**Plowboys Now Have Pennant For Western Division Well Within Reach, Unless Trick Of Fate Overtakes Them**

The Roscoe Plowboys ran rough shod over Rotan's Yellow Hammers in conference game at Rotan Friday night to roll up a decisive victory of 42-0. A week before the Yellow Hammers had outplayed Colorado to annex a scoreboard rating of 19 to 0.

Sports editor on the Abilene Mornings News offers the following comment on the game:

The victory virtually clinched the championship of the west half of district 6 for the Plowboys, whose strongest opposition had been expected from Rotan.

From start to finish Emerson, Jones, Fitts, and Grey smashed and whirled through the Yellow Hammers line, while Rotan was unable to muster its offensive forces for a serious threat.

Grey plunged for the first touchdown in the opening quarter, after Fitts had carried the ball in scoring range, and Emerson made the extra point.

Emerson's 20 yard dash to the 15 yard line in the second quarter led to another touchdown, which was made by Jones, with Emerson again converting. The third counter was credited to Grey, who bucked the ball over from the three yard line, following a twelve yard run. For the third time Emerson added point, and the score was 21 to 0 at the half.

The last half scoring was launched with an end run by Emerson, who failed to convert. B. Smith fumbled behind the goal, recovered, and was tackled for a safety, bringing the score to 29 to 0 at the close of the third quarter.

A line plunging attack begun early in the fourth round, carried the ball from Rotan's 40 yard line to its three, from which Emerson scored the fifth touchdown. He kicked goal for the point. Grey intercepted a pass on the Yellow Hammer thirty yard line and ran it back for the final score, but point was missed.

**LET'S COOPERATE IN THE SAFETY DRIVE**

In the last several years, there have been quite a few accidents in which some student has been run over by an automobile while coming to or going from school. Fortunately, only one of the accidents proved fatal, but something must be done to prevent any further accidents of this nature.

The school, city, and other organizations are planning a safety drive to prevent these accidents, and all students should do their best in cooperating with them to make this town safer for students while coming to and going from school. In the near future there are to be two safety lanes marked off in front of the high school. Cars will be required to stop at these safety lanes, and this will eliminate all danger caused by students scattering out and walking on both sides and in the middle of the street and will enable them to see all approaching traffic. Drivers of cars may do their part by observing the stop signs and by driving carefully, especially when driv-

## Leading State Educators Congratulate Miss Cooper On Typewriting Text Book

Numerous leading educators of  
the state have written letters of ap-  
proval and congratulation to Miss  
Octavine Cooper, head of the voca-  
tional commercial department of Col-  
orado High school, since the recent  
publication of her text-book, "Effi-  
cient Typewriting."

The book was published by the  
Bone-Crow company of Waco. The  
first books came off the press October  
1. Over 100 have already been sold.  
Part of the book, that for the  
first year of typewriting, was written  
by Miss Cooper as the thesis for her  
master's degree. The second part,  
dealing with second year typewrit-  
ing, was written by Miss Cooper last  
summer.

The Bone-Crow company accepted  
the thesis for publication early last  
summer after it had been adopted as

a text for all vocational work in  
Texas.

Some of those who have written  
Miss Cooper letters of congratula-  
tion and approval are: Miss Laura  
Murry, head of teacher training for  
vocational work in the state; Miss  
Irma Dean Fowler, state head of high  
school vocational work; Miss Susan  
E. Mann, former deputy state super-  
intendent in this district, now at Al-  
pine; W. P. Boyd, assistant professor  
of commercial English in the Univer-  
sity of Texas.

In his letter Montee S. Carroll,  
dean of the school of business ad-  
ministration at Baylor university,  
said: "I consider your publication an  
original contribution. . . . It shows  
original contribution. . . . It shows  
Miss Cooper submitted her book  
for publication at the insistence of  
George H. Fern, state supervisor of  
vocational work.

## Negress Arrested After Another Is Cut During Fight

Butcher Knife Used By Black  
As Women Open Warfare  
On Farm Southwest Town

May Simons, negress, is meditating  
in the county jail while county offi-  
cials await outcome of serious knife  
wounds inflicted in the stomach and  
breast of another negro woman on  
the Bud Franklin farm late Tuesday.  
Charges of assault with intent to  
murder have been lodged against the  
black.

Pauline McCord, negress to receive  
the dangerous knife wounds, was re-  
ported improved Thursday morning.  
Wednesday her condition was con-  
sidered grave. A large butcher knife  
was used by the Simons woman to  
inflict several deep slashes in body of  
the other woman. One of the cuts  
opened up a gaping hole in the vic-  
tim's stomach.

## Cooperative Gins On Increase This Area, Report Says

More than 200 local groups of  
farmers in Texas and Oklahoma are  
ginning their cotton this season in  
co-operative plants, a study by the  
Farm Credit Administration shows.  
In several counties, it is estimated,  
fully half the crop will be ginned  
co-operatively.

Favorable cotton prospects this  
season as compared with 1934 gave a  
decided impetus to co-operative gin-  
ning, with the result that a number  
of new co-operative ginning associa-  
tions were formed, the FCA reported.

At the end of the 1933-34 season  
some 31,000 farmers in Texas and  
Oklahoma organized into 170 local  
co-operative ginning associations had  
combined total assets after allowing  
for accumulated depreciation on  
buildings and equipment of more  
than \$5,000,000. Of this approxi-  
mately \$3,500,000 was furnished by  
the farmers, the remainder consisting  
of loans and mortgages.

These 170 associations ginned more  
than 525,000 bales of cotton during  
the 1933-34 seasons, with a gross in-  
come from this source alone of \$2,-  
500,000. Approximately 170,000  
tons of cotton seed and 250,000 bales  
of cotton were bought from the farm-  
ers. The total gross sales of all prod-  
ucts and services amounted to about  
\$17,000,000.

## TREES TO BE PLANTED

DALLAS.—More than one hundred  
varieties of native Texas trees will be  
planted in October to form the back-  
ground of the \$200,000 landscaping  
plan of the Texas Centennial Exposi-  
tion.

Sections of the Exposition grounds  
will be devoted to flora typical of the  
various parts of the state. A pine  
grove will shade masses of wild flow-  
ers representative of East Texas. The  
cactus, in its numerous varieties, will  
typify the West. Palms and oleand-  
ers will recall the Gulf coast and its  
sandy beaches while the Rio Grande  
section will be brilliant with the  
tropical colors of hibiscus and bou-  
gainvillea.

The crepe myrtle will be planted  
by the thousands throughout the  
grounds and its brilliant pink and red  
will dominate the color scheme. It  
blooms from June when the exposi-  
tion opens, until Autumn.

The blue bonnet, state flower of  
Texas, will have blossomed and gone  
to seed before the exposition starts.  
Its place will be taken by the rose  
and thousands, including the newly  
developed Texas Centennial Rose, will  
be planted.

## Motorists Will Be Penalized, Ashburn Charges In Letter

A million and a quarter Texas  
motorists will be penalized for the  
principal benefit of a relatively small  
group of bondholders if the proposed  
one cent per gallon increase in the  
state gasoline tax is approved by the  
legislature, Col. Ike Ashburn, execu-  
tive manager of the Texas Good  
Roads Association, declared in a let-  
ter received Monday by The Record.

The present State gas tax is four  
cents per gallon, of which one cent  
goes to the common school fund and  
another cent to refund the outstand-  
ing bonds of the various counties  
spent on construction of State high-  
ways.

The new proposal, House Bill 89  
by Alsop, would raise the State tax  
to five cents per gallon, using the  
additional cent to refund all out-  
standing county securities for lateral  
and secondary roads as well.

Colonel Ashburn, whose organiza-  
tion is composed of 25,000 motorists  
in all sections of the State, said, "We  
do not think it right to redeem bonds,  
many of them heavily depreciated,  
for the profit of the bondholder and  
at the expense of the motoring pub-  
lic." He named a Dallas bond at-  
torney who is in Austin actively  
sponsoring the bill.

"We further believe," Colonel  
Ashburn continued, "that to tax pro-  
vident counties, which have not had  
the benefit of large road programs,  
to pay off the bonds of counties  
which have voted large programs, is  
unsound and unfair."

## THIRTY-FIVE CALVES PUT ON FEED BY FFA BOYS OF COLORADO HI

In an effort to carry out the pur-  
pose of Vocational Agriculture train-  
ing to "Earn While You Learn,"  
members of the Colorado FFA club  
placed 35 good feeder calves in the  
feed lot October 30. These calves  
will be fed for 180 days. At the end  
of that time the calves will be shown  
in a local Fat Stock Show. The tops  
of the local show will be exhibited at  
Sweetwater about May 1st.

The calves will be fed a ration  
consisting of home grown feeds.  
The feed schedule published in the  
October 25 issue of the Record will  
be followed closely.

Those feeding calves are: Ivy  
Jones, R. C. Snively, Douglas Rich-  
ardson, Duff Chesney, Lewis Hughes,  
Louis Blassingame, Joe Leonard  
Blackard, Edwin Carlock, Floyd Wal-  
lace, Bill Galey, Junior Thomas,  
James and Joe Pritchett, Forest and  
Alvin Smith, Hall and Aubrey Frank-  
lin, Walter Rankin, Quinton Ham-  
merick, Raymond Fuller, Corley  
Rogers, Billy Bob McGuire, Maurice  
Watson, Rudell Glover, H. W. Venus,  
Kirk Carpenter, and John Colson.

## ROBT. KIRSCHBAUM WINS IN ST. LOUIS CONTEST

Robert Kirschbaum, son of Mr. and  
Mrs. M. L. Kirschbaum, was notified  
Wednesday that he had won a \$20  
prize in a photograph contest in  
which he took part while in St. Louis  
with his parents last summer.

A check for the amount of the  
prize was enclosed with the letter.  
The contest, known as a "screen  
test" photograph contest, was spon-  
sored by the J. D. Carson Furniture  
company of St. Louis. One of the  
photographers stopped Kirschbaum  
for a snapshot as he walked down a  
St. Louis street and the picture  
which he took turned out to be a  
prize-winner.

Photographs were judged on natu-  
rality, originality, unique lighting,  
and other features.

(Continued From First Page) government to do something.

"And in this our organized society of government has done a noble part. There were farmers in every part of the nation who had not even the money to purchase seed to plant their crops. Their banker could not loan them the money and they of necessity had to look to Uncle Sam. To date your government has loaned eight billions of dollars to her farmers and not one dollar has been defaulted. The American farmer is basically honest and will pay his debts."

Mr. Thomas spoke of U. S. Savings Bonds now being offered by the government as an investment. "They

present the most acceptable investment buy that the little fellow can command and are in keeping with

our National program to take all citizens in on the program of financing our general recovery program."

### Spooks And Witchy Spirits To Hold Sway Tonight At Parties, On Streets

Spooks and witchy spirits will hold sway tonight in Colorado, with several large parties scheduled to take place and the downtown parade of little Halloweeners as usual.

### Three Hostesses For Dorcas Class Meeting

Three hostesses, Mrs. Bob Hubbard, Mrs. W. A. Rose, and Miss Violet Moeser, entertained the Dorcas class of the first Baptist church at the home of Mrs. Hubbard Tuesday afternoon.

The devotional was brought by Mrs. Jack Smith, who read the sixty-third Psalm. Reports from all standing committees were heard. Mrs. Mary Lynch, class teacher, talked on the efforts of the class to reach the standard of excellence.

Halloween diversions were in charge of Mrs. P. D. O'Brien, Mrs. Jack Smith, and Mrs. R. A. Blackard. The hostesses served fruit cake, coffee, and nuts.

### Tacky Party Friday Night For BPW Women

A tacky party was the entertainment arranged for members of the Business and Professional Women's club Friday night by Mrs. Leslie Crowder and Miss Mae Davis at the Crowder home.

Mrs. Z. B. Morris was judged to be the funkiest one in attendance. Her prize was a large package of vegetables tied with a white satin ribbon. She in turn presented the prize to the only guest, Mrs. Jim Hale, who ran second in the tacky contest.

Seven tables of bridge players will be entertained by Mrs. Benton Templeton and Mrs. Dell Barber at the Barber home during the evening. The party will be held in the Barber's new basement game room and will have, of course, a Halloween setting.

Members of the Eastern Star will frolic in a complicated and highly spooky setting at the home of Mr. and Mrs. J. T. Howell.

Numerous children's parties are planned for the evening, among them one at the home of Bobbie Lon Cooper.

The jack-o'-lantern was made from a real pumpkin and lighted. Paper cuts and pumpkins were placed around the playing rooms. Mari-golds, large and small, were floral decorations. Tallies and scorepads were handmade in the Halloween motif.

### Assembly News

Last Wednesday morning the seventh grade, under the direction of Miss Ott, presented a very interesting program. The first number gave a glimpse into the school of tomorrow. A play, "The Ultra-Modern School," was given by the following: Teacher—Ruth Smith, Fanny—Kathlyn Whitefield, Flossie—Harry Etta Landers, Tom—Gerald Anderson, Edward—Van Pearson Boston, Algenon Percival McSwiggan—Earle Neal.

The next number was piano solo, "Love's Old Sweet Song" and "Loch Lomand."

#### Sport News

All volley ball games for last week were called off on account of cold weather.

Well, basketball days are here again! Everyone is full of pep and ready to go. Westbrook, let's get behind these teams, help them in every way you can and they will repay you in winning every game possible.

Things get worse every week. If a student gets five demerits in one week he is ineligible to play ball the next week, or if he gets thirty demerits in six weeks he is ineligible to play the next six weeks. Prediction: When basketball begins in earnest there will be fewer demerits. Athletes do behave!

Wednesday night we saw Boris Karloff playing in "The Bride of Frankenstein." I hope everyone got as many thrills and chills out of it as I did, although I did have to look under the bed before retiring.

In glancing through a few old pages of scraps I found the following decalogue written to teachers of Childrens High school. It really would be useful to the Seniors if the

### Teachers of Westbrook High School would read this and act accordingly. TEN COMMANDMENTS FOR TEACHERS

1. Thou shalt not bestow heavy lessons upon thy students.
2. Verily, I say unto thee, thou must respect thy students rights that thy health may be better.
3. Thou shalt not call thy students ignoramuses nor idiots; so saith the student body.
4. Thou shalt not chew gum in the school building for fear of tempting thy students.
5. Thou shalt not read the "friendly" notes thou takest from thy students.
6. Thou shalt not throw wise-cracks at thy students that thy days may be longer.
7. Thou shalt not go riding with railroad engineers nor book agents.
8. Thou shalt not break up a "friendly" fight, lest death be laid at your door.
9. Thou shalt at all times be ready to furnish thy students with necessary implements for writing, lest thou spend thy last days in misery.
10. Honor thy student as thy son, that he may not grow up with hard feelings toward thee!

### Junior News

The Juniors are to present a program Wednesday in assembly. The play is one with which we are very well satisfied because it will take no unusual acting. In "The Baby Show," we can use our everyday acting. Harris Wilson, our biggest baby, weighs only 190 pounds and has three teeth. He is considerably underweight. We invite you to attend and see who wins this 1935 baby show.

### Sophomore Sayings

**WE WONDER WHY—**  
Ava hasn't learned that it is impossible to kick someone larger than she?

Glyn selected "When I Was in Love" as his memory selection in English?

Miss Ott got so angry when we said that Mr. Hood graded our algebra papers?

**WE WONDER WHO—**  
-Kent Flonelle up so late Saturday night?

Elizabeth went with to the party Saturday night?

Makes Elton such a woman hater? Bill and Harold escorted Sunday afternoon?

### THINGS YOU MAY OFTEN HEAR BUT WILL NEVER SEE—

A Senior of 1936 acting undignified.

Mr. Lauderdale conducting a class without a round-table argument.

Sue without her gum.

8th period study hall quiet.

Jimona taking it slow and easy and not in a hurry.

Miss Ott riding horseback for the fun of it.

Dennis paying attention in class to every lesson.

Earle without his comebacks.

Jo Nelle without a current heart failure.

**SLIPS THAT PASS IN THE DAY—**  
So another week comes and stays but a brief while, then it vanishes leaving memories, good and bad, and achievements and losses. This is a funny old world, isn't it?

At last the cold weather has let up and I see by mine own eyes that several of the Seniors took advantage of the fact over the week-end. I'll give you a few hints, but remember, if anyone asks you where you heard such absurd hints just say that a little bird told you.

Seen on the streets in Colorado Saturday afternoon: Miss Cook and Miss Kent, looking like two school girls—

Earle in a hurry, flying down the street. What was the matter, Earle? She must have been trying to give you the slip—

Flonelle window shopping, or was that merely a bluff to fool the good-looking young man?

These eyes of mine almost deceived me Saturday night. Jo Nelle and James, and several ex-students seen riding around. My, it was a very exclusive conglomeration. And was it only last week Jo Nelle was singing "Nobody's Darling?" Good work my girl.

Noticed several ladies of my acquaintance looking at new suits Saturday (window shopping). Wonder if a certain bug has stung some of

### Parents Enthusiastic Over School Safety Campaign Launched Monday

After seeing working features of the campaign launched Monday by the Mothers' club and school and city officials for greater traffic safety of Colorado school children, parents of Colorado school children were expressing themselves early this week as being heartily in favor of the campaign and its continuance.

City traffic officials, assisted by a group of Junior high school boys, have been on special patrol duty in the Coleman-Hutchinson-Junior high zone all week. Those who come in cars for their children have been given copies of the following regulations:

"When parking on the side of the street next to the school building, park at an angle. When parking on side opposite school, park parallel to curb. Avoid double parking, as this will enable all children to reach their cars without getting out of safety lanes. Do not drive across safety lane while children are crossing. If on right side of street do not drive across to left side to park. If a child swings on outside of your car, stop. Help us put over this educational drive by reporting to teacher or patrol man any thoughtless act that you think the children should be cautioned about."

Copies of these regulations have also been sent to parents of each school child, and the children themselves have been cautioned to walk in safety lanes and comply with all rules.

## CLARENDON FARMER IS GROWING OWN TOBACCO

Tobacco and not cotton should be the chief money crop in West Texas, thinks P. A. Buntin of Clarendon, who raises his own smoking tobacco.

"I see tobacco as a commercial crop for West Texas that will exceed cotton 10 to one," he said. "Unlike the crops in Kentucky and the old tobacco country, insects do not molest the crop here. It is far easier to raise than cotton and it requires little attention during its period of growth."

Probably the only tobacco raiser in West Texas, Buntin cultivated 120 plants this year. They were about four feet high and produced leaves two by three feet.

After drying the plants he distributed choice tobacco to his friends and had more left than he knew what to do with.

"I don't know that I ever will smoke it up," he commented.

## THOSE LOFTY ATTRIBUTES SOUGHT AS BEST IN LIFE REFLECTED IN LIONS CLUB

### District Governor Randell In Stirring Address on Tenets Of Service Organization At Special Meet Wednesday

Lionism has progressed with greater pace than any other international service organization due to the never failing call of its influences that man can best fill his niche in this world by rendering an unselfish service to those about him, at the same time championing the high principles for which the church and the ideals of Americanism stand.

That was the mental picture painted during an address by Ralph Randell of Panhandle, governor of District 2-T, Texas, before a special meeting of the Colorado club Friday evening at the Colorado hotel. Governor Randell was on his first visit to the local club since election at the last annual convention held in Plainview last Spring.

"The Lions Club is great in blending men to conform with those high principles of citizenship because it is a place where 80,000 men meet once a week to face their flag and sing the National anthem, subscribing anew to the principles and ideals for which they stand," he said. He mentioned health, happiness and heaven as three of the major objectives to which the true Lion would strive.

"Restoration of a crippled child to health and happiness brings to the Lion one of his greatest and most lasting joys," the district governor declared after reviewing work of the service organization in playing the role of a Good Samaritan to the neglected and unfortunate boy and girl. "And, as he assists this unfortunate child back to normal life and usefulness, he leaves happiness where there had been sorrow and hope where there had reigned despair."

Lionism is not a religious organization and cannot take the place of the church, Governor Randell said, "but the man who subscribes to the tenets of this organization will build into a stronger Christian character and contribute more liberally to gainful pursuits to progress of Christianity."

Governor Randell was introduced by Rev. Alex B. Hanson, chairman of the program committee. At conclusion of his address the service organization leader presented Jack Newsom, grocer, to the club as a new member. Newsom was elected two weeks before.

Presented on the entertainment program were three youthful Colorado artists in dance skits under direction of Mrs. Bill Martin of Lomine. The children, each of whom received liberal applause, were Doris Handie, Billy Gregory and Nina Katherine Quinney. The latter appeared in blackface.

#### GIB QUINNEYS HERE

Mr. and Mrs. Gilbert Quinney arrived from Lubbock late last week and are now at home in the Colorado hotel. Mrs. Quinney resumed work Monday morning at her old post in Dr. C. L. Root's office.

## Colorado-Roscoe Conference Contest To Be Staged At Cantrill Field Friday Night

The Roscoe Plowboys are to invade Cantrill Field Friday night for their annual attack on the Wolf pack, C. A. Wilkins, principal of High school announced Monday morning. Agreement to change the game from Roscoe to Colorado was reached during conference between Colorado and Roscoe school officials at Roscoe Sunday. Originally the game had been slated for Roscoe on Friday afternoon.

Bringing the Plowboys to Colorado means that the Wolves are to entertain a total of seven games on their home field during the season.

"Though they will enter the game with Roscoe as the weaker team, Coloradoans are strongly urged to continue their support of the Wolves," was Wilkins' appeal to local fans. "Moral support from the grandstand and the sidelines will have its effect in inspiring our boys to exert every technique and bit of power to hold the visitors."

### Rains Cause Roby Colorado Game To Be Chalked Ahead

A soggy field occasioned by more than an inch of rainfall, together with threatening clouds to impress that additional moisture was due, prompted school officials of Colorado and Roby to postpone scheduled conference game here Friday night. The melee is on the calendar for night of November 15, C. A. Wilkins, high school principal, stated Friday at noon.

"It was the only practical way out," Wilkins stated. "Unfavorable weather conditions would have reduced attendance to the minimum and it is most probable that the teams could not have played at all, if indications of rain now prevalent should materialize."

### RED CROSS CONFERENCE ATTENDED BY OFFICIALS MITCHELL COUNTY UNIT

Conference of Red Cross roll call executives for the Mid-Western division of Texas held Friday in Abilene was attended by J. H. Greene and Hayes Holman, officials of the Mitchell county chapter.

Deffebach is a first lieutenant in the corps and was placed in charge of the second division, Fifteenth Field artillery, at the camp.

## COURT CLERK HERRINGTON DETAILS PROVISIONS THAT HUNTERS SHOULD RESPECT

### Sportsmen Calling At Office Daily To Request Text Of State And Federal Gaming Statutes, He Tells Record

For benefit of Mitchell counties who within the next few days will be going afield in quest of certain game birds and animals, as open season on the creatures arrive, County Clerk James Herrington requests this newspaper to outline some of the pertinent provisions that hunters, under the law, are required to meet.

The county clerk stated that scores of citizens were calling at his office to request information relative to open dates and laws, both State and Federal, governing the sport. "I accept that columns of this newspaper is the best source available to carry the information desired direct to the hunters," he commented.

Open season on deer, a game animal that every Fall attracts scores of local citizens to the mountainous areas of Southwest Texas, New Mexico and other localities, is to arrive on November 16 for all species classed under statute as game. For white-tail deer and black-tail or mule deer, (the latter east of the Pecos) the open season will run through to December 31. On black-tail deer the season west of the Pecos will close November 30. Only bucks with pronged antlers may be shot and the bag limit is one a season.

Open season on duck is to open on November 20 and run through to December 19. In addition to the State hunting license requirement of a Federal "duck stamp" which may be obtained at the post office for \$1.00 is required of all those hunting ducks, geese and brant.

The quail season does not open until December 1 and runs to January 16, in both the North and South zones. It should be of interest to local hunters to bear in mind there is no open season in several counties in this immediate section of West Texas. Among these are Andrews, Borden, Coleman, Ector, Gaines, Glasscock, Martin, Midland. The bag limit is 12 a day and not more than 36 during any one week.

The turkey open season is to open, in both zones, on November 16 and close December 31. Bag limit is three gobblers for the entire season. Under no conditions are hunters permitted to kill hens. Bears may be hunted during the period of from November 16 to December 31. Bag limit, one a season.

A resident hunting license for the season, priced \$2.00, is required of every citizen of Texas over the age of 17 years, who hunts out of the county of his residence. Persons residing outside the State will be required to pay \$25 for license permitting them to hunt in Texas.

Herrington placed considerable importance on Federal statute requiring that automatic and hand-operated repeating shotguns used for hunting migratory game birds, including duck and geese, be plugged with a one piece metal or wood fiber filler incapable of being removed, so as to reduce capacity of said gun to not more than three shells at one loading.

### MEXICO TO BAN HUNTING ALONG WIDE NORTH ZONE

Recent announcement from Mexico City that the government had established a zone 325 miles wide extending along the entire American boundary in which hunting would be banned was received with a deal of interest among local citizens who annually had gone into that territory in quest of big game. The country is open to hunting, however, south of the restricted area.

Terraplane Custom Brougham for 1936, mounted on a 115-inch wheelbase chassis with an 88-horsepower engine and 100 horsepower optional

## New Standards Of Beauty, Engineering In New Terraplane Cars Now Being Displayed

Completely new and more modern than ever in appearance, more luxurious in style, and with a wealth of engineering development, the new Terraplane for 1936 are here and are on display at J. D. Leineweber Motor Co. showroom floor. Not only do the new cars attain entirely new standards of beauty, but they incorporate safety engineering features to a degree never before found in automobile chassis and bodies. In addition, there are a number of innovations of a fundamental nature which no cars have ever had before.

Although these cars are still in the lowest price field, they are much bigger and finer than their predecessors of the same make. Of interest from a safety, as well as comfort standpoint, is the wholly new principle, Radial Safety Control, which makes possible greater safety in riding, steering, and stopping. So marked a difference does this new front end system incorporate in the riding qualities of the car that the manufacturers of the Terraplane have given the name, Rhythmic Ride, to the result of the synchronized and unified suspension system.

This new front end system also introduces Tru-Line steering, bringing a new road sense to the steering wheel because of the accurate control of the steering system, regardless of road condition. Another new feature is the Duo-Automatic hydraulic brakes which incorporate a big husky hydraulic system with the double safety factor of an automatic reserve brake of the rotary-equalized mechanical type.

On the bodies, which have one-fifth more room inside than many cars selling at double the price, is the automatic draft eliminator—a feature added to Terraplane's all-year ventilation system which automatically equalizes air pressure inside and outside the car and screens the air entering the body in connection with the ventilating system. Mounted on a full 115 inch wheelbase and equipped with an 88 horsepower engine, and 100 horsepower

## COUNTY JAIL FILLED TO LIMIT MAYOR SADLER NOTED MONDAY MORN

The Mitchell county jail was filled to capacity Monday morning after members of the sheriff's, police and constable's departments had cooperated in drive over the week-end to curb alleged law violations, Mayor J. A. Sadler reported Monday morning. A number of the prisoners were facing charges in corporation court. Rumor that Sunday morning went the rounds to effect a youth from another community had been shot and dangerously wounded by a Colorado police officer the night before soon lost interest when it developed there was nothing to the tale.

Flexible spring, can be employed without in any way affecting the control of the car, but providing infinitely better riding qualities. The front springs can thus be synchronized properly with the rear springs giving rise to what Terraplane engineers have called the "Rhythmic Ride."

### Lower Prices On Oldsmobile Cars Davis Announces

#### Savings On Some Models To Reach Over \$50, Dealer At Colorado Announces

The new 1936 Oldsmobiles, just announced, will be offered at new lower prices, according to W. C. Davis, Oldsmobile dealer in Colorado. Although every proven feature necessary to safety, comfort, performance and economy has been retained and many new ones added in the new 1936 Oldsmobiles, the prices will be lower, the Oldsmobile dealer said.

"In addition to those advantages which have contributed so heavily to Oldsmobile success . . . such as knee action wheels, super hydraulic brakes, solid steel 'turret top' body . . . many new refinements of motor, body and chassis have been built into the new 1936 models," said Mr. Davis. "Safety glass is now standard equipment throughout, in all body types. Electro hardened aluminum alloy pistons give increased economy of operation and smoother, livelier performance. Scores of other improvements have been built into the new cars."

"And despite the many additional values in these new cars the new low prices will effect reductions of as much as \$57.50 in the delivered price of the Oldsmobile Eight and \$17.50 in the delivered price of the Oldsmobile Six."

List prices at Lansing were quoted by the Oldsmobile dealer as follows: Oldsmobile Six business coupe \$665; sport coupe \$730; five passenger coupe \$730; five passenger touring coupe \$755; convertible coupe \$805; four door sedan \$795; and four-door touring sedan \$820.

## DAVIS MOTOR COMPANY

COLORADO, TEXAS

### Oldsmobile Announces Two New Models For 1936, Davis Motor Company Notes

Oldsmobile announced two models, the Oldsmobile Six and the Oldsmobile Straight Eight.

Proven mechanical feature which adds to comfort, safety, economy or performance is engineered into the 1936 Oldsmobiles, C. L. McArean, Oldsmobile president and general manager said.

Principal among those features which are found on the new Oldsmobile are:

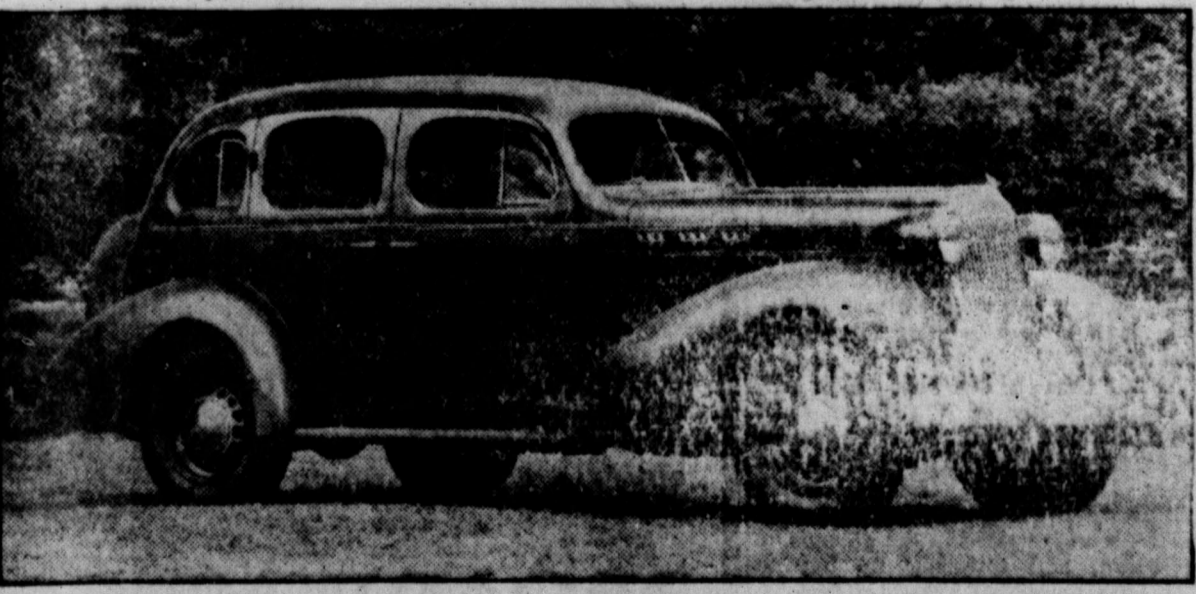

- Super-hydraulic brakes, self-energizing and self-energizing, which stop any other steering system.
- Ride stabilizer, which "straightens out the curves" by eliminating car sway while rounding turns at high speed.
- Hardened aluminum alloy pistons, electrically treated to make them far harder and more durable than those fashioned from ordinary aluminum. These pistons reduce oil consumption, minimize carbon deposits, lengthen bearing life, and greatly lessen the possibility of scoring cylinder walls.
- Smooth engine performance, materially improved by the use of the light weight pistons in conjunction with an especially heavy counter-weighted crankshaft, and tri-cushion engine mountings of rubber banded to steel. The Oldsmobile Six engine develops 90 horsepower, that of the Eight 100 horsepower.
- Increased gasoline economy through an improved method of spark control.
- An anti-percolating device which prevents gasoline in the carburetor float bowl from being forced through the manifold after a long run in hot weather.
- Weight distribution so that all passengers ride comfortably between the axles.
- All silent synchro-mesh transmission, with quiet, easy shifting in all gears.
- Striking new design, sweeping in one graceful curve from bumper to bumper, marks the 1936 Oldsmobile.

Oldsmobile in 1936 presents an entirely new treatment of the front end without sacrificing any of Oldsmobile's identifying characteristics.

Mounted in such a way as to make the radiator easily accessible, the massive 1936 grille adds to the appearance of the new front end.

The solid steel "turret top," the split windshield, the streamlined rear contours, the lines of the doors—all blend into the picture which is the 1936 Oldsmobile.

### THE CAR THAT HAS EVERYTHING

Oldsmobile presents, in 1936, two new automobiles into which every proven feature has been engineered. These features include all those advantages which add to the comfort and safety of the passenger as well as the economy and performance of the motor. Important among the 1936 Oldsmobile features are livelier power, increased luxury and comfort, super-hydraulic brakes, center-control steering, solid steel "Turret Top" body by Fisher, knee-action wheels, smoother performance, increased all-around economy and safety glass as standard equipment in all models. The model pictured above is an Oldsmobile Six Four Door Touring Sedan.

THE BIBLE

We turn this column over this week to part of a sermon by Dr. M. A. Jenkins, pastor First Baptist church at Abilene. Text: Phil. 2:16, "Holding forth the Word of Life."

"The word of life." Such is the Apostle's designation of the Holy Scriptures. Three thousand five hundred years ago, the first of the books of the Bible were written. A period of fifteen hundred years was covered in its completion. From the first, and all down the centuries, its enemies have opposed it. Delectian marshalled against it the powers of Rome. The genius of Celsus, the philosophy of Porphyry, the satire of Lucian, the reason of Tom Payne, the invective of Voltaire, and the ridicule of Ingels have been hurled against it, but it has stood unshaken.

In 1414 an edict went forth forbidding the people to read the Bible in English, on penalty of forfeiting their lands, their cattle and even their lives. William Tyndale, a highly educated Oxford man, protested in a controversy with a high churchman, "If God spares my life, ere many years, I will cause a boy that driveth a plough shall know more of the Scriptures than thou knowest."

were printed, and hidden away in merchandise, and shipped to England, where the common people received them with rejoicing. The ecclesiastics led by Bishop Tunstall, set about burning every copy they could lay hands upon, and through a merchant at Antwerp by the name of Packington, who, unknown to them was a friend of Tyndale, bought all the copies they could get at any price, and burned them at St. Paul's Cross, London. But by the high price they paid for those copies they were only supplying Tyndale with greater sufficiency of funds to bring out more editions.

In May, 1535, betrayed by a false friend, Tyndale was cast into prison by Charles V, but found favor with the keeper of the castle, and continued his work of translating the Old Testament Scriptures, till on October 6 of the next year he was burned at the stake as a heretic, and died with a prayer that God would "open the king's eyes. But a year previous Myles Coverdale, which drew largely from Luther and Zwingli's Old Testament translations, and followed closely Tyndale's translation of the New Testament, brought out Oct. 4, 1535, the first edition of the complete English Bible. Henry VIII restricted its reading to the upper classes. Edward VI, during his brief reign, encouraged its circulation. Bloody Mary, who succeeded him, forbade its circulation, but its publication was never again suppressed. The authorized or King James version appeared in 1611, and down the centuries the English Bible has come, dispensing life, and radiating light to a lost world.

The Bible has been, is, and always will be the Word of Life. Miraculous Book, Book of all books, luminous with light that dwelleth not on land or sea, it is the most beautiful and priceless thing in all the world. It has made and unmade nations. It has uprooted kingdoms and empires. It has diverted the mighty tides of history. It has crumpled ancient faiths and superstitions. Because of its pagan Rome fell. Old systems of India and the Far East have had to bow to its enlightened sway. Its lyrics, of unfathomable tenderness, its orations of compelling power, its prose of unequalled grandeur, together with its emotional depths and intellectual heights, with everywhere indelibly stamped upon it the image of the Divine, make it the one and only Book of books vouchsafed for the guidance of mankind for all time.

Only ignorance, whether among the educated or the uneducated, scoffs at the Bible. The greatest rulers, the greatest statesmen, the greatest scholars, writers, orators, scientists, soldiers, and the untold millions of the common people whose collective genius outweighs them all, have placed the crown of glory upon its inspired head, and thrilled to its Divine wisdom.

Said Napoleon Bonaparte: "The soul can never go astray, with this Book for its guide." Said Leo Tolstoy, "Without the Bible the education of the child in the present state of society is impossible." With public schools and state colleges and universities pushing the Scriptures aside, and in many instances sneering at them; what responsibilities rest upon our churches to see to it that Bible training is carried on in our Sunday schools and young people's societies, and that our Christian colleges and universities are adequately fostered, guarded and maintained.

Gen. Robert E. Lee declared, "The Bible is a book in comparison with which all others in my eyes are of minor importance; and which in all my perplexities and distresses has never failed to give me light and strength." Gen. Garibaldi, the father of United Italy, said in the midst of the great struggle for liberty, "The best of allies you can procure for us is the Bible. That will bring us the reality of freedom." Said John Quincy Adams, a devout believer in the Scriptures, "The first and almost the only book deserving universal attention, is the Bible. I speak as a man of the world to men of the world, and I say to you, 'Search the Scriptures.'"

Determined to return to Albrit in Washington she teams up with Young, an enlisted man, and they crash the border, become fugitives, riding toward Washington in an auto trailer driven by Edwards whose one aim is to escape his nagging wife. Stalling all summer about producing the play, their bluff is called when the farm is left for security to raise money to build a "little theatre" in the barn, unknown to Haley. Pryor makes a musical comedy of the play and puts it on, but the ruse fails when the big producer doesn't attend. After a love affair split and some fast work the producer finally sees the production and all ends happily.

Story has Ratoff as a famous lion-tamer who adopts a girl orphaned by the tragic death of her father, and who later marries her to keep her from attracting younger men. When a handsome young magician becomes the new circus idol, Ratoff realizes that his act no longer draws the crowd and that his wife is in love with the other man. Maurice Elvey's direction piles on honor and disaster somewhat thickly for the average audience without inserting relieving touches of comedy. Kains plays a touring mind-reader who suddenly finds that he has the supernatural gift of foreseeing events. This power of clairvoyance comes to him only when he is in the presence of a wealthy girl whose nature is sympathetic. Predicting the Derby winner brings him fame and fortune, but his warning of a tunnel disaster so unnerves the workers that they turn against him and bring him up for court trial as the cause of the tragedy. In a dramatic climax he uses his power for the last time and returns to his wife who has remained faithful.

# A COLD caused this!

"Colds" are dangerous! Leading doctors tell us that fifty per cent of all disabling diseases START with a "common cold." Thus the cold germ becomes America's Public Health Enemy Number One.

Any sudden change in temperature as you go from a warm room into a cold one disturbs the heat-regulating apparatus of the body and makes it susceptible to cold germ attacks. Even the brief time that it takes to answer the telephone in an unheated hall is sufficient. Fight against "colds." They create a condition of depressed physical vitality which is favorable to infection and aid the progress of serious organic diseases that frequently result in death.

The common cold germ shows no favor. Invisible but dangerous, this Number One Enemy of Public Health skulks like a bandit of the night ready to rob you of good health.

If your home is inadequately heated . . . if you "huddle" in one room during winter, sudden temperature changes are unavoidable. Your family goes from an over-heated room where the temperature has climbed as much as ten degrees past the point necessary for comfort, into a cold hall or adjoining room; then shivering and chilled, they return to the heated room. This happens many times a day. Each time it happens they have made themselves susceptible to highly communicable winter diseases.

Fight colds this winter with proper ventilation and adequate heat in every room in the home.

Tune in Thursday night at 6:45, WFAA-WBAP, for vital facts to help you guard your family against Public Health Enemy No. 1

## Buford Baptists To Stage Benefit Bill On Friday Evening

Event Slated For Friday Of Last Week Set Ahead After Rains Mire Public Roads

The benefit program slated at Buford Friday evening of last week by members of the Baptist congregation was set ahead one week after heavy rains in the community had mired public roads and otherwise offered handicap to the attendance record desired.

The box supper auction, to be given on Friday evening of this week should be even more interesting, due to fact ladies of the church and others among the sponsors have had more time in which to prepare the program, it was suggested to The Record Tuesday afternoon in a telephone message from Buford.

Proceeds are to go into fund being raised to finance construction and equipment of a new house of worship for the Baptist congregation.

The swordfish reaches a weight of more than 600 pounds.

It pays to advertise.

## MRS. SIMPSON USES LEAVES AS PATTERN

Autumn leaves are being used for the pattern for a woolen hooked rug of Mrs. O. L. Simpson, bedroom improvement cooperator in the Fairview Home Demonstration club. A discarded woolen blanket has been dyed to make the tan back-

ground with shades of green, red, henna and orange for the leaves. Mrs. Simpson will have a rug costing less than a dollar. She will not clip the loops of the tufts for the wool wears better unclipped. After the hooking is done the rug will be steamed and pressed on the wrong side to make the loops stay in the background more securely.

## RETURN FROM FORT WORTH

Mr. and Mrs. John L. Doss returned Monday from Fort Worth, where they went last week to take C. Blake Reese to join Mrs. Reese and their daughters for their return to the Santiago, Chile, South America. The Reeses are to sail from New York November 9.

This information is being printed in this column in the hope that it will benefit farmers of Mitchell county in solving their farm problems.  
**JAMES PRITCHETT.**

## MAINTAINING SOIL FERTILITY BY TURNING UNDER GREEN MANURE

The major farm problem confronting the farmers of this county and West Texas is maintaining their soil fertility. Prosperity of Mitchell county in the years to come depends on the producing power of its soil, therefore, it behooves every farmer—renter or owner to begin the study of the great problem.

One factor of maintaining soil fertility that merits the attention of our farmers at this season of the

year is the turning under of green manure. Any form of green vegetation will serve as a green manure crop but experiment station tests show that green sorghum 12 - 18 inches high makes an excellent green manure crop because of its acid content that permits rapid decomposition.

Farmers can do no wiser thing during the few remaining days before frost than to turn under several acres of green manure. Not only will the plant food be partially restored but the moisture holding capacity of the soil is improved, one of the greatest needs of our soil today.

Farmers try turning under a few acres and observe the results during the 1936 crop.

## How Calotabs Help Nature To Throw Off a Bad Cold

Millions have found in Calotabs a most valuable aid in the treatment of colds. They take one or two tablets the first night and repeat the third or fifth night if needed.  
How do Calotabs help Nature throw off a cold? First, Calotabs is one of the most thorough and dependable of all intestinal eliminants, thus cleansing the intestinal tract of the germs which cause colds.  
Second, Calotabs are diuretic to the kidneys, promoting the elimination of cold poisons from the system. Thus Calotabs serve the double purpose of a purgative and diuretic, both of which are needed in the treatment of colds.  
Calotabs are quite economical; only twenty-five cents for the family package, ten cents for the trial package. (Advt.)

## KEYHOLE COLUMNIST

Help students—This column isn't so hot this week because the weather turned cold and caught the columnist napping.  
 Just loads and loads of orchids to the Hollywood Preview given Saturday night. Some of the impersonations were quite remarkable. June Cox did justice to her part, now you boys don't forget to "go up and see Mae sometime." Jesse Jones wasn't at all bad, but Bobbie Wright as Charlie Chase was terrific.  
 It seems that the coaching of the worldly-wise upper classmen will have been in vain. The Fish still persist in running down the halls regardless of whom they run into and knock down. Oh, well some people must be different.  
 Seniors, it's your last year here,

## "WHY JOHNNY GETS GRAY"

Oh what a good morning to sleep thought Johnny as he peeped from under the covers. "Jack Frost" had painted the window and icicles were hanging from the roof. "Johnny, Johnny, get up. It's time to get ready for school," came a shrill voice from the kitchen. Johnny faintly heard it, but turned back over and went to sleep. It seemed only a minute until two cold hands were shaking him. He finally got up half asleep. Partly dressed and wall-eyed he came to breakfast, hungry as a "bear." But what was on the table. Grapenuts and a dried piece of toast. Disgusted, he ate it and was off for school. Burr it was cold. Of all mornings to walk. Any other morning he would have had many offers to ride but not that morning.

When he arrived at school it was five minutes after nine. "What, late again? Johnny, if you don't stop being late I'm going to be forced to use the board of education on you," said the principal grouchily.

Johnny strode out of the office slamming the door behind him. The first two periods went along smoothly, except for getting a scolding from the teacher for making 29 on that silly physiology exam. The next period didn't go so well. A silly little, giggling girl turned over a bottle of ink right in his lap. Ink, ink, oceans of ink all down the front of Johnny's trousers.

Finally that horrible morning was over. Johnny went to his locker to get his lunch. And what do you think was there; a sack of rocks. Some boys had played a trick on him. It might be their idea of a joke but not Johnny, after that "Foul" breakfast. That afternoon things went fairly well, until after school. Who do you think he saw walking home in front of him? His best girl walking with Phil, the ladies man.

And people wonder why Johnny gets gray.

## PEP SQUAD

Because of the unpleasant weather last week, the Pep Squad was forced to put off the formation, and instead they composed and practiced yells. Lorene Hart became embarrassed when she was asked to sing a tune for them to learn, but she must have done some effective teaching, for the Pep Squad has learned the words and tune. Come to the game Friday night and hear the new yells and songs of C. H. S.  
 This week the formation will be an "R" and a "C" for Colorado and

there's a big surprise in store for everyone. Watch out football fans!

## "APPLICANTS"

The Eager Youth Club is to present a one-act play soon to the assembly. The name of the play is "Applicants." The very successful business man, J. W. Dunlap, is in need of an office boy. He advertises in the paper and several boys and girls report and apply for the job. Billy Henderson, Myra Brown, Willis Delle, Walter Rankin, Catherine DeLaney, and Beeman Dockery are unsuccessful at securing the job because they make mistakes in grammar. The efficient boy, Hunter Brannon, gets the job. Annetta Lacy is the secretary of the boss and tries to console him when many of the applicants fail to measure up to the firm's requirements.

## NEW BAND RULES

The Booster Band of C. H. S. is increasing in number every week due to the new physical education program. Since the band is learning new pieces, it will be much improved by the new members.

New rules have now been made in the band. The most important one so far is that between pieces, instruments must not be played. If this rule is broken the offender pays a five cent fine. This rule prevents a considerable amount of noise.

## COMMERCIAL NEWS

Miss Cooper has every right to be proud of her high school typing students, as every one has been making a high average on straight matter speed tests. One pupil typed 15 minutes making no mistakes and two pupils with only one mistake. Those students averaging 22 words a minute were Elizabeth Pidgeon and Irene Dossey. This record is very good since by the end of the nine months only 32 words a minute are required.

The new Office Training Classes are making progress. They visited the new post office for the purpose of writing a paper. The best one is to be sent to Washington D. C. to be entered in a contest.

## FRESHMEN LEARN WHY AND WHEREFORES OF ENGLISH GRAMMAR

The Freshman English Club met Friday the 25th for the sixth club meeting of the year which was devoted to the "whys and wherefores" of pronouns. The program was "Actual Problems of Every Day Life in English." News flashes started the program after which several members were called upon to make brief talks. G. D. Bryant made an interesting talk on "Who and Whom"; Jack Foster spoke on the "Pronunciation of Words"; J. T. Williamson talked on "It is I Whom Am Invited," and was interrupted by the rude peal of the bell. His speech will be presented next club meeting.

## INTERESTS IN SPAIN

Barcelona is the point of interest in Spain studied by the members of "La Tertulia." Elwood Beal gave a vivid picture of the old and modern city of Barcelona. Barcelona, the chief port of Spain, uses the Castilian language. It is one of the few modern cities of Spain. In the newer districts the streets are wide and modern. The buildings are of the most modern architecture. In the older part of the city the streets are narrow, winding, and crooked. Along the sides of the streets are produce stalls, markets and picturesque old houses.

Barcelona, like Madrid, is fast becoming modern but still the romantic past of old Spain clings to the older parts of the city.

## ENGLISH CLUBS GO POETIC

Having finished the interesting tragedy, "Macbeth," the English Clubs go poetic and are taking up the study of poetry. Each pupil has been reading and interpreting his favorite poem. Among the selections was the popular poem "Trees" by Joyce Kilmer, read by Willie Nell Vowell. Following her reading the class had the opportunity of listening to the same poem on the victrola.

After the reading of the favorite poems, the class will delve into the study of the history and technique of poetry together with the interpretation of the most interesting poets, past and present.

## BRAZIL COURT IN SESSION

Judge Brazil and the court have been having a trial for the past week. In the trial Frances Connell is being sued by Scott and Company whose lawyers are Regal Porter and Roy Miller, for debts that he refuses to pay. Key Will Palmer and Joe Lee are defending attorneys for Francis Connell. The star witnesses are Dr. Carl Moon, Miss Ruth Wright, Mrs. Loyce Andrews, and the defendant Mr. Connell. Although all the witnesses are extremely acquainted with the case, Dr. Moon has proved very astounding. Judge Brazil seems to be enjoying the case very much and the lawyers have a very promising future.

## THE CIVICS CLUB

The members of the Civics class organized a club Tuesday, Oct. 22. Class officers elected were: Johnny Mack Payne, president; Virginia Reese, vice-president; Walter Rankin, secretary-treasurer; Edna Womack, reporter. The president appointed Key Will Palmer, Virginia Reese, and Courtleigh Snodgrass on a constitution committee. Those on the program committee were Elsie Day, Melvin Boyd, and Eula Bell. Jane Ax-

tell, Earnestine Mathers, and Mattie Bell Hall will draw up the club resolutions. The club meets every other Friday. Mr. Brazil is planning on the club visiting the courthouse to hear a trial.

## TRAMP, TRAMP, TRAMP.

Yes, indeed, the girls are niking at a fairly fast pace every Wednesday and Friday at the seventh period. Under the sponsorship of Miss Barrett, the girls hiked nearly to town last Friday. A constant cry of "left-right-left" may be heard from a long distance and in case some people wonder where all the excitement is,

it's only some C. H. S. "gals" out for their daily exercise.

## HALLOWEEN EXCITEMENT

The Halloween spirit is with the third year Home Economics girls as they prepare for a party on Tuesday, Oct. 29, at the high school. The various committees are working hard on the plans for the party.

On October 22, 1935, the second and third year students met in their second club meeting. The third year girls initiated the second year girls. A large white candle was burning in the center of the stage. The third year girls lit their candles from the

main candle, while the younger girls lit their candles from the flames of the older girls. An oath was read while June Cox presided over the club.

The first year girls are studying the structural line of dresses. They will soon be able to choose designs suitable to the individual.

## GOING HOLLYWOOD

The Colorado citizens were given a very novel entertainment last Saturday night when local talent impersonated film celebrities at the midnight preview.

Much to everyone's surprise, many

of those who took part really looked like the actors whom they were impersonating, especially Etta Harkins, W. B. Crow and Donna Lee. Many were very funny but the most comical were probably the Three Stooges, Bobby Wright, June Cox and Nina Catherine Quinney.

The prizes for the best impersonations were awarded to Nina Catherine Quinney as Serina, of Our Gang Comedies, first; June Cox as Mae West, second; and Arnold Marshall, as Cab Calloway, third. The first prize was a two weeks' pass to the Palace theatre, the second a week's pass to the Palace theatre
