bushel of corn. Any of the grain sorghums or rice bran may be used in the place of corn. If, in addition, the hogs have the benefit of acorns or green pasture an increase of more than 10 pounds of pork to each bushel of corn may be expected. It is difficult to give definite instructions in the feeding of hogs at this time on account of the fluctuating prices of feed stuffs, but generally it may be said a profitable ration for hogs must consist largely of some of the feeds rich in carbohydrates, to which is added a small portion of some feed approximately rich in protein, such as cottonseed meal, peanut meal or tankage. For further information write to the Extension Service, College Station, Texas.

## Governors of 5 States Appeal to Citizenship of Southwest to Enroll in Red Cross Ranks

We, the Governors of Missouri, Arkansas, Kansas, Oklahoma and Texas, realizing the imperative necessity for united effort to shorten and win this most righteous of all wars, appeal to the citizenship of the Southwest to enroll itself in the ranks of the American Red Cross.

During the week of Dec. 17 the American Red Cross will add ten million new members to its roll of patriotic, self-sacrificing, determined Americans. Men, munitions and the spirit of the great American Red Cross will preserve those ideals for which we are fighting and secure a just and lasting peace. The service which the Red Cross is rendering and will render throughout the duration of the war is of incalculable value. It is not less an army than the army in khaki which will impose itself between us in our security and the deadly shell fire of the enemy. And the army in khaki will fight with greater vigor and enthusiasm in the knowledge that fifteen million American men and women stand behind it ready to relieve the suffering and anguish caused by the diabolic instruments of warfare and ready to protect the loved ones left at home.

The work done thus far by the American Red Cross in France and Belgium has stiffened the morale of the French soldiers and given them new heart by reason of its relief work among the civilian population of our allies. The suffering families of the soldiers are being ministered to by agents of mercy wearing the insignia of the Red Cross and the consciousness of this fact has strengthened the men in the trenches to bear the burden during the tedious period of our preparation. Every French, British or Belgian soldier retained in the trenches during this critical period means the saving of at least one American life. We must let our boys know that we are keeping guard over the homes which they are leaving and that the Red Cross stands ever ready to protect and safeguard the wives, mothers and children of the men who have gone to fight, in this the greatest struggle the world has ever known between autocracy and democracy. Membership in the American Red Cross is synonymous with good citizenship.

We urge every person, man, woman or child not now a member before Christmas eve and place in his window with a lighted candle behind it a red service flag as glorious emblem of the fact that the occupants of that house have enrolled in an army not less determined, not less ready to do its share than the army in khaki on whom we are relying so confidently.

Join the American Red Cross, the most powerful ally of our fighting forces, during Christmas week, so that the announcement on Christmas morning of a membership of 15,000,000 may show to our enemies that we are a united and undivided people and that, therefore, our cause must prevail.

(Signed) F. D. GARDNER, Governor of Missouri.  
ARTHUR CAPPER, Governor of Kansas.  
R. L. WILLIAMS, Governor of Oklahoma.  
WILLIAM P. HOBBY, Governor of Texas.  
CHARLES H. BROWN, Governor of Arkansas.

## Red Cross Items.

Workers are needed at Red Cross sewing room. Open every afternoon from 2 to 5 o'clock.

Socks require 1 1/2 hanks of yarn. (3-8 lb.) Use only grey wool in making socks. To shrink wool, wash it in the hank in tepid water, in white soap suds. Rinse in clear tepid water until free from suds, put it in a sack to keep from stretching and hang it out to dry. Wool for socks must be shrunk as it is greasy. Measure by inches instead of counting rows. Break all knots and splice. Four Red Cross needles may be used, Nos. 12 or 13, steel or bone. Above is official.

You can not use Red Cross wool unless you follow Red Cross instructions for knitting.

Constant and urgent calls are coming to the Bureau of supplies for knitted helmets. This does not mean that the need for sweaters and socks has dis-

minated, but it does mean that an increased output will be necessary from knitters. Of this output, helmets should be an important part.

## WHAT BROWNFIELD NEEDS.

We have often told our readers what we have, but in a way we neglected to tell you what we need. Brownfield stands in serious need of:

An adequate system of water-works and fire protection. How to get this, may be better understood by others, but it should be gotten and at once. Several times recently, we have seen both public water tanks absolutely empty. Had a fire occurred, we would have had nothing else to do but just watch it burn. Yet, some people are unalterably opposed to bond issues for any purpose, but a bond issued would be forgotten long after a disastrous fire is still fresh in our memory.

We need our town incorporated. Not to create a big fat salary for any person or persons, but for the protection of public health, and that we might be able to grant franchise to industries seeking locations in our town.

We need electric lights. A town never develops into a city

in the dark.

We need a first class High School building. A good school building draws the class of people we are after.

We need some more street improvements, and the vacant lots grubbed off so they will not catch paper and other rubbish. A ragged town is about the most unsightly sight this side of ragtown.

We need four first class roads and many second class roads leading out from the county site, but it takes money to build roads, and how are we to get the money. Our idea is a bond issue. What is yours? If you have a better way lets have it, but for pitty sakes, lets get the roads. There are lots of people coming here to trade and they wont to keep on doing so, but we must make it easy for them to get here, or they will go to a place that does provide good roads.

Shall we retro-grade or develope? There is no such thing as standing still. You either go forward or backward.

It is a fact that we have just passed through a very hard, dry year; yet we have kept our head above board, but this is accounted for in a measure because of railroad developments.

But because we had a dry year in 1917, that isn't a particle of reason why 1918 will be like it. If Uncle Sam had hesitated to enter the war because we were not prepared or did not have all the money by us, Kaiser Bill would have done slapped Wilson's jaws ere this.

As dry as 1917 was, the Herald invested over \$1000 in new type, presses and machinery. We have been here nine years, and last year did not scare us. We are preparing for the future. Others too numerous to mention have put their hats in in the ring, some, "more samer" than we.

We are for Brownfield and Terry county first, last and all the time. We have been here long enough to learn to love its people and to have confidence in the red sandy soil of our beloved county.

It will rain again as of yore, The county will come again, and the town will grow as it never grew before.

In our opinion, nothing is too good, and no sacrifice to great to make for our town and county. What shall we do in 1918.

Otho Welch has secured a position as helper at the Santa Fe depot. A position with a big railroad company, means much if a fellow has get up about him. The promotions are frequent and the wage increase very noticeable.

TRASYED: A white faced brindled cow, about 7 years old, heavy built, medium sized, strayed out of M. V. Brownfield's pasture. Reward for information about her. H. L. Ware, Brownfield Texas.

**A Father's Plea**

The following clipping was handed the Herald by a friend and is published for the good it might do. It is taken from the San Antonio Express:

To the editor of Express, I am going to make appeal to you to help me and mine in a humane way. I have just returned from Camp Bowie with my dead boy, had one to die in South Carolina, Monday morning, December 3rd I sent a telegram to the other one at Camp Bowie to come at once. I had a return wire that he was dying. I went at once and found him dead. I had never been notified of his being sick. When I got there one of the lieutenants told me that he had been trying to see him for five days to write his insurance, and they would not let him in, but when he took the telegram he found him past human aid. My boy on Sunday, November 25th, sent word to one our neighbor boys (who is at Camp Bowie) to come and bring him some fruit or something that he could eat. So this friend was on duty and could not go, but bought the fruit and sent it by a schoolmate of my boys. The hospital authorities would not let him in. He tried time and again to see my boy but could not get in.

When I met him in camp December 4 at 4:30 p. m. he did not know that his friend and schoolmate was dead. They both enlisted together in the same company.

Now the point is this: The Red Cross is taking up money for the soldiers and are getting lots of it. They are going to knit their sweaters and now what they need is nurses and nourishments something they have not got at Camp Bowie. I saw two of the boys fed. Their supper consisted of camp bread, beans, raw tomatoes and coffee. One of them could go it and the other one was trying when I left.

I saw three taken to the hospital from San Marcos company while I was there; knew one of them. He is a son of Henry Muller of San Marcos. He volunteered to fight for his country. They had him on a stretcher with one blanket over him, carrying him head first with head uncovered. They had to carry him about 500 yards and he had just been taken out of bed with a bad case of pneumonia and was seriously sick. The wind was blowing at a gale from the north and nearly freezing.

Now gentlemen, you as public men, can't you help those boys some way? The Red Cross knitting is not worth one penny to a sick soldier. They need nurses and nourishments. Those knitted sweaters are not worth one penny to the boys. I appeal to the Red Cross to send nurses

and nourishment!

My boy died with his summer clothes on, and was buried in his shirt sleeves. He had no coat nor overcoat. They need a heavy comforter on the cots and a quilt over the blankets.

Those boys have to have help and at once. I know that many died. Now, this appeal is to the public in general, to the Red Cross and Y. M. C. A. in particular. The only thing in particular that I could find had been done was that the Y. M. C. A. had permission of the authorities to run the picture show on Sun. and to charge double the regular price and to send a preacher to preach to them. That is nourishment mentally, but they need bodily comfort. The knitting of clothes is wasting time if they really want to help the boys.

I am ready to make affidavit to what is written here. I have no more boys up there, for I buried two in one grave the other day. But my neighbors have boys up there and if I can save the life of one I will be well paid. Of course it would be nice to save their souls you nor I nor the Y. M. C. A. nor the Red Cross can do that when they are actually

suffering for bodily attention. It is enough to make an atheist of a preacher to go and look at those poor boys. The country is going wild over all those helps for the boys, but it don't reach the boys. They don't get what they really need.

My poor boy died but he didn't die for his country; he died for the want of care and nourishment

## AMERICAN WOMEN OPERATE RED CROSS CANTEENS ABROAD

CARE OF U.S. SOLDIERS AND SAILORS ORGANIZATION'S FIRST AND SUPREME OBJECT.

MEAL COSTS ONLY 13-CENTS

Shower Baths, Barbers, Movie Theater—Everything Free Except Food—Work Near the Firing Line.

First and supreme in the work of the American Red Cross, which will launch a Christmas membership drive for 2,000,000 more members in the Southwest Monday, Dec. 17, continuing until Christmas eve, is the care of Uncle Sam's own army and navy.

The safety, health and comfort of the men who are fighting the country's battles 3,000 miles from home will at all times be the prime object of the organization's attention.

When French army officers were asked what the American Red Cross could best do to hearten the army and give the soldiers a concrete token of American co-operation they said: "Give us canteens and rest stations."

The Red Cross is accordingly establishing canteens at 11 important railway stations in France for the special use of soldiers on leave, who are constantly passing on their way to and from the front. The woman's bureau undertook to recruit 100 women to serve in canteens and rest rooms in France. Only women of robust health, between the ages of 30 and 50, were considered, and applicants were required to show that they had worked for the American Red Cross or in regular occupations requiring a high order of service and a capacity for self-sacrifice. Fifty-two of these women already are in France.

Serves 2,000 Troops Daily. The first of these canteens was opened in September and began immediately to serve large numbers of French soldiers and some American troops. It has been used by an average of 2,000 men daily. The first visitors were a troop of chasseurs who had been instructing the American troops, and on the same evening a large number of American engineers, leaving by train at 1 o'clock in the morning, were given a warm welcome. There are 18 women who serve day and night. The menu includes soup, bread, meat, vegetables, salads, cheese, eggs, coffee, chocolate and tea.

Arrangements for announcing the departure of trains have enabled between 300 and 400 men to catch a few hours of much-needed rest in comfortable, clean quarters, without fear of missing their trains. Six hundred men can be so accommodated. Show-

and wash basins also are provided. Everything Free Except Food.

The picture presented by such a canteen when it is filled with soldiers is described in a cable from Junius Wood, American war correspondent, in part as follows:

Jack of a long porcelain-tiled counter American women in white caps and white aprons are pouring coffee, ladling soup and handing sandwiches as fast as their arms could work. In front was an unending line of soldiers, American and French, with bowls of soup or coffee in one hand and sandwiches, sausages and tobacco in the other, making their way gingerly through the crowd from the counter to seats at the tables in the dining room. This canteen seats 60 an hour in the dining room, which is capable of handling 5,000 guests daily. There are twenty-one shower baths, a roof shop, a clothes sterilizer and bombproof safe theater. All is free except the food, for which there is a nominal charge. On the other side of the railroad tracks a garden has been laid out where, in Alaska, the French Government dispenses wine to its own troops. While waiting for trains the soldiers relax and rest. Everything is sold at cost, no allowance being made for the big overhead expenses. In addition, much is distributed free. A bowl of soup, which is quite different from the usual non-flavored greasy hot water, costs 3 cents, and other things are sold at proportionately low prices. Soup and coffee are both served in bowls.

There are no spoons, cups, knives or forks, or these never return. For 13 cents one gets a dinner consisting of soup, beef or lamb, vegetable salad, cheese, pudding or fruit, coffee, acetate or beetroot. Tea is brewed especially for British troops.

Near the firing line the American Red Cross is establishing field canteens. Extending the work already begun by a branch of the French Red Cross, it will provide one of these canteens for every corps of the French army and later for the American army as well.

A field kitchen is maintained there from which the refreshing drinks are distributed along the front by wagons and light motor trucks. Four thousand portions—coffee, tea, cocoa, bouillon, lemonade, etc.—are sometimes served from one canteen in a single day.

## 15,000 NURSES ENROLLED FOR RED CROSS DUTIES

Fifteen thousand nurses already have been enrolled by the American Red Cross, many of whom have volunteered for war service, according to a statement made public at Red Cross headquarters.

About 2,000 already have been sent to Europe. It is estimated that the present registered force is sufficient to care for any army of a million and a half, and approximately 1,000 nurses are being added monthly.

Keep Christmas, 1917, by keeping up the Red Cross.

## HOW MONEY GOES ROUND IN A CIRCLE

"There won't be any money left in the country if they keep on asking for these loans."

How many times do you hear such a remark made about the Liberty Loan? Perhaps you may have even thought something of the sort yourself.

To a man not used to finance the thought is a very natural one. Let us think this thing out.

In the first place, practically all of the money subscribed to the Liberty Loans stays right here in the country, and a good deal of it stays right in the locality from which it is originally subscribed. So this talk about "draining the country," and about there "being no money left in the country," is sheer nonsense. Let us see how this works out.

We will suppose that you are a farmer, or cotton grower, that you have purchased a Liberty Bond and you are paying by installments spread over several months. Now, unless the government actually needs your money it leaves it on deposit at some local bank which is acting as a gov-

ernment depository—maybe your own bank.

Now, by the time you have paid the LAST installment on your Bond, it is quite likely that the money paid in as your FIRST installment has been used by the government to pay for your own cotton or grain, and you will be returning this very same money to the bank to be placed once again to your account, or to apply on your purchase of another Liberty Bond.

"But," you say, "how about these millions and millions of dollars loaned to our allies? Does not this money go out of the country?" It does not. Practically all of the money which goes to our allies is lent with the clear understanding that it is to be used for the purchase of goods in this country. Thus you will see that seldom do we actually loan our allies any money at all, but we loan them goods which you produce and for which you are paid. IN SUBSCRIBING TO THE LIBERTY LOAN YOU ARE PRACTICALLY PUTTING CAPITAL INTO YOUR OWN BUSINESS.

Fears have been expressed by some that the government of this country will place such enormous taxation on the public that it will be almost equivalent to taking their capital and their savings from them. The government of this country desires above all things that you keep your capital and keep it working. It wants your cotton and it wants your foodstuffs and is not foolish enough to take away the capital which you need to run your business. This would be "killing the goose that lays the golden egg." The government wants you to get richer so that you may be in a position to lend some of your increased wealth to carry on the war.

For its own good, the government is trying to make you richer, wealthier than ever you were before. Have you any "kick coming?"

And every additional member enrolled in the Christmas membership campaign, which opened Monday, Dec. 17, continuing until Christmas eve, makes not only for victory in the world war, but for everlasting peace between the great nations now fighting together for democracy.

Every time the American Red Cross helps to save the life of a wounded soldier at the front it saves two men—the man who was wounded and the American boy who will have to take his place. In other words, membership in the Red Cross will conserve America's man power.

Work done by the Red Cross makes the burdens of others easier to bear. Hospitals must be supplied in Europe, ambulances must be kept running, nurses must be provided if the United States is to care for the millions of American soldiers to be sent abroad, those already there and those of America's allies.

The Red Cross is not asking for 2,000,000 members in the Southwest division primarily for the money they will bring in, although the need is great, but for the absolute pledge of personal loyalty and co-operation which is so vital to the success of the nation in the war.

The government could, of course, hire knitters, and it could issue pensions for soldiers' families. It could buy other and bandages and hire nurses. But these things are such a small part of Red Cross work that with them alone our cause would fail.

Save in food, in service, in clothes, in luxuries, but not in money. Give it to save the wounded, the suffering, our friends, our country.

By West Wind

A son-in-law of Mr. and Mrs. Ditto, came in last week accompanied by his family. They spent several days visiting relatives here and in Brownfield before returning to their home in Oklahoma.

Mr. Joe West and family came in Sat. from the Northeast Plains where they have been since Sept gathering crops. They will remain now for the children to attend school.

Prof. Bishop and wife gave a dinner last Friday. The guests were Dr. Maddux and wife, Mr. Thos. De Shazo and wife, Mr. R. W. Glover and wife, Mrs. Robert Holgate and children, Miss Madaline Wyatt and Mr. Raymond Simms. From the contents of the basket that was sent to us, we can testify that Mrs. Bishop is an excellent cook, and that dinner could not have been excelled.

Geo. McWhoirter's household goods, left last Saturday for N. M. but George and family did not go until Tuesday.

The supplies for the Red Cross came in this week, and Mesdames Glover and Holgate went to Brownfield Tuesday and brought them here. The society here will work at the Odd fellows Hall. There is 53 members here.

O. E. Adams went to Lubbock Tuesday, he reports that his cattle are real well so far this winter.

News from former Terry citizens now in Arizona is H. L. Williams and family at Lowell, all well and making a good living but Mrs. Williams doesn't think living there beats Terry by any means. Jim Ralston and family are at Alhambra, they too are well, but that is no poor man's country" and so of course as others who have left, they would not object to being in Terry once more.

Mrs. Horace Adams is spending this week visiting her daughter Mrs. Enoch Hunter.

The Odd Fellows installed the following officers last Friday night. J. R. Lindley, N. G. R. E. Bennet, V. S. and J. C. Green Sec. Treas.

### Meadow.

Our school has enrolled several new pupils since Christmas. Mr Brown moved to the S. C. Carlton place and Mr. Bert Beal to Judge Copeland place giving us eight more pupils Meadow is beginning to look like a real lively school.

Mr. Geo. Carter's family with Glenn, Neva and Rena Stricklin spent the week end at a birthday party given by Mrs. O. F. Boyd of Lubbock, for her daughter Lucile. They came back elated over the hospitable way they were entertained.

Miss Rowena and Master Jim Peeler accompanied their brother Dock as far as Lubbock when he returned to Camp Bowie.

Mr. Harry Copeland has several cases of whooping cough at his house. We understand it is hurting the babe; we hope for hasty relief.

Mr. George Ellington is near Texico, looking after his cattle.

At least three cars of cake have arrived at Meadow, recently.

Mrs. Ramer was shocked Fri. to hear of the death of Mrs. Geo. Arnett's babe. Mrs. Arnett is a sister of Mrs. Ramer. This makes three deaths in the family in less than a year.

Farmer

R. L. Graves of Roswell, was in this week to slip up his subscription another year. He looks as good as ever, and says he has not missed a meal since we last saw him. He and wife will eat grub awhile off their son Chas. of the Graves ranch, south of town.

M. A. Smith says his recent sale was the best he ever pulled off, and he has had lots of good ones before now.

Vernon R. Paterson of Plains, passed through last Friday on his way back from a visit to relatives in Red River county. He was accompanied by Mr. A. M. Hallmark of New Mexico, who had been visiting relatives in Bell county.

The Queen Theatre management had their engine worked over last week, and are now giving some good shows.

Dr. Lindsey returned last week from Parker county, where he spent the holidays. He reports conditions flourishing down there.

Homer Scott reports the sale of an Overland to Walter Graves.

Let the Herald figure on your job work, large or small. We are equipped to do the work.

A. V. Taylor was in Saturday after supplies.

### "A SPLENDID TONIC"

Says Hixson Lady Who, On Doctor's Advice, Took Cardui And Is Now Well.

Hixson, Tenn.—"About 10 years ago I was..." says Mrs. J. B. Gadd, of this place. "I suffered with a pain in my left side, could not sleep at night with this pain, always in the left side..."

My doctor told me to use Cardui. I took one bottle, which helped me and after my baby came, I was stronger and better, but the pain was still there.

I at first let it go, but began to get weak and in a run-down condition, so I decided to try some more Cardui, which I did.

This last Cardui which I took made me much better, in fact, cured me. It has been a number of years, still I have no return of this trouble.

I feel it was Cardui that cured me, and I recommend it as a splendid female tonic."

Don't allow yourself to become weak and run-down from womanly troubles. Take Cardui. It should surely help you, as it has so many thousands of other women in the past 40 years. Headache, backache, sideache, nervousness, sleeplessness, tired-out feeling, are all signs of womanly trouble. Other women get relief by taking Cardui. Why not you? All druggists. NC-132

There is more Catarrh in this section of the country than all other diseases put together, and for years it was supposed to be incurable. Doctors prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Catarrh is a local disease, greatly influenced by constitutional conditions and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J.
