VOL. 15.

BROWNFIELD, TERRY COUNTY, TEXAS, FRIDAY OCTOBER 31, 1919

NO. 16

TERRY COUNTY

What a New Comer, Mr. A. A. Larkey Thinks of Old Terry.

Located in the Heart of the Great Plains of Western Texas, Terry County has, within the past fifteen years, fully established her claim to good crops raised every year, having been the only county in West Texas that made a general crop in the year 1918, and furnished grass, also, for 10,000 cattle shipped in from other parts of Texas. During this extremely dry year, 25 cars of corn, 40 cars of headed maize and kafir corn and more than 20 cars of baled feed stuff were shipped out of the county, besides retaining a sufficiency for home consumption. Besides the above shipments, two cars of threshed seeds were furnished to other counties for planting purposes. During the year 1917, Terry County won second prize on cotton and third prize on broom corn at the Texas State Fair, as well third on corn,—“WORLD COMPETITION.” At this time Five blue ribbons were also won on apples. Now comes the announcement that Terry County has won ten more blue ribbons at the Texas State Fair for the year 1919. These have been won on Cotton, Junecorn, Apples and feed crops.

Terry County has never made a complete failure. Cotton, Corn, Maize Feterita, Sudan, Broomcorn, Peanuts, Sorghum, Potatoes, Pumpkins, Watermelons and Cantaloupes are all successfully grown. Fruits of all kinds do exceedingly well, including Apples, Peaches, Plums, Grapes, Pears, Apricots and Cherries.

Regarding the Climate, the United States Weather Bureau says that this plateau is “Probably more favored as regards weather conditions than any other portion of the United States, except possibly the immediate coast of Southern California and the

Florida Peninsula.” This application applies to the entire plateau, which includes all of Terry County. It will be noticed that only two possible exceptions are made. Lands in southern California are selling for prices ranging from \$500.00 to \$2500.00 per acre. The lands of Terry County are fully as good and will produce crops worth just as much, and the prices of these lands range from \$20.00 to \$40.00 per acre for well improved properties, near town, with all the privileges of good schools, churches and markets. (No citrus fruits are grown here.)

The soil is generally a red loam, ranging from a tight mesquite to a deep red sand. There is absolutely no hard pan, or alkali. There is a fine mixed soil between the hard, or tight land, and the sand, which is an excellent combination for general farming. All these soils will produce large crops of cotton, corn, maize, sudan, and other feed stuffs; also fruits and vegetables. The top soil is from six to twenty inches deep, made from decayed vegetation, is very fertile and productive, and underlaid with a dark red clay, also rich in plant food. This formation is practically perfect for storing and retaining all the moisture which falls. As the rain fall will average 21 inches, according to the Government Gauge at Brownfield, this is sufficient moisture for all purposes, especially since 75 per cent of it falls when it is needed the most, namely between April and November, the growing season.

The County is also blessed with an unlimited underground sheet of pure water at depths from 60 to 100 ft. This water is suitable for all purposes including irrigation. The water is usually brought to the surface by windmills that run nearly every day in the year. One windmill will irrigate several acres of land, or furnish an ever flowing stream of cool water for several thousand head of cattle. Gentle breezes blow throughout the year. The most wind occurs in the

springtime, with an occasional dust storm, but lying in a favored position without the normal storm track, sudden extremes of temperature are uncommon, and tornadoes are unknown. The rainfall occurs usually in the form of showers of short duration, which are very seldom destructive to crops or property. Generally the country is a level prairie, well set to about 20 native grasses, consisting mostly of mesquite and gramma and some bunch grass. Mesquite bushes are scattered about in places, and there is some shinny in spots, and also catclaw bushes. All these bushes, except the mesquite can be plowed through and tilled without any bother about grubbing. Livestock eat the native grasses all winter, and very seldom require any other feed.

Terry County has many advantages some of which cannot be obtained elsewhere in the United States, and has very few disadvantages. It is well worth your time to come and see for yourself what there is here and the many opportunities offered. Nowhere else can one buy lands as good as these for the prices prevailing at present. This present condition will not last long. NOW is the time to buy. Next year it is quite probable that the prices now obtaining will be doubled. And there is a good reason. In many instances, the crops grown on the land will more than pay for the land. Do you want to own your HOME? Then come to Terry County.

To reach Brownfield by train, come via Lubbock, thence by train or auto mail line. Train service is on Monday, Wednesday and Friday of each week. The auto mail is a daily service. To come overland, if from the east, come via Post City, or Tahoka; if from the north, come via Lubbock. Hotel service in Brownfield is good and you will be well taken care of. You are earnestly solicited to come to Terry COUNTY this fall, while bargains may be obtained near town.

CITIZENS MASS MEETING

At a Mass Meeting of 47 citizens of Brownfield, Texas, a temporary chairman was selected and the meeting called to order by Jack Stricklin as Chairman, protom. The purpose of this meeting was to devise some means, if possible, to secure for the citizens of Brownfield and Terry County a better mail service than the present hit or miss condition which obtains. With this end in view, it was moved and seconded that the organization be made permanent to properly work out any plans proposed and carry them on to a complete success. The motion was placed before the house and unanimously adopted. Mr. Jack Stricklin was placed on nomination for permanent Chairman, and Mr. A. A. Larkey for permanent Secretary-Treasurer, and were elected to fill these respective offices. The Chairman introduced the subject before the meeting and called for an open discussion by the persons assembled in order as recognized by the Chairman. A very interesting and helpful discussion followed, with the motion introduced that the Chairman appoint various committees in the order named:—First

To draft a petition either to the Postal Authorities for a better service, or to the Railroad Company, through the Administration in Charge to obtain a daily train service, and have the mails carried thereon. The persons appointed on this Committee were Messrs. A. A. Larkey, Jno. B. King and J. W. Hatton. Mr. J. J. McGowan and Mr. Geo. W. Neill were appointed to assist in the preparation of petition. Second:—To obtain full information and correct data of the amount of tonnage shipped over the branch railroad line passing through this section. Mr. O. T. Halley and Mr. R. M. Kendrick were appointed to

SPRING DAY AND DINNER

It is not often that a busy editor in this part of the world can forget his cares and worries long enough to enjoy himself real well, but we did one day last week, and we had a precious good cause. We had a real spring day and a real spring dinner all the same day—we mean the noon dinner—and Mrs. Joe Hill of one mile south of town was the cause of the dinner, and the weather man got sorry for us and furnished us a real spring day.

Now, we appreciate beautiful days alright after a rainy and foggy fall like this, but we appreciated the dinner even more, for Mrs. Hill was not so long in supplying her part of the enjoyable day. There was fresh onions, radishes, lettuce and some sweet pepper, all just as fresh and nice as you please, and we eat so much dinner that we wanted to add the usual spring day nap, but press of work would not permit.

P. S. Mrs. Hill sent this delicious present to Mrs. Editor, but we persuaded her to whack up.

Chas. Acker one of our prominent farmers was a north bound passenger Tuesday morning.

form this committee.

Third:—A committee, composed of Mr. E. C. Alexander, Mr. Will Adams and Doc. Powell were appointed to interview Mr. M. V. Brownfield, to see if he would be willing to go to Washington, D. C., as the personal representative of this body, provided it was necessary to send someone in that capacity.

A popular subscription was started to defray the expenses of the trip, which was liberally subscribed to by those present.

Meeting adjourned without any date being set for a meeting again. A. A. Larkey, Secy.

One of our regular readers living down at Hamilton, Texas sends his annual dues for the Herald this week and asks us why the real estate men don't list some of their lands in the Herald. He says that he wishes to buy more Terry county dirt, and wrote one land office here and they never answered his letter. Well, if this thing keeps up, we'll enter the land business on a large scale ourselves. Real estate men please take notice, and answer your customer's letters.

E. W. Wirtz handed the coin to us this week for the Herald to come to him individually. He said he could get his father's paper most of the

time as they live near each other, but once in awhile he missed a copy, and had rather have a copy of his own. Contrast this with another reader—one of the kind that borrows his neighbor's paper. He said the reason that he did not take the Herald was that it did not contain enough local news and too much advertising. Poor Prune.

We have a joke on one of our land men that cannot be kept—too good—must be divided. But we are not going to publish any names. Recently one of these hustling gentlemen came into the Herald office and asked to see our mailing list, as he wanted to send out some dope to non-resident owners concerning the lease of their land for oil purposes. Well, he happened to send one to our brother-in-law, who lives in Illinois. And now he has our kinsman believing that some Santa Claus has remembered him in his last will and testament. Our brother-in-law, you understand is merely an innocent bystander, as it were, in other words he reads the Herald on us. Now it is going to be a job on our part to have to break the news to him that he is no owner in full or part of any of the fat sections in good old Terry and he will probably think that the land man is subject to a suit for damages for keeping him awake at nights. He says in his letter to us—in which he incloses the mimeograph letter or circular of the local land booster, that he has no land in Terry that he knows of—but if he has—and he wants us to find out—he is not going to lease it to any Wild Cat for oil purposes.

F. P. Mosier left this week for Rowena, Texas, where his wife preceded him several weeks. He informed us that he would help gather the cotton crop in that country, but he would be back to old Terry by spring. The Herald will keep him posted in the meantime.

W. K. Dickinson shipped two cars of cattle and Morton J. Smith one car from Seagraves this week. We were informed that this just about winds up Mr. Smith's cattle in that part of the country, but Mr. Dickinson is constantly buying as well as selling and keeps near the same number of cattle on hand all the time. All these cattle were bound for the market. Mr. Dickinson offered us a free ride to Fort Worth with his, but we had to tell him that we did not have enough winter clothes to get that far from home.

A NEW SERVICE FOR HOME BUILDERS

The ever onward march of progress records another victory. The old fashion lumber yard is fast becoming a memory, with its bleak, unpainted and dirty office and in its stead is the Modern Building Store where in place of boards and timbers to greet the customers we see extensive displays of actual photographs of homes and buildings, a large assortment of plans and helps to assist the builder in obtaining the complete building he desires. The material merchants have come to realize that the home builders are not interested in "How many feet of 2 x 4's it takes to frame a house or what that material is worth per thousand feet", but the information they seek is

What will my new home look like? How will it be arranged? What will it cost completed?

In answer to this demand of the reading public an extensive building service has been established, known to the country over as the most practical, helpful and economical ever offered to home builders. This organization by name, "Ye Planry" Service furnishes its builder's advise and plans only through the local lumber dealers in each territory. They furnish their dealers, the local lumberman, with a display of modern home plans, suggestions, information etc. pertaining to every department of the building. The owner can go to this local dealer and buy a home or garage from actual photographs just like he would buy any other commodity. The designs they show are the same homes as featured in the Ladies' Home Journal, Holland's Magazine and others National Publications as well as larger city Home Building Campaigns. The citizens of Brownfield should welcome this valuable service as it will bring the latest and best in beautiful homes to our midst and will be instrumental in elevating our civic attractiveness by encouraging the building of more and better homes. The local dealer who has secured this service is the A. G. McAdams Lumber Co., where this display of Homes may be seen by all. You are invited to inspect it and the manager Mr. Prideaux states that every possible assistance will be rendered the builder, even to furnishing complete blue print plans and specifications. INDIGNATION MEETING

The meeting at the Courthouse one day last week to protest the present way the mail business is being dished out of us was not only well attended, but every man there was determined that something is going to be accomplished and they stand ready with time and money to go after what our town, and the towns and communities west of us not only want but are entirely entitled to in the matter. In fact it was more of an indignation meeting than anything we can describe.

The railroad administration was appealed to through petition by our congressman, Hon. Marvin Jones fast winter to no avail, and the reply to Mr. Jones' petition was no only a rebuff, but almost an insult to this fast developing and deserving country. While our population it is true is small, it was absolutely loyal to the government during the war, and the bolshevik and hoodlum was unknown here, but after the armistice when the cities of the east and north were demanding extra trains at all hours of the day and night, and getting, we thought we were at least entitled to a mixed train six times a week, but the railroad administration thought otherwise, and that is one reason that the citizens of this part of the country are so full of love(?) for Government ownership, and are rearing(?) for the time to come for them to vote for the pet of the President, Mr. McAdoo.

If at the end of hostilities the railroads had been turned back to the owners, we would have done had daily train service through our railroad commission at Austin—which is now only a figure head—and with it mail service via the train.

But the citizens of Brownfield, Gomez, Plains, Broncho, Tatum and Sea graves and the surrounding territory are going to keep everlastingly on the trail of the railroad officials and the government officials until they do their duty, and remove this injustice to us from the record.

We are entitled to it; the traffic justifies it and we are going to get it. All together.

This Applies to Brownfield Too

The well known progressiveness of the business men of Snyder, as evidenced by the advertising patronage given The Record, has made the town one of the most substantial cities in the west and the same spirit will prevail until Snyder reaches a population of ten-thousand and these men will forge on to the goal that marks the most important city in northwest Texas. They do not underestimate the value of advertising and are fully awake to the fact that:

"The constant dropping water
Wears away the hardest stone.
The constant gnaw of Towser
Masticates the toughest bone.
The constant wooing lover
Carries off the blushing maid
And the constant advertiser
Is the one that gets the trade."
—Snyder Record.

The cotton season is just now get-

ting under way as it opens later in this county than it does the harder land counties to the east. The last we heard from the West Texas gin they had cut out a little more than 120 bales, but it seems that the fellow that operates the weather for this section has absolutely lost control of the steering lever.

The Literary Digest of last week was printed entirely without typesetting, one of the costliest operations of magazine production. Typesetters of New York were on a strike and large numbers of prominent magazines could not issue. The Literary Digest had their typewritten copy sent direct to the stereotypers who photographed the copy and then made plates direct from the photographs, and the Digest was printed from the plates. Thus typesetting was eliminated altogether. This was an innovation in magazine publishing and it is possible that the whole future of magazine production may be revolutionized in the elimination of typesetting. The makeup of the magazine was in no way changed, the only difference being that the face of the type was the same as typewriter type and the lines at the ends were of irregular length.—Canadian Record

Brownfield Lumberman Says Business is Good

Boyce C. Cardwell, manager of the Kemp Lumber Company of Brownfield, who accompanied his wife here the latter part of last week where she will receive medical treatment in a sanitarium, says business is getting better in his territory. "Real estate men are selling lots of land, some reporting as high as \$20,000.00 worth of property changed hands in one day. The lumber business is better than for years. Homes are being built in town, in the country and many farmers are erecting adequate facilities to care for the enormous crops they raised this year," Mr. Cardwell says.—Lubbock Avalanche.

Now this is the kind of a report we ought to hand the newspaper reporter away from home. He had a lot rather publish just such a report as the above, especially when he is certain he is getting the truth as in this instance. But Boyce never carries a hammer at home or abroad. He "aint" built that way.

DON'T FORGET that Gist is still on the job with the Battery business.

TEACHERS: Get your Report Cards at the Herald Office. Being used by Brownfield, Gomez, Union Independent and other schools. Samples on request.

Elder T. R. Chisholm is here this week visiting his nephew, Geo., of the north side of the county. These two gentlemen have formed a land partnership, and will collect a lot of Terry county products and put them on display at Lubbock, which place we understand they will make headquarters.

Cardui Made Her Well.

Texas City, Tex.—In an interesting statement, Mrs. G. H. Schill, of this town, says: "For three years I suffered untold agony with my head. I was unable to do any of my work.

I just wanted to sleep all the time, for that was the only ease I could get, when I was asleep. I became a nervous wreck just from the awful suffering with my head.

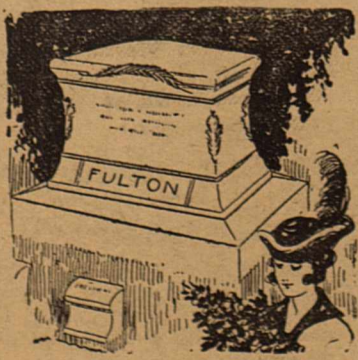

I was so nervous that the least noise would make me jump out of my bed. I had no energy, and was unable to do anything. My son, a young boy, had to do all my household duties.

I was not able to do anything until I took Cardui. I took three bottles in all, and it surely cured me of those awful headaches. That has been three years ago, and I know the cure is permanent, for I have never had any headache since taking Cardui. . .

Nothing relieved me until I took Cardui. It did wonders for me."

Try Cardui for your troubles—made from medicinal ingredients recommended in medical books as being of benefit in female troubles, and 40 years of use has proven that the books are right. Begin taking Cardui today. NC-134

A Trip To the Keystone State

Mrs. F. M. Ellington and daughter, Eileen and Mrs. Ellington's brother George McDowell of Harris, Texas, left Brownfield, July 10th to visit Mrs. Ellington's and Mr. McDowell's mother, Mrs. J. W. McDowell who lives in Pennsylvania. Mrs. McDowell spent one year and 9 mo. in Texas, about 8 mo. of which time she lived in Brownfield.

After three and one half days S P 3 nights of continuous traveling we were arrived at Grove City, Penna. July 13th. A three mile run by auto brought us to the old homestead which after a period of eight years showed quite a few changes. After a few days rest we visited relatives, old friends and schoolmates, enjoying every minute of the time. August 26th Mr. Ellington arrived at Grove City, and attracted quite a bit of attention as he was wearing his boots and cowboy hat which were very much of curiosities to the most of the people. Infact he was quite a curiosity himself, so that our days were filled to overflowing, attending dinners, parties and entertainments where everyone was anxious to become acquainted with a "real, live cowboy" and to hear his wonderful (to them) tales of his earlier cow punching days. Two old fashioned corn roasts were held in our honor—old fashioned, except that we did not steal the chickens. We attended the County Fair which was a sure enough fair in that country. One could scarcely so many people, all going to the same place. Almost everything one could think of, was displayed and exhibited. Horses, cattle hogs, sheep, goats, poultry, agricultural implements, autos, musical instruments, flowers and fancy work. There was a Scottish Highlander's Band with their bag pipes and drum besides the local band. Then there were the horse races, the Merry-go-round, Ferris wheel, balloons and squawker men the boy hollowing "Hokey Pokey-Ice cream," souvenir stands, etc. The next morning, Sept. 19 accompanied by Mrs. McDowell we left

Grove City to visit relatives in Lebanon. We crossed the Allegheny Mts. where they were too high to go over we went thru—went over the famous Horseshoe Curve between Altoona and Harrisburg. From Harrisburg, the capitol of the state we went by Trolley thru Hershey noted for the manufacture of Hershey's chocolate, arriving at Lebanon about midnight. While there we visited an iron mine a short distance from the town, also went thru the iron works and saw the ore being converted into usable material and saw the huge magnet picking up at one time, six or eight iron jugs weighing from 75 to 100 pounds each. Lebanon is a town of 25,000 and is situated in the Lebanon valley, one of the richest farming regions in the U. S. It is almost surrounded by high hills and mountains from the sides of which outcrop tons of limestone and on the tops of which grow all kinds of timber.

Sept 22nd we left Lebanon bound for the good old Lone Star State. We had a very enjoyable time and while loath to leave our old home and friends we were glad to be coming back to the country where we could get a breath of pure air and where we could stretch without bumping into somebody. We passed thru Pittsburg, Pa., Columbus, O., Indianapolis, Ind., St. Louis, Mo., Kansas City, and Amarillo arriving at Lubbock, Sept. 25th and came on Meadow, Sept 26th. We decided that Pennsylvania was a pretty place and a good place to visit but to live there is no place like the plains of Texas, sandstorms and all.

William Arlie Stewart age 5 years 2 months and 17 days, son of Mr. and Mrs. William A. Stewart Jr., of Crosby County, died last Saturday evening about 6 o'clock from the effects of burns received Saturday morning early, while attempting to start a fire in the cook stove, during the absence of both mother and father from the house.—Lubbock Avalanche.

HARRIS HAPPENINGS

By Sand Bur.

Brit Clare and Roy Fitzgerald have been weaning calves this past week.

Every body is busy these days most of them gathering crops.

Roy Harris and family were out Sunday visiting home folks.

Millard Ellington and wife were down from Meadow Sunday visiting at her parents, W. H. Harris and family.

Walter Frazier and wife and Miss Thelma Alexander spent last Sunday at Harris.

Miss Ethel Harris went Saturday to look at some stock in west of Harris with the intention of buying a few if they suited her. Miss Ethel is teaching her second term of school and she keeps her salary invested in cattle. We predict that she will not be a penniless school teacher.

"Let's do the darn job together"

—Ches. Field

WHY is it that more and more smokers (millions now) are getting together with Chesterfields?

First of all, fine tobaccos. Our own buyers in the Orient send us the pick of the finest Turkish varieties (Xanthi, Cavalla, Smyrna and Samsoun). We blend these by a secret method with specially choice Domestic leaf.

This method brings out new qualities of flavor—a smoothness, a richness, a mellowness that go right to the spot. That's the reason Chesterfields satisfy.

And remember—"Satisfy" is Chesterfield's secret, based on our own private formula, which cannot be copied.

Every package has a moisture-proof wrapping—another reason for Chesterfield's unchanging quality of flavor.
