#### BROWNFIELD SHOULD SEE AMERICA'S ANSWER.

The United States Government has an official film, entitled, "American's Answer," and they want Brownfield and surrounding country to see it. All the larger places have done seen the film, and now they want all the smaller places to see it. In fact, Uncle Sam wants every village or hamlet that sports a movie show to see this wonderful production.

It takes up the scenes of the big gun, ammunition and airplane plants, and ship building concerns in America, and shows you what Uncle Sam is doing in answer to the Kaisers saying that "He would take no foolishness off America." Not only that, but it shows the miles and miles of docking facilities in

France, where the ingenious American Engineers have converted the desolate sandy shore into a landing railroad and steamship terminals, with the modern unloading methods. In fact, the film shows some actual battle scenes in which the Sammies take part.

Mr. C. L. Williams, the local movie man is now making an effort to bring the film to Brownfield, and says he does not want to make money out of the matter, but wants the people to see it. Of course, the film costs a good deal of money, but we have talked with several of the business men of the town, who says they will go to see Mr. Williams loses nothing in the matter. If you in favor of the matter, talk with Mr. Williams, and lets bring it here and run it all day some Saturday and that night, when the Influenza subsides,

#### CAR FEED TO HILL COUNTY WILLIAM GUYTON

HOWARD.

J. H. Herring, of Peoria, Hill county, but who formerly lived in the Meadow community, is loading a car of maize and corn to ship to his present home. He came up here several weeks ago and bought a crop, and now having it harvested and ready to ship.

Mr. Herring informed us that he made about 3 bushels of corn per acre, and would get about a bale of cotton to every six or eight acres on his \$100,000 black land. He said he came very near shipping to Grandview, as Johnson county was classed in the drouth stricken country, but that was fifteen miles from home, and he dreaded the long haul after getting it there.

Election returns too incomplete to give them this week.

The above subject was wounded and died October 5th, on the field of battle in France, and was 22 years old, and born in what is known as Central West Texas. He was the son of Mrs. Alf Howard, who lives in the Needmore community, and a nephew of Uncle Billie Howard.

Guy was like most of the other Howard boys that we have met, he was quite, unobstrusive, and appeared hard to get acquainted with, but that is just their nature. Whenever you do ripen an acquaintance with them, it is lasting, and not easily broken; faithfulness being a second nature with him.

Guy was the second Terry county boy to fall from wound, the Artis boy being the first.

However, Uncle Mose Dumas' boy was in France, but died of disease.

While we are as anxious as anybody for the Kaiser to be whipped and to acknowledge the fact, yet, we hope that has already been done, and the peace dove circle around over the European slaughter, will find a place to light in a few days, and our boys will get to come home.

#### CARD OF THANKS

We certainly thank the people Brownfield and community for their kindness and sympathy also friends and relatives for their letters of sympathy in our bereavement in having to give up in death, Roy Cardwell, our son, husband and brother.

Mrs. C. S. Cardwell  
Mrs. Roy Cardwell  
Brothers and sisters.

**SANITARY BARBER SHOP**

### Six Questions With One Answer

What Oil Company is advertising in your home paper? What Oil Company buys Liberty Loan Bonds in Terry county to help out the Quota? What Oil Company spent 15 or 18 thousand dollars in the city of Brownfield, mostly for your convenience? What Oil Company is it that gets their oil and gas in tank cars and avoids a terrible mixture of water? What Oil Company is it that guarantees everything they sell? What Oil Company gives you quick and good service, and appreciates your trade enough to advertise for it, and is ever ready when you want an order

P. D. Q.

The answer is very simple. The Magnolia Petroleum Co., phone 10. We have the stuff and want to sell it. Housewives, if you have not tried Magnoline Floor Dressing, you have overlooked the best friend you have. It settles and holds dust; kills germs, and prevents spreading of disease. Only \$1.00 per gallon.

**MAGNOLIA PETROLEUM CO.**

Tom May, Local Agent,  
Brownfield, Texas.

### CLIP! CLIP!! CLIP!!!

Spring is here and we are ready to clip that hair. Smooth Shaves, Shampoos, Massages, Tonics and Baths. Let the Panhandle Laundry do your work

**CITY BARBER SHOP**

### UNITED WAR WORK

In another portion of this paper, you will find a list of the different committees on the raising of the \$3000 quota of Terry and Yoakum counties in the United war work. We print these names in order that all will understand with whom they are to cooperate with in the furtherance of this campaign. It is also very important that old Terry and Yoakum go, over, for every county in the United States will be printed in the papers that are circulated on the Western Front, and we want them to see our counties in with the rest.

There is no use for us to go on and enumerate the good work of the Y. M. C. A., Y. W. C. A., Knights of Columbus, Salvation Army, Jewish Relief, or American Library Association to people who read like our people.

That part is already known. Suffice to say that the campaign begins in earnest next Monday, and will end Monday week, and we are supposed to keep working till it is raised.

All right, all together; Go!

### WAR WORK CAMPAIGN

County chairman Mr. Banowsky; Women's committee—Mrs. W. A. Bell; Local campaign director—Miss Merriwether; Publicity committee—Messrs. Zorn, Stricklin, Fred Smith; Treasurer—Dick Brownfield; Executive committee—Mr. Banowsky, Mrs. Bell, Miss Merriwether, Tom May, Mesdames R. Barrier, Randal, Bob Snodgrass (and others whose names we did not learn)

Girls director—Miss Stephenson; Boys—Prof. Zorn. All directors of the County School precincts are asked to meet Saturday afternoon, at 2 o'clock, at the Brownfield Mercantile, to make plans for the campaign, Nov. 11-18.

### HOLD YOUR LIBERTY BONDS.

Some get-rich quick concerns are endeavoring to persuade patriotic Liberty bond holders, whom they know will not sell outright their Liberty bonds, to turn over their Liberty bonds to these companies as security for a loan and with the money thus borrowed purchase stock in their companies.

A Liberty loan bond is the safest investment in the world, and a prudent man will very carefully investigated any effort to induce him to exchange it for a less safe investment

This lending one money on Liberty bonds as security to purchase stock in the lender's company is in many cases only a thinly disguised method of exchanging stock of doubtful value for Liberty bonds of unquestioned value.

It is a good business and it is patriotism to hold your Liberty bonds.

### BIG WHEAT SUPPLY

The commercial stocks of wheat reported to the Department of Agriculture in a food survey dated September 1, 1918, amounted to 114,331,842 bushels.

These figures refer to stocks actually reported and do not represent the total commercial stocks of the country, nor do they include stocks on farms on the date of the survey.

The stocks reported were held by 11,271 firms, consisting of elevators, warehouses, grain mills, and wholesale dealers, and were equal to 296.6 per cent of the stocks held by the same firms on September 1, 1917, or nearly three times as large as the stocks on hand a year ago.

OLD PAPERS for sale at the Herald office at 25c per 100, or will exchange 100 papers for 2 pounds of clean rags.

Bob Glover pressed the cash on us this week, to keep the Herald stirring his direction another year. But Bob always reads his home journal, and brags on it whether he thinks it is any account or not. Come to Terry.

Tom and Joe Bowers, of Lorenzo, Texas, are here this week attending the bedside of their brother, Bob, who is sick with influenza. Bob is clear of fever at this writing, but from all reports had the hardest time of any Brownfield citizen.

On account of bad health, we want to sell Plainview Nursery or will trade for western lands. A good paying business, well equipped with ir every respect.

Plainview Nursery, Plainview, Texas.

Mike Barrier, of Lubbock, is here this week helping his brother in the store.

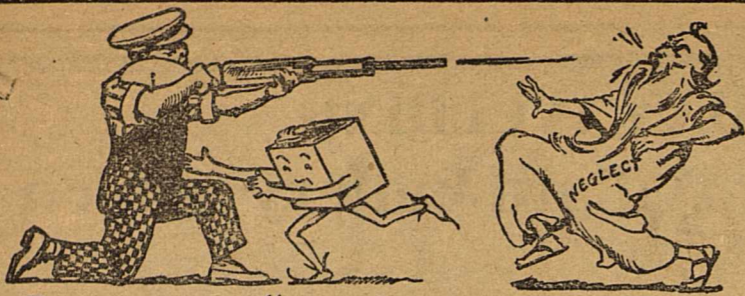

Messrs. R. B. Ingle, and Mr. Boyd, of Lubbock, were down Sunday. They are employees of the Lubbock Avalanche, and Sunday, or whatnot, they wanted to see inside the Herald office. We are always glad to have the fraternity call.

Mr. A. D. Harmon, of Falls Texas, came in last week, and established his watchmaking and repairing shop in the City Drug Store. Mr. Harmon came highly recommended as well qualified in his line of business and we welcome him to our little city. Watch for his ad.

F. M. Ellington sent in the cash from Harris this week, to keep 'er headed his way.

### FOR SALE,

A well built room 12x16 can be used as an addition to another house or will make a fine garage, can be bought worth the money, also a good chicken house, both of above can be moved without damage. See Milton Brown Jr. with R. H. KEMP LUMBER COMPANY.

## Let Our "Exide" Service Protect Your Battery

TAKE time to drive around and let us inspect your battery occasionally—it will save you unnecessary repair bills and assure you better battery service. These inspections are free of charge.

We know the battery business from start to finish. When repairs are necessary we make them quickly and at the right price. When you need a new battery we furnish an "Exide"—the best battery on the market and the least expensive to use. The "Exide" is the same type of battery as is used in U. S. Submarines. Remember, "there's an 'Exide' Battery for every car."

## CACTUS DIVISION COMING

CAMP TRAVIS, Texas, November 1—It will not be long now before Texas and Oklahoma will have another division ready to follow the 90th and 36th across the Atlantic. As soon as the 218th Engineer Regiment arrives from Camp Humphries, Va., where it is being organized, every one of the required units will have joined the 18th or "Cactus" Division now in the midst of its intensive training at Camp Travis. Already three brigadier generals have arrived and the division rapidly is growing to war strength by the constant addition of recruits out of the depot brigade.

Rapid progress is being made in the training of the division.

The school of fire for instruction in shooting with pistol and rifle has begun its work. The 35th Infantry and the 19th Infantry have each put in a week on the rifle range at Camp Bullis and now the snipers and observers are receiving field training there. The school for gas defense which has been giving instruction to infantry units now is receiving students from the artillery regiments.

Machine gunners and artillerymen are well along with their work.

## ENROLLED 30,000 NURSES

Washington, D. C., Nov.—The American Red Cross has expended \$850,000 in equipping nurses assigned to duty aboard, says a report just made public by the War Council of the American Red Cross. The organization also has expended \$1,500,000 in equipping base hospital units. Each base hospital has 500 beds and 60 nurses.

The Department of Nursing of the Red Cross had enrolled 30,000 nurses to October 1.

More than 17,000 of these are serving soldiers and sailors, half of this number being overseas. Seven hundred nurses have been assigned to the Federal Public Health Bureau or to the Red Cross service in the United States. The remaining 12,000 nurses enrolled include those not available for active service, but who may be utilized for home defense work.

It is estimated that 9,000 additional nurses will be needed for the army alone before the end of the year, according to the report. Should the war continue on the present scale, it is estimated that by next July, 50,000 nurses will be required in military hospitals here and abroad.

## RATIONS FOR THE DAIRY COW

Replying to a letter in which the writer stated that he had 40 cows giving only 50 gallons of milk and that he was feeding these 4 sacks per day of cotton seed meal, peanut meal, and coconut meal, and that they had free access to prairie grass pasture, Mr. R. L. Pou, Extension Dairy Husbandman, A. and M. College of Texas, says:

I have just figured on the ration that you are feeding and find that it is a ration that is entirely too narrow. That is, it contains too much protein for the amount of carbohydrate and fat. The proper ration to feed a dairy cow for proper results, is

## Sign Painting

one consisting of one part protein, for ever six parts of carbohydrates and fats. You will get much better results from feeding a grain mixture consisting of some carbohydrates, such as maize chops, corn chops, wheat or rice bran, also with such feeds as cottonseed meal, coconut meal, and peanut meal, than you will get from feeding strictly proteid concentrates, such as cottonseed, peanut, and coconut meal.

For information regarding balanced rations talk to your County Agent or write to the Extension Service, A. and M. College of Texas.

## CATTLE TICK AGAIN BREAKS RECORD.

The cattle fever tick is entitled to think that the world's energies have not been concentrated on the western battle front.

The tick is having a rather busy time, for July, like June, set a new record in the eradication work of the Bureau of Animal Industry. In July the number of cattle dipped for ticks totaled 6,680,232—more than were ever dipped in any single month since the work began in 1906.

An announcement by the Committee on Education and Special Training of the War Department relative to the election of courses of study by members of the Students' Army Training Corps has just been received by President R. E. Vinson of the University of Texas and Major Walter Channing Jr.,

commandant of that institution. The announcement says that the guiding principle, in assigning soldiers of the Students' Army Training Corps to various branches of the service, will be to place each man where he can render his maximum service, consistent with the needs of the army at the time of his transfer.

As a soldier is likely to do the best work in the line in which he is most interested preference of registrants who are voluntarily inducted into Students' Army Training Corps as to the branch of the service they ultimately enter will be given consideration except in case military needs require a different course. Information is being prepared and will soon be issued for each student soldier which will give a definite statement of the type of men and the kind of preparation required by these several branches of the service as well as a brief statement of each branch.

Western trees for western people, varieties that have been tested, and adapted to the climate, hardy, seldom get killed by late frost, and stands dry, weather well. Plainview Nursery, Plainview, Texas.

Uncle Joe Beal was in this week from the Meadow country and informed us that he had at last heard from his son, Jake, in France, and that he was alright.

W. C. Wright, of the Seagraves country, was up this week with a bale of cotton.

Mr. Castleberry, of Meadow, was down this week with a load of maize.

Gladly furnished upon application

Any erroneous reflection upon the character or standing of any private individual, firm or corporation, will be gladly amended if brought to the attention of the publisher

Elie Goldson, who came home home with his brother, W. M. and family, from Dennison three weeks ago, left yesterday for that place, as he will be drafted on the 11th.

Dub Dickinson left yesterday for Camp Mabrey, to enter the school of Auto Mechanics.

W. D. Sawyer, of San Angelo, who has been here some time visiting his brother, M. B., left yesterday for home.

W. L. Barkley left yesterday for Plainview, Wichita Falls and Burkbarnett in the interest of Brownfield Oil and Gas Co.'s holdings in the latter field. He informed us that the "flu" had kindly held up stock sales, but they had sold one-fourth of them.

Atty. J. S. Kendall and family left this week for Dallas, he on business and the family on a visit. He reports that he will return in about a week.

W. I. Craven, infantryman, of Camp Travis, who has been here visiting his parents, left yesterday for Camps.

Uncle Billie Pyeatt had a letter this week from his son, Dude, who is now on the firing line in France. He says he is now receiving the Herald regularly, and that he almost wears it out reading it.

The Herald turned out a batch of notes for the First State Bank of Plains, this week. So the Yoakum county people can now "renew".

L. W. Kitchen, of Silverton, was here this week, looking out a location. He tried to make a deal for one of the wagon yards, but we understand that he did not succeed.

Miss Gillie Smith, daughter of W. J. Smith, of Tokio, was operated on for appendicitis, at the Lubbock Sanitarium, last Saturday, and we understand she is doing well.

Bob Bowers has been about the sickest man in town of Influenza, but he is improving.

J. R. Lindley came across with one-fifty to keep the Herald in his home, one day this week.

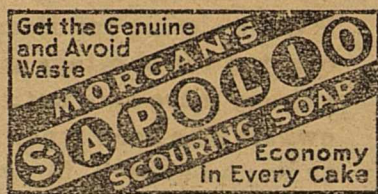

Williams & Bowers, the feed and coal men, have a lot of very pretty calendars for their customers. Have you received yours?

Walter P. McQuien, of Lamesa, was recently killed in action, in France.

Among those who shipped out Tuesday, and the number of cars were: J. B. Mashburn 3 cars; Geo. McWhorter, 4 cars and Mr. Farmer one car. We understand they all went to Fort Worth.

Luther French, who is working in a government clerical po-

sition, wired M. A. Smith yesterday that the war was over, but the Sammys had captured Sedan before the armistice went into effect. Luther gave us the news of the surrender of the Turks and Austro Hungarians twenty four hours before we got our dailies.

## DOUGHNUTS FOR AMERICAN DOUGHBOYS

ADJUT. STAREBOARD TELLS OF SALVATION ARMY WORK IN FRANCE

## A STORY FROM THE FRONT

Returned Salvationist Describes Experiences of American Salvationists in the Hus and Trenches

In our work in the war zone we have received the greatest encouragement from military officers from General Pershing down. The officers manifest the fact that they believe in us and are glad that we are doing what we can to make the lot of the soldier easier. General Pershing has called at some of our huts in his inspections and in each case has expressed his pleasure at the cleanliness, the general arrangement of things and the facilities we have provided for the boys.

Before the American troops began to move to the support of the British and French lines we had four teen huts in full operation along this front, grouped as follows:—Four huts well back of the firing lines in the training camp, conducted by two or three persons each; four huts well up toward the front, also conducted by two or three persons; five huts closer still to the firing line, each in charge of one Salvation Army officer, and the headquarters hut of Lieutenant Colonel Baker, at Ligny en Barrios. Attached to the headquarters are a number of men who are driving automobiles and distributing supplies among the huts, and other workers are scattered throughout the field or assigned to various huts.

We have not as much to report on the religious side of our work as I would like. The reason for this is that our time has been so completely occupied with other absolutely necessary work. In addition to this it is most difficult under existing conditions to follow to an end the impressions made at our meetings.

You see, the meetings are held in the big rooms where the boys have been playing games, and hearing the piano and victrola music, and eating and smoking and writing letters, and talking and singing, etc. Although we hold meetings twice a week, and sometimes more frequently, as soon as we pronounce the benediction and the meeting is over the hall becomes a play room again.

### The Influence of the Workers

But let me say that if I seem to be underestimating the religious phase I am not really doing so, because the personal influence of our officers is purely and distinctively religious. For this reason they have a marked effect on the soldiers.

Our people are certainly not having an easy life over there, but then they do not expect that nor would

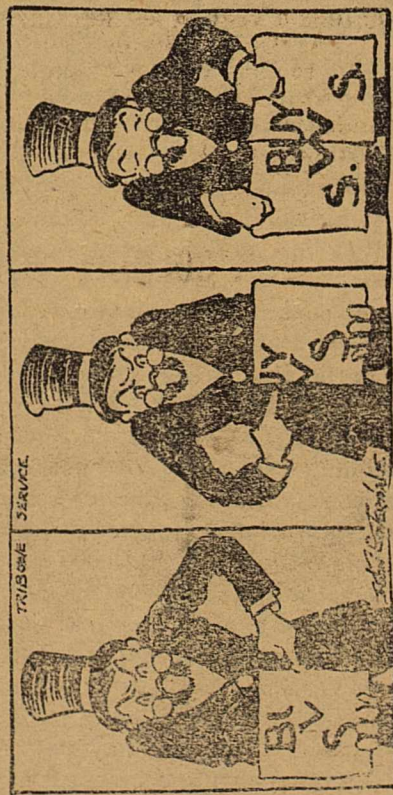

they want to be at ease in the midst of so much suffering. Some of the men, those up in the front line huts, carry coffee to the men in the trenches, and of course in these cases they are in as much danger as the soldiers. We are in danger from gas attacks, but we have all been provided with gas masks and have become most proficient in adjusting them. We have also developed an ear for gas bombs. These burst with a heavy thud, quite different from the explosion of the shrapnel, which is sharp and energetic. The gas masks are always hanging in front of our workers, and as soon as the thud or explosion is heard they must have their masks perfectly adjusted before they breathe again. These respirators draw the air through a certain combination of chemicals by which the gas is neutralized.

I have spent a great deal of time in and near the front trenches and have had some very narrow escapes. One night the warning bell, the bell which always sounds on the approach of the gas wave, around us from our slumbers, five times between two and six o'clock in the morning. It is the duty of the men on watch, at the approach of a gas wave, to awaken the boys in the dugouts who might be sleeping. If the warning bell does not awaken them he must at once use other means besides dropping the gas curtain over the mouth of the dugout. Our boys have been in the trenches many times, escaping without a scratch. There is really no very great danger if they are moderately cautious and properly use the appliances provided by the military authorities.

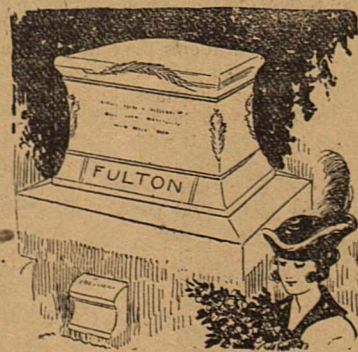

### The Pies and Doughnuts

You probably have seen frequent doughnut and pie stories which have circulated through the American press—stories of the popularity of these articles of food which are made by the women of the Salvation Army and distributed to the soldiers. No one could overstate the popularity of these American pastries. I have seen lines of from two hundred to four hundred men waiting in the pouring rain while the doughnuts were being cooked.

The line officers also have found these things not bad eating, and I have seen a captain waiting on the steps of a hut begging in piteous tones for a few doughnuts. This is not because the men are underfed

Saving Sugar Saves Shipping

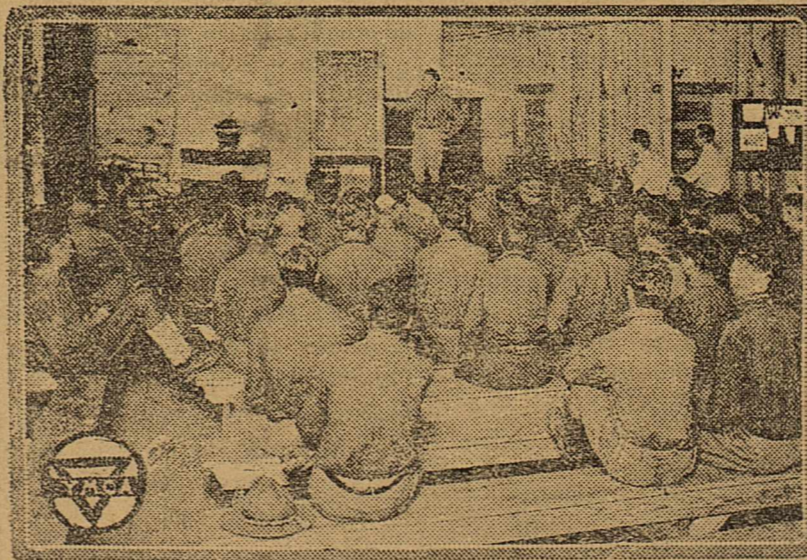

AMERICAN families would have less sugar than the people of war torn France, if we depended entirely on our home-grown sugar stocks.

Approximately 75 per cent. of our sugar is shipped to our shores. We produce about 1,000,000 tons of sugar a year. Our imports from abroad amount to over 3,000,000 tons a year in normal times.

The United States Food Administration asks each family to limit its use of sugar to two pounds per month per person for household use. The military situation demands that every available ship be placed at the disposal of the Army or Navy. When we save sugar, we save shipping.

A SOLDIER "TRIG" CLASS

Educational classes at the Army Y. M. C. A. huts are proving popular with the soldiers. Thousands of young men who left school to go into the service are continuing their studies and classes while in the army. Many educational institutions are arranging to give credit for the work done in this way, so that students may not lose anything while serving their country, and can resume their studies on their return, with credit toward degrees and graduation for the class-room work in the army. The picture shows a group of college men continuing their study of trigonometry at one of the Y. M. C. A. schools. It will make them better artillerymen.

In addition to advanced classes, the Y. M. C. A. conducts classes for illiterates and foreigners, teaching them to read, write and speak the English language. The War Department is giving the Army Y. M. C. A. hearty co-operation in this work.

The "trig" class shown in the picture is one of the many educational classes conducted by the Y. M. C. A. at Camp McArthur, Texas.

DROUTH STRICKEN SECTIONS NEED OUR SEED

Mr. T. G. Marks, representing the State Department of Agriculture, was in to see us this week, and informed us that he was here in the interest of getting Terry county farmers to save all their seed maize, kaffir, cane, feterita, sudan and June corn, for the drowth stricken

parts of the State. He says there are only about ten counties in West Texas, that has produced anything to mention this year, and that with the failure of western Oklahoma and Kansas, that usually produce bumper crops of these grain sorghums, Western Texas will have a hard time getting seed. He figures that it will take at least 5,000,000 pounds of seed to re-

seed West Texas alone, providing they do not have to plant over, or that only one third of the era goes in these feeds, and that it is not only to the financial benefit of the counties that have produced seed to hold them for planting purposes, and buy feed from the north and east, such as corn and oats, but that it is our patriotic duty to help put West Texas on its feet again.

He says that such seed will have to be threshed and sacked, and may have to be held till spring, on account of the farmers in the drowth regions being unable to buy till spring, or till the first of the year anyway, owing to banks not wanting to let out money till then, but he says that they will bring as much as \$6.50 per hundred, he believes, and selected June corn not less than \$2.50 per bushel.

Mr. Marks advises all farmers here to have their feed threshed and help supply the drowth stricken regions in seed, even to the extent of buying outside feed, if necessary. They will make good money in the exchange, and we advise our farmers to put little of their surplus crops on the market as feed at the prevailing price. We will give our readers more information from time to time along this line.

Mr. and Mrs. Banowsky and Miss Hennie Merriwether, went to Lubbock on Wednesday to meet the district officers of the War Work Campaign, and to perfect plans for same.

A letter and remittance from A. W. Hall, of Hobart, Okla., this week, to keep 'er comin'. He says he is glad old Terry is coming to the front, and that he intends to improve his place this year. Hurrah! that means another family for old Terry. Would that more of our non-resident land owners would come to the same conclusion.

DIED at Plains, Texas, last Wednesday night, Mrs. Mary Stanford, and aunt of P. G. Stanford, who came out from Corpus Christi, in the summer to try this climate for her health. She was buried at Plains last Thursday, Rev. Hicks, of this place, preaching the funeral. The deceased seemed to have died of old age. Mrs. Minnie Stanford, of Corpus Christi, attended the funeral.

Rev. Hicks left this week to attend the Northwest Methodist Conference, at Abilene. This Conference was to have been held at Lubbock, but the mayor put on the quarantine again Saturday night, and the Conference had to be moved.

C. I. Bedford, the hustling live-stock commission merchant, of Plains, was over last week, and gave the Herald a nice order for stationery.

### "WHOM DO YOU REPRESENT?"

"Whom do you represent?" is the knife-like question that Woodrow Wilson asked Prince Max, when the latter suggested that the victorious Allied armies stack their guns and talk peace to the Hun.

That question was the crux of the President's reply. That question is the sword that was aimed to drive deeper and deeper into the consciousness of the Kaiser the fact that HE is the guy we are after. That question was asked so that the Master of the Boche might understand, that there is to be no deviation from the line we are hewing on.

That question was asked so that the Beast of Berlin may know that this nation does NOT, now or at any future time, propose to talk peace to HIM or to his beast-breed. To the accredited representatives of the PEOPLE of Germany, some day we are going to make certain definite, terse, and explicit statements so that they will understand exactly on what terms we will stop chasing their soldiers around the earth. But to the Kaiser and to his gang, the President's query to Prince Max was a full-swinging smash on the point of the jaw.

To that government without humanity, decency, honor, or respect of civilized law, our answer is being delivered by Pershing and his boys, and their fighting Allies. For more than four years the civilized world has been standing at bay before the Hell-hounds of German militarism; for more than four years we have been waiting for that time when we shall TAKE the Kaiser and his brood, and charge them with this blood-debt.

THAT day is at hand. For the Kaiser and his gang, there is

no escape. There is no Government on earth that will raise a hand to shield them when their own armies have been smashed; there is no cavern deep enough in the bowels of the earth to hide them from the hands of vengeance.

Abdication won't do it. Nothing but suicide will ever save the Kaiser. We want HIM and if he lives, we are going to get him. No St. Helena will be his final stomping grounds. The well merited punishment that was meted out to Napoleon would be a million times too good for this Prince of Beasts and his brood of vipers. HE made this war. HE must pay, so far as it is in him to pay.

THAT is why the President asked the German Chancellor,— "Whom Do You Represent?"

Not that the German people are going to be reckoned free from guilt, mind you. Not in a million years. THEY also, have got to pay. It might be said that they have already paid dearly in blood, and suffering, and money, for the terrific road which they have followed. But we have got to deal with some one, and we will therefore deal with the German people and their direct representatives.

Also there are some other nation that will have something to say to them. President Wilson's words,— "No annexations and no indemnities",—applies to the United States, but NOT to England, and NOT to France, and NOT to Belgium. Not for a moment. You haven't heard any of THEIR statemen making any such propositions, have you?

When the settling time comes, no mercy is going to be shown the German people. They are going to be told what they must do, and they are going to be told WHAT THEY MUST PAY.

For four years France and England have drained their veins

and their treasure vaults to hold back the Hun. Is there any reason why they should not collect some of it back, when the collecting time comes? Wait and see.

I freely predict that Germany is going to be paying heavy indemnities to France and England for the next one hundred years—perhaps longer—and the collector is going to be on the job all the time to see that the cash comes in.

Why not? Should not the beast pay for his beastliness?

Some of these beautiful days—sooner than most of us even hope—the war will end, just as suddenly as it began. Then the Allies will take the German guns, the German ammunition, the German war books, etc., send the German nation back to the plow and factory, send the Kaiser and all his gang to the bottom of Hell,—and begin the rebuilding of Europe. And for everything to be done, now and later, the German people must PAY—EVERY NICKLE. They will have plenty of time in the next hundred years, whenever they step up to the captain's office to settle on their war indemnity, to rue the they sent their million iron headed murderers across the Belgium line.

And they will all realize then, as WE realize NOW, what President Wilson meant when he asked Prince Max, WHOM DO YOU REPRESENT?" Editorial in Gulf Coast Lumberman.

### MITES IN POULTRY.

We have found that the mites in poultry can be controlled by the liberal use of crude oil sprayed over all the wood-work of the houses and in all cracks and corners, says F. W. Kazmeier, Poultry Husbandman Extension Service A. and M. College of Texas. Crude oil has a very heavy body and is not so volatile as the coal tar products. We find it necessary to dilute it with 25 per cent of kerosene so that it will pass through a spray nozzle. It may be used undiluted when applied with a brush.

We also recommend to coat the by products when the crude oil cannot be obtained.

Incidentally crude oil is an excellent treatment for scaly leg mites, although care must be taken not to cover the shank above the hock, as the crude oil causes a painful burning when it comes in contact with the tender skins of the fowl.

FOR ABSTRACTS, See Terry County Abstract Co. W. G. Hardin Mgr. Office, Court House.

We wish to correct a glaring mistake we made in these columns a week or so ago, when we announced the death of Will Alf Bell's sister, Mrs. Slater. It was Mr. Bell's aunt instead. But we printed what we heard, without verifying the report.

C. N. Cone of Lubbock, was sent down this week to help out with the local freight and express office, as two of the hands, Messrs. Headstream and Darden, are sick with influenza.

NOTICE, Farmers and Stockmen: We are giving away to friends and customers, a farm book. It is full of valuable information, call and get yours. R. H. Kemp Lumber Co.

Mack Barrier, of Lubbock, is here this week, helping at Barrier Bros. store at this place.

## ANOTHER LIBERTY LOAN COMING

Secretary of the Treasury McAdoo has announced that, no matter what the results of the pending overtures for peace may be, there will be another Liberty loan. To use his expression, "We are going to have to finance peace for a while just as we have had to finance war."

These are over 2,000,000 United States soldiers abroad. If we transport these men back to the United States at the rate of 300,000 a month, it will be over half a year before they are all returned. Our Army, therefore, must be maintained, victualled, and clothed for many months after peace is an actuality.

The American people, therefore, having supported the Liberty loan with a patriotism that future historians will love to extol, will have an opportunity to show the same patriotism in financing the just and conclusive victorious peace whenever it comes.

Not for a moment, however, is the Treasury acting on any assumption that peace is to come soon. Until peace is actually assured the attitude of the Treasury and the attitude of the whole United States Government is for the most vigorous prosecution of the war, and the motto of force against Germany without stint or limit will be acted up to until peace is an absolute accomplished fact.

One more Liberty loan, at last, is certain. The fourth loan was popularly called the "Fighting Loan"; the next loan may be a fighting loan, too, or it may be a peace loan. Whatever the conditions, the loan must be prepared for and its success rendered certain and absolute. Begin now to prepare to support it

## SCHEME TO RE-ESTABLISH PRO-GERMAN PAPER FAILS

Minneapolis, Minn.—Plans of men with Teutonic sympathies in McLeod County, Minnesota, to re-establish Paul F. Dehnel's paper, the Minneapolis and St. Paul American, at Glencoe, that country, have been halted by the federal government. Although space had been provided, presses transferred and paper supplied, the war industries board, paper and pulp section, has put its foot down on the publication of the paper.

The attempt to re-establish the paper at Glencoe, where loyalists have been fighting down disloyalists for more than a year, reveals Dehnel's connection with men of sympathy for the cause of the Teutonic powers. Some of them were active in opposition to the Liberty loan and the draft. These men had good reason for wanting to establish a paper in McLeod county. The Glencoe Enterprise has at all times been aggressively American. Its editor, F. A. J. Tudhope, has been in the van of the fight. Its Americanism, of the undiluted variety, has grated on the nerves of the German sympathizers.

Efforts had previously been made to purchase the Stewart (Minn.) Tribune, but the deal fell through when the editor refused to sell to these men.

When the matter was finally put up the pulp and paper section of the war industries board

## A. G. McAdams Lumber Co.

Brownfield, Texas

the ban on establishing the paper was made effective.

The Glencoe case has been watched carefully by members of the Minnesota Editorial association. Through their efforts the matter was placed before the department of justice and the war industries board. In the meantime Paul F. Dehnel has been sent to an internment camp for alien enemies.

## TEDDY ROOSEVELT.

Teddy Roosevelt is a regular contributor to the Kansas City Star and his rantings are copyrighted by the publication and others using them. We have been wondering why the trouble

If there is a man in the United States who is using more valuable space to less purpose we do not know who it is. In our opinion Teddy is thinking and coring more about being the Republican candidate for president in 1920 than he is about the welfare of the American people. He came into prominence on account of a battle that some darkies saved for him down in Cuba and now he hopes to use the present war for political gain if we do not misread what he is saying in the papers. The man who are handling the war in England and France seem to have more confidence in Mr. Wilson than Teddy displays. But the people are learning that there is not always trouble when Mr. Roosevelt gives the warning. Anyway, the President has not asked for any advice from Teddy, and we are glad of it.—Abilene Reporter.

## PROVIDING FOR THE SOLDIERS

Millions of feet of lumber are used in the construction of buildings for the war relief work of the Y. M. C. A., the Y. W. C. A., the Knights of Columbus, the Jewish Welfare Board, the War Camp Community Service, the American Library Association, and the Salvation Army.

The Army "Y" alone has 212 "huts" in camps of the Southern Military Department, which is composed of the states of Texas, Oklahoma, Arkansas, Louisiana, New Mexico, and Arizona. In the construction of these buildings, it has taken close on to ten million feet of lumber, forty-five hundred doors, twelve thousand windows. The roofs, if all in one piece would cover sixty acres of ground.

These buildings are erected in from one to four weeks according to their size and the need for the work. In ten of the larger camps and cantonments there are ten to fifteen of these soldiers' homes, also one or two in each of the fifteen flying fields, ground schools, the balloon schools, and about fifty smaller camps, forts, and posts along the Gulf and Mexico border. A good-sized building is also maintained at each of the army hospitals.

One hundred more buildings are planned by the Army Y. M. C. A. to be erected in Southwestern camps within the next six months, as the present number is not sufficient to give the required service.

In all, there are 730 Y. M. C. A. "huts" either operating or in course of construction in this country. They cost nearly \$5,000,000. Two thousand have been built overseas, including huts in England and France, and for our allies the French and Italian armies.

Besides the "huts" of the Y. M. C. A., the K. of C. and the Salvation Army for the comfort and convenience of the soldiers, the Y. W. C. A. maintains "hostess houses" in the camps for the entertainment of friends and relatives while they are visiting the men in training.

This is the only place where the soldier may visit with his mother, sister, or sweetheart in suitable and comfortable surroundings. The Y. W. C. A. also furnishes rooming places and wholesome recreation for

women in war industries.

The War Camp Community Service building in a camp city is for the benefit of the soldier during his downtown leisure.

Here he may get food, lodging, entertainment, and information regarding hotels, churches, museums, libraries, and theaters in the city.

In each large camp the American Library Association has a library and reading room. It also sends books and other reading matter into each building of every war work organization represented in camp.

The expense of construction and upkeep of these various buildings is one of the large items included in the \$250,000,000 which will be asked of the American people during the week of November 11-18.

Originally the amount asked was \$170,500,000, but with the prospects of peace within a few months, President Wilson has authorized the request for an oversubscription of fifty per cent on this amount. Taking care of millions of ideal soldiers during occupation and demobilization, will mean a gigantic enlargement of the program of all seven of these organizations; for, in the opinion of military authorities and welfare workers, the most dangerous period for the soldier is his leisure, the time during which he is not fighting or actively training.

## ENTOMOLOGISTS IN "COOTIE" FIGHT.

Scientists of the Bureau of Entomology, United States Department of Agriculture, are conducting extensive work designed to find a preventive or exterminator for body lice, the "cooties" of the war zone.

They are working to add to the knowledge of how to repel, kill, or drive away the tiny parasite on which world-wide attention was centered by the war.

The scientists, in addition to watching "cooties" as they pass through the stage of their existence, are testing chemical to learn their destructive action on lice, their effect on human bodies, and their penetration of clothing.

Also, they are cooperating with Army officers in testing laundering and delousing processes.

Jno. S. Powell slipped us another check, last week for one-

fifty, and we bet you know what it was for. Mrs. Geo. E. Tiernan and Will Mathis did likewise. Thanks.

STRAYED: One bay yearling mule, branded half circle J. H. connected on right thigh; reward. Notify A. A. Sawyer, City.

The thresher is still at the H. T. Brooks farm, and we understand has threshed about 800 bushels of grain for Brooks.

I. Swan informed us this week that the peanut thresher was temporarily broken down, and had not come to his place yet.

FORD Couplet for sale; run less than 1000 miles; cash or Liberty Bond. Enquire at this office.

Decided to sell another 100 head of ewes at \$10.00 per head. Bucks enough to breed ewes at same price. See G. W. Chisholm 9 miles north of town or Jno. B. King, City.

## A NERVOUS WRECK

From Three Years' Suffering. Says Cardui Made Her Well.

Texas City, Tex.—In an interesting statement, Mrs. G. H. Schill, of this town, says: "For three years I suffered untold agony with my head. I was unable to do any of my work.

I just wanted to sleep all the time, for that was the only ease I could get, when I was asleep. I became a nervous wreck just from the awful suffering with my head.

I was so nervous that the least noise would make me jump out of my bed. I had no energy, and was unable to do anything. My son, a young boy, had to do all my household duties.

I was not able to do anything until I took Cardui. I took three bottles in all, and it surely cured me of those awful headaches. That has been three years ago, and I know the cure is permanent, for I have never had any headache since taking Cardui. . .

Nothing relieved me until I took Cardui. It did wonders for me."

Try Cardui for your troubles—made from medicinal ingredients recommended in medical books as being of benefit in female troubles, and 40 years of use has proven that the books are right. Begin taking Cardui today. NC-134
