LET THE WELL FED TERRYITES READ THIS.

Dallas, Texas.
Editor Terry County Herald.

Dear Friend o' Mine.
When I wrote you that letter a few days ago, thanking you for your big hearted co operation in the United War Work Campaign, I thought I was through with campaign publicity directing for awhile. With the war over, and the United War Work drive ended successfully (thanks to you), I had my little army locker packed and my ticket bought for a place where I could have a few days rest before putting on civilian clothes and plunging back into the good old game.

Then a telegram came and the first thing I knew I was assigned to this job of handling the

publicity of the Armenian and Syrian Relief Commission in the Southwestern States.

I am glad of it. Heaven knows if I can do anything to help those starving, maimed, butchered women and babies who have been in slavery under the dirty Turks, I am glad to have a hand in it.

I believe you feel the same way. Conditions in Armenia and Syria are terrible. **MOTHERS ARE EATING THEIR OWN CHILDREN.**

You can help by giving us generous publicity space, and editorial support. The drive for funds comes in January. In the meantime, I hope to give you some vivid stories well worth space in your paper.

As a patriotic, public spirited newspaper, I feel confident you will go the limit with us on this publicity program which is to

pave the way for prompt relief of the pitiable millions in the Turk infested countries.

I respectfully ask that you give consideration to such publicity material as may reach your desk on this matter during the next few weeks.

Sincerely,
A. P. Oakes.
Major, Detached Service,
Armenian Relief Commission.

TABS ON TRAITOR TEUTONS

Now that the armistice has been signed and peace terms to be certain, the German sympathizer who has been hibernating is once more crawling out of his hole.

Figuratively speaking, get out your gun. It's open season for his kind.

Until the peace terms have been fixed unalterably, until Germany has been reorganized, until law and order has been restored in Europe, we want no German propagandists loosed to plead the German cause in America.

Germany must pay the price of her ruthlessness.

And it mustn't be alleviated by any sympathy subtly inspired in the public mind by the friends of Germany lurking among us and whispering oily pleas for mercy in our unsuspecting ears.

When you encounter one of these fellows report him promptly.

The federal authorities are just as keen upon the trail of the German propagandist today as they were at any time during the war.

Germany's friends in America very accurately appreciate the force of public opinion. They know right well that if they could arouse a storm of sympathy here for the victims of the Kaiser's delusion it would be reflected in the peace conference.

We want nothing of that sort. We will not have it.

Had Germany's plans gone thru; had the Prussian war scheme triumphed; had the Kaiser's dreams been realized, the world would have been shown no mercy.

Germany must be treated accordingly.

The cost of her running amuck, the terrific cost in treasure and the awful cost in blood and life and suffering, has been altogether too staggering.

Germany must take the consequences.

So keep an eye to windward, an ear to the ground for the German advocate.

And when you've found him report him at once.

He is a real menace.

Miss Rhoda Farrer returned to Lubbock, last Saturday, after spending a week here with a good case of flu.

J. H. Posey received a wire from the War Department Wednesday to the effect that his son, O. E. had recently died of pneumonia in France. He was trained at Camp Cody, N. M., and went over with the Sand Storm Division. Herald deeply sympathizes with this family in the loss of their splendid son and brother, and deplores the loss of this willing defender of National rights and Liberty.

All those who have accounts against Higginbotham-Harris & Co., will please present them for payment not later than Jan. 1st.

HERALD 1.50

A PROCLAMATION--- LIMITED QUARANTINE

State of Texas,)
County of Terry,) I, T.L. Treadaway, by the authority vested in me by the Commissioners Court of Terry County, do hereby declare a Limited Quarantine now in force, against all gatherings of any kind, such as schools, and churches, moving picture shows and like gatherings, all crowding in and around stores, postoffices, unnecessary visiting, all are strictly forbidden.

On account of the Influenza, which is now killing thousands over the State and Nations of the earth, it becomes mandatory that every precaution be taken to stop this dreaded disease.

Therefore, under the Penalty of the law of the State of Texas, you are commanded to use all diligence to aid me in enforcing this ordinance.

As yet we do not know all about Spanish Influenza, but we know two things, it is very contagious and fatal. It has killed six times more Americans than we have lost in the world war. Three hundred and fifty thousand have died in the U. S. up to Dec. 1st. It killed 300 doctors in two weeks. In nine cities, the mortality has been fifty percent of the Flu pneumonia cases, and 12,000 died in New York City alone, out of 24,000 cases.

This is the worst pandemic that has ever visited the U. S. It has crippled Insurance companies more than small-pox, Cholera and Yellow Fever Combined ever did.

It does not make any difference whether you are a Red Cross official or not, or whether you ever expect to be one or not, make it a part of your duty for the next week to see that every man, woman and child in Terry county, pays their annual dues. Lets make it unanimous in good old Terry.

Beginning Jan. 21st, there will be a great reduction in the price of long distance phone calls, according to Postmaster General Burtleson. And they will be based on air line mileage, instead of the haphazard way it is now figured, being 61-4 mills per mile. In other words, instead of a phone call from here to Lubbock costing 45c as now, it will be 25c. Instead of 35c to Tahoka, it will be 19c. Instead of 35c to Plains, it will be 22c. One hundred miles will cost 62c.

The National Red Cross Association is going to appropriate the enormous sum of \$2,500,000.00 for the fight on tuberculosis alone. Isn't this a huge sum for one disease? It is the aim of the Red Cross in conjunction with the Anti-Tuberculosis Societies of America to do their utmost to wipe this dread disease from this fair land of ours, that annually lays low thousand of the flower of our country. Let the good work advance

As is the usual custom with the Herald, there will be no edition next week, but will appear as usual the week following the holidays. We take this method of thanking the readers of the Herald for staying with us through the drouth, and also the faithful advertisers who have gone right on through the same period, and as a consequence have done a good business, and now that times have changed, are doing a rushing business. It is indeed a great privilege to be associated with people who never lower the standard, even in the face of defeat. We never know when the tide of battle will turn in our favor, but old Terry, and Brownfield are not made up of quitters. We hope for each advertiser and each reader and their families a Merry Christmas and a Happy New Year.

A crowd of young people from Lubbock, came down last Friday night and pulled off a big dance here, not being allowed to do so in Lubbock. Any other time, there would have been very little said about the matter, but at a time like this, when physicians and health officers are advising against crowds, the citizens cry out against such matters, and that is one reason for the quarantine now in effect, to keep down a repetition of the

matter. Lubbock was heavily quarantined to prevent crowds, and Brownfield was taken advantage of because it did not have one. It is reported that there was sometimes as many as 30 or 40 couples on the floor at once, and with the heating of the dancers' bodies in a small building, it is a wonder that results were not bad. We hope from now on, our young people who dance will wait till this influenza epidemic is passed.

QUARTERLY CONFERENCE

There will be Quarterly Conference Jan. 11th and 12th. Everyone is cordially invited to come. We are going to have preaching Saturday at 11 o'clock, bring your dinner and let us have a good time together. We must together and talk over our church work, so we may do great things for the Lord next year.

W. B. Hicks, P. C.

BILLY SUNDAY ON NEWSPAPERS

Billy Sunday, addressing Texas and Oklahoma newspaper editors who attended The Star-Telegram's luncheon at the Metropolitan Hotel Saturday, told them their papers were the greatest moral force in the community. In part, he said:

"The greatest moral force in any community is the newspaper. When you go out to organize a campaign against vice, you go to the newspaper and ask for help. If it stands for right, you have the big army of that community on your side to begin with. Those who back up and support those vices which destroy our manhood and womanhood dread the newspaper and will bow to it when they would fight to the last ditch with an individual. Close up your newspapers tomorrow and you would see vice and all its agents holding a royal celebration. Murderers, thieves, porch climbers, robbers, bandits, liquor dealers, drunkards and degenerates would all join hands and celebrate the death of the one great public agent for good, next only to the pulpit. And, many newspapers have much higher standards than some pulpits.

"I tell you folks there is no end to the power of the newspaper with the right kind of men directing its work. You might as well try to dam up Niagara Falls with toothpicks as to try to kill a newspaper with a high moral code to live up to as its daily standard. On the other hand, if a newspaper does not stand for right, the community will soon let it die, because its force is too great on the wrong side of the things humanity wants to do, even though it sometimes appears to be slow in turning its face and efforts toward Jesus. Again, I say, kill out all our newspapers tomorrow, and vice would increase 100 per cent before twenty-four hours. Every good man and woman would get down on their knees and pray to God to have them brought back, and I believe God would hear that prayer.

Greater Than Powder.

"I believe the man who invented the printing press did humanity a greater service than the man who invented gunpowder, the submarine, the dreadnaught and numerous other things so often praised. By his in-

vention it is possible for all of us to get together as one great family in our communities and help to understand and right the forces that threaten to destroy us or to back up and support the forces that promise to make life worth living. And I believe there are few men who render a greater service to humanity than the editor of a newspaper who has religion in his heart and lives up to a high code of moral law and sees that his paper breathes that same spirit." "Ma" Sunday said she had a son-in-law who is a country newspaper editor, and that she believes the small town newspaper man is of inestimable value to his community. Both she and Billy closed with a smile and ran to catch a car to go to the Coliseum for the afternoon services.—Star Telegram.

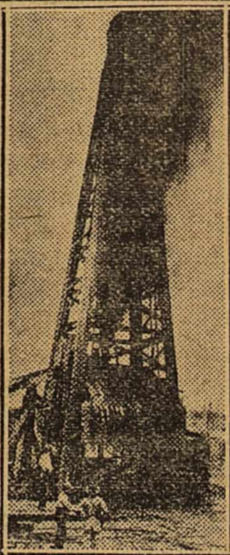

Our Americans can now certainly be called seasoned troops. Their fighting showed no lack of pepper.

Jno B King bought a fine turkey gobbler for his sister at Santa Barbara, Calif., which cost him express and all about \$5.00 which is two dollars less than she can get them on the local market, when she can get them at all.

FOR SALE. One 4-burner oil stove, \$15.00 cash, or trade for chickens, J. A. Darden at depot.

It does ones heart good to be at the depot when the train pulls out for the north. The express car is filled with live poultry, dead rabbits, cream and other farm delicacies for the hungry city folks. There are many cars of cattle for the packeries, horses and mules for eastern farms; cotton, corn and maize for the marts of the world. Surely old Terry is doing its share toward alleviating human and animal suffering in the world.

Among our soldier boys that have recently been discharged and returned home were Chas. Triplett who has been taking an officers training course at Camp Stanley and Dab Dickinson, who was taking a machinest training course at Camp Mabrey; also B. Yeates, of Yoakum county, came in from Camp Travis.

Mrs. T. J. Hamilton shipped out 630 pounds of live poultry to Swift & Company at Amarillo, Tues. Thus, this hustling farmer wife now has a substantial bank account; all her own, as she got 25c per pound for her three large crates of turkeys, and about 20c for a crate of hens Mrs. Hamilton has raised turkeys all her life, and all the way from here to east Texas, and she says this is the nearest the ideal place for the birds she has found. The hight dry climate and the absence of the heavy dews of the east that proves so fatal to the poults, together with the broad range and abundant insect live here, such as grasshoppers and beetles, makes this a great poultry country with the minimum feed cost. Come a humping to Terry.

J. W. Yeiser was here recently, visiting his sons, Walter and Jim.

Lee Ferguson, of Snyder, shipped several cars of cattle from here to the Fort Worth market, Tuesday.

More than an inch of rain has already fallen here this week, and it is still coming. The goose with the golden egg is hanging high in old Terry for 1919.

A half grown wolf mounted by our efficient local taxidermist, Jno. S. Powell, now graces the show windows of the Brownfield State Bank and advertises the Red Cross drive, instead of yapping the farmers' chickens.

Seventeen cars of cattle were loaded out of Seagraves, Tuesday. Johnson & Graham, 2 cars; J. D. Graham, 4 cars; J. W. Seawall, 2 cars; Mr. McBride 1; Mr. Technique 4; other parties we did not learn, 4 cars. Most of them were from the Lovington, N. M., country. Three cars go to wheat fields in Kansas and 4 cars to wheat fields at Rotan,

BROWNFIELD AMAZED BY SUDDEN ACTION

The quick action of pure Lavoptik eye wash is startling. A school boy had eye strain so badly he could not read. A week's use of Lavoptik surprised his teacher so much she used it for her old mother. ONE WASH showed benefit. A small bottle is guaranteed to benefit EVERY CASE weak, strained or inflamed eyes. The QUICK result is astonishing. Aluminum eye cup FREE.

THE BRITISH ON THE SEA.

New York Times: Speaking at the University Club in Brooklyn, Louis Tracy pointed out the absurdity of Germany's contention that she had to plot against Great Britain because Britain controlled the sea. Dutch, Swedish and Norwegian ships, he said, had a tremendous trade by sea, and Holland—he might have added Belgium and Portugal—valuable colonies, but none of them had ever feared Britain's dominion of the seas. None had ever feared that she would deal unfairly with them, and none had to form alliances and conspiracies against her.

The difference between Great Britain's control of the sea and Germany's army on land is that nobody had any reason to be afraid of the former. The British fleet is for defensive purposes only. Great Britain is an island, and would have small chance of defense by an army if an enemy invaded her. She must have a great fleet as her only sure protection. She has one, but never has she used it, as Germany would have used it, to strangle the trade of other nations. The seas are as free to trade as if Great Britain's navy were the size of Venezuela's.

This is why Germany's conception of the "freedom of the seas" in time of peace was always without a grain of foundation. As for war, Britain has used her fleet as fairly and legitimately as in time of peace. Her navy is unstained by any of the atrocities that made the world's blood run cold during the short life of the German navy. Without it we could not have won this war, and despite the temptation to retaliate, the British navy conducted its share of the war as impeccably as if it had been fighting an honorable foe. The Brit-

ish fleet is a protection to the world's trade in time of peace, and a bulwark against assassins in time of war. It is a friend to the trader, but a terror to the pirate, as Germany now knows.

WHAT TO LOOK FOR

Do not look for wrong or evil; You will find them all the while; As you measure for your neighbor He will measure back to you.

Look for goodness, look for gladness; You will need them all the while; If you bring a smiling visage To the glass, you meet a smile.

—Alice Cary.

It is not exactly true that we always find in life what we look for but it is true that if we are determined to complain we can find plenty of evil and if we persist in a complaining mood we are liable to become one-sided and thereby greatly reduce our ability and opportunity for doing good. A moody, morose, pessimistic sort of an individual does little good for himself or others. He continually looks on the dark side of life and sees the worst of everything. As he views it nobody is right. The churches are all going to the bad; his neighbors are bad, business men are bad—everybody and everything is bad. Such a fellow usually lives all over the country—first at one place, then at another and has little influence anywhere. He soon tires out with everybody and everybody gets tired of him. There is still much good in the world and it is a good place to live. There are thousands yet whose hearts are warm with the love of Christ and whose souls are thrilled with the hope of heaven. Their lives are beautiful, virtuous, and happy and their presence brings joy and gladness. Their deportment

is such as becometh the doctrine of Christ, their affections are centered on things above. In the association of these there is cause for rejoicing—not for gloom and sadness—and these should be our most intimate earthly associates.—Firm Foundation.

SILENCE AT LAST.

A certain gentleman objected very much to being talked to by his barber while he was being shaved. He had not thought of any way of curing his talkative barber, when one day a brilliant opportunity arose. The barber asked him if he could feel the razor on his face.

"My dear man," replied the gentleman, "if you hadn't mentioned it just now I should never have known there was a razor on my face."

"Thank you sir!" beamed the barber.

The Gentleman (continuing)—"I thought you were using a file."—Pittsburg Chronicle-Telegraph.

H. H. Copeland, the new manager of the Higginbotham-Harris lumber yard, paid us a pleasant call one day last week. A NERVOUS WRECK

From Three Years' Suffering. Says Cardui Made Her Well.

Texas City, Tex.—In an interesting statement, Mrs. G. H. Schill, of this town, says: "For three years I suffered untold agony with my head. I was unable to do any of my work.

I just wanted to sleep all the time, for that was the only ease I could get, when I was asleep. I became a nervous wreck just from the awful suffering with my head.

I was so nervous that the least noise would make me jump out of my bed. I had no energy, and was unable to do anything. My son, a young boy, had to do all my household duties.

I was not able to do anything until I took Cardui. I took three bottles in all, and it surely cured me of those awful headaches. That has been three years ago, and I know the cure is permanent, for I have never had any headache since taking Cardui. . .

Nothing relieved me until I took Cardui. It did wonders for me."

Try Cardui for your troubles—made from medicinal ingredients recommended in medical books as being of benefit in female troubles, and 40 years of use has proven that the books are right. Begin taking Cardui today. NC-134
