

LUNCHEON CLUB TO DIRECT COUNTY-WIDE TRADES DAY EVENTS OPENING MARCH 9

Organization Hopes To See Old-Time Swapping Arena Given Strong Impetus By Citizens Of Territory

The good old days when the monthly trades day brought rural folk into town from wide distances is to be in vogue again as Colorado launches such special events on Monday, March 9. Plans for sponsoring the monthly trades day were accepted by members of the chamber of commerce luncheon club at its bi-monthly meeting Tuesday at the Colorado hotel.

"I can see no reason why such an event as this should not prove successful, bringing material benefit to every industry represented in the Colorado territory," L. B. Elliott, chairman during the program, declared. "There is a place for this club in affairs of Colorado and the county and we have no idea how far our efforts may extend when the men making up membership of this club determine that progress is going to be attained."

Headquarters for staging the trades day program was not announced. This detail was left to a supervising committee announced by the chairman. Cooperation of farmers, ranchers and other citizens of the territory with business and professional interest of Colorado in building the special gathering was urged.

E. R. Bibby was announced as chairman on arrangements for launching the initial meeting. Other members of the group include S. H. Bedford, Lee Carter, H. I. Berman, W. S. Wimerley, S. O. Walfjen and W. P. Wilson.

The entertainment program was given under direction of Walter Wilson, chairman for the current month. Brief addresses were delivered by Rev. Dick O'Brien, a guest, and Truett Barber, George Black and Luther Scarborough, introduced as new members, were others to speak briefly. Other new members of the club presented included Chas. Landau, Dale Warren and Bill Oswald.

Bert Frzier, Chas. Landau and Dale Warren were appointed entertainment committee for March. Lee Carter is to preside at the meeting March 10.

Reports heard by members of the club indicated that campaign to buy trees for setting out along the highways was meeting with success. Clubs and individuals are making these purchases and delivering the trees to the State highway commission for transplanting, it was said.

Little Interest Reflected In Beer Vote To Be Held In Mitchell County Saturday

Earlier predictions that a heavy vote would be polled in Saturday's county wide beer election may not materialize, if evident portrayals of interest in the proposal are to be accepted as an index. Voters, representing both the wet and dry camps, are having little to say and are seemingly not taking much stock in the issue.

In event the proposal is authorized at the polls a dry record of more than thirty years will be broken, excepting as to Justice Precinct No. 1 at Colorado in which the beverage was sold legally during a few months under mandate of a special election.

DRUNKEN CAR DRIVERS ARE CATALOGUED AS FELONS IN COURT CHARGE TO JURORS

The citizen who gets under the steering wheel of a motor vehicle while under the influence of liquor and while in such condition features in fatal injury to another is guilty of murder and should be prosecuted under that charge in the courts, District Judge A. S. Mauzey declared Monday morning in his charge to the grand jury.

"There are many citizens who stand well in the community in all other respects to whom the charge of driving motor cars while drunk has been directed," the court declared, "and all these should be prosecuted. It is not generally known that an automobile casualty resulting, directly or indirectly from drunken driving, entails the charge of murder in this State. Even our courts have overlooked proper attention to this flagrant violation of the law."

"Driving a motor vehicle at a rate of over 45 miles per hour on the highway outside limits of a town or over 20 miles within said corporate limits constitutes direct violation of the law and any person so operating such machine figuring in fatal injury to others is guilty of law violation and should be prosecuted under the indictment of negligent homicide," Judge Mauzey went on to state.

Charge that the twelve men empaneled on the grand jury make due investigation of all purported violations of law was made by the court. "I am going to request that you gentlemen use your common sense faculties and arrive at conclusions affecting each of your work through adoption of business tactics," he went on to say.

I. W. Terry was appointed foreman of the grand jury. Other members of the body include E. C. Grant, Bruce Hart, Gus Chesney, J. L. Pratt, J. B. Holt, T. J. Riden, W. D. McAdams, O. B. Prieley, L. E. Mesimer and A. K. McCauley. N. T. Wannack and Jack Delaney were sworn in as bailiffs to attend the jury.

The court made reference to fact there were few criminal cases pending on his docket after calling the causes for trial setting. "We are going to set the third week of court as criminal docket week, however, there are no cases of importance pending on the docket now," he stated.

"We will get him yet," mused the police chief after returning to Colorado. "They were setting bloodhounds on his trail about the time I found."

TEXAS DEFINITELY SLATED FOR RUIN UNLESS EROSION CHECKED, CHAPMAN AVERS

Extension Service Expert Is Speaker At Farmer Meeting Wednesday; Terracing Will Save Soil, He Declared

Transformation of what at one time was one of earth's most productive domains into an area of extended desert waste was the picture drawn of Texas by J. W. Chapman of College Station, secretary of the State conservation board and assistant agricultural engineer for the extension service, during an address delivered before a county-wide farmer mass meeting at the Ritz Theatre Wednesday morning.

After describing at length the technical processes of nature in providing rain, through evaporation of surface and underground water supplies, the speaker declared that devastation of farm stability was becoming more evident everywhere "because we are not protecting the resources placed in our hands."

Finding, after long experiments, that the building of low water dams would assist in restoring a depleted underground water supply in Texas, assuring vegetation a better chance to function in its place of collecting water and distributing it in the form of moisture into the atmosphere, Mr. Chapman said:

"I built 619 of these low water dams along streams of Central Texas and was much pleased to find that the underground water supply was restored. In vicinity of those streams vegetation began to thrive and better field crops and home gardens were to be seen on every hand. But imagine my chagrin when, after a while, I found that those water holes that I had made were filled with the soil from your farms."

Recalling a recent flood stage in the Colorado river the speaker said "during that one flood enough fertile soil from farms on watershed of this stream went through the city of Austin in channel of the river to cover Travis county four feet in depth. My investigation has established the fact there are Texas farms from which two and one-fourth tons of soil has been carried away and into the Gulf of Mexico annually per acre through the process of erosion."

"I was in the Davis Mountain territory only yesterday and visited one locality in which definite engineering records have been kept. The figures disclosed that during one flood alone two inches of soil was

An outline of activities in the Business and Professional Women's club was given by Mrs. J. A. Ferguson, who said that the club is taking

a study course in English and has a choral and gym club within its group. It was revealed that every study club of the town had responded to the call for trees for the Earned highway park. The 1921 club has given the largest number of trees—twenty-one of them to be planted in a group forming the 1921 Grove.

Work being done on the county Centennial celebration, on the State celebrations, and on the Walter Woodul essay contest in this county was reported by Mrs. J. G. Merritt. Mrs. Sadler pledged women of the Federation to cooperate in Centennial observance. Mrs. M. J. Dawson reported that members of the Colorado Music club will go to rural schools any time and assist them in learning Centennial music and songs.

After being told by Mrs. Sadler of an opportunity to secure evergreens cheaply if bought by the truck load the Federation voted to ask the city to send to Arlington for a load, with the clubwomen agreeing to dispose of the plants.

A clean-up campaign was discussed.

Former State TFWC President Is Guest

Guests in the home of Mrs. J. M. Doss Friday will be Mrs. J. U. Fields of Haskell, former state president of the Texas Federation of Women's clubs, and Mrs. Server Leon, also of Haskell.

The two women will be here for the luncheon at the Colorado hotel honoring Mrs. Volney Taylor of Brownsville, state president of the TFWC, and Mrs. Joseph M. Perkins of Eastland, Sixth district president.

Mrs. Leon is president of Haskell's one large study club, the Magazine club.

IS CATTLE CENTER

The city of Fort Worth has been developed from old Fort Worth, a federal garrison named for General Worth of the United States army who distinguished himself in the Mexican war. The cattle industry, which gave Fort Worth the start that enabled it to become a great city, will be recognized in the city's celebrations for Centennial year.

Baptist WMS Meets In Three Circles

The three circles of the Baptist W. M. S. met Monday afternoon in different parts of the church building.

The circles are the Bernice Neel, the Fideles, and the Lucille Reagan.

INFANT IS BURIED

The unnamed infant of Mr. and Mrs. Edward Moore of Silver was buried at McKenzieville Thursday morning at 10 o'clock. The infant lived only ten minutes following birth at Candler courts Wednesday morning. Kiker & Son were in charge of funeral arrangements.

Four Deaths Result From Pneumonia Here In Week; Three Are Children

Four deaths from pneumonia have occurred in Colorado and vicinity during the past week. Three victims were children.

The first death was that of Charlie Ray Garrett, 5-year-old son of Mr. and Mrs. J. L. Garrett of the Franklin farm near Colorado, on Friday afternoon at 2:15. Elneta Ann Cawthron, 14-month-old daughter of Mr. and Mrs. D. W. Cawthron of the Fairview community, succumbed at a local hospital Saturday at 1:05 p.m.

Alice Ramzel, 7-year-old daughter of Mrs. Edith Pettit of Hyman, died at 5 o'clock Monday afternoon at a local hospital. Joseph Land Wilson, 75, succumbed at his home six miles south of Spade at 5:55 Wednesday afternoon.

CHARLIE RAY GARRETT
All of pneumonia for two weeks, Charlie Ray Garrett, 5, died at the home of his parents, Mr. and Mrs. J. L. Garrett, on the Franklin farm near Colorado Friday afternoon at 2:15.

The child's mother, one of his two brothers and his sister were too ill of the same disease to attend funeral rites at McKenzieville Saturday afternoon at 2:30. The Garrett family moved to the Franklin farm from Silver this fall.

Kiker & Son were in charge of arrangements.

ELNETA ANN CAWTHRON
One of the largest baby funerals ever held in the Fairview section of the county was that of Elneta Ann Cawthron, 14-month-old daughter of Mr. and Mrs. D. W. Cawthron of the Fairview community, Sunday afternoon. The child succumbed at a local hospital Saturday afternoon at 1:05. She had been ill nearly two

AMATEUR BOXERS TO COMPETE AT CENTENNIAL

DALLAS.—A state wide amateur boxing tournament will be held during August at the Texas Centennial Exposition it was announced by William A. Webb, manager of the Exposition, recently.

The boxing contest will be open to all amateurs throughout the State of Texas and the finals will be staged in the Cotton Bowl Stadium at the Exposition. The tournament will be under the supervision and auspices of the Texas Amateur Athletic Federation of which Koger Stokes of San Antonio is president. It will be directed and organized by Charles Maxwell and W. T. Cox, of Dallas, well known sports promoters, who have opened offices for the Texas Centennial Gold Medal Boxing Contest at 2425 Pacific avenue, Dallas.

Scores of Texas towns will be organized with the view of securing amateur boxing talent in various classes. Town and city contests will be held in order to select the best talent for district contests which will in turn pick the best boxers for competition in the Cotton Bowl finals.

Expenses of all amateur boxers to the Exposition finals will be paid through the district elimination contests. They will be the guests of the contest management at the Exposition. Classes will include paper weight, bantam, feather, lightweight, welterweight, middleweight, light heavy weight and heavies. Gold medals will be awarded the champions in each class.

It is expected that about 500 amateur boxing clubs in Texas will have entries in the contest which will attract nation wide attention. About 200 competitors will be brought to Dallas from all parts of the State to take part in the finals.

BEAUMONT PLANS FAIR

Beaumont, planning a Texas Centennial celebration in connection with its famous South Texas State fair, started its growth as a modern city 30 years ago when a well "blew in" at Spindletop. Famous old Spindletop was the first oil field that had "gushers."

With the "power dome" head, the engine in the 1936 Terraplane has only 27.7 pounds per horsepower to move.

The exams are over—but what about the report cards?? Mr. Holman is wondering, too. . . . Quite a few students have not forgotten the story which was printed a short while ago—"The Principal Entertains." . . . remember? . . . I thought so! . . . The prize-fights held lately have proved very exciting . . . and rather brutal, judging by the expressions on the faces of the girls! . . . What is Mr. Holman doing with that little black toy pistol in the sheltered nook of his desk? . . . Did you notice the stampe of Jr. Hi students at the courthouse Monday afternoon? . . . They were kept in (for about thirty second) by Mr. Mason for not reading their Social Science and for not having their talks on the different county officials, so they hurried down to get them. . . . Miss Miller recently complimented the "Tattler." . . . We were quite flattered! . . . Thank you, Miss Miller. . . . Harriet Ann Pritchett has started a new fad—that of covering textbooks with colored celophane. . . . Very pretty! . . . Students, how about fixing up the flower beds? . . . They are looking rather bare, but they could be made pretty and colorful. . . . 7B has another flower—this time it's a hycinth. . . . Stewart Cooper, one of the quintuplets in the cast of "Borrowed Babies," got so-o hungry back stage that he drank all the milk in his bottle before he got on the stage! . . . Eulah F. Robinson is one of the best sports in Jr. Hi. . . . What caused the absence of a certain seventh grade boy last Monday afternoon? . . . Was it an overdose of Social Science? . . . Jimmy Kelly has returned after being out for several days as the result of a school-yard accident. . . . The editors are

TEXAS

In all three Fifth grades we have started a new unit which is entitled "Come With Me Through Texas." Each teacher has so organized her work that no topic is repeated, but we are getting a glimpse of Texas in various ways. We want to learn about Texas so we can answer any questions when asked us. We are studying poems and historic spots in reading, geographical facts in Geography and arithmetic, Texas artists in art, and the Centennial in English. —CRAIG PORTER
Guest reporter.

SPORTS

In the Junior tournament Saturday, the boy's team defeated Looney in the first game. This enables them to play in the finals which are to be

DEMONSTRATION IS HELD FOR HYMAN H. D. CLUB

Mrs. Edgar Andrews, Reporter
A demonstration was given to the Hyman home demonstration club last Friday at the home of Mrs. Averitt, on making good laundry soap by Mrs. McAlpine. Mrs. Frank Andrews gave a demonstration on removing stains from linens. She also gave the council report to the club.

There were six members present: Mrs. Carl Lowery, Mrs. Edgar Andrews, Mrs. McAlpine, Mrs. Frank Andrews, Mrs. Otto Shuster and hostess Mrs. Averitt. There were two visitors, Mrs. Carl Nance and Mrs. Johnnie Shuster.

The next meeting will be the first Friday in March with Mrs. Carl Lowery.

Cleanliness is an important essential for success; it is, in fact, a major part of our life. Just as our bodies should be kept clean, so should our minds be kept clean and free from undesirable thoughts. If this is done, it should not be difficult to face the troubles of the world with a smile—a big smile—a smile that can come only from a clean mind and body. A clean school room is the pride of the students and teachers of Jr. Hi. Isn't it easier to concentrate when the paper is in the waste basket where it belongs? Students, with this in mind, strive to keep a clean mind, body, and schoolroom during the remaining weeks of school. —FREDDE WATSON.

WARNING!

Call your dogs off the school campus, please. The pound man makes regular visits to see that no pet or stray dogs are on the playground. It was rumored the pound man nearly lost some money recently. Here's how: One morning a dog was "just loafin' around" when the pound man caught him. But alas, he discovered the dog was a bulldog and it didn't have a tail. (For each dog's tail, he turns in, he receives \$.50.)

BOOK TO BE PUBLISHED!

The Junior High school is to have a book published very soon! This book will contain about fifty of the best poems written by Colorado Junior High school students. Many of these poems were recently read over station KTAT and since they were, we feel that they are good enough to be put in book form. This book will probably sell for about 30 cents. We know that practically all of our readers will want a copy or two and we will be very happy to see them about purchasing one. See one of the editors mentioned above, since they are editing the book, if they do not contact you beforehand.

CHAPEL PROGRAM

For 5A room's chapel program we were very happy when they introduced Miss Gunter. She spoke to us most interestingly on a trip to Europe which she took ten years ago. Everyone enjoyed her talk immensely. 5A then presented some numbers of their own which are as follows: Craig Porter gave a monologue entitled "Tony Speaks on February 22." This proved very funny.

going to publish a little book of the poems of Jr. Hi students. . . . If you have any poetic talent, students begin now and turn in your best to your teacher. If she thinks it is good, get her to approve it and then turn it in to one of the editors. If it is good enough, it will go into the book. Then you can increase the circulation of this book by buying copies and sending one to each of your relatives! . . . "Yeah, bright idea!" —C. S.

The girls team was rather badly beaten Saturday by Carr, the score being 29 to 6. But we don't mind, it was a great game, even if the score was against us!

The prizefights which have been held lately during the noon hour and occasionally during the play periods, have created much excitement.

The students are beginning tennis practice in earnest this week under the direction of Miss Bradford.

If any seventh grade room gets a 100% membership in the Good Writer's Club their picture will be published in "The American Penman" magazine. Strong competition is noted to see which room will be the first.

Texas Exes Will Gather Here For Banquet Monday

Traditional Celebration Of Texas Day To Be Attended By Exes Of 3 Counties

In keeping with the custom kept yearly by Texas University ex-students all over the world on Texas Day, Texas Exes of Mitchell, Scurry, and Nolan counties will gather in the Colorado hotel dining room for a Mexican dinner Monday evening, March 2.

All ex-students of the university, all wives and husbands of ex-students, are invited to attend. Those planning to be present should notify Miss Elizabeth Kirkpatrick or Joe Earnest by Sunday night.

The banquet was held last year in Sweetwater. Thos. R. Smith is president of the tri-county organization, Harry Ratliff is vice-president for Mitchell county, and Louis Latham is secretary.

Registration of Texas voters in 1936, the Centennial year, is estimated at 1,250,000, highest in the history of the Lone Star State.

Make it a daily practice to read the ads.

WOOLEN HOOKED RUG IS MADE BY CLUB WOMAN

While the cold weather kept her inside, Mrs. Bill Wiggins, bedroom improvement cooperater in the Fairview home demonstration club worked on a woolen hooked rug, 2 1/2 by 4 feet, made of discarded clothing given her by neighbors and friends. A conventional flower design was drawn and is the main design used with light tan mixed background. This rug will not cost Mrs. Wiggins more than 50 cents.

Santa Helena canyon on the Rio Grande river in Brewster county, with walls which rise perpendicularly for 2,000 feet, will be a big Centennial year attraction.

LEADERSHIP WITH MODEST EFFORT GAVE WASHINGTON FIRST RANK IN GREATNESS

First American President Is Cherished Because Of True Devotion To Others, Zollie Steakley Says In Address

George Washington attained greatness because of his modesty, courage and wisdom, electing to keep himself in the background and permit others through whom he wielded an influence to accept any personal acclamation that might come from the galleries, Zollie Steakley, Sweetwater attorney, outlined during an address at the Lions Club Friday.

Mr. Steakley pictured Washington as the greatest soldier in America at 30, "because he embodied all the finer characteristics that go to build character, high ideals of citizenship and devotion to the cause of others." The speaker was introduced by Rev. Albert Chick, member of the program committee.

Bismark of Germany, Katherine of Russia, Louis the XVI of England and Richard the Lion Hearted of France, considered great military leaders in history, were paraded by the speaker. None of these, however, were as great as Washington and can never wield the influence in moulding life characteristics of the people to follow, as is in the instance of Washington, he stated.

"Washington made Hamilton and Jefferson the chief figures in his administration, and it was these early American leaders who founded the Democratic and Republican parties," Steakley declared. "Washington did not enthral as did Alexander the Great. His life had not the tragic inspiration and pathos of Hannibal's, nor did it leave us with breathless admiration as Caesar's or exalt and horrify as that of Napoleon. The thing that thrills us in the life of Washington is in the supreme satisfaction from the perception of harmony and proportion—the spectacle of great powers consciously working to accomplish divine justice."

Other guests attending the club included Alvin Jones of Westbrook, O. Lambeth of Colorado and Herman Miner of Hyman.

The Rev. Cal C. Wright was presented with a bouquet of flowers by Lion President Benton Templeton who announced the floral offering was tribute from ladies of the church on occasion of the minister's birthday. The preacher was liberally panned—with bread and other missiles—as he attempted to speak in acceptance of the gift. "Happy Birthday To You" in honor of Rev. Mr. Wright was sung by the Lions.

Mary A. Norfleet, Early Day Citizen Of Section, Buried

Lived At Colorado In Days Of Buffalo Hunting; Rites At McKenzieville Sunday

Mrs. Mary A. Norfleet, one of the few remaining pioneers who knew this section of Texas in the seventies when the Red Man still disputed with frontier settlers for possession of the country, died Saturday at her home at Fritch, where she was making her home with a daughter, Mrs. Bettie Jameson.

Funeral services were held at McKenzie Sunday, with burial following in the cemetery there beside the grave of her husband, J. H. B. Norfleet, who for many years was well known at Colorado and throughout this part of the State.

The services were conducted at the graveside with Minister Willis Kreeger of the Colorado Church of Christ officiating. Active pall bearers were Arthur Day, Pampa, C. C. Davis, Fritch; Eddie Jameson, Hobbs, New Mexico; W. B. Jameson, Fritch; Hubert Conner, Colorado, and Russ Mathers, Colorado. Six great granddaughters of Mrs. Norfleet acted as bearers of the floral offering.

Mr. and Mrs. Norfleet came to Colorado in 1879 and for several years maintained residence in this part of the West. The old home was on Crow's Nest Creek, several miles southeast from Colorado. She was the mother of J. Frank Norfleet of Hale Center, neimes who established international fame a few years ago running down "con men" who had swindled him out of a small fortune. Two other sons and three daughters survive.

Frank Norfleet stopped here Saturday night enroute from his home at Hale Center to attend the funeral services, and in conversation with newspaper men recalled vividly some of the conditions that were prevalent when his father and mother first came to Colorado.

"I never saw so many buffalo hides in my life as were stacked about the trading post later named Colorado City," Mr. Norfleet recalled. "The people were actually using the hides for money when we came in 1879."

Colorado Typist Win First Place In Area Contest

Several Schools Entered In Events Held Friday At The High School Building

Friday, February 21, 1936 a very interesting and profitable typing contest was held in the commercial department of the Colorado High school. This was the first contest of the season and was a practice contest.

The schools that participated in this contest were Big Spring, Roby, Westbrook and Colorado. The first teams ranked as follows: Colorado, first, with an average of 123.37; Big Spring, second, with an average of 86.90; Roby, third, with an average of 83.78; Westbrook, fourth, with an average of 31.12.

The second teams averages were: Big Spring, first, with an average of 97.80; Colorado, second, with an average of 95.26; Roby, third, with an average of 76.27; Westbrook, fourth, with an average of 49.99.

The student who typed fifteen minutes with the most accurate paper was Dorothy D. Sain, from Big Spring, who made only 3 mistakes. The next most accurate paper was typed by Paschal Lynch, of Colorado, who made only 5 mistakes.

The five persons who made the highest averages individually on the first team were all from Colorado. They ranked as follows: Hiram Duffer, with a grade of 137.31; Juanita Long, with an average of 128.33; Paschal Lynch, with a grade of 120.78; Irene Dossy, with a grade of 120.18; Ed Morrison, with a grade of 110.34.

The five persons who made the highest averages individually on the second teams were as follows: Dorothy D. Sain, from Big Spring, made an average of 132.97; Myra Brown of Colorado, made an average of 117.81; Catherine Delaney of Colorado, made an average of 115.12; Preston Sligh, of Big Spring, made an average of 100.76; Joe Cox of Colorado, made an average of 94.76.

carried away over the entire area. The only recourse available to the farmer is to run terrace lines, he stated. "And I wish to offer congratulations to the farmers of Mit-

chell county in this respect. I was checking over records at the office of your county agent this morning and found that you people out here are probably ahead of all other counties of the State right now in this conservation project. You are terracing your farms in a big way and as such you are protecting your investment from a source that ever threatens ruin.

"Outside there is a dust storm raging. To you it is a nuisance. To me it is the implication that Texas is headed for the state of a desert."
Mr. Chapman was introduced by Ben J. Baskin, county farm agent. The theatre building was filled by citizens representing practically all farming communities of the county.

Grand Jurors Recess To March Thirteen After Reporting Fourteen Felony Bills

The 32nd judicial district court grand jury, empaneled Monday morning by District Judge A. S. Mauzey, recessed Wednesday afternoon until Friday, March 13. In its report to the court the jury listed return of fourteen felony indictments.
Information as to charges outlined in several of the bills of indictment had not been disclosed Thursday noon, pending arrests by the sheriff's department. It was indicated, however, that forgery, burglary and driving a motor vehicle while drunk figured prominently in the list of offenses cited.
Judge Mauzey arraigned defendants named in the indictments and who were being held in the county jail Thursday morning to announce that their cases would be docketed for trial during next week. One of these was Cicero Weeks, returned to Colorado Tuesday from Hobbs, New Mexico, by Sheriff R. E. Gregory. He is charged by indictment with the offense of forgery.
Other defendants arraigned included Otis House, burglary; Willie Renfro and Phillip Smith, negroes, burglary; Jeff Green, driving while drunk; Jack Johnson, forgery, and Ed Thompson, forgery. Thompson entered a plea of guilty and was assessed a two-years suspended sentence by the court. He was returned to Colorado several days ago from Paris.

COLORADO FFA CHAPTER IN WINNING STREAK AT AREA JUDGING CONTEST AT ROBY

First Place For Team And Individuals Taken; Local Chapter Be Host To Dairy Judging Events Saturday
The Colorado Future Farmers of America dairy judging team emerged from district contest at Roby Saturday with trophies of first place in every department featured. The local boys outdistanced all contenders to cop first award in the field and two members won ranking recognition in the individual arena.
There were a total of six schools entered in the contest, sponsored by the Roby FFA chapter. Dowell school trailed the Colorado team to take off second place. In the individual judging Hammond Padgett won first place with a total of 362 points out of a possible 400. Lewis Gale came in for second place in this division with 344 points. Quinton Hamrick, third member of the local team, was awarded commendable recognition. The team won a total of 1,027 points.
Doyle Williams, director of the vocational agriculture department in high school and who trained the boys, stated Tuesday that he was highly pleased with the splendid showing made. Williams accompanied the team to Roby Saturday.
Saturday of this week the local chapter is to be host to a similar judging contest. Williams stated Wednesday that six schools had already entered for competition. The judging, featuring dairy cattle, is to be staged at different farms and dairy headquarters.

TUBERCULOSIS SHOULD BE WATCHED CLOSELY
AUSTIN.—Tuberculosis, in common with the other major killers, is a criminal whose work is effectively carried on under cover of ignorance, stated Dr. John W. Brown, State Health Officer.
Carelessness is its greatest ally. How otherwise explain the conduct of persons who, despite poor appetite, faulty digestion, loss of weight, loss of strength or a sensation of tiredness in the afternoons, refuse to admit that their condition requires professional investigation? Personal cooperation is necessary if we would cut down the ravages of this preventable disease.
Tuberculosis is no respecter of persons; no one is immune to tuberculous infection. Children who are in repeated contact with tuberculous persons almost invariably contract the infection. All children, therefore, should be protected at all times from protracted exposure to infection from persons known or suspected of having the disease.
Removal of the contact cases, protection of the infant and very young, and prompt professional advice when symptoms suggestive of tuberculosis arise, will do much to reduce the tuberculosis death rate. But, as has been indicated, these measures by

THOUSANDS REQUEST TEXAS INFORMATION

DALLAS.—Requests for information on Texas and the Centennial celebrations, pouring into the offices of the department of information here, graphically testify to the nationwide interest in the Lone Star state this year.
The national advertising campaign was opened only a few weeks ago but, during the period ending February 7, more than 1,200 persons daily asked definite information on the state. The requests are made on coupons carried in advertisements. They are being received from every state in the Union, with New York leading in number, and from many foreign countries.
Printed literature descriptive of all of Texas and of the various Centennial celebrations planned over the state are mailed to all persons who send in requests.

WRONG SIDE UP

A good story which drives home an important truth is worth repeating. We find the following in The Progressive Farmer, credited to Dr. B. W. Kilgore:
"It is related that when the white man was moving west and bringing the great plains under cultivation with his big teams and plows, a group of Indians collected around to observe what was going on. The big chief, after witnessing the complete overturning of the heavy sod grass on which the buffalo grazed and waxed fat for years, examined a slice of the furrow on both sides, dropped it back as the great plow had turned it, gave one huge grunt, and exclaimed, "Wrong side up."
"Too much land all over Dixie is 'wrong side up.' Through the growing of good pastures we must get more of it right side up."

SUNDOWN

In recalling memories of famous Southern poets of the last fifty years the current Progressive Farmer pays tribute to John Charles McNeill and reprints the following exquisite verses of his:
Hills wrapped in gray, standing along the west,
Clouds dimly lighted, gathering slowly,
The star of peace at watch above the crest,
Oh, holy, holy, holy!
We know, O Lord, so little what is best—
Wingless, we move so lowly;
But in Thy calm All-knowledge let us rest.
Oh, holy, holy, holy!

Greene Offers Historical Data On Early Pioneers Of Mitchell County And Section

The following article is written by Greene of the Colorado chamber of commerce for the purpose of interest in the Mitchell County Pioneer Centennial Home August 20-21-22 and is given in statistics for statements of pioneers as D. C. Earnest and G. W. Waddell; also by reference of Mitchell County records. Criticism of this article is invited in writing. Additional information is also invited.

According to some authorities Mitchell County was created in 1876, being cut off of Bexar County along with fifty-two others, and named for one Ezra and Eli Mitchell of Pennsylvania, who were prominent in Texas history, having fought in the battle of San Jacinto under Sam Houston, but who had absolutely nothing to do with Mitchell County and neither of them ever saw it so far as is known locally. Geo. Waddell, a rancher with head-

quarters on North Champion Creek, ranch taking in a part of where Colorado now stands, made a trip to Albany prior to December 20, and engineered an order through the Shackelford County court to which county Mitchell was then attached, for judicial purposes, calling an election in Mitchell County for the purpose of organizing, and that said election was held on January 10, 1881 in the lobby and bar of the Grand Central Hotel, a two story frame building, with 120 votes being cast which included all of the qualified local voters together with all of the Rangers at which time one J. R. Dobbins was elected County Judge. J. F. Byler, J. F. Bell, J. L. Christie, Commissioners elected. Dick Ware was elected Sheriff, J. A. Henley elected County Attorney, B. J. Anderson, Tax Assessor, Ira M. Butler, Hide Inspector, A. W. Dunn elected County Treasurer, with J. W. Smith being the first Justice of the Peace.

Commissioners held their first court meeting on Feb. 9, 1881, in the Hamilton Hotel which was a semi-dugout in the vicinity of the Mill Chevrolet building in which the officers administered oath of office and upon failure of J. R. Dobbins to qualify one J. T. Boseman was appointed first County Judge of Mitchell County by the Commissioners. Upon his death, Judge R. H. Looney was appointed by the Commissioners Court to fill the unexpired term.

On the first order other than the appointment of the officers by the Commissioners Court on Feb. 9 was to authorize the building of a jail which was to be 20 ft. x 14 ft. x 7 ft. high to be built of rock, walls of which were to be two feet thick.

W. D. Goch was the first doctor given a permit to practice in Mitchell County which was issued by Judge W. P. Beal. He was also the first County Health Officer.

The first birth certificate recorded in Mitchell County account of no records being kept earlier was on the thirteenth day of April, 1903. It was recorded by Dr. R. B. Homan and was for Eric Bloom. Dr. Homan also reported the first death, that of Lee Webster on May 13, 1903.

The first deed recorded in Mitchell County, August 8, 1876, before the county was organized, was for 640 acres of land in Bexar County, sold by the Lavoča Navigation Co. to Nancy C. Lloyd and designated as being on the banks of the Rio Colorado, all of which recording was done in longhand with slender penmanship.

The first transfer of land designated in Mitchell County was August 3, 1880, this being from William C. Pierce to James F. Starr and being 640 and described as being on the Waters of Girard Creek. There is a conflict as to who held

Mrs. Royall Smith Buried Tuesday At San Angelo, Texas

Native Coloradan Stricken While Attending Sick Son At Austin

Mrs. Royall G. Smith, native Coloradan and widow of a prominent West Texas attorney, died at Austin Sunday night at 10 o'clock following an attack of influenza-pneumonia. Ten days before she had gone to Austin to attend her son, Royall, ill of the same malady.

Funeral rites were conducted from the Johnson Chapel in San Angelo Tuesday afternoon with the Rev. K. P. Barton, pastor of First Methodist church, officiating. Burial was beside the grave of her husband in a San Angelo cemetery.

Condition of Royall Smith, Jr., a student at State University, was reported Thursday morning as improved. During the past several days his condition was considered grave.

The body of Mrs. Smith arrived in San Angelo Tuesday morning from Austin by train. A brother, Charles Blandford of Fort Worth, went to Austin and accompanied the body home.

Deceased was born in Colorado 47 years ago the daughter of Mr. and Mrs. C. C. Blandford. She grew to womanhood here and was married to Royall G. Smith in 1914. In October, 1919, Mr. and Mrs. Smith moved to El Paso to reside. Ten years later the family established residence in San Angelo where Mr. Smith continued in his profession as an attorney. Mr. Smith died in August, 1933.

One daughter, Miss Margaret Smith and the one son survive. Others are her mother, Mrs. C. C. Blandford; two sisters, Mmes. C. T. Harness and Nora Ray, all of Fort Worth and brothers, Charles Blandford, of Fort Worth, and George Blandford and J. B. Blandford.

Mmes. Blandford and Harness were unable to attend the funeral services on account of ill health. Those attending were Mrs. Ray, Charles Blandford and wife of Fort Worth, Mrs. Jewel Wallace of El Paso, Miss Alicia Swann of El Paso, Miss R. Smith and daughter, Miss Nina Laura Smith; Miss Mabel Smith, Mr. and Mrs. R. O. Pearson, Sr., and Mrs. Y. D. McMurry of Colorado and Mr. and Mrs. R. C. Pearson, Jr., of Mexico.

The first district court. The records show that Judge T. B. Wheeler presided at the first district court that some old timers say that Judge Kennedy was the judge on the bench.

The oldest offense on the records of Mitchell County Court was against Lon Walling, who was represented by Mr. Frank Lester, an attorney. Dick Ware, Marshall Gibson, George Williams and Thomas Hogen were listed as witnesses. Branch Isable was County Clerk at this time. Practically all charges listed in the County Court records during 1880 and 1881 were gambling charges, Monte being the leading game with an occasional "pistol toting" charge. One woman was fined in 1880 for using vulgar and indecent language in a public place.

The first marriage license issued according to listed in the records of Mitchell County was to E. J. Jones and Miss Louisa Lee in 1881 with O. F. Rogers performing the wedding ceremony in a dugout on the lot south of the present Baptist church site.

HISTORIC TREASURES TO BE EXHIBITED

DALLAS.—In any Texas community may be historic treasures that would bring a big price from collectors who will be watching for rare documents and relics at the Texas Centennial Exposition at Dallas next summer.

The most interesting items reflecting life in Texas from first exploration in 1519, through colonizing and development to 1900 are being assembled for the Exposition by Prof. Herbert Gambrell, of the historical division. Information and full description of letters or diaries that tell of an earlier day in Texas, early books or newspapers, or implements, furniture and particularly clothes showing period costume should be sent to Professor Gambrell. The Exposition will protect items accepted for display with insurance from the time they leave the owner until they are returned.

At the close of the Texas Centennial Exposition, November 29, such items from the historical exhibits as may be for sale will be called to the attention of prospective buyers.

Every encouragement is being given to the assembling of historical displays in communities and county seats. Professor Gambrell said the best materials shown in these local exhibits will be eligible for the statewide exhibit in the million-dollar Texas Hall of State at the Exposition.

SAN ANTONIO ATTRACTS

San Antonio, mecca of thousands during Centennial year, has all the color of the Old World. It is semi-tropical in climate and Latin-American in atmosphere. Towering palms, picturesque cafes and curio shops, winding streets and rustic parks, and historic Spanish missions all add to its interest.

Gets the Crowd

Frank N. Watson, as director of promotion, has the task of informing the public the Texas Centennial Exposition will be in Dallas June 6 to Nov. 28. Apparently it is a task already well done for travel agencies set attendance at 12 million.

PARACHUTE JUMPER TO FALL 3,000 FEET BEFORE PULLING CORD

Falling 3,000 feet before pulling the rip cord, Johnnie Holden, parachute jumper, will bail out of a Ryan monoplane 4,500 feet above a landing field on the Plaster place south of the Col-Tex refinery some time during Sunday afternoon.

Since Holden will be only 1,500 feet above the ground when his parachute opens, spectators can see him pull the cord after his end-over-end drop of 3,000 feet.

For the past 15 years Holden has been jumping parachutes. He has pulled the rip cord several times when the chute did not open, an emergency chute saving him from death each time. He has fallen from the air into trees, barbed wire, power lines, rivers, and lakes.

President Roosevelt is looking forward with pleasure to his visit to Texas during the Centennial celebrations, according to reports made by Texans who have visited with the chief executive recently.

FORSAN SCHOOLBOYS ROUT ABILENE EAGLES IN FINAL ROUND FOR DISTRICT BELT

Lads Representing Oil Town In Howard County Defeated Wolves Here In Sectional Tourney Few Weeks Ago

The Forsan Buffaloes, playing with some of their best men crippled and another out of the game due to illness, Saturday night rallied sufficiently to get an 18-16 decision over the Abilene Eagles for district five title. The deciding battle was staged at the Forsan gym.

The Forsan schoolboys evidenced potential district and State championship qualities during annual sectional tournament held at Colorado a few weeks ago. Boys from the Howard county oil community successively met and defeated champions from Nolan and Scurry county to win place on the final round against the Colorado Wolves. The locals were outplayed and Forsan emerged with the laurels of decisive victory.

The Forsan-Abilene final game was fast and very rough. Price, Abilene forward, topped the scorers with seven points. Liles paced the Forsan tally makers with three field goals.

At half time the Eagles were holding the edge, 10 to 9, but the visitors failed to score a single point during the third quarter. As the fourth quarter started the Buffs were leading, 14 to 10.

Abilene won the second game of the series Friday night at Abilene 25 to 22. Loper, Forsan regular, is in an Abilene hospital suffering from pneumonia.

Chambers fouled out in the fourth quarter.

CHURCHES

PRESBYTERIAN CHURCH
Sunday school at 9:45. Jerold Riordan, superintendent. Classes for all ages. Worship and sermon at 11 a.m. and 7:30 p.m.
Young people at 6:45. We are always glad to have visitors.
If you have no church home come worship with us.
W. M. ELLIOTT, Pastor.

FIRST BAPTIST CHURCH
Sunday morning services will be on schedule next Sunday but the evening service will feature the Hardin-Simmons University male quartette. This is an annual program sponsored by our church in the interest of better church music. We are inviting the music lovers of this and other communities to join us in this service. There will be no regular sermon at the evening hour.

Our last attendance last Sunday was an encouraging increase over the Sunday before. In the Sunday school the increase was 142, and it was decidedly up in all services. With prospects of Spring weather and a decrease in the number of sick in the community we hope to see the attendance continue a steady climb. Strangers and visitors always welcome at our services.
DICK O'BRIEN, Pastor.

Texas, celebrating its Centennial year of independence and progress this year, has the Bluebonnet as official state flower, the pecan as official state tree, and the Mockingbird as official state bird.

Farm Income Has Marked Gain, Is Claim At Capitol

Heavy Loss, However, Is Seen Through Erosion Of Soil Not Terraced

Declarations that the farmer's financial status has shown "vast improvement" and the Nation is threatened with "billions of dollars" loss by soil erosion were placed before Congress Monday by Government agencies.

Governor W. I. Myers of the Farm Credit Administration, which holds about 40 per cent of the farm mortgage debt of the country, said there had been such a "vast improvement" in the farm status that need for Government credit is decreasing.

His testimony was given in hearings on the annual Agriculture Department appropriation bills, made public today.

A warning that billions invested in enormous dams is jeopardized by silt piling up behind them and filling up reservoirs was voiced by H. H. Bennett, chief of the Federal Soil Erosion Service.

Bennett likewise asserted the future of the irrigated West is menaced.

Before completion of the Elephant Butte Dam in New Mexico, he said, it was estimated that the proposed reservoir to serve 150,000 acres of land would fill with silt in 232 years. Fifteen years after completion another survey showed it would fill in 100 years.

Calling for protection of watersheds from erosion, he said: "When a major reservoir is filled it is done for, generally. Engineers have pretty well agreed that it is thoroughly impractical and too expensive to desilt them."

Bennett predicted a new era of land use based on conservation of soil resources.

He said the Nation "is about to bring to an end the exploitive policy of land use."

"We have had civilizations disappear from the face of the earth because of erosion," said Bennett. "Our own country is already feeling the effects of erosion. Our yields are not increasing in spite of our work and scientific investigation."

To meet the situation, Bennett said, the erosion service is demonstrating to farmers on typical watersheds, the practical possibilities of controlling erosion.

A prediction that "the time is not far distant when one of the crops of the farm will be paper" was made by Dr. W. W. Skinner, assistant chief of the Bureau of Chemistry and Soils. He urged additional funds "to study the producing of paper and paper board from corn stalks and straw."

"In the past two years there have been some developments in this particular field that lead us to believe that the time is not far distant when one of the crops of the farm will be the very paper from which we are reading here," Skinner said.

He asserted that if this proves true "we will have created an outlet for farm products which will greatly supplement the revenue which comes from the production of things for their primary purpose, which is mostly food."

The Bureau of Public Roads reported it completed 18,594 miles of various types of highways under public works appropriations during the 1935 fiscal year.

Alabama, Georgia, Minnesota, Tennessee and Texas have counties named for General Sam Houston, Lone Star State hero who will be honored during the 1936 Centennial celebrations.

Street Lights On Walnut Put Into Service Recently

Extension Gives City Better Illumination Between T-P Station And Postoffice

The new street lights along curb on Walnut between Third and First streets, were placed into service Friday night within a short time after having been installed by the city, Texas Electric Service company and the WPA. The equipment was built to replace the old center standards in use several years.

Completion of the Walnut street system gives a much improved service in the business district. The new lights previously had been installed and placed into service along Second street between the Colorado river and Lone Wolf creek bridges.

ELEVEN GAGE CLUBS LEFT IN BRACKETS AS ORIGINAL ROUNDS PLAYED SATURDAY

Finals In Junior Boys, Girls And Senior Girls Contests Set For Saturday; Interest In Events Brings Fans

There are eleven basketball clubs left in the running for county championship pennant after initial brackets in the junior boys and girls and senior girls tournament were closed here Saturday. The survivors are to contest for top places in the athletic arena Saturday of this week.

Schoolboys and school girls from practically every district of the county converged at Colorado last Saturday to witness clashes between the opposing teams. Interest in the county-wide affair attracted several large fan delegations, including students, faculty members and patrons of the schools.

The tournament card gave fans some thrills during progress of the original brackets last Saturday. C. A. Wilkins, director general of the tournament, is authority for the information that even a better spectacle will be offered during the games set to be played this week.

In the junior boys division Rogers and Colorado junior high are to open second relay of the annual tournament Saturday. Landers vs. Valley View will be the next game with Westbrook grammar vs. winner of the Rogers-Colorado battle taking up the third bracket.

In the junior girls division Spade and Carr are to do battle as first offering of the tournament. Lone Star and Valley View girls will next play. Carr and Lone Star are the only schools qualifying senior girls teams for the finals.

In the independent high school juniors boys division last Saturday Westbrook defeated Colorado for the county championship.

In the independent high school junior girls division, Westbrook again captured the banner, this time due to fact the girls from there were the only team entered.

FIFTY CASES DISPOSED OF DURING ONE SESSION

During the recent session of 32nd judicial district court, closing at Sweetwater last Saturday, Judge A. S. Mauzey, presiding, disposed of a total of fifty cases. COLORADO PRIDES LARGEST INDUSTRIAL PLANT IN THIS PART OF WESTERN TEXAS

Plant Of Col-Tex Refinery Plays Leading Role In The Commercial Life Of City; Hundred Men Employed

Colorado prides the largest and most modernly equipped industrial enterprise in this section of West Texas in the Col-Tex refinery located on west bank of the Colorado river, just west of the city limits. The plant has been, since its inception several years ago, the backbone of whatever stability this community might have experienced.

The plant is much larger than the laymen driving along Highway One would suspect. Saturday morning a party of newspaper men were shown through the extensive properties by E. H. Gunn, superintendent. The congenial chief closed up his desk and graciously took time off to show the visitors through all parts of the big industry, explaining in detail the scientific process followed here and there as crude oil is taken from the tank farms and finally shipped by rail and truck to all parts of the country in high quality products.

Sixty tanker cars may be loaded with gasoline at a time. Enough asphalt of high quality is turned into channels of commerce every few days to pave miles and miles of highway, cover roofs and fit in for the many other commercial usages to which this by-product of petroleum has become so important. Naptha, fuel oil and other products, too, are manufactured in large quantities.

As an index to importance of this plant to Colorado it might be interesting to know that during last year an average of 7,500 barrels of crude oil passed through the refinery every day. That means that during 1935 2,500,000 barrels of petroleum were handled, creating big business for the railroads and other public carriers and filling a place in the commercial fabric of this country that would run to large proportions.

One hundred men are employed at the plant and these citizens live in Colorado and maintain a high type of citizenship, taking active part in the religious, social and civic life of the city and county. With the Col-Tex payroll cranked, Colorado business enterprises would find conditions much the reverse of what they are today. The big industry has and is doing more than any other source to build stability here.

Much of the machinery in use a few years ago has been found antedated as science continues to develop better and more acceptable means of converting the crude oil into commercial products. There is on location at the high pressure still now an X-ray machine costing near \$20,000 and so powerful that it photographs accurately through two and one-half inches of steel wall. It is used to detect erosion and other defects that develop inside the huge mass of steel.

There are scores of other expensive and highly technical machines to be found about the large plant, every one of which has a definite place in the manufacture of petroleum products.

The refinery was established soon after oil was discovered in the Westbrook field and started operations as a 500-barrel plant. The industry proved successful from the start and has been enlarged and improved without interruption from that day down to the present. General offices are maintained in Oklahoma City.

BIG SPRING BOYS OFFER HONOR TO BEN DANIELS

Members of the Devil football squad at Big Spring honored their coach, Ben Daniels of Colorado, Wednesday night of last week with a banquet at the Crawford hotel.

George Brown, newly elected coach of the Big Spring team, was toastmaster and Speedy McTett, his assistant, delivered the principal address. Short talks were made by some of the boys.

Several of the Big Spring high school faculty attended the affair. Daniels was presented with an attractive insignia ring by members of the football squad.

'Hospitality Night' Given Monday Night By C-C Attracted Several Score Visitors

"Hospitality Night" of the chamber of commerce was held Monday night in the organization office together with the lobby and dining room of the Colorado hotel. It was on the order of a reception. Guests were met at the door by Messrs. Tom Stonerod, Jr., Jake Richardson and Joe Pond, Mrs. M. L. Kirschbaum directing them to the proper entrance. The other officers and directors were in the receiving line in the center office with C. C. Thompson, president and Mrs. Thompson heading it.

Mesdames O. H. Majors and J. B. Pritchett directed the guests through the office into the coffee shop dining room where Mesdames R. M. Gary, R. F. Fee, Jake Richardson and Joe Pond served punch under supervision of Mrs. T. W. Stonerod, Jr. From here the guests were directed to the dining room where the following program was rendered, following program by the Colorado Chuck Wagon Serenaders:

Mrs. W. R. Martin was introduced, who sang a solo after which she was introduced as being in charge of the program. Next number Mrs. J. F. Mercer sang, followed by a trio dance by Verna Campbell, Billie Margaret Gregory and Craig Porter. Song by Mrs. Bill Coffee followed by

a duet by Mesdames Petrecek and Berryhill. Dance by Harrietta Landers and Sarah Guitler. Mrs. C. V. Boeser sang next; dance, Phyllis Bowman followed with a song by Mrs. C. A. Wilkins; dance, Imogene Morrison and Nina Katherine Quinney, dancing "The Eyes of Texas." Accompanists were Mrs. W. R. Martin, Mrs. E. L. Latham, Mrs. Cecile Meskimen and Mrs. Jim Guitler.

Dining room arrangement being insufficient, crowd overflowed into the lobby of the hotel. Program finished, guests returned by the punch bowl and were served again, broke up into groups and visited for quite awhile. Entire office of the Chamber of Commerce and dining room were decorated with flowers through the courtesy of the Colorado Floral Company and Mrs. R. H. Barber. Decoration was in charge of Mrs. J. H. Greene. Lighting effect was produced by floor lights furnished by Texas Electric Service Co. Chairs were furnished by Kiker and Son. Officers and directors of the organization express appreciation to all who assisted in any way in making this the success it was, with the special thanks to the hotel and coffee shop for courtesies and assistance. The program met the unanimous approval of the entire audience, with the only regret being the inability of some to appear on the program.

Mr. and Mrs. Mills Entertain Bridge Club

Mr. and Mrs. Joe Mills entertained the London Bridge club at their home last Wednesday evening. High score for ladies went to Mrs. R. J. Wallace, high for men to Oscar Price, low for ladies to Mrs. V. L. Doss, Jr., low for men to A. L. McSpadden, and the traveling prize was won by Chester Jones.

A lovely salad plate was served to the following: Mr. and Mrs. J. M. Doss, Mr. and Mrs. W. L. Doss, Jr., Mr. and Mrs. R. J. Wallace, Mr. and Mrs. W. W. Whipkey, Mr. and Mrs. Chester Jones, Mr. and Mrs. Oscar Price, Mr. and Mrs. Harry Ratliff, Mr. and Mrs. J. W. Randle, Mr. and Mrs. Harry Ragan, Mr. and Mrs. John Arnett, Mr. and Mrs. A. L. The Priceless Paper

That prescription your Doctor gave you. What are you going to do with it? Why have it filled, to be sure.

Where?

Well, perhaps you haven't thought about that. But let us consider. That piece of paper is pretty important to you, isn't it? It symbolizes Health and Happiness—just about everything that's worth while in life.

Isn't it sufficiently valuable to warrant a little special care? Entrust it to a store that specializes in prescriptions, and maintains the highest ethical standards; a store you can trust as implicitly as your physician. Yes, ours is such a store.

WOMEN IN THE STUDY CLUBS

Zetagathian

The Zetagathian club met Friday with Mrs. G. V. Harrison with a lesson on Totemism led by Mrs. Wade Scott. Mrs. Joe Pond read a paper, "Totemism Defined." Mrs. Randolph McEntire had one on "Aspects of Totemism."

An English drill was led by Mrs. Pond. Each member has taken a needy family to care for. Four had visited and aided their family.

The county history is being written and the club will offer to help with the curio booth opened during our Home Coming. Sixty magazines had been sent to Looney school. Eight trees were given for Centennial highway beautification. A tea honoring the 1921 club is being planned for March 13.

The hostess served a salad plate with individual cherry pies, whipped cream and coffee.

The meeting this week is with Mrs. McEntire.

Self Culture

With a program on International Relations the Self Culture club met with Mrs. J. T. Howell Friday with Mrs. Barber leader. Roll call was answered with "Peace Problems of Today." Only one of the three papers assigned was given. This was "Relations Between the United States and Mexico," by Mrs. Whitmore.

At the business session Mrs. Pritchett reported on the called meeting of the County Federation and the plans for the luncheon honoring the State and District president. She also told of the call for trees to plant on the highway. The club will buy some trees and individuals will donate some.

The club bought a share in the Federal Housing association of \$100. A letter concerning the candidacy of Mrs. W. P. Averitt for State vice-president was read.

At the social hour sandwiches, pickles, cherry marlow cake and tea was served. On each plate was the flag of a nation with the history attached. This history was read by the one having it.

Mrs. A. F. King is hostess this week.

Standard

The Standard club was entertained Friday afternoon by Mrs. S. N. Sherwin at the home of Mrs. Y. D. McMurry. Roll call was answered with various portraits of Washington and Lincoln.

Mrs. C. E. Way was lesson leader while three-minute papers were given as follows: "Approaching Washington by Tidewater Potomac," Mrs. Way; "Definitions of Alphabetical Codes issued by This Administration," read by Mrs. R. D. Buchanan for Mrs. C. M. Adams; "The Home of the First Father of His Country," Mrs. J. A. Buchanan; "Travels of George Washington," Mrs. R. D. Buchanan.

A discussion on the "Wonders of New Washington" followed the reading of the papers. At the social hour the hostess served a two-course luncheon. The club meets this week with Mrs. J. A. Buchanan.

Hesperian

The Hesperian club met Friday with Mrs. Nat Thomas. The club was most happy to have Mrs. Otto Jones present again, for the return of Mrs. Doyle Williams who has been away since the first of December, to welcome as a visiting member Mrs. Bill Coffey and to have Mrs. Bill Broadbue as a guest.

It was voted to take Hamlet as the Shakespearean study. Discussion for the last half year centered around Browning's short poems and plays. This will be decided later. Fourteen of the members will attend the club luncheon Friday.

The sum of \$1.50 was donated to buy trees for highway beautification and a number were given from member's yards.

A poem by Miss Jo Dry and one by Mrs. T. H. Connor were received to be submitted for the Sixth District Anthology. Mrs. Coffey read four of her own which are to be submitted. They were most enthusiastically received by the club.

Mrs. Edgar Majors gave the Biography of Margaret Bell Houston and Mrs. J. A. Sadler reviewed her newest book, "Gypsy Weather." The scenes of this are laid in New York City, but extend back to Del Rio, Texas, in a fascinating mystery story. Mrs. Sadler's review was splendidly given.

A salad with hot tea and divinity candy was served at the social hour. Mrs. Sam Majors is to be hostess this week.

Shakespeare

Two poetry-writers of Colorado were introduced and read some of their work before the Shakespeare club during its meeting Friday at the home of Mrs. J. Max Thomas.

Mrs. John Doss was program leader. Mrs. J. H. Green discussed "Writers of Texas" and in connection with her topic introduced Mrs. Sam Majors and Mrs. J. E. McCleary, writers of poetry.

Mrs. Majors read three of her poems, "The Sycamore Beside My Door," "Temptation," and "Fame." Mrs. McCleary read "Wings Against the Bars," "Fear," and "Then I Shall Sing Again."

Club members were told by Mrs.

Anniversary Celebrated By 1921 Study Club

Friday being the 1921 Clubs birthday they celebrated at the home of Mrs. C. C. Thompson with a Bingo party with only club members present.

The hostesses were Mrs. Thompson, Mrs. Ratliff, Mrs. Womack, Mrs. Broadbue and Mrs. Sam Majors. Each member brought a package so each received a prize in the Bingo game.

The Centennial idea was carried out in the dining room where the club presided. Mrs. Womack poured coffee. The table was covered with a lace cloth centered with Texas six flags in a crystal holder resting on a reflector. There were red and white mints on the table, cheese cherries, canapes, sandwiches and coffee with a dessert of "Centennial delight."

The meeting this week is upon National Resources with Mrs. Anderson.

MRS. SMITH IMPROVED

Thos. R. Smith returned early Monday from Dallas where he had gone to be with Mrs. Smith, patient in a hospital there. Condition of Mrs. Smith was reported improved.

LIVING COSTS ARE CLIMBING

ELECTRICITY IS MORE THAN EVER THE BIGGEST BARGAIN IN THE HOME

Living expenses go up and down . . . mostly up for the last few years . . . all except your electric service. It has gone steadily downward, even when other prices reached the highest peaks. Today electricity is cheaper than ever and has decreased in price more than any other living cost.

You can make full use of electricity in your home at a very small cost, save time . . . energy . . . health, and add to the comfort and convenience of your family. For example, good light for an evening of reading costs only two or three cents.

PENNY WISE SAYS:

"Your eyesight is precious. Don't strain your eyes by reading or studying under a poor light, when cheap electricity allows you to have all the light you need at a cost of only two or three cents an evening."

SAFEGUARD EYESIGHT with GOOD LIGHT

Good light is one of the most important needs of the home . . . and one of the cheapest. Protect your eyes and the eyes of members of your family from strain with a new Better Sight Lamp, scientifically designed to give proper light without glare.

Continental Proves Faith In Ad Space Of Country Papers

The Record Designated As One Of Publications That Will Carry Messages

PONCA CITY, Okla. — During 1936 Continental Oil Company will spend nearly 75 per cent of its total consumer advertising appropriation for newspaper space, it was announced here today by Wesley I. Nunn, advertising manager.

Nunn also stated that the Record has been selected to carry Conoco advertising this year, and that his company has again approved one of the largest sales promotion budgets in its history.

"Continental's faith in the dividend earning power of newspaper advertising is founded upon sales increases directly traceable to this medium," said Nunn. "Last year, for example, there was a marked improvement in company earnings, despite excessive gasoline taxes and other adverse factors. Sales of Conoco Gorm Processed Motor Oil also reached an all-time high."

"Business is definitely on the upgrade. And we are confident that aggressive newspaper advertising, quality products and a high standard of service will make this the most outstanding year in our history."

PLAINVIEW H. D. CLUB LEADER IMPROVES YARD

With Spring comes renewed interest in yard improvement work, as in the case of Mrs. Howell, yard improvement demonstrator of the Plainview Home Demonstration club. Mrs. Howell has changed the shrubs by taking the Armour privet hedge from the front and transplanted it to the sides and back for background and protection. Roses have been taken from places in the lawn to a side bed on the south of the house.

A crepe myrtle has been moved and placed in a foundation planting, also a Japanese Honey suckle has been transplanted to the west end of a south porch. Native buffalo grass is used for the lawn as it requires less water than the bermuda. Special flower beds will be used this year but will be placed other places for another year. Mrs. Howell hired help to do this heavy work.

National Program To Be Heard Here By Texas U. Exes

Feature To Be Broadcast Is To Originate In New York Next Monday

"Texas Exes" at Colorado and throughout the country will tune in on a nation-wide radio broadcast, sponsored by "Texas Exes" in New York, as the significant feature of this year's March 2 celebration of former students of The University of Texas. For many years Texas Independence Day has been the occasion for universal reunion of ex-students of this institution, with the motto, "wherever two or more of us are gathered together, we shall break bread" and re-pledge allegiance to the University.

In widely scattered parts of the globe hundreds of banquets and many less formal dinners are held in commemoration of this "University Day." "Texas Ex" clubs have been formed in more than fifty Texas towns and counties, and in nearly a score of other large cities of the country.

It is due to the efforts of the New York "Texas Exes," numbering into the hundreds, that a broadcast presenting prominent Texans in public life in New York and in Washington and in the motion picture industry in Hollywood will be given March 2.

A telegram from James O. Wynn, president of the New York Club, tells the program for the broadcast: "Texas Exes and their friends in New York City will celebrate Centennial Day with dinner and dance in Rainbow Grille, Rockefeller Center.

Have arranged for coast to coast broadcast over National Broadcasting Company Blue Network, beginning 9:30 p.m. Texas time featuring Texans prominent in public life on the radio and in the broadcasting field. Will have hookup with Hollywood for Texans in moving picture industry and hookup with Washington for prominent Texans there. Rest of entertainment will be radio artists who are Texans. Will appreciate your advising other Texas Exes parties to tune in on our broadcast."

STEWARDSHIP CONTESTS HELD SUNDAY AFTERNOON

At the First Baptist church Sunday afternoon was held the District elimination contest on Stewardship by the Girls Auxiliaries. This was under the direction of Mrs. O'Brien.

The two contestants were Juanita Barton of Colorado church and Myrtle Coker of Big Spring church. Both made splendid speeches but the judges decided in favor of Miss Barton. The Junior G. A., Dorothy Murphy of Snyder had no opponent, nor did the Sunbeam speaker Natalie Hanks of Colorado.

Present for this were Mrs. Woodfin of Snyder, Mrs. Reader of Loraine and the Cooper family of Big Spring besides a number of Colorado Missionary women.

Mrs. Lee Jones, District president, expressed her appreciation of the work being done and said that Mrs. Cooper would be sent to the State meeting.

SCIENTIFIC

In reading the Scientific American and otherwise delving into the inventive future we are amazed at the advances being made and those predicted within the next ten years. They are now working on and will soon have completed many of these:

Airplane speed of 1,000 miles per hour, enabling globe-encircling ships of the sky to keep pace with the sun. Breakfast in New York, lunch in Honolulu, dinner in Shanghai, yet the hour of the day really remaining the same.

Air-conditioned clothing, electrically operated by radiated energy. Broadcasting of power for motor cars, airplanes, factories, lighting and heating of homes.

Individual, portable radio sets, sending and receiving, providing direct wireless communication between persons as now between stations.

Cure of two of today's most baffling diseases: cancer and the common cold.

Development of a serum which will alleviate feeble-mindedness and cure insanity.

Prolongation of the average life-span to three score and ten years.

Just as 250,000 new substances in such classifications as foods, fabrics, dyestuffs, plastics, medicines, perfumes and flavors have been developed in the last century, so other countless thousands will be devised in organic chemistry laboratories during the next.

Yet all of these and many others, notwithstanding their potentialities for the happiness and welfare of mankind, materially speaking, are not the most important contributions which science is destined to make to civilization in the next century, in the belief of Professor Arthur H. Compton, winner of the Nobel Prize in Physics and noted authority on the cosmic ray.

"More powerful telescopes will be built to search farther into the depths of space," he asserts. "Larger balloons flying higher will bring new light on the mystery of cosmic rays. Greater generators will produce higher voltages, which will be used as the hammer of an American Thor to break into the inner citadel of the atom.

"Airplanes may fly faster and further. New serums may give us immunity from now dreaded diseases. Man will have greater knowledge of nature, and more varied. Yet even these Promethean gifts are not all of science's greatest offerings.

The greatest of all these is the broadcasting of power for motor cars. The transmitting of the radio current from the air to the motor engine will revolutionize and change many things. It will practically put the refineries out of business as there

will be less need for gasoline, but to offset this it will enable the gas companies to pipe gas into every rural home in the United States, thereby increasing consumption a hundred fold thus enabling a lower rate. Another thing it will enable the state and counties to levy a \$25 to \$50 tax on all cars, which will then be cheaper to run your car than now, and will do away with all ad valorem tax. Thus, supplying the rural homes with gas will do away with cord and stove wood and kill the axe trade. To offset this we will bring the wood pulp paper mills to Texas to consume our timber. An experiment has already been made in East Texas showing our timber suitable for wood pulp from which paper is made. Nearly all of Texas paper is shipped from the Canadian mills via New York thence by water to Galveston and Houston making the carrying charges twice the price of the paper.

We expect to live to see airplanes built to fly 500 miles per hour and sell for \$1000. Even the tenant farmer will have his motor for around home and his airplane for longer trips.

We expect to see medical science developed until the average man will live to be 100 years old.

We expect to see the farm tractor and other farm implements entirely eliminate the horse and wagon from the farm and our children when referring to the "horse and buggy" days will say "horse and wagon" days.

So the multitude goes, like the flowers or the grass As they put on more speed so the others can't pass And they die as they lived with a smile on their face With joyful hearts from the thrill of the race.

CRIME INCREASING

Sometimes as we set in meditation the whole horizon looks gray and black. Progress seems to have stopped and hope to have vanished. One might even think that the devil might have been unchained for his thousand years of reign. Gambling, the most destructive of all the vices, seems to have been given free reign again. Slot machines, marble tables, pool rooms, crap games and every infernal device that has been invented to sap man's honor, to rob their families and to impoverish the weak and dependent seems to be rising and dancing before the world. Strong drink and its associates are overflowing the field like the opposing athletes rushing to the struggle in a football game. Oh, what an array of evils they appear to be. Poverty, crime, murder, starvation, wife-beating, child killing, jail filling, insanity are all individuals in this great game. Three truck loads of whiskey bottles gathered from the field of one football game indicates how youth is being inoculated with the alcoholic disease. Six hundred booze joints licensed in Dallas, some almost at the church and school doors. No wonder a judge gets sore. Hotels filled on occasions of such athletic contests by sons and daughters of fond parents who thought their children had gone to college to learn high ideals but instead who have forgotten that their bodies are the temples of the Holy Ghost.

The whole nation hypnotized into believing that by borrowing and blowing into the air 33 billions prosperity can come when the eternal lesson of the ages has been the only path to prosperity. How the devil must laugh as he sets his traps and nets for we foolish people.

OUR YOUNG FOLKS

In an editorial of the San Angelo Times is this expression: "Youth still looks for easy money, still winks at easy virtue, still applauds the crowd that can get by."

To which we beg leave to differ and comment. There are by far more upstanding, honorable, sober and fine young people in this world than there are the same kind of parents. I refer to boys and girls from 15 to 30. And the mystery of it is why they have any character at all except through horrible example.

If Junior is seen pleasantly "tight" the amen brethren watch their heads sadly over what the "younger generation" is coming to. Yet Junior has seen his old man loop-legged so many times he probably wouldn't know him from a Ford V-8. And the old man has the audacity in his sober moments to lecture Junior on the subject of drinking. Ma plays

bridge all day, rushes home to conscientiously feed Junior his spinach and carrots, rushes back out after dinner to cocktail parties and dances and to make a ridiculous plum but coy, spectacle of herself and justify this easy virtue spoken of in the editorial.

You say that youth "winks at easy virtue," well if he does remember he saw the old man wink first and the old lady stand for it. There are plenty of boys and girls who are ashamed of their parents.

You say "youth still looks for easy money." That is to make you laugh. Youth does not look for easy money. But after all why shouldn't they? Who has stolen the most money the last few years, youth or our "honorable" "respected" and "trusted" men over forty. Youth looks for a job first, understanding and encouragement from his home and community, and when he doesn't find any of that and sees again the older heads setting the example of "within the law" stealing, perhaps he asks himself why not? I have more respect for youth with a gun and mask than for our crooked lawyers, judges, politicians and business men.

You say "youth still applauds the crowd that can get by." Indeed, there is lots of contempt the young ones have for the old heads that "get by."

Believe me it isn't youth holding midnight revels and rendezvous at our night clubs, winking at easy virtue, staggering home to meet the milk man, it isn't youth with a hand out for easy money, it isn't youth applauding the getting by.

Quit criticizing youth and lend them a hand and set them a standard. Some of you gay old dogs with so much money to spend step down and out and give some young man your job and teach him to make a success of it. Make room in your organizations for some youth who is about discouraged and ready to turn aside for easy money. Invest in humanity for a change. It may not pay great dividends here but might possibly offset your score with St. Peter for some of the "easy" money you made.

Young men of today are so bored and so bewildered by the crazy old world they are little short of desperate. Why? Because possibly Dad nobly sent them to college, gave them vision and then refuses to help them use it. He puts a college man on the dear old range to count sheep and is chagrined when he falls asleep on the job. Or he satisfies his conscience by giving Junior some office boy routine or makeshift job to whet his ambition on. But then if he takes a few mistakes and lose a few dollars and it is better to lose son. Or somebody else might think he was trying to promote his own, which would be unethical. Or you can't tell—son might want them to take turns about holding the stenographer on his lap. One writer has said: "It may be possible that youth is going to the devil at a gallop, but the old folks will get there first."

HORSE AND BUGGY DAYS

J. H. Gestring, one of the largest wagon manufacturing companies closed their shop this week and said automobile and tractor have eliminated the farm wagon and we are the last to quit. Since 1904 when the decline of the wagon and the carriage became noticeable, the wagon has been fighting a rear-guard action with the automobile.

It is surprising how many horse-drawn vehicles, including the sulky are relatively modern. The rubber tired sulky dates from about 1890. The hansom has just celebrated its centenary. The omnibus, later introduced into the United States as the stage, came into use first in England in 1829. Modern methods of carriage construction began with Obadiah Elliott's invention of the elliptical carriage spring in 1804. It might be said that the horse-and-buggy age itself began as late in the ages as that date. For it was not until Tedford's and MacAdams' improvements became widespread, in the early nineteenth century, that vehicular traffic became at all easy and pleasant and humanity became, in Carlyle's term, gig-manity.

The farm wagon, of course, is venerable but wagons for transporting goods were such an innovation in Elizabeth's reign that they made the Thames boatmen hot. One does not have to be venerable one's self to recall the days when "vulnerable city dwellers heard the farmer's wagon rumbly into town before the general roar of Fifth Avenue stages. Percheron-drawn drays and delivery wagons turned up for the day.

JEHOVAH AND GABRIEL

In a period of unrest and discontent in the midst of plenty, when greed for gold grips the minds of men and when again the cry is for more money, and yet more money, reminds of the following story:

Hearing murmurings and complaints of hard times on earth, and particularly in America, Jehovah sent Gabriel to find the cause. Upon Gabriel's return Jehovah asked why the American people were richest on earth, were discontented. "Have they not enough for their needs?" replied Gabriel. "They have food in abundance, they have many comforts, why, they have even learned to raise prices and get government bounties. Have they sufficient clothing? Yes, answered Gabriel, they are clothed better than any people on earth, and many are arrayed in finery. Have they good homes?

THE COLORADO THAT USED TO BE 25 Years Ago 15 Years Ago

FIFTEEN YEARS AGO

"Whoop 'em Up Spirit Prevails at Booster Club Meeting," heralded banner line on first page of The Record for the last week in February, 1921, fifteen years ago today. The article recited fact that 140 Coloradans attended the meeting, held at show rooms of the Price Auto Company. Ben L. Cox of Abilene, representative in the Texas legislature from the then district of which Mitchell county was a part, was flayed by speakers heard at the Booster Club meeting after it had been announced that Cox was seeking to kill proposed bill to create a West Texas A. & M. College. Colorado was enthused over possibilities of being given location of the school.

Porter A. Whaley of Stamford, manager of the West Texas chamber of commerce, and George H. Sheppard, mayor of Sweetwater, were among visiting speakers to be heard. "So interested were citizens attending that the meeting did not adjourn until 1 o'clock a.m.," it was noted.

Guests attending a George Washington party at the residence of Mr. and Mrs. Jim Hale were upset when two white men were detected in the act of trying to steal refreshments from the kitchen. The intruders fled through a rear door, with Hale in hot pursuit.

Mrs. Mary Mann, a resident of Colorado for forty years, had died a few days before. Organization of the Womans' Auxiliary, American League, was announced. Mrs. J. G. Merritt was elected president; Mrs. Lee Jones, first vice president; Mrs. N. J. Phenix, second vice president; Mrs. Nellie Schroeder, third vice president; Mrs. J. C. Hooker, fourth vice president; Mrs. T. J. Radliff, recording secretary; Miss Hazel Castin, corresponding secretary; Mrs. Jim Dobbs, treasurer; Mrs. P. C. Colehan, historian.

TWENTY-FIVE YEARS AGO

Colorado continued to manifest interest in fight to obtain location of the West Texas Normal. Judge W. B. Cockett had just returned from Austin where he conferred with State officials on the matter and in his report to the paper expressed belief the school would be given to this community. Contract for construction of two steel bridges were awarded by county commissioners' court to the T. P.

Yes, said Gabriel, all who will work are well housed and some live in stately mansions equipped with luxuries fit for kings. Again Jehovah asked, Have they not opportunities for progress or for knowledge that will bring happiness and prosperity? Oh yes replied Gabriel, they have all these things in an abundance the world has never known. Well, replied Jehovah, if they have all this what more do they want? There is just one thing more, replied Gabriel and to get that one thing they will part with all else they have, for in that one thing they think lies their life and happiness. They want more money to enable them to buy more automobiles, more radios and to go to picture shows. That being the case, go then, commanded Jehovah, go give them more money, give until it is as plentiful as the leaves upon the trees, give until their bank vaults, already bulging with cash, may overflow, but keep on giving so they may buy automobiles, radios and go to picture shows to their hearts content, let them buy all the gewgaws they think will make them happy. But raise prices and thus take away from most of them the food, the clothing, the homes and all the advantages and blessings that constitute real wealth. Thus, let my people try to learn once again a simple lesson I have tried to teach many times before:

That money is not wealth and that real happiness can never come through automobiles, radios and picture shows. F. B. W.

Alsbury Company of Houston. One of the structures was to span Champion creek south of Colorado and the other Willow creek north of town. C. M. CARD OF THANKS

We wish to thank our friends for their loyalty, kind words, thoughtful deeds, beautiful flowers and the many other things to help us during the illness and death of our darling baby, Elneta Ann. To Drs. Crymes and Root, also the nurses, we wish to express our love and thanks for their untiring efforts in doing all they could to help bring our darling back to health. But our Heavenly Father seemed to need her up there. It is the darkest hour of our lives but we try to abide by his will. May each of you have just such friends and comfort when this sad hour comes into your homes.

Correction

In reporting fire alarms last week the Record stated that the second alarm was at the Modern Beauty shop, where a hair dryer became ignited. This was an error and we are glad to make this correction. The fire was not in the hair dryer but resulted from the breaking of a gas connection while the floor of the shop was being cleaned. Gas from the break became ignited, but was quickly extinguished and no damage was done.

JUST COMPARE THIS with THIS
Terraplane alone among all popular low priced cars gives you this:
● Full 115-inch wheelbase.
● 195 inches over-all length.
● Most power—88 or 100 horsepower—with freedom from vibration at all speeds.

The list of Terraplane advantages doesn't stop with those listed here. There's greater ruggedness, proved by owner mileages of 125,000, 150,000 and more. Greater economy, too, certified by thousands of sworn owner statements... emphasized again just the other day in the Los Angeles-Yosemite Economy Run when a Terraplane averaged 23.95 officially certified miles per gallon over a tough 352 mile stretch on mountain roads.

TEXAS CENTENNIAL CELEBRATIONS

Get Ready Week!

CLEAN-UP! PAINT-UP! PLANT FLOWERS AND LAWNS! GET RID OF UNSIGHTLY RUBBISH! BEAUTIFY YOUR PREMISES BEFORE OUR MILLIONS OF VISITORS ARRIVE IN TEXAS!

Governor Alford's Proclamation!

To early Americans, the word "Tejas" meant friendship. Today the word "Texas" still means friendship, and more. It means opportunity, a land of fabulous natural resources, of rolling ranges, of loamy black farmlands, of unsurpassed climate, and—BEAUTY. This year, Centennial Year, Texas is entertaining millions of visitors from every part of America. They're coming to see the Texas they've heard and read about. They will travel every part of our state. The favorable impression Texas and Texans make will result in a priceless asset for the Lone Star State. Let each of us do everything possible to see that our visitors not only remember Texas as an empire of friendly people but as a land of BEAUTY, as well. This can best be accomplished by each citizen seeing that his or her premises is free from unsightly rubbish, made attractive with flowers or green lawns. In brief, let us all cooperate to the end that visitors will be impressed with the cleanliness and beauty of Texas as well as with our far-famed reputation for friendship.

Open House To Be Observed March 4th By Sewing Room Operated At Colorado

Next Wednesday is to be observed as "Open House" by the Colorado WPA sewing room, Mrs. Alma Phillips Miller, supervisor, announced Tuesday morning. Special invitation to all interested citizens of the county to attend is extended. The hours to be observed will be from 3 to 5 in the afternoon. With reference to the reception and objectives of the sewing room project, Mrs. Miller said: "The project is a public enterprise and we should like for our friends to observe the organization and system employed in our plant. Some eight thousand dollars to be expended by the WPA for materials that are being made into garments for children,

women and men. These garments are turned over to Judge Templeton who is sponsor for the project for Mitchell county. Mr. Templeton in turn issues these clothes to people of the city and county who are in need of help. "We supervisors in charge are putting forth every effort to direct the making of durable, wearable clothes that meet the aesthetic as well as the health aspect of clothes. "Sixty women of Colorado and Westbrooke are employed in the Colorado units by WPA to construct these garments. Westbrooke women who form a branch of Colorado units shall meet with us on Wednesday and take their place in the sewing rooms during the open house."

Her Spud Recipe Wins Recognition Of National Paper

Miss Eleanor Derrick of Colorado has just been awarded a Certificate of Recipe Endorsement by Better Homes & Gardens for her recipe, "Stuffed Sweet Potatoes."

This certificate, which brings national recognition to Miss Derrick is given by Better Homes & Gardens only to distinguished recipes which pass its testing kitchen's tests for dependability, excellence of taste, and family usefulness. In addition to the signed certificate, Miss Derrick also received six copies of her endorsed recipe, each bearing the Better Homes & Gardens stamp of recipe endorsement, which she can give to her friends. In awarding these certificates, it is the magazine's aim to provide proper recognition for the creative work done by women in their own kitchens, and also to raise the standard of accuracy and dependability of recipes as a whole. No other magazine or institution gives this personal recognition and service to its subscribers.

Miss Derrick's endorsed recipe follows: **STUFFED SWEET POTATOES.** Select medium sweet potatoes, wash thoroughly and rub the skins with shortening or oil. Place on the rack in a moderate oven (350 degrees) and bake for about 1 hour or until done. Cut a slice in the side of each potato and scoop out the inside, being careful not to break the skin. Mash the potatoes, moisten with sweet milk and season to taste with salt and pepper. Add about 2 tablespoons butter and 1/4 cup chopped nutmeats. Refill the shells and brush the top with milk. Place on a baking sheet and bake in a hot oven (400 degrees) for about 15 minutes or until slightly browned on top. Remove from the oven and serve hot with roast.

Women Of Church To Serve Lions At Meeting This Week

Ladies of the Westbrook Methodist church are to serve members of the Lions Club Friday noon, the president, Judge B. L. Templeton, stated last week. The club is to meet in the Levy building, corner East Second and Elm.

Change in location is due to fact the Mitchell county Federation of Womens' clubs is using main dining room at the Colorado hotel Friday noon to entertain State and District leaders in that organization. "We assure every Lion of a splendid meal and another highly entertaining program," Rev. Albert Click, pastor of the Westbrook church, stated at the Lions Club meeting last Friday.

IATAN INKLINGS

"NIGHTFALL"
The western sky is aflame with a golden red; The hours have passed when the day is dead; The peace of night is all about; Things grow silent as the stars come out. The elements are filled with the cool night air As the night hawks dart here and there.

From over the ridge the old moon peeps While playful children lie down to sleep. When all is silent and the night is still, You can hear the coyote's whine on a far-away hill. I love the nightfall with the heaven so bright, And the rays from the moon that send out its light.

High School Cage Clubs To Contest For Higher Place

Regional Playoffs Set For This Week At Eight Points With 32 Teams Entered

The cream of Texas' 1,500 high school basketball ball teams fought through district tournaments Saturday night, leaving 32 of the strongest to compete for regional and state honors.

Denton, 1935 state champion, put on the power at Fort Worth to trim Springtown, 17 to 9. Denton is regarded as a strong contender for this year's state title.

- Regional playoffs will be held this week at Canyon, Abilene, Denton, Longview, Huntsville, San Marcos, Kingsville and Alpine. The eight surviving teams will go into the state championship games.
