## Simplicity Marks Marriage Of Miss Allie Merrell To Mr. Robinson Of Fort Worth

Marked by simplicity, the marriage of Miss Allie Merrell of Colorado and Fort Worth to Mr. Lowell Ellis Robinson of Fort Worth took place Sunday morning at 9 o'clock at the home of the bride's mother, Mrs. Mattie Merrell. The Rev. O. C. Wright of First Methodist church said the ceremony.

Giant spingiera ferns decorated the porch of the Merrell home and flanked the improvised altar in the living room. The altar was formed by arranging ivy over a curtained window, the ivy branches trailing gracefully to the floor from the window top. The ferns stood on either side of the window. Red and pink roses in vases were other decorations in the living room.

As a prenuptial number the bride's pieces, Jonelle and Marguerite Flanken of Lamesa, sang "I Love You Truly" with their mother, Mrs. J. R. Flanken, sister of the bride at the piano. Mrs. Flanken also played the wedding music by Mendelssohn.

The bride entered with her brother-in-law, J. R. Flanken of Lamesa. She wore a jacket frock of navy blue crepe with matching shoes, hat, and bag. Her gloves were white and she wore a belt corsage of red sweetheart roses and gypsophila. Mr. Robinson was attended by Fred Flanken of Lamesa, nephew of the bride. The ceremony was said.

The mother of the bride wore a corsage of orchid gladioli and ferns, the gift of the bridegroom.

Immediately following the ceremony the wedding cake was cut and served with coffee. The cake, iced in white with pink rosebud decorations, stood in the center of the dining room table, which was covered with Irish lace over rose. The cake was surrounded by a wreath of deep cream rosebuds, pink rosebuds, and cream snapdragons. It was cut by the bride with a silver knife to the handle of which rosebuds were tied. The buffet, in the dining room, covered similarly to the table, was centered with a green jardiniere filled with pink rosebuds. Other dining room decorations included a large basket of asparagus fern, lantana, zinnias, and lilies, a 40-year-old novelty case filled with zinnias, and pot plants.

Mr. and Mrs. Robinson left after the cutting of the cake for a week's wedding trip to unannounced points. After Sunday they will be at home at their lodge, A1-O-Well, on the shores of Lake Worth.

The bride is well-known in Colorado, having been reared here and having received her early education in the Colorado schools. Her father, the late W. M. Merrell, was a prominent pioneer settler of Mitchell county. Mrs. Robinson attended S. M. U. in Dallas and T. C. U. in Fort Worth. For the past six years she has been teaching in the public school system, a position in which she will continue this coming year. She has spent the summers here with her mother.

Mr. Robinson is the son of Mr. and Mrs. Verner Robinson of Fort Worth. He is business manager of the Worth Garment company in Fort Worth. During his boyhood he spent several years in Post.

## Rural Clubwomen Give Brief Review Of Amusing and Instructive A. & M. Trip

Still teasing each other about their "breaks" during the opening days of the Short Course at A. & M. last week and proud of the widened knowledge which is theirs as a result of the week, four Mitchell club women demonstration club women and a 4-H club girl returned Saturday and Sunday from A. & M. with their county home demonstration agent, Miss Emma Gunter.

The women themselves compiled this brief resume of the amusing and instructive things that came their way during the week:

"Delegates attending the 27th Annual Farmers Short Course at A. & M. College this year had a chance to see many interesting things en route to Bryan, as some attended the Centennial while others visited in Austin and saw the capital and the University. The hill section of Texas could have been seen at no better time than now, all fresh and verdantly green with the lovely trees and green pastures.

"No one seems to know why or how W. W. Porter of Colorado found his way to A. & M. But he was seen last listening to Dr. Hurley of the State Health Department give a talk on 'Social Security As It Is Being Administered in Texas.'

"One who has been to South or East Texas can appreciate this remark from Mrs. Edgar Andrews of Hyman, 'My look how high the water got in these trees.' She referred to the native moose hanging from the trees.

"A big ha-ha also came when Gwinda Mearse of Valley View reached Bryan and remarked: 'I don't know what it is but look how sticky I am. I believe I need a bath, but I just took one this morning.'

"Judging what was said by Mrs. F. H. Pace of Fairview club, her most used articles were: A fan, a drinking cup, an umbrella, a powder puff, a pencil and a handkerchief. Also, Mrs. Pace learned over how to walk.

"When Mrs. Ray Knight of Iatan was asked how she enjoyed the bus trip down she remarked, 'Have you ever ridden a bucking horse?' She longed to have her new Plymouth car but since it was 400 miles away she just took the 'bucking bus' back in at 1 a. m.

"Perhaps Mrs. Roy Howell of the Plainview club saw more and couldn't tell you more about the 640-acre campus of A. & M. than any of the other delegates since one of our local vocational agriculture boys, Jewel Daughtrey, is a Junior at A. & M. and took Mrs. Howell about over the acres. She specialized in dairy products."

**JUDGE AND MRS. LESLIE HOME**

Attendance at The University Centennial Exposition now in progress at Austin is growing daily and the average attendance has surpassed all expectations. Interesting exhibits of geology, zoology, botany, anthropology and history make up The University Centennial celebration. All exhibits have been built to take a permanent place in the Memorial Museum upon completion of the first unit.

Demand for Centennial Coins has greatly increased since the opening of the Central Exposition at Dallas, according to Beauford H. Jester of Corsicana, general chairman of the campaign to dispose of the commemorative half-dollars, proceeds from which sale go to help build the first unit of the \$1,000,000 Texas Memorial Museum.

The botany exhibit in The University Centennial Exposition was recently enriched with the gift of a large collection of tropical water lilies. The donation was made by A. J. Proebstle of Brazoria, Texas.

## THE COLORADO THAT USED TO BE 25 Years Ago 15 Years Ago

### 25 YEARS AGO

Election results on the prohibition amendment took up the entire front page of the Colorado Record for Friday, July 28, 1911, twenty-five years ago. The amendment was defeated by less than 5,000 votes in the state. Mr. and Mrs. W. P. Ruddick were off on an extended visit to the north. Mrs. E. Keathley and sons were visiting her parents in Stephens county. Mrs. D. N. Arnett and daughter, Nell Ruth, had spent a few days in Old Mexico and in Clouderoft. After a visit with "home folks" Horace Shaw had gone back to Fort Worth. San Shaw was home after a visit in Hillsboro. The Y. D. McMurrys were home from a California trip. Ed Jones was riding in his own automobile. Mrs. T. J. Ratliff and Mrs. M. C. Ratliff had spent a day fishing and picnicking in the country.

Mrs. A. J. Payne was spending the week in Sweetwater on lodge and church business. Rev. and Mrs. Simeon Shaw and two of the little Shaws were attending the Lake Shore assembly at Wichita Falls. Mrs. Brooks Bell was stopping at the Hotel Galvez in Galveston and was to be home about August 1. Walter Whiskey had been in Big Spring on Wednesday to "pitch ball" for the Big Spring boys. ### 15 YEARS AGO

The enrollment of a limited number of under-age children for the Colorado school term fifteen years ago was authorized in a statement made by E. F. King, superintendent of schools, and published in the Colorado Record for Friday, July 29, 1921.

## CHURCHES

**FIRST BAPTIST CHURCH**  
We are at Roscoe in a revival this week. We are having large attendance and beginning to have visible results. I expect to be at home for the morning service next Sunday and Brother James Easterwood, pastor at Roscoe, will preach at the evening service.

**ABOUT THE ELECTRIC ORGAN**  
The Shield Company, of Fort Worth, installed a Hammond electric organ in the First Baptist church last Tuesday afternoon. We had really not expected delivery for several days. There was only one organ in stock at Fort Worth, the factory being about a month behind with production, and a special delivery stamp on our letter gave us the margin over the First Baptist church, Breckenridge, which had an order in the same mail. Otherwise we probably would have waited until October or November for our organ.

Mrs. R. B. Terrell, and the Primary Department of the Sunday school, had the honor of paying the first \$85 to the fund, the remainder to be paid by friends whose names we are not permitted to divulge at this time. We all feel very grateful to those who have so graciously made it possible for us to have the organ. We expect to dedicate it to the Master, and use it for His glory and for the furtherance of His cause. A fuller statement will be made later in which rules governing the use of the organ will be made known. Until such rules can be formulated we shall think of the instrument as belonging to the church in the same sense as the several pianos now in the building, and available to those who play for different departments and for different occasions of worship. The rules when formed will cover the matter of taking organ lessons, teaching, practice hours, etc. We hope Mrs. Meskimen or some of our pianists will have opportunity to practice enough this week to be able to use it for the next Sunday services.

You will confer a great favor on the pastor by not asking him to tell who the donors are. Unless he, she or they decide to make known their identity it must forever remain a secret. If they so desire their request shall be respected. If later they decide to make it known either personally or through the pastor or otherwise, we shall be glad to ascribe to them the earthly honor so richly due them. But in the meantime we thank God for their liberality, and pray that spiritual blessings shall come to them commensurate with their unselfish kindness.

## Air Conditioning Assures Pleasure For The Traveler

### Western Railroads Offering Comfort In Crossing The Hot Sections Of America

CHICAGO.—The long, hot reaches of the Western desert country no longer bring perspiration to the traveler's brow. The railroads have solved the problem of summer travel in the desert country—air-conditioning.

This year air-conditioning will be one of the primary factors in an increase in Western vacation travel. These statements were made here today by Harry G. Taylor, Chairman of the Western Association of Railway Executives.

In making his statement, Mr. Taylor pointed out that the Western Railroads have \$27,000,000 invested in air-conditioning equipment of all classes. He said: "We have a tremendous investment in air-conditioned cars, but we feel that our investment will justify itself in increased travel."

Mr. Taylor's report showed an increase of nearly 50 per cent in the number of air-conditioned cars now in service. For 1935 the railroads and the Pullman Company operated 2,500 cars, representing an investment of \$19,000,000 on the Western Railroads. At the present time there are 3,669 cars of all classes being operated as air-conditioned units in the western territory. The increase means, according to Mr. Taylor, that the "hot train" has virtually been eliminated from first class travel.

He said: "Travelers no longer need fear the excessive heat of a cross-country train ride. The air-conditioned cars make the trip with less than a two per cent variation in cool temperature. And more, hay fever and asthma sufferers can be assured a safe haven on the sealed, air-conditioned cars, for the pollens of the goldenrod, the rag weed and the rose are all taken out of the air that is filtered and purified before being released in the cars."

Mr. Taylor also pointed out that the Western Railroads were proving the workability of air-conditioning on a large scale. He added: "The progress made by the railroads in air-conditioning has founded a new industry, and the work provided by the tremendous sale of air-conditioned equipment has given the industry the necessary life blood of business to keep it going."

### UNCLE VISITS HERE

Mr. and Mrs. Austin Bush had as their guest from Wednesday until Monday Mrs. Bush's uncle, S. N. Petty of Paris, Tennessee.

Advertising has established values and confidence.

Considering how fine this railroad transportation is nowadays, you can't travel any cheaper. Fares lowest in history—substantial savings on round trip tickets. So why not take the train? It's safer. It's more dependable.

You can't beat the improved travel comfort in coaches and sleeping cars. It's a good thing movies don't have such restful seats—most folks would sure fall asleep.

Ever hear about the new Free pick-up-and-delivery of less than carload freight? It's a great convenience to shippers and receivers alike. Western railroads pick up at the door, ship by fast freight, and deliver to door at no extra charge.

Railroad trains are running on faster schedules these days. Seems like the iron horse wants to show these new streamlined diesels that he can step out, too. Both passenger and freight schedules have been speeded up.

What's more, the railroads believe in "safety first." Last year not one passenger was killed in a train accident on western railroads.

Talk to your local railroad agent. He's full of information about traveling and shipping.

We are proud of railroad achievements, appreciate the public's good will and increased patronage, and pledge continued progress.

**BODINE CALLS \$235 JERSEY COW 'CHEAPEST' ANIMAL**

The "cheapest cow I ever bought" is the way Jim Bodine, Buford dairyman, describes "Mescal's Fern," for which he paid \$235 when he began building up his dairy herd nearly seven years ago.

Fern is pictured in Mr. Bodine's advertisement in this issue of The Record. She has, Mr. Bodine says, paid for herself many times over. She is a registered Jersey cow No. 709443 and he bought her from E. W. Bradley of Dublin, well-known

dealer in registered cattle. From her a herd of fine milch cows has been developed. Fern has fifteen descendants in Mr. Bodine's herd of twenty-two registered Jersey cows. She herself has borne five heifer calves, two of which were twins. Mr. Bodine's dairy plant includes the most modern sanitary milking equipment. He uses scientific feeding methods and the milk products of each cow are weighed and tested regularly.

Mr. Mahon has made this newly formed district a good representative and there is very little criticism of his record in Congress.—Dawson County Courier.

That fine young congressman, George Mahon, is now making a hurried canvass of his district, asking the people to re-elect him. The chances are that they will re-elect him and will continue to re-elect him by overwhelming majorities for many years. George Mahon has made a fine start in congress. He has not shot off any glaring fireworks, but we are glad he hasn't. He has been putting in his time getting onto the ropes, studying the problems, involved in matters of legislation, and looking after the interests of his constituents. And he has gone along in the even tenor of his way winning respect and the esteem of the older members of that body, laying the foundation for a great and influential career. We do not know whether he has voted right every time or not. We are persuaded that he has voted right most of the time. And we are sure that he has been honest, industrious, and intelligent in the performance of his duties. If we will keep George Mahon in congress, the nineteenth district of Texas will wield a mighty power in shaping the legislation of this country after awhile. — Lynn County News. Three Bandits Take Whiskey and Cash After Tying Man and Wife To Bed

Three bandits, two of them masked and armed, robbed Floyd's Place No. 2, east of Coahoma, Monday evening and escaped with a quantity of liquor and \$36 in cash. Entering the place at 9:45 p.m., two of the men ordered E. L. Gregg and his wife, Lazelle, into the back room and made them lie face down upon the bed.

The cash register was cleared of about \$28 and the bandits took approximately \$8 from Gregg's pocketbook. When Gregg attempted to steal a glance at one of the robbers, another rapped him over the head with the butt of a pistol, he told members of the sheriff's department.

After loading 200 bottles of whiskey into a waiting car, the bandits ripped the telephone cord away and lashed Gregg and his wife to the bed. It was more than 10 minutes before Gregg was able to free himself. With the telephone out of order, he had to catch a ride to Coahoma to report the incident.

The place was owned by Floyd Thomason and operated by Gregg. Besides the money and liquor, the robbers made away with a suitcase, a double barrel shot gun and an old pistol.

## Robbery Charges Filed Against Four In County Court

Coke County Citizen Claims To Have Been 'Taken For A Ride,' Relieved Of Cash

Charges of robbery were filed against Georgia Mitchell, Grace Mitchell, "Fuz," Cawthorn and "Blackie" Hall in County Judge B. L. Templeton's court Monday morning as the sequel to alleged robbery of John Kimmermer of Coke county the night before.

In statement to the officers Kimmermer alleged that he made a date with one of the women Sunday night. In company with others of the party he was driven to a lonely spot near the Colorado river west of town, where the robbery is claimed to have taken place. Kimmermer stated that he was relieved of \$36.

All four of the accused made statements when arraigned before Judge Templeton Monday morning, officers state, in which their participation in the affair was admitted. The two men and women were arrested by Police Chief Hickman. Their bonds were set at \$750 each.

The Mitchell women, aged 23 and 25, gave Ranger as their home. Local officers stated Thursday they had been in Colorado several days. The men accused are operators of a small eating establishment here.

## THEATRE NEWS

By SHERMAN HART, Asst. Mgr. "LAUGHING IRISH EYES" Thursday—July 30th

Merry little comedy in which action, romance and song are neatly intermingled, resulting in pleasingly wholesome entertainment with a particularly strong appeal for family audiences. The cast is headed by Phil Regan as a singing blacksmith in Old Erin. Regan is selected by an old fight promoter as a real fighting Irishman, one who will restore the lost prestige of the Irish-American Club in New York. The promoter's pretty daughter, romantically interested in the boy, gets him a spot on a radio program. After many amusing complications, the big boat takes place in Madison Square Garden and although Regan loses the battle, he gets a long-term air contract and the girl. Players are Phil Regan, Evalyn Knapp, Walter C. Kelly, Ray Walker.

"THINGS TO COME" Palace—Friday and Saturday July 31st and August 1st

A courageous picturization of a man's philosophy, conceived and executed on a really massive and impressive scale. The story revolves around an underground city of an imagined civilization of 100 years hence. It opens in London in 1940, just as another World War flares. With the entire world in ruins, its population decimated by a plague, survivors have reverted to near-savagery, desolated nation warring on desolated nation. A group of scientists and airmen band together and finally restore peace and bring about a higher civilization.

"CAPTAIN JANUARY" Palace—Saturday Midnite, Aug. 1 Sunday Only, August 2

First rate entertainment with little Shirley Temple surpassing her previous efforts. She is rescued from the sea by Guy Kibbee, an illiterate old salt, a lighthouse keeper. He tries to educate her with the aid of Slim Summerville, a government inspector. Sara Haden, school inspector who sees her sing and dance for the entertainment of wharf loafers, insists upon school examinations. Shirley passes them while Guy and Slim suffer agonies of fear. It all ends with Shirley in the lap of luxury and Guy and Slim with good jobs on the rich relative's yacht.

"DEVIL'S SQUADRON" Palace—Monday Only, August 3

Five test pilots risk their lives to perfect a super-airplane. Richard Dix, who plays one of them, falls in love with the daughter of one of the plane's backers. Several of the pilots are killed during tests and Dix is unjustly accused responsible through negligence. He takes the last of the test ships in a spectacular flight that proves the worth of the plane. He gets his girl after being absolved from all blame and everything is hunky-dory.

"THE WALKING DEAD" Palace—Tuesday and Wednesday August 4 and 5

## District Relief Commission Chief Gives Information Relative To New Program

The following information relative to the new Texas intake program is furnished this newspaper by C. J. Sweeney of Abilene, district administrator, Texas Relief Commission:

"Under an arrangement entered into between the Federal Works Progress Administration and the Texas Relief Commission, applications will be taken from needy unemployed persons for employment with the WPA. Applications will be taken at the various County Welfare offices and passed on to the WPA district office for final acceptance or rejection. This last duty is one that will be handled by a special staff of workers who will do nothing else. From the application blanks, they will gather data that will establish the actual need of applicant, and when accepted, the persons will be advised directly. Calling at the local or district offices to find out what is being done, or what will be done, is discouraged. The applicant is urged to await notification.

"The employment of a person is based upon need. This fact has been overlooked by many persons who think the new program is to give employment to everyone needing a job. The quota of jobs in Texas has been set at 31,000, and it is anticipated that at least 185,000 applicants will have applied for them. Consequently, some disappointments will naturally be in line and it is requested that only those who are in dire need make application.

"The Texas Relief Commission is placing seven full time case workers back and in the smaller counties where the local welfare workers have been working part time, their present salary will be supplemented and full time allowed. The taking of applications, which will be followed by home visits and other procedure to verify statements, will naturally be slow due to the limited personnel. But everyone will be allowed to make application, sooner or later, as the program will last several months, and there is no need for crowds to assemble at the various offices.

"All county judges have been fully advised of this new program and it is felt that through their cooperation and assistance the work will be accomplished with the least possible delay. We now request the general

QUESTIONS THAT ARE ASKED ABOUT BANKING How can I build up my credit at a Bank? SIMPLY stated, bank credit is the faith a bank has in a given individual, or business firm, to repay a loan at a specified time. Character is the foundation of every good credit rating. Reputation for good business management, for paying bills promptly, and for "making your word good" is essential. It is desirable to be a depositor in the bank where you wish to establish or build up your credit. An adequate balance should be maintained, and your account should not be overdrawn. Good credit references are helpful. Loans should be met promptly on due date. These are some of the essentials we recommend to any person wishing to establish or build up his credit rating at our bank. The City National Bank

Coach Not Yet Named**

The Wolf machine for 1936 is to start its career on August 24, at 3 o'clock in the afternoon, as veterans of other days and such recruits as may be available are brought before their new mentor, Jack Christian, on Cantrill field.

Christian stated here Tuesday that he had concluded plans for opening the football season in Colorado this fall. The coach, however, did not offer any statement for publication as to what he would expect of his team. He did suggest that cooperation of the public was just as important in the realm of football as it was on the team.

Christian recently returned from Camp Stewart, where he spent his vacation in training for the task that awaits him in Colorado. He is to attend coaching school in Fort Worth from August 3 to 10 and will then return to Colorado prepared to give his entire attention to details having to do with organization of his charges and entering conference contests of the district.

Christian stated that his assistant coach had not been designated and "this may not be done until September 1," he said. The Wolf mentor offered no clue as to whom he had in mind.

**Whipkey Notes Appreciation  
To Election Judges, Other  
Citizens For Assistance**

Cooperation given The Record Saturday night and Sunday morning by election officials and other citizens in every voting precinct of the county was unstinted and noted with sincere appreciation, Walter Whipkey, publisher of The Record, stated upon his return to Colorado this week from a trip to the East.

"We appreciate very much the universal assistance given this newspaper in gathering returns from the Democratic primary election," Whipkey declared. "This newspaper, however, has ever found such splendid response from the people of Mitchell county, an important factor that has gone a long way in making these election parties successful."

J. A. Buchanan, chairman, and other members of the Mitchell County Democratic Executive Committee, county and precinct officials were also mentioned in list of those citizens who had given cooperation to The Record in gathering and posting the returns. Efficient service was offered by the Southwestern Bell Telephone company in handling long distance calls, both in and out of the newspaper office Saturday night.

**HUNDREDS ATTEND RECORD  
'ELECTION PARTY' HELD AT  
COLORADO SATURDAY NIGHT**

**Voters Stay Up Until Late  
Hour As Returns Received  
and Posted On Unofficial  
Bulletin Board**

Several hundred Mitchell county citizens representing several communities converged at Colorado Saturday night to attend another "election party" given by publisher of The Record. Many of the citizens remained in the street watching ballot results from the county, district and State contests until the party was closed at 1:30 Sunday morning.

The large, interested throng that stood for hours from one side of the curb to the other and over practically one-half of the city block, had not been expected by sponsors of the affair. Lack of interest in the democratic primary election, as had been reflected by voters throughout the county, had impressed that the election party this year would be considerably smaller than those in former years.

Results in some of the contested races were known within three hours after the polls had closed. There were others that could not be determined until belated election reports were received Sunday morning. Election judges and other citizens in all of the voting precincts extended every cooperation to the newspaper in gathering the returns.

The first report to be received came from Colorado, precinct 1, at the court house. Box No. 12, at the American Legion building, was the next to be heard from.

So large did the crowd become that the police blocked Walnut between First and Third. A loud speaker, furnished by the chamber of commerce, was used to make announcements relative to the congressional race and voting over the State on various candidates.

**These Mitchell County 'Amateurs'**

Behind-the-scenes stories of prize winners at the weekly Chamber of Commerce "Amateur Hour" at Ruddick Park

Believing that those Mitchell countians who attend the Chamber of Commerce "amateur hour" at Ruddick park each Friday evening may be more than a little interested in the stories behind the winning numbers, an inquiring reporter set out this week to get some facts about the "private lives" of last Friday night's winners—De Vada Barber of Colorado and little Joan Hamilton of Butler camp.

De Vada's tap-dancing on roller skates and little Joan's unusual reading both brought down the house—or would have if there had been a house to bring down. Judges who act as "applause indicators" during each "amateur hour" strained their ears in vain to decide whose applause was greatest.

They wound up by calling it a tie and splitting the prize money between De Vada and Joan, although 17-year-old De Vada wanted to step aside in favor of 6-year-old Joan.

The idea of De Vada's doing a tap dance number on roller skates came from her father, R. H. Barber, who proceeded to coach her in executing such a number. De Vada, who was graduated from Colorado High school last May, has been skating for several years, but has only been studying tapping a month and a half.

She practiced on the winning number only a week and didn't go through it with Mrs. W. R. Martin, her tap dancing teacher, until 30 minutes before she went on the band shell stage Friday evening. Her performance was without a bobble, and she threw in some rope-jumping and some back-bending for good measure.

As for De Vada's private life—she is the oldest child of Mr. and Mrs. R. H. Barber. Born in Coleman, lived there and in Douglas, Arizona, and in Strawn before moving to Colorado when 2 years of age. Has been through 22 states, ranging from Indianapolis on the east to the Pacific on the west and to Utah and Wyoming on the north. Does athletic stunts around home but nowhere else—much. Wants to be a chemist and will study that when she goes to college, which may not be this year because of her youth.

Incidentally, she's the second Barber offspring to win a place in these park programs. . . . Week before last Billy Barber, 15, put on a winning act with his registered toy screwtail. Lum, just for comedy relief in the program and with no idea of competing for the prize.

Lum, during his seven months or so in the Barber household, has developed an unbreakable habit of turning his nose up and howling to the high heavens when Billy practices on his cornet, or when he plays on his double harmonica. . . . Habit held true and he howled so satisfactorily before the park audience that he won for his master second place.

Little Joan Hamilton came out on the Ruddick park band shell stage Friday night under somewhat of a handicap. She was a "child reader" and lots of people squirmed at the thought of hearing some fond mother's much-coached child "recite."

But little Joan turned out to be different. Without a trace of self-consciousness in her actions or her voice she proceeded to give a spirited account of "The Daffodils at the Circus" in such a way that the early squirmers were the first to applaud when she finished. Hers was no "recitation."

There hasn't been much of Joan's "private life" so far because she hasn't been here but 6 years. . . . She's a native Mitchell countian, her father having been employed by the California company at Butler camp for 8 or 10 years. . . . Has a brother named Jack, Jr., and they often appear on programs together. . . . Jack plays the piano and the guitar and also reads. . . . Both Joan and her brother take piano lessons and expression with a little dancing thrown in from Mrs. J. H. Guitier in Colorado. . . .

She's going to have a grand singing voice, too, according to those who have heard her. . . . She goes at living the same way she goes at reading—with utter self-confidence and plenty of vigor. She's a favorite at school in Westbrook and among the Hamilton neighbors at Butler camp.

It has been through the endeavor of a united people that Colorado and Mitchell county has realized the facilities of Ruddick Park, one of the attractive community play grounds in Texas, Chief Justice W. P. Leslie of the Eastland court of civil appeals declared during an address before several hundred people at the park amphitheatre Friday evening.

"I have realized for many years that here in Colorado the attorneys, the business men and the ministers cooperate together more sincerely and effectively than in any city of which I know," Judge Leslie said.

The jurist, for many years resident of Colorado, was speaking before a crowd that had gathered there to hear the weekly amateur hour program. Congressman George Mahon was another speaker to be heard.

**PROJECTED HIGHWAY WILL  
NOT BE REALIZED SO LONG  
AS PUBLIC CONCERN LACKS**

**C-C Secretary Appealing For  
United Citizenry As Drive  
For South Highway Enters  
Another Week Of Effort**

Hopes of certain citizens at Colorado, Dunn, Snyder, Robert Lee and other points to realize completion of Highway 101 between Snyder and San Angelo may never be realized unless there is evidenced an aggressive, united support from ranks of the citizenry, Jim Greene, chamber of commerce secretary, told members of the chamber luncheon club Tuesday night.

Greene recalled that nothing worthwhile had ever been attained without an effort, "and there are times when it is more advantageous to fight than remain in a state of neutrality," he exclaimed. "Such a time is immediately in front of the people of this city and county right now. We must get in behind this highway project with all the power and enthusiasm that we may be able to command, if we would make use of an opportunity to bring a progressive stride into our day."

Greene outlined that delegations might be sent to Austin again within the next few days to again discuss the highway project with members of the highway commission. "And when you're called upon to assist in financing such a trip or to become one of the delegation, be loyal enough to your city and section to assume your liberal share with a smile," he appealed.

The program was in charge of O. H. Majors. Visitors introduced included Jack Christian, newly elected athletic director in high school; Congressman George Mahon, Lloyd Crossin and O. F. Jones. Greene gave report on the A. G. Carter banquet at opening of the Frontier Centennial exposition at Fort Worth recently. Lee Carter, chairman of committee directing the trades day features, urged Colorado merchants to manifest greater interest in these events, with special reference to the auction money sales.

Principal address was delivered by Mr. Mahon who gave interesting figures on the wealth, indebtedness, population and other data of the American republic.

Sam Wulfjen, Bill Oswalt and Bill Hague were appointed on the club program committee for August. Harold Bennett was appointed presiding officer for the month.

The entire yard should be well drained and free from standing water.

THE ELECTION 1873

Uncle Bill Kelis, editor of the Sterling City Record and this column writer both fought, bled and died in the Civil War. At least we were old enough to remember the carpet bag days of E. J. Davis and "nigger" rule. Uncle Bill gives a sketch which we reproduce for young democrats to read:

I can remember every general election in Texas since Lincoln was elected president on the Republican ticket. Having sold their negroes to the people of the South at a good profit, the people of the Eastern and Northern states set out to soak the people of the South by setting free the negroes that they had sold them.

As long as they owned negroes in the East and North, slavery was a mighty good thing. Didn't the Bible speak of slave owners and give directions how to treat slaves? Did not the Bible countenance slavery? Sure it did, and these people were believers in the Bible.

But after New England and the other states sold their slaves to the poor suckers of the South, slavery became a mighty bad thing. After they had gotten rid of their negroes they set out to make a lot of losers out of the people to whom they sold their negroes, so they organized the Republican party for that purpose.

Lincoln was the first Republican candidate for president. He was elected because the Democrats like a pack of suckers split their vote and got the end of the election. Lincoln being by birth and nature a Southerner, told the boys that the South had bought and paid the North for these negroes and that it would not be fair to free the negroes without paying for them. Lincoln got himself very much disliked for this idea of his. They wanted to take the negroes, make them free and set them over their former masters. "Time about was fair play" they argued.

The Civil War came on and the South went itself out whipping the North, East and part of Europe. I might add that if the breed of foreigners had been cut off, it would have been a fair fight. As it was the South had to fight the whole world and, of course they had to take their medicine, but history tells us that the "Johnny Rebs" gave the "Yanks" a run for their money. The "Yanks" spent enough money in that war to have bought every negro south of the Mason and Dixon line.

The fighting ceased when Lee surrendered at Appomattox. Notwithstanding, Lincoln had said that slavery must not be molested, he proclaimed freedom to the negroes and then a crazy fool who had been fed up by other fools murdered Lincoln which was about the worst thing that had been done during the war.

After placing a company of Yankee soldiers at every county seat in the South in the effort to enforce social and political equality as well as for purposes of revenue and plunder, the Republican congress met and proceeded to vote a pension to each Yankee soldier who carried freedom to the negro, misery, death and destruction to the white people of the South. These soldiers also saw to it that no Southern white man voted at the polls—only niggers, home-made Republicans and a class of hell-deserving loafers called "Carpetbaggers" were allowed to vote. They elected E. J. Davis, a homemade Republican for governor. It was then Texas got its first taste of Republicanism—Jan. 8, 1870 to Jan. 8, 1874—four years of unshirtd hell!

About the first thing that Governor Davis did was to wipe out the Supreme Court and put crooks like himself in charge. Then we experienced the novelty of having nigger legislature (you may yet see their picture in the capitol at Austin) nigger judges, nigger school superintendent, nigger sheriffs, nigger rangers, and nigger everything else. If a white man opened his chops about the way things were going, it would be just too bad.

Four years of nigger rule and Republican domination made the white people of Texas mighty sick, so in 1873 we put out a white man, Richard Coke, Democrat, gentleman and scholar for governor and he went in with a landslide. Golly, how glad we were to have a white man for governor again! E. J. Davis and his nigger cohorts and whiteskinned crooks were swept out of the capitol and decent white men ruled.

The memory of that four years of rotten nigger and Republican rule was like a horrible nightmare. To call a white man a Republican in those awful days was tantamount to reflecting on his maternal ancestors by saying he descended from a race which chased rabbits and scratched fleas with their hind diggers. It was an epithet that a man resented with a blow. You could call a man a mule-thief, crook and all round liar, but you could not call him a Republican and look healthy afterwards.

We hated the very name of Republican for more than a third of a century, but time is a great healer. As people from other states came and settled here, they brought their politics along with them. They were aware that Texas had suffered untold damage and unspeakable indignities at the hands of the Republican party. They understood our feelings as well as our attitude toward all Republicans and they respected us. They knew we were still sore because of the treatment we had received at their hands, and they did not blame us very much.

The descendants of those Republicans who had given us such a raw deal began to act decent and we began to respect and trust some of them, although we felt that we took chances when we did so, (politically). As time wore on, the younger ones had lost sight of the fact that the Republican party was a sworn enemy of the South. That the purpose of its organization was for the destruction of the South, and when the South lay bleeding at its feet, unlike the magnanimous Lincoln, it kicked us and heaped indignities upon us.

Lady's Painful Trouble Helped By Cardui

Why do so many women take Cardui for the relief of functional pains at monthly times? The answer is that they want results such as Mrs. Herbert W. Bank of Hallsville, Texas, describes. She writes: "My health wasn't good. I suffered from cramping. My pain would be so intense it would nauseate me. I would just drag around so drowsy and 'do-nothing'. My mother decided to give me Cardui. I began to mend, that tired, aching feeling was gone and the pain disappeared. I can't praise Cardui too highly because I know it helped me." "Cardui does not help YOU, command a physician."

that only death will ever make us forget.

In 1928 the Republicans nominated Herbert Hoover for president. The Democrats nominated Alfred Smith for president.

At that time we all had decided opinions about the methods of getting a drink as well as the plan of salvation.

Herbert believed in the bootlegger method, while Al wanted his straight over the bar with one foot on a brass rail. Herbert had no plan of salvation to speak of, while Al believed in the Catholic method of reaching the "Pearly Gate." At that time, Texas voted for Herb, because Herb liked to experiment with billed drinks because he said it was a "noble experiment." As for religion, Herb didn't have any to speak of, so Herb carried Texas, and all Texas knows that bad luck followed us until we returned unto the traditions of our fathers.

If Texas ever goes Republican again, it will be a sure sign that we have returned to the flesh pots of Egypt and that the Lord has forsaken us and has allowed us to return to our folly.

SOLITUDE Solitude not always a sanctuary. Loneliness may be selfishness. Solitude may help the tired brain. Solitude helps the flagging spirits. Solitude can refresh us.

Jesus entered into this sanctuary. He "departed into a desert place." "He went the multitude away and went up into the mountain apart to pray, and when even was come he was there alone."

Not always, however, is solitude a sanctuary. The lonely life may be the selfish one. Social life develops character in a positive manner. When we are with many people we are often most free from our own selfish natures. Alone, we may be dangerously near to our worse selves. Nor are we free from ourselves at any time, especially when with ourselves alone. Jesus was severely tempted, not in the noise and mob life of Jerusalem, but when in the quiet wilderness. Palestine today exhibits many a cave in which some crusading hermit attempted to live apart from his kind so as to meditate on sacred things. But he took himself with him whenever he entered.

Every vacation season may thus be a sanctuary. Solitude may be medicine to wearied bodies, tired brains, flagging spirits. The wise musician unstrings his violin so that his playing may be more entrancing later on. The woodsman is willing to take time to sharpen his ax knowing that he will have difficulty in felling trees with a dull one. We may discover these enlightening values in the loneliness of the sea, the silences of the broad landscape, and in the mountains, where, as John Muir tells us, we may "wash our spirits clean from the earth stains of the sordid gold-seeking crowd."

There is a lonely little lake far up in the hills, distanced by long miles from human touch. Hence it is capable of sending pure water down to the city dweller. So solitude can refresh us and bring to us the ability to serve our fellowmen. Near to the hidden springs of God, ministers and others may be nourished bodily and empowered spiritually for the time when they may more ably serve both God and their fellows within the church, because they have been near God within the sanctuary of solitude.

EMBLEMS OF LIFE

On a stroll through Rube Morgan's rose garden I observed a rose that in texture, color and fragrance is unique and superior. I have observed in an orchard that there is a fruit more luscious and wholesome than the other fruitage. And in the forest we have seen a tree so large that it dwarfed the surrounding growth. A tree that seems to lift its arms towards the clouds to catch the first drops of a refreshing shower. One that in the early morning bends its branches to the first beams of the sunlight and in the evening catches the last golden glories of the day's benediction as "night draws the sable curtain and pins it with a star."

We wonder what weather conditions, what soil constituents and what inherent forces combined to produce these superior results in nature. We do not know. Neither can we under-

Chevrolet Success During First Half Of Year Is Noted

All Prior Sales Records In History Of Industry Have Been Broken

In a statement analyzing Chevrolet's success during the first six months of 1936, which saw new records established for four different months, and for the second quarter and the first half of the year, William E. Holler, vice president and general sales manager of the Chevrolet Motor Company yesterday gave credit to the company's nationwide

stand all that enters into the development of a great character. No psychoanalysis can separate all the threads that are combined in a beautifully patterned life.

The wise and great outstanding characters strive to have it said when they pass on that he accomplished much and his work was done while yet the luster of his eyes was not dimmed nor his strength abated nor the curtain drawn upon his marvelous intellect.

F. B. W. Zioncheck and Al Smith are both still taking a walk.

organization of 10,000 dealers.

"The dealers share with the product itself and the manufacturing organization that has had to reach new production peaks to supply the demand, in the credit for breaking records that have stood ever since 1928 and 1929, the boom years of the industry," said Mr. Holler. "The end of the first half of the year finds Chevrolet dealers in a position to carry on profitably during the second half of the year. They are in a particularly favorable position with regard to used car stocks which they have reduced by 44,500 units during the last four months, in spite of the great number of cars taken in trade during these peak sales months."

"Until this year, the best first six months' period of any year in the history of Chevrolet company was that of 1928, with a total of 582,964 new car sales. This year, to the end of June, total new car sales were 664,794, a gain of 81,830 over the old record.

"Four times during the first half of the current year monthly sales totals surpassed the highest record for any one month in previous years. The last four months, beginning with March how stand as the four greatest sales months of all time. March sales were 126,059, April 139,681, May 129,814, and June 129,146. The last three months thus gave us a total of 394,641 for the second quarter of the year, averaging more than 130,000 units per month. "The dealers' performance in selling new cars was paralleled by their

achievement in used car merchandising. They set a new record in June by selling 237,940 used cars, bringing the total for the first six months to 1,146,450. Thus in six months the dealers have delivered a grand total of 1,811,244 new and used cars and trucks.

"I am certain that Chevrolet dealers have set a record this year that will be regarded as outstanding throughout the automotive industry, inasmuch as they have done much more than merely equal in ratio the general increase in sales for the year. Thus, while the latest available official figures for registrations show that the gain for the entire industry over 1935 is 360,000 Chevrolet dealers have scored a gain of 207,000 or more than 57 per cent of the total gain. Chevrolet deliveries by dealers, according to these registrations statistics, are 66 per cent ahead of the 1935 totals, as against

a 14.2 per cent gain for the remainder of the industry."

## CALLING THE ROLL OF MITCHELL COUNTY'S OLD-TIMERS

In preparation for Mitchell county's home-coming and Centennial celebration August 20, 21, and 22, The Record will attempt to publish the names of those Mitchell countians and former Mitchell countians rating as "old-timers" in this and the next two issues.

The lists will, of necessity, be divided into three installments. These names are taken from registrations obtained during Mitchell county's first home-coming, five years ago.

Some of those listed have died in the last five years. There are a number of names to be added to the list of old-timers now living in the county because many who had only been here 20 years at the time of the last home-coming have now been here 25 years and therefore have become "old-timers."

Read these lists carefully. If you have been here 25 years or more and your name does not appear in these lists to be published during these next three weeks, or if you know of someone whose name should appear and doesn't, please turn your name or their name into the Record office or the Chamber of Commerce office.

A list of all the additions and corrections will be published in the edition of The Record immediately preceding the homecoming.

We are after the names of all those who have lived in Mitchell county 25 years or more. Please cooperate with us in making that list complete.

As for the out-of-town old-timers — you are earnestly requested to scan that list and to write those whom you know, extending to them a cordial invitation to be here for the homecoming.
