

### ORDERS TO DISCONTINUE ALL RELIEF PROJECTS ON AUG. 1 COUNTERMANDED

#### Relief Work In County Will Continue Until WPA Is Functioning

Countermending a previous order to cancel all relief projects in the county on August 1, a telegraphic message was received Friday by J. H. Greene, county FERA administrator, authorizing the continuation of relief work until the new WPA set-up is completed and begins to absorb county employables.

With County Judge Benton Templeton in Mexico attending the Lions International convention and Administrator Greene on a business trip of unannounced destination, little that was definite could be learned this week as to what the situation will probably be in this county under the new set-up.

It is expected, according to articles in State papers and other weekly papers over the country, that the new organization will absorb most of the persons now obtaining work from the Federal Emergency Relief administration, and that the latter organization will be closed down about January 1.

Present plans of the WPA provide for only district offices, which are to administer the program over all counties in the district without any county administration unit. The opinion has been expressed by several that some kind of county administration unit will be worked out before the set-up is completed.

Headquarters for this district, Number 13, of the new Work Progress Administration, have been moved to Abilene after having been originally set for Sweetwater. Counties in the district with Mitchell are Eastland, Stephens, Callahan, Shackelford, Jones, Taylor, Nolan, Fisher, Sterling, Coke, Kent, and Scurry.

Rules for receiving work under the Works Progress administration have been announced as follows from Washington headquarters:

Relief roll clients, in order to receive benefits of work under the Works Progress Administration, must be certified as to eligibility for work and be registered with the U. S. Employment Service. The social service department of the Texas Relief Commission will handle certification of employables to the Works Progress Administration.

The instructions point out that priority of workers within families shall be suggested by the social service department, based upon such considerations as disabilities, health, preservation of skills and morale.

It was further provided that enrollment of a member of a family in the Civilian Conservation Corps shall not preclude the employment of another member of the same family on work projects financed in whole or in part under the Emergency Relief Appropriation Act of 1935.

Certification of a client for eligibility to employment under the new program will not mean that the client will be dropped from the relief rolls, but as soon as the first paycheck for such employment is received, the case will be closed and relief stopped.

The same registration will apply to non-resident relief cases, or transient, provided the transient has been registered with a transient center or camp for two weeks or more, and with the exception that no certification may be made for transients registering after July 15.

At the head of this district's set-up will be Winfred James of Abilene as district administrator and John Hendrix of Sweetwater as assistant district administrator.

Mitchell county and the city of Colorado, along with other counties and political subdivisions in this district, are being asked to formulate and work up projects so action can be taken immediately after the district office is opened. A number of projects are said to be under consideration by the county commissioners and the city council.

### COLES WILL ATTEND STATE CONVENTION

Roy Davis Coles, county superintendent, plans to leave Sunday for College Station, where he will attend a state convention of county superintendents.

### One Of Best City Wells Brought In On Hughes Tract

What promises to be one of the strongest wells connected with the north city water works has been completed on the Hughes tract a mile north of the standpipe.

The well was drilled by W. R. McEntire, Jr., to a depth of 235 feet. Ten-inch casing was used 155 feet down. Water stands in the well to a depth of 126 feet.

Preparations are being made to equip the well and add its output to the city water system, Mayor J. A. Sadler stated Tuesday.

### WESTBROOK COOPERATIVE GIN BODY ORGANIZED AT MEETING MONDAY NIGHT

#### Plans For \$50,000 Gin To Be Discussed This Friday Night

Building a \$50,000 modern gin plant at Westbrook was set forth as the main objective of the Westbrook Farmers Cooperative Gin company following its organization at a meeting of about 100 farmers of the Westbrook vicinity at the Westbrook tabernacle Monday evening.

J. W. Watson was elected temporary chairman of the meeting and those present voted to go immediately into a permanent organization. Officers elected were:

President, J. W. Watson of Colorado; secretary, J. Marvin Dorn of Westbrook; directors, T. L. McKeeney of Iatan, W. E. Smith, E. Barber, W. T. Brooks, F. A. Langley, and J. W. Byrd, all of Westbrook and near Westbrook.

At a meeting of the board held on Tuesday afternoon it was decided to hold a called meeting of all interested farmers at the Westbrook tabernacle Friday night at 7:30.

E. Barber, director of the West Texas Cotton Growers association and instrumental in the organization of the new body, urges that all farmers of the Westbrook vicinity attend this meeting. He stated Wednesday that he would like to see 200 farmers present.

In addition to considering important business matters, the farmers will hear informative talks by Abilene officials of the West Texas Cotton Growers association.

### WORK OF MOVING WATER MAIN AT LONE WOLF TO BE DONE IN TWO WEEKS

The task of moving about 300 feet of water main east of the Lone Wolf crossing will probably be completed in two more weeks, according to Mayor J. A. Sadler.

Work of digging up the main and changing its course to a new bed about thirty feet north of where it now goes under the highway has been going on for about three weeks. It is being done with relief labor.

The main, which is an eight-inch one from the east waterworks, recently broke, disabling water service in much of the city. Its course is being changed because it would be buried about 27 feet underground if left in its old position after the dump leading onto Lone Wolf bridge is deepened for the widening of the highway and the bridge in the near future.

While the change is being made the east waterworks is supplying the east side of town and the north waterworks is serving all of north and south Colorado. Only four consumers, all negroes, are not receiving city service under that arrangement.

### EARL POWELL PAINFULLY INJURED IN CAR WRECK

Earl Powell of Stanton, son of Mr. and Mrs. Lay Powell of Colorado, sustained a broken collar bone and painful back and shoulder injuries when the car which he was driving overturned four times on the highway three miles west of Stanton Saturday night. The accident occurred when another car sideswiped Powell's car, causing a blowout and throwing his car out of control.

Powell spent Saturday night in a Midland hospital and was moved to his ranch home Sunday. Mrs. Lay Powell and Mr. and Mrs. Curtis Erwin were in Stanton to see him Monday.

### COLORADO'S NEW FEDERAL BUILDING

### OPENING OF POSTOFFICE STILL TENTATIVELY SET FOR EVENING OF AUG. 2

#### Engineer Here This Week Expects Completion By August 1

The evening of August 2 continues to be set as the tentative time for a program marking the formal opening and public inspection of Colorado's new postoffice building.

During a visit here early in the week C. C. Calloway, government engineer, stated that he planned to notify the procurement division of the treasury department in Washington some time this week that the building will be completed by August 1.

Joe Y. Fraser, postmaster, who has been working with J. H. Greene, Chamber of Commerce secretary, in planning a program to mark the first public inspection of the building, said Tuesday that the program will be held on the date originally set, August 2, if the building is completed by August 1.

The date on which the building will be actually occupied is yet undetermined, Fraser says. It will depend on the installation of new furniture, some of which is in transit and some of which is under construction locally.

Plans are to hold the opening program at 7:30 in the evening. C. C. Thompson, appointed by James A. Farley, postmaster-general, as his representative in accepting the building, is to make the principal address.

### STATE FFA BAND OF 125 PIECES TO GIVE FREE CONCERT HERE

Opportunity of hearing a band of 125 pieces in a free concert will come to Coloradans Saturday evening at 8:15 when the State Future Farmers of America band is to give a program at the band shell in Ruddick park.

Two local FFA boys, R. C. Snively and Billy Henderson, are to be among the 125 band members. The band is directed by H. G. Rylander, vocational agriculture teacher at Itasca. Preceding the concert local FFA boys are to serve a barbecue supper at the park, charging 35 cents per plate.

Colorado will be the band's first overnight stop on a tour of several West Texas towns. The tour will follow the State FFA convention Thursday, Friday, and Saturday.

If the weather permits, the boys will camp here overnight, but if bad weather comes efforts will be made by members of the local FFA chapter to place them in homes for the night.

### FFA BOYS TO SERVE BARBECUE SATURDAY NIGHT AT THE PARK

Preceding the free concert by the State FFA band at Ruddick park Saturday evening at 8:15 local Future Farmers boys are to serve a barbecue supper at the barbecue pits in the park. The charge will be 35 cents per plate and serving will begin about 6:30.

The boys appeal to the public to attend the barbecue and assist them in raising money to help the state band members in defraying expenses of their concert tour of West Texas. Two Colorado boys, Billy Henderson and R. C. Snively, are members of the band.

### Work of Measuring All of County's Cotton Acreage Underway This Week

Measuring of all cotton acreage in Mitchell county was begun Monday morning by a crew of twenty-eight men, working under directions from the office of B. J. Baskin, county agent.

The work is being done in connection with the Federal government's cotton acreage reduction program, and the results will show to what extent farmers of the county are complying with reduction contracts. Cotton lands of both signers and non-signers of reduction contracts are being measured, non-signers' farms being measured first.

The twenty-eight men received instructions about their work at a meeting Saturday in the county agent's office. Two or three men are yet to be added to the crew, it was stated at the office on Monday.

Robert Coffman has been added to the county agent's staff as computer of measurements brought in by the various teams. It is estimated that

the work will require from fifteen to twenty days.

County divisions and those working in each division are as follows: Loraine south: J. M. Bruce, J. Willey Walker, S. E. Meadows, and Luke Finley;

Loraine north: F. W. Beights, Frank Stewart, E. B. Hale, and Clyde Linnam;

Seven Wells: J. E. Hale, Bray Cook, H. E. Cockrell, and H. Williams;

Dorn and Spade: M. P. Dorn, Melvin Jarnigan, and E. Barber;

Valley View and Longfellow: Earl Brown, James P. Nunn, and A. K. McCarley;

Colorado north, Buford: T. T. Smith, Jim H. Jones, and E. L. Latham;

Colorado west, E. O. Greene; Cuthbert: A. B. Erwin;

Westbrook: W. T. Brooks, O. T. Bird, and C. H. Moore;

Hyman: W. B. Avaretti;

McKenzie: C. N. Stubblefield.

### County Board To Be In Conference Saturday At 2 P. M.

Members of the Mitchell county school board are to be in conference at the office of Roy Davis Coles, county superintendent, Saturday afternoon beginning at 2 o'clock.

Any school trustees of the county having problems which they wish to discuss with the board should take advantage of the opportunity to do so, Superintendent Coles says, as it is the final session of the board before transfers are closed.

### COMPLETE PROGRAM FOR WEST TEXAS ODD FELLOW-REBEKAH MEET ANNOUNCED

#### Over 200 Expected Attend Two Day Session Here August 7 and 8

Completed program for the thirty-fourth annual session of I. O. F. and Rebekah lodges of West Texas here Wednesday and Thursday August 7 and 8 has been announced.

Opening session of the convention, which is expected to draw an attendance of over 200, will be at the First Baptist church at 9:30 on Wednesday morning.

Visitors will be welcomed by Mayor J. A. Sadler in behalf of the city and by Mrs. Charles Delaney in behalf of local Odd Fellows and Rebekahs. J. P. Majors of Sweetwater is to give the response. The Rev. P. D. O'Brien, pastor First Baptist church, is to deliver the morning's principal address.

Other Coloradans and Mitchell countians slated to take part on the program include June Ellen Fields, Miss Iris Tunnell, Mrs. W. R. Martin and some of her pupils, and possibly others.

A barbecue is to be given on Wednesday afternoon at 6 o'clock at Ruddick Park. This will be followed with a memorial service put on by the Rebekah lodge of Sweetwater at the Baptist church at 7:30.

Thursday will be given over largely to business, with election and installation of officers and selection of the next meeting place.

### Judge Templeton And Jeff Curry Leave For Mexico

Planning to board a special train at San Antonio for Mexico City, Judge Benton Templeton and Jeff Curry left Saturday morning to represent the Colorado Lions club at the Lions International convention in Mexico City.

The two delegates are due to return home early next week.

### ROCKWELL CO. MANAGER TAKES UP HIS DUTIES

Garner Jones of Quanah arrived last week to take charge of Rockwell Brothers Lumber company, succeeding C. L. Gray who has resigned to move to Rotan and care for his father's business.

Mr. Jones, who has been identified with the lumber trade for several years, was in Colorado for a short time week before last making his preparations to return here last Thursday.

### PUBLIC IS ASKED TO 'GRIN AND BEAR IT'

"Ask them to please grin and bear it a little while longer," requested Mayor J. A. Sadler Wednesday in speaking of the condition of Colorado streets following Sunday's torrential rain.

Mayor Sadler and his helpers are working both night and day to get the ditches eroded by the rain filled in so traffic will be safe.

### NEW AWNING OVER DOSS BUILDINGS

A new awning is being built over the Doss business buildings at North Walnut street this week. This awning is to replace one which was torn down some time ago.

### FAMOUS EVANGELISTIC PARTY TO HOLD FIRST CHRISTIANS' REVIVAL

#### Initial Service To Be Held At Christian Church Monday Evening

Taking advantage of an unexpected opportunity to secure the services of the well-known W. C. Cole evangelistic party of Des Moines, Iowa, members of First Christian church plan to launch a two weeks' revival Monday evening.

The Cole evangelistic party is composed of the Rev. W. C. Cole, his wife, and their son, Clifford. The son directs singing and also gives musical numbers on the saxophone and musical saw. Mrs. Coles sings special numbers and directs activities of boys and girls.

Services are to be held twice daily, at 11 a. m. and at 8:15 p. m. The Rev. Wallace Jones, church pastor, says that arrangements will be made for outdoor services in case the weather gets uncomfortably warm.

During sixteen years of evangelistic work the Rev. Mr. Cole has conducted 202 revivals that have resulted in 24,632 accessions. Revival campaigns have taken him not only to almost every state in the union but to Kingston Jamaica, B. W. I., and St. John, New Brunswick, Canada.

The Rev. Mr. Cole has held two pastorates in Des Moines, has conducted twelve revival meetings there and organized the Douglas Avenue and College Avenue churches there.

### Funeral Held For Father Mrs. Sam Wulfjen Monday

Funeral services were held Monday afternoon in Sweetwater for the Rev. John T. Henson, father of Mrs. Sam Wulfjen of Colorado and pastor of the Colorado Methodist church for a time more than twenty-five years ago.

Rites were said at 5 o'clock at the First Methodist church of Sweetwater. A number of Coloradans were in attendance. Burial was in Sweetwater.

The supernannate minister, who had been in the Northwest Texas Methodist conference for nearly fifty years had been critically ill since suffering a paralytic stroke on Tuesday before his death. Mrs. Wulfjen had gone to his bedside early in the week. Death occurred late Sunday.

Receiving his license to preach when eighteen years old, the Rev. Mr. Henson had held pastorates in Colorado, Cisco, Hereford, and Sweetwater. At one time he was presiding elder of the Clarendon district. For many years he was chaplain of the Sweetwater fire department and firemen served as his pallbearers.

Survivors include Mrs. Henson and the following children: Mrs. Sims Shelton of Abilene, Mrs. Sam Wulfjen, Mrs. Albert Carter of Sweetwater, Ralph Henson and John I. Henson, Jr., of Roscoe, and Earnest Henson of Sweetwater.

### DAMAGES TO CONAWAY SCHOOL AFTER ROOF TORN OFF IN STORM

Considerable damage was done to the interior of Conaway school when its roof was ripped off during Sunday afternoon's torrential rain and windstorm.

Contents of the four-room brick structure, including a piano and an art curtain, were much damaged by rain and hail. Part of the roof was found a half mile away.

Roy Davis Coles, county superintendent, stated Tuesday that he believed most of the damage would be covered by insurance.

### MISS TUNNELL ELECTED JACKSONVILLE TEACHER

Notice of her election to the faculty of the Jacksonville public schools was received last week by Miss Iris Tunnell, daughter of Mr. and Mrs. E. C. Tunnell.

Miss Tunnell will teach public school music in the fifth, sixth, and seventh grades. She is to be in Jacksonville September 1.

Last spring Miss Tunnell received her degree from North Texas Teachers college with honors, majoring in public school music.

## MISS MARY BROADDUS TO STUDY THIS SUMMER IN BOSTON THEATER COLONY

Having received one of seventy-five endowed scholarships awarded to persons doing outstanding dramatic work all over the United States, Miss Mary Broadbudd of Colorado and Fort Worth is to leave early next week for Boston, Massachusetts to attend the summer course of the Lake Shore Theater Colony.

The colony is located at Westford, about 26 miles out of Boston, and is sponsored by the National Little Theater movement. Listed among its honorary trustees are such outstanding persons as Edwin Markham, Sir James Barrie, George Bernard Shaw, Booth Tarkington, and others.

Ethel Barrymore, daughter of the famous actress, Ethel Barrymore, and herself an actress, is to be enrolled at the same time as Miss Broadbudd.

Miss Broadbudd has been interested in theater work since her earliest childhood. She has been teaching a summer dramatic class at T. C. U. each year for some time. She is the daughter of Mr. and Mrs. H. B. Broadbudd of Colorado.

Her plans are to visit in Nashville, Tennessee, Washington, and New York city before returning to Fort Worth in September.

## RECIPES FOR USE OF DRIED SKIM MILK

**HOT COCOA**  
1-3 cup cocoa, 1-4 cup sugar, 1-3 cup salt, 5 cups water, 1-2 c dried milk. Mix cocoa and sugar, add the water and cook 10 minutes. Cool, add dried milk which has been mixed to a creamy paste with lukewarm water, reheat and serve.

**MEAT LOAF**  
1-1/2 cup cooked rice or Irish potatoes, 1 can hamburger meat or salmon, 2 eggs, 2 cups bread crumbs, 1 small onion, 1 pinch of salt, or to taste, 1 tspn dried milk. May use spice, nutmeg or cayenne pepper. Mix ingredients, pour in greased baker and bake 45 minutes.

**CREAM PIE**  
(For 2 pies)  
4 egg yolks, 1-2 cup dried milk, 2 cups water, pinch of salt, 5 tblspn flour, 1-2 cup brown sugar, 1-2 cup white sugar. Flavor with vanilla or spice.

Cream eggs and sugar, sift dried milk with flour, salt and add to eggs and sugar, and flavor to taste. Cook until thick, remove from heat, pour in baked crust and the following meringue: White of 4 eggs stiffly beaten, add 8 tblspoons sugar, mix thoroughly, spread on pie, set in oven, bake slowly until meringue is light brown.

## CHURCHES

**FIRST BAPTIST CHURCH**  
Last Sunday night marked the third time in my ministry that I have utterly failed to make a preaching appointment. I regret that I was unable to be here for the service and assure you that I put forth every effort to be here on time.

We are delighted with the progress of our tithe test program. In spite of the fact that less than 100 of our more than 700 members have joined the tithe band, our offerings have increased nearly 100 per cent over last month at this time.

The pastor will be here for all morning services next Sunday and the evening services will be in the nature of a sacred music program presented by the choir of the First Methodist church. Strangers and visitors always welcome.

**DICK O'BRIEN, Pastor.**  
**TO VETERANS' HOSPITAL**  
C. W. Cook left Tuesday afternoon to enter a veterans' hospital at Albuquerque for medical treatment.

## THEATRE NEWS

### By SHERMAN HART

### "MURDER IN THE FLEET"

Palace—July 26-27

The cure for anything is salt water—sweat, tears, or the sea. And there's enough of each of these elements in this enjoyable excursion aboard one of our navy's ships, with its odd mixture of murders and mirth, to make it a tonic for most audiences and box offices. Although properly sinister in regard to a number of indiscriminate killings that take place, a good portion of comedy enlivens the plot considerably. Serious aspects of the film concern the installation of a piece of secret gun equipment which certain powers would prefer to see destroyed. The crew and some civilian visitors go through a few harrowing experiences before the culprit is apprehended just as he's about to blow up the ship. Naval background is impressive.

### "IN CALIENTE"

Palace—July 28-29

Another lavish musical by the producers of dance spectacles. Sufficient entertainment to send everyone out of the theatre with a happy smile and a tinge on his lips. O'Brien, a sophisticated magazine editor, has two weaknesses—liquor and a blonde (Farrell) whom his publisher (Horton) doesn't like. Horton kidnaps O'Brien, taking him to Caliente by sea. Dolores Del Rio, a Mexican dancing star, Horton engages the senorita to make O'Brien forget his scheming blonde girl—and he does—his intentions becoming serious. But she doesn't believe he is on the level. Just when she is about convinced, the blonde walks in and Dolores walks out. Our hero pursues her and wins the race. Horton, himself succumbs to wiles of the blonde.

### "910 RAISE"

Palace—July 30-31

Fine program picture, chock full of good, clean laughs. Edward Everett Horton, while popular with fans, is not a big enough box-office name to draw them in, but his richly-human performance of a meek little office worm will amuse audiences everywhere and create much favorable word-of-mouth advertising. George Marshall's direction has added many natural touches to the old situation of the book-keeper who has faithfully served his firm for many years, but is afraid to ask his tyrant of a boss for that much-needed raise which will enable him to marry the girl he loves.

A strike of good-fortune changes the timid slave into a commanding personality who turns the tables on his employer in a most surprising fashion. Karen Morley is an attractive leading woman, while Glen Boles and the balance of the cast is adequate.

### "PEOPLE WILL TALK"

Thursday—August 1

Snappy comedy loaded with laugh pullers and humorous situations, plus smart, witty dialogue, without resorting to the usual slapstick. To effect a reconciliation between their daughter and husband, Charles Ruggles and Mary Boland stage a fake quarrel, which, through unforeseen circumstances, becomes serious. Ruggles innocently becomes involved with a village cutup who is trying to make her husband jealous. In trying to square things between Ruggles and his wife, the daughter and everything are brought together and everything is satisfactorily ironed out. There is noticeable improvement in Miss Boland's work under Alfred Santel who has given her a more smooth, intelligent direction.

### "IMITATION OF LIFE"

Ritz—Saturday Matinee

Sunday—Monday—July 27-28-29

Beautiful story and artistic production with only one box-office drawback in certain territories—the colored race problem. Plenty of interest and suspense never drags. By marketing her colored maid's recipe for pancakes, Claudette Colbert makes a fortune for them both. Colored woman finds it impossible to buy happiness for her daughter who looks white, and wants to be white, and when the girl runs away the mother dies of a broken heart. Death-bed scene and funeral draws plenty of tears. Claudette, at the height of her success, falls in love with the same man as does her daughter. The man goes away with Claudette's promise to join him would the daughter transfer her affections to someone else and the ending is vague. John Stahl's direction is excellent.

### "McFADDEN FLATS"

Ritz—July 30-31

Smash comedy offering with masterful blending of laughter and tears should prove delightful entertainment for any man's audience. Yarn concerns the trials, tribulations and triumphs of the McFaddens and the McTavishes, the socially ambitious wife, the educated daughter's aversion to the traits of her lowly, lovable parents who afterwards realize her mistake and the rise of a hod carrier to builder and property owner. Walter

C. Kelly (the Virginia judge) of vaudeville fame, makes his film debut in this picture and scores a decided hit in the role of Dan McFadden. Amy Clyde as the thrifty Scotch barber, and George Barbier, Dan's bricklayer companion, register swell performances. Good photography, lively dialogue.

## FEDERAL REPORT SHOWS INSURED DEPOSITS PAID

WASHINGTON, D. C.—A report just released by the Federal Deposit Insurance Corporation reveals that twenty thousand depositors of closed insured banks have been paid their insured deposits in the first seventeen months of deposit insurance.

They were depositors in seventeen closed banks which the Insurance Corporation had taken over up to May 31, and their insured claims totalled more than two and a quarter million dollars. In all there have been 25,000 depositors in these banks whose estimated insured funds amount to about two and one-half million dollars.

Payment of claims by the F.D.I.C. has started within an average time of a week of the day the banks closed, the report shows. It further reveals that in the last bank to be taken over by the Insurance Corporation all but sixty dollars of insured money has been paid to depositors. The pay-off began on May 13 and all but twelve of its depositors had received a settlement of their claim on the last day of the month.

Approximate total deposits in all the closed insured banks are \$3,760,000. In addition to the insured portion of that total of almost \$2,500,000 another million was in preferred or secured deposits or was subject to offset so that there remains less than two hundred thousand dollars to be paid to depositors as liquidation of the assets of these banks is made.

It is estimated by officials of the Corporation that ninety-nine out of every hundred of the individual depositors in the closed insured banks have received all the money they had on deposit, or will receive it just as soon as they come to the banks.

The F.D.I.C. is insuring deposits in 14,000 banks throughout the country at the present time. It has announced that this is ninety per cent of all licensed commercial banks and that they hold all but two per cent of the total bank deposits.

### BOY SCOUTS RETURN FROM MERTZON CAMP

A group of Boy Scouts who attended the third week of the Boy Scout encampment at Camp Louis Farr, Mertzon, returned home Tuesday afternoon in a truck driven by Marvin Majors and John Ellis Smith. The boys in the group were Robert Kirschbaum, Oscar D. Roberts and Buster Slaton of Colorado; Van Pearson Boston and Harold Berry of Westbrook. Another group from here attended the second week of the encampment, returning home last week.

Charles Edwin Root and Miss Julia Mae Root were home from Abilene Christian College for the week-end. Sefton Pickens, Miss Alred Bodine, John Elliott, and Miss Root took Charles Edwin back Sunday. Miss Root returned to Abilene Monday.

## MODERN HOSPITALITY

By Austin Cullen

What isn't so popular now as it was during those hard and busy days. After quite a spin around among tin and some others I came home resolved to start a movement for the reestablishment of old-fashioned hospitality in this country. It's surely needed when the first thing folks talk about on you stopping at their gate is the advantage of a modern tourist camp.

Relatives who used to celebrate my arrival wringing chicken necks and rattling pie pans kill the joy of it these days ranting over their grocery bills. I seem always to arrive at a place just after other company has stayed too long or just as the family has started a season of dieting to keep the women folks from getting too fat.

A welcome takes off to a bad start when you are told, on getting out of the car, that it is all right to leave the things in there, that nothing will bother them. The suspense which follows of wondering whether you will finally be asked to take them out or not upsets you and the situation isn't improved a bit when the conversation heads off in the direction of "too much company."

While I wasn't met with any positive "no parking" signs, at places they served a very cheap grade of coffee after the first morning and kept talking about being eaten out of house and home. One cousin did want us to stay with her but she was excited over a "black widow" spider which she declared she saw in the

guest room that morning but let escape capture.  
At another place I felt like the skating was on pretty thin ice as they kept mouthing about having a general house cleaning if ever they could be to themselves again. The discomfure there was also intensified by the remark that it looked like we had brought along the family washing from the way the laundry bill was running up.

Hereafter when I go on a visit it will be entirely in the interest of cultivating a more friendly attitude towards company. There really isn't any entertainment in it where folks have quit buying beefsteak on account of high blood pressure and pick the very night a good picture is on at the theatre to take you out in your own car to see the show.

### OLD AGE PENSION FIRST ON BALLOT

The first proposition to be found on the ballot in the August 24th Special Election on Constitutional Amendments is the so-called Old-Age Pension Amendment. This year, for the first time, the amendments will be numbered, according to Secretary of State Gerald C. Mann.

The Old Age Pension Amendment proposes to give the Legislature the authority to pay these pensions to persons over the age of 65, who are not habitual drunkards nor habitual criminals, nor inmates of any State Supported institution. Those who are eligible must have lived in Texas at least 5 years, during the nine immediately preceding application and in the State continuously for one year.

All other restrictions and limitations would have to be set up by the Legislature.

The Amendment authorizes the Legislature to accept money from the Federal government for the same purpose. It is presumed that Federal funds would match State funds. The maximum amount to be paid by the State would be \$15 per person per month. It is presumed that the Federal government would match State Funds. The total pension per person per month in this case it is presumed would be \$30. The amounts might be smaller, however; but not larger.

It is estimated that the cost of this pension to the State would run between forty and fifty million dollars annually. No provision is made for the income. It would be up to the Legislature to determine where the money would come from. The Legislature would have to enact such laws as it deemed proper to utilize the right granted by the amendment. The Legislature might do this at once, or some time later—or for that matter not at all. The amendment is permissive and not mandatory, though few doubt that some form of old age pensions would be enacted if the amendment is adopted in August.

### NEW METHOD OF DEALING WITH INSANE ON BALLOT

Proposition No. 2 on the August 24th special election ballot has to do with the temporary commitment of insane persons, preliminary to a trial by jury.

Under the present Constitution whereby everyone is guaranteed a jury trial, it is impossible to commit a mentally ill person to an institution for treatment or observation without the necessity of a jury trial. It has been pointed out that this often very inconvenient and embarrassing.

The proposal, according to Secretary of State Gerald C. Mann, if passed, would authorize the Legislature to pass such laws as would permit mentally ill persons to be committed by County Courts in institutions, presumably, or under the care of physicians or experts for a period of ninety days prior to a jury trial. It is presumed that the ninety day period of confinement would be for the purpose of observing such person.

The provisions would apply only to persons not charged with a criminal offense.

The amendment specifically sets out that the right of trial by jury shall remain inviolate, but that in the particular case of insane persons a confinement period of ninety days for observation may be prescribed without the necessity of a jury trial. At the end of that time a jury trial would be had.

### TEST WELL TO BE DRILLED IN NOLAN

Contract has been awarded by N. B. Hall and A. Glenn of Sweetwater for spudding of an oil test, to go down at least 4,500 feet and to be started on or before Aug. 18, on a block of 12,800 acres south of Champion, in the west central portion of Nolan County.

The drilling contract has been awarded to Mose Harris of El Paso and San Antonio and J. M. Sampson of Dallas, independent operators who are experienced in drilling wildcat wells.

Mr. Hall and Mr. Glenn began working up the Champion block about the middle of April, solidly grouping 12,800 acres, extending Champion Creek south to Sulphur Creek, the acreage being in Blocks 24 and X, T. & P. Ry. Co. survey, Nolan County, and Block 25, T. & P. Ry. Co. survey, Mitchell County.

Co-operation of the land owners, in blocking the land for the test, was praised by both Mr. Hall and Mr. Glenn.

Geology on the tract was worked out by the firm of Woodfin & Orchard of Fort Worth and platted

by the same firm. "Excellent reports show a closed structure," it was added, "with a fault at the north of the block running east and west and a fault on the east edge running northwest to southeast."

Besides the geological report, a geophysical survey was made over the block by J. J. Strubenbord of Fort Worth and San Antonio.

### CHILD IS BEATEN, WOMAN IS JAILED

**BIG SPRING.** Mrs. Ethel Shields, 45, who beat a 6-year-old indigent boy so severely that a six month jail sentence was imposed, remorsefully asked God's mercy "to get me out of this mess."

The wife is Buster Mitihell, 6, one of five brothers and sisters placed under Mrs. Shields' care by county officials after their father's death and the disappearance of their mother. Such a thrashing was administered to the child that most of his body was covered with large welts. Mrs. Shields said she beat him because he wasted almost a pair of lard.

### FEATURES OF LEGION MEETING ANNOUNCED

DALLAS.—With several new and unique features announced for the seventeenth annual convention of the Texas Department, American Legion and Auxiliary, Dallas ex-service men are expecting a record attendance of 10,000 here September 1, 2 and 3. An air cooled meeting room for the Legion business sessions is one of these features.

Another new detail that is attracting much attention is the encampment of the Sons of the American Legion, the first to be held. Advance information indicates several hundred of the sons will attend.

Parents of youngsters too young to leave at home are elated over the announcement that a nursery will be provided for the free use of delegates, with a corps of trained nurses and competent attendants in charge. This will also be the first time at a Texas Legion convention this convenience has been offered.

The outstanding program of the three-day convention is scheduled for September 2, Labor Day. A business session will be held in the morning, the annual colorful parade in the af-

ternoon, the band and drum and bugle corps contests at Fair Park stadium at night, and three big dances to close the day's activities.

Registered Legionnaires and Auxiliary members will be admitted to all functions gratis and the general public will be admitted to the contests and musical program at the stadium Monday night for a small charge.

### FRIENDS INDEED IN SCURRY COMMUNITY

**SNYDER.**—Thirty men with hoes and several with cultivators proved that the torch of human kindness has not dimmed.

They spent the day cleaning the cotton crop of Mrs. Albert Thompson, whose husband died several days before.

Workers were there not only from the immediate community six miles below Hermleigh, but from Hermleigh, Snyder, Pyron, Inadale, China Grove and other localities.

A bountiful dinner was served at noon by women of the helping-hand families.

Mrs. C. G. Blandford and little grand-daughter, Mary Sue Ray, visited Mrs. Blandford's brother, R. L. McMurry, while here from Ft. Worth recently.

### Detour Routes For Use While Lone Wolf Bridge Is Rebuilt Considered

Consideration of the best route over which to detour traffic during the rebuilding of Lone Wolf bridge is occupying city and county officials just now.

Rebuilding of the bridge will make a detour necessary for about sixty days, it is thought. City officials express the opinion that closing of the highway while it is being widened to city limits will not be necessary.

The two routes being most favorably considered by Mayor J. A. Sadler and others are: One crossing Lone Wolf at the intersection of Hickory street and the creek; the other turning off at Allen Connell's service station and extending across to Eli Brown's, then back on the highway.

An effort is being made to keep traffic following the highway as much as possible so as not to injure the business of merchants located along the highway route, Mayor Sadler says. Any route chosen locally, of course, must be approved by the State Highway department.

The West Texas Construction company, of Fort Worth, which was recently awarded the contract for rebuilding the bridge and widening the highway at a consideration of \$52,416, estimate that they will begin work on the job late this week or early next.

### Federal G-Men In Roll Of The Most Feared Law Force

What manner of men are these "G-men" who have been figuring in the news, in fiction and in the movies so much of late?

They are the most feared crime investigators in the nation today. Until they changed their status along with many other governmental agencies under the New Deal, they were just another branch of the federal government. They flared brightly before the public eye while they were eradicating the John Dillingers, Pretty Boy Floys, the Machine Gun Kelleys and other notorious killers and outlaws recently. Right now the whole country awaits confidently their capture of the other suspects in the Weyerhaeuser kidnaping. As the public expected, two suspects were caught fairly soon after the Weyerhaeuser boy was released. "Now," says John Public, "it is only a matter of time until the others will be nabbed by the G-men."

More than 83 per cent of the G-men are college graduates or certified public accountants. They number about 625. Their average age is 40. These "special agents" are chosen largely on the basis of physical and mental qualifications, with emphasis on the latter.

The agents are taught the law. This largely explains their record of 95 per cent convictions. The G-men know what the courts will allow in evidence.

They are intelligent fellows, but

they probably isn't a criminal, alive or dead, who ever handled a rifle, machine-gun, shotgun or tear gas gun with more deadly accuracy than the special agents. The reason is clear. Before the agent gets a post, he must have gone through intensive training on either the Quantic Marine post rifle range or the basement pistol gallery of the new Department of Justice building.

But the G-men must know other branches of detection. In classrooms they are lectured and they receive special laboratory and practical training on the more scientific phases of their business. They learn how to utilize special cameras for photographing specimens; chemical apparatus for the examination of blood stains; the ultra-violet ray lamp for the examination of the fluorescent and phosphorescent appearances of objects and substances by which they may be identified, and the uses of infra-red ray equipment. Science sometimes determines the identity of typewriters from the writing, the guns from which bullets have been fired, and the person to whose head a stray hair may belong.

Once a suspect is caught (and often leading to his capture, for that matter), comes the good use that the G-men make of fingerprints and their identification files. Early this month the 5,000,000th set of criminal fingerprints was added to the files. The size of the files at Washington is indicated by comparison with the 500,000 sets of prints on file in England's department of justice.

J. B. Holt has returned from Texas Tech, where he attended the first term of summer school.

### CONDITION OF R. N. GARY IS UNCHANGED

No change was reported Thursday noon in the condition of R. N. Gary, who has been critically ill at his home here for the past five days.

### LEAFWORMS ARE BIG THREAT

Inadequate supplies of calcium arsenate, Paris Green and other arsenicals in Dallas, Houston and elsewhere are reported by dealers in the face of what may be one of the earliest and most serious leafworm infestations in many years. The insect has appeared in Central and East Texas and millers are flying in parts of Western Texas while one-third grown worms are reported from the Louisiana border.

Farmers had better watch this situation carefully and make arrangements to obtain supplies of poison as it is evident that a serious shortage might develop in view of the general lateness of the cotton crop and the likely demand over much of the belt at the same time.

Dallas wholesalers quote calcium arsenate in carlots from 6.25c to 6.50c a pound. Most of the Dallas stocks have been hurriedly shipped to Grimes, Burleson and Wharton Counties where the leafworm outbreak is in full swing. Millers are now reported as far north as Bell County in Central Texas and Smith County in East Texas.

**VENTILATED PANTRY ASSET** EDINBURG.—A ventilated pantry in which the cans are never moist but are always cool is a valuable feature of the new kitchen belonging to Mrs. Tommie Hughes, a cooper in the Lone Star Home Demonstration club at Edouard in Hidalgo county, according to Miss Mattie Wilroy, home demonstration agent.

In the ceiling and in the floor of the pantry there are holes 22 by 9 inches over which is tacked a 16 mesh screen to prevent insects from coming in but to allow the air to pass through at all times. Shelves in the pantry are made from 3/4 inch planks and there is 1/4 inch space between them that allows the air to pass between them at all times. The pantry will store approximately 650 containers and at present Mrs. Hughes has 450 in the pantry.

### ACCURATE BRAKE TESTING DEVICE

A brake testing device which is described by engineers as ideal for its accuracy and simplicity is employed by the Brooklyn Edison Co., of Brooklyn, N. Y. This public utilities corporation employs a large fleet of cars which are kept in top notch condition. The device consists of a fifth wheel upon which is mounted a speedometer that is checked for exactness by the New York Police Department as well as the Stewart Warner Co., makers of the instrument. When the brakes are applied a gun is fired, discharging a slug against the ground, leaving a distinct mark. The speedometer needle is stopped at the speed at which the car was running when the brakes were applied. It is simple, then, to measure from the mark made by the gun to the point directly below the gun, where the car was brought to a stop. Thus the exact speed of the car is known as well as the exact number of feet and inches in which the stop was made. The fifth wheel is counter-weighted so that it follows the ground accurately. A recent test on the Hudson car show above recorded stops in precisely short distances, averaging about half the distance considered satisfactory by police departments.

**FCA LOANS TOTAL MORE THAN THAT FOR 1934**

WASHINGTON.—Production credit associations loaned Texas farmers \$4,860,000 during the first half of this year, the farm credit administration announced Thursday. Over \$97,000,000 was loaned in all States compared with \$52,700,000 for the first half of last year.

The FCA pointed out that the cooperative associations served almost twice as many farmers this year as last, making loans to 155,800 farmers up to June 30 compared with 88,300 over the same period last year.

Loans outstanding on June 30 totaled \$109,900,000 compared with \$61,000,000 at the end of December, 1934, and \$49,800,000 at June 30, 1934.

Crop production financing has passed its crest in all except the Pacific States, and the FCA said a normal decline might be expected in most districts until the full livestock financing season opens.

The New Orleans FCA district, embracing Mississippi, Alabama and Louisiana loaned \$9,300,000 during the half year ending June 30. This compares with \$4,860,000 loaned to the Houston district which embraces only Texas. The St. Louis district covering Illinois, Arkansas and Missouri loaned \$7,150,000 and the Wichita district, which includes Kansas, Oklahoma, Colorado and New Mexico loaned \$8,700,000.

**EDUCATIONAL PROGRAM FEED CONSERVATION UNDER WAY**

COLLEGE STATION.—In direct contrast with last year's food and feed shortage, a record feed crop will be harvested this season throughout Texas that will give an eighteen months' supply if conserved, H. H. Williamson, director of the Texas Extension Service, predicted last week.

In view of unusual food and feed crops this year, Williamson announced a ninety-day state-wide educational program to emphasize to Texas farmers the importance and methods of harvesting, storing and utilizing this season's food and feed crop.

In announcing the eight point feed conservation and utilization program, Williamson said that, along with the Extension forces, the Texas Experiment Stations, the A. & M. College teaching staff, various farm and commercial organizations, newspapers and farm magazines will all cooperate in this movement to prevent wastage of the extra food and feed crops.

The eight points are outlined by the Extension director as as follows: to dig trench silos or build up ground silos for storage of feed; to repair barns, bins, and storage places for the harvested grains, orchard and field crops for home consumption; to use the best practical means of protecting stored grain and field crops from weevil and rat damage; to stack hay in the best known methods to prevent deterioration; to increase the number of milk cows, hogs and poultry for home use; to offer for slaughter only well fed and finished animals; to finish all Texas cattle and other livestock for market on Texas grown feed; and to feed work stock and breeding animals well during the winter months.

### Buick Sales Higher In June, Manager Sales Dept. Notes

FLINT, Mich.—Domestic retail sales of Buick motor cars during June totaled 7,033 units, substantially exceeding original estimates and making June the second best month this year in sales volume, W. F. Hufstader, General Sales Manager of Buick Motor company announced today.

Deliveries during the month were close to those for May when a total of 7,468 units were delivered to retail customers, Mr. Hufstader said. Analysis of the month record, he added, shows that 5,238 of the lower priced Series 40 Buicks were sold at retail during June this year as compared with 5,192 in the same month last year, indicating a strong and sustained demand for this popular model. The new Series 40 Buick was introduced in the latter part of May last year and was being delivered in quantity during June.

Sales during the last ten days of the month just ended were 2,835, a gain of approximately 500 units over the previous ten days and nearly 1,000 units over the first ten days of the month.

**RABBIT FEVER REPORTED** AUSTIN.—A number of cases of tularemia, sometimes called Rabbit Fever, have been reported to the State Department of Health, according to Dr. John W. Brown, State Health Officer. The disease is usually transmitted during the hunting season by the handling of infected rabbits when there is a break in the skin. The cases now being reported are probably due to the bite of the wood tick.

The disease is known to be caused by a minute germ which infects a small percentage of rabbits, and in addition, a variety of other animals. The germ is spread among animals by blood sucking flies, or ticks which draw blood from an infected rabbit and later carry infection to other animals. A rabbit that is slow and fails to get off to a good start is apt to be infected.

The disease usually starts with symptoms that resemble gripe or influenza. It has often been mistaken for typhoid fever. In many cases, an ulcer develops at the site of the infection. Whatever the form it takes, means a long, serious illness. The family doctor should be sent for without delay whenever symptoms develop that suggest rabbit fever. To assist in the diagnosis of the disease, blood tests for the presence of the infection will be made by the State Laboratories, at the request of the city or county physician, for any case in the counties.

The best means of prevention is to avoid direct contact through handling of wild rabbits, by protecting the hands with gloves, also, while in the woods to protect oneself from tick bites.

**WILKINS LEAVE** Mr. and Mrs. C. A. Wilkins and Sonny left Monday for Barnhart and Stephenville.

## TOWN FLOODED BY BIGGEST RAIN IN HISTORY SUNDAY

### WIND-DRIVEN TORRENTS ERODE STREETS, FLOOD HOMES AND BUSINESSES

Precipitation For 1 1/2 Hour  
Period Gauged At  
6.20 Inches

Poured in wind-driven sheets from a blue-black cloud that boiled out of the northwest, the biggest rain in the history of Colorado fell here Sunday afternoon in an hour and a half period between 4:30 and 6 o'clock. The fall was officially 6.20 inches.

Ditches two feet deep were washed out in Colorado streets. Water rose inches deep in a number of homes and practically every business house was flooded. Basements all over town were half-filled. The damage in Colorado alone was estimated around \$2,000. Crop damage seems to have been surprisingly light outside of the hail area, and in much of that stripped cotton stalks and feed will continue growing, farmers say.

Rail and bus traffic west of town was held up for hours by water standing two and three feet deep over the highway in a number of places and over the railroad between Colorado and Morgan creek.

To the west and north of Colorado the rain was heavy, if not heavier than in Colorado. A hail strip, about two miles wide, accompanied the rain in the northwestern part of the county, doing most damage near the Mary Lewis farm north of West-

Pictured above is the W. C. Cole evangelistic party of Des Moines, Iowa, which is to start two weeks revival at the First Christian church Monday evening. The party is composed of Rev. and Mrs. W. C. Cole and their son, Clifford.

### BEGIN REVIVAL MEETING HERE MONDAY

brook, where several barns were leveled by wind and the roofs of six rural rehabilitation houses were beaten in.

The hail area ran between Colorado and Westbrook, stripping cotton and feed on the farms of Coly Smith and Clay Smith and dying out near the Formwalt place south of the railroad. The hailstorm was intense in the New Hope and Rogers communities, knocking holes in house roofs and car tops.

The heavy rain reached south of town to around the George Bynum place, and from there to beyond Spade the precipitation dwindled to between an inch and two inches. At Hyman, however, the fall was practically the same as in Colorado. Bob Scott reported Monday morning that one windmill had been leveled on his place.

Below Seven Wells the torrential flood waters washed out a crossing over a sixty-inch whistler on Rough Hollow creek.

Rainfall in the eastern portion of the county was light, amounting to less than two inches. About two inches fell on the Joe Johnson farm just south of Valley View.

By the time the rain had let up at 6 o'clock, Morgan creek was running almost over its bridge west of town, spectators say. Water stood about three feet deep in the flat near the Cleve Thompson place, holding up bus traffic and cars for a time. The Colorado river rose swiftly to a point just a few feet below the railroad trestle, and then receded rapidly.

Early reports that about forty feet of the T. & P. railroad track west of town had been washed out proved to be exaggerated. The tracks were covered at Dome, between here and Morgan creek, and water in several

places was about four feet over them. Trains were held up Sunday night until the waters receded enough to permit a survey of the extent of the damage, and then went on.

Considerable damage was done to Conoway school when the high wind that accompanied the rain somehow caught the flat roof of the four-room brick structure and ripped it off, leaving the schoolhouse interior exposed to the rain. An art curtain was ruined and the piano greatly damaged. Horn's Chapel school must be re-roofed because of the hail, County Superintendent Roy Davis Coles said Tuesday.

Homes of J. A. Ferguson and John R. Baze and Mrs. W. M. Green up on Hickory street were considerably damaged when water ran in them inches deep as it broke over from flooded storm sewers.

With their pants rolled up and brooms and pans as their weapons, Colorado business men worked in knee-deep water downtown to save their stores and their merchandise during the rain.

Mayor J. A. Sadler has been working day and night this week with a crew of over 100 laborers to put Colorado streets into good condition again. Two badly washed places were at the corner of Mrs. R. F. Hargrove's home and at the corner of the Leon Jenkins home where there was a ditch big enough to hold a car.

The fire truck was called out Monday to pump water from residence and business house basements.

As far as can be learned, the only other rain in Colorado in the past quarter century approaching this one in intensity was in April, 1922, when there was a total of 12.28 inches for the month with 7.52 of that amount falling in one week. But the largest amount falling at any one time was 3.35 inches in one hour on April 25.

### Three FFA Boys Leave For State Meet In Lubbock

Three members of the Colorado High school chapter of the Future Farmers of America left Wednesday for Lubbock to serve as delegates to the State FFA convention in session there the last three days of this week.

The three, who were chosen at a called meeting of the chapter at the school building Saturday afternoon, were Ivy Jones, R. C. Snively, and Billy Henderson. They were accompanied to Lubbock by Doyle Williams, head of the vocational agriculture department of Colorado High school and FFA sponsor.

Snively and Henderson are to play in the State FFA band, which will give a concert here on Saturday night following the convention.

### MAYOR SADLER RETURNS FROM MUNICIPALITIES CONVENTION IN AUSTIN

Termining it the "most interesting meeting I ever attended," Mayor J. A. Sadler returned Monday noon from the annual convention of the League of Texas Municipalities in Austin. Mrs. Sadler and Junior, who visited his sister in Waco during the convention, returned home with him.

Reports made at the convention show that things are shaping up favorably in regard to the works progress administration now being put into effect to take the place of Federal Emergency Relief Administration. Mayor Sadler said in speaking of the convention. A number of PWA and WPA officials were on the convention program.

Mayor Sadler and his family visited in Dallas and Breckenridge en route home. He found an avalanche of work, resulting from Sunday's downpour of rain, awaiting him on his return.

### Oswalt Presented To Lions Friday As Newest Member

Presentation of Bill Oswalt, who recently bought the Crosthwaite drug in partnership with his brother, as a new member took place at the Lions club luncheon Friday noon.

Dell Barber presented Oswalt, who is a former Ablemanian, to the club. After the presentation Judge Benton Templeton, who had secured Oswalt's membership, passed the goat medal on to Barber.

Lloyd Pribble and Garner Jones, new manager of the Rockwell Bros. Lumber company here, were guests of the club. They made brief talks.

Featured entertainers on the luncheon program were the Chuck Wagon Serenaders, who were introduced by Jake Richardson of the program committee.

Following the club custom, Dell Barber distributed cigars to members in celebration of the birth of his son a week ago.

After the games the guests went to the Alcove, where refreshments of ice cream and cake were served. Those present in addition to members were Mrs. Bill Thomas, Mrs. Darrell Smith, and Mrs. J. E. Lebus of Elceira. The next meeting will be a night party with Mrs. Henry Vaughn.

## Mary Frances Mackey Has Birthday Bridge

Celebrating her birthday, Mary Frances Mackey entertained two tables of bridge at her home Friday afternoon.

Her mother, Mrs. P. K. Mackey, was assisted by Mrs. J. L. Pidgeon in serving two kinds of cake and cream to Mary Belle Crosthwaite, Myra Brown, Rebecca Smoot, Nina Laura Smith, Mary Elizabeth Pidgeon, Ina Jo Wallis of Tucson, Arizona, Buena Wulfjen, and Frances Elliott.

## OES To Have Called Meeting Thursday

A called meeting of the local chapter of the Eastern Star will be held at the Masonic hall tonight (Thursday) at 8 o'clock, according to Mrs. Virgil Bond, worthy matron. Special work is to be done and all members are urged to be present.

## Two Additional Affairs Honoring Mr. and Mrs. Pond Given Friday

Two additional affairs honoring Mrs. Joe Pond, the former Miss Nelle Harper Greene, took place Friday. One of the two, an evening party, honored both Mr. and Mrs. Pond. Mrs. Neal Prichard and Mrs. E. O. Hudson were hostesses Friday afternoon to compliment Mrs. Pond. They entertained five tables of bridge at Mrs. Prichard's home, climaxing the afternoon with a surprise kitchen shower for the honoree.

Yard flowers were house decorations. Playing appointments were in the bridal motif. Mrs. Emmett Grantland made high score, Mrs. Baxter Seogin, Jr., low. The honoree was presented with a dish pan, which was later filled with the surprise shower of kitchen utensils.

Ice cream cones were served at the beginning of the games and a salad course at the close. Playing guests were:

Mrs. Jim Cantrill, Mrs. Jake Richardson, Mrs. John Deffebach, Mrs. Ford Merritt, Mrs. Dick Carter, Mrs. Bill Dorn, Mrs. Bill Broadus, Mrs. Emmett Grantland, Mrs. Ed Jones, Jr., Mrs. Baxter Seogin, Mrs. James Logan, Mrs. John Houston Lupton, Mrs. Jamie Morgan of Stephens, Arkansas, Mrs. Bob Fee; Misses Mary

Belle Brennand, Margaret Cook, Lea Swope, Frances Lupton, and Kack Price; and the honoree. Mrs. Earl Gunn was a tea guest. Gifts from Miss Mary Hughes and Mrs. T. W. Stonerod were included in the shower.

Both Mr. and Mrs. Pond were honor guests at a party given Friday evening at the Harry Ragan home by Mr. and Mrs. Ragan and Mr. and Mrs. Oscar Price.

White and silver were featured in the scenes which decorated game appointments. Mr. Pond made high score for men, Mrs. Bill Dorn for women, and the traveling prize went to Miss Mary Belle Brennand. Both the latter passed their gifts on to the honored couple. The hosts gave them a bath set.

In addition to Mr. and Mrs. Pond were Mr. and Mrs. Neal Prichard, Mr. and Mrs. Jake Richardson, Mr. and Mrs. Emmett Grantland, Mr. and Mrs. Bill Dorn, Mr. and Mrs. T. W. Stonerod, Jr., Mrs. J. E. Stowe and Harold Stowe of Abilene, Miss Lea Swope and Mr. Bob Brennand, Miss Mary Belle Brennand and Mr. Jack Helton, and Miss Kack Price and Mr. Jake Merritt.

## 'Enjoyable Hop' Was Social Headliner In Colorado Record For 25 Years Ago

"An Enjoyable Hop" was the brief and highly expressive heading a Record article about a dance which had been the "social event of the season" twenty-five years ago.

The dance had taken place at the "club rooms" on Friday night, and was given by Mrs. Boren and her daughter, Mary, in honor of Marguerite Looney, who had returned from school in Berkeley, California, and Miss Lily Allen. One woman wore what was described as a "lovely costume of Wisteria Mousaline, with a yoke and under sleeves of lace" and another wore "embroidered lingerie over pink."

The grand march was led by Miss Looney and Leftwich Sheppard. Marguerite Beal, Mary Kirkpatrick and Frances Smith poured punch.

The chaperones were Mesdames F. M. Burns, R. H. Looney, C. A. Arbutnot, Brooks Bell, A. A. Bailey, J. C. Prude; Mr. and Mrs. Singleton, Mr. and Mrs. Oderholz, Mr. and Mrs.

Ed Smith, and Mr. and Mrs. V. W. Allen.

Those present were Annie Beal, Olive Greenwood, Marguerite Cowan, Lilian Liles, Mary Arbutnot, Jeannette Earnest, Lois Prude, Edna Majors, Eva Hamner, Mary Coe, Ophelia Arnett, Juliette Looney, Marguerite Looney, Lily Allen, Isla Smith, Eleanor Van Tuyl, Berneice Terrell, little Dorothy Burns, Chester Thomas, Garner Hammock, Billy Butler, Myron Smith, J. B. Blandford, Lewis Majors, Breedlove Smith, John Arnett, Wooten Jeffries, Reeves Coleman, Leftwich Sheppard, Walter Whipkey, Anthony Van Tuyl, Young Hamilton, Jim Coughran, Frank Anderson, Myrtle Vaughan, Hunter Looney, Robert McMurray, and Jim Lewis.

A lawn party had been given by Miss Eloise Shropshire for her guest, Miss Mabel George of Sweetwater. Bravis Coe, John Farmer, and Roy Farmer were fishing on Beal creek. Tommie Hughes had gone to visit his sister, Sadie Arnett. Mr. Bravis Coe and baby had gone to Paris to visit Mr. and Mrs. R. E. Dolman.

Fishing on the Coneho were Jim Coughran, Milburn Doss, and Lewis Majors. Mrs. Ed Dupree had returned from a visit to her old home in Franklin county.

A page of the paper was devoted to pictures of the Lone Wolf dam which some leading citizens were dreaming of. The proposed site of the dam, at the end of Fourth street, was pictured, as was the residence of W. W. Watson, who was promoting the dam project.

## Westbrook Couple Married At Park Saturday Evening

The marriage of Miss Alva Hall, daughter of Mr. and Mrs. T. F. Hall of near Colorado and recently of Westbrook, and Mr. Glen Russell, son of Mr. and Mrs. J. H. Russell of Westbrook, took place at Ruddick park Saturday evening in the presence of a number of the couple's friends.

The ceremony was said by the Rev. Leslie McCarr of Westbrook. The bride wore white taffeta. After the ceremony and the serving of punch and cake Mr. and Mrs. Russell left for Christoval, where they are spending this week.

Those witnessing the ceremony were the Rev. Roy Horner of Westbrook, Misses Wilma Jean Barry, Jo Nell Anderson, Mattie Bell Hall, Vesta Smith, and Juanita Collier, all of Westbrook; Ed Hall, James Hall, Wayne Gillam, Weldon Moore, and Elton Donaldson of Westbrook; Woodrow Crabtree of Colorado; Mrs. Mattie Carroll and daughter, Geraldine, of Colorado.

Mrs. Russell was reared near Lorraine and was graduated from Lorraine high school. Mr. Russell was reared in San Angelo, moving to Westbrook with his parents about two years ago. They will make their home in Westbrook.

## Fourteen Plan To Leave This Week For Short Course

Around fourteen Mitchell countians—men, women, boys, and girls—plan to leave Saturday and Sunday for A. & M. to attend the annual Farmers' Short Course. The group will be the largest to attend from this county in the past five years.

The county agents, Miss Emma Gunter and B. J. Baskin, will be among the fourteen. Roy Davis Coles, county superintendent, is to be in College Station during the week to attend the state convention for county superintendents.

Three cars of club women and club girls are to leave during Saturday and Sunday carrying the following delegates: Mrs. O. L. Simpson, Fairview; Mrs. J. C. Franklin, Plainview; Mrs. Frank Andrews, Hyman; Mrs. Mina Mitchell, Iatan; Mrs. Ed Roach, Looney; Mrs. Ivan Barber, Bauman; Mrs. Mary Boatler, Colorado; Miss Lulline Miles, Looney Girls' club; Miss Rena Louise Taylor, Lone Star club girl.

Miss Taylor goes to the Short Course as county winner in the bedroom improvement contest for 4-H club girls. She also won third place in the district contest. Miss Miles won second place in the county.

A son of S. J. Hughes of Seven Wells and Hoyt Andrews of Hyman are also to be at A. & M. during the week.

## Pastime Entertained By Mrs. Virgil Bond

With Mrs. Bill Gordon, who is visiting here from Itasca, as her only guest, Mrs. Percy Bond entertained the Pastime club Friday afternoon.

High score prize went to Mrs. Hugh Millington and a guest prize to Mrs. Gordon. A fruit drink was served during the games and ice cream and cake afterwards. The club is to meet next week with Mrs. M. J. Dawson.

Andy Hogue of Colorado spent Sunday with Frion Cathey in the Lenora community.—Stanton Reporter.

Mrs. H. G. Towle and daughter, Mary Margaret, left this week for a trip through the Eastern states and into Canada. They will go to New York City by way of Washington, D. C., and will be joined in Montreal, Canada, by Mrs. Pearl Shannon, who has been in New York City for several weeks. The Snyder people plan to return by August 1.—Scurry County Times.

The Morning Avalanche made a suggestion many years ago that buildings at Texas Tech be named in honor of persons whose activities have earned that honor. There are many men, some living, some dead, for whom Texas Tech buildings might well be named. Among them is, of course, the late Dr. P. C. Coleman of Colorado City, generally considered to be the man who had the first vision of a "West Texas Agricultural and Mechanical college."—Lubbock Morning Avalanche.

## SHORT COURSE POINTERS GIVEN TO RURAL WOMEN

Pointers designed to help them in getting the most out of the Farmers' Short Course at A. & M next week were given delegates and alternates of women's home demonstration clubs of the county at a meeting in the office of Miss Emma Gunter, county home demonstration agent, last Saturday.

Delegates, alternates, and visitors present were:  
Mrs. E. R. Uzale of Fairview, Mrs. C. L. Simpson of Fairview, Mrs. J. C. Franklin of Plainview, Mrs. Ivan Barber of Bauman, Mrs. Trudo Webb of Looney, Mrs. Frank Andrews of Ilyman, Mrs. Mina Mitchell of Iatan, Mrs. Mary Boatler of Colorado, Mrs. Marshall Webb of Looney, Mrs. Jack Linam of Lone Star, Mrs. Clive Taylor of Lone Star.

## 'SINGING DOCTORS' ARE PLENTIFUL IN COLORADO

If you feel the need of lullabies with your ailments you should be able to get them in Colorado if the number of "singing doctors" hereabouts is any indication.

Three leading local physicians are songsters and enthusiastic ones at that.  
Dr. C. L. Root has become almost as famous for his solos as for his surgery.

Dr. T. J. Ratliff has been singing in the Baptist choir for years and frequently doing his part in duets and quartets.

Dr. Harold Lindley, who sings tenor, has taken a leading part in a number of musical programs since coming to Colorado.

Miss Marie East and her mother returned to their home in Weatherford Wednesday morning after a visit with Mrs. Narcia Terry, Miss Alma Terry, Mrs. J. T. Pritchett, and other relatives.

## Try CARDUI For Functional Monthly Pains

Women from the 'teen age to the change of life have found Cardui generally helpful for the relief of functional monthly pains due to lack of iron. The right strength from the food they eat. Mrs. Oris Haynes of Elmer, Mo., writes: "I used Cardui when I got the cramps and found it very beneficial. I have recently taken Cardui during the change of life. I was very nervous, had head and back pains and was in a generally run-down condition. Cardui has helped me greatly."  
Thousands of women testify Cardui benefited them. If it does not benefit you, consult a physician.

## Insurance Companies Paid \$47,000 To Colorado Beneficiaries In 1934

Beneficiaries and holders of life insurance policies in Colorado received \$47,000 during 1934, according to the annual tabulation of payments shown in the latest issue of The National Underwriter.

Total payments in the state were \$71,000,000, ranking Texas eleventh among the states and representing distribution of \$11.60 per capita.

Payments to policyholders and beneficiaries in other West Texas cities included: Amarillo, \$517,000; Ballinger, \$42,000; Breckenridge, \$69,000; Brownwood, \$50,000; Coleman, \$57,000; Colorado, \$47,000; Eastland \$57,000; El Paso, \$1,010,000; Lampasas, \$32,000; Lubbock, \$21,000; Menard, \$22,000; Midland, \$52,000; Miles, \$53,000; Mineral Wells, \$52,000; Pampa, \$147,000; Pecos, \$37,000; San Angelo, \$338,000; Santa Anna, \$17,000; Stanton \$25,000; Sterling City, \$17,000; Throckmorton, \$54,000; Wichita Falls, \$432,000; Winters, \$32,000.

Dallas was the leading Texas city in 1934 payments with \$3,967,000, ranking 39th among all cities of the country. Houston was second with \$3,888,000, and others ranked as follows: San Antonio, \$3,849,000; Ft. Worth, \$1,945,000; El Paso, \$1,010,000; Beaumont, \$662,000; Galveston, \$636,000; Waco, \$601,000; Port Arthur, \$596,000; Austin, \$548,000; Laredo, \$356,000; San Angelo, \$338,000; Corpus Christi, \$285,000; Brownsville, \$231,000; Tyler, \$201,000.

## MISS GUNTER URGES CANNING

Canning or otherwise preserving surplus food is urged by Miss Emma Gunter, county home demonstration agent, in the following statement:

"Everyone who has surplus vegetables to can is urged to can, to dry or give them in exchange to someone in order that nothing will be wasted this year. Fruit is more plentiful this year and is well flavored and not so expensive as in years past. Tomatoes are the vegetables most needed in this county, so they should be canned if as cheap as a dollar a bushel.

"Leafy vegetables such as snap peas and beans are badly needed in the farm diets so they should be conserved. Okra, squash and shelled peas are used less frequently in the menus, therefore fewer containers of them are canned. Every available jar and can should be filled. Let nothing go to waste."

Mr. and Mrs. J. E. Coles and daughter and Misses Fanny Fay Womack and Lenora Cook spent the week-end home from Texas Tech. Miss Womack remained here when the others returned to school Monday.

NOTE AGAINST REPEAL

After centuries of observation of the evils of strong drink in every nation civilized and uncivilized, with all the facts concerning the vice of the liquor traffic, having studied every method of control and regulation evolved out of the varied experiences of mankind through the ages, after a hundred years of public debate in the halls of parliament, in the class rooms of public school, and from around the family altars and pulpits the AMERICAN people wrote into the fundamental law of this Republic that it was unlawful to manufacture and sell intoxicating beverages.

The Eighteenth Amendment was the result of the matured thinking of great minds; the labor of faithful advocates and orators, and the answer of prayers of broken-hearted mothers of every tribe, kindred and tongue; yea, of the self-evident economic, social and spiritual waste of a nation's most valuable assets, manhood and womanhood. The adoption of this amendment was a long and slow process. Every form of control was sincerely tried and found wanting before the law was passed. Every argument in favor of the liquor traffic was heard and mild remedies were tried by townships, counties, and states; until it was seen that the only way to treat a traffic so demoralizing to the welfare of the Nation was to take from it the respectability of a legal business. This final step was taken with full knowledge of its revenue-producing ability. IT WAS A NOBLE EXPERIMENT! IT PUT PRINCIPLE ABOVE PROFIT AND THE GOOD OF THE PEOPLE ABOVE GOLD.

The repeal of this great piece of moral legislation stands out as the most IGNORABLE EXPERIMENT of the century. The plans and policies; the men and money, used to render impractical this amendment during its lifetime is the worse scandal in our national life, and the motive for its repeal on the part of the small group of multi-millionaires who bought up the great metropolitan press to slander and persecute prohibition leaders and to make ridiculous the enforcement of the law is the most IGNORABLE TYRANNY IN THE ANNALS OF HISTORY. The motive for repeal on the part of the rich was to shift the burden of taxation from high salaries to what they called the POOR MAN'S DRINK (BEER). The Congressional Record details the entire motive and personal correspondence on this matter. The motive for repeal makes it IGNORABLE.

The motive for repeal on the part of both political parties makes it very IGNORABLE. Did not the present administration's platform read "for school ages?" Political purposes were brought to bear upon every state to repeal the amendment and the hope of lowered taxation was promised, and the threat of higher taxation resorted to in order to force the dry South in line with party principles. Think of a Nation deliberate-

ly electing to legalize a business that penalizes every other legitimate business in order to get revenue. When did liquor ever pay its way, or when did JOHN BARLEY CORN ever pay taxes enough to offset the cost of the traffic to the government. THINK OF A CHRISTIAN NATION VOTING TO LEGALIZE A TRAFFIC THAT IS AN ENEMY TO ITS CITIZENSHIP! How inconsistent for those who are opposed to sweatshops and child labor to be the chief exponents of that which blights child life and destroys parenthood and home. The very fact that "revenue" is the ground for repeal makes this a most ignoble experiment.

The failures of prohibition were played up and given headlines in every paper, even when the failure was due to a well-planned scheme of wet propaganda. True, the prohibition laws were not perfect and were not half as well enforced as temperance leaders desired. However, it is but just to say that in spite of the fact that the law was administered in the main by its enemies, the enforcement was better than the wets liked. Considering the interference of the opposition and their lack of appreciation for the will of the people, the enforcement was on par with the enforcement of other laws of the Nation.

Temperance leaders had a right to be idealistic and optimistic when the amendment became law. With confidence in the political leadership of the States they did relax and ceased their VIGILANCE. While they slept enemies sowed tares of false propaganda. We did expect more from the officers than we got. The LAW was good, but it was made weak through the "flesh." We were promised a much better social order, conditioned on the enforcement of the law, than we had under the reign of the open saloon. And we did have a better condition than in the "good old days." Even now the wets say they do not want the "old saloon" back. Our promises were conditioned upon good citizenship and the enforcement of the law. The law was good, but lawless men and organizations set themselves to defeat the purpose of the law. If the law failed it failed not because it could not do for the nation what its friends promised, but because its enemies would not let it be a blessing.

What about the promises of the repealists? Has repeal succeeded? Recall the many promises of the wets when they claimed that revenue from liquor would pay our government out of the red. Is the government getting out of debt because of repeal? The national debt has increased from \$27,035,000,000.00 in 1933 to \$28,648,989,605.00 in 1934-35. The wets promised lowered taxes with repeal and the legalization of beer. The failure to make good this promise is self-evident. Dallas County is a good example and will show the ignominious and failure of repeal. The beer dealers in Dallas and entire county of Dallas paid in taxes for the first year \$37,919.00. Beer dealers in the City of Dallas paid \$33,000.00 of the total. Had the promise to lower taxes been kept, the citizens of the county would have had their taxes lowered 11 2/3 cents and the property owners in the City of Dallas would have received 12 2/3 cents reduction. BUT THEY DID NOT EVEN RECEIVE THIS LIBERAL REDUCTION AFTER THEY HAD BEEN SO PATRIOTIC!

The most emphatic promise made by the wets and written into the political platforms of both national conventions was that the saloon would not come back, and in accepting the nomination our President said, "We must rightly and morally prevent the return of the saloon." Has repeal prevented the return of the saloon or has it brought the saloon back with all of its pristine and ancient viciousness? To those who travel even a little bit the question has but one answer. The saloon is back with all of its former characteristics; swinging doors, vile odor, weird music, counter lunch, brass rail, gambling devices, women for sale and other forms of depravity. True, it is not the "he-man" institution of former days owned and operated by men, and mostly for men, but it is operated by GIRLS OF THE HIGH SCHOOL AGE. The girls are becoming the chief assets of the saloons and beer gardens. Wet newspapers report that the "worst places during the worst days of the saloon were not as bad as the saloon of TODAY." The promise to relieve unemployment made the greatest appeal to the

masses and was perhaps the greatest factor in bringing about repeal. Such a promise was made in spite of the fact that only 86,000 men were employed in the manufacture of liquor in 1914 when the liquor business was at its best and worst. The employment given by repeal is so infinitesimal that if it were not for government-made jobs the working man would never know that repeal had been voted. The unemployment is still with us even after the ignoble experiment of repeal and many other experiments, constitutional and unconstitutional.

Another of the precious promises of the wet orator was that repeal would stop crime and do away with the bootlegger. But bootlegging is more rampant and defiant today than ever before. The government is having to enlarge its appropriations for the Coast Guard to protect our shores against rum running and to increase the law-enforcing agencies throughout the country to suppress bootlegging and wildcat stills. Reports from every section reveal that crime has increased instead of ceasing since repeal. Beer dealers have been bootlegging and selling liquor in violation of state law. Who can claim that crime and bootlegging has stopped since repeal? The liquor traffic is a crime breeder and is the main factor in most of the violation of the law.

The atmosphere is scarcely cleared of the static caused by the enthusiastic promises of the wets concerning personal liberty and STATES RIGHTS. Ah, our great Jeffersonian temperance and political leaders promised the dry states the right of self-government and federal protection of their dry laws in case repeal in state election was unsuccessful. But what do we see in dry territory even before a referendum or election has been held, THE NATIONAL GOVERNMENT ISSUING A FEDERAL PERMIT TO SELL HARD LIQUOR IN A DRY STATE. O Jefferson, where is thy doctrine of STATES RIGHTS, and oh, Americans, where is thy personal liberty! Go to the farmer and ask him about his personal liberty and he will tell you that since repeal he has needed very little liberty. Ask the average business man about his personal liberty, and until very recent days he would have told you there was no such thing in business. About the only people in this land that has free right away is the brewer and distiller. They can advertise their wares over the radio in the privacy of your homes; in the magazines coming to your homes liquor advertisements are the most attractive. Liberty and rights; what crimes are committed in thy name! The government has joined hands with the vilest traffic to steal from the people their moral rights without which the people are unconcerned about other liberties.

The most insincere promise made by the wet-temperance leaders was that with repeal temperance would be increased. That was a promise, and therefore, no one has been deceived. Hypocrites! Who ever heard of a brewer or a saloon-keeper seeking to promote temperance? The liquor business depends on intemperance for success and the liquor dealers are business men who care very little about temperance. Their profits depend on volume and drunkards are made by a desire for gain.

Has repeal promoted temperance? "Since repeal Kelly Institute patients have increased 55 per cent; arrests for drunkenness increased 113 per cent in twelve leading Southern cities; convictions for drunken drivers have increased 75 per cent in three months; deaths from auto wrecks increased 77 per cent in the United States; traffic accidents caused by liquor in Detroit increased 164 per cent; the year before legalized beer in Chicago auto deaths DECREASED 162 per cent, the year following repeal auto deaths INCREASED 195 per cent." Statistics concerning accidents furnished by the National Safety Council of Chicago and the Travelers' Insurance Company of Hartford, Conn., show alcohol as a factor in 60 per cent of automobile accidents. Also, that drunken drivers of automobiles involved in accidents in 1934 increased one-third over 1933, and that pedestrians involved in accidents increased in 1934 49.5 per cent over 1933.

The failures of repeal are so outstanding and overwhelming that a wet who can drink water ought to be able to see the folly of his way and repent before he himself is involved in a fatal accident. But if not for himself, in the interest of others he ought to be willing to vote against that which is a menace to society and a destroyer of life.

And what do the wets promise now to the citizens of Texas if they will legalize WHISKEY in the August election? What more can they promise? In fact did not many of them say last fall that light wine and beer would be a fine substitute for hard liquor and that if 3.2 beer was made legal it would suffice. Now their thirst has been so increased that they must have the hardest of liquors. Who knows but what many of them will be demanding that the state legalize wood alcohol in the near future. Alcohol is a narcotic when in beer and increases the thirst and craving for a larger dose.

The issue before the State of Texas is "Shall whiskey be added to the stock of the beer garden, and the sandwich stand, the coffee shop, the hotel, the restaurant, etc." Also, it

means that if strong drink is legalized in Texas young men from the best of homes will either be forced to sell liquor or lose their jobs, and worse still, that young girls will be forced by circumstance to serve liquor and beer or give up their employment, which many times is the only thing they can do and live above reproach.

One liquor advertisement reads, "THINK BEFORE YOU DRINK." I urge you to think before you vote for STRONG DRINK. Think of the evil of strong drink; think of the homes it has wrecked; think of the lives and characters it has ruined; think of the drunkards rendered unconscious to moral and spiritual appeals. THINK OF THESE THINGS BEFORE YOU VOTE! Would you want a banker who used strong drink; would you want a physician who drank liquor to minister to your family; would you want a drinker to teach your children; would you want your church to sponsor a liquor program; would you want the members of your church in the liquor business? THINK BEFORE YOU VOTE! All things are possible when whiskey is legalized. A vote for whiskey is a voice in favor of all the evils that follow in the wake of a liquor-controlled government. ANY MAN WHO THINKS BEFORE HE DRINKS WILL NOT DRINK; A N Y V O T E R, W H O THINKS BEFORE HE VOTES WILL VOTE AGAINST WHISKEY. F. B. W.

BROTHER TOM JOHNSON IS KILLED IN OKLAHOMA

A message that his brother had been killed in a car accident near Duncan, Oklahoma, was received late last Thursday by T. W. Johnson. Accompanied by Mrs. Johnson, Mr. Johnson left for Duncan early Friday.

The brother, Grady Johnson, 43, was returning from his work in the oil field when he became blinded by the lights of an approaching car and crashed into the rear end of a hay press traveling directly behind the car he was meeting. Death was instantaneous.

Funeral services were held in Duncan Sunday afternoon. Survivors include the man's wife and two children. Mr. and Mrs. Johnson returned home Monday. Read the Classified Ads.

LOOK AT THESE FOOTPRINTS FOR PROOF OF VALUE

Goodyear's high reputation for quality doesn't mean Goodyear tires cost more money—it means you get more value at competitive prices.

It stands to reason that Goodyear, world's largest tire maker, can give you greater value per dollar. Detective Faurot's investigation proved it—verified that Goodyear's great "G-3" All-Weather delivers more miles, at lowest cost per mile.

SEE EVIDENCE HERE Let us show you actual footprint records of "G-3's" on your neighbors' cars—cold-weather evidence that you'll get better than 65% LONGER NON-SKID MILEAGE AT NO EXTRA COST!

SEE HOW

—These tread footprints made by "G-3" tires—after the long mileage shown—prove there's still lots of non-skid left in these treads for thousands more miles of safety.
