Autumn Shades Used For Gift Reception Honoring Miss Fern Wright, Bride-To-Be

Autumn's warm golds and browns were colors for the gift reception with which a group of Methodist women honored Miss Fern Wright, whose approaching marriage to Mr. Lowell Schmidt on November 3 was announced last Friday, at the home of Mrs. C. C. Thompson at 3 o'clock this afternoon (Thursday).

The affair was the first and probably the largest of a series which will compliment Miss Wright, who is the second daughter of the Rev. and Mrs. Cal C. Wright of First Methodist church.

Baskets of golden cosmos and other fall flowers and bowls of ripe fruits were arranged about the reception rooms. Guests dined in a gold and yellow bride's book on the veranda, where Mrs. E. H. Winn and Mrs. R. E. Gregory presided.

They were greeted at the door by Mrs. R. H. Looney and Mrs. B. L. Templeton and their gifts taken by Mrs. J. T. Pritchett and Mrs. W. L. Doss, Jr. In the receiving line were Mrs. J. G. Merritt, Miss Wright, Mrs. Wright, and Mrs. Thompson.

Stationed in the various rooms were Mrs. Oscar Majors, Mrs. J. A. Buchanan, Mrs. E. A. Barcroft, Mrs. A. D. Kiker, and Mrs. J. W. Shepperd. A musical program arranged by Mrs. Ray Womack, Mrs. N. H. White, and Mrs. W. L. Doss, Jr., was presented. It included vocal numbers by Mrs. W. R. Martin and a piano duet by Mrs. Womack and Mrs. Doss.

The gifts were introduced with the reading of an original poem by Mrs. J. E. McCleary. The gifts, wrapped and tied in autumn shades of cellophane were in a tumbled pile at the mouth of a golden horn of plenty on the dining table.

Refreshments consisted of black cake with yellow mints and coffee. Make-believe golden wedding rings tied with ribbon were plate favors.

Assisting in the serving in addition to other members of the house-party, were Mrs. J. M. Doss, Mrs. J. L. Pidgeon, Mrs. J. W. Raindle, Mrs. Wm. Brookover, Mrs. R. J. Wallace, Mrs. T. W. Stoneroad, and Mrs. Chester Jones.

From 1900 up to 1934 the leaf tobacco used for cigarettes increased from
13,084,037 lbs. to
326,093,357 lbs.;
an increase of 2392%

It takes mild ripe tobacco to make a good cigarette.

During the year ending June 30, 1900, the Government collected from cigarette taxes \$3,969,191
For the year ending June 30, 1934, the same taxes were \$350,299,442
an increase of 8725%
—a lot of money.

Cigarettes give a lot of pleasure to a lot of people.

More cigarettes are smoked today because more people know about them—they are better advertised. But the main reason for the increase is that they are made better—made of better tobaccos; then again the tobaccos are blended—a blend of Domestic and Turkish tobaccos. Chesterfield is made of mild, ripe tobaccos. Everything that science knows about is used in making it a milder and better-tasting cigarette. We believe you will enjoy them.

Designation of School Safety Zone Is First Step in Mothers' Club Campaign

Designation of safety zones around Colorado school buildings was the first step taken this week in the campaign which the Mothers' club is launching for traffic safety of school children. Members of the club committee in charge of campaign details have secured the cooperation of the city, members of the school board, and school principals in pushing the campaign. Mrs. Bob Fee is chairman of the committee. Safety signs are to be placed on streets approaching the schools. Four signs will be put up by the Mothers' club in the Hutchinson-Coleman-Junior High area. One will be at Hickory and Fourth, one at Vine and Fourth, one on Cedar and one on Fifth. In addition to these four signs the city will place brass safety knobs along the streets in the area, Mayor J. A. Sadler was quoted Wednesday morning as having said. A group of Junior High school boys of responsible rating are to be trained by members of the city police department and put on patrol duty in the zone during hours when school children are starting home, according to Mrs. Fee. Plans for the drive have been worked out at a series of committee meetings this week. Intensive work on the campaign is to begin October 28, Mrs. Fee states.

UNUSUAL PLANT GROWN IN YARD AT FAIRVIEW
A plant unusual to this part of the state has been planted and is growing well in the yard of Mrs. W. W. Jenkins, yard demonstration cooperator in the Fairview Home Demonstration club. It is the Roselle, said to be the south's most valuable jelly plant. It closely resembles the okra and cotton plant and is often called the "Jelly okra." The flowers if picked when fully grown make sauces, jelly and jam which takes the place of cranberry dishes in many menus. The seeds were secured from a seed firm in the Valley. Mrs. Jenkins will try to make some jelly and can some juice as soon as the flowers develop.
Mrs. D. McCollum of Bauman also has one of the plants growing as large as a hedge plant which has highly developed calyxes.

DEATH COMES TO J. J. JOYCE, AGED PIONEER OF MITCHELL COUNTY

Funeral Services Held From Home Near Spade Wednesday

A pioneer farmer of southern Mitchell county passed Tuesday morning in the death of J. J. Joyce, 86, who had lived on the same farm near Spade for thirty years.

Mr. Joyce met death on the porch of his home at dawn. A verdict returned by Justice of the Peace A. D. Leach, coroner, attributed his death to gunshot wounds in the heart, self-inflicted. Mr. Joyce had been in ill health for some time.

Born in Springdale, Arkansas, in December 13, 1849, Mr. Joyce was married on May 23, 1871, to Miss Jane Hammond, who survives him. To them were born seven children, three of whom died in infancy and four of whom survive Mr. Joyce.

Mr. and Mrs. Joyce came to Texas and settled in Bell county in February, 1874.

There they reared their children, and with their children and their families they came to Mitchell county in 1905, settling on the farm which has since been their home. Their children settled on neighboring farms. Until their old home burned about three years ago Mr. and Mrs. Joyce lived continuously in the same home, except for a few months residence in Colorado.

Funeral services were held from the home Wednesday afternoon at 2 o'clock with the Rev. P. D. O'Brien of First Baptist church, Colorado, officiating with the assistance of the Rev. A. D. Leach. Burial was in the Colorado cemetery.

At the home six grandsons acted as pallbearers. They were Joyce Halbert of Amarillo, Winfred Halbert of Sweetwater, C. L. Joyce, Lynn Halbert, Jim Joyce, and B. O. Joyce. Mr. Masons took charge of graveside rites.

The four children surviving Mr. Joyce are Mrs. T. J. Plaster of eight miles south of Colorado, B. O. Joyce of Colorado, and Mrs. Mary Halbert of Amarillo. Fourteen grandchildren and seven great-grandchildren also survive.

Jones, Russell & Company had charge of funeral arrangements.

Mrs. Coleman Written Up In Sunday Paper As Lifetime Auxiliary Head

Following the election of Mrs. P. C. Coleman as lifetime honorary president of the Mitchell County Medical auxiliary last week, the following write-up about her appeared in Sunday's Abilene Reporter News along with a picture of her:

COLORADO, Oct. 12.—A woman who has been a doctor's wife and a doctor's daughter-in-law and who is the mother and the grandmother of doctors was honored this week when Mrs. P. C. Coleman of Colorado was elected honorary lifetime-president of Mitchell county's first medical auxiliary.

Organization of the auxiliary was directed by two Abilene women, Mrs. W. R. Snow and Mrs. J. M. Daly, both officials in the Abilene medical auxiliary. They were here to be special guests at a Centennial tea in Mrs. Coleman's home for the wives of doctors attending the Mid-West Texas District Medical society's annual convention.

In horse-and-buggy days, when doctors had to board the train to reach a convention even in the next town, Mrs. Coleman accompanied her husband, the late Dr. P. C. Coleman, to medical conventions far and near.

Dr. Coleman was at one time president of the Texas State Medical society. He was active all his life in county and district medical organizations, in addition to doing all the other things which made him widely known as the "grand old man of West Texas."

Four generations of physicians surround Mrs. Coleman: Dr. Cole-

Mrs. Coleman

man's father was a doctor. His son, Dr. Reaves Coleman, is on the staff of the veterans' hospital in Washington, D. C. His grandson, Dr. Maxwell Thomas, practices in Dallas.

Mrs. Coleman was a leader of Colorado's pioneer society and keeps pace today. She was the first president of Colorado's oldest club, the Standard, and last year served in that office again, having often served in the years between.

Active officers elected with Mrs. Coleman at the organization meeting of the county auxiliary were: President, Mrs. W. L. Hester of Loraine; first vice-president, Mrs. T. J. Ratliff; second vice-president, Mrs. C. L. Root; third vice-president, Mrs. J. P. Johnson; fourth vice-president, Mrs. J. M. Crymes; secretary-treasurer, Mrs. H. G. Whitmore; reporter, Miss Vivian Johnson.

FARMERS LIKE THIS BANK

FARMERS NEED THE SPECIALIZED SERVICES OF A GOOD BANK MORE THAN ANY OTHER GROUP OF PEOPLE. THEY HAVE MANY SPECIALIZED PROBLEMS AND LITTLE TIME TO DEAL WITH THEM. AND SO WE'RE ESPECIALLY PROUD OF THE FACT THAT A GREAT MANY OF OUR DEPOSITORS ARE FARMERS.

We appreciate a farmer's problems. Hardly a day goes by that we're not called upon to discuss them. With our complete range of banking services we stand ready to further agricultural progress, and through it, general prosperity.

The City National Bank

Colorado Future Farmers are introducing this column in the Colorado Record in the hope that it will be of great benefit to the farmers of Mitchell county in solving some of their farm problems. The information contained herein will be based on project and experiment station data.

JAMES PRITCHETT. FEEDING OUT PORK FOR HOME USE

A recent survey by the Agriculture classes disclosed that an acute shortage of pork being finished for home consumption exists in Mitchell county. The most practical ration for finishing Mitchell county pork consists of threshed milo maize and tankage and cottonseed meal mixed half and half by weight and fed in self feeder.

We have found by actual feeding tests that good thrifty pigs, with plenty of fresh water before them at all times, can be made to gain two pounds or better per day, therefore, farmers can still finish pork for home use during the next 90 or 100 days. These tests show that approximately 25 lbs. of tankage, 25 lbs. cottonseed meal and 350 lbs. of grain will be required to produce 100 lbs. of pork, allowing \$3.50 for the maize, 70c for tankage and 40c for the cottonseed meal a farmer can produce 100 lbs. of pork for \$11.60, therefore, a pig weighing 250 lbs. can be finished for \$14.00 including \$5.00 for the cost of the pig.

We believe the above ration for finishing pork is the best to use because of its simplicity, availability, palatability, economy, and the rapidity at which pork can be produced.

Precautions Urged As Winter Heating Season Is Opened

The winter heating season has started and if certain precautions are taken, the toll in property and life resulting from fires caused by thoughtlessness, from defective heating equipment can be reduced to a minimum.

Natural gas properly used is as safe as other fuel, and in view of the fact that this type of fuel service is universally used locally, the following precautions are suggested in keeping with National Fire Prevention Week: All heating equipment should be inspected and adjusted by reliable firms or individuals known to be qualified experts. No one but licensed plumbers and gas experts should connect gas pipes and similar appliances.

Gas heaters should be attached to a properly installed pipe and vent system. Loose gas cocks should be made tight and leak proof or replaced. Heaters should be at least four inches from walls.

Open gas heaters should be protected with screen guards to prevent clothing from swinging into the flame and to protect children. Masquerade and similar easily ignited costumes should be particularly guarded around open flames. Keep curtains, draperies, and similar inflammable materials away from heaters. Wind may blow them into the flame or they may become overheated and ignited.

It is unhealthy to live in a single tightly closed, unventilated room, and bathrooms or other quarters should never be closed up tightly with an open flame heater burning. Heaters should be vented, and homes should be properly ventilated to protect health and avoid accidents.

If escaping gas is detected, extinguish all nearby flames at once. Open all doors and windows. Close all gas valves and cocks. Shut off gas at meter. Notify gas company. Allow no flame of any kind to be brought near leak, until it has been repaired.

Remember, natural gas is as safe as any other fuel if properly used, but do not be careless with this or any other type of fuel.

'BELIEVE IT OR NOT,' THIS REALLY HAPPENED

This would almost make a "Believe It Or Not."
 On a certain night a number of years ago J. C. Hall, Loraine banker, called Dr. T. A. Martin of Loraine to come to his house on an important mission.
 Dr. Martin said, "I'll have to go out to Tom Riden's first."
 Some two hours later Dr. Martin arrived at the Halls' and in a little while J. C. Hall, Jr., was born. Dr. Martin said, "That's two tonight. I just delivered a girl to the Riden's."
 That girl was Christine Riden, and Saturday night she and J. C. Hall, Jr., were married at the Riden home in Loraine.

WOLVES TAKE MARGINAL LEAD IN CONFERENCE TILT

COLORADO OUTSCORED BUT DID NOT OUTPLAY LORRAINE IN CONTEST FRIDAY NIGHT

Visitors Held Locals 6 To 6 Until Few Minutes Before Final Whistle Blew

Spurred on to an enthusiasm that never waned the Colorado Wolves Friday night followed their elusive wall folding, end running, ball totting star, Roy Miller, to a marginal victory over Loraine in first conference game of the year. The final score was 13 to 6.

HOME TOWN SERVICE

The best part about your telephone service is that it's home town service—tailor-made for you at the switchboard by people who live and work here.

Experts on American Telephone & Telegraph Company's headquarters staff can develop better methods of giving you service. Scientists of Bell Telephone Laboratories can contribute new inventions and scientific developments.

And all of these things can—and do—help us tremendously at the job of giving you good telephone service at a fair cost.

Yet not one of them could replace the qualities of friendliness and neighborliness which grow out of the fact that the men and women who operate the telephones here belong to and are part of this community.

You can't measure those qualities. You can't set them down on monthly reports. Yet they have a large part in the job of providing telephone service. Southwestern Bell Telephone Company.

Sweetwater Lions Urge Colorado To Cooperate In Bill

The Sweetwater Lions Club is extending invitation to members of the service organization here to cooperate in a minstrel show to be staged in the municipal auditorium of that city next month. Proceeds are to go into the club's blind fund.

Five Sweetwater Lions, County Judge Chas. Lewis, Bill Powell of the Daily Reporter, Ross Covey, superintendent of schools, Homer Williams, night chief for Western Union, and Carl Anderson, attorney, met with the local club Friday to urge cooperation in the minstrel.

President Benton Templeton appointed J. E. Watson, Hayes Holman and Jack Mayes as members of a committee to solicit ticket sales here. November 5 has been designated as visiting Lions night.

Colorado scored early in the game after a succession of line plunges and end runs had taken the ball to Loraine's 30 yard stripe. Miller raced across for the touchdown. Attempt for the extra point failed.

It was here that the visitors, though lighter than the Wolves, rallied and through ensuing half of the game actually outplayed the Colorado boys. This was especially reflected during the second period as the visitors remained in enemy territory most of the time and wrecked practically every scheme of Colorado to progress with the ball. Loraine scored during this period but failed in place kick for the additional one point.

Through the third period both teams fought on an equal plane, first one and then the other making progress toward the pay stripe, only to have the ball go over on downs. Neither club met with success through aerial raids. Roy Miller completed a few tosses to Morrison for good gains, while one of the most spectacular plays of the evening was offered customers when a Loraine boy snagged a long Colorado pass and raced 20 yards toward the enemy goal line before being downed.

Captain Priestler did much of the ball totting for Colorado, unfolding some good line plunges and end runs. Morrison, Rusty Lee, and Miller came for honors in that department.

That Coach Reese has some boys on the bench that were able to perform with all the technique of veterans was demonstrated in the fourth period when Bobbie Wright and Charles Carter were sent into play late. The lads, both of whom are midgets and playing their first football on the first string, acquitted themselves with distinction in tackle plays.

It was anybody's game until just before the final whistle when Colorado paraded into Loraine territory to bring the ball within a few feet of the pay marker. Loraine held on line plunges but Miller went over in the third try to win the game. Priestler carried the ball over for the extra point.

BANK CLOSED SATURDAY HONOR 'COLUMBUS DAY'

The City National Bank was closed Saturday in commemoration of Columbus Day. The day before a program featuring life of the discoverer and his plans for setting sail on the eventual voyage resulting in finding the new world was given at the Lions Club.

ROTAN YELLOW HAMMERS TO ENGAGE WOLVES HERE FOR CONFERENCE LAURELS

Fisher County Club To Offer Strong Opposition For Victory Pennant

The Rotan Yellow Hammers are offering the next worthy source for Colorado. The two contending Class B clubs are to meet at Cantrill Field Friday night in scheduled conference game with the visitors rated as equal to the locals in several departments.

"Colorado will have another stiff fight on her conference card as the Rotan boys engage them for this tilt," was comment offered by an official of the schools Thursday afternoon. "It might not turn out as did the melee with Loraine last week," was his suggestion.

Another interesting game is promised and Colorado fans are again reminded that proceeds from admission sales are to go into fund to pay for the field lighting equipment. A large delegation will accompany the Yellow Hammers here from Rotan, according to promise received here from home of the Fisher county club.

Ed Morrison, playing at halfback and one of the hardest line plunging and swiftest ball totting Wolves in the pack, will be perched on the bench, nursing a badly sprained knee while his team mates essay to win over the visitors. Morrison was injured during the game with Loraine.

Colorado will offer still another alibi as the Wolves and Yellow Hammers meet to do battle. Billy Miller, who has been doing some fine work at tackle, will be out of the game. This lad, junior member of the firm of Miller Brothers, owners of a considerable block of stock in the Wolf, first line of defense—offense, came out of skirmish Monday afternoon with a sprained ankle.

WILL BE PICKING UNTIL MARCH, PLANTER'S VIEW ON PRESENT CROP STATE

"Looks as if we are to be picking cotton until next March and I am hoping we will be able to get the crop out of the fields in time to plant another," was comment offered here Saturday by a prominent cotton grower.

Scores of farmers here during the day expressed concern in slow progress of the crop to open. One farmer of Seven Wells community said that he had grown bolls in his field that look the same today as they did a month ago.

WOMAN MINISTER FACES CATTLE THEFT CHARGES

ROSCOE AND HAMLIN VIE FOR CONFERENCE HONORS

Hamlin and Roscoe, opposing Colorado for District Class B laurels, are well out in front in the schoolboy parade so far. While the Plowboys were defeating the ACC freshmen eleven Friday afternoon, the Hamlin Pied Pipers bombarded Roby to the tune of 13-0. Roby previously had held the Spur Bulldogs, aggregation that two weeks ago defeated the Wolves in a hard fought engagement at Cantrill Field.

'BETTER LOOK OUT FOR ROTAN,' IS WARNING TO BE SENT BY DICK GRAY

Dick Gray, for several years a resident citizen of Colorado and who a few months ago returned to his old home town of Rotan to live, is issuing warning that Colorado had better be on her toes as the Rotan Yellow Hammers move in Friday night.

Gray is all worked up over the fact the Yellow Hammers have not had their goal line crossed during the season. Such a record will be goal of the Fisher county schoolboys as they engage the Wolves in conference tilt for this week-end.

They ran upon the herd on the highway between Slaton and Lubbock, striking two horses and killing them instantly and injuring others.

INSANITY PLEA IS HINT IN BANK ROBBERY ALIBI

That insanity is to be injected into trial of W. H. McCumber, on trial at Barstow for robbery of a bank there last August, was hinted as defense attorneys questioned prospective jurors in district court there Monday. McCumber, a former army radio operator at the Midland airport, was arrested shortly after the bank was robbed by a lone bandit.

FUGITIVES ARRESTED AT GREENVILLE ON CHICKEN THEFT VERY CHARGES HERE

Lewis and Robert Teeters, under grand jury indictment here charging chicken theft, were returned to Colorado Monday from Greenville by Buck Hickman, police chief, and H. A. Cook, deputy sheriff. The pair were arrested in the North Texas city for local authorities.

Hickman told The Record Tuesday afternoon that additional charges were pending against the men and that indictments in that connection were to be sought.

(Most of the class members are girls—the salesman was young, and Jim Anna says good-looking.)

What is this school coming to? The dignified Seniors have to line up and march to go to music. We wonder whose idea this was?

It's never out—it's never over—it's always going on—one continuous round of pleasure—parties and dates and moonlight nights, and everything goes in pairs.

Everyday Happening Around W.H.S.

The school bus broke down last Friday. This was very bad luck in many ways. Naturally it was an expense to get it fixed but it also wore out the patience of Miss Ott and Mr. Hood, as they had to stand guard over the school children who had to wait. There is great sympathy for these two and sincere hopes that this will not happen again.

There seems to be a great misunderstanding in the high school. Some of the faculty and students may think the Seniors are mere kids only trying to impress everyone with being a Senior. May I offer a word in behalf of the Senior class? They are only having their fun while they may, and they really aren't intentionally being childish. Since we have spoken of that, suppose you Seniors do have a show of "kiddy" fun for the others? How about a real "kid day," Seniors? Of course you may be razed about that, but you can take it.

There isn't much out of the ordinary happening around. Oh, of course, there is a teacher occasionally losing his or her temper, several demerits being given, lots of silly happenings, but then, I suppose those are common everywhere.

Jokes

Mr. Hood: "Did you read where Dr. Heraxon made his great single-handed dash for the Pole and finally reached it to his everlasting glory?"

Coach: "I saw the headlines in the paper, but I didn't read it because I'm not interested in horseracing."

Miss Kent: "My life is paved with good intentions."

Cora Ott: "Who got the contract?"

Mr. Patterson: "Where does the Mississippi river rise?"

Harry Etta: "In Louisiana."

Mr. Pat.: "No, No! Think again. You know where it rises."

Harry Etta: "In Louisiana."

Mr. Pat.: "What makes you so sure of it?"

Harry Etta: "How could they have those awful floods down there, if it didn't?"

Junior News

There isn't much news from the Junior class this week. We haven't been doing anything but aggravating the teachers. We will try to have more next time and not go to sleep on the job.

Mr. and Mrs. J. W. Randle and daughters returned early this week from Childress, where they had been visiting relatives since Sunday.

How Calotabs Help Nature To Throw Off a Bad Cold

Millions have found in Calotabs a most valuable aid in the treatment of colds. They take one or two tablets the first night and repeat the third or fifth night if needed.

How do Calotabs help Nature throw off a cold? First, Calotabs is one of the most thorough and dependable of all intestinal eliminators, thus cleansing the intestinal tract of the germ-laden mucus and toxins.

Second, Calotabs are diuretic to the kidneys, promoting the elimination of cold poisons from the system. Thus Calotabs serve the double purpose of a purgative and diuretic, both of which are needed in the treatment of colds.

Calotabs are quite economical; only twenty-five cents for the family package, ten cents for the trial package. (Adv.)

WHERE HAPPINESS IS FOUND

Paul said: "I have learned, in whatsoever state I am, therewith to be content. Appreciation of what one has is much more productive of happiness than is the desire for something he has not. Seeking beauty in things nearest us gives greater satisfaction than constant longing to gaze upon scenes in distant lands. It is more sensible to satisfy one's hunger by partaking of a frugal meal at hand than to wait for opportunity to attend a banquet, to quench one's thirst with water trickling from a modest little spring than to wait for a chance to drink from an ornate marble fountain. Better home in a modest cottage where love reigns than to wait until it is possible to possess a palace and costly luxuries. He is laboring under false ideas who imagines that there are always greener pastures and stiller waters further on. These reflections recall the story of the old time sail-ship which had been in a calm for several days, and as a result had run short of portable water. The crew and passengers were almost famished. The wind finally came, and after being under way for a day or so another vessel was sighted. The signal was at once given, "We want water to drink." The answer came, "Let down your buckets." This was considered a cruel reply, and again went up the signal, "We want water to drink." And came the answer, "Let down your buckets where you are." For the third time the signal was given and for the third time came back the same answer. The buckets were let down and brought up fine fresh water. It was learned that the ship was then within a few miles of the mouth of the Amazon River and the water it was sailing in was all fresh. It is not necessary to leave home for other lands in search of peace and satisfaction. The great beautiful Sea of Happiness is all around us. Let down your buckets where you are. Someone has put it very tersely this way, "The City of Happiness is

in the state of mind." But it is never in a mind that is filled with evil. Happiness is a result derivable only from spiritual thinking, speaking and doing. It can be obtained and attained in no other way. It is as much the effect of cause as anything else. It must come from the right source. Wrong thinking always precedes ruin. Ruin is the product of no other process. It is the fruit of no other tree than the tree of evil. It is planted in the soil of iniquity and germinates and develops in an atmosphere of impurity and wickedness. He who eats of it must inevitably suffer the consequences which come of his folly. Happiness is to be found where we are. The mistake most generally made is in seeking it in material things. It is related that a man in South Africa announced to his friends that he was going to seek the world over for a diamond mine he could claim as his own. He traveled over much of the earth in his search, but without success. Upon returning home he found it necessary to dig a well on his farm. In doing so he discovered his home was located over a rich diamond deposit. Beneath his feet were the riches he was so sedulously seeking. So it is in the search for jewels which are much more valuable than diamonds, jewels of gratitude, joy of service, sweet content, love and kindness. It means much to him who realizes that only in a busy and useful life can the joy of living be found.

yet they are nearly always up against domestic tragedy. Teaching this the better things of life, they seem to lose the romance from their own lives. Perhaps they see so much of the false that they doubt the true. The truths of the drama would appeal to us with much greater force if those who portray them would live them.

WE SHOULD BE THANKFUL

With our great grain and cotton crops, and our immense oil output and our great wool supply, and our fine peanut and pecan production, and our fruit and vegetables, our cattle on a thousand hills, our fine pigs and poultry, our great ports and the finest Texas climate and weather, together with our fine progressive churches and schools and our health makes us the richest people in the world and we should be happy, contented and thankful.

One of the teachers in the high school had his class in physiology and went into details explaining physical force. He then asked one of the class to tell him what force it is that moves people along the streets and he answered the Police Force.

Life is just a trial And it's just what you make it Your share has been given out to you Don't be a coward, try to smile and Take it.

One day this week Pastor Cal Wright of the Methodist church was

down town and met one of his members, a rather nice-looking man, and much to the letters surprise, shook him heartily by the hand. "I'm so glad you have turned over a new leaf, my brother," said the pastor. "I was delighted to see you at the prayer meeting last night." "Oh, said the brother after a moment of doubt. "So that's where I was."

This world would soon become a Paradise if it were not for "rents and runners." These awful things fill all souls with dread and anxiety. Thousands of families could be supremely happy if there were no rents to pay, and thousands of men could go on dress parade and have a great time but for the rents in their pants. And the "runners" are veritable joy-killers. The automobile runners make life miserable for the pedestrians. The whiskey runners bankrupt the government and drive soberness from most communities. And no woman or girl can be happy for fear of runners in her new silk stockings.

In Bro. A. D. Leach's Justice Court this week was hailed before the bar of Justice. He was a man of convivial habits, but also somewhat bookish. "You are charged with being drunk and disorderly," said Justice Leach, "have you anything to say why sentence should not be pronounced." "Man's inhumanity to man makes countless thousands mourn," began the prisoner in a flight of oratory.

"I am not so debased as Poe, so profligate as Byron, as ungrateful as Keats, so intemperate as Burns, so timid as Tennyson, so vulgar as Shakespeare, so..." "That'll do, that'll do, interrupted Justice Leach. "Seven days." And Mr. Gregory, take down that list of names he mentioned and round them up. I think they are as bad as he is."

Distance lends enchantment, and people are much richer when they are far away than when we come in close touch with them. When a home girl or a home boy gets married in a distant city, we usually hear that her or his mate is very wealthy, so rich in fact that we cannot but wonder how Cupid could have steered her or him against so much gold. The amount of the mate's wealth is usually placed very large. Bye and bye we learn a little more and the fortune begins to dwindle. Then further information comes and brings the truth, the newly married couples are pushed to meet their grocery bills, and a second year, sad to relate, the couple move to the old home community and live with the wife's or husband's parents.

A lady customer stepped into the Ford Morris Meat Market and called for fresh eggs saying I want them absolutely fresh. Ford whispered to one of the boys to go back to the refrigerator and see if the eggs were cold enough to sell. Do you get this point. If not ask Ford Morris, he knows.

common Everyday Colds!

"Colds" are dangerous! Don't regard them lightly. According to government statistics, diseases of the breathing apparatus are responsible for more deaths than any other single cause, including cancer or heart disease. While respiratory diseases often start seriously, they are closely related to "colds" and in many instances are directly traceable to catching cold.

Municipalities have made great progress in stamping out typhoid fever, smallpox, diphtheria and other communicable diseases that once demanded their grim death toll. But America's Public Health Enemy Number One, the common cold germ, still rages rampant as a constant threat to the health and safety of our loved ones. Frequently "common colds" pave the way for such serious illnesses as pneumonia, bronchitis, influenza, tuberculosis and other serious respiratory diseases that result in so many deaths each winter.

Any sudden change in temperature as you go from a warm room into a cold one disturbs the heat-regulating apparatus of the body and makes it susceptible to the vicious attacks of "cold germs."

Your health and that of your family is your most valuable possession. Guard it this winter with proper ventilation and adequate heat in every room in the house. COMMUNITY NATURAL GAS COMPANY.

Tune in each Thursday night at 6:45, WFAA-WBAP, beginning October 17, for vital facts to help you guard your family against Public Health Enemy No. 1.

America's Public Health Enemy Number One, the common cold germ, is marshalling his forces for winter!
