Rev. O'Brien Is Chosen To Preach Scout Sermon On Sunday Evening, Feb. 7; Banquet On Feb. 12

Arrangements for Colorado's observance of National Boy Scout week, Feb. 7-13, are practically complete, according to local Scout leaders.

The Rev. Dick O'Brien, pastor of First Baptist church, has been chosen by popular vote of Colorado Boy Scouts to deliver the Boy Scout address which will officially open the week Sunday evening, February 7, at First Baptist church. Scouts and their sponsors are to attend this service in a group.

Climax of the week will be the annual Boy Scout banquet on Friday night, Feb. 12, in the basement of First Baptist church. J. A. Ferguson will be master of ceremonies. Alfred J. Stiles, chief scout executive for the Buffalo Trail council, will be the principal speaker.

A campaign to sell tickets for the banquet will be staged by the Scouts during the first two weeks of February. The Rev. A. L. Haley of First Christian church has been invited to do some magic tricks on the banquet program.

CENSUS REPORT GIVES COUNTY 16,233 BALES

A census report sent out by the Department of Commerce gave Mitchell county 16,233 bales of cotton for the crop of 1936 prior to Jan. 16, 1937.

This figure was compared in the report with 21,193 bales ginned to Jan. 6, 1936, from the crop of 1935.

'Appeal Of Red Cross For Flood Relief Merits Our Consideration,'—Stoneroad

"The citizenship of Mitchell county should consider well the merits of appeal being sounded by the American Red Cross and President Roosevelt for finances to relieve suffering in flood swept sections along the Ohio and other river fronts, and certainly when we remember benevolences of the Red Cross within our county a few years ago, this plea comes home to every one of us."

T. W. Stoneroad, Jr., treasurer of the Mitchell county chapter, American Red Cross, offered that appeal during an address at the chamber of commerce luncheon club Tuesday noon after reviewing devastation in path of the flood, described as the worst in history of the American republic.

Jim Greene, chairman of the chapter, spoke to the appeal. He invited

citizens to call either at the bank or at the chamber of commerce office and make contributions to the fund now being raised.

"Twenty-eight citizens have already called at my office to leave cash for this fund and one of them suggested that Mitchell county should not send less than \$500 to the Red Cross for this worthy cause," Greene stated. He recalled that the Red Cross expended \$58,000 in Mitchell county in 1923 after the cyclone. The fund was subscribed to in practically every state in the union, and practically every county in this state, Greene said.

Several business men present volunteered to call at the chamber of commerce at 2:30 that afternoon to serve on soliciting committees calling on local citizens to raise funds.

SCHOOL PRINCIPAL DIES SHORTLY AFTER ATTACK

Arthur V. Williams, 33, principal of the Newman high school, Sweetwater, and prominent in affairs of the Oil Belt Teachers' association, died at his residence in Sweetwater at 2:30 Monday morning following a brief illness. Death was attributed to a blood clot on the brain. Burial was in Abilene.

'BEST COUNTRY PAPER IN ALL OF TEXAS,' HE NOTES

"The Colorado Record is the best country newspaper that I know anything about within this State and as such should merit the good will and support of our citizenship," Rev. W. M. Elliott of First Presbyterian church, declared during an address at the Chamber of Commerce luncheon club Tuesday noon. The minister made that reference during address on factors that should be brought into play for extending the city's commercial scope.

LET THE RED CROSS CARRY YOUR HELP TO THE FLOOD VICTIMS

If you're human—and you are—you listen to the flood bulletins that come over the radio ceaselessly, hour after hour, and you read the newspapers where flood news has pushed all other "big news" out of the headlines and you get frantic with wishing that you could get into the thick of things and help—row a boat or give a meal or something.

But you can help. There is and always has been the Red Cross. And no people know better than Mitchell countyans how the Red Cross steps in and saves the day when disaster strikes.

The Red Cross needs money—millions of dollars as yet unestimated to care for at least 750,000 homeless persons. The worst of the flood is yet to come—and the worst of the whole thing will come when the flood waters recede and the giant task of rehabilitation must begin.

Mitchell county has already responded nobly to the Red Cross call. The first quota received by J. H. Greene, Mitchell county Red Cross chairman, was \$70. It was quickly doubled, then multiplied by five, and now the quota is unlimited—because the work to be done in the flood area has become almost unlimited. Up to Wednesday afternoon Colorado alone had contributed \$263,000.

If you live in or near Westbrook, give your contribution to Van Boston, if in or near Loraine to Kirk Taylor. In Colorado you can make your contributions to J. H. Greene at the chamber of commerce office, to T. W. Stoneroad at the City National bank, or to The Record office.

Give wherever and however you want to and can. But give.

MORE MARRIAGES IN MITCHELL COUNTY IN 1936 THAN IN 1935

The influence of leap year is seen by some discerning Coloradoans in Mitchell county's wedding figures for 1936 as compared with 1935.

According to records in the office of James Herrington, county clerk, 210 marriage licenses were issued in 1936.

This number is 29 above the total for 1935, when only 181 licenses were issued.

Fee New President Of Savings & Loan Organization Here

Thos. R. Smith Added To Board Of Directors At Annual Meeting

Electing R. F. Fee as president and adding Thos. R. Smith to the board of directors, the Colorado Federal Savings and Loan association held its regular annual meeting recently.

The complete board of directors is now composed of Fee, E. R. Bibby, R. O. Pearson, J. W. Randle, T. W. Stoneroad, Jr., Max Berman, B. L. Templeton, and Smith.

Officers elected to serve with Fee were: Vice-presidents, E. R. Bibby and R. O. Pearson; attorney, Thos. R. Smith; secretary-treasurer, L. B. Elliott.

The association has enjoyed a very satisfactory year and its officers and directors are in high spirits regarding its future, according to L. B. Elliott, secretary.

Further reporting on the association, Elliott said:

"This association, as well as all other Federal Savings and Loan Associations, is a member of the Federal Home Loan Bank System, and serves the community in a double capacity, being a thrift institution where savings can be invested, and also being a loan institution, making first lien loans on improved real estate, principally on homes. In addition to the splendid security by reason of careful selection of its loans, its investors are fully insured up to \$5000 for each investor through the Federal Savings and Loan Insurance Corporation, which is also an instrumentality of the United States government.

"Everything considered, we feel that we have the best proposition available to conservative investors. We have the same protection and safety for investors which they may expect to enjoy through investments in Government Bonds, Postal Savings, or Time Deposits in banks. We are on a 4% dividend basis, with funds withdrawable on 30 days notice, while banks are only paying 1% on funds with the 30 day privilege and 2 1/2% on funds with 180 day privilege, and a similar condition in our favor regarding all other protected investments. So why shouldn't we feel good?"

She was in her second year as a member of the Junior High school faculty when she was elected to fill Mr. Coffman's place following his resignation. Her place on the Junior High school faculty is being filled by Mrs. Adrian Clark, wife of the assistant coach.

CHATTEL MORTGAGES INCREASED IN 1936

Over 1,000 more chattel mortgages were recorded in the office of James Herrington, county clerk, during 1936 than during 1935, a recent report shows.

The total for 1935 was 3,035, that for 1936 4,193, the increase in 1936 being 1,158. Much of this increase is accounted for in the number of new cars bought during the past year.

'Turn The Dole Into Road Construction,' Is Speakers' Appeal

Better Relationship In The Affairs Of Neighbors Also Listed As Worth While

"Stop the dole and turn that outlay of public funds into cost of highway construction projects and you have solved one of the big factors in community progress," the Rev. W. M. Elliott, pastor of First Presbyterian church, told members of the C-C luncheon club Tuesday noon.

"Good roads have proved their worth as the avenue through a better understanding of fellowship as between the people of one community and another is to be realized and a subsequent expansion of our local commercial interests realized," he continued.

Rev. M. Elliott was introduced by Jake Richardson, chairman of the C-C trade extension department.

Rev. Dick O'Brien, pastor of First Baptist church, was another speaker heard on Tuesday's program. He spoke on benefits that ever accrue to the community through the home, church and school, listing these as most important in the life of any progressive people.

"When we have more 'A-Men' in the department of church we will have less need for 'G-Men' in the department of law enforcement," the minister stated.

"One duty that every good citizen should execute is to ever feel that Mitchell is the best county west of Fort Worth in Texas and Colorado the cleanest town within this entire section, and not be backward in advancing those deductions," Rev. M. O'Brien suggested.

PNEUMONIA FATAL TO 31-YEAR-OLD FATHER HERE FRIDAY MORNING

Pneumonia proved fatal to C. W. Baldock, 31, at Candler Crows last Friday morning at 2:15. Baldock, father of two small children, had been ill little more than a week.

His body was shipped to Dallas Friday afternoon by Jones-Russell & Company. Funeral services were held in Dallas, Mr. Baldock's former home, Sunday.

Mr. Baldock came to Colorado a few weeks before his death with a G. S. I. crew but at the time of his illness was preparing to become a well driller. He spent much of his time working on his tools at the Fielding Lee machine shop but was not connected with the shop.

Survivors include his wife and his two children, George Henry, 9 months, and Rita Don, 5 years; his parents, Mr. and Mrs. G. W. Baldock of Dallas, who were at his bedside when death came.

Local funeral arrangements were in charge of Jones, Russell & Company.

WOLVES DRUBBED BY AHS EAGLES IN GAME PLAYED HERE WEDNESDAY NIGHT

Eagles Rally After Opening Quarter To Win 34 to 15; Teams To Meet At Abilene On Tuesday Night

Swinging into their usual winning stride after an embarrassing first quarter, the Abilene Eagles swamped the Colorado Wolves 34-15 here Wednesday night. It was the Wolves' fourth defeat in 19 games played this season.

The game was the first of two scheduled to be played between the two teams, the second to take place in Abilene Tuesday night. These two matches have no bearing on either the district championship nor the Interscholastic League championship.

Colorado carried the first quarter, 8 to 4, on the goal shooting of Forward Burdine, but led by Center Leon Reese, Abilene passed the home team midway in the second period. The Eagles held a 17-10 lead at the half, and kept spreading it as the game progressed.

Both of Abilene's starting forwards, Elton Hailey and Floyd Fox, were banished on fouls in the second quarter. Hailey went out early in the period, and Fox a few seconds before the half.

Reese, responsible for 15 points, starred with one handed shots from the corner of the court. The Eagles also broke past the defense for numerous trips.

Colorado was off form in shooting in the first half, but could blame only a tight enemy defense for its failure to make more points later in the contest.

Before the main game the Colorado junior high quintet defeated Valley View, 12 to 9, and afterward the Colorado Future Farmers downed the Sylvester FFA's 21 to 12.

Wolves Sharing Cage Ladder Top With Sweetwater

Two Teams Face Possible Play-Off Games After Close Of Series

Perched together at the top of the district double round robin cage ladder at present are the Colorado Wolves and the Sweetwater Mustangs. The Wolves moved from second place into first place with the Mustangs when the Mustangs were defeated by Loraine Saturday night, 14-13.

The two teams face a possible two-out-of-three play-off series after the close of the scheduled series to determine the district champion. Championship of the district has no bearing on Interscholastic League championship, however.

If the Wolves defeat Roscoe at Roscoe Friday night in their final game of the series and if Sweetwater defeats Merkel the tie will hold and will have to be played off.

TAX-PAYING RUSH ON THIS WEEK AS JANUARY CLOSURES

The rush which usually characterizes the last week of tax-paying before penalties become effective has been on at the office of Roy Warren, tax collector-assessor, this week.

Warren stated Wednesday that his office will remain open Saturday night "as long as they come." Legally, the last day for paying taxes without penalty is Jan. 31 but that date this year comes on Sunday. Therefore the final time for payment without penalty will be the closing hour of the tax collecting office Saturday night.

Whitley, Jr., of Merkel against the Lenora Gin and Cotton company, for damages as a result of an auto crash claiming four lives 20 miles west of Colorado last October was settled in district court at Big Spring last week for approximately \$1,100, according to an item in the Big Spring Weekly News.

Whitley and his small son were the sole survivors when the car which he was driving westward early one Sunday morning collided with a cottonseed truck belonging to the Lenora Gin and Cotton company, traveling eastward. A health program directed by Mrs. Jeff Dobbs and election of officers for next club year featured the January meeting of the Mitchell County Federation of Women's clubs Tuesday afternoon.

New officers elected by ballot were: President, Mrs. J. A. Ferguson; first vice-president, Mrs. L. B. Elliott; second vice-president, Mrs. John Colson; third vice-president, Miss Emma Gunter; corresponding secretary, Jack and Bond; reading secretary, Mrs. W. L. Doss; treasurer, Mrs. J. W. Shoppard; public relations, Mrs. J. G. Morgan; and librarians, Mrs. A. L. Whiskey, trustees, Mrs. M. J. Dawson, Mrs. J. G. Morgan, Mrs. H. B. Brindley, and Mrs. J. T. Howell.

The nominating committee suggested a year book for the federation as she submitted the list of officers to be voted on.

Featured on the health program was a talk by Dr. T. J. Ratliff, city health officer. He answered questions of the women at the end of his talk.

At the opening of the meeting Mrs. J. A. Sadler, president, reminded women of the bond election for a community clubhouse at the auditorium February 16. Mrs. Whinke urged all women to pay their poll tax.

The librarian's report showed 20 new books in the library in the past two months, over \$10 in memberships the past month. Considerable time was devoted to a discussion of a campaign to raise library funds, enlargement of the library being one of the president's main objectives for the year.

W. Y. A. SOCIETY

YWA Has Regular Meeting Monday

By Bonnie Bill Brizendine, Reporter
The Y. Y. A. had its weekly meeting Monday evening with Mrs. Marguerite Fitzgerald acting as hostess. Following the usual Biblical roll call and general business session, work was promptly begun on quilt piecing. Amid great confusion of thimbles, needles, thread, etc., fifteen blocks were completed, thus furnishing the "finishing touch" to the really quite beautiful quilt begun some time ago. Sandwiched between stitches was the usual "maggie chatter" that can always be discovered when a number of the female sex assemble for a domestic purpose-- All in all, the occasion proved delightful.

At the social hour a delicious plate of sandwiches, potato chips, cookies and tea, was served to the following members: Mrs. Dell Barber, Misses Juanita Barton, Doris Wayne O'Brien, Bonnie Bill Brizendine, Audrey Mae Iglehart, Alene Arnold, Mary Rice, Mrs. Fitzgerald, and her little daughter, Mercedes.

NATIVE WEED HAS A COMMERCIAL VALUE

A weed native of this section of West Texas may have a commercial value, according to an item in the Big Spring Daily Herald recently.

The weed is sour dock, which is said to be prolific. The roots are said to contain 40 per cent tannic acid, the principal use of which is in the tanning of leather.

The Big Spring county agent, O. P. Griffin, first learned that the wild plants contained the acid after talking to Dr. A. T. Thornton, Texas A. & M. chemistry professor and leather specialist for the state extension service. Thornton is the authority for the per cent of acid and for the fact that the roots definitely have a commercial value.

According to Dr. Thornton, chrom-tanned leather may be subjected to a solution of sour dock roots for three days and emerge stronger and with a better color than regular tanned leather. The greenish-gray color of chrom tanned leather has been the biggest objection to home tanned leather, he said in pointing out that the roots may overcome that difficulty.

Sour dock grows freely in this section. It is a small bunch plant resembling spinach in some respects. It has a green strap leaf and red stem. The roots, about six inches in length and an inch in diameter, have a dark brown covering and a deep tan pulp.

The plant is most prolific in the flats and along water ways although it is found in large quantities in

many pastures and fields. Some of the bunches produce clusters of roots weighing as much as a pound.

According to the agent, the roots die after the plant has flowered and take on their acid qualities. They may be dug up and the stock plowed under for a new start. The roots are then ground and mixed with water to bring out the acid.

Cantrell said the plant was most hearty. A year ago he started out to rid his place of sour dock, believing it harmful to his grass. He pulled as much of it out by the roots as he could, but today the plant has a better stand on the place than ever before.

PICKED UP ALONG THE NEWS PATH

A bright lad of about three years came into the Record office last week and said, in all seriousness, "Want two heddecks." . . . Deciphering that to mean "two headaches," we could see some grown-up's fine hand in the whole affair. . . . Between laughs we gave the child two Records and told him, "They're not headaches (at least we hope not to anybody but us)—they're Records." He retorted, "Pam says they're heddecks." . . . But he's a cute youngster, even if his father (looked like John Miller to us) does call this sheet a headache.

We heard that many a tear accompanied farewells said to Robert Coffman as he wound up his duties in Colorado High school last Friday and prepared to go to Washington, where he is now assistant secretary to Congressman George Mahon. . . . A teacher who can fill a post for nearly eight years and leave tears instead of cheers behind him when he goes has, in our opinion, done something.

Many Coloradans have been impressed this week by the way in which the radio brings a catastrophe home to thousands—even millions—whom it does not directly touch. . . . The disastrous flood in the Ohio valley is very real to us, far more real than it would have been a few years ago. . . .

"I'll take West Texas sandstorms" is an expression you hear on every hand when folks are talking about the flood. . . . Such things make us realize how really much we have to be thankful for. . . .

FUNERAL HELD FOR MRS. CORA RUNDRELL TUESDAY AFTERNOON AT CUTHBERT

Funeral services were held at the Cuthbert church Tuesday afternoon at 3:30 for Mrs. Cora Rundrell, 81, who died at her home near Cuthbert Monday evening at 8:30. The Rev. P. D. O'Brien of the First Baptist church at Colorado conducted the service.

Pallbearers were Ernest Wiggins, Charles Wiggins, William Wiggins, Lonnie Wiggins, Preston Pace, and Cecil Shafer.

Mrs. Rundrell never recovered from a fall which broke her leg last June. She had lived in Mitchell county about 12 years. She was born on December 20, 1856, in Kingsland, Burnett county, Texas. She and Joseph Nelson Rundrell were married on July 2, 1885. Five children were born to them.

Three of the five children survive.

There is no one more in sympathy with flood sufferers than the Rev. Dick O'Brien. . . . But, being Dick O'Brien, he just had to make this following retort to one person who made the above remark about sandstorms: "Well, you soon will be."

Vignettes of the flood hereabouts: Mrs. R. J. Wallace looking up Columbia, Mississippi, where Mr. and Mrs. Don Wallace are stationed now, to see if "that river" can get them. . . . Friends of Robert Coffman, who left last Friday for Washington, saying, "I'll bet he doesn't miss anything. I wouldn't if I were he." . . . Mrs. Boyd Dozier watching for postcards from relatives along the upper Ohio—Stuebenville, Mingo, Wheeling, Martin's Ferry. . . . Mrs. Green DeLaney wondering if Mr. and Mrs. Charles DeLaney ever got to Crossett, Arkansas, for which destination they left here last Friday. . . . Everybody looking for maps to brush up on Ohio valley geography. . . . Radio addicts getting flood bulletins far into the wee hours of the morning. . . . And then not able to sleep for thinking about what they've heard. . . .

Those who are best acquainted with J. D. Harvey, former minister to the Church of Christ here and now minister in flood-stricken Paducah, Kentucky, are certain of this much about him: Wherever he is and whatever the flood has done to him and his family he's doing all he can for other victims. One man remarked, "I wouldn't be surprised to hear he's cruising around in one of those boats, picking folks off of house-tops."

COWBOY BAND BOOKED HERE FOR FEBRUARY 9

The Cowboy band of Hardin-Simmons university at Abilene has been booked by Colorado High school for a program at the high school auditorium on Tuesday morning, Feb. 9, at 9 o'clock.

AMENDMENT FOR SCHOOL PAYMENT IS PROPOSED

AUSTIN.—A constitutional amendment to base state payments from the education fund on attendance, instead of scholastic population, will be offered in the legislature.

It will be sponsored by Rep. Eugene Worley of Shamrock, George Moffett of Chillicothe and others. The constitution now pays the available school fund shall be distributed to counties "according to their scholastic population and applied in such manner as may be provided by law."

The amendment would merely provide for distribution "as may be provided by law." Such a provision was included in the proposed amendment authorizing free text books to parochial schools defeated in an election two years ago.

"We think there is stronger sentiment for it now," Worley said. "It would be fair and just." Some counties, he said, especially those with large negro and Mexican populations, were receiving more from the available school fund than they paid in taxes.

HOSPITAL NEWS

Mrs. Truett Barber is a medical patient in the hospital, having been admitted Tuesday. Both Mr. and Mrs. S. B. Lantron are hospital patients. Mr. Lantron being treated for an injury sustained soon after Christmas and Mrs. Lantron resting by order of her physician.

Mrs. John Busbee, who was seriously ill for a time following a mastoid operation last Friday, is now improving. Another skin grafting was administered to L. G. Haines, burn victim, Saturday.

HOW TO FIGURE YOUR WEEKLY WAGE

QUESTION 6: "My work is irregular or seasonal. Some weeks I work more hours, earn more pay, than in others. Previous articles have made it clear that to determine what benefits I can receive, I must know what my wage has been. Does the law say how the amount of my wages is to be determined?"

ANSWER: To determine your weekly wage, you must find out two things:

(1) YOUR FULL-TIME WEEKLY HOURS. To get this figure, add together all the hours you worked in all the weeks in the last 52 weeks in which you were employed 30 hours or more.

Example: In the last 52 weeks, you worked 25 hours a week for 5 weeks, 28 hours a week for 10 weeks, 29 hours a week for 9 weeks, 30 hours a week for 21 weeks, 34 hours a week for 5 weeks, and 48 hours a week for two weeks.

Since you failed to work 30 hours a week during the first 24 of these weeks, disregard them. During the remaining 28 weeks you worked a total of 896 hours, or an average of 32 hours a week. Therefore, 32 is your full-time weekly hours.

YOUR HOURLY RATE OF EARNINGS

To get this figure, you consider only the thirteen weeks just before you became unemployed. Out of these thirteen weeks, take those in which you worked full-time. Add together the total of hours worked in these weeks.

In the example used above, these 13 weeks should include: 2 weeks at 48 hours, 5 weeks at 34 hours, and 6 weeks at 30 hours.

So out of the 13 weeks, you would count only seven—the two at 48 hours and the 5 at 34 hours, because only in these weeks did you work your full-time weekly hours (32) as determined in (1).

Now, in these seven weeks, say you made a total of \$106.40. Divide this amount by the number of hours you worked in those seven weeks, or 260. This will give you the figure of 40 cents an hour.

WHAT ABOUT IRREGULAR WORKERS?

QUESTION 7: "Your last article told how I could determine my weekly wage for the purposes of the Unemployment Compensation Act; but this example does not fit me. My week's work seldom averages 30 hours a week. How am I to proceed?"

ANSWER: To try to be fair to every worker, the Commission has been given the power to vary from the above formula, either in determining the weekly hours, or in determining the hourly rate of earnings, or both.

Suppose your previous employment record is not long enough to fit this formula. What then? The Commission has the power to find out for itself what the customary pay is for your kind of job.

The aim of the law is to be fair to every worker. The formula was worked out carefully to fit the majority of cases. But there always are exceptions, and each exception will be treated fairly by the Commission itself.

If you have any questions concerning the operation of this law as it affects employers or workers, you can have your questions answered by writing to R. B. Anderson, chairman, Texas Unemployment Compensation Commission, Austin.

MISS GUNTER GIVES ITINERARY FOR WEEK

Itinerary of Miss Emma Gunter, county home demonstration agent, for the first week in February has been announced as follows:

CHEVROLET WORKERS WANT TO RETURN TO THEIR JOBS

DETROIT.—More than 9,000 men, virtually the entire personnel of the Chevrolet Gear and Axle Division of General Motors Corporation, staged a demonstration in Detroit last week against the strikes which have shut down General Motors plants and caused enticed idleness to more than 135,000 workers.

The Detroit demonstration occurred at the main plant of Chevrolet's four units on Holbrook avenue at St. Aubin.

There has been no strike in these Detroit units of Chevrolet. But the units, devoted to the manufacture of gears, axles, steel wheels, and knee action mechanism, are key suppliers of these automotive parts to ten assembly plants, and the sit down strikes in other plants have stopped all operations here.

It is estimated that more than 90% of the men in the plants are eager to return to their jobs.

The employees assembled last week to receive their pay checks, their last pay until the resumption of operations.

While waiting for the company's staff, the men held mass meetings in the four cafeterias of the Division and reappointed a committee to express their opposition to the strikers and those causing their enforced idleness.

Appointing an employees' committee, headed by Arthur Evans and George Gilbert, workers in the plant, the groups voted to publicize their opposition to the strike through personal telegrams to Governor Frank Murphy of Michigan and President Roosevelt. After the meetings, the four groups assembled in front of the main plant for a mass demonstration of protest under banners with the legends: "We don't want a strike," "We want our jobs back," "No object to minority rule," and "No labor dictators for us."

Since this demonstration in Detroit, a conference has taken place between officials of General Motors Corporation and representatives of the striking faction. The meeting was called by the Governor and at its conclusion, statements were issued to the effect that negotiations for an early resumption of production would take place.

Mrs. Carl Boatright. He is an employee of the Cowen Shoe store.—Sweetwater Reporter.

Two Districts Are Involved In Survey For Highway South

It was pointed out Thursday morning that the recently designated highway from Robert Lee to Colorado—a highway which was granted a survey only a few days ago—lies in two highway districts and therefore must be routed through cooperation of the two districts.

W. Ar French of Abilene, highway engineer for the Abilene district, stated in a telephone conversation Thursday morning that he and A. F. Morrison, of San Angelo, highway engineer of the San Angelo district, will give their attention to the highway route "one day next week."

Routing of the highway is preliminary to the survey.

WILLIAMS OPENING EVENING CLASSES IN RURAL COMMUNITIES

Doyle Williams, head of the Colorado High school vocational agriculture department, announced this week that two evening classes for farmers of the county will be organized next week.

One will be organized at Valley View on Tuesday night at 7:30, the other at Rogers on Monday night at 7:30. Plans for the Rogers meeting are still tentative, however.

Any problems that the farmers choose to study will be taken up during the month of weekly class meetings.

RANGE CONSERVATION REQUIREMENTS NAMED

COLLEGE STATION. — Practices which will entitle ranchmen to payment under the range conservation program include deferred grazing from re-seeding ranges, contour listing, construction of terrace ridges, spreader terraces, spreader dams, earthen tanks, and reservoirs; establishment of fire guards; eradication of prairie dogs and kangaroo rats; and rescuing range land from prickly pear, cactus, cedar, mesquite, and lechuguilla.

Of special interest to range, pasture, and livestock specialists of the Extension Service is the provision of payment for re-seeding ranges by deferred grazing. Under this plan, up to 25 per cent of the open range of a ranch may be withheld from grazing for a period of six months, beginning May 1. Specialists pointed out that the rotation grazing plan had been advocated in the past as a means of reestablishing desirable grasses on range land.

Provision has been made for construction of range fences to permit deferred grazing.

Officials in charge of the Texas program indicated that payments would be based on a "range-building allowance" which establishes the limit on the amount of money which may be earned for carrying out range-building practices on individual ranches.

The practices for which payment will be made in connection with the range conservation program have been proved workable in government experiment and by practical application on ranches.

MRS. VAUGHAN BETTER

Mrs. Belle Vaughan, who has been confined to her bed more than three weeks with a heart involvement, is reported this week to be showing "considerable improvement."

WALLACE GIVES PLAN TO KEEP FARMERS ON PAR WITH INDUSTRY

WASHINGTON. — Secretary Wallace has outlined a ten-point program for keeping America's 30,000,000 farmers on a par with business and industry.

"Agriculture is no longer the forgotten industry of the United States," he said, citing a four-year rise in estimated farm income from \$5,500,000,000 to \$9,000,000,000.

The farmer's income has returned to its pre-war parity with urban incomes, Wallace said, declaring he will seek to maintain that relationship.

His program:

1. Free opportunity for farmers to organize.

2. Fair and stable income for the farmer, on an equal with city incomes.

3. Supplies of farm goods adjusted to adequate home needs and foreign demand.

4. Foreign policies to encourage peace with other countries and an expanding market abroad for American farm products.

5. Conservation of the soil and other natural resources.

6. Turning below-standard land to non-farm uses.

7. Crop insurance, to cushion the shock of drought, flood, frost and plague, combined with the ever normal granary.

8. Better opportunities for the man with the hoe to own his land, and increased security for tenants and owner-operators.

9. A higher standard of living for the poorer farmers.

10. Industrial policies to insure abundance for wage earners and farmers alike.

Only two danger threaten the farmer's future, farm experts said—A European war or another drought.

A plan for the government to insure farm crops is on the president's desk. The insurance would start only in wheat in 1938, but administration leaders say congress may include cotton and corn.

The president has indicated he would press for aid to the nearly 3,000,000 tenant farmers.

HIGHWAY SAFETY WILL BE STRESSED IN STATE

AUSTIN. — Following closely on the announcement of the appointment of the Governor's Safety Committee of 100, Governor Allred made highway safety one of the principal objectives of his second administration when, in his annual message to the legislature, he stressed the need of a more rigid driver's license law and more effective regulation of trucks and busses, whether common carrier or privately owned. At the same time the governor recommended that the present force of less than 150 highway patrolmen be doubled and that the patrol be equipped with automobiles rather than motorcycles.

Characterizing the present driver's license law as "weak and ineffective," the governor told the joint session of senate and house that he thought the sentiment of the people had been misjudged when that measure was passed. Far from being resentful of rigid state regulation, he asserted, the people want something effective done about the annual death toll of 2,000 persons on the highways of the state.

"I think they want the highways made safer for all of us. I know they want to do away with the anguish and tragedy of little children slaughtered and maimed on their way to school," he said.

Success of a more strict driver's license law and more effective truck and bus regulation depends to a tremendous extent on public education and public opinion, the governor pointed out.

The Governor's Safety Committee, recently named, will assist the Public Safety Department and safety councils throughout the state in better carrying out this program of public education and stimulation of public opinion. The committee is expected to hold its organization meeting in Austin within the next ten days on call of the governor, its honorary chairman.

In his message the governor emphasized that the State Highway Patrol, "a magnificent organization," is "woefully undermanned. Today we have less than 150 of these fine young men to patrol thousands of miles of highways." The force should be doubled at least, he said, and "they should be equipped for the most part with light speedy cars instead of motorcycles as at present."

Cost of the increased personnel and additional equipment, said the governor, "can and should be paid for out of the State Highway Fund since this organization is primarily charged with patrolling the highways

and enforcement of safety measures." Enclosing his safety recommendations to the legislature, the governor said: "No single accomplishment could be greater than intelligent effective legislation to curb and diminish the astounding, appalling and for the most part, avoidable daily tragedies resulting from our indifference."

FIFTY YEARS AGO
Appearing in the "Fifty Years Ago in Texas" column in the Dallas Morning News this week was the following item:
"Yesterday afternoon, Mr. Charles Ware of Colorado City and Miss Mamie Bryan of Dallas, were married at the First Methodist Church by the Rev. Mr. Pierce. Misses Laura Bryn and Della Ware and Messrs. Henry Lewis and Charles Bryan were the attendants."

Kitchen Improvement Demonstrators For HD Clubs Of County Are Beginning Work

Kitchen improvement demonstrators for most of the women's home demonstration clubs of Mitchell county have already been chosen and are beginning work, according to Miss Emma Gunter, county home demonstration agent.

These demonstrators are to work out specific demonstrations and pass the information on to others, according to Miss Gunter. Among goals for the year are: Refinishing of walls and woodwork; provision of one window with lowering device; arrangements for water disposal and proper garbage containers; checking large equipment for efficiency.

The following women are demonstrators for 1937:

Mrs. W. E. Wimberly of Landers, has a small shed type kitchen that needs general improvement. The 12 x 18 x 12 feet walls, kitchen of Mrs. W. W. Jenkins of Fairview, will need to have new paper, floor refinished, and a sink cabinet built in.

While Mrs. Tom Daugherty of the Plainview club, has a good built-in cabinet, new Electrolux and stove, the walls and floor of her kitchen need to be refinished.

Mrs. E. C. Miles of the Looney club has a big inside kitchen that needs more light and working surfaces.

A second demonstrator of the Looney club is Mrs. Ed Roach who will repaper the walls and re-cover the floor of her kitchen. She is planning some type of cover for the wood stove to take out smoke and heat.

Mrs. Frank Andrews of Hyman has a 14 ft. x 14 ft. kitchen that will be made lighter and more sanitary by repapering the walls of the room. She also plans a built-in cabinet.

A second demonstrator, Mrs. Otto Schuster, will recondition her food workshop to make it more pleasant and convenient to work in.

An unusual kitchen being improved at the present time is that of the teacherage at Horn's Chapel school where Mrs. Blesse Cathcart lives. A water proof tile patterned paper has been used with French gray woodwork and a cherry red wainscoting of beaverboard.

Work Resumed On Light Extension Monday Morning

Project Will Be Completed This Week If Weather Is Favorable

Work of extending Colorado's curb lighting system to the top of the east hill was resumed Monday morning after a delay of several weeks because of lack of materials.

The sixteen light standards, which were furnished by the WPA and which were to have been on the ground several weeks ago, arrived last Thursday morning. They could not be installed until the weather cleared, however.

Mayor J. A. Sadler stated last week that the extension should be completed and the lights in use at the end of six work days.

DATES FOR DISTRICT LEAGUE EVENTS SET AT MEETING TUESDAY

Dates for district events of the Interscholastic League were set for April 9 and 10 at a meeting of district league officials held in Sweetwater Tuesday night.

Charles Brazil, district director in typing, attended from Colorado. The meeting was called by Ross Covey, superintendent of Sweetwater schools and district director general for the league.

Literary events will be held on April 9, field and track events on April 10, all events to take place at Sweetwater.

The Mitchell county meet will be held on April 2, literary events taking place during the day and field and track events at night. So far as is known now this will be the first time field and track events have been held at night in this part of the state. C. A. Wilkins, principal of Colorado High school, is director general of league events for independent schools of Mitchell county.

If You Like To Worry Here's Something: Women May Overrun County Some Day

If you like to worry and lack a subject right now you might start pondering the fact that Colorado and Mitchell county may be overrun by women in some future generation.

Because the women are gaining on the men—they're being born faster and they're dying slower. At least, that is what figures from the office of James Herrington, county clerk, show.

Female births registered in 1935 numbered 150, male births 138. In the same year 40 women and 62 men died. Six more women than men died in 1936, the figures being 57 for women and 49 for men. But this was more than offset by the birth of 137 girls and only 104 boys.

These figures were only for white births and deaths. Little can be gained from negro and Mexican vital statistics because few Mexican and negro births and deaths are recorded as the law requires.

According to the records, only 10 negro boys and five negro girls were born in 1935 and only 9 boys and 6 girls in 1936. Negro deaths recorded in 1935 numbered 7 men and 3 women, while in 1936 there were 3 men and 5 women.

Mexican records are a little more full, showing 38 male and 25 female births in 1935, 26 male and 29 female births in 1936, 13 male and 17 female deaths in 1935, and 8 male and 5 female deaths in 1936.

COLORADO FILMS TO BE EXHIBITED FOR SCHOOL CHILDREN OVER TEXAS

Films showing Colorado and Mitchell county scenes at the All West Texas Community and Resource Exhibit at the Fort Worth Frontier Centennial last summer and the films of 40 other West Texas towns are to be shown to school children all over Texas through a recent arrangement with the Visual Instruction Bureau of the University of Texas' extension department.

The films showing the industries, resources, educational and recreational activities of the forty West Texas towns were provided by the towns for the Centennial exhibit and were shown every day during the big Frontier show. They attracted a great deal of attention and numerous requests for their loan have come to the offices of the West Texas Chamber of Commerce from other sections of the state. General interest in them was so great that the West Texas Chamber of Commerce tendered the films to Mrs. Charles Joe Moore, Chief of the Visual Instruction Bureau, who will route them through the bureau's regular school channels.

The West Texas Chamber of Commerce exhibit, which attracted many visitors at the Centennial last summer, has been held intact in anticipation of the reopening of the Centennial again this year.

Winning Streak Of Wolves Continued As Snyder Downed

Tigers Defeated By Same Margin On Friday Night And Monday Night

The winning streak that the Colorado Wolves have maintained in basketball this year continued Friday and Monday nights as they administered two severe defeats to their ancient rivals, the Snyder Tigers.

Friday night's game, described as a "rough and tumble" affair, was played here. The score was 32-20 in favor of Colorado. At the end of the game four players, one Wolf and three Tigers, had been disqualified because of personal fouls.

Thirteen personals were called on Colorado, fourteen on Snyder. Carter of Colorado scored ten points before he was banished on fouls, leading the field in scoring for the evening.

The game Monday night was played in Snyder and the winning margin was the same—12 points. The score, however, was 23-11.

These victories added two more to the 12 which the Wolves have already chalked up this season. The Monday night game was their seventeenth of the season, and of those 17 they have won 14.

'NATURAL CAUSES' IS NEGRO DEATH VERDICT

"Death due to natural causes" was the inquest verdict rendered Monday afternoon in the death of Annie B. Fuller, 28-year-old negro woman, who died in the negro settlement south of the depot Sunday night at 11 o'clock after a brief illness.

The woman came here from Waxahachie not long ago. She had been employed by Mrs. John Summers. Funeral arrangements were in charge of Kiker & Son.

Indictment Still Stands Here Against Woman In 'Mistaken Identity' Forgery

An indictment charging Mrs. E. C. Harvey of Wichita Falls with forging checks to Colorado business concerns will probably stand until district court meets on Feb. 22 in spite of the fact that Mrs. Harvey has been proved innocent, it was stated from the office of J. H. Ballard, district clerk, early this week.

Ballard said that he has received no official notice concerning the indictment. The only Colorado concern named in the indictment here is the W. R. Oswald pharmacy. About six forged checks were passed here in all, however.

A case of mistaken identity, labeled as one of the strangest in Texas history, caused Mrs. Harvey to be indicted in counties all over Texas on charges of forging checks on the Marathon Oil Company of Tulsa, Oklahoma. She was "positively identified" time and again as the passer of the forged checks.

Two Colorado saleswomen, Mrs. Herbert Gunn and Mrs. H. C. Pendergrass, maintained that she was not the woman who passed checks at the stores where they were employed.

15th Victory For Wolves In Defeat Of Merkel Tuesday

Coach Christian Uses Second Team After First Quarter; Score Is 27-11

The fifteenth victory of the Colorado Wolves for the current basketball season materialized Tuesday night when they defeated Merkel here 27-11 in their final at-home game of the district double round robin series. The game was the Wolves' eighteenth match of the season.

Coach Jack Christian used his second team after the first quarter of the game. The score stood at 6-1 when he took his first team out.

The final game of the district series will be Friday night when the Wolves play Roscoe at Roscoe. The Wolves are tied with Sweetwater for first place since Sweetwater's surprise defeat by Loraine Saturday night 14-13. The championship of this series is not connected in any way with the Interscholastic League championship.

PAPERING AND PAINTING EMPHASIZED IN HD WORK AS TO BETTER KITCHENS

By Mrs. O. L. Simpson, Reporter

"If you get your walls papered and wood work cleaned and painted you have accomplished a lot toward the goals set in our kitchen improvement," said Miss Emma Gunter, county home demonstration agent, at the Fairview H. D. club which met with Mrs. Will C. Berry, Friday, Jan. 22.

Miss Gunter gave an outline for the program to be given at the Federation meeting in February. Mrs. Will Berry talked on practical lunch clothes; Mrs. Preston Pace on towels for each individual in the family. For sanitary as well as health purposes each individual should possess and use their own towels. Mrs. O. L. Simpson talked on the kitchen window curtain, stating that the purpose of the kitchen window is to let in air, light and sunshine, therefore the curtain should be of sheer material, color fast and withstand laundering.

Miss Gunter explained more about the "All Farm Home" to be selected as a State demonstration. Mrs. W. W. Jenkins is to be our club kitchen demonstrator.

The next meeting will be Feb. 12 with Mrs. W. H. Badgett.

NEW SEMESTER

Only a few changes have been made in the schedule this semester. In the fifth and sixth grades geography and history have been combined into one class, social science. In 7C the pupils will have health and art this semester instead of writing. The pupils of 7A and 7B will have writing instead of health and art. Classes are dismissed at 3:30 this semester.

WHY

Why did you receive a U in conduct this six weeks? Why did you think that you did not deserve it? Think of the times that you have done some "little things" that you were not supposed to have done. Probably you thought that it would not hurt to talk just a little one day. The next day you thought you could do something else that might not get you in trouble. Nothing bad, but when it is considered together, your conduct is unsatisfactory.

Try to correct yourself. Remember things that the teachers correct in other pupils and do not be guilty of the same thing yourself. Above all, do not think that you can "get by" with breaking some little rule and have satisfactory conduct.

IT ALL DEPENDS ON THE Lighting!

Women were among the first to appreciate good lighting in stores and in their homes. They found that light made a great difference in the appearance of merchandise they saw in stores and instinctively turned to those places where good light aided their shopping. At home, they found that well-diffused lighting made home furnishings look brighter and their home more comfortable.

Why the I. E. S. Lamp Makes Reading Easier

- 1 Wide opening at the top of the shade throws light to ceiling and eliminates shadows. 2 Glass reflector softens light, prevents glare. 3 Wide shade gives ample light over your work. 4 Shade lining is white to reflect more light. 5 Lamp is high enough to light a large working area.

PENNY WISE SAYS:

"Smart women have learned to use lighting to its best advantage in making their homes more attractive and more comfortable."

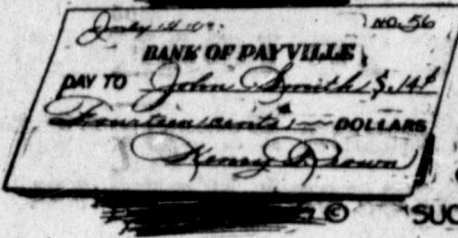

Helpful suggestions on the arrangement of lighting in your home, store or office are yours for the asking. Call our office and a trained lighting man will make a light-meter survey without cost or obligation which will aid you in getting the best kind of illumination for your particular needs.

THE BOND ELECTION

Our friend (?) W. H. Garrett when asked what he thought about the new bond issue, stated:

"Why do the people imagine a vain thing?" Psalms 2:1. About 3600 years ago (Bible) "We will not hide from my lord, how that our money is spent; my lord also has our herds of cattle: there is not ought left in the sight of my lord, but our bodies and our lands. . . . Buy us and our land for bread, and we and our land will be servants unto Pharaoh."

About 3300 years ago: "And the Egyptians made their lives bitter with hard bondage." "And the taskmasters—spake to the people. . . . Go, get your straw where you can find it. . . . And the taskmasters hastened them saying, Fulfill your works, your daily tasks, as when there was straw. . . . Go, therefore, now and work."

About 2300 years ago: "We have mortgaged our lands, vineyards and houses, that we might buy corn. We have borrowed money for the King's tribute (taxes) and that upon our lands and vineyards; now our flesh is as the flesh of our brethren, our children as their children; and, lo, we bring into bondage our sons and our daughters to be servants and some of our daughters are brought into bondage already; neither is it in our power to redeem them; for other men have our lands and vineyards." About 1900 years ago: "Woe unto you scribes, pharisees and hypocrites; for ye devour widows houses."

From Roman history about 1500 years ago: "Such things did not seem to matter to them; hope had gone. When presently the barbarians poured into the empire, there was nothing but the legion to face them. There were no popular uprisings against them at all. Everywhere the barbarians must have been outnumbered, if only the people had resisted. But the people did not resist. It is manifest that the bulk of the inhabitants of the Roman Empire did not consider it to be a thing worth fighting for. To the slaves and common people the barbarians probably seemed to promise more freedom and less indignity than the pompous rule of the imperial officials and grinding employment of the rulers, tax gatherers and slave-drivers."

From the history of France about 150 years ago: "In such a state of things, a most oppressive system of taxation was the necessary result. In no country in modern times have the burdens of the people been so great. Taxes were imposed to the utmost extent that the people were able to bear, and this without their consent; and upon the slightest resistance or remonstrance they were imprisoned and treated as criminals. So great were the taxes on land that nearly two-thirds of the whole gross production went to the state and three-fourths of the remainder went to the landlord. The peasant thus only received about one-twelfth of the fruit of his labors; and this pittance was the sole support of his family. Taxes were both direct and indirect, levied upon every article of consumption, and upon everything that was imported or exported, upon income, upon capital, upon the transmission of property, upon even the few privileges which were enjoyed."

No nation ever disappeared until the people thereof were bled white by taxes. Assyria could never have subjugated Egypt had not the people been enervated by taxes for great public works. Nor Babylonia subdued Assyria. Nor Persia, Babylonia. Alexander shattered all the nations of the East with a few thousand soldiers, because taxation had destroyed all love of country. The barbarians rubbed Roman civilization off the map because the people chose to accept the looting, burning and massacres of these Woodmen of the North rather than the taskmasters and taxgatherers of the official and ruling class of the Roman Empire.

Why do the people imagine a vain thing? They now vote and clamor and cry for more and heavier taxes. They think they can enrich themselves by taxation. The nation is now some thirty-five billion dollars in debt. A published statement shows that in 1880 Federal expenditures amounted to \$5.34 per person. In 1936 it amounted to \$63.14 per person. The State of Texas is some fifteen million dollars behind on current expenses. The Governor is asking for thirteen million dollars new taxes, annually. Everything from milk to coffins is taxed. It is like Old McDonald's farm; tax, tax, here a tax, there a tax, everywhere a tax, tax, tax, tax.

Old McDonald had, has or may have a farm and a home but if we continue to pile taxes upon it, he won't have it long. There is property—homes—in Colorado that won't now sell for sufficient money to pay the outstanding taxes against such. It is reported that the City Attorney recently sent out 900 notices of tax suits on property in Colorado. Why do the people imagine a vain thing? When you vote bonds, taxes and other benefits you have to pay and pay—and pay.

THOMAS PAINE

It has long been a custom of THE RECORD to insert pungent paragraphs, considered of interest and instructive to the readers. Following this custom last fall we inserted some information about Thomas Paine. We had no intention of abusing, disabusing, praising or condemning him. In our issue of Jan. 8th our friend, W. M. Turner of Westbrook, presented a long letter either criticizing THE RECORD writer, praising Paine or both. We do not now wish to become a partizan of the merits or demerits of Tom Paine. The Christian world has had a century and a quarter to make up their minds about him.

Paine was not the originator of Independence for the American colonies. Samuel Adams, John Adams, James Otis, Patrick Henry, Thomas Jefferson and scores of able Americans were in the field for independence long before Paine came to America. But on Jan. 10, 1776, less than six months before the Declaration of Independence, and about nine months after the war began, Paine published a pamphlet entitled "Common Sense." This was a very able presentation of the rights of the Americans and the propriety of their seeking independence. This publication did a great deal toward unifying American sentiment. It was greatly appreciated by George Washington and the struggling patriots. About 30 years after this publication Paine returned to America from France and President Jefferson, Madison, Monroe and others did much to honor Paine. The President was savagely denounced for entertaining Paine at the White House.

Some 15 years after publishing "Common Sense" and while he was in prison in France Paine wrote "The Age of Reason." Immediately the enemies of the Christian religion made him their hero and have continued to do so until this day. While the Christian world has denounced him in bitter terms. If Paine has been mistreated by the Christian public such treatment was based on his own writings. It would serve no purpose to go into the merits of this controversy now. The name Tom Paine puts a bad taste in the mouth of people who believe in God and in Christ. While people who flout the idea of God and Christ greatly admire Paine. And his own writings are responsible for such attitudes. THE RECORD man is not.

The writer has no prejudice against Thomas Paine. He was a Methodist preacher and then turned against the Christian religion. He was a close friend of Edmund Burke and then abused him until he had to leave England (for France). He was a radical in France and then voted in favor of the Bourbon King. He was a great advocate of American freedom and then bitterly attacked Washington for many things, including treachery. He did not have that prolonged sustained devotion to principle and adamant character that makes a Washington, a Jefferson, a Gladstone, a Lincoln or a Wilson—that makes a man great. Sad to relate intoxicating liquor finally conquered Paine. Whiskey has ruined thousands of good and great men but the people still insist on keeping it handy for use.

CURRENT COMMENT

In our up and down the street we contacted a number of persons who commented as follows:

Harry Ratliff:—In gambling it isn't the first loss that is so expensive, its getting it back.

George Slaton:—Closed autos are the most popular in winter, while closed mouths are popular the year 'round.

Dick O'Brien:—The reformer should be patient with us. After all, the world's wickedness keeps him in a job.

John Ellis:—Woman's clothes are so funny. They are almost as funny as the men's.

A. R. Wood:—A man seldom turns over a new leaf until the old one is all smeared.

Tom Goss:—Let us be thankful all the girls chewing gum are not chewing tobacco.

Joe Smoot:—The millions of germs on money and in kisses never make a man refuse either.

Bill Oswalt:—Who remembers when a girl with an unattractive face had to let it go at that.

J. M. Doss:—Mother kept that schoolgirl complexion by occasionally walking five or ten miles past a lot of drug stores.

W. W. Porter:—College girls are taking up boxing. They wrestle, also, but it is called dancing.

Dr. Ratliff:—Cheese, says a dietitian, is one of the oldest of foods, and no archaeological expedition was needed to unearth that fact.

Joe Fraser:—The pessimist is the fellow who insists that you don't get civil service from civil service. Or perhaps the optimist is the fellow who expects it.

Charlie Thompson:—A pessimist is a man who is able to discern the difference between the public being light-hearted and just light-headed.

Ford Motor Co:—Americans who once worried about not being able to buy an automobile are now fretting because they have to wait three weeks for delivery.

Mills Chevrolet Co:—Trailers now on the road seem shipshape and tidy. It may be another ten to fifteen years before the gypsy life produces the rolling slum.

Dr. Roof:—Just now I am in the midst of a fluid cold, such as threatens to liquidate me from my neck up. In consequence of this temporary aberration all food is unpopular with me.

Last week we heard Jady Foster in the high school explaining to his grammar class. He said, "A kiss is a noun though generally used as a conjunction. It is never declined, is more common than proper, used in the plural and agrees with all genders."

Another woman has recovered her long lost voice after a ride in an airplane.

Airplanes are dangerous things.

TO MY SON WHO'S GONE AWAY

In Memory of Arnestead Spalding

I He wasn't my only son, still I had none to spare; I needed every child to help me face this world of care, Yet Death swooped down and snatched him away; The sun shines brightly; I feel not one golden ray In sorrow for my boy.

Oh, God in Heaven, is this the price I must pay? Oh stealthily, slinking Death, did he have to go that way Without one warning? It is so cruel; Life seems so empty that once was so full

Because my boy is away.

Dear Mudder, do not sorrow, life is short, And if God chose your son for an early start, Remember that He knows and does what is best, Time will dull the ache, Time will give you rest And ease the pain.

God took your boy and gave him release From a cruel world; now he's in a home of peace. He's with you now; he's whispering in your ear: "Dear Mudder, be brave, smile, I love you still, Your boy is closer than ever, dear!" —Contributed.

[QUESTIONS THAT ARE ASKED ABOUT BANKING]

"Are profits essential to sound banking?"

YES, over a period of time, reasonable profits are essential to sound banking. In this respect banking is no different from any other business enterprise.

During recent years banks generally, like other businesses, have found it difficult to operate profitably. Costs have increased and income has decreased. The decrease in income has been due chiefly to less demand for commercial loans, lower interest and reduced yield on Government bonds and other high grade investments. Consequently, banks have found it necessary to practice drastic economies, reduce interest rates on time deposits and to make service charges on checking accounts if insufficient balances or excessive activity caused an operating loss.

A bank's first duty to its depositors—and to itself—is to build up, from earnings, its surplus and reserves.

COMMUNITY INTEREST

IN TRUCK LEGISLATION

Any change in existing Texas truck laws which will increase the present 7,000-pound load limit will affect adversely all communities in the state, both rural and urban. This statement is proved best by identifying the causes and effects upon Texas communities.

These are:

1. Increasing truck loads mean correspondingly increasing the distance which the truck can profitably carry its load.
2. Increasing the distance of profitable truck haul means bringing the small town wholesale houses and industrial plants, such as wholesale grocers, bottling plants, feed mills, oil mills, grain elevators, cotton compresses and retail lumber yards, into direct competition with similar establishments in large cities.
3. Such competition will inevitably result in further drying up the small country towns by taking from them the payrolls, taxes and local purchases represented by their present establishments. Property values, both residential and commercial, will decline; volume of retail sales will grow smaller and former employees will migrate to the cities to reinforce the ranks of the unemployed and the bread lines.
4. Large cities, at first stimulated by increased trade territories, bought at the expense of the country towns, will be ultimately affected adversely because of the resulting unhealthy condition of the rural communities forming these trade territories.
5. Because of the consequent shrinkage of the state's tax revenues from country towns, taxes from the cities will have to be increased correspondingly.
6. The lower truck load limit of Texas now has the effect of acting as a barrier at Texas borders to the movement of the larger truck loads carrying merchandise from the metropolitan and producing centers of other states. Any increase in Texas truck load limits will break down that barrier and permit the free truck movement into the state of many commodities which unquestionably would be sold directly to the retailers, thus destroying, in a large measure, the business of wholesalers and jobbers now located in Texas cities.

Conditions which affect adversely the well-being of Texas communities also affect Texas railroads in identical manner and degree.
