BROWNFIELD, TERRY COUNTY, TEXAS, FRIDAY JANUARY 2, 1920

NO. 24

## ANNOUNCEMENTS

W. A. WOOLEY

We take the pleasure in announcing to the voters of Terry County, subject to the action of the democratic primaries in July, 1920, the candidacy of W. A. Wooley, our present efficient office deputy, for Sheriff and Tax-Collector of Terry County.

Mr. Wooley has been a citizen of Terry county several years, and has a host of friends and acquaintances that will be glad to support him in this election.

We believe that if Mr. Wooley succeeds in getting the nomination of his party, that he will make the citizens of Terry county an officer that they will be proud of.

We ask that you give his candidacy due consideration.

WOOD E. JOHNSON

Wood E. Johnson, almost a native born of the county is almost too well known to the citizens of this county, to demand any write-up or introduction from us, and while he is yet a young man, he has that staid appearance and character that means efficiency in any profession he may undertake, and that means that he will not only make a good peace officer, but a good collector. He wants to be Sheriff and Tax-Collector.

Wood served while in the army as military police officers, and for that reason is qualified for the office he seeks.

It is some time before the primaries, but before that time rolls around, be sure that you inquire about him.

A. M. McBurnett

Here is another good citizen that seeks the honors of the office of Sheriff and Tax-Collector, of Terry county, subject to the action of the July primaries. Without fooling away any time in introducing him, we ask that you inquire of any good

citizen of the county as to his standing.

He informs us that he will, if elected, enforce the law without fear or favor. He says that there is no use having laws unless we obey them, and if they are not good laws, get rid of them as soon as possible, but while they are on the statute book, they should be enforced.

With these few remarks, we ask that you give Mack's candidacy careful consideration before you make up your ballot.

J. J. (JOE) WHITLEY

And still, another good and law abiding citizen of old Terry county wants the honor of serving the people of Terry county as Sheriff and Tax-Collector, and he says that while the people are considering the other good men that want the office, that he asks that they do not forget him.

He promises that if he is elected to the office he seeks, that he will enforce the law without partiality and favor, and that he will render aid to enforce the law without partiality and favor, and that he will render aid at all times the best service he can possibly give.

Joe Whitley is a good law abiding citizen, and we ask that you investigate this man well before finally settling on anyone for this office. He will try and meet all the voters before the election.

R. L. (BOB) GRAVES

We take pleasure in announcing to the voters of Terry county, the above energetic and alive young man for the office of County Judge and Ex-Office Supt. of our county schools, subject to the action of the Democratic primaries in July, this year.

Bob Graves is one of our most successful stockmen at this time, but he was well educated, has completed a law course, and has been admitted to the bar, and if nominated to the office to which he seeks, we

believe him every way qualified for the place.

As to his school qualifications, he is a man of enough education to see the need of education, and was one of the leading spirits of his community that made it possible for them to soon begin the erection of a modern \$15,000.00 brick school building.

As stated above, Bob is endowed with a great deal of reserve energy, and anything the people wish pushed along will get his help without stint. Meet him and learn of him.

HOMER WINSTON

This splendid young man wants to be the next County and District Clerk of Terry county, and wants the people to learn about him through the columns of the Herald, and says he aims to make the race strictly on his own merits.

The writer has had this young man under observation for the past eleven years, and knows him almost like a father should know his son. Homer is a self made young man as the term goes, having done a great deal toward a self education, with the encouragement of course of interested parents. Homer is among the few boys of this town that we never heard try to get "back" at a grown person, no matter what that person had to hand him. He just grinned and passed such a one up. He was taught better at home. Therefore we know that no office under the shining sun can give him the "big" eye, and he is well qualified for the office he seeks.

Don't forget Homer Winston when you make up your ballot.

C. R. RAMBO

We are again pleased to announce to the voters of Terry county, the candidacy of Clint Rambo, our present efficient Tax-Assessor, for re-election to the same office.

Did you ever go over to his office for anything connected with that

office that you did not get instant and hearty help in finding it or straightening out your troubles, and did you not find that in most cases he was able to tell you what you wanted to know off hand and instantly?

Have you ever heard anyone kick about the condition of his books or his office in any way? Has he not always been courteous to you and ready to do the right thing, always keeping in mind his duty to his county?

Well, are not these sufficient reasons for his re-election to that office at your hands.

MRS. LULA SMITH

We are glad to bring before the voters of Terry County the announcement for County Treasurer of Mrs. Lula Smith, widowed daughter of Mrs. Jennie Hulse of Brownfield. She came to Brownfield with her mother three years ago and thereby claims her interest in Terry county and the friendship of its people.

She is thoroughly capable of filling the duties of the office to which she aspires, and promises if elected to give in return for your consideration and support, faithful and competent service.

Investigate her claims before you cast your ballot.

H. F. ADAMS

It is with the greatest pleasure that we are permitted to announce to the Democratic voters of Terry county, the candidacy of H. F. (Uncle Horace) Adams for the office of the County Treasurer of Terry County.

It is needless for us to tell the old timers anything about the above gentleman, but for the benefit of the new comers, we will say that he is 72 years of age, but still active and in every way capable of filling the office he seeks, but is not able to do hard manual labor any more.

He has never asked the people for any office before, and he has done

his share towards the upbuilding of Terry county, and in fact the whole of West Texas, as he has been on the frontier all his life.

Uncle Horace is the sole of honesty, and we ask that you give his candidacy due consideration.

## SOME GALL STONE

As we were going down the street one day this week, we noted a white looking rock, weighing perhaps two dozen pounds laying on the front gallery of a local land office. It was an ordinary looking lime rock, with a few wrinkles up and down its side, and seeing that it was tagged, we at first thought perhaps it was a huge petrified potato, and curiosity getting the better of us, we threw the brakes on our walking ford, and alighted for closer inspection. The tag just said:

This is PART of a stone taken from the gall of a Lubbock Land Agent."

And this is all we know about the matter.

## SOME GIRL BABIES

A local physician reports the arrival of a girl at the home of Mr. and Mrs. Will Adams at 8 o'clock Thursday evening, and one each at 12:20; 3:20 and 7:30 at the following home, this (Friday) morning respectively: Mr. and Mrs. S. A. Lauderdale, Mr. and Mrs. J. D. Mc Collough, Mr. and Mrs. Jno. Burnett.

Miss Stella Treadaway was home from the College of Industrial Arts for the holidays.

STRAYED: One Brown Jersey cow, branded "W" on left side, dehorned. Notify S. A. Lauderdale, City and receive \$10.00 reward.

Mr. and Mrs. E. W. Maddux were over from Gomez, Tuesday to bring their son, Walton, who took the train for Denton, Texas, where he will re-enter the normal.

If you want a shirt cut with as much care as tho' coats were never worn, wear an EAGLE SHIRT. Notice the smoothness across the shoulders, the drape of the back, the hang of the sleeves and the trimness at the waist.

It fits you as you've always wanted a shirt to fit.

The railways of the United States are more than one-third, nearly one-half, of all the railways of the world. They carry a yearly traffic so much greater than that of any other country that there is really no basis for comparison. Indeed, the traffic of any two nations may be combined, and still it does not approach the commerce of America borne upon American railways.

—United States Senator Cummins.

### Ask Any Doughboy Who Was "Over There"

and he will tell you that American railroads are the best in the world.

He saw the foreign roads — in England and France, the best in Europe — and in other Continental countries — and he knows.

The part railroads have played in the development of the United States is beyond measure.

American railroads have achieved high standards of public service by far-sighted and courageous investment of capital, and by the constant striving of managers and men for rewards for work well done.

We have the best railroads in the world — we must continue to have the best.

But they must grow.

To the \$20,000,000,000 now invested in our railroads, there will have to be added in the next few years, to keep pace with the nation's business, billions more for additional tracks, stations and terminals, cars and engines, electric power houses and trains, automatic signals, safety devices, the elimination of grade crossings — and for reconstruction and engineering economies that will reduce the cost of transportation.

To attract to the railroads in the future the investment funds of many thrifty citizens, the directing genius of the most capable builders and managers, and the skill and loyalty of the best workmen — in competition with other industries bidding for capital, managers and men — the railroad industry must hold out fair rewards to capital, to managers and to the men.

American railroads will continue to set world standards and adequately serve the Nation's needs if they continue to be built and operated on the American principle of rewards for work well done.

### TOKIO TALKINGS

By Grasshopper.

Christmas tree at the new school house was fine and enjoyed by a great crowd. A nice program was rendered by the school children, that we will give the Misses McMaster's credit for.

I heard a trustee in Terry county say that a woman couldn't teach school and keep order. If he will visit Tokio he will learn something before he gets to old.

The young folks enjoyed several parties in the neighborhood Christmas week.

The dinner was fine Christmas day at Tokio; plenty to eat and lots left.

Mr. Key from Gomez was at the dinner Christmas, but we failed to learn his business, but he was all dressed up and wants to know who cooked that cake.

Mr. and Mrs. Jim Key and another family from Plains, was at the dinner Christmas. Jim said there was nothing like getting a square meal.

C Coker, one of our old neighbors, but now of Seagraves, went to the oil field he said, but you could hear the coon dogs in the baggage car ahead.

Well Mr. Editor, the land is selling so fast we don't know who is our neighbors now.

WANTED: 100 Cars of maize. See H. H. Copeland at Higginbotham Harris & Co. yards, City.

### A LUNCHEON

On last Monday evening Mesdames May and Burgess gave a luncheon at the home of the latter. The house was beautifully decorated in bells and Christmas decorations that bespoke of the Yuletide. And as the shadows lengthened, the shades down and the lights lighted our eyes beheld fried and baked chicken chicken dressing, cranberries, celery, fruit potatoes, pickles, olives, peas, pumpkin pie, fruit jello with whipped cream and cocoa. Those present were Mr. and Mrs. Tom May and children, Mr. and Mrs. E. B. Wright and children from Dimmit, Mr. and Mrs. Cardwell, Mr. and Mrs. Downing and Elizabeth and the host and hostess.

Mrs. Fitzgerald and daughter were here last week from the Harris country shopping, and handed us the coin for the Herald while here.

The Herald man thought that he would not publish Christmas week and thus conserve paper, and at the same time clean up the job work hooks that have not been empty since September, but to no avail, we are still two weeks behind in that department if no other work comes in, and that is pretty certain, if we judge the future by the past. But we are putting in good time trying to keep in the neighborhood of "up."

FOR SALE or trade, a second hand well drilling machine. Let Will Moore of Gomez, Texas, know what you have to trade.

Brick work with the exception of the fire walls, will be finished on the school building, the early part of this week, and the carpenters will get busy on the roof, and the plasters on the inside. Brownfield is going to have some nice school building, we want to tell you.

We have it on good authority that a number of other beautiful residences will be started in the near future. There is also a number of brick business houses to start as soon as the material market is a bit easier. The building program for old Brownfield is extensive for the good year 1920.

### HOLD FOR THE FARMERS' PRICE, 45 CENTS.

By the State Department of Agriculture.

The recent strike and the so called car-shortage are being used by the cotton gamblers and speculators to break the market and scare the farmers into selling their cotton for any price that may be offered. This is used to justify the present bear raid.

When cotton declines, quit selling. Farmers, when the gamblers put the price down, quit selling; do not sell a bale on a declining market, but hold for 45 cents, and make it plain that you are going to hold for the farmers price. Grouping or collective selling is a good rule, provided you use your collective power to secure your fixed price. Do not be led into grouping your cotton merely to sell at the exchange price and probably without any competition on the part of the buyer; because of a previous understanding.

Demand proper classification. See that your cotton is properly classed and graded. Recent complaints indicate that cotton is being sold from one to two grades under its true grade, this means a loss of \$15.00 to \$30.00 per bale. Lowering both the price and the grade makes a double header loss.

5,000,000 bales short. The world is at least 5,000,000 bales short. They must have your cotton, not only to supply future but present necessities, strike or no strike. And regardless of car shortage and despite these drawbacks you are entitled to cost of production and a reasonable profit. The New York Commercial recently said: "If the farmer should receive the same price for his labor that is paid the American soldier, that is \$30.00 per month, his cotton should bring 70 cents to 80 cents per pound, and if he were to get what the average wage paid other labor, he would get \$1.00 per pound." Two Congressmen and one Senator say that to even up the farmers should get 75 cents per pound for their cotton. Therefore, we are more than justified in urging you to hold for 45 cents. And in this we are backed up by Hon. Chas. B. Metcalf of San Angelo,

W. B. Yeary, Cotton Specialist, the West Texas Chamber of Commerce, and other prominent citizens and other organizations, urging you to hold the market slowly.

Manufacturers' profits exposed. You are also intitled to a better price, based upon manufactured goods, as showed by President Wannamaker of the American Cotton Association in the Cotton and Cotton Oil News of December 1st, page 8, wherein he says: "A profit \$100. per bale or 20 cents per pound on cloth sold this week on a basis that would give the manufacturer a profit of 30 cents per pound or \$150.00 per bale. Wide print cloth sold on a basis that would provide a profit in excess of 35 cents per pound or \$175.00 per bale. We find in our investigation a few cases in which goods of a special construction, which for this reason were quite scarce, are returning a profit of 74 cents per pound or \$370. per bale. The cotton used in the manufacture of these special goods is strict middling one-inch cotton." On the three grades of manufactured products quoted herein, the manufacturers are receiving an average profit of 41-3 cents per pound, above all cost of manufacturer, and yet the farmers have not received an average price of 45 cents per pound. The manufacturer gets the above 45 1/2 cents clear profit while the farmer has not yet received the cost of production with no profit.

More than \$10,000,000 saved. The present campaign, estimated two weeks ago, to be worth \$10,000,000 to West Texas alone; put the lid on and let us make it a \$100,000,000.

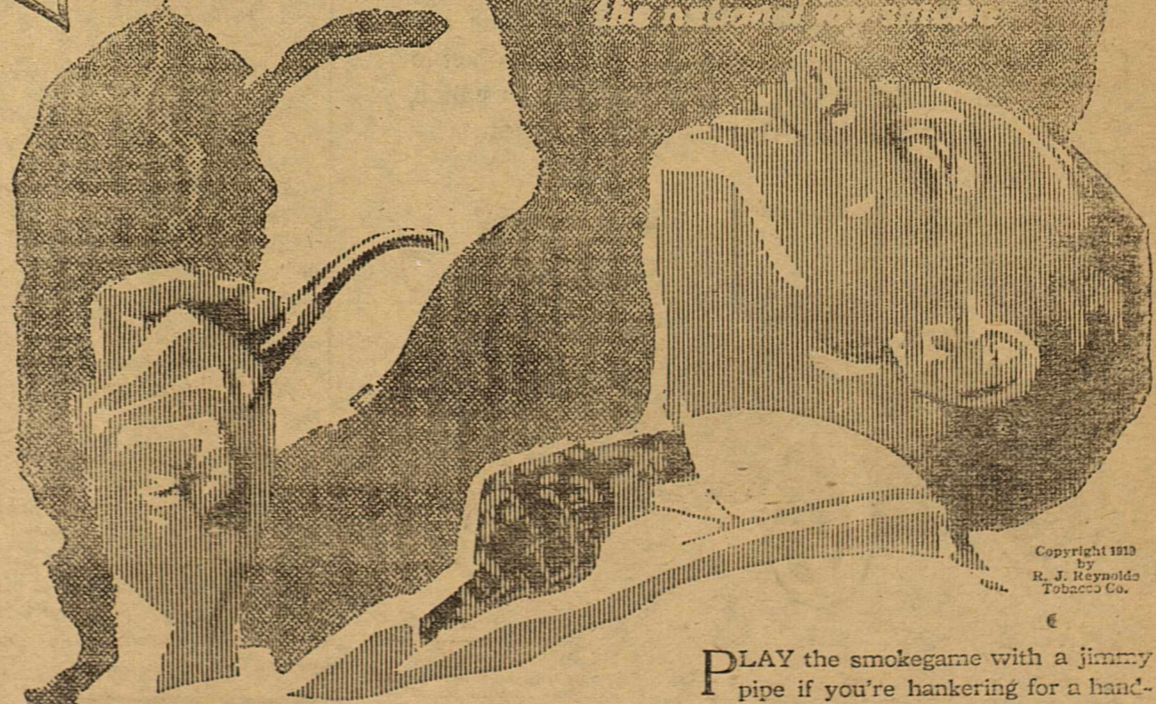

Yours, respectfully,  
Fred W. Davis,  
Commissioner of Agriculture.

Some of our local land men called us up one day this week and wanted us to skin someone alive for shipping corn to Lubbock and having it billed there. Well, was it not originally billed here? And wont we get credit for it? We have in mind two cars that were billed to Memphis, Tenn last week, and several to Mississippi and Louisiana, but we will get credit for the original loading place, and besides the corn that was billed to Memphis, for instance may be reshipped from there to local points around that city. No we are not going to whip anyone for shipping corn to Lubbock, even though that city gets credit for reshipment.

FOR SALE: Thorough bred Poland China and Duroc Jersey, both gilts and male pigs; will weigh about 100 pounds. See or phone A. M. Crews.

## The Campaign Is On

Brownfield is seriously handicapped in growth and development because of a shortage of Homes.

Many families are living in camped quarters or hunting a place to live.

Every patriotic citizen should lend his efforts to this campaign to build more homes. If you are a renter build a home of your own. If you own a vacant lot improve it with a house for rent or for sale.

We cannot hope to attract additional families to Brownfield unless we can provide comfortable housing.

Our modern home plans will help you to decide.

### GOTHAM EDITORS LIKE THE HERALD

We had a letter this week from Mr. Wilber F. Fauley, who is on the editorial staff of the New York Times and owns a fine section of land in the Meadow country, enclosing the dough to keep the Herald headed his way another twelve months. Among other things he said:

"Your December 19th issue, recently at hand was made up very attractively, and I showed it around the Times office, and it was commented on very favorably."

We certainly appreciate this compliment, coming as it does from where the greatest newspapers in the world are made.

S. P. Odum, who brought his family to Terry, together with his cattle, three years ago, from the Spur country, to keep them from starving, loaded his car last week for that place, as he has sold his cattle, and most of the children still live at that place, he is moving back.

**THIS IS THE YEAR** to plant trees. See John B. King at the John B. King Land Office for all kinds of nursery stock. Representing the Plainview Nursery.

A young man representing the Cadman Chattauqua was here this week, and succeeded in getting the local business men to sign up for a six day program in April or May, this year. This is a good company, and gives good service.

Editor Antrey, of the Snyder Record was here this week looking after his property interest. He owns the Santa Fe hotel, which has been leased to J. A. Darden and wife.

### PIGS CAUSED WAR

Buchs, Switzerland, Pigs just ordinary barnyard pigs brought on the world war. This is the latest contribution from the royal houses of the Central Empires submitted to history as the cause of the conflict. It is put forth seriously by no less a personage than Count Carl Seilern, late confidential counsellor to Emperor Charles in Vienna.

In a statement to a member of the convoy bringing American Red Cross relief to Budapest, the Count explained how plain, ordinary porkers—the kind from which the packers extract everything but the squeal—were the cause of the world cataclysm.

"Fifteen years before the war" said Count Seilern, "Serbia was shipping great numbers of pigs into Hungary, successfully competing with the Hungarian farmer and cutting into his income. The Hungarians protested but the border was left open. Finally heeding the pleas of its people, the Austro-Hungarian Government, on the pretext that all Serbian pigs were diseased, placed an embargo on them."

"Up to that time the two governments had more or less of a friendly understanding. After this both sides became irritated and practiced every method of hampering each other in international trade. Political leaders in Serbia seized upon the pig incident. Austro-Hungarian diplomats took up the question. Misunderstandings arose over it. The embargo was manipulated until the pig incident supplanted many other big political questions. When it grew too old for political propaganda, other questions were built out of it, and thus the world war was brought on."

"Yes, there is no doubt, pigs caused the war."

### TO GET A FULL COUNT

Stamford, "West Texas should take full census of its inhabitants in order that it may have proper representation before the world and may overcome the 'balance of power' held by East Texas," declared Porter A. Whaley, General Manager of the West Texas Chamber of Commerce, in advocating selections of only the best enumerators, and extending these the utmost co-operation.

"West Texas will show a startling growth when the 1920 census figures have been released. The census begins January 2nd. From 1900 to 1910 West Texas showed an increase of 75 per cent. Despite the depression of 1918 it is expected to duplicate this in 1920."

"It is important that the West get a careful, complete check. This section will get its desert, in the way of new representatives at Austin to help secure needed legislation and aid."

Jake Leedy has subleased the Hill Hotel to W. W. Ditto, and the latter took charge the 1st inst. We are sorry to lose Mr. Leedy from the hotel business here, as he was a fine one, but we are glad that his place is to be filled by such an excellent hotel man as Mr. Ditto. Note Mr. Ditto's large announcement ad in this issue.

**WANT TO BUY** second hand organ; must be worth the money. See Frank Proctor.

J. T. Price called in one day this week and inserted an ad in the Herald. He wants you to list your land with him. He says he is going to do his part in settling old Terry.

Amarillo has the biggest gas well in the world, is the claim. If the gas in the Amarillo field were available it would furnish every town in the Panhandle with fuel and power for industries. There is a wonderful future before the Panhandle and it might be that Amarillo's gas wells will supply the motive that opens the Panhandle to the commerce of the world. The Amarillo gas can be piped to every town in the Panhandle.—Canadian Record.

C. F. Walker shipped two cows from Amarillo last Friday. They arrived in Canyon Tuesday afternoon. There was a feed bill for \$18 charged against the cows. They were fine dairy cows and had not been milked or otherwise looked after during this extremely fast and interesting journey.—Canyon News.

As Canyon is about sixteen miles from Amarillo, this record breaking time on freight shipment will probably go on the records as one of the crowning achievements of the last days of the experimental government ownership of railroads.—Canadian Record.

**A BARGAIN** Oliver typewriter, good condition. See at Depot. J. A. Darden.

Jim Wright returned this week from Colgate, Okla., where he went to attend the bedside of his father, but he was so long on the road that his father had been buried when he got there. He was accompanied back home by his brother, who has purchased land in old Terry, and will make this his home.

**AUNT Jemima's pancake flour** at Brothers & Brothers.

### A GLORIOUS CHRISTMAS

The holidays have passed, and they proved far the most enjoyable occasions ever witnessed in this town.

There were two Christmas trees, the one at the Baptist church, in which the Christian church was asked to join, and the other at the Methodist church, at which the Presbyterian people were requested to join. Costly and useful presents adorned each tree, and good programs were rendered. Besides there were numerous private trees in various parts of town.

The weather man, in spite of the ill bodyings of some of the year, was ideal throughout the week, and the week preceding, and our business men were rushed every hour their stores were opened to wait on their trade. Extra and ultra-extra clerks were called in, but still they were swamped. Money rattled in the cash till; splendid presents were tied up and every one was happy.

Part of the joyous occasion can be explained when we take into consideration that Terry county has made bumper crops; they have received good prices for same; wages are good, and more work than laborers; the war is over, and practically all of our boys that will ever come home are here. Of course the hog drinkers missed fire, but that will soon be forgotten.

As little Bennie would express it, we had a heck of a time.

**THE HOME FOLKS** May now have a rest on Sunday. We want you to eat dinner with us at the Santa Fe Hotel.

**FOR NEW** tops and car painting, See Moore Brothers, Lubbock, Texas
