

ATTENDANCE UPON ANNUAL COOKING SCHOOL EXPECTED SURPASS PREVIOUS RECORD

Women and Girls In Scores Of Communities Will Have Part In Educational Fete Opening Here Monday

Attendance upon the Record's second annual cooking school to open Monday afternoon at the American Legion building for three days will be larger and more representative of the territory than for the school last year, information being received by this newspaper indicates.

"So universal has interest in this educational gathering become that I have every reason to believe that the attendance record of 1,200 for last year is to be exceeded by several hundred women and girls from this and scores of other communities in the area," W. W. Whipkey, publisher of the Record and sponsor for the school, declared Wednesday morning.

The Record is bringing to Colorado for the three days one of the best authorities on home economics and cookery known in America and since every housewife and girl attending will be cordially received without price or obligation to any person, the event should be reckoned as among the important gatherings to be held in Colorado during the year, Whipkey went on to suggest.

The school will be held in auditorium of the Legion building, corner East Third and Chestnut, as a means of greater convenience to the large number of persons expected. The building is large, its interior appointments are inviting and special features for making every guest enjoy her stay during the lectures and demonstrations is to be provided.

Spreading into practically every organized woman's club of the county has gone information relative to the school and as a rule these ladies are planning to attend, a Colorado woman who for several years has been prominent in affairs of the Mitchell County Federation, stated recently. In some instances these affiliated clubs are to register one hundred per cent attendance at the school.

Miss Emma Gunter, county home demonstration agent, stated that women and girls identified with home demonstration and 4-H clubs sponsored by the service she represents are "talking about the cooking school." These organizations are to have strong representation at all of the sessions.

Housewives of Colorado, Loraine, Westbrook and other of the larger communities will, as they did last year, maintain an important part in the school.

LEADERS IN DEMOCRATIC CAMP SEE NO COALITION

Leaders in affairs of the Democratic party here are not expressing concern in recent announcement at Fort Worth by R. B. Creager, nominal head of the G.O.P. in Texas, that there was possibility of another coalition of Texas Democrats and Republicans as in 1928. Another signal victory for the New Deal is predicted as Texans mark their ballots in the primary elections this Summer.

Parts In Preparing County's Historical Pageant Assigned By Mrs. W. R. Martin

Nameless as yet, a pageant which will depict the colorful history of Mitchell county from before the county's organization until the present day will be staged under direction of Mrs. W. R. Martin as the climaxing feature of Mitchell county's two-day Home-coming and Centennial celebration August 20 and 21.

Mrs. Martin called a meeting of the club committees who are to assist her in arranging the pageant at the Colorado hotel dining room Saturday afternoon. After explaining the different parts of the pageant and the several episodes in each, Mrs. Martin assigned different episodes to the various club women and club men present.

COTTON AND OTHER CROPS BURSTING OUT OF GROUND AS SEQUEL TO GOOD RAINS

Rural Citizens Jubilant As Field and Range Blanketed With Moisture; Planting Is Order Of The Day

Cotton and other row crops, seeded during the past few days, are bursting through the ground as if by some magic sway since the excellent rains that starting Friday morning have blanketed a wide section of Texas, putting an end to threatened drought and assuring farmers of ample moisture to germinate and bring up their seed.

Rain began falling at Colorado Friday morning and during the day and night a total of one inch was registered by the chamber of commerce gauge. Saturday and Sunday night an additional thirty hundredths of an inch fell and through Sunday thirty-two hundredths was registered, placing total rainfall for the three days at 1.62 inches.

All these rains fell slowly allowing practically all of the moisture to be taken up by the ground. Farmers and cattlemen in some communities report heavier rains than at Colorado. Hyman and other communities to the south and southwest, previously slighted by local showers that had fallen in scattered localities, report heavier rains.

During Wednesday, however, there came another series of the precipitations that brought damage to farms in the Valley View and other communities. Rain that for a few minutes.

Further Stability In Local Business Fabric Is Sensed

Veterans' Bond Cash To Be Material Feature In Trend To Better Conditions

The splendid rains have tinted a brighter hue to the business horizon in Mitchell county, but there is another source from which further stability to all interests is to be realized.

Time for paying the "baby bonds" to veterans of the territory is not far advanced and from this source approximately \$200,000 in cash is to find its way into the pockets of more than 200 citizens. The money will definitely give a big push in putting business conditions further ahead.

Some of the veterans will clear debts at the bank, with their merchant and various other sources of trade. Others plan acquiring a home or making improvements to one already purchased. Still others are to purchase motor cars, home furnishings and many other items that enter into the commercial life of the community.

Not all the veterans, however, are to cash in on their bonds and place the money into channels of trade. They plan retaining the certificates as an investment for their estate or as insurance protection for dependents.

TEXAS PEOPLE TO RECEIVE DIVIDENDS THROUGH ACTIVE SUPPORT OF HIGHWAY ONE

Speakers Addressing Meeting At State Convention Urge Cooperation In Aggressive Popularity Campaign

One of the most conservative investments that the people of Texas residing along route of the Broadway of America could make would be to extend every consistent cooperation in further popularizing the international road, speakers addressing first annual convention of the highway association here Thursday declared.

That the State Highway Commission is doing much to build the international route across this State into one of America's best, was declared. Figures were quoted to show that during the past year more than \$2,000,000 had been expended by the commission in closing gaps in paved surface, rerouting the road to cut down distance and otherwise improving the highway.

Men that through several years have held an important place in developing the Broadway into the country's first trans-continental route were present and delivered addresses. Among them were Jim Greene of Colorado, J. R. Chaney and H. L. Birney of El Paso, R. A. Thompson and Henry W. Stanley of Dallas, Dudley Yard of Pecos and George Barber of Sweetwater. Birney was the first road associational president and Stanley holds that position today.

At noon the delegates were guests of the chamber of commerce and Lions Club at a luncheon program at the Colorado hotel. The executive sessions were resumed at 2 o'clock p.m. with adjournment voted at 4.

The first motorcade to ever be operated into Colorado with this city as its destination arrived shortly after 10 o'clock. The caravan of road boosters was started in Weatherford at 5:10 Thursday morning with Secretary H. C. Davis of the Eastland chamber of commerce in charge. Several motor cars carrying delegates from towns west of Weatherford were included.

The convention was one of the most representative highway conventions ever held in Texas, speakers addressing the gathering Thursday morning declared. Delegations representing Dallas, Fort Worth, Weatherford, Pecos, El Paso, Big Spring, Van Horn, Odessa, Putnam, Sweetwater, Baird, Cisco, Eastland, Ranger, Mineral Wells, Loraine, Midland and Amarillo were present.

Better Negro School Building Located In More Desirable Location Their Goal

A better school building to be located within a more desirable location is goal of local civic organizations whose members have interested themselves in plans to replace the negro school building that burned recently.

That officials of the district WPA at Abilene are interested in project to aid in financing a better school project for these people is indicated in statements made public Wednesday by John Hendrix, assistant manager of the Abilene office. "There should be little difficulty in obtaining approval by this office," it was stated.

Mrs. J. G. Merritt stated last Wednesday that already organized clubs of Colorado were uniting in drive to realize an improved school building for the negro children. "And, we are going to insist that the building be located in a more acceptable part of town," she said.

People Evidencing Interest In Each Of Three Revivals

Baptist Church Sponsor For Meetings Opening Sunday, Visiting Preachers Heard

The people are evidencing growing interest in each of three revival campaigns being operated this week in Colorado, Rev. Dick O'Brien, pastor of First Baptist church, sponsor of the services, stated late Wednesday.

"We are already meeting with splendid success in each of the three revivals and it is probable that at least a part of them will be continued into next week," Mr. O'Brien stated.

Rev. Willis J. Ray of Big Spring is preaching at Union Tabernacle, with Rev. H. B. Naylor, also of Big Spring leading in the song services. Rev. O. D. Welch of Plainview is doing preaching in the Southside revival, being held at the tabernacle there, and Rev. A. A. CONDITIONS TO BE MET IN TURNING BONDS INTO CASH LISTED BY LOCAL VETERAN

Post Service Officer Gives Information On Interest To Ex-Service Men Expecting To Liquidate Certificates

The Record was given the following facts about the bonus bonds by J. Y. Fraser, postmaster and service officer of Oran C. Hooker Post, American Legion:

They will be mailed out of Dallas beginning at 12:01 a.m., June 15, 1936. Veterans can figure from this as to when they will arrive at Colorado.

Veterans must be positively identified. A witness who knows the postal employee but who is not known by the postal employee will not be satisfactory.

Bonds will be deliverable to the addressee only and will not be forwarded if the veteran has moved away since filing his application. If veteran has removed or died the bonds will be returned immediately to the sender. If for any other reason they are undeliverable, they will be held 30 days before being returned to sender.

Bonds will NOT be cashed at the Colorado Post Office. Veterans desiring to cash their bonds may do so by having their identity certified to either at the post office or by an officer of a National bank. If they are certified at the post office the bonds will be forwarded to Dallas for payment at Government expense. If they are certified by an officer of a bank, the veteran must send them to Washington at his own expense. Under such conditions it would be quicker to have them certified at the post office.

The postmaster at Dallas will pay bonds promptly upon arrival by means of treasury checks payable to the owner of the bonds. The letters containing these checks will not be restricted to delivery to addressee only but will be delivered as other ordinary mail.

A veteran does not have to cash any of his bonds and may retain as many as he desires to draw interest at 3% per annum.

Miss Scottie Mae Hines Becomes Bride Of Mr. Tucker In Thursday Ceremony

The marriage of Miss Scottie Mae Hines, daughter of Mr. and Mrs. Clyde Hines of Colorado, and Mr. R. W. Tucker of Floydada was solemnized at First Baptist church Thursday morning at 10 o'clock with the Rev. P. D. D'Brien, church pastor, performing the ceremony.

Baskets and vases of vari-colored asters and Texas wildflowers mingled with fern and gypsophilla decorated the church. Yucca plants in bloom flanked the altar, which was formed by numerous small baskets of flowers and fern.

Pre-nuptial music was furnished by the bride's cousin, Mrs. Rondyl McCarroll of San Angelo, and the bridegroom's brother, Leo Tucker of Abilene. Mr. Tucker sang "O Promise Me." Mrs. McCarroll played "At Dawning," "Traumeri," and "I Love You Truly."

The bride entered alone, meeting the bridegroom at the altar. Mrs. McCarroll played the wedding march from Lohengrin for her entrance and played "Believe Me If All Those Endearing Young Charms" softly during the ring ceremony. The bride wore a blue lace ensemble with pink accessories and a leghorn cartwheel hat trimmed in blue velvet ribbon and pink flowers. She wore a shoulder corsage of tiny pink rosebuds, gypsophilla, and lace fern.

After the ceremony guests went to the home of Mrs. W. C. Hines, where the wedding cake was served with punch. The oblation, double-tiered cake was surrounded with fern and tiny pink wildflowers. A bowl of vari-colored asters and fern centered the lace colored table from which the cake and punch were served. Mrs.

Ray Richardson, Miss Violet Meoer, and Miss Neta Mae Davis presided at the table, Mrs. Richardson pouring punch. Miss Hattie McKell and Mrs. J. A. Johnson of San Angelo assisted in receiving guests.

For her going-away costume Mrs. Tucker chose an ensemble of beige knit crepe with a white fagoted collar and white accessories. Mr. and Mrs. Tucker left for unannounced points to the west.

After Monday, June 4, Mrs. Tucker will return to her teaching duties in Stephen F. Austin college, Nacogdoches, for the summer term. In September she will join Mr. Tucker in Floydada, where they will make their home.

Mrs. Tucker was reared in Colorado, graduating from Colorado High school. She has both her B. A. and M. A. degrees from the University of Texas. For several years she taught Spanish in McMurry college, Abilene, and for the past few years has taught Spanish and French in the Nacogdoches college.

Mr. Tucker, son of W. H. Tucker of Ovalo, is a graduate of Texas Tech, Lubbock. He was reared in Ovalo. He is employed with the State Highway department in Floydada.

Out-of-town guests for the wedding were Mrs. F. F. Scott of San Angelo, Mr. and Mrs. Ray Scott of San Angelo, W. H. Tucker of Ovalo, Leo Tucker and daughter, Laurilee, of Abilene, Mr. and Mrs. Will Tucker of Eastland, Mr. and Mrs. Bert Clifton of Eastland, Mr. and Mrs. Henry Roberts of Guion, Mrs. J. Williams of Ovalo, Mr. and Mrs. A. P. Baker of Midland.

LANDERS 4-GIRLS MEET WITH HD AGENT

By Julia Dorene Adrian, Reporter.

The Landers 4-H Club met at the teachers with Miss Gunter, County Home Demonstration agent, and practiced on the following songs: "Texas, Our Texas," "The Eyes of Texas Are Upon You," "Kitchen Kettle," "Billie Boy," and "Tiramomba." Menus were discussed, and posters were judged. The girls who demonstrated menus were: Eunice Compton, Johnnie Fay Merket, Ruby Fay Adrian, Julia Dorene Adrian, and Medena Post. One of the main features was the kind of yellow and green vegetables used, and their food value. The kind of dessert chosen depended upon the nature of the rest of the dinner.

Bedroom chair cushions were demonstrated by Ethel Adrian, (sponsor), Eunice Compton, and Medena Post.

Our linen which was exhibited April 30 to May 4 was returned by Miss Gunter and she discussed the quality of the workmanship and the proper laundering of it. The linen on exhibit included one pair of pillow cases with plain hem-stitched three-inch hem, two cream colored linen dresser scarfs with plain hem-stitched hems, one linen vanity dresser set with plain hem-stitched finish, one saten chair cushion with quilted top, one white Indian head dresser scarf with plain hem-stitched one inch hem, one brown linen dresser scarf with plain hem-stitched one inch hem, one Indian head protector with button holes to button onto comfort, and two linen comfort protectors.

BIBLE SCHOOL MEET AT WESTBROOK CANCELLED

The meeting of the Mitchell County Bible School association which was to have been held in Westbrook Sunday afternoon has been cancelled because the association's president, W. W. Porter, was suddenly called to Houston by the illness of his son Thursday morning.

Program for the meeting was not complete at the time Mr. Porter was called away, hence the cancellation.

'OLD MAID'S ASS'N' TO BE PRESENTED IN CAST

"The Old Maid's Association," is title of a comedy drama to be presented by the Woman's Missionary Society of Buford Methodist church on Friday evening, June 5. The play will be free to the public. "A laugh from start to finish; so everybody come," is the way one of the ladies put it. Ice cream will be sold before and after the play.

PORTERS CALLED TO ILL SON'S BEDSIDE

In response to a message that their son, Maurice, is gravely ill in Houston, Mr. and Mrs. W. W. Porter, accompanied by Mr. and Mrs. Bryan Porter, left early Thursday morning for his bedside.

Maurice underwent an operation for a ruptured appendix Tuesday night, it is understood.

HOSPITAL NEWS

After becoming unconscious from a cerebral hemorrhage at the junior high graduation program Thursday night Mrs. E. T. Terrell was brought to Root hospital, where she died at 12:18 Friday noon without regaining consciousness.

Mrs. Clara Smith was admitted to the hospital Saturday as a medical case. Her condition seemed improved Thursday noon.

Mrs. Jodie Barker of Kermit had her tonsils removed Saturday afternoon.

Drinking kerosene while on a visit to her great-uncle, J. H. Pike of Longfellow, 16-month-old Alice Marie Buckwalter of California was brought to the hospital Saturday and given emergency treatment. She was carried home a few hours later, apparently all right.

Gene Turner, 6-year-old son of Mr. and Mrs. Price Turner of near Colorado, had minor surgery this week and his condition is good.

A leg injury sustained by Herman Dawson, negro, five months ago made necessary the amputation of the injured member Wednesday at the hospital.

Suffering a badly crushed hand, W. A. Usery, employed on a WPA project, was given first aid at the hospital Tuesday. The hand was crushed when struck by a hammer in the hands of a fellow workman while the group was breaking up rocks.

J. P. Jamison, 10-year-old son of H. H. Jamison of Cuthbert, is reported to be in good condition following an appendicitis operation performed Tuesday.

THREE JUNIOR HIGH GRADUATES HONORED

Three Junior High school graduates were especially honored during Junior High graduation exercises last Thursday evening, their names having been withheld until the presentation of awards.

Catherine Slagel and Bobbie Lou Cooper were announced as honor students. The American Legion awards were presented to Catherine Slagel and Burl Ballard as the outstanding boy and girl of the class.

Homage To Be Paid To County's War Dead As Another Memorial Day Is Kept Sunday

Homage will be paid to the memory of Mitchell county's war dead in Memorial Day services at the First Methodist church Sunday afternoon at 5 o'clock and in the decoration of 103 graves of veterans at the Colorado cemetery following the services. Arrangements for the services are in charge of four Colorado organizations—the America Legion, the Legion Auxiliary, the U. D. C., and the D. A. R. Members of these groups are urged to meet at the Legion on Saturday morning to help make wreaths.

Program for the church service has been announced as follows: Invocation—Rev. Cal C. Wright; Song—"Lead Kindly Light"; Reading—"Will Texas Forget?" Mrs. J. E. McCleary; solo—Mrs. W. R. Martin; address—Harry Ratliff; reading—"Your Flag and My Flag," Billie True Templeton; benediction—Rev. W. M. Elliott.

In the march to the cemetery the United States flag will be carried by Floyd Quinney, commander of the Oran C. Hooker Post, American Legion; the Confederate flag by Mrs. Robert Terrell; the Texas flag by Mrs. B. L. Templeton. Taps at the cemetery will be sounded by Lawrence Snively after wreaths are placed.

Following is a list of the graves to be decorated: Confederate veterans: G. C. Arnett, J. R. Blakemore, D. Burlsmith, Charles Breedlove, Frank Byler, H. D. Brown, J. W. Clark, Sam Cooksey, F. F. Cuthbertson, John Clark.

Yard Beautification and Negro School Topics at Last County Federation Meet

A more modern negro school, a county-wide beautification contest, and a playground for rural children were subjects for discussion and action at the final meeting of the Mitchell County Federation of Women's clubs at the city hall Tuesday afternoon.

In discussing the negro school-house, members voted to work for a more modern building than that which was destroyed by fire Thursday night, and to request that the new building be erected in a better site. Mrs. A. L. Whipkey and Mrs. Joe Pond were named on a committee to see the board of trustees.

The yard beautification contest was suggested by Mrs. J. A. Ferguson, county beautification chairman. The federation will sponsor such a contest, it was decided, and will offer a prize of \$5 value to the winning yard. Mrs. Randolph McIntire and Mrs. J. W. Shepperd were appointed to purchase the prize. Contest details will be announced later.

The request for aid in securing a playground for rural children was put before the federation by Miss Emma Gunter, county home demonstration agent. The executive committee was instructed to look into this matter and act.

The treasurer's report showed all bills paid. Five dollars had been made on a concession rented during the singing convention. Mrs. Joe Pond reported for the Zetazathians, Mrs. A. D. Kiker for the Daughters of the King.

Nine paintings completed during the past month by members of the Art club were exhibited. Mrs. John Colson gave the Art club report. Mrs. J. A. Ferguson told of a picnic held at Lake Sweetwater by members of the Business and Professional Women's club. The Hesperian club report was made by Mrs. A. L. Whipkey, the health work report by Mrs. Jeff Dobbs.

Mrs. J. G. Merritt reviewed plans for the Centennial pageant to be staged here in August.

Bob Hubbards To Leave Colorado Next Wednesday

Mr. Hubbard Has Bought Interest In Funeral Home At Ballinger

Mr. and Mrs. Bob Hubbard and their sons are leaving Colorado next Wednesday to make their home in Ballinger, where Mr. Hubbard has bought an interest in a funeral home, it was announced this week.

In partnership with Mr. Hubbard in the funeral home will be R. T. Williams of Ballinger. The establishment will be known as the Hubbard-Williams Funeral Home.

Both Mr. and Mrs. Hubbard will be missed in civic, church, and social circles of Colorado. Both are active members of the First Baptist church, Mrs. Hubbard having at one time held a district Baptist W. M. S. office. Mr. Hubbard belongs to the Masonic lodge, to the Eastern Star, and to the Lions club. Mrs. Hubbard belongs to the Harmony and Self Culture clubs and to the Eastern Star.

Mr. and Mrs. Hubbard have been living here this time since April 1, 1935, when Mr. Hubbard returned to his position with the Jones, Russell & Company Funeral Home after eight months in Karnes City. Prior to that the Hubbards lived here a year and a half.

The Hubbards have two sons—Gaylord, who is a student in Texas Lutheran college at Seguin, and Jadin, 13.

TO UNDERGO OPERATION

It is understood that Howard Hamer, who was admitted to a Dallas hospital some time ago, will soon undergo an operation for a serious type of brain tumor. The Rev. P. D. O'Brien of First Baptist church visited Howard in Dallas last week.

HERE FROM LOS ANGELES

Mr. and Mrs. Earl Jackson and the Bennetts of Lorraine have as their guests this week Mrs. Frances Hammett, Mrs. Irvin Smith, Mrs. Earnest Phillips, and Andrew Jackson, all of Los Angeles, California.

FUNERAL WEDNESDAY FOR J. A. CARROLL

Funeral services were held at Kiker's Chapel Wednesday afternoon at 2:30 for Jessie Albert Carroll, 30, who died at his home at 344 Cypress street after a long period of ill health. Services were conducted by the Rev. P. D. O'Brien and the Rev. Mr. Jackson.

Mr. Carroll had lived in Colorado 10 years. He is survived by his parents, Mr. and Mrs. S. F. Carroll of Colorado; his wife and a 6-year-old daughter, Geraldine; and the following brothers and sisters: Mrs. R. Ryan of Snyder; Mrs. T. A. Tolson, Mrs. B. O. Pendleton, Mrs. H. W. Vaughan, Arthur Carroll, A. B. Carroll, Marvin Carroll, and Marion Carroll, all of Colorado.

Pallbearers were Pleas Richters, Howard Rogers, Tom Burrus, Jack Ryan, Cliff Ryan, and James Smith. Kiker & Son had charge of funeral arrangements.

'RHYTHM SCHOOL' WILL BE FEATURE OF MARTIN PROGRAM FRIDAY NIGHT

A "rhythm school" will be one of the features of Mrs. W. R. Martin's novelty program at the high school auditorium Friday evening at 8:15. Colorful costumes will be another feature.

The program will be a snappy review of the work done by Mrs. Martin's singing, dancing, and reading ponies during the past year. There will be no admission and the public is invited to attend.

GREENE SIGNS ODESSA FOR FRONTIER PANEL

Signing Odessa for a \$30 panel in the WTCO exhibit at the Fort Worth Frontier Centennial, J. H. Greene spent Monday afternoon and night in that place. Greene, secretary of the Colorado Chamber of Commerce, has been working with the West Texas chamber during the past few weeks in signing down for Frontier Centennial publicity.

The Odessa Chamber of Commerce also signed for 200 feet of films and will use the folders.

FUNERAL SERVICES FOR MRS. WILL TAYLOR HELD AT S. CHAMPION CHURCH

Funeral services were held at South Champion church Friday afternoon at 3 o'clock for Mrs. Will C. Taylor, 60, resident of Mitchell county for a number of years and sister of W. C. Collier of near Collier.

Mrs. Taylor died suddenly Thursday morning at 8:15 at her home a few miles north of Roscoe. She suffered a heart attack while preparing to do her washing and succumbed a few minutes later.

She was born Cora Olive Collier in Collin county March 29, 1875, moving to Coleman county with her parents, the late Mr. and Mrs. F. M. Collier, a year later. The Colliers moved to Sterling county when she was 15 years of age. She was married in Sterling county on March 20, 1892, to Will C. Taylor.

Mr. and Mrs. Taylor have lived in Sterling, Mitchell and Scurry counties in the years since then, residing at Hyman for several years. Mrs. Taylor was converted when 17 and has since been an active member of the Baptist church.

Survivors include Mr. Taylor and five sons—Frank of Nolan county, Burrell of near Stanton, Ben, Milton, and Jim Taylor of north of Roscoe. Three children born to Mrs. Taylor died in infancy. She is also survived by three brothers and a sister; John Collier of near Snyder, W. C. Collier of near Colorado, Leslie Collier of near Lorraine, and Mrs. W. D. Green of Knox City. A sister, Mrs. Matt Allen, died at China Grove in 1926, and a brother, Will Collier, succumbed in Abilene last May.

Funeral services were conducted by the Rev. Mr. Elkins of South Champion church and the Rev. A. D. Leach of Colorado. The six pallbearers, J. F. Black, Carl Lowry, Robert Bankhead, John Dyas, Ector Hunter, and George Rankin, were all from Hyman. Six nieces, Ada Pearl and Lorena Collier of Lorraine, Ethel May Green of Knox City, Gladys Collier of near Snyder, Mrs. Jewel Barrett and Mrs. Woodrow Crabtree of Colorado, were flower bearers. Burial was in the Lorraine cemetery.

Craig Porter is visiting Mr. and Mrs. D. C. Sivals and children in Midland this week.

Methodists Study Plans For Buying Assembly Ground

District Conferences Should Have Larger Meeting Place Is Proposal Advanced

Methodist leaders in the Sweetwater district of which Colorado is a part are giving serious consideration to the recently projected proposal that the church division acquire and improve a central assembly ground as site for holding district conferences and other important gatherings.

Approximately 500 people attended the recent district conference at Snyder, it is pointed out. The meetings are growing into such proportions as to make it impracticable for smaller communities to entertain them.

That the matter is to be offered for consideration at next district conference to be held in Colorado next Spring is promised by J. L. Carrell of Snyder, leader among laity in the district. His plan is for the church to acquire acceptable grounds and provide buildings and other improvements for use of delegates.

Miss Cora Reeder has been visiting her sister, Mrs. J. A. Pickens, since last week.

Juniors Outnumber Other High School Classes On Second Term Honor Roll

The greatest number of Colorado high school honor students during the second semester of the past school term were members of the junior class, a check-up of the A and B honor rolls reveals.

Sixteen juniors are listed on the A honor roll. Ten seniors, eleven freshmen, and twelve sophomores made the roll.

The A and B honor rolls for the second semester follow:

COUNTRY ROADS HARD TO NEGOTIATE AFTER RAINS

The Colorado-Sterling City road was hard to negotiate Monday morning after heavy rains had fallen during the past few days, E. Barber of Spade reported. "We were over two hours driving to Colorado from Spade this morning," he stated. Barber estimated that two and one-half inches of rain covered the Spade section.

Palace Theatre Is Taking Place With Best In Territory

New Opera Chairs, Draperies And Other Features Added To Its Appointments

The Palace Theatre, already among the best appointed motion picture show houses in this section, is being further improved by the installation of new deluxe opera chairs, draperies and other improvements. Ross D. Dixon, manager, stated Thursday morning that he would continue to offer the best in picture show attractions to the public of this city and section.

Four hundred and fourteen of the chairs, built especially for the Palace by the International Seating Company of Union City, Indiana, were placed in the theatre auditorium Wednesday night and Thursday and were used for the first time Thursday night. The seats are finished in red and upholstered in leather and mohair.

Old chairs taken from the building have been trucked to Lubbock for installation in a theatre on the South Plains.

DIERDORFFS TO LEAVE JUNE 1 FOR POSITION WITH SHELL IN KANSAS

E. A. Dierdorff, who recently resigned as superintendent of the Shell Pipe Line division with headquarters in Colorado, has accepted a position as head of a similar division of the company with headquarters in Kansas, it was announced this week.

Mr. and Mrs. Dierdorff are leaving Colorado June 1. They will be temporarily located in Cushing, Oklahoma, until the new headquarters location in Kansas is determined.

Mr. Dierdorff has headed the Shell division here since offices were opened in September, 1928. D. H. Lewis, former assistant superintendent of the division, is succeeding him as superintendent.

Return Of College and University Students For Summer Months Begins

The return of Colorado's college and university students for summer vacation is beginning this week and will continue through the next several days.

Don Taylor, who receives his B. A. degree at Hardin-Simmons university, Abilene, will be home early next week.

The John Tarleton students from Stephenville—John and Sam Venable, Memphis Porter, and Elvy Stagner—returned this week.

Mattie Beth Payne will arrive home in a few days after receiving her degree from Texas Wesleyan college, Fort Worth.

Abilene Christian college students, including Elizabeth Watson, Harvey Baker, and Allene Kreager, will be free to come home Friday.

John Elliott will accompany his father home from Austin college, Sherman, next Tuesday.

Mr. and Mrs. Ed Majors are leaving Sunday to bring Mabel Ratliff Majors home from C. I. A., Denton.

University of Texas students will come home about June 5. Mrs. C. L. Root left Thursday to bring Charles Edwin and Julia Mae home. Other Colorado students in the university are James Guitar, James and Aldred Bodine, and Jenks Powell.

Mr. and Mrs. A. D. Kiker expect their son, George, to arrive from Park college, Parkville, Missouri, about June 12 or 14.

Gaylord Hubbard will arrive from Texas Lutheran college, Seguin, Sunday, in time to help his parents, Mr. and Mrs. Bob Hubbard, get ready for

their move to Ballinger.

Not many of the A. & M. students are expected home for the summer months, since most of them have jobs that will require their presence in Bryan during the summer. It is thought that Lenn Bodine and J. M. Kirby will be among those coming home, arriving late this week.

Buena Vista Wulfjen is expected home from McMurry college, Abilene, the latter part of the week.

Texas Tech students will arrive later than the others, since Tech's commencement is not until June 8. LaVada Baze of Colorado is to be among those receiving degrees from this college.

Other Colorado students there include John Tom Merritt, Milton Bodzin, Frances Elaine Priece, Bill Hicks, Maxine Dorn, Bill McMurry, J. B. Holt, Geraldine McCarley, Shields Girvin, John Morgan Hale, Minnie Lee Hood, Mumpsey Wallace, Brady Warren, Robert Earl Wulfjen, Charles Hicks, Porter Richardson, and Sam Woods. It is thought that some of this number will remain in Lubbock for summer school.

Reynolds Brown is coming home from the California Institute of Technology in Pasadena, California, between June 15 and June 20.

Other Colorado students whose return dates could not be learned are Don Guitar, student in Kemper Military college, Booneville, Missouri; Bo Bohannon of Louisiana State university; Jack Wood and Frank Carpenter of West Texas State Teachers college in Canyon.

THE NEW STORE FOR MEN AND BOYS ONLY TEN DAYS COLORADO, TEXAS

Enrollment of 250 Sought In Vacation Daily Bible School

Children of All Denominations Invited To Annual Period Of Study and Play

An enrollment of 250 is the announced goal for the second daily vacation Bible school which will begin Monday morning at 8 o'clock at First Baptist church. The school will continue through June 12.

Classes will be held five mornings each week at the church from 8 until 11 and will be open to children of from 4 to 16 years, inclusive, coming from all denominations.

Mrs. P. D. O'Brien will be general superintendent. The Beginners' department, including children of 4 and 5 years, will be in charge of Mrs. Doyle Williams. Miss Pearl Bryant will conduct the primary department for children, 6, 7, and 8 years. The junior department, 9 to 12 years inclusive, will be headed by Mrs. Truett Barber, and the intermediate, 13 to 16 years inclusive, will be in charge of Mrs. Jack Eckleberry.

Handwork, supervised play, worship periods, and story hour periods will be on the program of each department each day. Milk and cookies will be served to the 4 and 5-year-olds.

Last year the school had an enrollment of 210.

Additional Checks Arrive For County Subsidy Contracts

Total Of \$17,038 Paid To Farmers To Date, Reports County Farm Agent

Three hundred and twenty Mitchell county farmers have been mailed notices that subsidy checks totaling \$11,821.53 have arrived. These checks make a total of 532 subsidy checks for \$17,038.09 total received within the past forty days. Only those producers receiving cards have checks in the office.

SUMMER WORK ON CROP PROJECTS IS STARTED BY COLORADO HI FFA BOYS

Continuing their study and work right on through the summer "vacation" months, Colorado High school FFA boys are starting their crop projects under the direct supervision of their instructor, Doyle Williams.

Thirty-five boys will grow cotton, planting a total of 257 acres. Thirty-five will grow maize on 165 acres. Grain sorghum for hay will be planted and cultivated by 23 boys on a total of 149 acres. Nineteen boys will have a watermelon project covering 23 1/2 acres.

In carrying out these projects the boys are to pay special attention to the planting of pure seed, spacing, cultivation, and control of insects.

NEW FFA OFFICERS ARE NAMED BY CHS CHAPTER

New officers of the Colorado High school chapter of the Future Farmers of America have been elected. They will take office July 1.

James Pritchett is the new president. Other officers are: Vice-president, Quinton Hamrick; treasurer, Raymond Fuller; secretary, Duff Chesney; parliamentarian, Beeman Dockery; historian, J. W. Blassingame; reporter, Douglas Richardson; farm "watch dog," Lewis Gale.

THREE FROM COLORADO WILL RECEIVE DEGREES

Three Colorado students in universities and colleges of the state are receiving their degrees within the next few days.

Miss LaVada Baze will receive her degree from Texas Tech, Lubbock, in commencement exercises Monday morning, June 8. Don Taylor is to get his degree from Hardin-Simmons university, Abilene, and Mattie Beth Payne hers from Texas Wesleyan college, Fort Worth.

First Baptist Congregation Has Attained Progress Under Rev. O'Brien's Pastorate

The congregation of First Baptist church has progressed in a material way during the past four years under pastorate of the Rev. Dick O'Brien who came to Colorado June 1, 1932 from Floydada. Special services to commemorate the minister's four years of leadership are to be observed in all services of the day Sunday.

During the four years a total of 267 members have been received into fellowship of the church. 113 of the number were received by baptism. Present membership is given at 830.

Through regular church channels there has been a total of \$28,914.68 raised and disbursed. Much of this money has come into the church treasury through free will offering envelopes.

The pastor has conducted three revivals in Colorado. Outside the city he has, during the four years, done preaching in a total of 18 revival campaigns. 150 sermons and special addresses have been delivered outside of Colorado.

As pastor of the church Rev. Mr. O'Brien has delivered 632 sermons, prayer meeting talks and Bible lectures within walls of the building. In addition he has delivered a number of addresses at lodge, school and other organization meetings.

He has attended a total of ten major and minor conventions and conferences having to do with progress of the Baptist church in his home community, section and State.

IN COLORADO 4 YEARS

REV. DICK O'BRIEN

He is serving his second year as a member of the State Executive Board, Baptist General Convention and as a trustee of Hardin-Simmons university.

Active as a pastor Rev. Mr. O'Brien has also been active in every undertaking promoted for the public good. He is an active Lion, loves sports and spends a part of his leisure time on links of the Colorado country club.

Consistent Use Of Printers' Ink Cited As Expansion Cause

J. C. Penney Store Business Better Than Ever, Bibby Reports At Abilene

The consistent use of printers' ink in carrying sales talks direct to the public of his territory has done much to build trade volume of the Colorado store into larger and larger proportions, E. R. Bibby, manager for the J. C. Penney Company, stated in an address before district conference of store managers of the concern at Abilene.

The conference, with delegates from all of West Texas and Southern Oklahoma attending, was held through Thursday and Friday. Business with the corporation was reported good in all sections represented.

"Trade volume at the Colorado store has advanced steadily through the past several years and I attribute much of this success to a conservative advertising program carried through columns of 'The Record,'" Bibby stated.

GROUP TO ABILENE TO TITLE COLORADO FILMS WEDNESDAY AFTERNOON

Titles for Colorado's 300 feet of motion picture films which will be shown during the Fort Worth Frontier Centennial were written by a group of Coloradans in Abilene Wednesday afternoon.

The Colorado films were the first of the West Texas chamber of commerce group to be titled and will be used for other towns to work from in writing their titles.

Included in the group doing the titling were C. C. Thompson, Judge Benton Tompkins, Walter Wilson, Chester Cothran, and J. H. Greene, secretary of the chamber of commerce.

Road Convention—

(Continued From Page One) and Merkel were presented during opening session of the convention.

The delegates were welcomed to Colorado in an address by Mayor J. A. Sadler of Colorado. J. R. Chaney of El Paso, first vice president of the "Broadway of America" association, presided. Mr. Cullum of Dallas delivered the welcome response.

It had been planned to hold the convention in the Palace Theatre but due to fact new chairs were being installed there the meeting was moved to the chamber of commerce office, Jim Greene, convention host, was the first speaker to be heard after opening preliminaries were over. He paraded steps that had attended early efforts to organize a West Texas highway, an organization to later be absorbed by the Broadway of America.

"The tourist business is one of the biggest industrial enterprises that Texas people are enjoying today and the promise that it is to continue into larger proportions is not to be questioned," President Stanley stated during his address before the convention Thursday morning.

"Every tourist that travels over the Broadway of America in Texas leaves four cents in tax for every gallon of gasoline he buys a resource that is being appreciated very much by our State Highway Commission and extending into such huge figures that cannot be considered passively by us," he continued in appeal that delegates attending the meeting return to their respective communities to manifest greater pride in the road and give further assistance to the general objective of selling American tourists on advantages to be found by traveling the Broadway.

"Colorado and every other city fortunate to be on its route should greet the tourist with a handclasp and a welcome that will not soon be forgotten," Stanley continued. "Give them to understand that their passing our way is appreciated and they will become messengers of good will wherever they live or travel."

Rev. Dick O'Brien of First Baptist church acted as toastmaster at the luncheon program. Entertainment features included an accordion solo by Mrs. Beatrice Jamison of Sweetwater and vocal solo by Mrs. Foy Proctor of Midland. Brief addresses were heard from representatives of the several visiting delegations. The convention was still in session at time of going to press Thursday afternoon.

VISIT CARLSBAD CAVERN

Mr. and Mrs. C. P. Gary, L. J. Burdine, and Mr. and Mrs. R. H. Bennett and children of Roscoe visited the Carlsbad Cavern Sunday. They report that 623 people went through the cavern that day.

Mr. Tom Hootte and wife, brother-in-law of the late J. G. Keathley of San Francisco, Calif., spent Wednesday night with J. G.'s parents, Mr. and Mrs. E. Keathley. They are en route to Stamford to visit Mr. Hootte's father whom he has not seen in nine years. He formerly lived in Fort Worth and may locate there soon.

Mrs. E. R. Bibby and her mother, Mrs. W. J. Key were in Sweetwater Saturday morning.

ADDIE RUTH COOPER, JOHNNIE MAE SMITH WIN OIL PAINTINGS

For collecting the most newspaper clippings of Texas Centennial interest Addie Ruth Cooper, 9 years of age, recently won an oil painting offered by Mrs. J. Lee Jones to the third grade girl making the largest collection before school was out. Addie Ruth had over 500 clippings. Johnnie Mae Smith won second place with over 200 clippings. She also received an oil painting.

Mrs. Jones will use the clippings in making a Centennial scrapbook for her young grandson, Harry Lee Jones of San Antonio, who is a Centennial baby.

Crop Outlook

(Continued From Page One) utes assumed cloudburst proportions fell, inundating the country and sending roaring torrents into streams. Joe Johnson of Valley View estimated that over four inches fell at his place. Rain at Colorado through Tuesday and Wednesday totaled .46 of an inch, sending total since the first moisture arrived Friday to 2.08

inches. Threatening clouds were to be seen Thursday morning but the sun was shining, giving promise to hopes entertained by farmers that before passing of the week their fields would permit planting and cultivation of crops.

The outlook for another good crop year is encouraging. Some rural communities of the county were visited Tuesday by a representative of The Record and everywhere farmers and ranchers were found to be optimistic. Some were at work in their fields, seeding row crops. Others stated that the land was still too wet and were standing by waiting for sunshine to clear up the situation so that they, too, might turn full attention to the business of starting another crop.

Stock water in surface tanks was replenished and the moisture assures a late Spring grass crop on the range. Some cattlemen had started rounding up distressed range cattle for feeding just as the rains began to fall. Grass with them was becoming scarce.

From the Oklahoma Panhandle strip, down the Texas plains and across the state from Fort Worth to Big Spring—all over West Texas—came reports of generous rainfall which definitely ended disturbing periods of drought in many sections and gave the so-called "dust bowl" of the north plains heaviest moisture recorded in many months.

Precipitation in Abilene totaled 1.05 inches Sunday and Sunday night bringing the total since Friday to 1.44 inches and the month's precipitation to 2.97 inches. Amarillo had measured 3.90 inches, Lubbock 2.83 inches.

Texas & Pacific chief dispatcher's office in Big Spring reported good rains at all points along the line from Fort Worth to Big Spring. The rain extended west to Midland and into New Mexico.

In Big Spring rain fell most of Sunday and Sunday night following nearly a half inch Saturday. Cisco had the heaviest fall in this part of the state—2.34 inches. Ballinger reported 2 inches. Santa Anna 2.25 inches. Munday 1.11, and Haskell 1.33. Merkel 1.25, San Angelo 1.50.

Other reports included: Stamford .25; Hamlin .75; Baird .75; Albany .69; Winters, one inch; Clarendon 2 inches; Memphis, 2 inches; Wellington, 1.38; Quanah .84; Chillicothe .25; Vernon .12; Crowell .50; Truscott .50; Junction, 2 inches; Iraan, 3

inches; Ozona 2.50 inches; Big Lake 4 inches.

**PUBLISHER IS SLATED FOR
PRESIDENCY OF CLUB THAT
HE HELPED IN ORGANIZING**

**Officials and Directors Are
Nominated By Lions Club
Friday; Election Will Be
Held Friday, June 12**

W. W. Whipkey, publisher of The Record, is slated for presidency of the Colorado Lions club, service organization that he assisted in organizing thirteen years ago. Whipkey is one of the 25 charter members of the club and during its existence has been active as a member and official.

He and other members of the service organization were placed in nomination during meeting of the club last Friday. Elections are set for Friday, June 12, and a few weeks later—Friday, July 1—the newly designated officials and directors are to be formally inducted into office.

John Deffebach, an officer for the past few years, was elevated to the post of first vice president; Jack Helton who during the fiscal year to close July 1 had filled the position of secretary-treasurer, was placed in nomination for second vice president and C. D. Hornberger, another active Lion, is to be offered as third vice president.

Jake Richardson was the club's nominee for secretary-treasurer, one of the most important portfolios within the organization. Joe W. Earnest and R. F. Fee were nominated for vacancies to occur on the board of directors.

Jeff Curry, nominated for Lion Tamer, is to have a field of running mates for the position of assistant. J. W. Randle, J. Ralph Lee, A. C. Connell, Dr. R. D. Bridgford and T. W. Stonerod, were all nominated for that position, with only one to be elected. Jack Mayes was offered as the club's choice for tail twister and he is to designate his assistant.

On Friday, June 19, another important feature in affairs of the club

**Rains Over Colorado Territory Will Be
Boon To Business Conditions Generally**

Rains that during the recent past blanketed the Colorado territory in sufficient quantity to ease troubled fears of drouth and put the county in good physical rating is being accepted as a boon to better business, with the beneficial sequences finding their way into every channel of trade represented.

Men representing all lines of industry and business—the merchant, banker, farmer, cattelman, oil man and others that might be listed—Tuesday were wearing a broad smile and joining in the general chorus to signify that better times were ahead.

"One of the best rains that I have ever seen fall in Mitchell county and I have lived here through many years," to quote E. Barber of Spade, farmer and ginmer.

"Who wouldn't be smiling after a rain like this? The ranch is soaked new. I have just telephoned out there and we received more rain than has fallen in Colorado." That was the optimistic note sounded by O. F. Jones, manager of the Spade ranch, when seen in town Saturday afternoon.

In the meantime Colorado business men are rubbing their palms in anticipation of a season to be attended by brisk demand for all lines of merchandise carried here.

**NEW \$100,000 HOSPITAL
TO BE OPENED JUNE 1ST**

The new \$100,000 hospital being completed at Sweetwater is to be opened June 1, under plans announced by city officials there Wednesday. Sunday is to be designated as "open house" when the public will be invited to inspect the property.

**'FASHION SHOULD EVER BE
REFLECTED IN FOOD,' SAYS
NOTED COOKERY AUTHORITY**

**Miss Hogue Asserts That All
Menu Items Should Be As
Attractive and Palatable
As Is Possible**

A reporter, whose newspaper is bringing Miss Jessie Hogue to this city under its auspices, to start the cooking school, dealing with subjects of home economics, food fashions and parade of foods, has just received a letter from the lecturer in answer to a question asked her recently: "Is there really fashion in foods?"

Miss Hogue starts her letter with an emphatic statement: "Sure, and most surely indeed, there is fashion in foods. Fashion the same as there is in dresses, hats, shoes and other wearing apparel. The Daniel Webster meaning, my dear fellow, of the word 'fashion' is: 'to make according to rule, to form, give outward appearance, shape, pattern, to lend a prevailing mode, custom, usage, common practice, style, manner, mode, sort, well bred, polished. Anything capable of being shaped, etc.'"

"And the self same book of common reference gives the definition for 'pie' as follows: 'An article of food, consisting of suitably prepared meat; fruit, or reasoned and sweetened composition; baked with an undercrust, as a pumpkin pie; with an uppercrust, as a meat pie; or with two crusts, as an apple pie.'"

"And there being no state statutes or United States rules against it, could not an apple pie be fashioned, with a little alteration of the original and time-worn Webster meaning given or suggested above, of the original meaning of the word 'fashion'?" It's a little hide and seek game at artistry in cooking an unlawful offense, most particularly if the change in its dress would make it more palatable, or more tempting to the appetite, or suit the whim and fancy of some member of the family circle? A major part of our information comes to us through the eyes, my dear fellow editor. Why not appease the sight of mankind and womankind, and mayhap that of childlike, with a few new changes in the old regime of doing just for happy-kitchen and happier home-life, and friendly relation's sake? That is no crime, is it?"

"Sure there is fashion in foods. The greatest form of fashion in this land of ours, and it is made with the simplest kinds of foods, many times, tactfully and artfully done, when the plan of it and the new information of it is fully understood by a wide-awake housewife. Just you pay my cooking school a visit and let me prove my facts to you."

Admission to the cooking school will be free—no obligations of any sort. The dates are June 1, 2 and 3. The place is the American Legion Hut.

**HD CLUBWOMEN TALKING
OF A. & M. SHORT COURSE
AS DATES DRAW NEAR**

As another A. & M. Short Course approaches, home demonstration club women who have served as delegates to the course in the past are delivering talks at club meetings on the interesting things which this year's delegates may expect to find crowded into the week July 20-25.

Among clubwomen who have attended the Short Course in the past are the following:

Hyman—Mrs. Carl Lowry, Mrs. Frank Andrews; Plainview—Mrs. Jean Vest, Mrs. J. C. Franklin and Mrs. Lee M. Jones; Bauman—Mrs. Ivan Barber; Looney—Mrs. M. A. Webb, Mrs. W. K. Miles, Mrs. Trudo Webb; Istian—Mrs. T. L. McKenney, Mrs. H. D. Mitchell and Mrs. Dewey Phillips; Fairview—Mrs. O. L. Simpson and Mrs. Mary Boatler (as visitor); Spade—Mrs. W. E. Seward.

Clubs will be busy the next two months raising money for their delegates to attend the Short Course.

**RAINY WEATHER FINDS
YARD IMPROVERS READY
TO START THEIR LAWN**

The yard of Mrs. E. R. Uzzle, yard improvement demonstrator for the Fairview home demonstration club, was ready for the excellent opportunity for grass sodding offered by this period of rainy weather.

Mrs. Uzzle had her yard well-mulched and filled in advance. It was first plowed, then a good layer of barn yard fertilizer was added and worked in. During the rainy weather Mr. Uzzle assisted Mrs. Uzzle in laying rock walks at both the front and back.

Another club woman who has had her husband's help in improving her yard during this inclement weather is Mrs. Ed Roach, cooperator in yard improvement in the Looney home demonstration club. Mr. and Mrs. Roach have fixed two feet of rock as a curb to build up the yard and do away with a slope. Mr. Roach fixed a terrace on the west side to keep hillside water from washing the yard.

**RADIO ENTERTAINER
KIN OF COLORADOANS**

Do you tune in on the Shell Chateau program from Hollywood, California, each Saturday night at 8:30? If you do, then you're listening to a relative of three Coloradans when Smith Ballew and his orchestra come on the air. Ballew is a second cousin to Thos. R. Smith, Miss Mabel Smith, and Mr. R. O. Pearson.

**Individual School
Closing Programs
Favored By Public**

**Coles Agrees With Patrons
That Exercises Should Be
Held At Home**

The individual school closing program is more acceptable to patrons and students and reaches a considerably larger number of people than the old practice of converging all rural seventh graders at some central location for commencement. Roy Davis Coles, county superintendent, has found.

Coles stated recently that he had found that as a rule each community preferred to have its own school closing program. "Such a practice brings the school closer to the people and is better for all concerned," he stated.

A few years ago seventh grade commencement each Spring was featured in an all day celebration at Colorado. Orators would be heard, diplomas and other awards given the students, with the county superintendent presiding.

**DOROTHY THOMPSON TO
TRY FOR A. & M. TRIP**

So great is the enthusiasm which Dorothy Thompson, Looney 4-H club girl, has for bedroom improvement that she will try to win a trip to A. & M. Short Course with her work.

The following things must be done to Dorothy's room: Woodwork, walls, and windows cleaned; new window shades and curtains put up; new clothes closet built; better bedding added; a reading or study center arranged; two chairs provided; other miscellaneous accessories secured.

**EPISCOPALIANS ASKED
TO JOIN PILGRIMAGE**

Members of All Saints' Episcopal church have been invited to join in a state-wide pilgrimage to Matagorda June 16 as the Episcopal contribution to Texas Centennial observance.

The "mother church" of the Episcopal denomination in Texas was founded at Matagorda. Bishop Seaman of Amarillo is to be among church officials at the gathering.

Admiration Coffee Makers Offer Hint To The Housewife

Accepted Methods Will Ever Assure Good Beverage, The Roasters Suggest

One of the officials of the Duncan Coffee Company, makers of Admiration Coffee, said recently—"Serving consistently good coffee is no mere matter of luck. The blend, choice of coffee, accuracy of measuring and last but not least, care of the coffee pot, all are points that determine the quality of the cup your husband drinks.

"When buying coffee, the blend—which in these days is determined largely by the brand name—is of first importance. Our mothers worked out blends to please the family taste. Today experts originate blends to please individual tastes.

"The roasting of the coffee berry brings out the flavor and makes the berry brittle enough to grind. As might be expected, the degree of roasting affects the flavor and color of the beverage.

"The kind of coffee pot you use decides whether you want your coffee ground fine, medium or coarse.

"Always empty the coffee pot as soon as possible after using to prevent discoloration. Wash every part of it thoroughly in clean hot soapy water and rinse in clear boiling water. Wipe dry with a clean towel and let it stand open to air. A stale odor which affects the flavor of the beverage if a coffee pot is kept closed. The pot which is used only occasionally should be washed and rinsed early in the day and allowed to air thoroughly. Scald it again just before making coffee.

"No matter how you make your coffee, by boiling, steeping, percolating or drip method—both coffee and water must be measured and the boiling, steeping or percolating stopped at the proper time. The drip method requires only the precaution of keeping the beverage hot until ready to serve.

"Another important point in coffee making is the necessity of serving the infusion as soon as possible after it is made.

"While the exact proportion of coffee to use in the making depends upon the brand and individual taste, one rounded tablespoon of ground coffee to one cup of water makes a beverage agreeable to the average person.

"After-dinner coffee served in small cups is stronger than the brew served for breakfast."

ADMIRATION AT THE COOKING SCHOOL

The first step in the making of perfect coffee consists of asking your grocer for a package of oven-fresh ADMIRATION! This reduces all hazards to a minimum. All you have to do is to follow the directions of the lecturer at the School of Cookery — one rounded tablespoon to the cup and one for the pot, and your coffee will be just what every perfect hostess should serve!

The secret back of this lies in the careful selection of the world's finest coffees which make up the ADMIRATION blend, and in the absolutely uniform roasting of these coffees to insure unflinching cup quality. Then, too, the ADMIRATION on your grocer's shelves is always fresh, rushed to him by fast truck delivery direct from the roasting ovens.

Of course, the lecturer at the Cooking School being conducted by this newspaper recommends ADMIRATION! She knows that its rich, winy flavor pleases the most exacting palate. She knows that it is packaged so that every bit of its flavor and fragrance are kept intact.

DUNCAN COFFEE COMPANY

Relief Office Here Closing Saturday; State Relief Funds To Be Gone July 1

Along with county relief offices all over the state, the Mitchell county relief office at the courthouse will close Saturday, May 30, in line with another move of the Texas Relief Commission to return the care of unemployable relief subjects to county welfare boards.

Mrs. Maurine Reese, who has been case worker in charge of the Mitchell county office, has received the following communication from C. J. Sweeney, district relief administrator at Abilene, in regard to the change: "The State-wide program of general relief for unemployables under the Texas Relief Commission is rapidly coming to a close. Funds will reach the zero stage by July 1.

"C. J. Sweeney, District Relief Administrator with headquarters in Abilene, who has immediate supervision of Callahan, Coke, Eastland, Fisher, Jones, Kent, Mitchell, Nolan, Scurry, Shackelford, Stephens and Taylor counties is making arrangements to transfer all clients under his care to the Welfare Boards in the various counties.

"One check will be mailed all clients from our State office in Austin the first week in June. Heretofore two checks per month were sent out, but as the program must close on June 30, with records completed,

only one check for the full allotment will be the rule this coming month," Mr. Sweeney states.

"It is to be hoped that all citizens, as well as public officials, will realize the seriousness of the burden that we are transferring to their shoulders. In the three or more years that the Texas Relief Commission has been taking full charge of these unfortunate citizens, we have managed to keep their condition from public notice. The Federal Government ceased to allocate funds for the unemployable clients last year, and for the last six or seven months State funds have been used, but now they are exhausted. The WPA program continues to take care of our clients who are able to work, and it now becomes the problem of the local political subdivisions to shoulder the responsibility of those who cannot help themselves, due to physical and mental handicaps, or women who have small children, with no bread winner in the group."

"A drastic reduction in personnel takes place on June 1, many offices being closed and all but three case workers in the District being dropped. Mrs. Bertha Plath will have supervision of Shackelford, Stephens, Callahan and Eastland counties, with headquarters in Breckenridge. Mrs.

Ethel Hail will have Kent, Jones, Fisher and Scurry counties, with headquarters in Roby, while Mrs. Omata Goff will supervise Mitchell, Nolan, Coke and Taylor counties, with her office in Sweetwater.

By July 1, even these will cease to be employees, and all activities of the Texas Relief Commission will be a thing of the past. Mr. Sweeney will retain his office in Abilene until the program is over.

"Our duties will now be to refer all needy cases to the County Welfare Boards. Our job of relief has been completed. We are making ready to fold our tents, thankful for an opportunity to have been able to render assistance when most necessary to the communities."

"There are 1939 cases, or approximately 4692 persons now carried in the district as unemployable."

LESS THAN 200 WILL BE CITED ON TAX QUESTION

Less than 200 Mitchell county citizens are to be cited to answer the question as to whether or not their property renditions should not be raised. County commissioners' court is to set as a board of equalization on June 17 and 18. Cards notifying the property owner that his property renditions are to be questioned will be mailed out soon from office of the county clerk.

Advertising brings a new world to your home.

ABSENTEE VOTING TO BE IN ORDER ON JULY 5TH

Mitchell countians expecting to be absent from the county on primary election day, July 25, are reminded that July 5th is date for beginning the filing of absentee votes. Application for the ballot forms should be placed with County Clerk Herrington a few days earlier. July first would not be too soon for this initial move in this transaction.

BUFORD CITIZEN BRINGS FREAK EGG TO TOWN

Jim Heston, farmer of Buford, brought a freak egg to The Record office Saturday morning. The ovule has two small lobes suspended from a U shaped center. Heston found the egg in manger at his barn and for a time did not know what the break was, he stated.

Rangerettes Bound by Traffic Instructions

Preparing for a drive about the Texas Centennial Exposition grounds in a Ford V-8, two Rangerettes, Miss Helen Stamps (at wheel) and Miss Enid Bushy, received traffic instructions from George Palmer, Ford service employee, who in turn was told how visitors to the Exposition will be accommodated. The trio conferred in front of the Ford Exposition building, opening June 6.

One of the red-letter events of the year for the women is almost here. A cooking school it is, to be sure, but what a cooking school! This year's cooking is done in a kitchen much different from that of grandmother's day. There are hours and hours less time needed in cooking—there's less work and more fun. Today's kitchen is a real "Happy Kitchen"—or ought to be. If your three meals-a-day seem just a succession of toast and eggs and potatoes and roast beef and pie, our cooking school is made to order for

you! And if you've already found the secret to pleasure and fascination in mixing dainty new dishes and dressing up the old stand-bys in colorful new fashions—you'll love the cooking school just as much.

There will be romance—mapping of uncharted seas of the kitchen—at the cooking school. Each session will glow with new ideas, appetite thrillers, the simple secrets that make cooking happier and easier. We invite you to hear dozens of practical suggestions that

make kitchen hours more fun and more joy—to see demonstrated before your very eyes those inspired touches that raise the meal and its preparation to the realm of a happy adventure.

Remember—everything shown in our cooking school has been tried and tested by a whole staff of "Happy Kitchen" experts. Months of planning have gone before. There are three afternoons of enjoyment in store for you . . . come as our guest.

OLD-AGE PENSIONS FUND IS GIVEN FEDERAL CASH

Texas will receive \$1,181,250 old-age pension money from the Federal Government to match State funds for July and August, Orville S. Carpenter, executive director of the Texas Old Age Assistance Commission, was told Wednesday by the National Social Security Board.

This insures a start in paying the pensions on July 1 and follows the recent air trip to Washington by Gov. James V. Allred and Carpenter.

The National funds will be added to the Texas money, estimated by Allred at \$2,000,000 as of July 1.

All of it has come from liquor licenses and taxes based on liquor sales.

The availability of this money makes a special session of the Legislature unnecessary prior to the first and second primaries. It probably will come in the fall and the Governor is expected to make a campaign pledge that it will be conveyed, if found necessary to continue the pension payments without interruption.

Submitted to it may be aid to the unemployed, dependent children and dependent blind. These are included in the Federal social security act and are made available to the States willing to cooperate.

SAYS RAIN JUST AS NEEDED

"Just the way we needed it, long and slow," said E. B. Gregson of the past week's rain while in town Tuesday afternoon. Mr. Gregson reported plenty of moisture on the Foster ranch which he manages south oflatan.

THOUSANDS ARE NOW USING NEW TONIC PRESCRIPTION TO HELP BUILD RUGGED STRENGTH

Sensational Sale of Williams S. L. K. Formula is Making History in (Name of Town) This Week—Missouri Doctor's Prescription a Boon to Many Weak, "Run-Down" Men and Women.

From Far and Near Users Voice Their Praises

Crowds which the last few days have thronged the (name of drug store) where the doctor's prescription, Williams S. L. K. Formula is being distributed, have borne ample testimony to the enthusiastic reception which this meritorious tonic preparation has had in (Name of Town). Apparently the remarkable success with which this tonic prescription has met in other parts of the United States is destined to be maintained here.

Since this valuable tonic preparation, which is based on the prescription of a Missouri doctor, was placed on the market,

many users have sung their enthusiastic praises for the benefits which they declare it has given them. J. B. O'Daniel, Corydon, Iowa, writes: "I have just completed a course of Williams S. L. K. Formula and am thankful for its wonderful benefits. I had suffered for over 10 years. Had to force myself to eat what little I did. I was advised to try Williams S. L. K. Formula. I noticed a difference while on the first bottle. I sure feel like a new man. My former nervousness is gone and I sleep like a brick. I am working every day."

Was in Bed 6 Weeks—Now Feels Fine

A letter from Mrs. A. P. Hughes, well-known resident of Kansas City, states: "I was very weak, highly nervous, was in bed 6 weeks. While in bed a friend advised me to try Williams S. L. K. Formula. I tried one bottle. Began eating and sleeping soundly. I continued taking S. L. K. until I could do my housework and walk around. Then continued to gain strength. Seemed as strong as possible for a person 68 years old. I sure feel fine."

Make This Guaranteed Test

If you feel "tired-out," "run-down," lacking ambition and pep; if appetite is failing and you are losing weight; don't suffer another day without trying Williams S. L. K. Formula. The first bottle must produce results or money back. This fair-play guarantee is backed fully by the distributors of Williams S. L. K. Formula, and also by your local druggist, so you take no money risk. No matter what other medicines you may have tried, in justice to yourself, make this test of Williams S. L. K. Formula today.

Great Relief After Taking One Bottle

From Iowa comes the report of Mrs. May Kopp, a well-known resident, who says: "After taking one bottle of Williams S. L. K. Formula I was greatly relieved. It is expressing it mildly to say that I am well pleased and can cheerfully recommend Williams S. L. K. Formula to others." Although Williams S. L. K. Formula has been available in (Name of Town) only a short time, many users here are enthusiastic in their praise of it.

What Williams S. L. K. Formula Is and What it Does

Williams S. L. K. Formula is intended for those "run-down" conditions due to simple anemias of the hypochromic type, often indicated by a feeling of weakness, lack of ambition and "pep" loss of weight and appetite, and unhealthy pallor of the skin. Such conditions commonly are due to a deficiency of necessary elements for forming rich, red blood. Williams S. L. K. Formula supplies a valuable mineral element necessary for the production of red blood, and is a splendid tonic for the system. It also acts as a mild stomachic tonic, is mildly laxative and a mild diuretic stimulant for the kidneys. Williams S. L. K. Formula is a highly concentrated liquid, is easily assimilated and starts to work almost immediately. Only small doses are required. One teaspoonful taken in water, makes the equivalent of a brimming glassful of tonic and system-cleansing elements.

AMBITIOUS HOUSEWIVES WANT THEIR TABLE TO GIVE UNTOLD HAPPINESS

"A most worthy ambition for any housewife is a desire that her cookery elapse, outshine, and dominate in appearance and happiness-giving. Her friends appreciate such an ambition, her husband is proud of it and her children take double pride in it and love it truly well," says Miss Jessie Hogue, who will come to this city to conduct the cooking school sponsored by this newspaper, in her plain, clear-cut, easy-to-understand language.

"The very pink of perfection demonstrated, in many problems of the art of cookery at each session of this cooking school of food thoughts and tested formulas," is the promise that precedes the coming of Miss Hogue, the noted Southern lecturer of the Record cooking school. Her services are free. There is no special invited list, as every housewife in the city and surrounding communities are most cordially invited, as are their husbands, any of whom are, or who desire to become experts in this art of cooking.

"The daily habit and practice of giving expression to the best effort and knowledge in the preparation of things to be presented the family for their meals is made the more interesting, joyful and exciting for the housewife as she learns of the new ways of food-fixing, appetite-whetting and common sense artfulness," says Miss Hogue. She added further: "It's just a natural and forward-moving desire of a housewife to want to succeed in cooking."

"Courage," she continued, "consists not only in blindly overlooking dangers in cooking happiness, but in taking advantage of opportunities that come along to us to conquer and overcome those things that retard that master cooking."

The Record Cooking School will be held Monday, Tuesday, and Wednesday, June 1, 2, and 3 at the American Legion Hut. Sessions will start each afternoon at 2:00 o'clock. Plan to attend every meeting.

Miss Janis Wilkes, who teaches in Midland, is expected to arrive here late this week and will leave next week for Denton to enroll in summer school at C. I. A.

For Bad Feeling Due to Constipation

Get rid of constipation by taking Black-Draught as soon as you notice that bowel activity has slowed up or you begin to feel sluggish. Thousands prefer Black-Draught for the refreshing results it brings them. Mrs. Ray Martin, of Abilene, writes: "My husband and I both take Theford's Black-Draught and find it splendid for constipation, bloating, and the disagreeable, aching, tired feeling that comes from this condition. With reference to a group of Black-Draught, who this mother gives her children, she says: "They like the taste and it gave such good results."

THE COLORADO THAT USED TO BE 25 Years Ago 15 Years Ago

25 YEARS AGO
A piano recital presented by Miss Lucile Stonerod at the opera house had a prominent place in the Colorado Record for May 26, 1911, twenty-five years ago.

There was a piano duet by Lela and Irene Whipkey. There were piano solos by Grace Mann, Inez Nunn, and Lottie Landers; a trio by Annie McMurry, Winnie Crockett, and W. B. Crockett; solos by Maxwell Thomas and Ethel Wells; a duet by Mabel Earnest and Leonard Simon; more solos by Lela Whipkey, Hazel McKenzie, Marion Adams, Carrie Mae Cooksey, Marguerite Beal, Lula Mae Dulaney, Juanita Pond, Noppie Branch, Nora Blandford, Fannie Farmer and Jeanette Earnest; more duets by Eula Campbell and Ada Mae Yates, Roxie Coughran and Pauline Payne.

Taking part in a Japanese cantata, "Princess Chrysanthemum," presented along with the recital were Miss Mary Coe, Irene Whipkey, W. B. Crockett, Milburn Doss, Fred LaDora, and Fred Glisson.

Judge J. E. Hooper, J. A. Buchanan, J. P. Billingsly, and Dr. W. A. Morrow had returned from a fishing trip to Paint Rock.

A Children's Day service had been held at Union, now known as Dorn's chapel, and among those taking part were Huron Dorn, Ida Richardson, Clifton Stovall, Ruth Dorn, Emmett Richardson, Eula May McGuire, Landon Dorn, Lois Stovall, Isla Dorn, Marie Plaster, Jewell Chesney, J. C. Richardson, Dora Stovall, and Gladys Dorn. E. M. McCreeless gave the welcome address and Rev. Coughran preached.

Mr. and Mrs. Floyd Beal had left on Monday for Post, going through with the Orion McCreelesses. The Beals were thinking of settling in Post. Mrs. Sam Majors was visiting Mrs. Bertner in Little Rock, Arkansas. Mr. and Mrs. H. E. Grantland were home from a week's visit in Carbon.

Charlie Sparks was visiting his son Dick in Dallas and was to go from there to a job in Mexico. Dr. Phenix had been in Fort Worth to attend an operation on Mrs. W. R. Eudy. Colorado had let the contract for a \$19,000 school building. The new faculty was announced, including W. W. Hart as superintendent, Miss Nannie Ellis, Richard Galbraith, Miss Cromwell, Miss Alice Shaford, Miss Mattie Lloyd Irvin, Miss Ruby Cromwell, Miss Louise Cde, Miss Mamie Riordan, and Miss Pearl Graham.

15 YEARS AGO
Drilling was to be resumed on the Nat Smith No. 1 well five miles west of Colorado fifteen years ago, according to the Colorado Record for Friday, May 27, 1921. Dr. P. C. Coleman and L. W. Sandusky were pleading with Coloradans to support the oil operators in this territory.

Robert Nunn was the tenth member of the family of Mr. and Mrs. John Nunn to graduate from Colorado High school. Mrs. W. B. Crockett had died on Saturday morning. Among her survivors were two adopted children, both motherless children of Judge Crockett's brother. The two were Winnie Crockett and W. B. Crockett.

Two additional teachers, Miss May Browning of Wellington and Miss Coral Bishop of Anson, had been employed by the school board. The former was the daughter of Rev. and Mrs. C. L. Browning of First Methodist church, the latter the daughter of the new pastor of the Baptist church, Rev. M. C. Bishop, who came here from Anson.

Mrs. Jim Ledbetter and Mrs. J. M. Green had given a shower for Mrs. Brvant Fulkerson, the former Miss Addie Kay, Horn's Chapel teacher. Toasts were given by Mrs. Allen Soper, Mrs. Canada, and Mrs. Ed Jones, Sr.

Intermediate boys of the Baptist Sunday school had been entertained at the home of Robert Whipkey. The infant daughter of Mr. and Mrs. John Brown had died at Cuthbert. Grammar school graduation exercises had been held on Thursday evening.

Jewel Collier was valedictorian, Edna Cook salutatorian. Marcelle Price played a piano solo and Raymond Jones a clarinet number.

High school graduation for a class of fourteen had been held on Friday evening. Dixon Vector was valedictorian, Mary Terrell salutatorian. Mary Terrell won a prize for having the nicest homemade dress costing the least. The class roll included these two and Robert Brennan, Robert Nunn, Jack Helton, Brooks Bell, Jr., Conrad Ausley, Mell Beck, James Adams, Mary Terrell, Annie Mary Lupton, Mrs. Jessie Schroeder-Baker, Hazel Cook, Isla Dorn, and Lillian Dorn.

Honor students for the school included Gladys Dorn and Irene Bohannon for the tenth grade, Richard Pearson and Lois Warren for the ninth, Jessie Stell and Robert Whipkey for the eighth, Jewel Collier and Edna Cook for the seventh, Laura Pearson and Maxine Root for the sixth, Exa King and Loyce Price for the fifth, Nelle Harper Greene and Rosalie Leslie for the fourth, Virginia Webb and Lenora Cook for the third, Hettie Hutchinson and Josephine Chesney for the second, Waunice Green and Ethel Mae Murphy for the first.

SHOWERS AND MUD FAIL TO FAZE TECH FAMILIES IN PICNICKING SUNDAY

Disregarding showers and mud, nearly 40 Coloradans who have children or close relatives in Texas Tech went to Lubbock Sunday and joined the students in a family picnic at the Lubbock city park.

An abundance of food—fried chicken, salads, vegetables, and cakes was spread at noon. Among those attending were the following:

Mr. and Mrs. Sam Wulfjen, who met their son, Bobbie; Mr. and Mrs. R. J. Wallace and their son, Mumpsey; Mr. and Mrs. John Holt and son, J. B.; Mr. and Mrs. Ed Richardson and son, Porter; Mr. and Mrs. John Hale and son, John Morgan; Mr. and Mrs. H. C. Hicks and sons, Charles and Bill; Mr. and Mrs. Dale Warren and son, Brady; Mr. and Mrs. Louis Basham; Mr. and Mrs. Zeb Woods and son, Sam Woods; Mrs. Jim Dorn and daughter, Maxine; Mrs. J. G. Merritt and Dana Marie, who met John Tom Merritt; Rev. and Mrs. Morris of Lone and their son; Mrs. R. P. Price and Miss Loyce Price who met Frances Elaine Price; Mr. and Mrs. Jimmy Wallace of Midland; Mrs. Curry of Westbrook who met her son, Herbert; Mrs. Van Horn and Miss Margaret Lasseter of Westbrook who met Angel Van Horn; Bill McMurry, Tommie Hughes, Frank Smith, Joe Cox, Bonnie Dow, Camille Johnson, Tammie Jones, Shields Givrin, Ruth Wright, and Louise and Loyse Jenkins.

Announces New Firsts In Tire Constructions

Goodyear Continues Well In Lead, Local Dealer States In Interview

Motorists in this area long ago learned to expect pioneering developments in the tire field from The Goodyear Tire & Rubber Co., but according to Luke Thomas, local Goodyear dealer, the company pioneers developments in many other fields with which the average motorist is not so well acquainted.

"Goodyear's record of 'firsts' in the tire development field needs no recounting here," Mr. Thomas declared. "Motorists in our city are acquainted with the company's pioneer work in continually improving automobile, truck and farm tires, but are not so familiar with its work in other fields."

"In addition to the new tractor tire, the new Double Eagle Airwheel and the new Impement tire, Goodyear has this spring announced the first successful pneumatic brake for airplanes ever developed in the United States," he continued. "With construction underway on planes twice to three times as large as the 18,000-pound passenger airliners now in service, need for positive brakes was imperative. The new brake is an adaptation of the air-brake principle in use on buses, street cars and railway trains, refined for airplane use."

"The huge new planes also necessitated construction by Goodyear of the largest airplane tires, tubes and wheels ever built in the United States. Both the brakes and the tires have been thoroughly tested out in laboratories and actual flight and exceeded specifications by a wide margin in their performance tests," Mr. Thomas concluded.

BAPTISTS WILL OBSERVE END OF PASTOR'S FOURTH YEAR HERE NEXT SUNDAY

The end of their pastor's fourth year—and forty-eighth month—here will be celebrated by members of the First Baptist church next Sunday when they carry out a program of attendance and contribution with all figures based on multiples of the number 48. The Rev. Dick O'Brien entered pastorate of the church four years ago Sunday.

A goal of 480, ten times 48, has been set for the total Sunday school attendance by George Slaton, Sunday school superintendent, and his assistant, Truett Barber. Class and department assignments in attendance are as follows:

Amigos class, 2 X 48; Fidelis class, 1 X 48; Dorcas class, 1/2 X 48; TEL class, 1/2 X 48; Cleaners class, 1/2 X 48; Junior People's Department, 1 X 48; Young People's Department, 1 X 48; Intermediate department, 1 1/2 X 48; Primary department, 1/2 X 48; Beginners' department, 1/2 X 48; Cradle Roll department, 1/3 X 48.

A choir of 48 people is sought. An offering of 5 X 48, or \$240, is the contribution goal. B. T. U. leaders hope to have 2 X 48 persons in their organization's meeting Sunday evening.

Modern Woman Wants Her Workshop To Be Modern, Up-To-Date Expert Outlines

By Miss Jessie Hogue
Today's housewife expects her cooking utensils to be in keeping with her up-to-date kitchen. They must enhance the beauty of her workshop. They must be efficient—and above all, they must be convenient to use. And appearance, convenience and efficiency all are available in the cooking utensils of today.

Today's cook likes her recipes where she can find them quickly and use them easily. She likes to make her own book of favorites, clipped from this and that. She has the choice of a loose-leaf book, or a box file of cards, with her recipes alphabetically arranged.

The automatic time and temperature controls on today's ranges render most important service to the cook. With a dependable temperature control she can put her food in the oven and forget about it until time to take it out. With the added convenience of the time control, cooking can go even in her absence. Dinner put in the oven at noon, can be cooked when she wishes and can be ready to serve when she returns. An added feature in temperature regulation is provided on one range. For instance, it gives a high searing temperature for meats for a certain time, then automatically gives lower temperature for the rest of the cooking period.

There is a combination aluminum pot roaster and steamer that will please the most exacting cook. Utensils that serve more than one purpose are one of the latest conveniences. This one does an admirable job in

any one of its several roles. Several vegetables can be cooked together in the steamer inset without their flavors mixing. No dripping from the cover fall back on the food. The lower section—the kettle itself—is excellent for all kettle needs—is for pot roasts, stews, large quantities of vegetables or whatever you wish. Its cover fits closely and is heavy enough not to dance up and down when the food is cooking.

One line of glass cooking utensils has appeared with a decorative note in the permanent frosted design—which emphasizes that these dishes are something more than cooking utensils. Always used for serving dishes as well as for cooking, they fit that role better than ever. They keep food hot a long time after it comes out of the oven, and washing only one dish for both cooking and serving has its obvious advantages. These dishes also have the two-in-one idea, with the pie plates forming the cover for casseroles—a most practical scheme. These covered dishes may also be used for storing cake after it is baked in them with excellent results. After several days' storage the cake is almost as fresh as if just baked.

New coffee makers are always of interest, especially the new glass ones. You put water in the lower section and coffee in the top, then set the coffee-maker on the electric unit which comes with it, or, if you prefer, set it over a gas flame. Coffee from these coffee-makers never reaches the boiling point and has an excellent fresh flavor.

'Our Art' Includes Formulas And Are Proven By Test

Miss Jessie Hogue, Lecturer For Cooking School Begins Service Here June 1

"Housewives, we are a lucky bunch," says Miss Jessie Hogue, the noted lecturer of all artful features to fashion show of foods and cooking who will be in this city next week to lead the cooking school to be held under the auspices of this newspaper, starting June 1.

"We are lucky," Miss Hogue continued, "because we live in a day and age when the art of cooking and secret formulas of all generations is brought to us for our quick and easy use, making home-and-kitchen happiness possible with the very least effort, smallest worry and greatest pleasure. We are lucky because there are no long, hot hours over the washtub occasioned by out-of-date washing equipment. Clothes do not shrink and colors do not fade any more. Dirt, of all kinds can be removed easily and quickly. Dishes no longer present a grind of housewife. What a wonderful world we live in these modern days. There are perfect formulas for every woman, but greatest of all there are appetite appeals for every kind of weather, if we but know the secrets of menus, marketing, budgeting, step-savers, recipes, baking, left-over, calories, salads, frying, labor savers, vitamins, and other important things of this age in which we live, that add pleasure to the doing of the job in the kitchen and bring happiness to the entire family.

The school will show housewives the way to real kitchen happiness. Each woman of this city will be entertained and helped by these fascinating lectures that deal with every phase of home-interest. They are free. We invite you to attend this cooking school and urge you not to miss a single fascinating minute of it.

Plan now to attend every session.

Choose your car for the things that count!

See first what a difference that V-8 Feeling makes

ALTHOUGH the Ford is one of the lowest-price cars, it is the only V-8 car below \$1645. That's why you can't really judge it till you drive it. Till you feel the smoother flow of its 85 horsepower—its swifter pick-up—its easier power up hills and at fast cruising speeds.

And you'll find other outstanding points in a Ford V-8. The riding comfort of a 123" springbase—almost a foot longer than wheelbase. Remarkable stability over rough roads and on turns. The complete security of a steelbody, with safety glass all around, and big Ford Super-Safety brakes.

These explain why Ford owners feel so pleased—as they report gas mileage equal to less powerful cars—and no oil added between regular changes. Ford owners get extra benefits in performance—yet pay no extra for them. Choose your new car as Ford owners do—for the things that count.

[QUESTIONS THAT ARE ASKED ABOUT BANKING]

"Do Banks want to make loans now?"

THE answer to this question is emphatically, "Yes!"... Banks, generally, are making loans every day—and would like to make more of them. In the first place, banks have funds to loan—for restored public confidence has greatly increased bank deposits. Secondly, loans are a chief source of a bank's profits. No bank knowingly refuses to make a good loan for the same reason that a merchant does not lose a good sale if he can help it.

Bank loans are made when business men see clearly a profitable use for the money and the bank is satisfied the loan will be repaid when due.

This bank is willing to loan its funds to business concerns and individuals whose qualifications give adequate protection for our depositors' money entrusted to our care.

A Sense of Responsibility

We are aware that most people have little knowledge of the problems which arise when a loved one passes away. Our obligation is to protect their interests and give impartial advice at this trying time. Secret Formulas In Cookery To Be Given Free To All

Nationally Known Expert Is
To Direct School Opening
Here Monday Morning

A little snow, tumbled a bit, if done craftily, and with conditions in harmony for snow tumbling, soon becomes a mountain. Just so, with the secret formulas to be given freely to the ladies and their husbands, if they desire to learn of them, and most husbands do—in the coming free city-wide and community-invited cooking school to come to this city next week. This is of most vital importance and it will be led by that genial-hearted, informative-minded Southern lecturer, Miss Jessie Hogue. Her reputation for plain, understandable, interesting, short-course, post graduate giving, language and demonstrations that hold audience interest throughout, has preceded her by weeks. And, it is all free, and a most hearty invitation is extended to every housewife in this city and the communities around.

In this fashionable parade of the

Use Science In Laundering Clothes, Is Suggestion Offered By Cookery Expert

By Miss Jessie Hogue
This is essentially an age of science—and probably in no branch of industry has science made more strides than in the laundry, which has grown by leaps and bounds from a virtually

hand-operated affair to a great plant in which gas, electricity and labor-saving devices play a conspicuous part. No matter where you live, in the interests of sanitation, alone, it is important to select a reliable laundry. You will be able to find one reasonably-priced, and you will find this the more hygienic, the more satisfactory way of having your laundry done.

Take economy, for instance, with the modern laundry's reasonably priced, finished service, it is cheaper and more satisfactory in the long run to have your family washing done by such a concern.

Take hygiene, the main points that make the modern laundry outstanding in this respect are the completeness of its equipment, the up-to-dateness of its methods, the cleanliness of its plant and the number of skilled workers it employs.

Take service, a courteous driver-salesman calls for your bundle promptly on the hour you desire; your laundry is washed separately; the bed and table linens are ironed and neatly folded. The wearing apparel is starched where necessary.

Student Graduates During Time He Is Patient In Hospital

Lonnie Johnson Honored By
Dunn High School; O'Brien
Heard On Program

Lonnie Johnson, member of the senior class at Dunn high school, is to be awarded his diploma of graduation Friday night, although he has during the past several days been a patient in the Root hospital at Colorado. Other boys and girls to receive diplomas include Alton Smith, Clyde Melton, Reuben Goodiet, Junior Hanson, Bruce Haynes, Billie Cotton, Odessa Krop, Louise Wood.

Rev. Dick O'Brien of First Baptist church delivered the commencement sermon in exercises at the Dunn Methodist church, Sunday night. The commencement address is to be delivered at the school building Friday night by Zollie Steakley of Sweetwater.

Everything is returned promptly at a given time, ready to wear or to put away.

And you will have the satisfaction of knowing that your possessions have been laundered in the most wear-avoiding, most sanitary way.

Take satisfaction, which is the final test of all laundry service. Your modern laundry if it is worthy of its name, will insist that you must not only be pleased, but delighted. It is only when you open your bundle, filled with your sweet crisp-clean linens and garments that you will realize how completely and utterly satisfactory modern laundry service can be.

And the story of your laundry service, briefly is one of unlimited quantities of filtered rainsoft water, plenty of pure soap and scientific knowledge of how to use amazingly gentle equipment. Your clothes are washed without rubbing, and are rinsed in many baths, until every particle of loosened dirt is definitely removed from the fabric.

There is a pronounced difference between professional and domestic laundering—a difference that strongly emphasizes the fact that laundry-washed clothes must be cleaner, sweeter and longer wearing. Every laundry formula is worked out with prescription-like exactness—nothing is left for chance, and it is such methods that protect your garments and your linens, and deliver them to you just as you would like to have them.

Modern laundries offer a variety of services to suit every family need. All ironed work, partially ironed work and work which returns clothes damp for ironing, are but a few of the many individualized services available at laundries today. If you will consult them by phone or in person they will help you decide just which one of their services is best suited to your needs.

COLORADOANS URGED TO BUY THEIR CENTENNIAL TICKETS FROM STORES

Coloradoans going to the Centennial at Dallas are urged to secure their admission tickets before they leave Colorado and avoid the rush and crowds at the Centennial.

Tickets are on sale at the following places in Colorado: Alcovue Drug, W. L. Doss Drug, Colorado Drug, John L. Doss, Kybrook, Broadway, John L. Doss, Keybrook, Broadway, Whipkey Printing, and Roy Dozier Barber Shop.

The books of tickets contain five general admission tickets, and five major attractions or shows inside the Exposition. These tickets are transferable, and may be used anytime between June 6 and November 29.

This sale of tickets is being sponsored by the students of the local high school, and they are urging that all those going to the Central Exposition at Dallas buy their tickets before leaving Colorado.

LEAVING FOR AUSTIN

Several Coloradoans left Thursday morning for Austin and other points in the car with Mrs. C. L. Root, who is to visit in Austin until her children, Charles Edwin and Julia Mae, are ready to come home from the University about June 5. Margery Carlock went with Mrs. Root and plans to visit in Houston and Belton. Mrs. A. B. Coffee was another in the group, planning to spend the summer with relatives in Austin and Houston. Mary Elizabeth Pidgeon planned to go along for a visit with the Bandys and other relatives in Austin.

LEAVES ON VACATION

Miss Isla Marie Justice, employee of the telephone company, left Monday to spend a two weeks vacation in Midland and Dallas. She plans to be in Dallas for the opening of the Texas Centennial Exposition.

'It Is Your Fault In Event Nobody Has Praise For Your Cooking,'—Miss Hogue

"If nobody praises your cooking, just remember it is your own fault," says Miss Jessie Hogue, noted Southern lecturer who will be in this city next week for a cooking school, brought under the auspices of this newspaper.

"This important statement of facts is not condemnatory," quickly assures Miss Hogue. "I do not condemn a woman for not knowing the innermost secrets of the master art of the world—happy kitchen cooking. Some other important home duties may have crowded her time out of opportunities that have come along from time to time.

"Frankly, though, cooking praise must be merited. There is not one bit of fooling about, nothing but genuine earnestness and wide-awake interest and attention in it will suffice.

"We need not fool ourselves about cooking. We can't fool others, and most especially members of our own family, for long.

"It is so easy, and it's such a happy experience, this getting on to the innermost secrets of the preparation of simple, wholesome dishes, salads, meats, menus, meal-planning and likewise right on into the dinner courses for any and every occasion. It is so simple, easy, interesting. It takes away many worry-chasing, time-saving, nerve-saving, energy-conserving elements, that the joyfulness, the optimism of it, the intense interest it commands and pleasant feelings it produces. There is no wonder that the years I have spent in preparation for my lectures seem to bring me so much happiness. I do enjoy it because I love my work. I appreciate very much the thousands of friends I have made throughout the United States among just the kind of housewives who live in your city and communities around, that I am sure in advance my cooking school will fill every need, will be equal to every demand, and that the service I will be able to render the

PALATABLE COOKING

The idea of a cooking appliance able to turn out a savory dinner without the aid of an expert cook has intrigued engineers for many years. But not until today's modern gas range has success crowned their work.

In all divisions of cookery—top burner, broiling and oven—the modern gas range introduces new and higher standards of cooking performance. With its accurate control of cooking heat, its insulated oven, its simmer burners, anyone can prepare a dinner done to a queen's taste.

So see these new ranges. There's a model to fit your family needs. And once you learn how easy one is to use, how economical to operate, how easy to buy . . . you'll see the wisdom of modernizing with a new gas range.

MISS HOGUE RETURNS TO CITY NEXT WEEK

Miss Jessie Hogue, nationally known food expert and economist, instructor in the Record's first annual cooking school will return to the city next week to be in charge of this paper's second school. Miss Hogue, shown above, made quite a hit with the hundreds of persons who last year attended the school and no doubt she will receive a fine response at the school which will begin Monday afternoon and continue through Wednesday afternoon. The school will begin promptly at two o'clock each of the three afternoons.

Whitaker's Bread Selected By Miss Hogue For School

Product Baked In Colorado To Have Important Place In Demonstrations

Bread baked by Whitaker's Bakery in Colorado has been selected by Miss Jessie Hogue for use during her three days cooking school to open at the American Legion building Monday afternoon. The cookery expert announced several days ago that Whitaker's bread would be used in all her demonstrations in which this product of the baker is to have a part.

Good bread, baked in sanitary, spotlessly clean shops and under the latest approved scientific methods should be demanded by every housewife, Miss Hogue suggests. She believes that all these requisites are to be found in every loaf of bread carrying the Whitaker label.

Jessie Hogue Will Lecture To Big Crowds

Doors to the Colorado Record second annual cooking school will swing open at noon next Monday.

Plans have been completed for the three days of instruction that will be given by Miss Jessie Hogue, nationally known food expert and economist. The lectures by Miss Hogue, who proved to be so popular here last year, will begin each afternoon promptly at two o'clock.

Miss Hogue expects to conduct the school in much the same manner it was conducted last year although new recipes will be given on each of the three days.

Women attending the school are urged to bring along pencil and paper as they are sure to find some recipes they would like to carry home.

It will not be all work at the school, either. For Miss Hogue expects to spice the programs with humor and entertainment.

Indications are today that record crowds will be on hand. Much interest is being shown in the school of instruction in Colorado and from practically every section of the county.

Many of the local merchants who took part in the previous school presented by this newspaper are again cooperating with the Record in the presentation of the second annual school. Those merchants extend a cordial invitation to the people of Colorado, Mitchell county and this trade territory to attend the three lectures.

Attempts will be made to make the school as interesting, entertaining and comfortable as possible for those persons who attend. And, remember, it is free.

school in Texas that can equal the record of the Colorado Junior High of the publication of a collection of poems by students? The school faculty believes not, and faculty and students alike are very proud of their work, which is a practical demonstration of the development of creative writing by students in the fifth, sixth and seventh grades.

"Most of the verses are quite obviously the results of classroom assignments, but the uniformity of

there is not repeated in treatment. In fact, there is a rather surprising amount of individuality to be observed in the reaction of the different students to the same theme. November, for instance, means "the torch-lights of chrysanthemums" to Nancy Price, while to A. B. Phipps "it's a month of winds that, heavy or light, rush through the day and moan through the night."

"Three seventh grade girls, Freddie Watson, Catherine Slagel and

Nancy Price, went through the poetic products of the Colorado Junior High School, for the 1935-36 school year, selecting the contents of "From the Point of Our Pen." All the work of compiling, editing and overseeing publishing was in the hands of these three girls, and the resulting little book is something of which those of more experience and more years might well be proud."

There are no better nor more modern appointed gas ranges and electrical refrigerators on the American market than those carrying the trade-marked name of Norge, according to Miss Jessie Hogue, nationally known cookery expert who Monday afternoon is to open a three-day cooking school in Colorado under sponsorship of this newspaper.

"I have selected a Norge gas range on which to do my baking, roasting and other cookery demonstrations because I realize there will be no occasion for disappointment," Miss Hogue stated.

"The many modern appointments and economy features of the Norge refrigerator easily won for it my approval and I shall be happy to use this equipment during the three days."

Norge products are distributed at Colorado and this territory by Lee Carter Furniture, which concern is extending full cooperation to Miss Hogue and The Record in plans for making the school outstanding.

"LET US LOOK FOR
COOKING ROMANCE"
SAYS EXPERT

By Miss Jessie Hogue
A great celebration will take place on the day when dishes are invented that are inexpensive enough to be thrown away after one using, but still retain the virtues of china.

Until that time comes, however, our pride of ownership in good dishes will keep us at the daily cycle of clearing up the dinner table, washing dishes and storing them away. In the meantime, also, many of us will continually be seeking for ways to lighten the task that takes us from table to sink to cupboard. There is really romance in cooking if we but look for it.

If we examine the processes in dish-washing, reduce if possible the time each takes and eliminate those which are unnecessary it is possible we may find waste motions and reduce the unpleasantness of an unavoidable chore.

First, all dishwashing should not be left until after the meal. Begin to reduce the after-dinner part of the work the first moment of meal preparation.

Clearing away as you go along will simplify dishwashing unbelievably. Replace materials or containers as soon as they are used—the baking powder, the spice can, the sifter.

As you replace them determine whether or not they are in their most convenient location. Replacing is simple if it means merely reaching out to a shelf an arm's length away and not walking across the kitchen!

One meal process likely to create a confused and untidy kitchen is vegetable preparation. To avoid this all fresh vegetables such as lettuce, radishes and tomatoes should be washed as soon as they arrive from the green grocer and placed in the refrigerator ready for use.

This keeps the untidiness of wilted leaves and sandy sediment out of the kitchen during its busiest time.

Other vegetable refuse, such as potato parings, carrots scrapings and bean strings, can easily be kept out of the sink by paring or cleaning them directly into waste cans.

The large accumulation of cooking dishes during food preparation—measuring cups and spoons, mixing bowls, pans—all but the last minute cooking dishes, can be washed and rinsed with hot water.

Some housekeepers advise washing each dish as it is used, but there may be waste motion in that. A little earlier system may be to clear away as one goes along but to have on washing during the last period of cooking.

When baking, a utility tray saves labor. Each tool as it is used is placed on this tray and taken with the soiled dishes on it in one trip to the sink to be washed.

The next step in cutting down waste effort in the handling of dishes after they come to the table is to have a systematic routine for them in the kitchen.

Extra space near the sink and a table placed conveniently near the sink where the dishes can be cleared and stacked as they arrive from the table are helpful.

It is at this point that a movable table of generous proportions makes its usefulness felt.

Dishes may be placed directly on the table in the dining room, moved to the kitchen cleared, washed, put back on the table and taken to the point of storage of the cupboards cannot be reached from the sink.

Great Master Art Of Cooking Easy To
Overcome By Housewife, She Contends

"Sue saw six, slender, saplings." There's hard words to say in them there lines. What if they are hard, they can be said. There is a short, sure, certain method by which any line can be mastered.

"So it is with the great master art of cooking," says Miss Jessie Hogue, the noted Southern lecturer and kitchen happiness harmonizer, who will be here to lead in one of the most useful and informative seasons of the cooking school that has come to this city in many moons starting June 1. She has many surprises for the housewives. It is all free, not a cent of charge for any of it.

"One of the little things that I teach my housewives who visit the cooking school is that meals can be made more attractive and the testing laboratory of beauty for a meal is

dependent upon, in a great part, a more perfected harmonization of the things that go to make up the meal parts," says Miss Hogue.

"There are new and easy ways to gather kitchen and home happiness, and I am glad to impart this knowledge to the housewives of your city and those who live in the neighborhoods around."

"Texas will advance very materially during the coming twelve months because of the Centennial spirit that is being studied and recognized by the entire State. Nothing is more important than the centralization of the greatest of all arts—the master art—cooking. Such periods bring us face to face with giving our dead level best to what we are about. It has spurred my efforts to do so, and I am happy to serve

with it—happy of the opportunity to serve the women of this section of the country.

"The preparation of meals always so different, always so adorable, always so palatable, and always so happily pleasing. That is the goal of my efforts to scatter such information among the housewives of America. It is a pleasant job that I have. I like it, and I am getting the greatest lot of satisfaction from the fact that my visitors, everywhere, like it. I love to please, just as all housewives do. It's a laudable ambition, isn't it?"

QUESTION BOX TO HAVE
ATTENTION AT SCHOOL

Cracking "hard nuts" promises to be the unlimited promise of Miss Jessie Hogue, noted Southern lecturer and home economist who will conduct the cooking school in this city next week, and to which every housewife is cordially invited to attend. It will be free, and worthwhile, indeed. It comes to this city under the auspices of this newspaper.

The school promises to sound a piercing warning to all time-worn mottos of cooking, all outworn ideas of time-wasting, drudgery and energy depleting bringing in their stead the modern ideas of the art of cooking, and with it all the tested formulas that offer the housewives a quick, sure and certain, and happy kitchen substitute.

A feature of the school will be the "Question Box." At the close of

each lecture, questions will be answered from the stage by the lecturer. Bring your questions and drop them in the "Question Box." You do not have to sign your name. A fifteen minute period will be allotted to the answering of questions at the close of each daily session.

The cooking school won't have a bit of formality in it. You will see all your friends and neighbors there and we want you to come too. The lectures will deal with every phase of home interest. They are given you free through the courtesy of this newspaper.

THAT GRADUATING CLASS

Last week was graduating week. We were not asked to address the class. Had we been asked we would have said about as follows. We would first had a say about the teacher.

TEACHER'S INFLUENCE

It matters not what occupation one chooses, a realization of the responsibility that is his because of the results that are to follow his efforts should serve to add to the value of his services. This applies with particular emphasis to the occupation of the schoolteacher. His (or her) influence upon the student probably has as much to do with his success and happiness as does the knowledge to be gained from his textbooks.

The teacher's work doesn't end with the school term. Like the knowledge the student gains from his studies, the teacher's influence will be manifested through the student in practically everything with which he has to do, whether in his chosen trade or profession or in social contact with others. The effect of his influence depends in great measure on the teacher's personality and faithful work, and on the mind and receptivity of the pupil.

Simply the teaching of the textbooks is but a part of the teacher's duty, and being interested only in the student's acquisition of such knowledge is but a part of his responsibility. If he does not impart inspiration to the student, both as to business success and good citizenship, then he has failed short of his duty.

TO THE CLASS

A few facts about qualifications for success:

One may not be endowed with what we call genius, or extraordinary talent, but he can by painstaking and persistent effort overcome the difficulties in his way. What he lacks in natural gifts of talent and qualification may be overcome by attributes which are greater than genius alone, for even genius is of little effect if one is not energetic and persistent in its use.

Patience, perseverance and common sense are of more power than genius, without these, to set it to work and keep it at it. But think of the possibilities of genius when supplemented by these virtues—and some men are so endowed. However, it is a rare combination.

One who has a commendable ambition plus the qualities just mentioned and determination to succeed, will be able to master any situation. All

gates fly open and all bars fall down as he approaches.

Such a one is able to transform stumbling blocks into stepping-stones and make opportunities of difficulties.

He turns adverse circumstances into conditions of advantage, and where defeat and disappointment seem inevitable, success and triumph still may impel the shout of victory.

The fact that one has high ideals is evidence that he has the power and desire to attain them.

Environment may hinder, association may weaken, temptation may surround him with its most attractive allurements, but the power of right desire, high aim and the nobility of character developed by high ideals, will conquer them and thus emphasize the splendor of his victory.

THOUGHT PRODUCTS

"As he thinketh in his heart so is he." Proverbs 23: 7.

Impressively apparent is the transcendent importance of right thought-habits, when we realize that all conduct, good or bad, is the result of thinking.

Sin and suffering, degradation and disaster, defeat and destruction, are preceded by wrong thinking.

He who allows himself to come under the rule of his lower propensities does not think constructively. If he did he would not be guilty of objectionable deeds. If he does not think in the domination of the sordid, impure and debased.

Wrong thinking is not thinking. It is insanity, the opposite of thinking. Thinking that is destructive is madness, whether it induces murder, incendiarism or theft.

Wisdom and the virtues are always united, and he who is thus endowed will naturally manifest his wisdom by practicing the virtues.

Only as one's character is in harmony with universal law, love and wisdom is it constructive in nature and beautiful in expression.

"Think truly, and thy thought shall be the world's famine feed; Speak truly, and each word of thine shall be a fruitful seed; Live truly, and thy life shall be a great and noble creed."

AMBITIOUS YOUNG PEOPLE

The American public school probably is the greatest force for the promotion of human betterment the people possess. The fact that they seem to realize this accounts for their willingness to pay the cost of its maintenance. Gray's line, "Where ignorance is bliss 'tis folly to be wise," might discourage many from seeking education were it not that few who care nothing for education ever read it. In the first place ignorance is never bliss, nor can it ever be an aid to happiness.

The line by Pope, "a little learning is a dangerous thing," is equally misleading. "A little learning" is proportionately as good as a great deal. Indeed, it is he who has drunk of the Pierian spring who thirsts for still greater draughts. This is why this article is written—to encourage the young people who read it to avail themselves of every opportunity presented to gain knowledge.

The building of a life is like the building of a house: The kind of house wanted must be decided upon. Its looks, permanence and usefulness depend on the kind of material put into it, the correctness of the design and the skill with which it is put together. The trade, profession or business you intend to follow must first be chosen. It should be done of course with consideration of what vocation your talents best qualify you.

LACK OF EDUCATION

This handicap would be so great as to make further improvement impossible were it not that every effort possible for educating children is being put forth by those who have themselves been educated. Because of the disparity in numbers of the educated and uneducated, general improvement in the race as a whole and in all the citizens of a single nation must be done at slower speed than is naturally desired.

It can be brought about only by first giving what is called a common school education to as many as possible, meanwhile increasing the number of those in the higher grades and in colleges and universities. This plan kept up persistently will ultimately reach all who wish to attain

the higher educational levels. With the increasing number of these will come increasing numbers of those who want all the knowledge they can gain, from the first grade in the common school to the ultimate afforded in the world's greatest institutions of learning.

SECRET OF SUCCESS

It seemed necessary to throw Joseph into a pit in order to set him on a throne. The hole in the ground became a mountain-top. Selling him into slavery exchanged his "coat of many colors" for the purple robe of a Prince. An obscure farmer boy in Canaan, he became Prime Minister of Egypt. From threatened death at the hands of envious brethren, he saved them from starvation.

The secret explaining his wonderful achievements is that, as the Apostle says, "God was with him." Unless you have Him with you, you'll be a failure. Don't sneer at this. It's so.

He took Moses and his rod—one man and a stick—and freed three million slaves. He took Shamgar and an ox goad and slew six hundred Philistines. He took Samson and the jawbone of a meek little donkey and killed a thousand more. He took a little shepherd boy and a sling and brought down the giant champion of the Philistine army. He took the same lad and made him Israel's greatest King and wonderful poet. And— He took a little Bethlehem baby and made Him the Savior of the world.

ASSET OR LIABILITY

Paul said: "For none of us liveth to himself, and no man dieth to himself."

The positive man is an asset. Because he is positive he is energetic, aggressive. He produces something for the preservation and comfort of humanity. He pays his government and his community a dividend because he is productive.

The negative man is a liability. As a rule he is neither energetic nor aggressive. He is not creative because he is not aggressive. Not being aggressive, he has no initiative. He has to be carried by the positive man. He consumes but does not produce.

He does not help in pulling the car of progress because he is afraid of being run over. Fear is one of the negative man's weaknesses. He does not push the car because it already is ahead of him. He is never a help, and to the extent that he influences others by example he is a hindrance. Every human being to the extent of his influence upon others either

ICE-COLD COCA-COLA IS EVERY PLACE ELSE

A TIP FROM Miss Jessie Hogue

IT BELONGS IN YOUR ICE-BOX AT HOME!

Something new for summer breakfast

He really discovered the idea that Coca-Cola is the way to start the day. Now it has been adopted at home. This pure drink is as welcome as a morning breeze — and as refreshing. Why not try it at your breakfast table this summer?

Be sure to keep the bottles in your ice-box or refrigerator. Serve with ice. Coca-Cola is at its delicious best when thoroughly chilled.

Baby Brought Into World At Mother's Death Is Hale and Happy At One Year

The following human interest news story is reprinted from the Abilene Morning News for Tuesday:

"Growing normally, proudly exhibiting her ten teeth and learning to toddle and talk, a little girl brought into the world by a caesarian operation twenty minutes after the death of her mother lives in Albany with her grandparents, Mr. and Mrs. C. A. Fryar. She will celebrate her first birthday today.

"There have been hundreds of operations performed in an effort to save a baby after the mother's death, but Shirley Louise Moody is the twenty-ninth child on medical records to live. She is the daughter of Jess Moody of Abilene.

"The mother, last May 26, was

helps or hinders. If he puts his shoulder to the wheel of human endeavor he encourages others to do likewise. If he refrains from doing so, just to that extent he is encouraging others to be loafers such as he.

Lack of faith in God and humanity mean lack of hope, and lack of hope means despair, and despair means ruin and disaster.

It is the man who believes, who has a settled purpose in life, the man with faith in God and man and himself who accomplishes things.

The positive man is a helper, the negative man is a hinderer; one is a builder, the other a drone if not a vandal. One is a burden-bearer for ranking, the other himself is a part of the burden.

True it is that "a hopeless man is a corpse waiting for the undertaker, and a lazy man is a dead man walking to his own funeral."

He who is small in faith will never be great in anything except failure. It is the believing man who does the work.

Faith in God and man is essential to a useful life, and only a useful life can be a happy one.

FACTS FOR MEDITATION

As you receive your diploma or "sheepskin" take it home with you and meditate over these facts:

Stay out of ruts. A rut is a long grave. He who is willing to stay in a rut is buried and doesn't know it. Carelessness gets one into a rut and idleness keeps him there.

The ruin of many a man can be traced to an idle moment.

The lazy man aims at nothing and usually hits his target.

Laziness is mental, moral and physical inertia.

Adam was lazy and didn't have to work for a living, and look what happened to him.

An idle life is worthless. You have to work to build, and you must know that, mentally and materially, you build either a palace or a hut. It is up to you to decide which it shall be.

Mental brilliance and physical laziness form a poor combination.

Mentally to conceive an idea without the energy to put it into execution, gets you nowhere. If you don't want to use it, give it to somebody who will.

Laziness travels so slowly that poverty is sure to overtake it.

Principle is your steering-wheel. Unless you use it you will soon be tossed about on the swirling waters of the sea of life.

The human engine must be a self-starter. It must generate its own power and have intelligence and ambition enough to keep it going.

Do not grumble because of demands upon you for self-sacrifice and self-denial. It is very rare that success is attained without them.

Play the game fairly. Fight the fight squarely.

stricken with acute indigestion at her home here and was taken to the hospital unconscious. In spite of the administering of oxygen and stimulants she never revived. The doctor and attendants employed artificial respiration and other methods 20 minutes in an effort to bring the mother back. These were fruitless and the caesarian section was made. The baby's condition at birth was described as similar to that of a drowned person, apparently dead, but she was revived after 15 minutes by the methods used in cases of drowning.

"For 36 hours the baby remained in an incubator, but from that time forward developed in the normal way.

"Saturday she visited the office of her physician in Abilene. Her recorded weight at 24 pounds and two ounces, her height at 25 inches, indicating a well-developed one-year-old. She has ten teeth, her health is excellent, and she is learning to walk and say words.

"Shirley Louise is a charming little blonde, with sparkling blue eyes and curly yellow hair."

J. P. MAJORS

Mayor Of Loraine Wields Shovel In Paving Objective

Hall and Other Citizens In Labor Role As Drive Gets Impetus During Week

J. C. Hall, former Mitchell county judge and now executive vice president of the Loraine First State bank, mayor of the city, president of its luncheon club and holder of other offices, left his office in the bank the other day, tossed his coat and necktie aside and shouldering a shovel "made a hand" at supplementing WPA workers on street paving project in his city.

The banker-mayor was accompanied by several Loraine business men in will to "get the job done" after considerable delay in seeing some of the principal business streets paved, due to lack of labor and other causes.

The mayor, after mopping perspiration from his brow, suggested that the city and chamber of commerce unite in effort to have Highway One, extending through the business district, widened. In the meantime he is nursing corns on his fingers and giving attention to matters in his office that had to wait consideration during the hours that he juggled asphalt and gravel with a spade.

FUN AND FROLIC TO BE INTERWOVEN IN COOKING SCHOOL

"Just as 'the evening of a well spent life brings its lamp along with it,' so does the cooking of a really interested housewife who attends the cooking school keep on the ascendancy in bringing kitchen happiness to her home," says Miss Jessie Hogue, who will be in this city to start in the leadership of sessions of a cooking school starting on June 1.

"There is fashion a plenty. Ways to dress up good, wholesome, ordinary food, in manners that will tease the appetite graciously and make friends with all the digestive organs of humanity," states Miss Hogue in a letter to the Record. And there is plenty of fun, frolic, pastime, and wholesome entertainment in learning all about," she further tells. "The opportunities to learn how to prepare the newest dishes, dress them in their very prettiest forms and shapes, any of which are valuable additions to the kitchen of the most modern or particular housewife; the manner and dispatch, sheared of all vexations worry and toilsome burdens, of planning meals of every kind, comes in with a value hard to determine; and particularly the new mode of preparing and fixing the newer salads, is indeed a secret bit of happy-housewifery, to be prized by anyone; to say nothing of the valuable household hints available."

Most surely, the readers of this newspaper, under whose auspices the cooking school comes, are in for a pleasant session, of cookery experience.

Cerebral Bleeding Is Fatal To Mrs. E. T. Terrell, 57

Victim Stricken While At Grandson's Graduation On Last Thursday Night

Stricken while attending the graduation of her grandson, Weyman Moseley, from Colorado Junior High school last Thursday night, Mrs. E. T. Terrell, 57, died of a cerebral hemorrhage at a local hospital Friday noon.

The body was shipped to Navasota Friday night and burial was in Anderson Sunday beside Mrs. Terrell's daughter, Mrs. W. M. Moseley, who died a year and a half ago, about the time Mr. Moseley came here as manager of Hicks Rubber company. Mrs. Terrell had made her home here since that time, caring for her grandson, Weyman.

In addition to Mr. Moseley and Weyman, Mrs. Terrell is survived by her husband, E. T. Terrell of Anderson; a son, J. B. Terrell of San Angelo; a granddaughter, Alice Terrell of San Angelo, two sisters, Mrs. E. B. Daniels, Sr., of Waco, and Mrs. Lula Clark of Navasota.

Kiker & Son had charge of local funeral arrangements.

HINTS ON FOOD COST SAVING BE OUTLINED

"With more than thirty-five per cent of the family income going out for what we eat, it is most important that we give every attention possible to this great and master of all arts—cooking—isn't it?" asked Miss Jessie Hogue, the noted Southern lecturer who will lead in what is probably one of the most splendidly harmonized centennialization of food parades that has been held in this section. Miss Hogue comes to this city to hold the Record cooking school next week, under auspices of this newspaper, and her coming has been heralded by her reputation for plain, logical, common-sense, understandable, manner of talking and explanatory demonstrativeness.

She takes a great pride in the many secret formulas she gives free to her thousands of listeners throughout the United States and she likewise feels a pride in the housewife who attends her lectures. She says: "A cook should be known by her knife, yes, but far more. Most certainly she should be in a position to 'commend her own pies.' Yes, too, 'by her cleanliness, a cook must please the entire family.' Yes, I have heard of the man whom Emerson sent to the city, in one of his books . . . 'Considerations by the Way.' I believe it was, and the fellow was made to sav, as I remember it, 'have been sent here to procure an angel to do the cooking.' And I know that old one which says that 'As the house showeth the owner, the cooking showeth the cook.' too. I know many of them but I also knew this—that there will be no disappointments and many happy experiences remembered after I have the opportunity to meet, lecture, demonstrate and talk freely, frankly and plainly, heart to heart with the housewives of your wonderful city and the communities around. What the ladies of this land are most interested in are the short-cuts, the quick, certain, positive, the shortest route to perfection in that highest and most important master art, cooking. I am happy that I have many solutions to meet all of their desires."

The public is cordially invited to attend all sessions of the Record Cooking School to be held on June 1, 2, and 3 inclusive at the American Legion Hut. There are no obligations of any kind.

RETURN FROM SAN SABA
Battling highways flooded by several inches of rain, C. A. Wilkins and Robert Coffman of the Colorado High school faculty returned Tuesday night from their fishing trip to San Saba. They were joined in Brownwood by Mrs. Wilkins and Sonny, who had been visiting in Stephenville while the men were in San Saba. Mr. Coffman went from here to his home in Potosi, near Abilene. Mr. Wilkins and Mr. Coffman have been fishing at San Saba for years and have never failed to get caught in torrential rains.

ON PLAINS TRIP
Mr. and Mrs. Jim Cawthron left last Friday for a two- or three-weeks trip to various points on the Plains. Mr. Cawthron is making the trip in connection with his work for the Ponca Wholesale house. Their son, Kenneth, is remaining here with his grandparents, Mr. and Mrs. Burt Smith.

LEAVING ON VACATION
Mr. and Mrs. J. L. Bowen left Thursday morning on a three-weeks vacation trip. Mr. Bowen will spend the time in his old home-town, Alabama City, Alabama. Mrs. Bowen will visit relatives in Dallas, Sherman, and San Antonio.

VISITING IN BROWNWOOD
Mrs. Monroe Henderson and daughters, Mildred and Frances, are visiting Mrs. Lee Earp and other relatives in Brownwood this week. Mrs. Henderson will attend an old school-mates' reunion at Jenkins Springs May 29, 30, and 31.

WELL PLANNED LECTURES WILL FEATURE COOKING SCHOOL SLATED HERE JUNE 1, 2, AND 3

"Beauty is the ear-mark that God gives to virtue" is a statement to be found in the literature sent out by Miss Jessie Hogue, lecturer and noted cooking school leader, who will conduct the coming cooking school in this city starting on June 1, 2, and 3. The quoted statement above is written in connection with many other things of interest to housewives who are interested in better and more artful cooking. Further on can be found: "We need not power nor splendor; wide hall or lordly dome; good cooking, if modern and tender, is the happiness cornerstone of home."

All through the sessions of the school emphasis is pinned upon simplicity, yet the beautiful, completeness, but every short cut to save time, worry and vexation; good style and fashion, because the old apple pie can be given many new dresses; romantic, in that it offers many a thrilling discovery and many a satisfaction of seeing that the job done is far beyond the ordinary filled with hints on modern ideas about home-making and house-keeping, yet each one fully explained, in a language that is easy to listen to and to fully understand. Neighborly in its very fashion, and friendly in its very nature.

Miss Hogue claims that "friendly talking is the golden chain that holds the human family closely together,"

most particularly that part of humanity who manages the home—the housewife. So, in her own words "The sessions of the coming cooking school will be spirited with neighborliness plenty, friendliness that will be thoroughly enjoyed by all, and usefulness, in that every problem of the home-life-happy-kitchen experiences will be discussed with a frankness, and post graduate authority that all who visit the school may profit well.

The oft repeated fact that this cooking school is seat-free to every housewife in this city and surrounding communities, cannot be stressed too much. It is free. You and every one are invited, and you are doubly welcome.

Mr. and Mrs. Ed Majors plan to leave Sunday for Denton to get their daughter, Mabel Ratliff, who is a student in C. I. A. They will attend commencement exercises Monday morning to see Mabel Ratliff hood her Big Sister.

REDUCED FARES ON BUS TRIPS IN EFFECT SOON

Mr. A. F. Baldus, general traffic manager of Southwestern Greyhound Lines, Inc., has announced that on June 1st special Centennial excursion rates will be put into effect to the following Texas cities: Dallas, Fort Worth, San Antonio, and Austin. These special Centennial excursion fares will be lowered to one and one-half times the regular one-way fare for round trips. This reduction represents a substantial saving to all of these principal Texas cities where Centennial celebrations will be held. The special Centennial excursion fares will be on sale daily until November 29th and will have a return trip limit of thirty days.

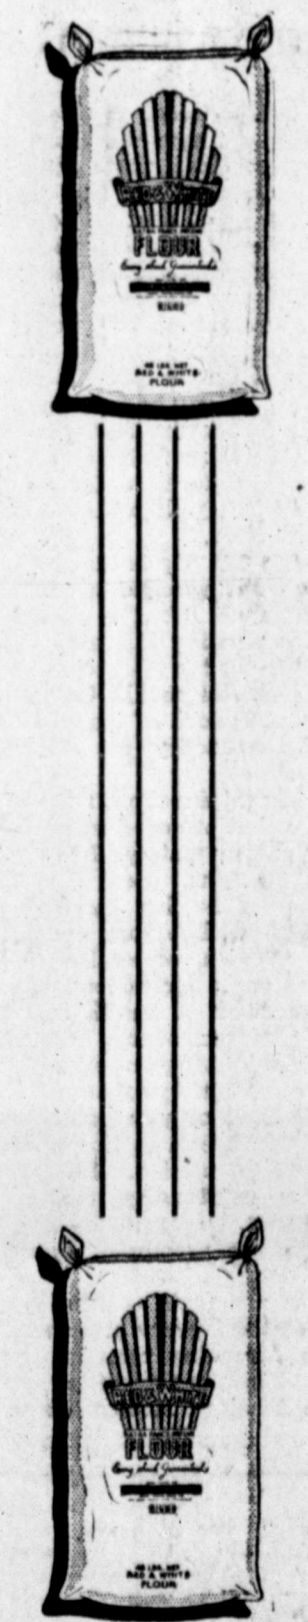

Mrs. Jim Hale says she will attend the Record cooking school at the Legion Hut next week. She speaks highly of the school held by Miss Hogue last year.

Milk Is Essential
In Health, States
Expert In Cookery

'Drink One Quart Every Day For Health,' Is Suggestion Offered By Miss Hogue

One of the most vital things in the family life of any community is a good supply of milk. But constant vigilance is necessary to protect this supply. It is also necessary that you know and realize just what an important part milk as a food plays in your life.

As a food milk contains all the nutritive compounds necessary for a growing child in the correct proportion of a scientific diet. It is one of the most digestible of all animal foods and, with other dairy products, forms over 22 per cent of the great American diet.

Milk constituents, as with other food material, may be classified as fat—carbohydrates—proteins, vitamins and mineral content. It is especially valuable as a food for under-nourished children and invalids. Health authorities everywhere recommend a liberal use of milk, urging the consumption of at least a quart per day per person.

And of course, there is no age limit for drinking milk. Because it is so good for children, many have the notion that it is just "kid's food." Nothing could be farther from the truth. Recent medical discoveries by the foremost nutritionists have established the fact that milk is perhaps the finest food that an adult can have. They have learned that milk is Nature's most complete food, containing 34 of the 36 food elements which we need to keep healthy—proteins to build and repair tissue—the right fat for fuel—sugar for energy—vitamins and mineral salts.

Continued lack of any of these essentials often forms the starting point for many middle age diseases. Milk brings balance to meals by supplying the things that so many diets lack. It promotes a clear mind in a health body.

Plenty of pure country milk with meals is one of the safest health-habits that can be formed. For many of us these are times when we must make an effort if we are to balance the family budget. We must remember one thing. More than at any other time, perhaps, we must keep health as our first consideration—particularly the health of our children.

We urge mothers, especially to study the way in which milk can help them to do this.

Lecturer Outlines
Practical Uses Of
Baking Powder

Miss Hogue Suggests That Accuracy Be Practiced In All Cooking Plans

Miss Jessie Hogue who is conducting the Colorado Record Cooking School, says that for best results in baking it is a good plan to follow these simple rules:

Use the amount of baking powder recommended on the can. Because of the high strength of K C Baking Powder which she is using in the cooking school, only one level teaspoonful should be used to a cup of well sifted flour for most recipes. This is equivalent to one heaping teaspoonful to a quart of flour.

Careful measurement is very necessary as using more or less than a recipe calls for will not produce best results.

Another secret of good baking is to be sure that the baking powder is thoroughly mixed with the flour and other ingredients. The more thoroughly the baking powder and flour are mixed before you add moisture, the better your results are likely to be. Sift three or four times.

For biscuits, make a smooth dough that can be handled without sticking, and bake in moderate oven. For cakes, have your oven slow to moderate at first, until the cake is fully risen; then increase heat so as to just brown lightly.

Miss Hogue says that K C, the brand she is using in cooking schools, is manufactured by baking powder specialists who make nothing but baking powder—controlled by expert chemists of national reputation. It is always uniform in quality and can be relied upon to produce for you, the kind of bakings you will be proud to serve.

Try the following choice recipes:

- K C EVERYDAY WHITE CAKE
- 1 cup butter (4 oz.)
- 1 cup granulated sugar (8 oz.)
- 1/2 cup milk
- 2 cups flour (8 oz.)
- 2 level teaspoonfuls K. C. Baking Powder
- Whites 3 eggs
- 1 teaspoon vanilla extract
- K C BAKING POWDER BISCUIT
- 2 cups flour (8 oz.)
- 2 level teaspoonfuls K C. Baking powder
- 4 level teaspoonfuls shortening (2 oz.)
- About 2/3 cup milk or water
- 1/2 teaspoonful salt

Record Kitchen Chats

By Miss Jessie Hogue

Everyone knows that the person with lots of vitality gets ahead faster—has more fun out of life. What we eat has a great deal to do with the Vitality we enjoy! Here's an interesting fact; the largest need of our diet is for endurance energy and science now reveals that bread is our outstanding energy food!

Bread is economical. It furnished necessary energy at low cost. It is such an important food that it can well supply from 25% to 40% of the total energy needs of the body, and still permit a well balanced diet for good nutrition.

Beauty and the capacity to enjoy life, are not possible without abundant energy. Bread is an important food for meeting this essential body need, efficiently. Instead of being avoided, bread should be the prominent energy food of the diet for that endurance energy so essential to vitality.

Bread contains from fifty to fifty-five per cent of carbohydrates, which supply energy mainly. Bread also includes proteins, used for building muscle and helping daily repair of body tissue. Everyone needs energy food. Women, especially should remember that; for no one can enjoy the full glow of health and beauty without proper energy nourishment. The strictest program of weight control requires energy food, as does the hardest kind of physical effort—the only difference is in the quantity of energy food needed. So bread, being our outstanding energy food, should not be avoided—but should serve as the prominent energy food of the diet.

These are facts verified by noted scientists and every statement made in the foregoing remarks has been accepted by the Committee on Foods of the American Medical Association.

HOW CAN KITCHEN KICK?

The question, "How Can a Kitchen Kick" is often put up squarely and sincerely to Miss Jessie Hogue, the cooking school lecturer, who will be in this city very soon now, under the auspices of the Enterprise, to lead the cooking school, which delves into the intricacies and secrets of how the average housewife can get the most happiness out of her kitchen. "In the first place," prefaces this noted lecturer, "we are not talking about mules when we apply the word 'kick' to the kitchen. Nor are we making any references to a disagreeable scene occasioned by the failure of a wife being in possession of these secrets that make it possible for her to overcome obstacles that make for unhappiness. Such notions and facts can be obsolete to the daily life of the average housewife. "The Daniel Webster meaning of the word 'kick' is: To strike with the

foot, like a mule; or to offer objection to, like a hard to please husband; or to kick over the traces like an unreasonable wife.

"The use I have for bottles these days is to keep handy many cooking necessities, as fruit juices, etc., but the slang expression, just the same, that is used with reference to getting a 'kick' out of something good, constructive and happy-minded, like kitchen-happiness, come from the old street parlance with the above-mentioned meaning. The meaning, by common usage, has evolved into respectability, however, and many housewives have taken the word into their ordinary, every-day vocabulary, and make good use of it.

"So there is many a 'kick' that does not come from the bottom of a bottle and truly, a kitchen can kick. What a 'kick' a happy kitchen can give to the average housewife when

she learns the many little surprises and hints offered in the cooking school—about how to form and fashion foods that are appetite-teasers and happiness clearing-houses. And that's how a kitchen can kick."
