CONSTRUCTION ON STREET AND BRIDGE PROJECTS TO BE STARTED NEXT WEEK

Four-Lane Traffic Pavement Be Extended East To City Limits From Hickory

The West Texas Construction Company is to begin work on Lane West Creek bridge and East Second and West Point avenue projects next week, officials of the company announced here. The J. A. Conroy, vice president of the company, and J. C. Park, general superintendent, arrived from Dallas on Thursday to formulate details for starting the projects. Contract for the pavement was awarded to the company by the State Highway Commission at a figure of \$32,140.

The bridge and pavement projects are the first of a series of four-lane traffic pavement projects on Second and West Point avenues, which will be widened to forty feet from the Hickory street intersection to the city limits. The highway commission estimates that it will cost \$1,000,000 to be required to complete the project.

Collins stated that the project had not yet a final plan, but that such work would be started in the fall of the year. A contract for construction of the project will be let here permanently during the summer of the year.

"Our contract with the highway commission for a total of 140 miles of four-lane traffic pavement is a big project," Collins stated. "It is one of the most important projects in the state and we are glad to be a part of it."

Park stated that the company is a contractor and has been in the business for many years. He stated that the company is a member of the American Road & Builders Builders Association.

R. N. Gary Passes Saturday Following Illness Of Several Weeks

Another of the pioneers, who through many years contributed liberally to development of Colorado and Mitchell county, passed Saturday morning in the death of R. N. Gary, who since 1887 had been a resident of Mitchell county.

Mr. Gary, of the East, died at his home in Mitchell county, Texas, on Saturday morning, August 1, following an illness of several weeks.

Mr. Gary was born in Mitchell county, Texas, on December 14, 1857. He was taken by his parents to Abilene when a child two years of age. There he grew to manhood and after returning to his native state and settling at Maricopa, in 1899 he returned to Abilene to marry Mrs. Bettie Stewart of Arkadelphia, bringing his family to their home in Maricopa.

In 1887 Mr. Gary came to Colorado to work in the office of Mitchell county, Texas, and later in the office of Mitchell county, Texas.

INCREASING INTEREST IS BEING EVIDENCED DURING FIRST CHRISTIAN REVIVAL

Special Nightly Services To Feature Campaign Thru All Next Week

Swiftly increasing interest and large audiences are featuring the revival meeting which was opened Monday evening at First Christian church with the Cole evangelistic party of Des Moines, Iowa, in charge.

The Rev. W. C. Cole, who heads the party, is said by those who have heard him to be a speaker of unusual force. Mrs. Cole is drilling a large chorus of boys and girls who sing special numbers at each service. Clifford Cole, son of the Rev. and Mrs. Cole, is leading song services and giving special numbers on his asopphone and musical saw.

Special services scheduled to be held during the meeting were announced Wednesday morning. Thursday night (tonight) is to be Bible School night. Friday will be Young People's night, with the Rev. Mr. Cole speaking on the subject, "Plan of Salvation." Saturday night will be given over to a special program by the Boosters' choir, with the features of Boys' and Girls' night on Saturday. The Rev. Mr. Cole will speak Sunday morning on "Stewardship and Life" and Sunday evening on "The Seven Cries From the Cross."

Special nights next week are to be Monday, Family Night; Tuesday, Mother and Daughter Night; Wednesday, Mother and Son Night; Thursday, Bible School Night; featured by a Pentecost of "The Old Rugged Cross"; Friday, Young People's Night; Saturday, Boys and Girls' Night.

A cordial invitation is extended to all to attend every service promptly at 8:15 P. M.

MEN ARE TOLD TO APPLY FOR TRANSFER OF RELIEF PROJECTS TO WPA SET-UP

Instructions to file applications for the transfer of prevailing relief projects to the Works Progress Administration set-up were given a group of Mitchell county men who went to Abilene Tuesday to confer with the project department of WPA District 14.

The men going to Abilene were Judge R. L. Templeton, Commissioner Max Holt and J. E. Skelton, and J. H. Greene, county FERA administrator. They conferred with Robert Hopper, head of the district WPA project department, and Hugh Herring, district project engineer.

The district project engineer, Hugh Herring, was also advised to the proposal for new projects in the county.

TWO COLORADO YOUTHS WIN PRIZES AT CAMP

Two Colorado youths, Woodrow Bohannon and Charles J. Smith, won medals in sports and literary contests conducted in the Citizens' Military Training camp at Camp Bullis last week.

Bohannon was awarded a bronze medal for being the best fourth year student in his company. Smith's medal was for second place in fancy diving. Smith also received a gold medal as a member of the winning team in the swimming relay race.

BUILDING IS REALIZATION OF GOAL SET BY LEADERS HERE SEVERAL YEARS AGO

C-C President To Represent Postmaster General In Public Program

Formal dedication of Colorado's new imposing postoffice building will be observed Friday evening in rites to begin at 8 o'clock, bringing into realization an ambition that has been presented consistently by civic leaders of the community through a number of years. Judge C. C. Thompson, president of the chamber of commerce, will personally represent Postmaster James A. Farley in accepting the building.

The structure was accepted for the government Tuesday by C. C. Holloway of Abilene, construction engineer representing the Treasury Department at Washington. Templeton & Patton of San Angelo were general contractors.

Several years ago the Colorado chamber of commerce announced that one of its major activities would be to persuade to induce the treasury department to authorize construction of such a building. The late Judge C. H. Earnest and C. M. Adams, among the leading civic factors identified with Colorado, were sent to Washington to personally push claims of the city. Permission was obtained that the building be built.

Through the intervening years the project has dragged but Colorado never gave up. The initial tentative appropriation of \$75,000 was, in the meantime, shored to a considerably larger figure. Definite steps were not taken until several months ago when the building site at corner West Third and Walnut was purchased at a cost of \$10,000. Contract on the building was \$200,000.

Opening the dedicatory rites will be a concert by the municipal band with R. P. Rice directing. Jim Greene, member of commerce secretary who has been most active in support of the campaign to realize the building, is to preside as master of ceremonies. Judge Thompson is to deliver the principal address under invitation from the department at Washington. His appointment as Farley's representative was made through suggestion of Congressman George H. Mahon.

WHITE CHURCH REVIVAL TO BEGIN FRIDAY NIGHT

EVERY LOYAL TEXAN GIVEN CHERISHED HERITAGE THROUGH TRADITIONS OF HIS STATE

Abilene College Dean Speaks At Lions Club Friday On Texas Centennial

"Texas—99 Years Ago and Today," was the subject about which Dean G. C. Boswell of McMurry College, Abilene, delivered an inspirational patriotic address at the Lions Club Friday. The speaker made reference to the approaching Centennial celebration, urging Colorado Lions to entertain with deep appreciation the traditions that they may hold due to residence in the Lone Star state.

"Every loyal Texan appreciates the cherished heritage that has come to him by reason of being a citizen of this great commonwealth and this inspiration will ever beckon for a greater and more universal expression of patriotism among them," Dean Boswell declared.

The guest speaker was introduced by John E. Watson, chairman of the July program committee. Of the sixty three Lions present it developed that 42 of them were native Texans. Oscar Bowman of Lorraine and M. A. Withers of Fort Worth were other guests to be presented.

In the absence of President B. L. Templeton, who was attending sessions of Lions International convention in Mexico, W. W. Whipkey, a vice president, occupied the chair. A telegram from Templeton, written in Spanish, was delivered during the meeting.

Roy Davis Coles, Roy E. Warren and James Herrington were announced as program committee for August.

WPA Rolls To Give 140,000 Eligibles On Work Projects

AUSTIN.—There are approximately 140,000 employable Texans on the relief rolls eligible for employment on Works Progress Administration projects, it has been revealed by the Texas Relief Commission.

Of these, 115,000 are men and 25,000 are women.

The job of transferring these from the Emergency Relief Administration rolls to the WPA rolls where they are expected soon to obtain work on projects created through the \$4,800,000,000 works funds, \$50,000,000 of which has already been allotted to Texas, is now in full swing in the county administrators' offices throughout the state, Mrs. Val M. Keating, social service director, has announced.

Twenty district supervisors are in the field assisting county administrators in certifying the employables and coordinating the transfers.

Certification of employables to the WPA rolls is expected to be completed in about a week, giving a pool of 140,000 persons for the WPA to draw from for its projects.

A person eligible for employment on WPA projects is defined as one capable of working who is now on the relief rolls and is registered with the United States Employment Service.

Mrs. Keating has directed the 20 supervisors to cooperate with the county administrators in certifying the employables and making prompt transfers.

 been given places on the speaking program. Tribute will be paid to civic leaders who in other years worked faithfully in support of Colorado's claim that the building should be erected.

Date for occupancy of the building is held in abeyance pending arrival and installation of furniture and office equipment. The postmaster stated Thursday that all of this equipment had been purchased by the government, a part of which has been received.

The building is one of the most modern and attractive in this part of West Texas. The general public is invited to attend the dedicatory rites and inspect their new post office.

STATE TAX RATE SLICED AS BOARD IS CONVENED

The state automatic tax board Saturday reduced the total state tax from 77c to 62c on the \$100 valuation.

The 15c reduction is entirely in the levy for the state school support. The items in the levy are: for available school funds, 20c; Confederate pensions, 7c; for state general revenue, 35c.

The last two are the maximums permitted under the state constitution.

With the maximum tax levied for the general revenue fund, it was estimated that the state will have a deficit of \$12,000,000 on August 31, 1936.

MISS SEALEY AND GIRLS HERE
 Miss Irma Sealey, home demonstration agent of El Paso county and formerly of Mitchell county, was through here Friday night enroute to the A. & M. Short course with two of her prize-winning 4-H club girls, one of whom was Betty Smith, granddaughter of Mrs. Clara Smith. The two girls spent the night with Mrs. Smith and Miss Sealey was the guest of Mrs. Harry Ragan.

New Conoco Agent Has Been With Co. For Several Years

Sam G. Gourley, who Thursday of last week was checked in as wholesale agency dealer for the Continental Oil Company for this territory, has been associated with the company several years. During the time he has held various positions, including district superintendent.

Mr. and Mrs. Gourley and their son, Donnie, 5, have moved to Colorado from their former home in Midland and are living at 544 East Thirtieth street. They attend the Christian church. He has been a Mason for several years.

Before going with Continental Gourley traveled the Kansas City territory several years for the Cuddeback Packing Company.

**Bulk Of Deposits
 In Receiver Banks
 Reported Not Paid**

WASHINGTON, D. C.—More than half the deposits in six thousand banks in receivership in the United States remained unpaid on December 31, 1934, it is disclosed by the Federal Deposit Insurance Corporation as the result of a recently completed survey of bank liquidations. Total deposits tied up with the failure of 6,352 banks for which figures were available were more than 4.7 billion dollars, of which fifty-one per cent was still not realized to depositors at the year-end. Almost all the banks had been closed for at least a year, many of them for much longer periods, the report revealed. Included in the figures are nine closed insured banks, all of which suspended during the last six months of 1934. Records of the F. D. I. C.

show that practically every depositor of these banks had received full payment of his claim by December 31st. The survey of receiverships was made with the cooperation of the State banking commissioners throughout the country and the office of the Comptroller of the Currency. Briefly summarized, it was as follows: Banks in Receivership on December 31, 1934, 6,352 (1,551 National—4,801 State); Aggregate Deposits at date of closing, \$4,739 million (1,882 million National—\$2,857 million State); Amount of Deposits Unpaid on December 31, 1934, \$2,396 million (\$874 million National—\$1,522 million State).

County, City, School, Other
 Officials Are Called To
 Meet In Colorado

Feasibility of organizing a planning board to represent Mitchell county in projects of the WPA is to be studied at conference of city, county, school and other officials at the chamber of commerce Saturday afternoon at 3 o'clock.

Call for the meeting was issued Thursday morning by J. H. Greene, administrator for the county WPA unit. The day before Greene was advised by Robert Hoppe and Hugh Henning, divisional engineers at Abilene, that such a board would be advisable.

The county judge, county commissioners, city officials at Colorado, Lorraine and Westbrook, and executives of the chamber of commerce, Lions Club and Business & Professional Women's club are especially urged to attend the conference, Greene stated.

**"NEW ADVENTURES OF
 TARZAN"**

Palace—August 2-3
 In this new Tarzan, the apeman hero, with a new famous athlete assuming the title role, transfer his thrilling and amazing activities from the jungles of Africa to those of the lost cities of Guatemala. Essentially a juvenile feature, produced in a manner to create the greatest amount of enthusiasm among that audience contingent, it is from a pictorial standpoint in its picturizations of the country's natural beauties and age old ruins, something that can be made interesting to adults.

This is a thrill-a-minute feature and is the beginning of a twelve chapter serial. Spectacular and authentic, the picture having been made in Guatemala, it has a commercial worth that should not be ignored in stimulating adult attention.

"GO INTO YOUR DANCE"
 Saturday Midnite Matinee
 Sunday—August 3-4-5
 Palace Theatre

Delightful entertainment for the Jolson-Keeler fans, elaborately produced and spotted with nifty melodies. Story is written around the show business, Jolson being tagged as an unreliable artist barred from Broadway by the big producers. Teamed with Ruby Keeler, he makes a comeback with his own show on Broadway, financed by a racketeer with the provision that his wife (Helen Morgan) is spotted in the show. Believing he has been double-crossed the racketeer sends a couple of thugs to plug Jolson and then, finding out that Jolson was on the level, tries to call off the shooting. His wife, jealous of Keeler, lets the shooting happen, but Keeler is the victim instead of Jolson. All ends well at the fade-out.

"VAGABOND LADY"
 Palace—August 6-7

Hal Roach production for M-G-M release. Made for laughing purposes and should accomplish its aim plus thoroughly entertaining the ticket buyers. Plot is woven around a department store head with a poise and dignity complex, a son, patterned after him, and another son given to enjoying life to the exclusion of staid decorum. Object of their affections is a secretary unable to decide upon the proper mate. The younger carefree brother finally reaches the altar, halts the wedding of the elder by selling him on the idea of the girl's impossible sense of dignity, and grabs her off for himself. Poignantly human, packed with romance and laughter, garnished with snappy dialogue, and smartly directed by Sam Taylor.

"GIRL FROM 10TH AVENUE"
 Thursday—August 8

A splendid performance by Bette Davis, capably aided by Ian Hunter and a stimulating scenario make this good entertainment. Director Alfred E. Green has done much to make it an appealing film. Story is built around the downtown shop girl who marries the uptown society lad and their resultant social problems. Having saved Ian Hunter from possible serious consequences as a result of his being turned by Katherine Alexander, Miss Davis suddenly finds herself married to Hunter. Before long, Miss Davis realizes she is about to lose him to his former flame and in a stirring battle to regain his affections she proves her worthiness for his heart. Supporting cast is particularly good and camera work is fine.

"COLLEGE SCANDAL"
 Ritz—August 4-5

Well-knit mystery yarn with a college campus background. Good story motivation with suspense well-sustained by powerful characterization and intelligent direction. A prep school hazing results in the death of a boy whose mother, demented by the loss, sets out to murder three friends of the youth whom she considers responsible. Two are craftily put out of the way and the third almost accomplished when Arline Judge, a student and amateur detective, stumbles upon a clue which brings about the

CHURCHES

FIRST BAPTIST CHURCH
 We are in one of the best revival meetings it has been our privilege to experience in a long time, here at Union church, five miles west of Snyder. This is a large rural community where all community life centers around the churches. There are two churches, Methodist and Baptist, and fine spirit of fellowship. Large congregations are attending both day and night services. Last night (Tuesday) there were 128 in the group prayer meetings. There have been several conversions and additions to the church and the interest seems to be growing.

Rev. Forest Huffman will preach at our church next Sunday morning. We are almost prepared to guarantee that he will please the congregation as well as Brother Fuquay did, and if he does all will be satisfied.

On request of a number of the members we will have an evening service, giving the membership an opportunity to visit other churches. I am sure many will desire to attend the Christian meeting. We will preach at Looney next week, and hope to have a number attend from Colorado.

DICK O'BRIEN, Pastor.

**CCC ELIGIBLES SHOULD
 FILE NAMES AT RELIEF
 OFFICE DURING AUGUST**

AUSTIN.—Young men throughout Texas eligible for Civilian Conservation Corps enlistment have been advised by State Enrollment Supervisor Neal E. Guy to make themselves known to their county administrators if they are interested in being among the 16,000 to be enrolled by August 31.

Guy advised county administrators of their quotas and asked that they examine their relief rolls for probable enrollees, with the possibility that quotas will be increased when administrators show enough CCC candidates to warrant.

An eligible candidate is any single man between 18 and 28 whose family is on the relief rolls.

While administrators were asked to search their rolls for probable enrollees, Guy suggested that the young men themselves notify their administrator if they are eager to enroll in the CCC.

Approximately 16,000 Texans are to be enrolled by August 31, with about 10,000 expected to be sent to out-of-state camps, Guy said. Out-of-state assignments are made because Texas camps already have their quotas, while camps in some of the other states have not, he explained.

Enrollment will be made at intervals during the next month, and enrollment instructions have already been issued to the first allotment of 3224.

**BOYS INTERESTED IN
 COLLEGE TO HEAR NEW
 'GROUP' PLAN MONDAY**

Explanation of a new plan by which boys may attend A. & M. college next year with very little or no expenditure will be the purpose of a meeting of all interested Mitchell county boys at Colorado High school next Monday evening at 8:15.

The new plan will be explained by Doyle Williams, head of the vocational agriculture department of Colorado High school. Under its provisions, a group of ten boys may live together in one of the project houses at the college, sharing expenses and thereby cutting costs. The college plans to provide members of such groups with enough work to pay all expenses.

RECEPTION HONORING MRS. WEST

On Thursday afternoon, July 18, a reception was given in the home of Mrs. J. L. Johnson honoring one of Lorainine's recent brides, Mrs. Arnton West, nee Miss Emma Kate Spurgur.

As the guests arrived Mrs. Woodrow Pratt and Miss Edith Wilkerson served delicious punch. Miss Nell Mewshaw presided over the Bride's Book in which all names and gifts were registered. They were then ushered into the living room and an interesting program given by Mrs. West's former pupils.

Tap dance, Wanda Mae Smith; reading, Gypsy Ted McCollum; solo, Gloria Martin; reading, Mary Love Walker; dance, Maxine and Patricia Hooker; reading, Ronel Thomas. Mrs. W. R. Martin was at the piano. After the program the hostess invited guests to the "West" room where she presented the bride a great number of beautiful and useful gifts placed there by Mr. and Mrs. West's friends. More than a hundred attended this shower and hearty good wishes will ever follow this popular young couple.

DIED FRIDAY

Kenneth Wayne, small son of Mr. and Mrs. W. M. Montgomery, passed away at the home here Friday about noon following several days sickness.

He was born April 17, 1933 and died July 26, 1935. Funeral services were held at the home Saturday at 2 p. m. and were conducted by Rev. A. C. Hardin. Interment was made in the Lorainine cemetery.

Funeral arrangements were in charge of the local undertaker.

TWO WEEK REVIVAL TO CLOSE SUNDAY

The Methodist revival meeting in progress here for the past 10 days will close Sunday. The services conducted by Rev. W. M. Murrell of Abilene have been well attended considering unusually warm weather and busy times following the recent rains.

Visiting ministers who have been present were: Rev. Cal C. Wright of Colorado; Rev. W. M. Beavers and Rev. Elmer Crabtree of Sweetwater. A special service for elderly people was held Wednesday. There has been seven conversions to date.

COTTON PRODUCTION TO BE LARGE IN TEXAS, ESTIMATE ON CROP CONDITIONS SAYS

Yield In Oklahoma, Too, Is Promising; Harvest Will Open Early In West

West Texas cotton producers, with special reference to those within this immediate part of the State, along with their neighbors over the Lone Star commonwealth and in Oklahoma are planning on a rich harvest of cotton this fall, but face a situation of pest infestation which may become acute due to a low supply of poison, information given The Record this week by a governmental agency at Austin outlines.

Estimates on total crop production in the two states are unavailable, but it was believed that with good weather and a vigorous war on insects, the crop quality would be improved considerably over that of last year and production figures would pass those of 1934.

On July 1, Texas cotton acreage was estimated at 11,357,000 acres, a five per cent increase over last year. Practically all sections of the state registered some increase in acreage, with parts of the Panhandle which were kept out of production last year now under cultivation.

Although ginning has not begun in Oklahoma and other sections of Texas, South Texas, the Gulf coast counties and the Rio Grande valley are busy baling cotton. In Willacy county in the Rio Grande valley, 1,500 bales have been ginned.

The average price was reported June 15 as 11.5 cents.

Dr. F. L. Thomas, Texas state entomologist, reports that pest infestation is on the increase, aided by the heavy spring rains.

Leafworm invasion has been felt in the southern half of the state and the insect is migrating to the central portion, Dr. Thomas says.

Unless a larger supply of poison becomes available, the leafworm situation will become acute, the entomologist believes.

The boll weevil, long the farmer's enemy, is also doing considerable damage over various portions of Texas and Oklahoma.

The Oklahoma crop, hindered in some sections by the hard spring rains, was reported about three weeks late.

Gross production in Texas last year amounted to 2,466,000 bales, about a million bales under the tax-free Bankhead act allotment. This year the allotment is for 3,400,000 bales, an increase over last year of almost 200,000 bales.

Whether Texas producers can reach anywhere near the allotted figure depends upon the weather and the insects.

Roundup Program For Annual Ranch Parley Announced

Scheduled discussion of important ranch problems and pleasing entertainment features give the coming Ranchmen's Round, August 6 and 7, at Experiment Station 14 between Sonora and Rocksprings an interesting flavor. W. H. Dameron, superintendent of the station, released the tentative program this week-end. Ranchmen, bankers, educators, members of the station staff and others will participate in the program.

Mr. Dameron feels that the following men and the subjects they will discuss will be especially interesting:

"Blow Fly Control," Dr. F. C. Bishopp, chief, Division of Entomology, U. S. Department of Agriculture, Washington, and Roger Gillis, Del Rio ranchman.

"Contagious and Parasitic Diseases of Sheep," Dr. I. B. Boughton, veterinarian, of the Station staff.

ments for Livestock," Dr. H. Schmidt, acting chief, Division of Veterinary Science, Texas Agricultural Experiment Station, College Station, and Dr. W. T. Hardy, veterinarian of the Station staff.

These talks, according to Mr. Dameron, will throw light on plans for control of blowflies, symptoms to look for and procedure to follow in diagnosing contagious and parasitic sheep diseases, the ailments of livestock when minerals and vitamins are not present in sufficient quantities in their feed and the benefits to be derived from proper range management to retain moisture and grass cover.

A free barbecue will be served both noons with the following ranchmen in charge: W. R. Cusenbary, Sonora; Tom Hampton, Rocksprings; S. S. Bundy, Roosevelt; T. A. Kincaid, Jr., Ozona; Russell Martin, Del Rio.

The dance the night of Aug. 6 is in charge of B. M. Halbert, Jr., and H. V. Stokes, both of Sonora.

Swimming may be done by those who care to indulge in that sport. Educational motion pictures will be shown both nights by O. G. Babcock, entomologist of the U. S. Department of Agriculture, co-operating with the Ranch Experiment Station.

Camping facilities are to be supplied those who accept the Station's invitation to come and remain the two days. Camping equipment must be brought as well as food for the morning and evening meals. For those who do not care to do their own cooking short order restaurant service will be offered.

Among those on the tentative program arranged by Mr. Dameron—other than those mentioned before—are:

A. B. Conner, director, Texas Agricultural Experiment Station, College Station.

Claude B. Hudspeth, ranchman, Comstock.

"Commercial Sheep Feeding," J. M. Jones, chief, Division of Range Animal Husbandry, Texas Agricultural Experiment Station, College Station.

Another advantage in smoking a pipe is that you needn't offer one to everybody in the group.

"Commercial Cattle Feeding," John H. Jones, animal husbandman, Texas Agricultural Experiment Station, College Station.

"Inheritance of Characteristics in Animal Breeding," Dr. B. L. Warwick, breeding investigator, Texas Agricultural Experiment Station, College Station.

Miss Bess Edwards, Texas Extension Service, College Station.

"Poisonous Plants," Dr. F. T. Matthews, Loco Weed Laboratory, Alpine.

Discussion: Captain Bailey, county agent, Pecos County, Fort Stockton.

"The Relationship of Money to Ranching," Judge Louis J. Wardlaw, Fort Worth.

"Range Management," Henry T. Fietcher, ranchman, Alpine.

"Maintaining Desirable Vegetation on the Range," V. L. Cory, range botanist, Ranch Experiment Station, Sonora.

RETURNS FROM AUSTIN
L. J. Taylor, in charge of the radio department at J. Biordan Company, returned Saturday from Austin where during the two weeks before he attended a school of radio engineering at the University of Texas.

OPENING DATE
AUSTIN.—The 1935-36 long session at the University of Texas will open September 19. Registration for the fifty-third annual regular session of that institution will start Thursday and Friday, September 19 and 20. Classes will begin Saturday, September 21. Entrance examinations will be held for new students beginning September 12, with September 16 being given over to condition, advanced standing and postponed examinations. Convocations to orientate freshmen will be held September 18.

BUSINESS INCREASE
AUSTIN.—Reports from 93 department and specialty stores in Texas indicate an average increase in dollar sales during June of 4.4 per cent over June a year ago but a decline of 12.1 per cent from the previous month, according to the University of Texas Bureau of Business Research. The average decline is 14.5 per cent.

"Sales during the first six months of the year averaged 3.5 per cent above those of the corresponding period last year," the Bureau's report said.

"The different types of stores varied considerably in relation to the two comparable periods. Men's clothing stores made the best showing followed in order by women's specialty shops, large department stores and dry goods-apparel stores.

"Cities in which sales for June and the first six months show more than the average increase over the corresponding periods last year are: Austin, Dallas, El Paso, San Antonio, Temple, and Tyler."

Million Dollar Hall of State Is Feature of Centennial Exposition

Central unit of the Texas Centennial Exposition, the Texas State Building, will cost \$1,200,000. Designed by a committee of Texas architects, the building will be massive structure of Texas limestone with a frontal width of 488 feet, a depth of 258 feet and 80 feet high at its center, where the Niche of Heroes will be located. The two front wings will be occupied by regional rooms, devoted to the four geographical divisions of the state—East, West, North, and South, while at the extreme ends will be the Halls of 1836 and 1936.

Forming a third wing, extending to the rear from the Niche of Heroes, will be the Great Hall of Texas. This hall will be a large room with six semi-circular bays in which will be displayed

flags of the six governments that have ruled Texas. At one end silhouetted against stained-glass windows, will be a heroic statue symbolic of Texas. On the floor will be outlined a map of Texas with bronze markers showing historic places and old pioneer trails. Murals will decorate the bays and walls of the regional rooms. Below the great hall will be an auditorium.

The walls of the Niche of Heroes, behind its columns, will bear in relief heroic figures of the major heroes of Texas, while under the windows in the side colonnades will be placed smaller figures of other historic Texas characters.

The interior of the Hall of 1836 will be a replica of a Texas mission, while that of the Hall of 1936 will be modern.

COLORADO SWIMMERS GET THIRD PLACE IN MEET AT SWEETWATER

Tying with Abilene, Colorado entrants in swimming events at the Sweetwater Water Carnival last Thursday won third place with a total of 51 points.

As tabulated in the Sweetwater Reporter, places won by Colorado entrants were as follows:

Harvey Hicks, second place in sub-junior "seven point" events; Joe Cooper, second in junior seven point events; Louis Bodzin, first in sub-junior breast stroke; J. C. Garrett, third in junior breast stroke; Russell Soper, third in senior breast stroke division;

Harvey Hicks, first in sub-junior back stroke; Wendell Duncan, first in sub-junior free style; Joe Cooper, first in junior free style; J. C. Garrett, fourth in junior individual medley; Tommy Ratliff, third in sub-junior diving; Earnest Burdine, third in junior diving; Carl Chambers, first in senior diving.

Colorado's sub-junior relay team won first place by default. The junior relay team placed third.

Jack Hicks and Gayland Hubbard were swimming event sponsors from Colorado.

QUALIFYING SCORES FOR CITY GOLF TOURNAMENT TO BE IN BY SATURDAY

Qualifying matches for the annual city golf tournament are being played at the Colorado Country club this week. All qualifying scores are to be turned in at the clubhouse by Saturday night.

All golfers in Colorado are eligible to play in the tournament, according to Jake Merritt, president of the country club. An entrance fee of \$1 is to be charged. There will be no greens fees attached.

Matches of the tournament will be played off during next week, beginning Sunday. Prizes are to be given in all flights and for consolation.

Forty city golfers played in the tournament last year and about that many are expected to enter this year.

LOCAL MAIL CARRIERS ATTENDED MEETING IN SAN ANGELO LAST WEEK

E. E. Smith and John Williams, rural mail carriers out of Colorado, were in San Angelo Thursday, Friday and Saturday of last week attending sessions of the Texas Rural Letters Carriers association, one of six postal organizations meeting there simultaneously in annual convention.

Smith was re-elected second vice-president of the association. It is to meet next year in San Antonio. About 200 delegates were registered for this association's sessions, with about 1,000 postal employees attending all six of the units.

Mrs. Smith, who is active in the auxiliary to the letter carriers' association, accompanied Mr. Smith to the convention. Mrs. Williams went down on Saturday to join Mr. Williams for closing sessions.

RED BUGS AND POISON OAK

Want to know how to protect yourself against red bugs and poison oak? Here are some timely suggestions from The Progressive Farmer:

"About redbugs a friend tells us that a sure and easy remedy for them is oil of cloves rubbed on the ankles or shins before exposure. 'Get it fresh every year,' he adds. Another says that they may be controlled by dusting sulphur in one's socks, stockings, or shoes before going into woods or other places infested with this insect.

SIR MALCOLM CAMPBELL RETURNING FOR NEW LAURELS

ABOVE—Sir Malcolm Campbell's Blue Bird at speed on Daytona Beach, Fla., last February.

RIGHT—Sir Malcolm Campbell standing beside the Hudson Sedan with which he set a number of stock car records at Daytona Beach, Fla.

Will Drive Blue Bird on Salt Beds of Utah in Attempt to Make 300 Miles per Hour. May also Drive Hudson to Set New Stock Car Record

Sir Malcolm Campbell, British speed king and holder of the present flying mile record of 276.82 miles per hour made at Daytona Beach, Fla., last February is coming back. His determination to push the speed record up to 300 miles an hour is unshakable and he believes that on the faster and smoother sections of the saltbeds at Salinas, Utah, he has a better chance of doing it.

It is very likely also that Sir Malcolm will drive a stock car. He has been asked to run a stock car race again. His record in a Hudson sedan for his stock car runs last February gave him several coveted medals. These have been bettered by another Hudson at Muroc Lake, Cal., which established a 20 AAA record last April, piloted by Babe Stupp, Wilbur Shaw and Al Gordon, all well known Indianapolis Stockcar stars.

Lou Ambers, who lost a lightweight title fight to Tony Canzoneri last spring, suffered a fractured jaw in a fight with Eddie Zivic in Pittsburgh when he got hit while trying to adjust his mouth-piece.

Each automobile license plate issued in Belgrade, Yugo-Slavia, has a large blank portion on which the motorist's traffic offenses are denoted with a large X. Five X's automatically cancel the license.

Al Simmons, White Sox outfielder, learned of his selection as an American league all-star game player the same day Manager Jimmy Dykes benched him for non-hitting.

Miss Vivian Lambelet, youngest of London's women composers, dons gray flannel trousers and smokes a black cigar to get the proper spirit to compose.

An electric light bulb in the hallway between the stage and dressing rooms of the Palace Theater, Fort Worth, Tex., has burned continuously, day and night for 26 years.

Demonstrates Newest Game

MISS FLORA JACK, of Darby, Pa., demonstrates the latest indoor game—dart baseball. The board is divided into squares and triangles painted in contrasting colors and each marked "single," "two-base hit," "strike," "ball," "foul play," "base on balls," etc. A small square in the center represents a home run. The player throws a dart and is scored according to the space in which it sticks. He keeps his position until he either strikes out or gets on base. A man on base is indicated by placing a dart in the base position.

Any number of persons can play on each team. The game-board, which is four feet square, is easily made of a piece of wood-fiber insulation board. All that is necessary is to give it several coats of filler and then paint in the spaces and the lettering, though it is advisable to frame the edges with a wood moulding. Darts can be purchased at almost any toy store. In the East where dart baseball has become popular, teams have been organized by Sunday schools, American Legion posts and other organizations.

CHARLES EDWIN ROOT SEVERELY ILL MONDAY

The experience of fighting a few hours desperate battle for the life of his own son came to Dr. C. L. Root Monday after Charles Edwin Root, who has been attending summer school at A. C. C., arrived home at 4:30 Monday morning severely ill. Diagnosis of his trouble was impossible for about eight hours. Hearing of his critical condition, Dr. Stewart Cooper and Dr. Hedrick of Abilene and Dr. Chapman of Sweetwater, all close friends of Dr. Root, came unbidden to be of assistance. An operation was contemplated for some time, but the illness was finally diagnosed as food poisoning. With Charles Edwin out of danger, although still at the hospital Thursday morning, Dr. Root laughingly described his illness as resulting from "too many brown beans and watermelon, mixed up with too many cold drinks."

LOCAL HONEY FOUND TO BE HELP FOR HAY FEVER

Another hay fever remedy has come to light—one that has appreciably helped at least one Mitchell county hay fever victim. Mrs. Claude Hooks of near Colorado, who has suffered severely from the ailment during summer months for several years, is said to have found considerable help from eating quantities of local honey regularly. Emphasis is placed on the honey's being of local origin, since such honey would be most likely to contain the pollen of the particular flower affecting hay fever sufferers in this section.

FENCING MAY BE FINANCED UNDER FHA

"Fences are housing," says the FHA. Fences are included among the permanent improvements which may be financed under the FHA law. Though it seems queer on first glance to consider fences as housing, agricultural engineers always have included fences under "farm structures." And as a rule there is no farm improvement which will pay out on the investment so fast as well-planned, well-built fences. "Good fences and profitable farming seem to go together," says the current issue of The Progressive Farmer, and adds: "Fence condition generally is a barometer of farm profit or loss, either for a single farm in a neighborhood or for agriculture throughout the country. "With or without recourse to the FHA, now is a good time to get the farm well fenced. We are definitely pulling out of the depression. That means a period of advancing wages, and wages sooner or later show up in prices. Probably fence materials can be bought cheaper now than a year or several years hence."

Officers To Be Chosen By Legion Auxiliary

Annual election of officers is to take place at the meeting of the American Legion auxiliary on Friday night of next week. Mrs. J. G. Merritt, president, has appointed the following nominating committee to report at the meeting: Mrs. J. A. Ferguson, Miss Mabel Smith, and Mrs. Rosecoe Dobbs. Delegates to the state convention in Dallas on September 1 are also to be chosen during this meeting.

R. V. HYATT ILL

An article in the Midland Daily Reporter-Telegram for Tuesday read: "R. V. Hyatt, prominent Midland insurance man, was removed to a hospital today suffering from a heart attack. At press time his condition was reported as still critical." No further report as to Mr. Hyatt's condition could be secured Thursday morning. He moved from here to Midland several months ago, after selling his interest in the Colorado Insurance agency.

ON A FARM

There's work on a farm from dawn till night. Work by sun and candle-light. But there's health on a farm and gladness, too. And a pride no city folk ever knew.

A pride in seeing the seed you sow Wake and rise and lift and grow; A pride in being, when harvest's done, An equal partner with rain and sun—

A partner with God Himself. What pay

To transcend that can they hope for —they

Who are caught in the city and only see

In dreams the farms where they long to be?

There's work on a farm. But I'm glad, aren't you,

That I'm out on a farm where there's work to do?

Oh, cities and streets for those who choose,

But give me the sun and the earth to use!

ROOSEVELT INTERESTED IN RURAL ELECTRIFICATION

"President Roosevelt is one of the greatest rural electrification enthusiasts," says Morris L. Cooke, new Rural Electrification Chief, in the July Progressive Farmer. "As a farmer he is tremendously interested in the welfare of the rural people, and he has often stressed the necessity for giving the country people those advantages now found in the cities. He has aided in building better roads, in improving rural schools, and in raising the level of prices which the farmer obtains for his products. Now he is intent on bringing electricity to the farm. In the President's opinion elec-

tricity can relieve the drudgery of the housewife and lift a great burden off the shoulders of the hard-working farmer'. Fifty million Americans are directly concerned with the future of agriculture. What affects them affects the whole nation, and in this program of rural electrification, the President and the Rural Electrification Administration see an opportunity to bring substantial help not alone to the farmers but to the nation as a whole."

Place Your Child In Condition For Opening of School

Now is the time that every parent in Mitchell county should ask himself if his child is physically ready to enter school in September. Dr. John W. Brown, of Austin, State health officer, suggests in statement received by The Record Monday. A visit to the family physician and dentist will answer this question and give time for the correction of minor defects before school opens.

Dealing further with this question, Dr. Brown says:

A child with defective vision cannot be expected to do the required work in school until this handicap is removed. Inflamed, watery eyes, granulated lids, chronic styes, nervous actions as habitual winking, may be caused by defective vision and should be attended to immediately.

The far reaching effect of infected tonsils on the system has been recognized by health workers for many years. Many of the ills of later life, as heart disease, arthritis, deafness, etc., are directly traceable to tonsils that became infected during childhood and were allowed to remain untreated.

Dental defects are found in more children than any other imperfection, and for this reason children should be taken regularly to the dentist for examination and cleaning of the teeth. This precaution keeps the mouth clean and makes it possible to discover dental defects as soon as they appear.

Postural defects appear in the life of a child much sooner than we formerly suspected. Have your family physician see if your child's shoulder blades project and if his arches are low. Simple exercises, diligently adhered to, when the child is young, will prevent later serious developments in many cases.

NINE-PASSENGER CAR

That's what a 1935 Hudson or Terraplane Sedan can be if you wish to use the trunk space like this! There's room for six in those two wide "Three-Passenger Seats" inside—and the picture shows you that there's room for three more in the trunk.

This new method of packing Hudsons and Terraplanes has a number of advantages in the industry from Buffalo, where three executive members of the office staff of the local Hudson distributor made the demonstration.

The statement has been made and proved... that there is room for five large farm milk cans... or a regular steamer trunk, in the capacious trunk. But here's real human proof!

HOST LODGES READY FOR IOOF, REBEKAH GATHERING

ANNUAL CONCLAVE SET TO OPEN NEXT WEDNESDAY IN BAPTIST CHURCH BUILDING

Men And Women Prominent In Fraternities Will Have Place On Program

"We are ready for entertaining annual convention of the West Texas Odd Fellow and Rebekah association, and indications now suggest one of the most interesting of these gatherings in history of the organization."

That is the expression being used by leaders in the two host lodges as they are bringing to a close final details for the 34th annual convention, to open at First Baptist church auditorium Wednesday morning at 9:30 o'clock. Over 200 delegates are expected to be registered.

A program of strong educational and entertainment bearing, mingled with impressive religious hue, has been outlined for the two days and one night, including musical selections, addresses and other features by prominent West Texans. The convention will be formally welcomed to Colorado by Mayor J. A. Sadler and J. P. Majors of Sweetwater, a former Coloradoan and prominent in lodge circles, is to respond.

All of the convention assembly sessions are to be held at the church auditorium. The Wednesday morning session will be devoted largely to social features, including official pre-

Women's Rural Clubs Plan Educational And Inspirational Programs For August

Educational, inspirational, and recreational meetings are to be featured by Mitchell county home demonstration clubs during August, according to Miss Emma Gunter, county home demonstration agent.

Book reviews are to be given at each club's first meeting of the month. Books to be reviewed include "Giants in the Earth," "The Babylon," "Shadows on the Rocks," "Death Comes for the Archbishop," and "Daughter of the Samurai." Club programs will also include in-

spirational reports by delegates who attended the A. & M. Short Course. Three clubs, Bauman, Lone Star, and Plainview, are to have picnics during the month.

Following is the calendar to be observed by clubs during the first week in August:
August 6, Lone Star club at Mrs. Gay Taylor's; August 7, Plainview club at Mrs. R. B. Aycock's; August 8, Looney club at Mrs. M. A. Webb's; August 9, Fairview club at Mrs. John McGuire's.

LONE STAR GAS COMPANY TO CENTER AREA DISTRICT HEADQUARTERS IN ABILENE

New Unit Serving Much of West Texas Is Opened August First

Colorado and scores of other West Texas communities served by the Community Natural Gas Company Thursday passed to jurisdiction of a new district with headquarters in Abilene and M. L. Bird, formerly of Dallas, in charge. Heretofore divisional offices have been maintained in Sweetwater.

Many changes were made throughout the territory as the new unit was swung into being. Divisional Manager Gray of Sweetwater becomes local manager there. M. O. Chapman is to continue as district manager at Colorado, in so far as information received by The Record would indicate.

The announcement was made in Dallas Monday by Chester L. May, vice-president and general manager of the Community Natural Gas company, which emerges under a sweeping realignment as the principal distributor. May's announcement said a large new division had been created for the Community, covering all operations in West Texas and southern Oklahoma, and that Abilene had been selected as headquarters. It will be Division No. 1.

The new division office will supervise gas operations in 67 towns. The territory will extend from the east line of Eastland county westward to the west line of Mitchell county, and from the south line of Brown county to Red river and into Oklahoma. Principal Texas towns—besides Colorado—in the division are Eastland, Cisco, Putnam, Baird, Merkel, Trent, Sweetwater, Abilene, Brownwood, Ballinger, Winters; points north and west in the present territory of the Stamford & Western Gas Co., including Anson, Stamford, Haskell, Seymour, Roby and Rotan; Community Co. points northwest including Snyder, Hamlin and Rule; and Municipal Gas Co. properties including Wichita Falls, Iowa Park, Electra and Vernon.

Three other divisions were similarly created for East, North and South Texas—headquarters being, respectively, at Corsicana, Sherman and Waco.

Creation of the new division was brought about by combining under one management three chief distribution units of the Lone Star system. These are the Community Natural, Texas Cities and Municipal Gas companies. Following the recent death of James B. McCabe of Wichita Falls, who was president and general manager of the Municipal Gas company which serves 20 Texas towns, that company has been placed in the Community Gas Co. under Chester L. May's management. The reorganization brings under his direction the most extensive natural gas distribution system in the United States. The Community was organized in 1925 and now serves more than 250 towns in Texas and southern Oklahoma.

Growing Interest Suggesting Large Vote At Election

Growing interest in the proposed amendments to the constitution, to be voted upon Saturday, August 24, indicates that a heavy vote will be polled, according to local observers. The prohibition referendum and some of the other issues to be settled at the ballot box are holding strong attention just now.

Both wets and dries are organized to push campaign in support of their respective objectives. In Colorado and other communities of Mitchell county the dry forces are being centered about the church with ministers and other religious leaders advocating a death knell to the liquor traffic.

CONGRESS TO CONCLUDE SESSION SOON, IS REPORT

Congress is nearing the date for formal closing of the session, according to information received by this newspaper Monday from Washington. Much of the "must" legislation demanded by the president has been given attention and leaders in the House and Senate were moving to bring deliberations to a close.

The Wednesday afternoon session will be called to order at 1:30 and routine associational work will be taken up. A barbecue for all convention delegates will be served at Ruddick Park at 6 o'clock, to be followed by the annual memorial service at the church auditorium at 7:30, with the Sweetwater Rebekah lodge directing.

Work in the Initory and Rebekah degrees is scheduled to open at 8:30 Wednesday evening, with the Odd Fellows meeting in IOOF hall and the Rebekahs at the WOW hall. Routine convention business will demand much of the Thursday morning and afternoon sessions, the afternoon and final assembly being concluded in installation of officers and selection of the next meeting place.

BERRY NO. ONE, SHALLOW TEST IN FAIRVIEW AREA TO HOLD LOCAL INTEREST

Coloradoans Expect To Find Commercial Production At 1,700 Foot Level

The W. C. Berry No. 1 of Geddis, Drake et al, on location 330 feet from north line and 2320 feet from west line of section 80, block 17, H & T C Ry. Co. survey, was spudded Wednesday under contract to drill eighteen hundred feet. The test was promoted by E. L. Latham and R. T. Dockrey of Colorado. H. L. Lockhart, for several years identified with oil development in Texas, is another Coloradoan to be interested in the test.

Contract for drilling the well was given the Moran Drilling Company of Big Spring. Latham and Dockrey stated Tuesday afternoon that several wells drilled in that area had penetrated a shallow oil strata of around 1,700 feet. Logs of the wells strongly suggest that acid treatment would have made commercial producers had this method of boosting oil flow been known at the time. The well is one half mile north of the W. C. Berry farm home, in Fairview community.

The test will be watched with considerable interest among local oil men who for some time have entertained the opinion that commercial production could be developed from the 1,700-foot sand through acid treatment.

TWO FERA TEACHERS OF ADULT CLASSES LEAVING FOR TRAINING COURSES

Mrs. Percy Bond who teaches the Mexican adult education class under the FERA set-up, and Ethel Seals, who teaches the negro class, are leaving this week for schools in different parts of the state to attend training courses for adult education teachers from August 2 through August 30.

Mrs. Bond leaves today (Thursday) for the training school at Texas Tech, Lubbock, where about 500 adult education teachers are to be enrolled. Training courses are also to be held at the University of Texas and at North Texas State Teachers college, Denton.

Ethel Seals left Wednesday night to attend the course at the Prairie View State Normal for negroes.

WILLIAMS PLANNING TO TAKE TWENTY FFA BOYS TO CISCO ENCAMPMENT

Plans to take about twenty of his vocational agriculture students to the annual tri-district Future Farmers of America encampment in Cisco August 8, 9, and 10 are being made by Doyle Williams, head of the vocational agriculture department of Colorado High school.

Williams is to be in charge of feeding all boys attending the encampment.

COLORADO WAS WILD IN 1882, ATTORNEY STATES

Colorado "City" was one of the busiest and most wide open towns that I have ever visited," T. N. Jones, pioneer Tyler attorney, recalled the other day as he told of his impressions of this city during a visit in 1882. "They had everything there then and the big show was operating 24 hours a day," he recalled.

ABILENE MINISTER WILL ADDRESS LIONS FRIDAY

GINNERS, COTTON GROWERS OF COUNTY SURVEY COURT RULING ON PROCESS TAGS

Texas Crop May Be Tied Up, Is Claim Being Held By AAA Champions

Ginners and cotton producers of Mitchell county Tuesday morning were studying reports from Washington that a recent Federal court decision might bring serious consequences in so far as moving the present crop was concerned. Leaders in camp of the AAA in Texas had gone to the National capitol to discuss the question with administration chiefs.

Federal Judge Randolph Bryant of the north Texas district recently enjoined the internal revenue bureau from forcing a Texas cotton ginner to collect the AAA ginner's tax and, as a consequence, the bureau Monday stopped issuing ginning tags. The suit was filed on behalf of the Texas Cotton Ginners association.

Although tags for 25 per cent of Texas' estimated 3,000,000-bale crop have been sent from Washington, delay in issuing the rest will mean, the committee said, "a complete tie-up" of Texas cotton after the present stock of tags is exhausted.

Department of agriculture officials said that since Texas normally produces about one third of the nation's cotton, at least 25 per cent of that total would be effected by Bryant's decision.

Headed by their chairman, C. H. Day of Plainview, Texas, the committee sought in conferences with the agriculture and justice departments and the revenue bureau to find some way out of the dilemma but reported no progress at the end of their first day.

"We are informed after a conference with officials of the bureau of internal revenue that no additional bale tags, beyond those already issued, would be furnished Texas ginners," the committee said in a statement. "Bale tags covering only about 25 per cent of the prospective Texas crop have been issued."

"This decision by the bureau, a decision growing directly out of the injunction, means that Texas cotton farmers face a complete tieup of their cotton after that time but it can not be transported since it would lack bale necessary for such transportation. As a result of the injunction obtained by the Texas Cotton Ginners' association the Texas farmers will be unable to dispose of most of their cotton until after the supreme court has passed on the validity of the act in question. Most cotton buyers purchased the staple for sale outside the state or for export."

Day, who was credited with originating the march of the South's farmers on Washington to demonstrate support of the administration's farm policies; R. G. Lucas of Brownwood, and V. C. Marshall of Heidenheimer led the discussions with department officials.

"This decision simply stops everything down there in Texas," Lucas said. "We're trying to figure out how to get the ginners out of this fix they're in."

Mrs. L. E. Gressett and Donald visited in Big Spring last Thursday and Friday while Mr. Gressett attended a postmaster's convention in San Angelo.

Mr. and Mrs. J. T. Adams returned Saturday from a visit in Corpus Christi.

Mr. and Mrs. Johnnie Johnson and baby daughter visited here over the week-end.

Miss Robbie Hudson who has been attending State University, Austin, this summer returned home Monday.

Mr. and Mrs. Tom Coker are visiting here this week.

Son Oliver of Knott visited here over the week-end.

Rev. and Mrs. D. A. Ross went to Lubbock Tuesday night. Mrs. Ross will stay for a few days visit with a son.

Crops are in fine condition over this way.

Suffer with colds? change to HEALTHFUL GAS CIRCULATED HEAT

The change will cost less in AUGUST

Colds, so doctors tell us, weaken body resistance to serious diseases. Therein lies their danger to health . . . the reason why every precaution against them should be taken. One of the best is proper house heating with CIRCULATED heat.

This kind of heat is healthful because it wipes out excessive moisture to end wall sweating, maintains an even temperature with no cold spots or chilling drafts and because room atmosphere is continuously circulated.

Gas floor furnaces and circulating heaters . . . the modern gas units that provide this healthful heat at low cost . . . are on sale now at special August prices. Invest in one for winter health. Pay only small amount down and begin monthly payments in October!

Special prices and terms effective--Now!

VOICE AGAINST THE AMENDMENTS

In a little less than a month the people will vote on the amendments and this column wants to go on record as opposed to every one of them and recommend that we scratch the whole bunch.

We especially ask the readers of this column to vote against the repeal amendment. Certainly no Christian can vote for repeal and there are enough church members to defeat repeal 2 to 1.

The repeal amendment is one of the most powerful world-wide and most thoroughly organized commercial interests known to man.

This organization has never been known to transform a down-and-out into a perfect law-abiding Christian gentleman but it has converted thousands of one-time family supporting citizens into down-and-outs; it has never established an orphanage for unfortunate orphans, but it has transformed thousands of children of once well-to-do homes into orphans who become inmates of orphanages erected by churches, charitable organizations, fraternal societies and the public; it has not established homes for the thousands of widows it produces annually, but contents itself with creating more widows; it erects no homes for unfortunate girls, but it continues to increase the number of inmates of such homes; it builds neither jails nor almshouses, but it enlarges the number of inmates in each; it does not assist youth in its effort to qualify for a life of usefulness, but it disqualifies thousands of youth each year for filling positions of responsibility and profit; it contributes no aid to young men striving hard to prepare themselves for the ministry, but it maligns and stigmatizes them after they enter the ministry; it does not reform the murderer or drunkard, but it creates more of each; it does not lessen the number of highway homicides, but it augments them; it places no premium on chastity, but destroys it without any reluctance; it encourages neither modesty nor sobriety, but produces degenerates and bacchanalia by the thousand; it does not promote intellectuality, but it destroys intelligence; it increases neither the mental nor physical endurance of the student, but ultimately destroys both; it does not observe laws intended to regulate it, on the contrary it encourages a total disregard for all criminal laws; it affords true happiness to nobody, but deals misery to millions of innocent, helpless victims; it does not inculcate respect for God or His laws, but the reverse is its record.

John W. Stanford of Plains, Texas, in his letter says:

I see that a few men and women are interested in the amendments which have been submitted by the Legislature to the people for their approval or rejection at the polls; but from the general discussion that

I hear among the "rank and file" of the voters, it seems that very few are caring anything about the election in August.

Personally I am interested in each one, but will only say a few words about the one which I deem most important. With the statistics before us, as to the effect of the repeal of the Eighteenth Amendment to the Constitution of the United States, I cannot agree with some of the "advisers of the people," that we ought to repeal the Dean law in Texas.

If our people will take time to compare the number of casualties on our highways since 1933—with the record of two years prior to that date—it seems to me that all sober-thinking voters will hesitate before doing any more repealing in that direction.

I do not claim that this law is perfect, by no means, but that is no reason why it should be repealed, before we know what we will get in its place. Therefore, from the little experience that I've had in helping make a few laws for the educational institutions of Texas, I shall fight that same crowd who are clamoring for the doing away with what little protection we have left for the safeguarding of our homes.

Dr. J. D. Sandefer, of Simmons University at Abilene, in a letter to the West Texas Baptist says:

I want to congratulate you on your last issue, especially, of the West Texas Baptist. I think your editorial on "Fiddling While Rome Burns" is worth the price of the paper for a year. Your discussion and assembling of facts on "They Promise But They Do Not Perform" is one of the most unanswerable discussions I have seen touching the present campaign on the repeal issue. I do not see how any Christian man or woman can read this and other discussions that are appearing in our religious and daily periodicals, and do other than throw his or her influence wholly toward conserving our present state constitutional prohibition amendment.

If people calling themselves Christian are not moved to think and act in the direction of saving our youth from further pitfalls, then I see no hope for future civilization. A cross section of our social order today reveals from every angle conditions indescribably worse than ever obtained even in the days of the old saloon, and incomparably worse than during our thirteen years of nation-wide prohibition.

I have little patience with our leaders today, and with quasi-Christian men and women who admit the conditions that obtain, and yet say that there is nothing that can be done about it. There is something that everyone of us can do about it. We can let the world know that we stand for the ideals for which Christ stood. It is not my purpose to go into a discussion of the present situation other than to appeal to our Christian people who are entitled to vote to go to the polls and cast a ballot such as Christ Himself would cast were He to pass this way again and were facing the present issue.

It is ours to do right and make our influence always worth while. If others do not do so, and the consequences are disastrous to the present and to the future, then in the presence of an all-wise God, the responsibility is upon their shoulders rather than ours. The best we can do, in the field of Christian living and in Christian service, is poor enough in view of what the Son of Man did for us that we might have an opportunity to embody His ideals, and insofar as humanly possible, express them to those who touch our lives.

The people of Texas including those of Mitchell county are asked to legalize the sale of whiskey and return the liquor business back to respectability on August 24th. I will answer in the words of the brilliant Henry W. Grady:

"My friend, hesitate before you vote liquor back, now that it is shut out. Don't trust it... It is the mortal enemy of peace and order, the despoiler of man, the terror of woman, the cloud that shadows the face of children, the demon that has dug more graves and sent more souls unshriven to judgment than all the pestilences that have wasted life since God sent the plagues to Egypt, and all the wars since Joshua stood before Jericho."

But says one: the bootlegger is so bad; we must vote whiskey back to kill off the bootlegger. A greater mistake was never made. Prohibition does not help the bootlegger. It

hurts his business. When sales are wide open he can purchase at will and distribute among the youth and drinkers over the country. When whiskey is free the bootlegger has a harvest. Take this from Joseph H. Choate, Jr., director of the Federal Alcohol Control Administration: "Bootleggers are more active today than they were before prohibition was repealed, and the rising flood of outlaw liquor is simply appalling."

Another says: we will control the sale of liquor by law and protect the youth. The Herald-Examiner, a wet daily paper of Chicago that pleaded for the repeal of prohibition, on March 8th reported as follows: "Children from 13 to 18 being welcomed in liquor 'hell-holes' where the hard-earned money of their parents is exchanged for liquor that sends them reeling, and strips boys and girls of all public sex decency." The reports coming from coast to coast show something new in America—school girls and boys who should be at home studying their lessons, too young to know the danger of playing drunkenly on the edge of legalized volcanoes of vice—lured by darkened drinking booths, drinking cheap liquor spiked with narcotics.

Another wants revenue. My God! Has the time come when we must sell virtue and integrity for revenue? Do you think this is right? Is it right to build churches to save men and at the same time license liquor dealers to destroy them? Is it right to license men to sell that which makes them drunk and then punish the man and his family because he got drunk? Is it right to derive revenue out of a traffic whose success necessarily weakens virtue, morality and integrity? Is it right to license men to make paupers and then tax sober men and women to take care of them? Is it right to license liquor dealers to promote vice and then tax people for schools to teach virtue? Is it right to teach boys and girls virtue, and purity and then license a place to accomplish their ruin? Is it right to preach justice and charity and vote to license a thing which breeds widows and orphans of their bread? Do you think it right? Revenue from the sale of liquor is revenue collected from the weakness and ruin of men and women. People that really believe in doing that are to be pitied.

Says one, you can't enforce prohibition. That is an old argument. The Devil told Eve that and he succeeded so well he has been repeating it ever since. The prohibition law is enforced just like all others. Men are still stealing chickens, cows, cotton and cars. They still kill, rob and swindle. Why not repeal all laws that are being violated? It is incredible. A lot of men get out in the dark and violate a law and then boast and tell the law-abiding citizen, "See you can't enforce this law." And the law-abiding citizen, not wanting to be bothered says, "I guess you are right; I will just submit to the law violator." He won't do it about other laws. But that is not the point. If the bootlegger sells liquor, it is without your consent. If you vote for it, they are sold with your consent. See the difference?

Intoxicating liquor is an evil thing. It is the great destroyer—human enemy No. 1. The experience of mankind from Noah to date proves it. It hurts, hinders and destroys. Now that the home is broken up and children and youth tramp the streets, attend the shows and ride the cars, it is necessary to shut up liquor as tight as may be. Otherwise we are on the road to ruin. Reliable reports from all sources show that since repeal drunkenness, drunken driving and arrest for drunkenness are rapidly increasing. Drinking is greatly increased. Those that promised otherwise are mistaken. They are mistaken about the good they now promise. No good can come of liquor selling and drinking.

Dr. Truett, the greatest preacher in the world, is begging his people to vote against liquor August 24th. The Baptists will believe and follow him about everything else but about liquor they think him wrong.

Bishop Boaz, the greatest Texas Methodist, is out begging his people to vote dry August 24th. The Methodist people will follow him about all other things but on the liquor question they think him crazy. Other prominent and wise churchmen are pleading with the people to vote dry. They have the confidence of their membership in everything else but in this matter, they are thought to be fools. Other good men and women are pleading for dry votes but the men who either want to sell for profit or want to drink have more influence than all others.

Selling liquor is not a legitimate business. It takes money for that which destroys peace, prosperity, health, wealth and happiness. This business is a fraud. And the thing you are asked to vote for August 24th is a fraud. It starts out by saying that the "saloon" is prohibited. It is the furnishing, selling and drinking liquor that is evil. And it doesn't matter whether it is called a saloon, a tavern, eden, a gold room or paradise.

"Wine is a mocker, strong drink is raging; and whosoever is deceived thereby is not wise." Don't be deceived about this vote August 24th. Vote against what has been considered an evil from time immemorial. "Be not deceived. God is not mocked. Whatsoever a man sows, that shall he also reap." If by your vote August 24th you sow liquor, you reap everything save dependable character. You reap sorrow, contentions, bab-

LIONS DELEGATES GIVEN STRONG IMPRESSION OF THE MEXICAN REPUBLIC

County Judge B. L. Templeton and Jeff Curry, Colorado cafe operator, who returned Sunday night from Mexico City where during last week they attended sessions of Lions International convention, state they received a most pleasing impression of the Mexican republic.

"I was impressed with the natural grandeur of that country and the modern civilization reflected there," County Judge Templeton stated Monday. "Mexico has the best of rail service—as good as our own United States—and the tourist will find a never ending array of scenic attractions there," was his comment.

lings, immorality, poverty. Don't get confused; vote dry on August 24th, 1935.

LOST AND FOUND.

It has been a regular service of the Record to restore lost dogs, watches, wallets and whatnots to anxious owners. But today our attention is called to the fact that we have helped find something which the owners did not know they had lost.

"Thanks to the Record," says Mr. Gurney, local representative of the Gulf Refining Company, "a multitude of motorists have found that they have been losing gallons of good gasoline without realizing it—just as surely as if there were a leak in the gasoline tank!"

Mr. Gurney refers to the result of a series of advertisements recently placed in the Record by his company, offering all motorists the new free booklet, "15 Ways to Save Gasoline Money."

"Soon after the offer appeared in your paper, motorists began to flock to our filling-stations to claim their copies of the booklet, and the original supply had to be renewed. An enthusiastic demand for them continues," Mr. Gurney states.

Among the 15 simple, money-saving hints illustrated in the attractive little Gulf booklet is a pertinent pointer on parking. It explains, to the surprise of most motorists, that a car figuratively "burns up gas" even when it is parked, depending upon where and how you park it. Other hints in the booklet that materially increase mileage-per-gallon deal with proper use of the self-starter, accelerator; gear shifting and other ordinary operations in driving, any one of which wastes quantities of gasoline, if carelessly done.

Titled "15 Ways to Save Gasoline Money," the booklet is free for the asking at all Gulf service stations and dealers.

Half-Column In 25-Year-Old Record Devoted To Exa McClure's Recital

Half a column in the Record for August 5, 1910, twenty-five years ago, was devoted to a report of a recital given by Miss Exa McClure at the opera house for the Hesperian club.

Names of Colorado's leading musicians of that day dotted the write-up. On the program in addition to Miss McClure were Miss Varah Cooper, Miss Nora Blandford, Dr. W. M. Merrill, Bruce Phenix, Breedlove Smith, Eleanor Coleman and a Mrs. Davis of Oklahoma City who was a daughter of C. C. Graves, then a leading coloradoan.

Pete Scoggins of Kent county had spent several days in Colorado.

An item on the local page read as follows: "Uncle John Lovelady is a free as any man from the imputation of being a new comer... A mixture of history and tradition says that he had a bossing job when the ditches were dug for the Colorado river, and that when he first saw this section Lone Wolf mountain was only a hole in the ground... He predicts rain in the dog days of August..."

J. R. Ledbetter, who had purchased the telephone exchange at Loraine, had gone there to assume charge... A. L. Lovelady and wife were "setting up another high chair" for a nine pound boy... H. E. Grantland was leaving on an extended trip to Eastland county... Charles Goodwin reported himself recovering rapidly from inflammatory rheumatism... F. M. Burns had gone to market... Members of a house party down on the Rendonbrook ranch were Mr. and Mrs. D. N. Arnett, Mr. and Mrs. T. W. Stonerod, Miss Annett Campbell of Dallas, Miss Mary Coe, Miss Ophelia Arnett, Miss Nell Ruth Arnett, Miss Lena McNairy, Floyd Beal and Walter Whipkey... Judge A. J. Coe had gone to Austin to attend a meeting of the fi-

nance committee of the Knights of honor... Miss Louise had accompanied him as far as Fort Worth... Mrs. R. A. Jeffress had returned from an extended visit with her son, Emmett, at Amarillo, bringing with her her little granddaughter, Maxine Jeffress...

A crowd consisting of Austin Altizer, Will Clayton, Bun Pritchett, Dick Stoneham, Claude Mitchell, and Forrest Payne had gone fishing down on the Concho... Clarence Pritchett had returned to Colorado after several months in Amarillo...

At a mass meeting Republicans of the county had elected as follows: Chairman, R. M. Webb; secretary, A. J. Payne; Delegates and alternates: R. M. Webb, B. S. Van Tuyl, A. J. Payne, R. S. Brennan, W. H. Merrill, and Q. D. Hall.

Democratic county elections were: president, J. H. Airhart; secretary, L. W. Sandusky; committee on credentials, R. H. Looney, P. C. Coleman, and C. M. Adams.

Officers of the Evergreen Rebekah lodge had been installed with Miss Jimmie Dillard as noble grand, Mrs. Hattie Farmers as vice-grand, Mrs. W. R. Morgan as secretary, Mrs. Nannie Sparks as treasurer, Mrs. Nannie Newman as chaplain.

VISITING ON COAST Visiting Galveston and other Texas coast towns, Miss Helen Farmer and Mr. and Mrs. Cleve Thompson of near Westbrook have been gone since Sunday of last week and are due to return home late this week.

VISITING IN NEW MEXICO Willie Grace Doss left Sunday to spend about three weeks in various New Mexico points. She will visit her grandmother, Mrs. T. C. Donnell, in Deming, near Albuquerque, and will also spend some time in Santa Fe and Taos. Her parents, Mr. and Mrs. W. L. Doss, Jr., took her as far as Lubbock.

ARRIVING FROM WASHINGTON Mr. and Mrs. Samuel Womack arrived in Colorado late Tuesday from Washington, D. C. to visit Mr. Womack's parents, Mr. and Mrs. H. D. Womack, and to attend the wedding of Miss Fanny Fay Womack to Mr. Oren Feaster Sunday morning. This is the first time Mr. and Mrs. Womack have visited here since their marriage over a year ago. Mrs. Womack was formerly of Clarendon, Virginia.
