NEILL LAMBASTS LUBBOCK REAL ESTATE MEN

By Geo. W. Neill

Our business and commercial relations with Lubbock for the past several years have been pleasant and agreeable to us and profitable to Lubbock. We feel toward them as a neighbor. Many of her best citizens and business men got their start in Terry county, and yet have holdings here. Some of her wisest heads have the commendable pride of claiming Terry as part of their trade territory, and yet we sometimes feel proud that we live as close to her as we do. We regret the necessity of registering a kick against some of her lying land agents. We would cuss, were it not for the fact that we still believe most of her real citizens would speak a kind word for us, or at least would tell the truth in referring to our country but many new comers; homeseakers in the west, on their way to Terry county, are met by the Lubbock land agent, who tell them this county is a solid sand bed. "They can't get here for the sand" "they absolutely can't travel here in a car," "the farms are all blown away" and "it is a cheap land county" and many other untruthful remarks, which many times to their delight "knocks" an immigrant out of a happy home. Is this the only way Lubbock can sell its lands? Can't she get other immigrants than those who have to come thru there on their way to Terry County? Do the real citizens there sanction these untruths and unjust knocks on her most resourceful neighbor? We'll see later.

The truth of the matter is, Terry county has 100 miles of graded roads, and over another 100 miles of good smooth passable roads. Nearly all the farmers and ranchmen have cars, and automobiles run to and thru every nook of the country. We dare say that last year we shipped out more farm produce than Lubbock

COTTON BEING BETTER THAN 40 CENTS

At last the old farmer is on top, and has Mr. Gambler guessing and we hope he will keep him guessing until he is routed from his place of business on all the famous gambling streets in the world.

The farmer has it in his hands to keep cotton where it ought to be. Keep down production to what the world must actually have. Will they do it?

The picker is coming in for a lot of the spoils too; he is getting \$3.00 per hundred for gathering the staple, and a good picker can make \$9.00 to \$12.00 per day, and he gets his chuck and lodging.

Cotton is coming in briskly this week with prevailing clear weather, and bank deposits are soaring upward.

The State Bank now has well past \$300,000.00 on deposit and the First National, a new institution has better than \$75,000.00 on deposit. Compare these figures with their statements about a month ago.

did, and will likely do so this year. The north half of our country, and many sections thru the central part are as smooth as Lubbock county. Its true we have some sandy land and that's from whence the produce came that taken 21 BLUE and RED ribbons at the recent State Fair at Dallas, just across the aisle from Lubbock's booth. Maybe that's the reason they "knock" on the sand.

No, Mr. Lubbock land agent, we stand on the merits of Terry county and its products, rank where we may, but we resent all untrue statements.

SHALL WE CELEBRATE THE 11?

Next Wednesday is the first anniversary of the Armistice, when the wild hun had to lay 'em down because a lot of doughboys from the good old U. S. A., whom the Huns said could never land because of their deadly subs, were too close on their trail for comfort, and thus ended the greatest war from standpoint of loss in life, property and money in the history of mankind.

Terry county had hundreds of boys over there and in training that were responsible for the closing of this blot on the human race.

Programs for a night celebration can be arranged between now and then.

Don't let Brownfield forget to celebrate the occasion, or fail to pay due homage to our dead heroes that lay buried under the French sod.

Lets Celebrate.

HALLOWEEN

Hallowe'en, the day and night that witches, goblins, hoodoos, etc., are supposed to possess the land was sumptuously observed here last Friday night, and while the above mysterious creatures had a jolly time till the wee small hours, they failed to move everything not nailed down as usual; maybe because the officials stayed on the job too late.

There were about four parties in town, all told, and they ranged from the little tots that were probably celebrating their first spook party, on through the broiler, fryer and up to the grown ups, and at each place, all report a glorious time.

We understand that such parties prevailed throughout the country.

A. Ribble, of Lubbock, will preach at the Church of Christ, Sunday morning an night. All invited to hear him.

DISTRICT COURT

District Court of Terry County was short and sweet, as usual, the Grand Jury only being in session about one day, and found nothing worthy of investigation. The people of Terry County are law abiding, and need no restraining influences to keep them in a line.

District Judge, W. R. Spencer gave a full and complete charge to the Grand Jury on the new prohibition law, which he said was the most stringent ever enacted, but old booze is not bothering Terry county folks. They buried it under a stack of ballots.

The Grand Jury was in session only one day and did not find a bill. Court was in session two days and all the cases tried were civil. There was only one criminal case on the docket, and it was carried over.

Besides the district officials, which included District Judge W. R. Spencer, District Attorney Gordon B. McGuire, of Lamesa and Court Stenographer, H. C. Smith of Lubbock, the visiting attorneys were Messers. Percy Spencer and Roscoe Wilson, of Lubbock and former District Attorney, G. E. Lockhart of Tahoka.

The following cases were tried or disposed of according to the foregoing report from the Clerk's minutes:

Geo. W. Weaver vs. W. H. Richardson; continued for service.

F. E. Walters vs. W. D. King; dismissed at cost to plaintiff.

J. L. Hyman vs. Victor L. Scott et al; judgement rendered in favor of Plaintiff.

W. B. Snodgrass vs. J. W. Berry; dismissed at cost to plaintiff.

Jesie Aimesworth vs. C. H. Walker, et al; continued to perfect service.

F. E. Walters vs. Chas. C. Triplett; dismissed at cost to plaintiff.

R. S. Winn vs. Hattie Winn; divorce granted plaintiff.

ELECTION RESULTS

A very light vote was cast here last Tuesday on the Constitutional Amendments. We failed to get any returns from any other boxes in the county, except the Scudday box, and only 4 votes were cast there, all anti everything.

Results at Brownfield box was as follows:

For \$75,000,000 bond issue 5; against 34.

For increase in Confederate pensions 24; against 12.

For dividing net income of prison system with convicts' families, 21; against 18.

For the Galveston City and county bond business 14; against 22.

For Amendment relating to provision for public building, sewers, waterworks etc., 5; against 29.

For Separation of University and the A. & M. College, etc., 9; against 26.

For Constitutional Convention 5; against 17.

We imagine the results over the county will run something like the above.

DON'T FORGET that Gist is still on the job with the Battery business.

W. B. Downing and Tom May left last Saturday for Denver, Col., where the former will buy a herd of sheep. Tom went along to assist him in the purchase, as he has had considerable experience in the sheep business.

vs. B. F. Hammet et al; continued for service on defendant on application of plaintiff.

W. B. Bassham vs. C. C. Vanzandt et al; judgement by default against C. C. Vanzandt, Vard Evans and Jim Evans and dismissed as to defendant M. L. Evans.

State of Texas vs. J. A. Roberts; continued on application of State.

WHY THE PLUMB PLAN OF RAILROAD OWNERSHIP?

(From "Labor")

When your neighbors ask you what you mean by the Plum Plan tell them this:

"It means that I will work for myself; I will work for my neighbors, for the public. It means that I will no longer work for Wall Street; for the banking syndicate that rules the railroads for private profit, for speculation, for robbery; it means that I am to be a free man as was my father, who owned his own tools and carved out his own fortune in free America.

"This is what the Plum Plan means. It is a declaration of independence for 2,000,000 working men. It means that we will use our brains as well as our hands; that we will put 10 per cent of ourselves into our jobs. We will do this not because we will share in the savings due to our own efficiency, but because we are working at a common undertaking that we want to make a success.

"This is the Plum Plan. It means freedom, freedom for you; freedom to the manufacturer from discriminatory rail rates; freedom to the farmer to bring his produce direct to the consumer. It means transportation at cost. And it means to me that I have become a servant of the American people in the best sense of the term. Under the Plum Plan I will work for my country and for myself as well.

"This is true Americanism."

Yes, and it means that the Government will take property from one class of citizens at figures set by the buyer, and turn the thing to another class that so far has not given us as good service as the old railroad owners—and their service was rotten—to run as they pleggam please. All sounds very good—but Mr. Government, while you are at the business of buying and giving, the DIRTY CORPORATIONS own some machinery that we would like to have in the Herald office. We demand that it be forth coming, instantly.

LUBBOCK SURGEON PERFORMS REMARKABLE SKIN-GRAFTING

Little Espenitta McDonald, five years old daughter of John McDonald of Lockney, who suffered severe burns nearly a month ago, is lying in a local sanitarium recovering nicely, after the attending surgeon grafted two hundred square inches of skin on her body, which was voluntarily given by thirteen Lubbock people and her father.—Lubbock Avalanche.

Ralls Pharmacy Burglarized

The jewelry department of the Ralls Pharmacy was rifled Thursday night, something like \$500 worth of jewelry being taken.

A part of the stolen goods were found in front of the First State Bank Friday, where it is believed the trays containing same were carried before the "spoils" were taken, and that which was not desirable was dumped in front of that building.

Two young men by the name of Shaffer and Sanders were searched at the depot Friday morning, but no trace of the missing goods were found. Later, however while cleaning the room occupied by Sanders, a ring was found, which identified by Will Marr and Shorty Bullock as being among the goods that were missing.

On the face of this, warrants were issued for the two boys, Shaffer being apprehended at Lorenzo, and Sanders at Lubbock.

All circumstantial evidence point an accusing finger at these young men, and unless it is possible for Sanders to prove where the ring came from found in his room, it looks bad for them.—Ralls Banner.

Our old friend T. J. Price, of the north side, informed us this week that he just had 2000 gallons of old cane syrup that he made this season and the editor took a bucket home with him and tried it out. This old farmer—not so powerful old either, has made more than \$2,000.00 out of good sorgum molasses alone this season, besides numerous other things to be gathered yet, and yet there are people dying with chills and fever in the east that think you will stave in the west. Oh! If people just only knew better.

Camel CIGARETTES

CAMELS supply cigarette contentment beyond anything you ever experienced! You never tasted such full-bodied mellow-mildness; such refreshing, appetizing flavor and coolness. The more Camels you smoke the greater becomes your delight—Camels are such a cigarette revelation!

Everything about Camels you find so fascinating is due to their quality—to the expert blend of choice Turkish and choice Domestic tobaccos.

You'll say Camels are in a class by themselves—they seem made to meet your own personal taste in so many ways! Freedom from any unpleasant cigarette after-taste or unpleasant cigarette odor makes Camels particularly desirable to the most fastidious smokers. And, you smoke Camels as liberally as meets your own wishes, for they never tire your taste!

You are always keen for the cigarette satisfaction that makes Camels so attractive. Smokers realize that the value is in the cigarettes and do not expect premiums or coupons!

Compare Camels with any cigarette in the world at any price!

Camels are sold everywhere in scientifically sealed packages of 20 cigarettes or ten packages (200 cigarettes) in a glassine-paper-covered carton. We strongly recommend this carton for the home or office supply or when you travel.

Save All Your Cotton Seed
Suitable For Planting.

In 1917-18 a large part of our state, mainly Central, Northwest and Southwest Texas, practically made no cotton, and was compelled to buy seed from the more favored sections of the State.

More than half of the State must buy planting seed for next year, and these seed must come from central and Northwest Texas, where the best seed are now known to be. From this section seed for planting next crop must be obtained.

The department of Agriculture now urges every farmer not only to hold cotton, but also hold seed suitable for planting. These seed will bring the top prices. Already some seed have sold for above the market price. If you sell to the mills, they will crush them or hold for speculation. Store in a dry safe place and hold your seed, and be prepared to

ship in car lots. When ready to sell, list them with T. S. Minter, Chief of Bureau of Markets, State Department of Agriculture.

Thos. Hickey, Socialist leader of Texas, is reported to have become a millionair thru the discovery of oil on his lands in Eastland County. It is up to Tom now to deliver the goods and give his compatriots a lift along life's way by "divvying" with them or using his wealth or dispensing with it for the benefit and uplift of humanity. Will Tom Divvy? Not on your tintype. We have a personal friend who has more lands and cattle, more oil profits than has ninety per cent of his neighbors, and he is a radical Socialist. But he doesn't divvy. If you rub against him you may feel lucky if you get away before he peels you for a two-bit peice or pro-rata, according to the importance of the transgression. Many of the best things in the country come through a practical application of what was a few years ago called Socialist doctrines, but when a socialist decides to make a personal application of the "divvy" doctrine it will be a cold day in July.—Canadian Record.

In a speech to the steel workers, who are now on a strike, at Gary, Ind., on the 24th inst., Mother Jones, a noted labor agitator, said, among other things:

"We don't want any welfare workers, sympathy, Y. M. C. A., churches and charity brigades. Those institutions are built on our backs. We want justice. I'll be ninety years old the first of May, but by God if I have to I'll take ninety guns and shoot hell out of 'em. For every scab in the mil, there's a woman that reared him. Women, the destiny of the workingman is in your hands. Clean hell out of every damned scab you can lay hands on. We'll hang the bloodhounds to the telegraph poles. Get out and picket." Such talk is not likely to help the labor problem much, but it shows the spirit that is dominant in labor circles at this time.—Ralls Banner.

Labor organizations are good for the men and good for the country if properly carried out, but history shows that almost every organization sooner or later runs riot. The Ku Kluck Klan was a good thing and filled its purpose gloriously, but a lot of loose nuts carried it too far. The Alliance and Farmers' Wheel were good and had good aims, but they fell in repute simply for the price of entering politics.

There are however, a few things we cannot understand about labor organizations. One is that they are forever yelling "down with the trust" and at the same time they recently plastered whole cities with "no beer no work" signs, and if there is a bigger trust than the beer trust, we want to see it lead out, and besides, it is a German Trust.

Again we always thought this a free country, and if one fellow throws down his tools; that's his business, sure—but has he any right to say that his neighbors cant have the job, either?

Again: Some garment workers struck in St. Louis a few years ago, and it seems the company filled their places with non-union workers "scabs" we believe is their word, and the union men threatened to boycott a merchant here that handled the company's pants. We always thought a man could sell any old kind of a rag he wanted to without a lot of guys in St. Louis poking their noses in. However their threat was a joke so far as this burg was concerned.

We have some good friends that are labor men; yes even kin folks for that matter, and the principles of organized labor is good, but it seems that their ranks are being filled fast by a lot of wall-eyed cranks who have no reason.

If the thing keeps leading the way it is now, workmen will soon merely go to their shops, lift their hammer, lay it down, and call it a days work at several bucks per day, and demand a bonus for having to come at all.

The main trouble with the railroad men it seems, is that the boys are mad because some little knotty-headed pet draws down his \$50 to \$60 bucks per day to look pretty among the office girls, two or three hours, and we dont blame them. Railroad men follow a dangerous business and

deserve good pay, and should get it, but anything less than eight hours is no work at all.

What if the farmers should suddenly decide that five or six hours work per day was enough? Do you have any idea what the consequences would be?

Work or starve.

Hall's Show exhibited in Ralls last Wednesday, afternoon and night. The show was liberally patronized by our people, and was a disappointment to most of them, as it is said to have lacked a deal of being a modern, up-to-date entertainment, and as it required something like one dollar to see the "entire aggregation," many of the patrons feel that they were held up.—Ralls Banner

All the county weeklies seemed to have given this show down the country, and they will likely make this their last visit to the South Plains.

Well we have been looking for Jack Frost for several days, but he hasn't come yet.

We still have Sunday School at J. Cross. A good crowd and a good interest is taken in studying the work. Rev. Hicks preached at J. Cross last Thursday night and spent the rest of the week at Plains, getting ready for Conference at Lubbock.

The new school building is going up and will soon be ready for use. Teachers and pupils will rejoice.

The Taylor girls and Lela Hill came home Friday and returned Sunday they all seem to be doing good work.

A party at J. R. Hill's was enjoyed by the young folks, Saturday night. All had a good time, but all want to try it over soon.

A. V. Taylor and wife attended church Sunday at Gomez. Rev. Heath did the preaching. His sermon was on the Lord Supper. He promised to preach at J. Cross soon, welcome!

A NERVOUS WRECK

From Three Years' Suffering. Says Cardui Made Her Well.

Texas City, Tex.—In an interesting statement, Mrs. G. H. Schill, of this town, says: "For three years I suffered untold agony with my head. I was unable to do any of my work.

I just wanted to sleep all the time, for that was the only ease I could get, when I was asleep. I became a nervous wreck just from the awful suffering with my head.

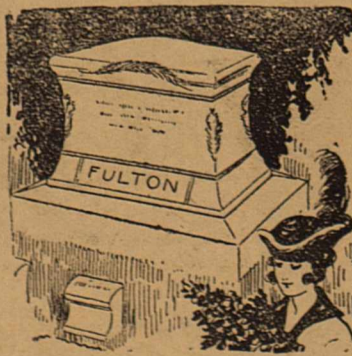

I was so nervous that the least noise would make me jump out of my bed. I had no energy, and was unable to do anything. My son, a young boy, had to do all my household duties.

I was not able to do anything until I took Cardui. I took three bottles in all, and it surely cured me of those awful headaches. That has been three years ago, and I know the cure is permanent, for I have never had any headache since taking Cardui. . .

Nothing relieved me until I took Cardui. It did wonders for me."

Try Cardui for your troubles—made from medicinal ingredients recommended in medical books as being of benefit in female troubles, and 40 years of use has proven that the books are right. Begin taking Cardui today. NC-134

ANNOUNCEMENT

To the Patrons of the South Plains Telephone Co.

Owing to the present high price of labor and material, we find it necessary to raise our rental rates. In order to give efficient and sufficient service, and to satisfy the demands of justice and reasonableness, these prices must cover the cost of rendering that service and leave a profit which compares favorably enough with the profit of in other branches of industry to attract to the telephone companies a continuing supply of capital for extensions and improvements required by the Telephone using public.

While the rentals here in Brownfield have not advanced since 1913, and you are still charged the old pre-war prices, yet labor has advanced 75 per cent and material over 100 per cent and in some instances as high as 300 per cent.

For the purpose of making some comparisons with the present prices charged by this company, and the present prices of other commodities, we wish to call your attention to the following, taken from Table 1 Index Number, Bureau of Labor Statistics of the United States Government

Group	Year	April
	1913	1919
Farm Products	100	233
Food	100	207
Clothes and clothing	100	215
Fuel and lighting	100	173
Metals and metal products	100	153
Lumber and building material	100	161
Drugs and Chemicals	100	169
House furnishings	100	231
Miscellaneous	100	216

While we do not intend to raise the present rates 203 percent, yet in keeping with other commodities this would be the average per cent, and in view of the above facts, we have no hesitancy in asking our subscribers an increase of from 20 to 35 per cent. Should any of our subscribers deem

this increase unjust and unreasonable, we will be glad to go into this matter further with them and explain in detail fully the present abnormal conditions affecting Telephone Service.

The present management has about completed the rebuilding of the entire outside equipment, also the re-wiring of the subscribers stations in the city of Brownfield, and contemplate the erection in the near future of a new office building, and the installation of entirely new central office equipment, and we promise our subscribers that every penny added to your present rentals, will be used in the betterment of the present service.

Rates effective on Brownfield Exchange on and after Dec. 1st 1919 will be as follows:

Business Telephones	\$3.00
Residence	2.00
Rural	2.00
Switching (six or more on same line)	1.00
Switching private	2.00
Extension Telephones	1.00
Extension Bells	.25
Installing Telephones	3.00

VICTORY SAVINGS WEEK, NOV. 9-16

EVERY TEXAS MAN AND WOMAN CALLED UPON TO SAVE AT LEAST \$10.00 AND PUT IT IN WAR SAVINGS STAMPS

FRANK M. SMITH
Federal District Director

Between Sunday, November 9th, and Sunday, November 16th, every person in Texas is called upon to save not less than \$10.00 and invest it in Government War Savings Stamps. By special arrangement it has been made most convenient for all persons who desire to avail themselves of the privilege to purchase the wonderfully attractive new \$100 and \$1000 Registered Treasury Savings Certificates from

their banker or postmaster.

"This period from November 9th to November 16th, is the first anniversary of the Great Victory which was won for us by our American soldiers just one year ago. Every person who appreciates this victory, every person who is a real American and every person who recognizes that he ought to save for himself, as every intelligent man and woman does, should celebrate the Great Victory and honor our heroes by purchasing War Savings Stamps and Registered Treasury Savings Certificates," Frank M. Smith, Federal District Director, of the Treasury Savings Division, announced today.

"Knowing that the people of Texas—every man, woman and child of them are loyal Americans and that they all recognize it is the intelligent thing, the right thing and the necessary thing to save, I, therefore, confidently call upon them to celebrate wisely, patriotically and intelligently the great Victory Savings Week, as our Government requests us to do.

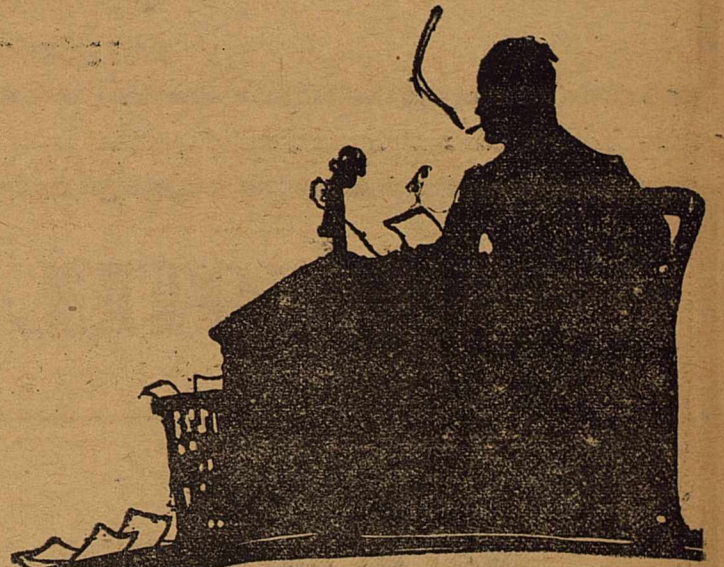

"Texans, I ask you during this Victory Savings Week to do honor to the men who gave their lives for you and who now moulder in Flanders Fields. The Government has indicated to you how it would have this week observed.

"Texans, let us who dwell in the great Blue Bonnet State each do our duty to the fullest of our ability! During Victory Savings Week from the 9th of November to the 16th of November, make your investments in Government War Savings Stamps and the new Registered Treasury Savings Certificates. By your action do honor to our heroes and in honoring them lay away funds for your pleasure and your needs."

Miss Kate Spivey left this week for Spur, Texas, where she has secured a position in the depot at the place as stenographer.

"HELP" is right! A smooth, mellow smoke is just the thing, when you're up against a tough one. And Chesterfield is that smoke.

An expert and exclusive blend is responsible—finest, silkiest Turkish tobaccos from Xanthi, Cavalla, Smyrna and Samsoun, and the best varieties of Domestic leaf—put together by the manufacturer's private formula that brings out every last bit of flavor. No other process, no other blend, can successfully imitate Chesterfield's smoothness and full-bodied flavor.

No argument here! Chesterfields satisfy as no other cigarette has ever satisfied before.

COTTON CLASSER'S OFFICE SWAMPED HERE

Despite weather conditions, W. T. Williamson, Government Cotton Classer for Lubbock County, is a very busy man. In fact he has about all he can do at the present time.

One thing we noticed at Mr. Williamson's office was the interest he displays in speaking a helpful word to the cotton raiser. Being a man with thirty years experience in the business he surely is justified in telling our farmers things that will be a benefit to them. For instance when a man brings a sample of Mebane cotton to his office and after examination Mr. Williamson finds that the staple is rather short; he offers them this advice "Mebane cotton seed should be bought new; that is not using seed from the last growth." Thus he says the staple will show up much longer.—Lubbock Avalanche.

A. L. Turner has bought the Williams block just west of the depot and announces that he will put in a modern wagon yard there in the near future.

HOWARD CO WELLS HAVE STRONG GAS PRESSURE

With strong gas pressure in three of the wells now drilling in this section it begins to look like we are on the trail of Mr. Oil, and you need not be surprised if some of the wells now drilling come in as real oil wells. BELL RAISES 'TATERS

We were asked to go up to the W. A. Bell home one day this week and see a pile of potatoes that he raised this year, as he said he was of the opinion that more than one witness would be required to combat the east Texas editors who might chance to read the article, as these said editors are very averse to believing anything that happens in old Terry, or anywhere else outside of their little limited nooks. While the help of a west Texas editor will not help in the matter in regards to getting these "ferin" editors to believe him, nevertheless we went, and we are glad we did, for when he told us what he had, we doubted him somewhat ourselves, not that we believed that he would tell it wrong, but that he must surely be juggling his figures somewhere. But the tape was put to the ground and scales were brought in for the weight, and the potatoes were there. And they were not the old white potatoes either—that grow good anywhere—but the best varieties of yams, such as the Yellow Yam and the Nancy Hall.

We want to tell you right off the reel that he did not have an acre in potatoes, no town man does that raises them on his back lots, neither did the East Texas man have an acre that he claimed he raised 350 bushels per acre on, for he said he did not himself, yet he must have used all the barn yard manure in that part of east Texas to get that old red clay to yield that many potatoes.

Anyway, after these potatoes of our fellow citizen, W. A. Bell were duly measured and weighed, we found by careful computation that an acre of such potatoes would weigh just 61,500 pounds, or 1118 bushels per acre. There is one hill on display at

the First National Bank that weighs 12½ pounds.

Now, we heard a man say once upon a time that he could take five acres in Terry county and make good money. We were a little doubtful at that time, but we are not now. We know it can be done, and he will play half the time too, for Will Alf Bell says he never did work his potatoes, though we would not advise any man not to keep the weeds killed down for the trouble they might give one in the future.

For \$1,200.00 a man can put in a system of waterworks that will irrigate five acres, and one acre in potatoes, and the balance in whatever he might want, including a small orchard will make money for any family with ordinary energy and intelligence.

If you say that the local demand for potatoes would soon be supplied, we want to inform you that there is such a thing as a home cannery, and then you have a world wide market.

It is said that the northern people are just beginning to learn to eat a sweet potatoe, but they are finding a good market up there, which is bound to increase as those people learn the food value and the many good ways to prepare this fine vegetable.

Come to Terry, the all round and best county in the State, and that means the world.
