

HICKMAN LEADS PRITCHETT ONE VOTE IN BALLOTS FOR ELECTION AS POLICE CHIEF

Ratliff Elected City Health Official At Council Session Monday Night; Moeser And Dozier Sworn In

H. S. Hickman, police chief at Colorado during the past several years, is to be continued in that capacity during the next two years, under provisions of an order passed Monday night by the city council. The appointment of Hickman will be secret ballot, he receiving three votes to two polled for J. B. Pritchett, another applicant for the post.

Hickman was appointed for a term of two years at March session of the council. Requests that Pritchett be given opportunity to have his application for the place considered met with approval and during a recessed meeting held March 26 the order electing Hickman was recalled.

Appointment of Hickman was voted with the provision that either party to the contract may terminate such relationship at any time, upon thirty days notice. Some members of the council held out for a time that the appointment be made for only one year but support of the longer term prevailed.

Dr. T. J. Ratliff, pioneer Colorado physician, was unanimously elected city health officer, succeeding Dr. J. Melvin Crymes. The change is due to be made May 1. Dr. Ratliff had been offered the office in other years but declined. Mayor J. A. Sadler announced that the physician would accept this time.

Tabulation of returns from the recent municipal election was another order of business. Chas. Moeser and Roy Dozier were declared elected and were administered the oath of office by City Secretary J. Lee Jones. Moeser received 107 votes and Dozier 106 votes. They were returned to office for two years.

Closer cooperation between members of the police department and the city council in every respect was suggested in statements made during the session. Mayor Sadler announced that such a program should be the city's goal and "we are going to call those boys in here and have a heart-to-heart talk with them about their duties and their relationship to the public."

CITY, COUNTY WILL EXTEND COOPERATION IN DRIVE TO ROUND UP CATTLE THIEVES

Pilferers Of Other Livestock Tpo, Will Receive Attention Under Sponsorship Of Anti Theft Association

That person who essays to steal livestock, poultry and other properties of the ranchers and farmers of Mitchell county rightfully belongs in the State penitentiary and officials of the city and county Monday pledged to the Mitchell County Anti-Theft association full cooperation of the two political subdivisions in attaining such a goal.

Monday morning several leading cattlemen as members and officials of the anti thieving organization met with County Judge B. L. Templeton and members of the commissioners' court. Charge was advanced by the cowmen that thieves were responsible for losses, both to them and their farmer neighbors. Appeal was made that an aggressive, well organized campaign to drive out the undesirables be instituted.

The commissioners were in sympathy with plea of their visitors and voted to aid them financially and otherwise. Funds appropriated by the court were augmented by the cattlemen to pay rewards for information leading to arrest and conviction of the alleged thieves.

Pilferers of cattle, horses or mules were registered as the most sought after. For information leading to conviction a reward of \$250 will be paid. Reward for rounding up sheep and goat thieves was placed at \$50 and for chickens and hogs at \$25.

D. H. Snyder, president of the association, and other cattlemen met with the city council Monday night to invite cooperation upon part of the city in curbing reported thievery in the county.

"We are here to request that this city council, through an approved official, cause due inspection to be made of every hide taken from beeves offered for sale for public consumption within the corporate limits," Snyder announced. "Whenever a beef is offered for sale here we want to see the hide," he continued.

By unanimous vote of the five councilmen it was ordered that the inspection be put into effect as soon as proper ordinances may be drafted by the city attorney and published. It was indicated that a violation would be imposed for violation by part of the proposed law.

Along with protection of the cattlemen to extent of inspecting beef hides the council announced that plans were being mapped looking to construction of an abattoir here. Communication from V. M. Enders of Austin, chief sanitary engineer for the department of public health, outlining that, in his opinion, WPA funds for such a project would be available later during the year, was read.

Stray Dog Found To Have Rabies, Farris Informed

Wire Tuesday From Pasteur Institute Causes The Health Officer To Issue Warning

That rabies may spread in the Iatan and possibly other communities of that section unless the public employs every facility for curbing spread of the disease was expressed here Tuesday afternoon by Chas. R. Farris, Colorado sanitation official.

The dog, a stray in the Iatan community, was brought into Colorado by an employee at the Magnolia Camp, after that he had noticed the animal acting suspiciously. Farris killed the dog and shipped its head to Austin.

Persons living in that community are requested to dispose of all dogs and cats they have reason to believe might have been bitten by the infected dog, Farris stated. Other animals that may have been attacked by the dog should be kept under strict confinement until not less than fourteen days have passed.

Farris stated Wednesday that a number of dogs, known to have been associated with the rabies animal, had been killed. Others, he noted, were either being kept in seclusion at home or receiving anti-rabies treatment by a veterinarian.

COLORADO BIDDIE. ALSO CAN PRODUCE COUPLE OF EGGS WITHIN ONE SHELL

The Illinois hen that recently attained mention in Ripley's "Believe It Or Not" feature due to fact she had laid two eggs within one shell, is not to be outdone by a Rhode Island red hen owned by Mrs. Tom Burrus of East Colorado.

Wednesday Mrs. Burrus found a large, round object in her yard that on first sight looked like a tennis ball. Examination disclosed it to be a hen egg. Taking it inside the house she decided to cook it for dinner and broke the shell.

Imagine her surprise when another egg, it, too, round in shape, was found inside the outer shell. The outside shell and the egg contained inside was brought to The Record office by Burrus.

Thos. R. Smith took Mrs. Smith's mother, Mrs. Russell, home to San Saba Saturday and spent Easter Sunday in Austin with Royal Smith, Jr., who continues to improve following his recent severe illness.

CHURCHES

EPISCOPAL CHURCH
Sunday services at All Saints' Church, Protestant Episcopal, will be: 7:30 a.m. Evening Prayer and sermon, "Behind Closed Doors," from the text, John 20: 19.
9:45 a.m. Church school.
Everyone is invited.
ALEX B. HANSON, Minister.

FIRST BAPTIST CHURCH

There is a natural tendency after a special day like we had last Sunday to permit ourselves to let down. May we urge you this time to guard against such a tendency. It is the day after day regularity that really counts. To be regular in attendance does two things: it produces normal growth in the individual who practices it, and it makes a real contribution to the church he loves. Irregular attendance frustrates both of these ends. You can no more grow normally spiritually by irregular attention to spiritual matters than you can grow normally physically by neglecting common health rules. Your church needs you every day and you need your church every day.
All regular services next Sunday. Visitors and strangers always welcome.

DICK O'BRIEN, Pastor.

Sudden Death Of Ed Grubbs Shocks Colorado Friends

Well-Known Citizen Is Found Dead In Bed At Home On Wednesday Afternoon

News that Ed L. Grubbs, 57, well-known Coloradoan, had been found dead in bed at his home here shocked all Colorado Wednesday afternoon.

Mr. Grubbs' death was discovered by Mrs. Grubbs when she returned from a business trip to Big Spring about 3 o'clock. He was lying in bed, covered with a quilt and blanket in spite of the day's warmth. Death was attributed by physicians to a heart block. He had been dead about an hour.

Neighbors saw Mr. Grubbs in the lot watering his cow about 1:30. Although he had been in ill health for several months he was thought to be improving.

The Grubbs family moved to Colorado about thirteen years ago, coming here from Altus, Oklahoma. Mr. Grubbs was reared in Paris, Texas. He and Mrs. Grubbs, the former Miss Esther Baushke, were married in Clarksville, Texas, in 1916. Until ill health forced his retirement, Mr. Grubbs engaged in the ginning business.

A lover of music and the possessor of a good voice, Mr. Grubbs devoted much of his spare time to musical pursuits, teaching his children to sing when they were very young. Like Mrs. Grubbs, he was active in church work.

Funeral services were held Thursday afternoon at 4:30 at First Methodist church, with the Rev. Cal C. Wright, pastor, officiating. Pallbearers were J. Ralph Lee, T. W. Stonerod, Jr., D. V. Merritt, Tom Glover, Bert Smith, and Judge Benton Templeton.

In addition to Mrs. Grubbs, five children—Hazel, Gilbert, Walter, John, and Betty—survive. A brother, Walter Grubbs, lives in Houston. Surviving sister are Mrs. J. F. Walters and Mrs. R. B. Sanderson of Tipton, Oklahoma, Mrs. O. Lambeth of Lamesa, and Mrs. J. E. McCleary of Colorado.

She was in ill health for a period of 15 years before her death, and was confined to her bed the last three years of that time.

Funeral services were held from the residence at 3:30 Sunday afternoon, the Rev. A. D. Leach officiating. Pallbearers were B. N. Carter, Henry Pond, W. W. Porter, Charley Farris, H. F. Ward, and George Slaton.

BRUCE BIBLE CLASS

The Bruce Bible class of the Lorainne Methodist church held their annual get together meeting Tuesday evening, April 14th, at 6 o'clock at the Methodist Tabernacle.

After everyone had gathered, a supper was served consisting of chicken stew, beans, coffee, punch and pie. From the way everyone put away the food it was evidently enjoyed. Following the supper everyone visited together, renewed old acquaintances and exchanged gossip.

At 8:00 all of us went into the church building, sang our class song and then enjoyed a program of talks and music, as follows:

Class song, led by Mr. J. M. Bruce; Class History, Mr. C. W. Palmer; song, Mr. Miller of Champion, playing own accompaniment; Introductory remarks, Rev. Bruce Meador, former pastor Methodist church, Lorainne, introducing Dr. Brabham, President of McMurry College, Abilene, who was our principal speaker; songs, Dr. C. L. Root of Colorado sang three songs accompanied by Mr. Daves of Colorado at piano; series of short talks by other guests from out of town.

Everyone expressed themselves as having a wonderful time and enjoyed every minute of the entire program.

JUNIOR-SENIOR BANQUET

One of the most wanted and looked for events of this school season came to a climax when the seniors stormed the Mexicans at the Junior-Senior banquet.

The forces were commanded to meet at the school building, where they were drilled by a dress parade, the Commander-in-chief, Ed E. Williams, ordered an attack to take place at the Baker hotel. They marched single file to the designated spot where a bugle call summoned the army to attack.

The forces charged through the barracks in a triumphant manner and attacked the Mexican General Byron Bennett of the Junior forces, gave an inspirational welcome to charge the enemy. A response was immediately accepted by Lula Mae Roberts of the Senior forces.

After a slight struggle, as they were exhausted, the army was fed their meal consisting of the following: Prutas, frijoles, tamales, fritos, Arroz Espanol, Ensalada de Vegetales, Helado, Dulce, y to Con Hielo.

The Mexicans went down in defeat. As all victories are celebrated, Jimmie Glass sang "Lasita."

The Seniors were surprised as Billie Marie Rowland, while walking through a cemetery, read the epitaph on the tombstone of the Seniors.

The history of Texas Under Six Flags was given by a reading from Ruth Anne Hall, a piano variation by Kent McGowan, a colonial dance by Opal Martin and Duane Bruce, a Tribute to Texas by Eldon Mahon, and "America," sang in unison.

The theme was Texas Centennial. Flags decorated the banquet room. Streamers of red, white, and blue crepe paper made the room very charming. Place cards consisted of Centennial designs. A book of memories contained the menu, the programme, the faculty, the Seniors, the Juniors, guests, and a place for autographs.

SENIOR '42' PARTY
On Friday evening, April 10th the Senior class sponsored a "42" party. A large crowd enjoyed an evening of delightful entertainment.

At 10:30 Lula Mae Roberts was awarded a hand painted picture for high score in "42" and Mr. Paul Brannom was given a picture for high score in bridge. Refreshments of coffee and cake were served.

EARL MORRISON CALLS SUB-IRRIGATION 'FINE'

Results of sub-irrigation, which is being promoted in this county through efforts of vocational agriculture students of Colorado High school, are highly praised by Earl Morrison.

At the Morrison home in East Colorado there is a garden plot in which neither Mr. Morrison nor his mother before him had ever had any great amount of success in raising vegetables. Last year Mr. Morrison laid concrete tile for sub-irrigation and as a result had tomatoes and other vegetables in abundance all summer, he says.

Members of the vocational agriculture class are engaged in making concrete tile as a class project this year, according to their instructor, Doyle Williams. The tile is for sale at a bargain, and members of the class will direct the proper laying of any amount that is bought from them.

Another Texas county continues in dry list.

He was assistant conductor of the Fort Worth Junior Symphony Orchestra in 1929 and served in a similar capacity with the State Fair band several years. MIDLAND SPORTS SCRIBE WRITES OF NEGRO GAME

The sports scribe, Jess Rodgers, who writes the "Sports Horn" column for the Midland Reporter-Telegram, has this to say about the baseball game that the Colorado negro team and the Midland negro team played in Midland Sunday:

"The Midland colored boys have 'right smart of a club'. . . They have got a pitcher with a head and an arm and that is all any manager could ask. . . He administered the calcimine to the Colorado darbies Sunday while his mates were pushing around four runs. . . Dumb base running kept down the Midland score. . . Colorado threatened practically every inning but the Midland pitcher always had enough stuff to turn them back short of a score. . . He must have piled up at least 15 strike outs during the game. . . Incidentally, this department was informed—in no uncertain terms—that the Midland club played four innings against the San Angelo club here April fifth, winning by the close score of 11-7, or thereabouts. . . Our informer might have been thinking about galloping dominoes when he told us the score, but we will go ahead and call the score 11-7."

DR. HAROLD LINDLEY TO LOCATE IN PECOS; LEAVING IN FEW DAYS

Dr. Harold Lindley, Colorado physician, announced early this week that he will leave Colorado in the near future to locate in Pecos.

Dr. Lindley has practiced in Colorado two and a half years. In that time he has built up one of the largest practices in the county. He will keep his office here open through Saturday, April 18, and requests those wishing final check-ups with him to call before the week ends.

"I have greatly enjoyed the many friendships I have made during my practice in Colorado," Dr. Lindley to Pecos. "I wish to thank Colarostated in announcing his plans to go down and Mitchell's countians for their friendship and patronage."

Speaking of his reasons for moving to Pecos, Dr. Lindley said that he has made hospital connections there which will enable him to devote more of his time to surgery, for which he was specially trained during his internship in Scott & White at Temple and through his practice before coming to Colorado.

Mrs. Lindley, who will accompany Dr. Lindley to Pecos, has taken a prominent part in the social life of Colorado during their residence here. Until her recent resignation she was a member of the Zetaganian club.

Dr. and Mrs. Lindley plan to leave for Pecos Sunday or Monday.

REV. O'BRIEN AT ROGERS

The Rev. P. D. O'Brien will fill his regular third Sunday appointment at Rogers Sunday afternoon at 3 o'clock. Everyone is invited to attend.

Notice to Those Who Rent

For the past several years, due to depression, drouths and other calamities, rent in Colorado as well as other towns in this section of the country has been below normal. We realize, of course that under such conditions it is difficult to make up your mind to purchase a home and stop paying rent, but there is a homely saying to the effect that, "the harder the ground, the harder the old hen scratches". The only question is whether you have allowed this situation to discourage you and allowed your efforts to let down, more especially since the time is coming when we all will certainly need to own our own homes.

To those who have a bonus bond coming up some time during this year, we are going to offer to those boys the opportunity of purchasing a home for as little as

\$15 Down and \$15 per Month

until the bonus bond is available for the cash payment with the understanding that at which time the difference between the amount paid monthly, after deduction of interest, and the 10 per cent necessary, as required by our regular sales plan, as the cash payment, shall be paid, then a deed will be given and the balance carried upon a regular mortgage loan contract at a very liberal rate of interest. We have a nice bunch of dwellings to select from, you can get the home you wish and determine the amount of your monthly payments by the kind of property you purchase.

I Will be Glad to Explain the Plan in Person At Your Convenience

Friendly 'Hello' To Local Citizens Given By Dallas

Phamplet Gives Interesting
History On 'Oldest Cow
Town,' On Texas-Pacific

With arrival of the Dallas special train early Tuesday afternoon came a unique and interesting greeting from Dallas, extended in the form of a pamphlet dealing with Colorado and this section of the West. The folder was distributed on the streets here complimentary.

From first page of the pamphlet the following comment is reprinted:

"Dallas brings greetings to Colorado, 'oldest cow town on the Texas & Pacific', now a thriving metropolitan center of more than 5,000 persons, county seat of Mitchell County.

"Cotton and grains are produced in abundance here and livestock is a major industry—in fact Colorado has been referred to as the 'Raw materials capital of the world'.

"What Colorado talks about right now, however, is the Old Timers' Centennial Home Coming August 20, 21 and 22 this year. Then will be re-enacted the old cow life of an earlier day, with regular cow hands from ranches in Mitchell County as the principal actors. An Indian raid will be a part of the ceremonies.

"Noted for its fine retail stores Colorado is equally famous for its homes, its schools, its parks and its churches.

"To such communities as this Dallas sends her ambassadors of friendship and good will. The business men, the bankers, the farmers and the professional men of this territory have made the Southwest the fastest growing section of the nation. With the destiny of your city is linked the destiny of Dallas. Each serves the other in its appointed way.

"In this Texas Centennial Year the great objective is a finer, more glorious Lone Star State. Dallas will play her part, grateful for the honor of her selection as the central exposition city, earnestly anxious to be the perfect hostess to Texans and to the visitors from afar. In this she asks the help of all her sister Texas cities."

POINTS MADE BY CHS ATHLETES WIN THIRD PLACE IN SWEETWATER

Enough points to win third place for Colorado were piled up by local high school athletes taking part in field and track events of the district interscholastic League events in Sweetwater Saturday.

Forty West Texas schools took place in the meet, in which no records were broken. Rotan won first place with 27 points, Roby second with 18 5-6 points, and Colorado third with 15 points.

Colorado and Mitchell county students placing in the various events were as follows:

Rankin of Colorado first in the 880 yard run, Strange of Iatan second in the same event; Henderson of Colorado first in the 440-yard dash; Mahon of Lorraine first in broad jump;

Colorado won first in the mile relay, the team being composed of Walter Rankin, Wilburn Henderson, Jesse Jones, and Ivy Jones.

FAIRVIEW CLUBWOMEN DISCUSS THEIR YARDS

By Mrs. O. L. Simpson, Reporter
"Try to make your place clean, sanitary and more attractive to those that pass by," said Miss Emma Gunter, county home demonstration agent, at a meeting of the Fairview club with Mrs. E. R. Uzzle, yard demonstrator for the Fairview home demonstration club Friday.

The yard planting demonstration was carried out according to plan worked out by the landscape specialist from A. & M. College and our county home demonstration agent. The following shrubs were planted in the foundation and screen plan, lilac, snowberry, spirea, forsythia, and red bud.

Mrs. C. W. Burford was appointed chairman of the recreation committee with Mrs. Bill Wiggins as assistant. Twelve articles were prepared ready for the linen exhibit. There were 15 members with Mrs. Bittie Williams, Mrs. Chuck Wiggins, and Miss Robertson as visitors. The next meeting will be April 24th at Mrs. O. L. Simpson's.

NEW SOIL CONSERVING AND BUILDING OBJECTIVES SEEN AS BENEFICIAL TO PLANTER

County Agent Explains Plan For Information Of Local Citizens; Organization Of Mitchell Farmers Begun

Just as the old Triple A program occasioned the coinage of new farm phrases, such as "adjusted acreage," "base acres," "contracted acres," compliance and a score of others to the farmers' language, so the new soil conservation program is bringing new words to the farm. The meaning of some of them is explained in the following article by Ben J. Baskin, county farm agent.

Baskin has launched a campaign to organize farmers of the county into community groups to put principles of the new bill into being. Splendid response came to calls for recent farmer conferences at Colorado, Louisiana and Westbrook, designated as headquarters for directing plans of the law.

Most important from a financial standpoint, he says, are "soil conserving payment" and "soil building payment." The first is the grant a farmer may get for shifting acres from "soil depleting" to "soil conserving and building crops." The second is the payment, never in excess of \$1 per acre, which a farmer may be entitled to receive to help finance new grass and legume and similar seedings.

Farmers are beginning to talk readily about "soil depleting base." Soil depleting crops for Texas are corn, cotton, grain sorghums, sweet sorghums, millets, potatoes, rice, sugar cane, commercial truck and canning crops, small grains harvested for grain or hay, and peanuts. These crops take much out of the soil, return little. Grown exclusively, in the long run they will ruin the farm and the farmer.

Then there are "soil conserving" crops. These help the soil hold its own, but only slightly increase fertility. These crops include all main kinds of old seedings of legumes such as alfalfa, and grasses such as pasture if only grazed or clipped green; and winter cover crops if plowed under, or, if harvested, followed by summer legumes. Forest trees planted since 1933 also class as soil conserving.

"Soil building crops" are legumes plowed under as green manuring crops; biennial and perennial legumes seeded in 1936; summer legumes with forage left on land; and winter cover crops plowed under and followed by summer legumes. Trees planted in 1936 count as soil builders this year.

Place In Limelight Of Fort Worth Frontier Show Assured For Colorado

A place in the limelight at Fort Worth's Frontier Centennial celebration was assured for Colorado early this week when the Centennial committee of the Colorado Chamber of Commerce closed three contracts for Frontier publicity.

Contract to purchase one of the 2x5 panels to be displayed at the exhibit was closed with J. H. Greene, chamber secretary who is now acting as a special representative of the West Texas Chamber of Commerce in promoting Centennial exhibits from this section.

Colorado's panel will be prepared by the Albert Evans Advertising agency, according to another contract

entered into by the committee. Copy for the panel will be furnished by the local organization.

Chicken dinner to starboard!

"Here comes a rooster, floating by on a chicken coop! The repairman is rowin' out to catch him—we'll have chicken, stew for supper!"

In the flood-swept little river town, only the telephone operators remained, keeping the lines open for levee workers fighting the angry torrent. And at sundown, by long distance, the marooned office reported all well—and a chicken dinner in sight!

Good times and bad, it takes people to give you telephone service—men and women, with the ability to do a good job in fair weather, and the courage to stay at their posts when emergencies threaten.

The entire specialized organization of the telephone system—this company, the expert staff of American Telephone and Telegraph Company, Bell Laboratories, Western Electric—exists for one purpose only:

To help the men who patrol the lines, and the women who work at the switchboard, do a better job of giving you good, economical telephone service.

Ford - FOR ECONOMY

"The Ford V-8 uses less fuel and oil for the power it gives than any other car we have ever made AND ITS UP-KEEP COST IS THE LOWEST"

ENTHUSIASTIC sales talk often begins and ends with gasoline mileage. Some salesmen would like you to believe it is the whole story of automobile economy. But drivers ought to know better. For, the fact is, it's way down the list. The big items of car economy are low first cost, low up-keep cost and low depreciation. Savings here can make a great deal of difference in cost per mile. Gasoline mileage is more of a talking point than an economy factor. Check up and you will find that the difference between 17 and 19 miles a

gallon is less than \$10 for a whole year's average driving (8400 miles at 18 cents a gallon). Here are the big items that make the Ford the most economical car: More value for every dollar you pay. Lower cost for repairs and service. Long life. Slow depreciation. Quality means economy and the 1936 Ford V-8 gives you more real quality than any other low-price car. No other car under \$1645 has a V-8 engine. No other low-price car has Center-Poise Riding, safe, sure mechanical brakes and Safety Glass all around at no extra cost.

\$25 A MONTH WITH USUAL LOW DOWN-PAYMENT, BUYS ANY NEW FORD V-8 CAR ON NEW UCC 1/2% PER MONTH FINANCE PLANS.

Noted Artist, Husband Of Former Coloradoan, Exhibits Work Here

(Editor's Note: The Record is indebted to Joe Earnest for the following story of an exhibit which aroused much interest here.)

Displaying his own work and that of his son, Lewis Woods Teel, famous American artist and native of Texas, was a guest at the home of Mrs. J. Max Thomas over the week-end. It seemed almost like the return of a native inasmuch as Mr. Teel married a Colorado girl, Miss Belle Chaplin, sister of Louis Chaplin.

Mr. Teel, though born in Clarksville, Texas, of a pioneer family, moved with his parents to El Paso when he was a young boy. He has made that his residence ever since, with the exception of several years in the tropics and in Mexico.

Unlike many artists, Mr. Teel has never had a lesson in art, nor has he been associated to any extent with any school or group of artists. His inspiration, knowledge, and success have been achieved only through years of struggle and practice. Beginning with pastel, he next painted in water colors. Now his work is entirely in oils, with the exception of an occasional etching.

He is master of southwest desert scenery, a particularly difficult field inasmuch as the atmosphere can modulate colors in only a few moments. Many of the subjects are familiar to Texans as they are in the Guadalupe Mountains in the vicinity of Sierra Blanca. His paintings are scattered widely over the United States, and three are owned by people in Colorado.

Mr. Teel, a slender, gracious gentleman, slightly more than fifty with gray hair but a fair complexion which belies the years he has spent outdoors, has none of the affectations commonly associated with artists. Though modest, he eagerly answers questions about his work, and claims that his success is a matter of good luck. An enviable honor he has received is election to the famous Salmagundi Club of New York City (although he has never been there), a club composed of the outstanding artists of the country. Only two Texans are members of this club. He is also a member of the Texas Fine Arts and the Southern Art associations.

Mr. Teel's son, Lewis Woods Teel, Jr., is likewise an artist, being an etcher and water colorist of great promise. His work has been quite widely distributed for so young a man. He holds a Bachelor of arts degree from the School of Mines, El

Paso, and he is at present teaching art in the schools of that city. During the coming summer he and his mother will go to New York, where he will be enrolled in Columbia University, taking work to fit himself to teach art in colleges.

The elder Mr. Teel left Colorado Tuesday morning for his home in El Paso, but his paintings are still on display at the home of Mrs. Thomas, who invites the public to see them on Friday or Saturday.

The canvasses were recently seen in Pecos at the P.T.A. Women's Club meeting, in Abilene, where he gave a one man show for the Women's Federated Club meeting, and will probably later be shown in Midland. The exhibit consists of thirteen oils by Mr. Teel, Sr., and four etchings and two water colors by his son. The oils are all outdoor scenes, but the etchings are those of Mexicans and a Mexican house. One water color is a brilliant desert scene, and the other, probably the boy's best, is that of the market at Juarez.

SAN JACINTO WEEK

This being San Jacinto week I dedicate this week's column to the Battle of San Jacinto and would like the younger students in our rural schools read it. The following letter was written by W. C. Swearingen, one of Houston's soldiers and in that famous battle. The letter was written the day after the battle.

In my last letter I informed you that I should start the next day for Gen. Houston's camp, and joined him on the Colorado River. The Mexican army was then encamped on the opposite side of the River 3,000 strong. Houston's army was including our two companies, 1,372 men. The next day after we joined him he commenced a retreat back on the River Brasse, 15 miles above the town of San Felipe de Austin (which Gen. Houston had burnt). The second day after the site of San Felipe was occupied by the Mexican army Gen. Houston stationed 3 companies on the river opposite town to prevent their crossing. Santa Anna sent a detachment of 500 men to a ferry below San Felipe called Fort Bend and crossed them over, and then sent the remainder down to the same place and crossed his whole force. Santa Anna stationed 2,500 men at Fort Bend and took 500 of his Veterans and 1 heavy Brass Nine Pounder and pushed on to Harrisburg on Buffalo Biau, 35 miles from Fort Bend, on his way to Galveston Island the only port the Texans now have in their possession. Houston immediately crossed the Brasse and took up his march for Harrisburg distant 57 miles. We got to the biau opposite Harrisburg in the evening and Santa Anna had left it that morning for Linches Ferry on the road to Galveston. Next morning our spies brought in the Mexican Mail Rider and the mail from which we learned that Santa Anna was with the army in person. Gen. Houston had been compelled to give furloughs to upwards of 200 men to go and carry their families beyond the Trinity River for security, and one entire Company that was left opposite San Felipe went home instead of joining us on our march. When we reached Buffalo Biau we had 810 men, and before we were through examining the letters our spies that crossed the Biau brought in the Col. commanding the Mexican cavalry with a letter from Cos to Santa Anna stating that he would start the next morning from Fort Bend with 650 men to join him at Linches Ferry on Buffalo Biau. Gen. Houston then knew that Santa

Anna had gone by way of New Washington on the bay to destroy that place, and then to march up the Biau to Linches Ferry and join Cos and march on to Galveston and take it before Houston could find where he was, leaving the main body at Fort Bend to amuse Houston. Gen. Houston crosses the Biau next day with 520 men and the 2 4 pounders that reached us on our march from the Brasse and left the balance to take care of our baggage and guard the camp. We lay in the bushes on the road to watch Cos, and the 60 men which were expected to pass that day did not. As soon as it became dark we commenced a rapid march for Linches Ferry, calculating that Santa Anna would not cross the Biau until the arrival of Gen. Cos. At two o'clock A. M. we halted within 2 1/2 miles of Linches Ferry. At sunrise on the 20th ultimo we formed our line of battle and proceeded to the Ferry. When we reached the Ferry we found Santa Anna had not yet reached there, but was on his way up from Washington. Houston picked his ground, placed his men, gave them his orders, then made them stack their arms in their places and told them to eat their breakfast and be ready to receive them about 11 o'clock A. M. They came in sight drawn up in line, 400 infantry and 100 horses with their 9 pounder in the center of their infantry. At about 350 yards distance they opened on what few they could see of us with their cannon charged with grape and canister shot, but we were protected by the timber and sustained no injury except one man slightly wounded. They did not know we had a cannon and their fire was not returned until their infantry commenced their fire with musketry. We then commenced with our cannon hoping they would charge with their infantry to take them, and by that means we could cut them off and if possible take Santa Anna prisoner, or kill him. They retreated from our fourth fire of the cannon to a small wood in our front where their cannon was planted and kept up a fire with their cannon until 1 o'clock P. M. when they fell back to a piece of high prairie in front and immediately commenced fortifying with brush, baggage, etc. Houston then determined to come out in the plain and engage them. The cavalry was sent out to draw the enemy from their cover but we could not get them to attack us. It being late in the afternoon Houston decided to defer attacking them until morning and marched into camp. That night Cos arrived with his 650 men and joined Santa Anna making his force 1,150. Santa Anna then considered Houston and Texas then in his power with no chance of escape, and that he would let Cos' men rest one day and on the morning of the 22nd seal the death warrant of Texas by the destruction of Houston and the only men Texas had in the field. At half past 3 o'clock of the 21st ultimo we left our camp and attacked him, leaving one company of 38 men in camp. Our cavalry about 110 strong was posted on the right, the 2 companies of regulars next to the cavalry, the 2 companies of volunteers on our left and the militia on the left. Opposite the woods about 300 yards in their front was a bottom that protected us from their cannon. In that hollow we formed our line with our 2 4-lb. cannon (presented to Texas by the ladies of Cincinnati, Ohio) in the rear of the regulars with orders as soon as they ascertained where their cannon was planted to open fire on it and to keep up on the advance with the infantry was ordered to trail arms and advance until within 50 yards of the enemy before we fired. As soon as we gained the level they commenced on our company with grape and canister shot. We rushed on it quick to within 50 yards a heavy fire of grape canister and musketry. Our riflemen having nearly 100 yards left to go than we had commenced the action with small arms before we did with our muskets. The musketry and riflemen kept advancing as they fired. When within about 20 steps of the enemy's line we were ordered to charge with the bayonets. As soon as we were ordered to the charge and brought our guns to the proper position the enemy gave way except about 60 men around the cannon and protected by a breastwork of corn sacks,

salt, barrels of meal, and boxes of canister shot. They fell by the bayonet and swam in one mangled heap from that time until they reached the Biau. It was nothing but a slaughter. They at first attempted to swim the Biau but they were surrounded by our men and they shot every one that attempted to swim the biau as soon as he took to the water, and them that remained they killed as fast as they could load and shoot them until they surrendered. The enemy lost between 620 and 700 killed dead on the field and in the Biau, 450 prisoners among whom was Santa Anna H-I-M-S-E-L-F, his private secretary, and the next in command to Santa Anna, De Savaia.

Ten of the field officers were killed dead. At the head of them was General Cos. There were more than half of our prisoners wounded. Our loss was 4 men killed dead and 23 wounded. 3 have since died and there is 1 more who will die. General Houston when he ordered the charge went in front of his men. He was shot through the ankle and his horse killed.

To see the number, the position and the time in which it was done (The time was 18 minutes) it at once shows that the hand of Providence was with us.

Santa Anna promises that if they will spare his life and his men, he will guarantee Texas free as far as they claim in the Declaration of Independence.

This column writer attended the 5 o'clock Easter morning resurrection services and received a blessing. While we were meditating on the time of our resurrection these beautiful lines of Grace Noll Crowell came into our heart.

I know that Jesus lived, and that He died, and that He rose again, and this to me is proof of my own immortality. There is an empty tomb and by its side stands one so radiantly clean and white That men through all the centuries can see Beyond the closed doors of Eternity, a light: A luminous, clear light that will not die: An emanation from the living Christ. His certain resurrection has sufficed To blot away all doubt and fear, and I. Who love life so, will find there are no bars To keep my soul from climbing the bright air, Drawn by that high impelling radiance there beyond the stars.

[QUESTIONS THAT ARE ASKED ABOUT BANKING]

What is meant by a Bank's capital and surplus?

The "capital" of a bank is the amount of money the stockholders have invested as owners of the bank. The Federal and State governments have minimum capital, and frequently subscribed surplus, requirements that must be met before a bank charter is issued.

In addition, the "surplus" of a bank is built up, usually out of earnings set aside to increase the protection of depositors. In addition, there are reserves for meeting known liabilities or guarding against contingencies.

The capital, surplus and undivided profits constitute an element of protection to a bank's depositors which supplements its policies of sound, honest management in safeguarding the funds entrusted to its care and applying them in useful loans and investments.

EDITORIAL

"Everyone is quick to recognize good handwriting and to judge its quality. It not only saves the time and patience of the reader, but it is of extreme importance to the writer for it demands good posture at the desk which promotes health and protects the eyesight."

This is familiar to every Junior High student and probably at times it becomes a bit tiresome. But did you ever stop and think just what it means?

Penmanship enables one to obtain jobs, correspond with distant friends, put one's thoughts on paper and numerous other things essential in modern day living.

The Junior High school is very proud of its good writers. This year's graduation class is also very proud of its record. All except three students are members of the Good Writers club. One of these is a new student—the other two have an inferiority complex of the muscle!

We, the seventh grade, challenge next year's graduating class to surpass the mark we have set.

FREDDIE WATSON.

CENTENNIAL PARTY

The seventh grade will attend a Centennial party at the Legion Hut Friday night. This party will take the place of the usual seventh grade picnic.

Palace—April 17 and 18 This is a showman's picture. Tense, vital drama of a woman's sacrifice and a man's reformation, spiked with good comedy and smart dialogue. Jean Harlow, packer in a fish canner, falls in love and middle aisles it with Spencer Tracy, trouble-making agitator, who walks out on her when he is dismissed from the local union. Hearing of his need, Jean steals money from the cannery owner, winding up in the penitentiary where her baby is born. Reformation of Tracy begins with the knowledge that Jean is in prison. He squares himself with the union and gets a good job with the fishing fleet. Jean escapes, visits Tracy, and suggests they flee to Mexico, but seeing change in him for the better, she decides to return to prison and finish her term so they can both start all over again.

Players are Jean Harlow, Spencer Tracy, Una Merkel, Joseph Calleia, J. Farrell Macdonald, Roger Imhoff, Mickey Rooney.

"ROSE OF THE RANCHO"

Palace—Saturday Midnite, April 18 Sunday—Monday—April 19 and 20 An elaborate musical production has been built around a typical Western melodrama to serve as a vehicle for the screen debut of Gladys Swarthout, Metropolitan Opera star. The beautiful singer, whose gorgeous voice is heard to advantage in several selections, ably demonstrates that she will go far when given the proper material. This time the old Belasco stage success has been resurrected to provide a story which treats of the constant battle between the Spanish landowners and the marauding land grabbers in early California. While masquerading as the mysterious head of Vigilante band, the heroine falls in love with a government agent who is also hiding his true identity. Comedy antics of Willie Howard and Herb Williams are outstanding. Marion Gering directed.

Players are Gladys Swarthout, John Boles, Charles Bickford, Willie Howard, H. B. Warner, Herb Williams, Charlotte Granville, Don Alvarado.

Although Miss Matthews piteciously carries the entire film on her slim shoulders, she has able support from Sonnie Hale, whose humor is of the boisterous type, and from several others. The music is catchy and production numbers are lavish. The plot makes use of the new idea of having a female impersonator, who befriends a little shopgirl. He loses his voice just when he has been promised a stage engagement. The girl is forced to take his place and keep up the deception by posing as a man masquer-
