LAKE, PIPE LINE PROJECTS REST WITH VERDICT TO BE RENDERED AT BALLOT BOX

Revenue Bearing Bonds For Sum of \$110,000 Sought In Poll Nov. 12th

Whether or not Colorado proceeds with construction of lake on Champion Creek and pipe line to connect water supply with the municipal distributing system serving the city is to be determined in a special election to be held on Tuesday, November 12.

Order calling for the election was passed by unanimous vote of the city council in called session Monday evening after petition requesting the same and bearing names of over 100 property tax paying voters had been presented.

Authority to issue \$110,000 in revenue bearing warrants will be asked of voters. Mayor J. A. Sadler outlined that the proposed bonds would carry no lien on real and personal property within the corporate limits but that the outlay would be retired through a part of the revenue to be realized through operation of the extended water supply system by the city. The bonds are to be retired in 35 years and will bear interest at the rate of four per cent per annum.

Texas officials of the PWA in Fort Worth last week agreed to accept the revenue bearing bonds as surety for federal loan approximating \$101,000. A direct grant of \$82,636 will be awarded on the project by the government. Estimates on construction of the lake, including acquisition of property easements, the building of pipe line to Colorado and other contingencies, have been estimated by Roy D. Buchanan, engineer, at \$183,636.

Only property tax payers who are qualified under the election laws of Texas to vote will be permitted to participate in the election, attorneys filed to the council Monday night. A majority vote will authorize it.

MEDICAL PROFESSION ONE OF HIGH IDEALS, SPEAKERS ADDRESSING MEETING AVEH

Annual Convention Mid-West Texas Society Closed Wednesday Night

The medical practitioner who honestly faces the responsibilities of his calling will ever strive to emulate those outstanding benefactors in the person of Luke the apostle and Christ, "The Great Physician," who healed men's bodies and their souls, more than forty West Texas doctors here Wednesday to attend sessions of the Mid-West Texas Medical society were told in ringing addresses.

"The practice of medicine must be accepted by the profession and those for whose benefit physicians work as among the high callings engaging the life work of man," Dr. R. H. Dudgeon of Waco, president-elect of the Texas State Medical association, declared in an address delivered before the medical annual banquet Wednesday evening at the Colorado hotel.

"The Third Party in Medical Practice," was subject about which the physician couched his address. The third party was paraded as organizations and individuals that, through the process of sinister and selfish motives, were striving to come between the doctor and his patient.

Alleged practices of certain agencies that would go about with their hands behind them demanding that the doctor pay a stipulated "fee" in order to get the practice of organized groups were flayed by the speaker. Such condition is flourishing in some of the larger cities of Texas, he stated.

Organizations that though honestly planned and operated to carry health campaigns into the public schools and other centers where children are assembled were attacked by the speaker. "This is within the rightful field of the doctor," he shouted. "It is inconsistent to hold that any person can give proper medical examination to a child in a school room, where there is noise and other confusing elements," was his charge.

Congressman George Mahon spoke briefly at the banquet. Dr. T. J. Ratliff of Colorado, retiring president presided. An overture played as a prelude was given on the violin by Mrs. J. Melvin Crymes with Mrs. Jas. Guitar at the piano. Invocation was offered by the Rev. Alex B. Hanson of All Saints' church. Francis Rose Ratliff and Tommy Ratliff were presented in dance suits.

Candlelit Setting For Doctors' Wives Centennial Tea At Mrs. Coleman's Home

Myriad candles, gleaming on silver and innumerable roses and colorfully gowned women, gave added beauty to the home of Mrs. P. C. Coleman Wednesday afternoon for one of the season's outstanding social affairs—the Centennial tea with which Mitchell county doctors' wives honored the wives of doctors attending the Mid-West Texas District Medical society's annual meeting.

In the reception room proper decorations centered around the fireplace, above which hung a picture of Sam Houston draped with the Texas flag and trailing ivy. Tall floor baskets of roses stood in front of the fireplace and to each side. On each side there also stood wrought iron floor candleabra, each holding five red, white, and blue candles. In front of all these was a marble-topped antique table centered with a mirror reflector on which stood a low container filled with water lilies—lavender, yellow, salmon pink.

Cosmos, roses, bachelor buttons, and chrysanthemums were arranged in baskets and vases all around the spacious room. Red, white and blue candles burned in groups everywhere. Over the door leading into the dining room were the six flags under which Texas grew up to be a state.

A Mexican drawnwork cloth covered the dining table, lighted by four white tapers in two crystal candleabra on either side of a silver bowl filled with pink roses. Mrs. Coleman's antique silver tea services were at either end of the table. On the buffet ten red, white, and blue candles burned in an arc between baskets of goldenrod. Three candles burned on either side of a silver basket of roses on the piano in the adjoining music room.

Guests were greeted at the door by Miss Mildred Coleman and Mrs. Arlie Taylor and presented to the receiving line which included Mrs. P. C. Coleman, Mrs. W. R. Snow of Abilene, Mrs. T. J. Ratliff, Mrs. James Daly of Abilene, Mrs. J. Melvin Crymes, Mrs. Harold Lindley, Mrs. N. J. Phenix, Mrs. C. L. Root, Mrs. J. P. Johnson, Mrs. W. L. Hester of Loraine, and Mrs. H. G. Whitmore.

Nearly 200 Women Witness Style Revue Honoring Doctor's Wives

Crowding the mezzanine floor of the Max Berman Department store to capacity, nearly 200 women witnessed the style revue which honored the wives of doctors attending the annual convention of the Mid-West Texas Medical society Wednesday morning at 10:30 o'clock.

The occasion also marked the formal opening of the store's new ready-to-wear department for women and children.

Mrs. Harold Lindley, wife of a host doctor, greeted the visiting doctors' wives and presented the revue and program. Mrs. W. R. Martin was at the piano.

Children's styles, including Kate Greenway dresses, Shirley Temple coats and hats, and Kaycee suits for boys were shown first. Models in this division were Elizabeth Bedford, Gene Wallace Manning, Gloria Lee, Vivian Giddens, Jan Dorn, Mary Alice Kinard, Gillian and Marilyn McEntire, Joe Berman and the Berman twins. Between the showings of coats and dresses Vivian Giddens did a tap dance.

Sport knit suits for women were modeled by Misses Lydia Mae Viles, Martha Jane Majors, and Jane Axtell. Miss Viles wore a green knit suit with a rust colored scarf, Miss Majors a suit in rust with silver buttons and Miss Axtell a purple suit with wooden buttons and a large wooden buckle.

Rothmoor and Princess suits were worn by Miss Sidney Thomas and Miss Mildred Mann. Miss Thomas' suit was in green, with brown fur collar and triangular fur trim on the pockets. The suit worn by Miss Mann was wine colored with a short coat and fur cloth trim around the neck and down the front.

Models for afternoon dresses, styled by Bloomfield, Peter Pan, and Wellesley, were Misses Gladys Louise Jones, Loyse and Louise Jenkins, Mrs. Wylie Kinard, Miss Elizabeth Hutchinson, Miss Ruth Wright, Miss Martha Jane Majors, Miss Lydia Mae Viles, Miss Sidney Thomas, Miss Lucille Bodine, Miss Grace Callan, Miss Jane Axtell, Miss Mildred Mann, Miss Grace Callan, and Miss Cleo Sheppard.

Some of this group also wore Rothmoor and Princess coats in both tailored and dress-up models. Evening dresses and dinner gowns, exclusive designs from Lettie Lee, were also shown.

Between groups were tap dances by Craig Porter and by Phyllis Berman.

Of special interest was the modeling of about ten fur coats by members of the group named above.

Closing feature of the revue was the singing of "Good Indigo" and a blues medley by the Jenkins twins, with Mrs. Martin accompanying.

Masses Of Roses Afford Setting For 1921 Club Luncheon At Price Home

Roses in massed profusion gave colorful beauty and fragrance to the luncheon with which the 1921 Study club honored its incoming president, Mrs. Ray Womack, and launched its new year of work at the home of Mrs. R. P. Price Friday.

A tall vase of Francis Scott Key red roses on a living room table and a crystal bowl of baby's breath and marigold on the mantle were feature decoration points in the living room. The dining table was covered with an Italian cut-work cloth and centered with a silver basket of roses, around which yellow candles burned in silver holders.

The luncheon was served at quarter tables, where places were marked with hand-made books bearing maps of Texas and symbolizing the club's course of study for the year. Each white laid table was centered with a bud vase containing baby's breath and marigolds, symbolizing the club's colors of white and gold.

Mrs. H. B. Broadus, retiring president, was in charge during the luncheon and the program following it. Mrs. J. E. McCleary said the invocation.

In her message Mrs. Broadus chose to honor various members and past members of the club. She introduced the new member, Mrs. A. C. Anderson, and the charter members now in the club—Mrs. W. C. Hooks, Mrs. Ed Jones, Sr., Mrs. J. T. Pritchett, Mrs. R. P. Price, Mrs. C. C. Thompson, Miss Mabel Smith, and Mrs. C. L. Root.

She paid tribute to Mrs. J. G. Merritt as the "club mother" because Mrs. Merritt was instrumental in the club's organization. She honored the early struggles of Mrs. Stewart Cooper, the club's first president, to keep the young club going and to make it a success. Both Mrs. Merritt and Mrs. Cooper were guests at the luncheon.

The acquirement of a "real knowledge of Texas" was set forth by Mrs. Ray Womack, incoming president, as her objective for the year. FORTY MORE CHS GIRLS TAKING HOME ECONOMICS

Credit the "story of the week" to Junior Wright, 6-year-old son of the Rev. and Mrs. Cal Wright of First Methodist church.

It seems that Junior was telling the O'Brien twins, Richard and Robert, just how sick his father was Sunday when he was ill from a foot infection.

"Why," recounted Junior to the twins, "my day was so sick he talked out of his head. And the doctor had to talk out of his head, too, so daddy could understand him."

The O'Brien twins are still indignant because somebody laughed.

No one was at home when the building burst out in flames. Lower floor was damaged by smoke and water.

BAPTIST NOTES

We still have some absentees in our Sunday school. We will be expecting you to fill that vacancy next Sunday. We realize that this is a very busy season of the year but let's continue to keep the Sabbath day holy and give our Creator first place in our lives.

At the 11 o'clock hour Rev. Hardin read the first verse of the 16th chapter of Luke and discussed the phases of stewardship. He brought out the thought very clearly "that all of God's people would rightly re-

late themselves to him we would have no need; for Jesus promised to supply our needs." This doesn't mean all of our desires and wishes but our real needs.

There was a Deacon's meeting at the church at 2:30 Sunday afternoon. B. T. A. had his program at the usual hour.

The text that evening was found in the 15th chapter of Luke. Rev. Hardin told of the life and work of the elder brother of the Prodigal Son.

We were sorry to learn that the Methodist pastor, Rev. Meador was ill Sunday evening. A number of his congregation came over and worshipped with us. We are always glad to have visitors and want you to feel a hearty welcome at any and all of our services. We need to unite our prayers and our efforts for the advancement of God's cause.

There were 13 teachers and several members present at the teacher's meeting Wednesday evening, Oct. 2. An interesting program was rendered after which we had a round table discussion. It was decided to have more of these meetings to solve our Sunday school problems.

GLAD GIRLS MEET
The Glad Girls, newly organized class of the Baptist church, met at the home of Miss Ruth Britton Thursday evening, Oct. 3, for the purpose of organizing.

The devotional, given by their teacher, Mrs. Bob George, was from the 11th chapter of Hebrews.

The following officers were elected: President, Ruth Britton; vice-

president, Joyce Furlow; second vice-president, Audrie Farris; third vice-president, Ruth Bloodworth; secretary-treasurer, Faye Johnson; reporter, Mrs. George. Thursday after the first Sunday in each month is to be regular class meeting days. Class motto, scripture, and colors are yet to be chosen. A committee was appointed by the president to make a year book. Following business session games were played.

Cheese sandwiches, cakes and iced tea were served.

Guests present were Mrs. J. W. Howell, Marilyn and Wendell George.

MAHON GUEST AT LORAINNE BANQUET
Congressman George H. Mahon of Colorado was honored Monday night by over 200 Lorainne and Mitchell county residents at an informal banquet and program at the school cafeteria building, who wished to express their appreciation to a home-town boy and public servant. Eighty plates were served at which former Judge J. C. Hall, mayor and president of Lorainne's Business Mens club acted as toastmaster.

Music was furnished from the band room by the town band with Mrs. K. L. Taylor at the piano. Readings were given by Miss Ruth Ann Hall. Mr. Mahon made the principal address followed by short talks from County Judge B. L. Templeton and Judge C. C. Thompson of Colorado at the high school auditorium.

Misses Lillian and Ruby Hendrick, Wynona Hardin, Ronel Thomas, Dell Johnson, Hazel Ruth Ray, and Mrs. N. L. Crowover assisted in serving at the banquet.

Milestone In Education Reached In Junior High As Unit System Started

Reaching another milestone in the development and reconstruction of its curriculum in line with the curriculum revision movement now underway in nearly all larger schools, Colorado Junior high, of which Hayes Holman is principal, has introduced the unit system of teaching into its social science courses.

The following explanation of the points stressed in the new system has been written for The Record by members of the Junior High faculty:

"In Texas History for the sixth grade the work has been divided into six units for the two semesters, approximately six weeks to each unit. Each unit in turn is divided into either six or three divisions. Since History is not the only subject stressed in this course, a correlation has been worked out with reading. In consideration of this fact one hour and a half has been designated for this purpose. That does seem like a rather long time.

"At the beginning of the week the students are given a question set and directed to read the text with these questions in mind. Any new words found in the reading are placed on the board for explanation. When all have read the material over more or less as a story, the material is discussed thoroughly.

"Now that the pupil is generally familiar with the subject matter, the questions are studied in detail and written, in an organized form, in the note book of the pupil. The library period is used for directed study or free reading.

"From time to time a checkup is made upon the reading of the child, both oral and silent. The readers, which deal with Texas are used with the part of history with which they correspond. Five or ten minutes are spent each day to review the child over the material covered the day before. At the end of the week a short quiz is given over the entire week's work.

"In addition to this work the three classes are working on individual and group projects. Since the children do not have a comprehensive understanding or knowledge of this county, one class has decided to write the history of the county. Another has selected the lives of the pioneers of the county, and the third, the work of the Texas Centennial as revealed through newspapers.

"All classes are working together on the collection of material for a museum for our county. The children are interested and are working diligently, and that is truly the first step in success.

"In the seventh grade we are combining history, civics, and geography into one course and calling it Social Science. The texts are used in this way with a complete correlation. Everything done in this work has an ultimate goal—better citizenship—we want our students to grow into the best citizens possible."

Mr. and Mrs. W. C. Hooks and Mrs. W. P. Edwards attended homecoming day for old settlers at Cuthbert Sunday.

Mr. and Mrs. Pete White of China Grove were Sunday guests of Mr. and Mrs. Fred Farrar. All attended homecoming day at Cuthbert.

Mr. and Mrs. Dee Beakley of San Antonio are visiting his parents, Mr. and Mrs. J. C. Beakley, and his sister, Mrs. John Brown.

FIRST BAPTIST CHURCH

The immediate interest of our church centers around the revival which begins Sunday morning. A special effort is being made to have a large attendance in all the services Sunday morning and evening. There are more than one hundred Baptists living in Colorado whose membership is elsewhere. We are especially anxious to enlist these during the meeting.

Brother James is to be here for the Monday evening service. One of the best things we can do for the meeting is to invite our friends to attend and hear Brother James preach. The morning services will be at 10:00 o'clock and the evening services at 7:30.

Our goal for the meeting includes 500 in Sunday school, and 150 in B. T. U. on Sunday, Oct. 20, sixty additions to the church, and the best singing our church has ever had.

We invite our friends of other churches to worship with us in these services, and those who sing or play instruments to assist in the music.

DICK O'BRIEN, Pastor.

FIRST PRESBYTERIAN CHURCH

INCLUDING THE METAL SHIELD IN THE REPAIR OF BUILDINGS ALREADY INFESTED WITH TERMITES

BY R. R. REPERT
Extension Entomologist

The metal shield advised as a means of preventing termites from gaining access to wooden superstructure of a new building is just as effective in this respect when included during the course of repairs to a building that is already infested with termites. It is not at once easy for the householder to understand how this would be so, as it is so often believed that termites already present in the woodwork above the metal shield will continue their work of destruction.

To reassure householders on this point, it is only necessary to point out that termites in order to continue their work of destruction must have frequent access to moisture, which is in most cases found in the soil next to the foundation. Also the termite queen, which is the only individual of the colony able to lay eggs, remains in the nest located in the soil.

Thus with the metal shield interposed, young individuals are unable to reach the woodwork above and those individuals already infesting the woodwork, with their access to moisture below cut off, will die in a very few days.

OPENING CONFERENCE GAME IS SLATED FRIDAY NIGHT

LORRAINE WILL BRING BEST CLUB EVER PRIDED THERE TO CONTEST WITH LOCALS

Ticket Sales Being Pushed By Fans In Home Towns Of Both Teams

Lorraine is all enthused over prospects of taking victory over the Wolves in conference opener tilt to be staged at Cantrill Field Friday night, and in this the schoolboys from Eastern Mitchell county have something tangible on which to base such hopes.

Reports received in Colorado this week from Lorraine impressed that a large fan delegation and the Lorraine band would be in Colorado for this contest.

News from the Wolf camp, however, fails to lend color to rumors that the enemy is to invade Colorado destined to win.

Fan delegations both here and in Lorraine are pushing ticket sales and another good attendance is expected.

Colorado and Lorraine both have better clubs this season than for some years, and this is especially true as to Lorraine.

SUPPORT FOOTBALL CLUB IN ALL CONTESTS, LIONS TOLD BY TICKET SELLER

Every member of the Lions Club will be expected to continue his active support of the Wolves as the home town club progresses from one game to another during the season.

HEAVIER SPUR CLUB WON OVER COLORADO IN BOUT STAGED ON FRIDAY NIGHT

The heavier Spur eleven defeated the Wolves 6 to 12 at Cantrill Field Friday night in one of the most thrilling exhibitions of schoolboy football witnessed there in some time.

Though bettered in scoreboard tabulations the locals were not outclassed in grid tactics and fought like demons from the kickoff until the final gun.

Locals Tagged Six Points In Scoring But Never Lagged In Fighting Mettle

Fumbles and penalties exacted heavy inroads into Colorado's march toward the pay stripe. During the first period a fumble on her own 25 yard line took the ball back ten yards.

Every man going into the game for Colorado started. "Rusty" Lee, midge red thatched ball toter for Colorado, who went across for his club's only touchdown, the Miller tribe, Ed Morrison and others that might be listed here did outstanding performances.

Spur scored early in the second period and place kick for the added point went wild, tying the score 6-6.

It was now that Colorado threatened to score again after Morrison had snagged a long pass and raced to Spur's nine yard line before being downed.

Suits for Spur registered their first touchdown in the second and Pingham went over during the fourth for the second counter.

Two of Spur's best men were injured when the bus in which the team was traveling to Colorado overturned four miles north of Rotan Friday afternoon.

PROGRESS OF THE CHURCH AT CUTHBERT CELEBRATED BY HUNDREDS OF PIONEERS

Citizens Who In 1891 Aided In Founding Religious Group Are Present

Sunday was a colorful day for Cuthbert as hundreds of men and women from remote sections of Texas turned again to their former homes and the little white church building that in 1891 they had a part in building.

The Rev. C. F. Carmack, now a citizen of Lamesa, returned to the pulpit that he occupied as pastor back in 1915 to deliver the principal homecoming address.

H. W. Hanks, another former pastor and who is now pastor of the Paducah Methodist church, was another former leader of the small congregation to bring an inspirational message.

An impressive feature of the day's program was memorial to the life of G. W. Womack, outstanding church leader who died a few months ago.

Mr. Womack, among the early settlers in Cuthbert community, lead in plans to organize the community's first Sunday school, that for a time met beneath the spreading boughs of large trees on the Womack farm.

N. T. Womack of Colorado, another pioneer of that section and who for many years contributed liberally to the church, was present with all members of his family.

J. A. Buchanan of Colorado, who served as first church secretary when the congregation was organized forty-four years ago, was another citizen present to be given honorable mention.

Howard Rogers of Colorado, who grew up in Cuthbert community, was in charge of the barbecue pits from which choice beef and goat edibles were prepared for the visitors.

MRS. THOMPSON'S ROOM OMITTED THRU ERROR

Through an omission, the visit to the yard of Mrs. Ollie Thompson, yard improvement demonstrator for the Looney home demonstration club was not related in the Achievement Day events.

Mrs. Thompson has a small well kept yard well fenced and one that is enjoyed by the family. The armoire privet hedge was the only thing Mrs. Thompson had in her yard to start with, so the first thing accomplished was the laying of a native rock walk by Mr. Thompson leading from the front porch step to the north side entrance.

After the yard was leveled a nd filled in bermuda grass was set out and by the time the summer advanced the yard had a carpet of bright green well sodded grass. Several things were put in cutting beds but none lived. In an adjoining side yard annuals were planted so that Mrs. Thompson could have some cut flowers for the house. Mrs. Thompson's next step in improving will be to plant foundation shrubs around the base of the house.

CHEESE DEMONSTRATION FOR LONE STAR WOMEN

By Mrs. P. Stewart, Reporter

Realizing the importance of cheese as a food and wanting to conserve home products, the women of the Lone Star home demonstration club met at the home of Mrs. Virgil Richburg and had a demonstration on processed and American cheese.

Whole milk of morning and night milkings were used so that some acid would be developed naturally. The cheese was made in a 25 qt. pressure cooker and was pressed in a home-made press made of a gallon molasses bucket.

The processed cheese is a cooked cottage cheese flavored with pimento, melted commercial American cheese, olives or nuts according to what the children prefer. This cheese is fine for school lunches, is easily made and inexpensive.

Those present at this meeting were: Mrs. Willie Taylor, Mrs. Albert Orr, Mrs. Henry Taylor, Mrs. Jack Linam, Mrs. Gray Taylor, Mrs. E. Albright, Mrs. Paul Miller of Colorado, Miss Gunter and Mrs. Richburg hostess.

YARD IMPROVEMENT IS HYMAN CLUB SUBJECT

Mrs. Frank Andrews gave a report on the council meeting.

Members present were Mrs. Carl Lowery, Mrs. W. G. McAlpine, Mrs. Edgar Andrews, Mrs. Otto Shuster, Mrs. Frank Andrews and the hostess.

Those who attended the Home Demonstration Club Achievement Day programs at Iatan, Fairview, and Hyman from the Hyman club were Mrs. Walter Averitt, Mrs. W. G. McAlpine, Mrs. Otto Shuster, and Mrs. Carl Lowery.

PUBLIC HEALTH ENEMY NUMBER ONE

Again America's Public Health Enemy Number One, *the common cold germ*, marshals his forces. Your family may be the next to be stricken!

Leading doctors tell us that *fifty per cent of all disabling diseases* start with a "common cold." America's Public Health Enemy Number One, the common cold germ, strikes with such viciousness that sixty per cent of the population has three or more "colds" each year. Think of this startling total of over two hundred million illnesses—many of which could be avoided!

The common cold germ shows no favor. Invisible but dangerous, this Number One Enemy of Public Health stalks like a bandit in the night ready to rob you and your loved ones of health and energy. Cold germs find a fertile field in inadequately ventilated and improperly heated homes during winter.

Strike at the root of fatal winter illnesses by the simple precaution of providing proper ventilation and adequate heat in every room in your home. It's good health insurance! **COMMUNITY NATURAL GAS COMPANY.**

Tune in each Thursday night at 6:45, WFAA-WBAP, beginning Oct. 17, for vital facts to help you guard your family against Public Health Enemy No. 1.

G-Men Of Heating Authority To Lead In Enemy Attacks

America's Public Health Enemy Number One, the common cold, is about to be put on the spot. The heat is to be turned on and this rampaging foe of mankind, recognized as the most vicious and destructive of all diseases, is finally to be "taken for a ride" by none other than the G-men, in this case the gas men.

Starting in today's issue of this newspaper, the gas company is launching one of the most intensive campaigns ever devised to teach people how to properly heat their homes in order to protect their health. They have declared war against the disease germs that lurk in cold hallways and unheated rooms. Backed by medical authorities they state that the family which huddles in one room over an open flame heater with the windows tightly closed is inviting disaster. An even heat throughout the entire house is said to be one of the best protections against colds, while to pass from a hot room into a cold hallway is an invitation for the deadly cold and pneumonia germs to strike.

The common cold is costing the American public hundreds of millions of dollars yearly and doctors have found that one of the most fertile breeding grounds for this germ is the stuffy, overheated, poorly ventilated room. It is for this reason that the gas company, according to its officials, is taking the lead in public education to reduce the ravages of colds, pneumonia and similar diseases by instructing the public in the proper methods of heating their homes.

With newspaper advertisements, booklets and information of all kinds, the bombardment is to continue through the heating season. Doctors, scientists, heating engineers, ventilating experts, public authorities, newspapers, and others have been enlisted for the war.

Chevrolet Sponsor Popular Artists In Radio Program

A new all-star Chevrolet program featuring Rubinooff and his violin with his 30-piece orchestra, Virginia Rae, popular soprano, Jan Pearce, tenor, and Graham McNamee will be heard over an NBC-WEAF network beginning Saturday, Oct. 19.

The new weekly series will be heard each Saturday night at 9:00 o'clock, E. S. T.

While Rubinooff has been one of radio's most popular instrumentalists on the air and the screen and in theaters for the last five years, this will be the first time that he has been starred in his own right. One of the best known figures of the entertainment world, he has appeared in practically every theater in the country in person as well as on the screen. In addition to numerous short subjects, he has just finished a featured role in "Thanks a Million" now in the process of release.

Virginia Rae and Jan Pearce will co-star as the featured singers of the new program. Miss Rae is one of the most popular sopranos of the air whose following has been constant since the early days of radio. Jan Pearce, sensational Pacific Coast tenor, who was brought to New York this year as an NBC star, has a national following.

McNamee, whose name is synonymous with radio, is not only one of the most colorful figures and greatest of air reporters, but is recognized as one of the leading air salesmen, in which role he will be heard.

Mahons Boarding Train Tonight On Journey To Japan, China, Manila

Westward bound on a journey that will take them half-way around the world and back, Congressman and Mrs. George Mahon and Daphne are boarding the Sunshine Special tonight for the first lap of their trip to the Philippines with Vice-president Garner and his party.

The Mahons will go from here to Seattle, Washington, by the California route. In Seattle they will join the Garners and the forty other national law-makers who, with their wives, are making the trip. The group of eighty will sail from Seattle on October 16 on the U. S. S. Grant with Tokyo, Japan, as their first destination.

The destination proper will be

Manila in the Philippines, where the group will be special guests at the inauguration of Manuel Luis Quezon, first president of the newly-independent islands.

Congressman Mahon is making the trip as a member of the house committee on insular affairs. He and Senator Tom Connally of Marlin and Congressman R. E. Thomason of El Paso are the only Texans making the trip besides Vice-President Garner. Senator Connally is taking his son, Ben, and Mrs. Thomason is accompanying her husband. Speaker and Mrs. Byrnes are making the tour.

After spending one day in Tokyo, Japan's capitol city, the group will go on to Yokohama, and from there

will sail to Shanghai, China, for another day. The next stop will be Manila, where the group is to remain twelve days.

After Manila and the inauguration will come a stop in Honolulu, Hawaii, for two days, then the journey homeward. They are to dock at Seattle on December 14.

The Mahons expect to arrive home about the 17th. They will spend this Christmas here, and will leave for Washington about January 1.

Preparing for the trip has been a problem as far as clothes are concerned, Mrs. Mahon has found. They will need everything from heavy winter clothing to the lightest of summer things. Winter weather will be prevailing in Seattle and in Japan and China, with tropical temperatures at the island stops.

Vice President Garner To Wear Cotton Socks On Visit To Emperor Of Japan

ARRIVE FROM WASHINGTON
Dr. and Mrs. Reaves Coleman arrived Tuesday night from Washington, D. C. to visit Mrs. P. C. Coleman and Miss Mildred Coleman.

AWAY FROM CARE
The vice-president, occasionally "shooting" a cackling hen, eagerly talked of his good will visit to the orient. He sails on the S. S. Grant from Seattle on Oct. 16—his first lengthy voyage from the American continent.

Except for two trips to the Panama Canal Zone, once when it was opened and a subsequent cruise, he has stayed pretty close to home. He has crossed the border into Mexico, 75 miles distant, for hunting and fishing trips.

Mr. Garner will "just do as the Romans do" when he appears before the mikado—minus his shoes and wearing "good, old American cotton socks."

"I've worn these kind for many years," said "Cactus Jack," pointing to a pair of black, cotton socks he was wearing.

"Don't think I ever wore more than two pairs of those fancy, striped socks in my life."

He chuckled when told the story about the late William Jennings Bryan appearing before Japan's emperor with a hole in the heel of his sock.

"I'll depend on Mrs. Garner to see that I have a good pair."

To the vice-president, the inauguration of Manuel Luis Quezon as the first president of the Philippine republic will be one of the high spots of his trip.

Mr. Garner was resident commissioner of the Philippines in the house of representatives when they were close friends.

The inauguration will also be the realization of a hope Mr. Garner has cherished since he entered the congress—that of Philippine independence. That question was one of his platform pledges during his first race for a congressional seat, and he has steadfastly worked for it since.

"That little hen over there stole her nest out and appeared this morning with five little ones," he said, pointing to a bantam. "Two other nests were found high in a hay loft and the chickens had to be brought down after the old hen had flown down from them."

FARMERS LIKE THIS BANK

FARMERS NEED THE SPECIALIZED SERVICES OF A GOOD BANK MORE THAN ANY OTHER GROUP OF PEOPLE. THEY HAVE MANY SPECIALIZED PROBLEMS AND LITTLE TIME TO DEAL WITH THEM. AND SO WE'RE ESPECIALLY PROUD OF THE FACT THAT A GREAT MANY OF OUR DEPOSITORS ARE FARMERS.

We appreciate a farmer's problems. Hardly a day goes by that we're not called upon to discuss them. With our complete range of banking services we stand ready to further agricultural progress, and through it, general prosperity.

STROLLIN' DOWN THE HALL WITH THE SOPHS

The Sophs have re-elected their old yell leaders of last year. They are, "little brown eyes," Marie O'Brien and "little blue eyes," John Colson. Help 'em yell Sophs.
 What's this we hear about Armoria Whitmore going riding Saturday night with a red-headed footman named kusty Lee. Shame on you Armoria. Don't you know all the girls want a chance at him.
 The Sophomore musician, Jane Meskimen, played for the Zetaganian Club Monday. They say she made quite a "hit."
 "That there" George Mallard has gone in for the little tots, it seems. Ask him for information.
 Jeannette Simpson has been writing notes in history. My goodness gracious, Jeannette haven't we taught you better n' that?

WOLVES DEFEATED BY BULLDOGS

The Wolf Pack suffered a 12-6 defeat at the hands of the Spur Bulldogs Friday night. The heavier Bulldog squad scored in the second quarter and by force of brute strength held the lead until the third quarter. The Wolves outplayed their opponents during the entire game, but fate seemed against them. The locals scored in the third quarter when Rusty Lee ran around left end to carry the pigskin over the goal. The attempt for two extra points failed. In the fourth quarter the Bulldogs scored again on a long run and the game ended 12-6.

SENIOR BOYS SET STANDARDS FOR FUTURE WIVES

During the past week, the senior boys of Colorado High school, in cooperation with a project of the Home Makers, described the qualities they should like for their future wives to have. In order for the Home Makers to see if they can qualify under these standards, the editor has decided to summarize some of the most outstanding qualifications.
 They are as follows:
 1. My wife should place home interest above all other things.
 2. My wife must have a sense of humor, a controlled temper, and be able to cope with all situations in the home as well as in society.
 3. My wife must be economical and must live within my income.
 4. My wife must be capable of managing a house; for example, she must be able to plan and prepare good meals, keep a clean house, and take care of children.
 5. My wife does not have to be beautiful, but she must look her best and have a strong personality.
 6. My wife must be pure and clean

in her habits and have a high standard of morals.
 Some of the boys just now, this early in life, state that they are all doomed to be old bachelors, but others have a more optimistic view of their future, even to the extent of deciding on the height, weight, color of hair and eyes, but the wisest ones have placed personality first.

INTERESTS IN SPAIN

The "La Tetulia" Club is still prying into the past of romantic old Spain. This week Katherine Sue Morley gave an interesting discussion of the religious life in Spain. She told of the Catholic Church, the Inquisition and the Virgins and Saints whom the Spanish nation worships and loves.
 Etta Mae Padgett painted a vivid and colorful picture in her report on national characteristics of Spain. She gave the characteristics of each province, telling of the picturesque villages, the gay costumes, and national dress. Some of the characteristics of a true Spaniard are his dignity, loyalty, charm and grace, his generous and sound heart and his love for songs, dancing, the click of the castanets and the guitar.

SOPHOMORE ENGLISH

The English Clubs, under the sponsorship of Mr. Cline, have made an extensive study of the short story. Over two hundred stories have been read in each of his two classes. Sentence structure has also been reviewed and biography will be their next type of literature studied.
 The clubs under the supervision of Miss Davidson are continuing their study of biography. "Boyhood On A Missouri Farm," an autobiography by Mark Twain, pictures quite colorfully the author's visit to his uncle's farm. "Edison's Personality," by Frances Arthur Jones, gives the reader a pleasing idea of the famous inventor's character.

YES, A TRAGEDY, NO FEUD BLOOD BY CHESTER T. CROWELL

The fact that he was an adopted son did not at all satisfy the curiosity of Boy. Steel had been as good to Boy as any real father could have been. Walter, the only other child, was dead; a horse, which had the trick of falling backward in the moment least expected had killed him. Some time later the horse's body was found. Boy had ridden him to death because he had killed his brother. This revengeful trait was also shown in Boy when he had killed a wolf because it had killed his brother's dog. He hunted it day and night until it was found. Steel was aware of this love for revenge and that was the reason he wouldn't tell him his life's history.
 Boy joined the War. When he had been in France but a few months he came home on business and sent for his father. When Steel got to the hotel, Boy told him of a little group of Germans who fought until they had to give up and how he hated to capture them. Then Steel knew that Boy could stand the truth. Steel told him that a group of sheep men had had to come to the cattle pastures to keep their sheep alive and that he and a group of men had tried to drive them back. Steel had slipped up to the wagon. Two shots were fired and two men went down both wounded just over the heart. They promised each other that if one lived, he would take care of both families. In a few minutes Smith was dead. Steel found Boy in a hole where the campfire had been and his mother in the wagon.
 Steel not thinking it a good idea to bring a shepherd's son up in a cow country announced a second birth in his family and he told Boy then, that no one would ever need to know except the bank for there was some money to be left to Boy when he reached the age of twenty-one.
 BLANCHIE BESS JONES.

SENIOR CLASS MEETS TO COMPLETE ELECTION OF OFFICERS

After a period of two weeks the Senior class completed the final election of officers. Competition created interesting amusement in the class at the seventh period. Edward Beal was elected vice president by a majority. The race for secretary was close but the staid and modest Miss Elizabeth Taylor won over several other candidates. The popular Clyde Gregory was elected treasurer with the largest majority of any candidate in the election which showed that the class is positive he "will sure keep that money" just as he said he would. After having been in the run-off for several offices Regal Porter was chosen when Jesse Jones nominated him as general hunk for the class. The office was changed to Sergeant-at-arms and he was unanimously elected. The class motto at present is "Let us try to make every one nappy."

PEP SQUAD

The Pep Squad was out in full uniform last Friday night and did they strut their stuff! They formed an "S" for Spur and a "C" for Colorado. There was a great rush Thursday and Friday to get the material and make the skirts, but Friday night the work was all done and everyone did her very best. A few of the girls were so excited they carried their lemons along with them in the formation. But, of course, that was alright.

This week the Pep Squad is to practice a new formation. Watch out for the Pep Squad is headed for bigger and better things in 1935-1936!

FUTURE FARMERS OPEN MEMBERSHIP DRIVE

The Colorado Chapter opened their Future Farmer club membership drive with an ice cream supper on Friday, Sept. 20. The following boys have already paid their dues: Voyd Beights, J. W. Blessingame, Edwin Carlock, Duff Chesney, John Colson, Lewis Gale, John Henderson, Billy Bob McGuire, Ned Norfleet, Houston Page, James Pritchett, Joe Pritchett, Corley Rogers, Alvin Smith, Forest Smith, William Taylor, W. H. Venus, Maurice Watson, Bill Gale, Ivy Jones, and R. C. Snively.
 By October 15, the club hopes to have one hundred per cent of the Agriculture class as members.

HOMEMAKERS MAKE ATTEMPT TO QUALIFY AS FUTURE WIVES

The Homemakers are working hard to reach the expectations of future husbands. The Senior boys have written themes concerning their ideals for future wives and the girls are trying to live up to these romantic standards. Perhaps Roy Miller would like to know that the girl who is training to be his wife has already learned that fruits should be soaked over night before being cooked. Clyde Gregory will be pleased to learn that his admirer is struggling with dame fashion in order to develop a chic and clever personality.
 The Homemakers are putting into practice many of the valuable facts from books and life.

THE WARBLERS

The Warblers (Choral Club) are learning fast, but sometimes they screech on the high notes and a few times "fall off the limb." The club is keeping music notebooks in which scales are written. C, G, and D scales were studied and written in the notebook this week. As soon as the music arrives, the members will begin work in classical and familiar songs.

COMMERCIAL DEPARTMENT

For each extra lesson the typing students get they will get five extra points, so the commercial room is filled with busy students throughout the day.
 Two days out of each week speed and accuracy tests are given. These tests show how the students are progressing.

The shorthand class has made its work more interesting by visiting buildings where commercial work is carried on, such as the Western Union and Post Office.

FRESHMEN COME TO THE FOREGROUND

The Freshmen, though submissive and quiet, are plodding toward recognition as a cooperative class. They report great interest in Mr. Foster's graphs, though the theory they did at first confuse with "giraffe." Miss Davidson is successfully proving to the Fish that thoughts are sentences. They must be a very enthusiastic group for they are fully enjoying class work as well as school life.

HIGH SCHOOL BAND NEWS

The High School band was out in full uniform at the game last Friday, with a few of the elder men lending their musical ability.
 The band has added several new pieces to their collection of music. They are as follows: "The Eyes of Texas," "Honor Band," "Brown Cheering Song."
 Besides these new songs the band has practiced the pep squad songs and will be able to play with the pep squad Friday night.

FISH DISCUSS ETHIOPIAN-ITALIAN WAR

The Freshmen English club had a most interesting program Friday when Miss Davidson led the discussion of the Ethiopian-Italian War by reading an article on the latest news of

ENGLISH CLUBS STRESS LEISURE TIME READING

The Junior and Senior Literary News Clubs have been encouraged to learn that their leisure time reading will count a large per cent on their grades. Grades, in a way, still serve as inspiration to some pupils, but many read, not for grades only, but for leisure.
 To encourage the use of interesting project material in the different English classes, each pupil gives as dues one penny each week to be used in buying various plays, books, magazines, victrola records, or any other necessity of the English department.

Get rid of constipation by taking Black-Draught as soon as you notice that bowd activity has slowed up or you begin to feel bloated. Thousands prefer Black-Draught for the refreshing relief it has brought them. With reference to buying Black-Draught, which this medicine gives her children, she says: "They like the taste and it gave each good results."
