

Facts About the AMERICAN RED CROSS

DID YOU KNOW THAT---

It has established and is operating twenty dispensaries in the American Army Zone in France to care for the needy families there, and to improve health conditions in that section ready for our troupes?

It is housing and feeding thousands of children in the War Zone to keep them away from the danger of gas and shell fire?

It has divided the entire War Zone into six main districts, with Red Cross workers at each point to distribute cooking utensils, agricultural implements, beds, bedding, food and clothing?

It provides builders and ready-to-put-up buildings for the homeless in the devastated regions, often before the walls of the destroyed homes have cooled?

It is bringing over two hundred tons of supplies every day into Paris, from which one hundred and twenty-five tons are reshipped to branch houses over France?

It is providing an artificial limb factory outside of Paris, in addition to special plants for the making of splints? What will YOU give to keep this Hand of Mercy at work?

EVERY CENT OF EVERY DOLLAR RECEIVED FOR WAR FUND IS USED THAT WAY

The American Red Cross is the largest and most efficient organization for the relief of suffering that the World has ever seen.

It is made up almost entirely of volunteer workers, the higher executives being without exception men accustomed to large affairs, who are in almost all cases giving their service without pay.

It is supported entirely by its membership and by voluntary contributions.

It is today bringing relief to suffering humanity, both military and civil, in every War torn allied country.

It plans tomorrow to help in the work of restoration throughout the world.

It feeds and clothes entire population in time of great calamity.

It is there to help your soldier boy in his time of need.

With its thousands of workers, its tremendous stores and smooth running transportation facilities, it is serving as America's advance guard--and thus helping to win the war.

Congress authorizes it.

President Wilson heads it.

The War Department audits its accounts.

Your Army, your Navy and your Allies enthusiastically endorse it.

Twenty two million Americans have joined it.

GUS RANDOLPH

THE RAIN AND THE RESULTS.

There is no need telling our home folks about the rain; they all know it. In fact it was a regular show to the youngsters under two years old, being the first real rain they had ever seen, and lots of the older kidlets had forgot how one looked. Now there is not much joke to this when one takes into consideration that this rain, which amounted to 2.15 inches came within 3.85 inches of being as much as the entire precipitation, snow and all of 1917. Compared with six inches of rain and melted snow of 1917, we have already this year had 3.09 inches of rain, and more than eight inches of snow, which the weather experts claim will melt 1-10 inch of water to the inch. Therefore, adding the .80 inch of melted snow to our 3.09 gives us three and eighty-nine one-hundredths inches of rain this year, or near two thirds of the 1917 precipitation in the first four months of 1918, all of which are generally our driest season. This record thus far compares well with the first four months of 1914-1915, in which 30.00 inches and 24.85 inches fell respectively, and is much better than 1916 in which year 18.82 inches fell.

Results: As the more than two inches fell, the optimism of the inhabitants of this glorious county went up—not two inches—but between five and six feet. We will just say to the Herald readers who own property here but live out of the county, or in other states, that they ought to have been here to rejoice with us. Why, it could not have fallen better. It fell for a period of about 30 hours and every drop went in where it fell.

War gardens and war crops are now the order of the day, and any way you look, you can see the rich red loam of old Terry being tickled, which with gentle rains through the summer, will again demonstrate to the world

that this is the most productive country to be found when given half a show.

Look across the prairie, and one will see the green carpet coming in a whoop, where a week ago it looked like a parched desert.

Now Mr. Gin man, begin to get your gin ready, for the seed are going in this week, and some of our oldest ranchmen are going to actually have cotton patches. Mr. Grain man, get ready to ship out instead of in this season. Do you get us?

CARD OF THANKS

We wish to thank the good people of Brownfield and surrounding country for their assistance and sympathy they showed us in every way, since losing our dear son and brother, Hubert. May the Lord bless you all.

C. F. Holt and family.

Tom Taylor was in this week from New Mexico, after freight.

Geo. McWhorter and wife were here this week from Tatum N. M., and reported that only enough rain fell out there to wet the ground two inches, but it was better west and got heavier this way.

Carl Lewis returned home with Bill Savage last week and will work on the latter's ranch this summer.

Mr. Higginbotham, a cattle man of Lubbock, was here this week.

Ross Rentfro is preparing to ship 45 car loads of cattle to Arizona, this week, and will likely send another shipment latter, and let his ranch rest and get at itself again.

Don't throw your old casings away, we will give you 10c per pound for your old one when you buy new casings, one old one to apply on a new one. The usual 5 per cent discount also allowed. Holgate—Enderson Hardware Co.

Earl Hill and family returned last week from Lubbock with their little daughter, which they have had in the Lubbock Sanitarium for several weeks. The little one is now on the road to recovery.

Mrs. C. F. Rickles is off on a visit to her parents in Young Co., Texas.

Mr. and Mrs. Ben Hurst are preparing to move to Arizona, to look after Ross Rentfro's cattle out there.

Rev R. F. Dunn, pastor of the M. E. Church of Tahoka, returned from Brownfield Monday. He had been attending the regular session of the District Conference for the Lubbock District. Bro. Dunn reports a very interesting session and compliments the Brownfield people upon their hospitality and their attendance upon the services.—Tahoka News

CITATION

THE STATE OF TEXAS. To the Sheriff or any Constable of Terry County, Texas—Greeting:

You are hereby commanded to cause to be published in a News Paper published in this County of Terry, Texas, if there be such newspaper, and if there be none, then in the news paper which is published nearest to the Court House of such county, for four successive weeks previous to the first day of the term of this the County Court of Terry County, Texas to which this citation is returnable, to wit, the 27th day of May, A. D. 1918, and to cause to be posted for ten days exclusive to the day of posting, before the return day hereof, at three of the most public places in Terry County one of which shall be at the court house door and no two of which shall be in the same city or town, copies of the following notice:

THE STATE OF TEXAS. To all persons interested in the Estate of J. E. Woodard, Deceased:

Mrs. Bessie F. Woodard has filed in the County Court of Terry County, an application for the probate of the last will and testament of said J. E. Woodard, deceased, filed with said application, and for letters testamentary of the Estate of J. E. Woodard, deceased which will be heard at the next term of said Court, commencing on the Fourth Monday in May, A. D. 1918, the same being the 27th day of May, A. D. 1918, at the Courthouse thereof, in Brownfield, at which time all persons interested in said Estate may appear and contest said application, should they desire to do so.

Here in full not, but have you before said Court on said First day of the Next term thereof this writ, with your return thereon, showing how you have executed same.

Given under my hand and seal of said Court at my office in Brownfield, Terry County, Texas this 1st day of May, A. D. 1918.

TIREOLOGY

Tires for automobiles, motorcycles and bicycles afford a most convincing argument in favor of standard or trademarked-advertised merchandise as compared with the non-standard sort.

Tires present a big problem in the way of expense and trouble to car owners; one on which they should inform themselves thoroughly.

Primarily the manufacture of high quality rubber is necessarily a most skillful and painstaking operation. Only the very best rubber, fabrics, chemicals, etc., can be used, and labor and machine efficiency employed must also be of the very highest quality.

Even under these conditions tires imperfect in one way or another will slip through—until they come under the eagle eye of the factory inspector—whose sole duty is to see that every tire leaving the factory under the manufacturer's name or trade name is perfect in every detail. He is the watchful guardian and protector of his employer's good reputation, and of the book of every buyer of a tire bearing his name or trademark.

Faulty tires of every description are culled, factory identification marks are removed and they are sold under no guarantee whatever—as seconds. They are admittedly imperfect, faulty, unworthy of the name and guarantee of their maker.

Are such tires, even at the reduced prices asked for them, as cheap in the long run as those found perfect under most rigid inspection and backed by the reputation and guarantee of the manufacturer?—Farm and Ranch

PINTOS IN DEMAND

Good money can be made in growing pinto beans at eight cents a pound, in this locality, according to a bulletin received at the local Santa Fe office from H. M. Bainer, who, as the railway company's agricultural and industrial agent, is a special representative of the United States food administration.

"While there is no assurance

that this price fixed by the food administration for the 1917 crop will be paid for the 1918 crop, the newly created demand for pintos justifies heavier production of them," Mr. Bainer said.

"The food administration," Mr. Bainer continued, "has made a market for every pound of valuable pinto beans. In fact, the supply of all kinds of beans will be exhausted before another crop matures. For a time it looked as if a considerable surplus of the enormous crop of 1917 would be carried over for 1918, but the increasing needs of our people, as well as the needs of the allied armies and navies, will require all of them.

"The white, or navy beans of Michigan and New York, the largest bean states in the Union were badly damaged last fall by unfavorable weather conditions, making many of them unfit for shipment. In fact the bad weather conditions of the past three harvesting seasons in these two states, in addition to a poor supply of seed for this spring's planting, have discouraged the farmers, and preliminary reports, the indications are that their acreage will be cut down 30 per cent.

A young man by the name of Stith, who runs a truck from New Mexico points to and from Brownfield, developed a severe case of pneumonia here last week, and is being cared for at the Santa Fe Hotel annex.

Fred Smith and wife returned this week from Hollis, Okla., where they visited relatives a few days. Fred says it is getting dry up there.

Born to Mr. and Mrs. T. N. Wallace, ten miles south Plains, a girl on the 8th inst. Mrs. Wallace is the daughter of Mr. and Mrs. Bennett, of Gomez, and live on the old Lupton ranch, now belonging to Dr. Smith.

Remember that Rev. J. B. Cole of Lubbock, will preach the commencement sermon at the

Baptist church, Sunday morning at 11 a. m. All are cordially invited to hear him.

SHE JUST GOT "MAD VIT IT"

Woman of German Extraction Cured Herself of Disease in a Very Simple Manner.

I once met an elderly woman of German extraction who was pointed out to me as a woman who had cured herself of a chronic disease after suffering a decade or so and "having tried everything," I asked her exactly how she did it, and she said:

"I got mad vit it!"

My curiosity was excited and I made her tell me the whole story, says a writer in the Minneapolis Journal. It seems that one day the full meanness of the affliction that had been upon her for so long, and the injustice of it all, got on her nerves. Suddenly she went mad with the whole situation. The "furor Germanicus" set in. She got up on the ends of her toes, waved her fists and "hollered good." She said it wasn't right and she wouldn't stand it. She knew her rights and she would have them. She demanded to be let alone and told the disease "to get out."

As nearly as I could make out from the story, the disease took one look at her and packed its grip.

Anyhow, she got well from that moment.

AROUND THE WORLD

Rio de Janeiro imports coal. Japan's toy trade is expanding.

India is a large producer of peanuts.

Japan grows rice on 7,540,000 acres.

Bohemia is developing old silver mines.

Formosa is a large sugar producer.

Norway is developing peat fuel deposits.

Haiti will permit land ownership by foreigners.

Tonkin, China, coal deposits are to be exploited.

French Indo-China is extending sugar cane cultivation.

Bird Commuters.

Thrushes, finches and buntings are the most stylish birds of Washington and Oregon, where they aim to spend the winter, but are forced frequently to take week-end trips to California if the weather grows too severe, says the Indianapolis News. Bright moonlit nights are always chosen for these temporary migrations, and as soon as the weather modifies the birds return to their chosen North, even though another trip may soon be necessary.

W. G. HARDIN, Mgr.

Every planter is shoving ahead in old Terry this week. But don't waste a seed.

The people in Terry county are rallying around the war garden this week, whistling the funeral dirge of Kaiser Bill.

The next thing on docket is the big Red Cross Drive set to begin on Monday May 20th, and triumphantly end May 27th. Just seven short days to go over the top with \$100,000.000.

Seventeen million Americans rang the Liberty Bell with four Billion Dollars recently, despite Kaiser Bill and his junior partner, Gott. Wonder if he still thinks he "won't take no foolishness off America when the war is over?"

And lest we forget, there is another class of people in old Terry who are not averse to smiling. He is the cattleman. The barbers were charging him a quarter for a shave a week ago, and now they have reduced it to twenty. His face is several inches shorter.

And in passing we might mention the fact, that although we could have waited a few minutes longer the Herald force was ready for the rain, and the office cat, angel and editor, stand ready to greet you with a REAL smile when you come in and put'er up another year.

DOINGS IN THE DISTRICT COURT

There was the heaviest docket in the history of the county this term, which shows the effect of our increasing population, and more business dealings.

The Court was busy all last week, and a few minor matters finished this week. The following are the cases and their disposition.

Tri-State Loan & Trust Co., vs Unknown heirs of F. W. Colby. Dismissed in vacation by plaintiff. Defendant, G. E. Lockhart, gave notice of appeal to the Court of Civil Appeal.

Mary Duffau McCormack and R. H. McCormack vs Flora May Walker. Judge W. S. Spencer being disqualified, Atty. Joe J. McGowan was sworn in as special Judge. The plaintiffs were given a clear title to a half section of land six miles north of Brownfield, and cost of suit.

W. E. Whitaker vs P. & S. F. Ry Co. Court gave defendant judgement for \$100.00 damages. Appealed.

J. A. Roberts vs J. R. Smith. Verdict of damages against defendant for \$860.00.

R. G. Wood vs Ohio Valley Buggy Co., et al. Verdict for plaintiff.

J. A. Roberts vs P. & S. F. Ry Co., et al. Decided in favor of defendants.

Mrs. F. L. Pyeatt vs B. F. Knoll et al. Compromised and plaintiff paid all Court costs.

Henry Ward brought action to remove disabilities. Granted by Court.

C. W. Jones vs. S. C. Carlton for commission on sale of land. Decided that defendant made his own sale.

C. W. Whitaker vs Kelso & Carter. Dismissed at cost of plaintiff.

D. M. Bellew vs T. D. Whitford. Dismissed at cost of plaintiff.

J. Ulery a feme sole vs American National Bank of Roswell, N. M. Continued on application.

J. S. Cordill vs. Mrs. M. J. R. Head. Settled and dismissed at plaintiff's cost.

Elmia D. Koontz vs W. Fletcher et al. Settled and dismissed at plaintiff's cost.

Mollie J. Brabson vs M. V. Brownfield Settlement.

W. R. Mather vs P. & S. F. Ry Co. Continued by agreement.

THREE SPLENDID TERRY SOLDIERS

Co. "B" 315th Supply Train. Camp Travis, Texas. April 22, 1918.

The Herald, Brownfield, Texas, Camp Travis Items.

This Company is proud of the character and moral of it's men. The enviroment of home reflects

always in men from this army. For that reason we know that Brownfield is on the map because she has sent to Camp Travis some good soldiers. In this Company there are three Brownfield boys and their records show that there is something good back of them at home.

Corporal Homer R. Winston has developed into a fine soldier and when he meets the Hun some body is going to get hurt. His eagerness to obey orders and his diligence in carrying them out has made him a valuable man in Uncle Sam's Army. Such men as "Fatty" Winston makes up our fighting force and because we have good men Militarism can not be thrust upon this country. If our men were weaklings either in body or mind the German Army would find easy sailing. Homer uses his mind as well as his muscle and will make a strong cog in our military machinery.

Corporal Marcus E. Williams is one of our strong men. If we ever have the chance to mix with the enemy in hand to hand fight "Skinny" will cause many a German to lose heart and life too. He is also one of our joy spreaders. He is a great singer whose only weak spot is his voice. But as far as effort goes he classes with the best of them.

Corporal Jack Wright is another one of our enemy destroyers. He will be a bayonet fighter who will account for many a Hun. Jack has just finished school for Snipers and Scouts and made a good record there. Such men as Wright will cause the Germans to have a wholesome respect for our Army when the fight is over. These boys who grew up in the West will make noble records in the Army.

These three boys have reached the grade of Corporal because they have worked hard and obeyed orders. Brownfield should be proud of them just as they are of her. If there are any more at home who can class with these boys the Army needs them. Pvt. Andy R. Lee has been home on a furlough and found his better half. Andy is a married man now and will no longer be allowed to talk about the pretty girls he sees when he goes to the city.

Reporter.

Job Work That Satisfies

COMMISSIONERS ASK FOR \$20,000.00

Commissioners Court of Terry county was in called session Tuesday of this week, and made formal application for the above sum of money from the State Drouth Relief Fund. This amount will purchase approximately seven cars of seed and feed.

Of course there are still lots of farmers and stock farmers in Terry county that are able to purchase their own seed and feed, but there are some as good men in the county as ever graced Texas, that are absolutely up against a proposition, and will have to have help, and that right now, and our Commissioners Court has shown a great amount of backbone and patriotism in making this application, and no false pride should hinder any farmer in strained circumstances from signing up for this feed and seed.

Of course, our Commissioners Court realize they are taking some risk, in case the drouth continues, but on the other hand the drouth seems to be broken, and a good crop in this county would return to the County and State, all these funds with interest, and gladly.

The proposition simply stated simply means that some of our farmers must have help, or they must leave the country and do day labor. The big rains have fallen, and now which would you have the commissioners do, help them stay, or let them leave the country?

TERRY COUNTY MUST RAISE \$1500.00

May 20th is the date the big Red Cross Drive starts over the entire United States for \$100,000,000 to be used in war relief work, and the Brownfield Chapter must raise \$1,500.00 of this amount, which is little, when we take our population into consideration. Every body in the Chapter are expected to work and we must not fall down on the job, but go over without a hitch. To start the ball to rolling, there will be a series of plays and rallies, that will be entertaining, and well worth your time and money. Then each member is supposed to dig up. To cap the climax and to show you how Brownfield aims to stay on the job, you have only to watch the front page of the Herald, which is being patriotically donated to the Red Cross Drive by our business men of the town and we want to say right here that none of them had to be begged to get their name on the list but all reared to sign it. Do your duty like Americans.

HONEST WORK AT HONEST PRICES

There are two highly important points for one to consider before having a car overhauled; the first is to be sure the mechanics who are going to do the work are expert enough to locate the defects and properly repair them, and the second point is, can you actually trust them to give you an honest accounting of the work done. We have the facilities to do the work, and ask you to give us a rigid investigation.

THE BRICK GARAGE

Lester McPherson, Prop. Brownfield, Texas

SHEEP KILLED BY DOGS

Investigation by the United States Department of Agriculture among sheep owners in 15 States east of the Rocky Mountains shows that out of a total of 6,836,492 sheep in 502 counties reporting, 34,683 were killed by dogs in one year (1913) and were paid for by the counties. At the same rate of loss in other farm states the total annual destruction of sheep by dogs would be 107,760.

"But these figures are based only on the number actually paid for, and it is more than probable that the true losses far exceed this," says Farmers' Bulletin 935, "The Sheep Killing Dog." It is known that many sheep are killed that are never reported to the county official.

"In 1913 crop reports in 36 farm States submitted estimates which showed that the number of sheep in those States could be increased 150 per cent without displacing other livestock. Such an increase would place approximately 34,000,000 more sheep in these States than there are now. Of 1,411 answers received to the question as to whether sheep raising is profitable in the farm States, 887 answered 'Yes.' Of 894 answers as to the cause preventing increase in the number of sheep, 553 said 'Dogs.'"

Uniform State laws are advocated by the bulletin as being the most effective method of dealing with the sheep-killing dog.

Mr. and Mrs. A. D. Brownfield came in last Thursday night from their home at White Mountain N. M., to pay relatives a short visit. They returned home Tuesday.

have ample food. So States and counties and towns the country over are determining that this is not a time nor theirs a place for the toleration of idlers.

For instance a few weeks the sheriff of Grayson County, Tex., a thickly populated and highly productive agricultural section announced in the Sherman paper and by posted proclamations that "every man must go to work." This sheriff didn't wait for the State legislature to enact new laws. The old ones are strong enough to suit him. "Got to work or go to jail," he said crisply. "No man will be allowed to loaf around this town or in this country, because we are at a point where every man's labor is seriously needed for the farms.

What about your country? What about your State? Are you requiring loafers to become producers? While your sons fight in France will you permit husky men to remain idle in your community, when you know their labor will produce food without which we can't win the war—without which your sons fight in vain?

THE GRIZZLY PASSED ON

"While camped at 8,500 altitude near the head of Fawn Creek in the Gallatin Range in the north-eastern part of the Yellowstone National Park," writes Vernon Bailey, Chief Field Naturalist of the U. S. Biological Survey in a book soon to be issued by the National Park Service, "I could make out with a field glass elk herds on the high ridges south west, and north of camp. By climbing cautiously, so as not to disturb the elk, up to 10,000 feet on Quadrant Mountain south of camp I was soon in the midst of one of their choice summer ranges.

"Small herds and scattered individuals were seen over the big open slopes above the timber line; bunches of old bulls with full grown velvety horns lying on ridges where the wind was strongest and insects least troublesome; calves and yearlings playing over great snow banks on the cold slopes; and cows peacefully lying in meadow of rich short grass and clover. Little streams and pools of ice cold water were everywhere and the elk were a picture of contentment and satisfaction with their ideal summer home.

"After watching them for about an hour a large grizzly bear that had been digging mice on a neighboring slope was seen walking across toward the elk. As he came in view their heads went upward and the herds near gathered into one dense mass of about 500, old and young, while

the bear walked past close in front of them and over the ridge scarcely turning his head to notice them. The herd was a beautiful sight 25 or 30 old bulls with sets of large horns towering above the numerous small sets, while the front ranks were mainly filled with anxious cows ready to give battle to protect their young. When the bear had disappeared they quietly dispersed to their grazing and seemed very little concerned."

GO TO WORK OR GO TO JAIL

"The best way to draft farm labor." Assistant Secretary of Agriculture Clarence Ously said not long ago in an address before the Texas legislature, "is for you to amend your vagrancy law so as to include within its terms every able bodied man who does not do six days' work each week as a rule."

In many States of the Union, either by State legislation or local action, steps have been taken or plans are under way to require idle men to go to work. Farmers know they can not increase their food crop production unless they have more labor. Town people know they will suffer inconvenience or want and have to pay very high prices for the reduced rations they are able to buy, if the farmers do not increase production. And both farmers and town people know as all the world knows that we can't win the war unless we

NEW SWINDLE

Parents of soldiers in camps are warned by the War Department of a swindle which has been successfully operated in various camps.

A telegram is sent informing that the soldier has a furlough and requesting funds by wire to come home, waiving indentifications. The rest is a mere matter of detail.

Parents and friends should be warned of this game and of the similar one where the telegraphic request is to mail money to the soldier, care general delivery.

COTTON Seed, Cotton Seed.
Cicero Smith Lumber Co.

Born to Mr. Mrs. H. D. Leach a girl on the 10th inst.

Uncle Bart McPherson returned this week from an extended visit to Commanche, Texas.

J. A. Roberts was arrested here last Saturday night by local officials, and held in jail pending the arrival of Yoakum county authorities. He was indicted by the last Grand Jury at Plains for alleged horse theft. He made a satisfactory bond Monday, for his appearance at the next term of District Court at Plains.

The hustling business men made up money here Tuesday morning to send our State guard boys to Lubbock for examination. We understand all but one stood a satisfactory examination.

ABOUT THE CLEAN UP PRIZES

Listen boys and girls: The Mothers Club is offering some nice prizes for your work at odd times, and you will not only be earning money, but helping to put your town on the map as a clean town.

The first prize will be \$5.00 for the largest pile of trash, \$4.00 for the second, \$3.00 for the third, \$2.00 for the fourth, and \$1.00 for the fifth largest. Don't pile your burnable and unburnable trash together, it will all be estimated. You are also allowed two piles of junk, one in the west part of town and one in the east. You can form partnerships with your brothers or sisters. You must have your junk ready for inspection Saturday May 18th, when it will be measured and the prize awarded.

The grown folks can help the children by cleaning up their premises and piling the junk in easy reach of the children, say for instance in the alleys. Let's work to make clean up day a success.

GLASS FOUND IN FOOD ONCE

The frequent and widespread publication of statements concerning the presence of ground glass in foodstuffs has led the Committee on Public Information to inquire into the authenticity of these reports. It has been advised by the Food Administration that through investigation of more than 200 of the cases has disclosed only one instant which ground glass was found in the foodstuffs inspected.

The case in which glass was found occurred at Ft. Smith, Ark. A baker in that town had trouble with his employees, one of whom, desiring to destroy his employer's business, had filed with glass a loaf of bread which was to be delivered to an orphanage. When the bread was served to the inmate of the institution several of them suffered lacerations of their lips. No more serious injuries resulted.

Mr. and Mrs. W. B. Downing got in this week from a three months visit to relatives in Okla. and Arkansas. Mr. Downing reports lots of rain in these localities, and the wheat crop fine in Oklahoma. He also said that Mrs. Downing's health was greatly improved with the travels.

Terry County lacked several thousand dollars taking her quota of Liberty Bonds of the third loan, there being only approximately \$6000.00 subscribed for. Terry took \$10,000.00 of the second loan, despite the drouth, but every thing looked even more squally during the third loan. prospects are good now for a good crop, and you can just prepare to see old Terry go over the top this fall in the fourth Liberty Loan.

Uncle Joe Beall, of Meadow, came in last week, and renewed for his and his brother's Herald.

GOMEZ DOTS

By West Wind.

Prof. Bishop left Tuesday for Tahoka for an indefinite stay. He informed us that he had accepted the position as principal of our school for the next three years, and before this vacation is over will establish a permanent house in our midst. Prof. Bishop in the past two terms' work here has proved his worth as an instructor, and our trustees are to be commended for making the long period contract. We hope the other teachers will accept the offer of the trustees and teach here again.

Mrs. E. E. Simms received a letter from her son, Raymond, Tuesday. He has secured a job as bookkeeper in southern Okla. with the railroad construction company at \$85 per month and board, and stated that he was pleased with his surroundings.

Roy Taylor, son of A. V. Taylor, of west Terry, is seriously sick with pneumonia. Roy has been raised here, and Terry Co. has no better young man. We join with a host of friends, in wishing he may soon recover.

Alvin Duke and little Bert left for their New Mexico home, Monday. Mrs. Duke and the two babies will go latter.

S. J. Miller and son, Raymond, are out at the farm this week, planting a crop.

Mrs. Jim Moore spent Monday in Brownfield having dental work done.

Garland Miller left last week for a business college in Abilene, where he expects to spend the summer.

Mr. Roberts moved his family out to his farm four miles southeast of town, Tuesday.

Mr. Eaton moved out to their farm since the rain.

Singing at Geo. Black's Sunday night. Those present report a real good time.

O. E. Adams got in this week from northeast New M., where he went to hunt grass. The rain last week assures grass in Terry this season.

We got as much if not more rain here the second as the first. So far we have heard of no one who has succeeded in digging to dry dirt.

Dr. Maddux made a business trip to Brownfield, Tuesday.

The Red Cross ladies were

quilting, Tuesday.

Robert Holgate and uncle Tom DeShazo got in last Friday from Secorra county, N. M.

Tom Taylor of King N. Mex., was 15 miles west Seminole when the rain came last Friday and Saturday night. He came through from there here since then and reports a good ground soaking season from there here. He left for his home near King, Wednesday.

Geo. McWhoirter and wife came in from near Tatum, N. M., Monday, returning home Tues.

Mr. Frank Mosier came in Wed. from his home near Tatum N. M. He reports the rain was very light out there; not enough to plant crops.

CHAS. HUBERT HOLT

The above was born February 11th, 1894, being twenty-four years and a matter of three months old at his death, which occurred suddenly on the night of Saturday, April 27th, at Fort Worth, Texas.

Along about last July, Hubert heard the call of his country to arms, and immediately answered joining the 36th National Guard Division, at Fort Worth, as infantryman. Long near the holidays when pneumonia was raging around Camp Bowie, Hubert fell victim of this disease, and although he had been up some time, this awful disease made such inroads into his constitution, that he has not been able to rejoin his command since, but had been staying with his aunt in or near Fort Worth.

He was the son of Mr. and Mrs. C. F. Holt of this place, and had lived east of town so long, that every old timer knew and courted his friendship. He was quiet, easy going by nature, and to know him was to be his friend. We make no mistake when we say he was a general favorite with boys and girls his age, as well as older people. His body was shipped home, arriving here Sunday in care of the Robinson Undertaking Co., of Lubbock, and after an impressive service at the Methodist Church, a large crowd followed the remains to the last resting place in the Brownfield Cemetery. We don't know whether deceased was a member of any church or not, but he was a Woodman.

Herald joins the many friends of the father and mother, the

brothers and sisters of Hubert, in heartfelt sympathy. Many of us know their feeling, as we have been along the same road.

THE COW'S CUD

In reply to an inquiry requesting information relative to a cow's cud, R. L. Pon, Extension Dairy Husbandman, A. and M. College of Texas, says that the study of the anatomy and physiology of a cow are told that the animal has no such thing as a cud. In the process of eating the cow gathers her food, such as pasture grass, hay and other classes of food given in large quantities which she does not take time to thoroughly masticate and it is allowed to pass on down to the first stomach. After the animal has secured a sufficient supply of such food, she then regurgitates the food and remasticates it, by chewing it, and then it passes on to the second stomach of the animal etc. This is what is commonly known as the animal's cud. It is only the food that is being masticated the or chewed the second time.

WATCHES: Largest assortment, greatest value, best prices; 61 to select from. \$1.25 to \$34.50. Come and see. J. L. Randal.

The town was full of farmers Monday, most all of which were after seed and feed.

KEPT HER AWAKE

The Terrible Pains in Back and Sides. Cardui Gave Relief.

Marksville, La.—Mrs. Alice Johnson, of this place, writes: "For one year I suffered with an awful misery in my back and sides. My left side was hurting me all the time. The misery was something awful.

I could not do anything, not even sleep at night. It kept me awake most of the night. . . I took different medicines, but nothing did me any good or relieved me until I took Cardui. . .

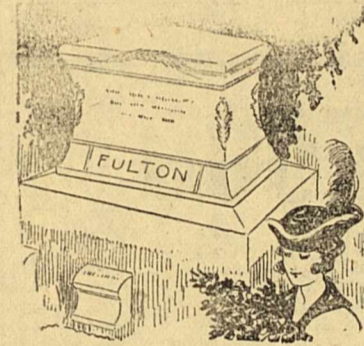

I was not able to do any of my work for one year and I got worse all the time, was confined to my bed off and on. I got so bad with my back that when I stooped down I was not able to straighten up again. . . I decided I would try Cardui. . . By time I had taken the entire bottle I was feeling pretty good and could straighten up and my pains were nearly all gone.

I shall always praise Cardui. I continued taking it until I was strong and well." If you suffer from pains due to female complaints, Cardui may be just what you need. Thousands of women who once suffered in this way now praise Cardui for their present good health. Give it a trial.

NC-133

A VISIT TO THE CEMETERY

Will show many examples of our skill as monument builders. Among them are every sort of memorial ranging from the very simplest to the most ornate and stately. And every one bears the mark of good taste and skillful workmanship. Our book of designs will be shown to any who plan a stone for their plot.
