He started with us in the first grade and after attending Lone Star school until he was in the seventh grade, he again favored us with his presence in Loraine High. This will be his fourth year to letter in football; he is captain of the team this year. He was elected most popular boy when we were Sophs. Last year he was one of the doubles tennis team who won second place in county. He won first place in vaulting and won places in other track events. He also played basketball.

"HOT WATER"

Palace—Thursday Only, Nov. 4th
Followers of the Jones Family series will be more than satisfied with this latest offering, which shows improvement over previous efforts, and its clean-cut comedy and human performances should win new friends for

the Jones clan. This time Pa Jones, after vociferous protests against crooked civic government, is inveigled into running for mayor of Maryville. With the questionable support of his younger son, played by George Ernest, who publishes a home-printed newspaper branding the incumbent mayor as a grafter, Pa wages a hot campaign and appears certain of victory until his elder son, Kenneth Howell, is framed on a drunk-driving charge by the villainous henchmen of the town's bosses. Young George saves the day and Pa embarks on a political career. Frank Strayer directed.

"LAST TRAIN FROM MADRID"

Palace—Friday and Saturday
November 5 and 6
Timely, dramatic, and above all, entertaining, this film has the earmarks of a boxoffice hit. The first picture to reach the screen based on the Spanish revolution, the picture cannot miss, despite its two faults—being over-dramatic and cluttered with a profusion of plots. There is enough material in it for three average features. Lew Ayres makes a strong bid for a film comeback with a delightfully delineated role. Supporting him, likewise in a manner commendable, is Olympie Bradna. Others who appear to advantage in the loosely-tied plots and counterplots, laid against the background of beleaguered Madrid, are Helen Mack,

Gilbert Roland, Lionel Atwill and Anthony Quinn. The direction by James Hogan is robust and vividly real. Players are Lew Ayres, Olympie Bradna, Helen Mack, Robert Cummings, Gilbert Roland, Lionel Atwill, Anthony Quinn, Dorothy Lamour.

"WIFE, DOCTOR AND NURSE"

Palace—Saturday Midnite, Nov. 6
Sunday and Monday, Nov. 7 and 8
The well-known wife vs. secretary theme with a medical background and an ultimate solution to the problem, this is highly acceptable entertainment. It can be played with every assurance that it will register satisfactory grosses, first, through the doubtless marquee value of Warner Baxter, Loretta Young and Virginia Bruce, and secondly, because it will send the customers away satisfied. Walter Lang's direction keeps the story moving at a lively pace and its production background adds much to the feature's worth. Baxter, a doctor, married to Miss Young, finds himself in constant difficulty because he cannot do without the invaluable aid of his nurse, Miss Bruce. Neither can he do without his wife's companionship, despite the friction that exists between the two women.

Players are Loretta Young, Warner Baxter, Virginia Bruce, Jane Darwell, Maurice Cass, Minna Gombell, Margaret Irving.

"ONE MILE FROM HEAVEN"

Palace—Tuesday and Wednesday
November 9 and 10

Although the greatest care and judgment must be exercised in exploiting this film to prevent any highly detestable phases in which it cautiously touches on what appears to be racial inter-marriage, there is no reason that, given judicious build-up, it cannot be good boxoffice, for it carries a tremendous appeal to all women. Claire Trevor, a sob-sister, discovers a white child living with a colored woman, Fredi Washington, who insists that the baby is hers. Trevor's story results in a court investigation which uncovers a blackmail plot, a murder and leads to the eventual return of the child to its white parents. Miss Trevor's fine comedy and Bill Robinson's inimitable dancing do much to relieve the tearful atmosphere of the story. Allan Dwan directed. Players are Claire Trevor, Sally Blane, Douglas Fowley, Bill Robinson, Fredi Washington, Joan Carol, Russell Hopton, Ray Walker.

Another Colorado clubwoman planning to attend the meeting is Mrs. A. C. Anderson, president of the 1921 Study club. Mrs. Anderson will leave for Austin Monday in order to be there for the opening of the convention Tuesday morning.

NEW YORK—Officials of the General Motors Corporation have elected to sponsor the Chevrolet Division for 1938, to give special attention to the plans and programs of the largest unit of the corporation and to aid Chevrolet in every possible way during the coming year to attain its objective of new car and truck sales. "This year's quota is the highest sales quota ever undertaken by any division of General Motors."

A. P. Sloan Jr. and W. S. Knudsen, Chairman of the General Motors Board, and President, respectively, have communicated with the more than 300,000 shareholders of the corporation, telling why General Motors is officially sponsoring Chevrolet for the new model year that started this week with the opening of the New York Automobile show.

They complimented M. E. Coyle, Chevrolet general manager, and W. E. Holler, general sales manager, for the large growth of the company during the past four years and pointed out that Chevrolet is now a million-car-per-year company with sales of 1,015,000 for 1937 and 1,168,000 for 1936.

Both Sloan and Knudsen were enthusiastic concerning the advanced dealer-factory relationship that W. E. Holler has organized in the Quality Dealer Program and the Dealer Planning Committees.

"What Chevrolet does in any given year," said Sloan, "is of vital importance, not only to General Motors and the Chevrolet Division, its dealers and retail salesmen, but also to business in general, for Chevrolet's operations are so large and extensive as to have a marked influence on the welfare and the lives of millions."

Knudsen stressed service to public through the Chevrolet dealers, as he commented upon the fact that the corporation is backing Chevrolet in 1938 with its power and ability.

"In its unique position as the leader in the low-priced field," he said, "I know that the Chevrolet Division will accept the challenge that leadership brings, namely, maintaining its leadership in service to the public through the Chevrolet dealer organization."

SENATE KICKS AT CONGRESS' PLANS ON SUBMERGED LAND

The Senate voted on a resolution and passed it onto the House last week to object to a pending resolution in the U. S. Congress that if passed would give the United States Government ownership of submerged lands within the three-mile limit along the Texas shoreline.

At the last session of Congress the Senate passed a joint resolution and it is now pending before the Judiciary Committee of the House of Representatives that the Federal Government owns these shoreline lands.

The resolution defending the state's right to these lands was in-

BIG BEND PARK BILL IS PASSED

A bill which removes some of the difficulties in the path of the Big Bend National Park was passed by the Senate last week.

Introduced by Senator H. L. Winfield of Fort Stockton, in whose district the park lies, the bill will, if finally passed by the House, change the name of the present Canyon Park to Big Bend National Park, allow the State Parks Board to accept donations toward the purchase of land in the park, and reserve for the park the few sections of state land lying in it.

Senator Winfield announced that about \$50,000 had been donated to buy land in the park.

While the early submarines took 25 minutes to submerge, modern war-time submarines can submerge in from one to two minutes. The submergence time has come to be a vital factor in providing rapid escape from gun ramming and attack.

ROSCOE OUTPLAYS WOLVES TO CHECK COLORADO'S BID FOR 6B CONFERENCE FLAG

Visitors Expected Continue Strides To Area Pennant After 26-0 Victory Here; Locals Were Outclassed

Under leadership of such flashing ball carriers as Fitts, Gray and Risinger, the Roscoe Plowboys turned Colorado back in the parade for 6-B district pennant here Friday night, after blasting every threat of the Wolves to score. The visitors were ten pounds heavier than the Wolf pack and there was no question as to their ability to play football.

The tide of battle turned to Roscoe soon after the kickoff. Roscoe kicked to Colorado's 29 where the ball was held on downs. The Wolves kicked and Roscoe took the ball on her 46 and opened up a line-crushing attack that carried the visitors under easy strides toward the Wolf pay stripe. But Colorado held within inches of the goal line and in attempt to punt out the ball was blocked and downed within inches of the Wolf pay marker. Wallace Gray plowed through for a touchdown to open a series of counters that Colorado could not check.

Colorado rallied late in the first period and for the moment threatened to go places after opening up an effective air attack. Two passes were completed for 49 yards—one for 15 and the second for 25. The locals seriously threatened to score when Chadwick and Jackson carried the ball to Roscoe's 20 yard line, only to lose it by a fumble.

Neither team made any headway in the third quarter. Colorado managed to work the pigskin to Roscoe's 15 yard line, but the threat died when a desperate pass was intercepted by Wallace Risinger, third member of the Plowboy's destructive backfield.

Fitts circled right end, then the left terminal to strike deep into Colorado territory in the fourth, but the ball went over on the 12. Late in the period he intercepted one of Chadwick's passes in midfield and ran through the entire team for his second score. O. C. Parks, outstanding end, added the extra point. Captain John McVean was a power in the Roscoe line, along with Parks and Wiley Wilkins, ends.

Gray's rough tactics during the battle cost his team mates 45 yards in penalties. He was removed from the game in third quarter.

Accompanied by their band and pep squad, both organizations uniformed in colors of the school, Roscoe stormed Cantrell Field with the largest fan delegation of the year. And the Plowboys had plenty support from east side of the stadium as the battle raged.

About the only outstanding feature of the game, in so far as Colorado is to be reckoned, was in the record breaking throng of Wolf fans that jammed the grandstand and sidelines to witness the slaughter and the attractively uniformed band and pep squad.

New uniforms had recently been received for members of both the band and pep squad. There were fifty-three girls in formation as the latter came on the field between halves. In the band there were fifty-five boys and girls in uniform.

Superintendent J. E. Watson of the Colorado schools announced the game play by play over loud speaking unit.

Colorado attempted 12 passes, six of which were incomplete, one intercepted and five completed. Roscoe attempted four passes and all of the air tries for gain were incomplete. Colorado punted seven times for an average of 33 yards. Roscoe punted five times for an average of 32 yards.

Women At Hesperian Sponsored Gathering Congressman Mahon Addresses Study Club

Interesting sidelights on the life of a Texas congressman in Washington were given by Congressman George Mahon before a meeting of Colorado study club women in the Sunday school rooms of First Methodist church Friday afternoon.

The meeting was sponsored by the Hesperian club as the feature of their Legislation day program. Members of the 1921 Study club and the Zetaphathians were guests, about 75 women being present.

Congressman Mahon was introduced by Mrs. A. L. Whipkey of the Hesperian club. He opened his talk by telling about some of a congressman's social activities and by outlining a typical day's work.

"The families of most congressmen would, of course, like to have a house in Washington," Mr. Mahon said, "but after pricing the houses they usually take apartments. Offices are assigned by seniority, and the new congressman has to take what he can get."

The Mahons and other congressional families attended three functions at the White House during the past year. An interesting feature for

Long, skinny oil passages. Pinhole filter screens. Almost invisible spaces between the parts—even in worn engines. There's what any oils are up against trying to flow all through your cold engine "instantly."

Even if some lay claim to flowing as fast as your correct Winter grade of Conoco Germ Processed oil, what of it? They absolutely cannot OIL-PLATE your engine.

And OIL-PLATING is actually ready to lubricate long before any known oils

HALLOWE'EN PARTY

Misses Cap and Mary McKenney entertained a group of young people with a Hallowe'en party Saturday night. There were about 45 present. After the guests arrived they were carried into the backyard which was decorated with feed shocks, jack-o-lanterns, ghosts, fire and all things that go with Hallowe'en. After playing several games and each one having their fortune told refreshments of chicken sandwiches, doughnuts, cookies and hot chocolate were served.

Ghosts, clowns, witches and various other forms of humanity began arriving at 7 p.m. Games were begun and the fun continued until the body of the dead man was brought in. Some of the screaming alarmed the neighborhood. The water was slightly cool especially when ones hands were suddenly dipped in by a ghost. Wonder what the sour something was that they drank. Popcorn balls, peanuts and coconut cookies and grape juice were served to 19 seventh graders and the two room representatives.

SEVENTH GRADE
From the looks of those sleepy eyes, Hallowe'en was an unusual success.

Nineteen seventh graders and the two room representatives certainly had a delightful time at Mrs. Cope's Friday evening. We are still wondering how some of the boys and girls got such terrible looking faces. The big, fat clown almost lost one of her pillows. We were indeed sorry that Claude Bradford Cox didn't appreciate our kind of fun. Perhaps when he has added about six years to his present one, he will enjoy Hallowe'en more.

I wonder what happened to that plate of cookies after everyone had been served.

In an arithmetic contest Monday morning the seventh grade rated eight points above the average seventh grade class according to our test.

I wonder why Perry got in front of Maxine in the string chewing contest?

H-Hum—Joan.
FISHES FUN
The Fish are glad to report they have four new pupils this week. They are Helen Rich from Colorado, John and Walter Turner from Carr and Helen Moon from Conway. All through the year we hope to have our class grow larger; although we already have the largest class, a total of forty seven.

Talk about spooks and witches, we are not afraid of them any more! Since going to the party at Mary McKenney's in Iatan Saturday night. Each one present declared it a swell Hallowe'en party.

We all have been studying Science with diligence this week and are sure Mr. Fowler will be proud of us after the test Thursday.

At present the Fish are three points behind in the P. T. A. membership drive contest. Just wait until the end of next week, and see who's "in the money."

SOPHOMORE REPORT
Basketball season is now open and the majority of the kids are taking part in that. Those that aren't seem to be learning how to play football; at least there are a few of us that come to school complaining about a sore foot or a crick in our toe!

Flonelle McCullough has returned to school here from Odessa where she has been attending in the past.

We are glad to see Burl Claxton back in school. He caught on fire with a gasoline blow torch while in manual training, but was injured very slightly.

THE JUNIORS
I'm so sorry to report that the Juniors have no news this week. The only excuse that the reporter could find was that the bus was late and she didn't have time. Our advice is: Don't make excuses, make good! Or maybe she was just excited over the fact that Mr. Hood is taking the Juniors on a kookacking party next week!

SENIOR CARNIVAL READY!
Heavens! Here it is report day and your reporter is not here again! We'll be glad when she is back to stay for the substitute is quite a dry reporter. We hope she isn't ill!

O. K. The Seniors are back working on their carnival. It is positive to be given Saturday, November 13 at 7:30! That is one week from Saturday. The Seniors have quite a busy week ahead of them, but, just the same when the 13th comes they'll have a carnival "worth seeing" to present. We'll have some different, clean, pleasant, and hilarious entertainment saved for you.

I never saw such a sleepy, dull lunch as the Seniors were Wednesday. I don't know whether that can be credited to Hallowe'en parties, midnight show or just what!

Well, that's all with this one last hope—that we'll have some "real news" for you next time.

SPORTS FLASHES

Basketball practice has begun in full swing. Everyone has gone into it with a good show of sportsmanship, and willingness to work. The boys were doing a little fussing because they couldn't play a game the first time they went out to practice. But, boys, you had better be careful and take a lesson from the girls who got "kinda" smart, went out ahead of the coach and started a game for themselves. Ask them how they felt after they ran around the court several times!

Correction on our last week's statement of games. It is the Senior boys and girls and junior boys, not junior girls, that play at Highland the 12th.

We've noticed some of our girls that should make good basketball players out playing football with the seventh and eighth grade students. Come on, girls, try a nice, easy, little game like basketball!

MOVES TO BALLINGER

Mrs. A. H. Shadday and children have gone to Ballinger to be with Mr. Shadday, who is employed on the construction of the new postoffice there. Mrs. Shadday has been here visiting her parents, Mr. and Mrs. H. D. Womack, for some time.

PICKED UP ALONG THE NEWS PATH

"Swell" isn't, I know, a very well-received word in good English circles. . . . Yet I can't think of any other word which quite expresses the way the Colorado school band impressed me and most of my neighbors Friday night when it marched out across Cantrill field between halves of the Colorado-Roscoe game. . . . As low as all of us were feeling right then, nothing but something rather—well, rather swell—could have made us sit up and take notice. . . .

There were 15 more tully uniformed members of the band Friday night than there have ever been before. . . . Uniforms were complete, even to capes (a bow on the side right here to Mrs. John E. Watson for making the capes.) They fitted well, they were smart and colorful, but at that they had nothing on the youngsters who wore them. . . .

Not only do these young musicians play well and look well, but they march well—which, if you ask me, has nearly as much to do with the thrill of a band as music and uniforms. . . . They've worked hard, practiced hard, and they love being in the band in spite of the work. . . . You can tell that by looking at them. . . .

Behind all that intricate drilling and excellent playing which the band has accomplished this year there is a man—a quiet, soft-spoken, self-effacing man who seems, in some ways, almost shy. . . . But any man who can take a herd of youngsters and do with them what R. P. Rose has done with that band can't be shy. . . . And it a man remains quiet, soft-spoken, and self-effacing while doing what Mr. Rose has done—well, that makes him little short of a genius. . . .

All this points to one thing—Colorado has a school band which deserves all it has received and far, far more. . . . It's a band to be proud of, and it has added its full share of enjoyment to this year's football season and to other activities. . . . There are still a number of boys and girls who have practiced faithfully, who want to be uniformed and in the band. . . . You can help them to be all that by going to, or at least buying tickets for, the band benefit program which is to be given at the high school auditorium Friday night. . . . Time 7:30, admission a dime to everybody. . . . Besides helping the band, you're sure to have an enjoyable evening. . . .

Speaking of the school band—it doesn't have a much better friend than H. F. Ward. . . . Boys and girls of the band go to him first when they want help in raising money for things they want to do. . . . He always fixes them with an eagle eye, demands "Have you been practicing like you're supposed to?" And then he goes to work, heart and soul, tooth and toenail. . . . Just like they knew he would. . . .

In spite of the fact that Monday morning was the first of the month, many a Colorado business man was

seen washing show windows just as if it were his most leisurely day. . . . If you went close enough, however, you heard mumbblings and grumbblings from the industrious washers. . . . The washing and the grumbling were all because Halloween pranksters smeared soap on nearly every downtown show-window during the dark, spooky hours of Sunday night. . . .

When the water-boy went running out to the tired and beaten Wolves during a time-out interval near the end of their heartbreaking battle with the Roscoe Plowboys Friday night, little Mrs. M. O. Chapman sighed and said: "I wish that water had spinach in it."

It seems that I didn't know the half of it about that pet show at the Coieman school not long ago. . . . Saw a picture that Mrs. Boyd Dozier took of the youngsters and their displayed pets the other day, and was amazed at the range of the pets—everything from horned toads to ponies, canaries, goldfish, cats, dogs. . . .

Thanks to the faithful work of a peppy, attractive group of girls under the very capable leadership of Cal Yates, Colorado High school has a pep squad that can give the Wolves the backing they deserve. . . . That goes for looks, teamwork, enthusiasm, and the right kind of fighting spirit. . . .

The fame of Colorado's "baby typist" class, now taught by Elizabeth Grantland, spread a little farther Saturday morning when Betty Sue Vaught, daughter of Mr. and Mrs. Henry Vaught, did something that rated several minutes of comment on WFAA's Early Bird program. . . . Betty typed a letter about the town of Dunn in response to the requests of Cecil Hale and Eddie Dunn, the program's wisecracking announcers, for information about Texas towns "named after them." . . . Dunn, after reading Betty's letter, expressed genuine surprise that a child so young could type any kind of a letter, much less so neat a letter. . . .

Eye strain days are here again!

Early evenings, cooler weather and homework to be done bring youngsters indoors for play and study. Instead of bright, outdoor sunlight, they must use their eyes under artificial light which can be only a fraction as brilliant as sunlight. But this doesn't mean that harm will result to their eyes, if the proper kind of light is provided for them in their homes. I.E.S. Better Sight Lamps are scientifically designed to provide the proper kind of light for easy and safe seeing, and to protect young eyes from unnecessary strain.

Reddy Kilowatt Says:

"Good lighting is one of the smallest items of household expense. A few pennies a day is all it costs the average family to have plenty of light for easy and comfortable seeing."

**HUSHED SADNESS PREVAILS
AT LIONS CLUB AS PRAISE
IS GIVEN LIFE OF WILKINS**

**Speakers Extoll Late School
Principal As Outstanding
In Religion, Citizenship
And Leadership**

There was a hushed sadness that reached out to touch every man present at the Lions Club Friday noon as speakers spoke feelingly on the life and characteristics of C. A. Wilkins, late principal of Colorado High school, who died here October 16. The memorial is to be remembered as one of the deeply impressive rites sponsored by the service organization.

The memorial was in charge of Dr. W. M. Elliott of First Presbyterian church, a minister who had known the deceased intimately during the 12 years he lived in this community. "One of the most depressed days that I have ever spent was on that Sunday recently when the people of this community were called upon to bury C. A. Wilkins and W. L. Doss," Dr. Elliott said during his preliminary address.

"C. A. Wilkins As Our School Principal," was subject spoken to by Jack Christian, member of high school faculty and director of athletics. Christian recalled Mr. Wilkins as a leader among the boys and girls of this community "who never made a promise that he did not fulfill. A teacher who understood the child and gave especially of his efforts in behalf of the underprivileged. He was the best principal of any high school that I ever contacted," Christian stated in conclusion.

W. S. Cooper was the next speaker called to the floor. His subject was "C. A. Wilkins As a Citizen."

"The greatest attribute that I could offer to the life of this good man would be to recall that his char-

The Wolves have no scheduled game for this week-end, second time during the recent past for the locals to have time out in conference play. The local schoolboys did not have a game scheduled two weeks ago.

Colorado's next battle on Cantrell Field will be on night of November 12 when the pack entertains Albany, a class B club in Western part of the sectional area. This is to be a non-conference affair.

Roby and Snyder are the only remaining schools to be met by the Wolves as they close the conference year. Roby is to play on the local field Nov. 19 and the Wolves are to play the latter club on the Snyder stadium Nov. 25.

acteristic honor, his rugged character and outstanding leadership in the field of good citizenship were to be felt and appreciated out of the modest heart from which those ideals issued," Cooper said. "It would be a distinct honor for the mantle of this good Lion to fall upon any of us members who remain and I assume that this club could not make for greater progress in furthering the ideals of Lionism than to emulate the principals for which he stood."

The Rev. T. A. Patterson of First Baptist church offered strong tribute to Mr. Wilkins as a Christian, speaking with evidenced emotion as he listed characteristic ideals of religion and morality that radiated life of the late educator.

"There was something about C. A. Wilkins that lifted him up in the esteem of all people, and in that respect I feel that I loved him just as much as any other citizen of this community although I had not been privileged to know him long. I loved C. A. Wilkins from the first time I met him. I accepted that he filled an important place in the cause of his Lord in this community."

"Several men have come to me since his passing to praise the private and public life of C. A. Wilkins," the minister continued. "I have never heard any one advance a question as to his moral character. Religion and morality go hand in hand and I learned to know C. A. Wilkins as a champion of both."

"C. A. Wilkins As a Lion," was subject assigned to Jack Helton, president of the club. "This Lions Club was the loser through not having this good man within our number longer than we did," Helton said. "Mr. Wilkins was a Lion for shortly more than a year prior to his passing, but during that time his influence for the ideals for which Lionism stands had lasting effect."

District Governor Joe Pond of Big Spring was last to speak on the program. The governor recalled that through 12 years he had been intimately associated with C. A. Wilkins, "in business, in his home and in other spheres of life, to always be impressed with the sterling character and honor that possessed his very being. The passing of C. A. Wilkins has been on my mind since that day when he died, due to the esteem that I ever maintained for him and his leadership in all things that were for good."

**Piggly Wiggly Grocery And
Market Has Grown With
Progress Of Section**

J. W. Randle, owner and manager of the Piggly Wiggly grocery and market, is this week receiving congratulations from his many friends upon the occasion of his twelfth anniversary in Colorado. Randle came to Colorado the first of November, 1925, to establish the business that has since been conducted by him at Elm and East Second streets.

A special anniversary sale is featuring celebration of the occasion, with attractive prices posted in all departments of the modern food store. The establishment has moved through a substantial growth during the twelve years of its existence until today Colorado's locally owned Piggly Wiggly is to be classed as one of the leading retail establishments in this part of West Texas.

In point of continuous business, the establishment of Mr. Randle is the oldest grocery in Colorado. There has not been a day's interruption since he first opened for business 12 years ago.

While keeping pace with the latest ideas in merchandising, Randle has enlarged his food establishment to meet growing trade demands. Today he has twice the floor space in use when Piggly Wiggly had its inception in Colorado.

**WOLF 'TRAINER' GIVEN
SWEATER JUST BEFORE
GAME STARTED FRIDAY**
Dr. O. Rhode, official athletic physician, was presented with a blazing red sweater just before kick-off in the Colorado-Roscoe game at Cantrell Field Friday night. The sweater carried the title, "Trainer" in large black letters across the back.

The presentation was made by Jack Helton, president of the Lions Club who assisted Dr. Rhode in donning the garment. It is needless to recall that the physician received a big hand from the grandstand.

**METHODISTS WILL CLOSE
FISCAL YEAR NOV. 17TH**
Another fiscal year for Methodists of Northwest Texas is to be closed November 17 as sessions of the sectional conference open at Quanah. The Rev. C. E. Jameson of First church will be concluding his first year as pastor here.

Rev. Mr. Jameson, along with pastors of other churches in the county and several lay delegates are to attend the Quanah conference.

We are celebrating our 12th Anniversary in Colorado. We are the oldest grocer in Colorado under the same owner in the same location with 12 years continuous service and for this J. W. Randle takes this opportunity to thank all his friends and customers for their loyal support which has made this 12 years possible.

SOPHOMORE NEWS
 The Sophs wish to welcome Mr. Coffman into their big, happy family. We're mighty happy to have him and hope he doesn't mind the leap as sponsor from dignified Seniors to the (so-called) silly Sophs.
 Beulah Frances Robinson, class president, is at present in Mineral Wells, where she will remain for three weeks, taking a rest cure.
 Hallow'e'en was a big night for the Sophs, as several Freshmen will readily testify. We suspect the lonerons near (Fish chorus: O, Yeah) town were not so deserted as usual last Saturday night. And who had those rotten eggs and squashy tomatoes? Let Cootie tell you!
 Note to Freddie Watson and Nancy Price: A saxophone is an ill wind which nobody blows good.

POME OF THE WEEK:

KNOW YOUR LIBRARY
 Are you acquainted with the library as well as you should be? If you are you will know that it contains both fiction and non-fiction. Read some of these non-fiction books for a change. I will admit that it is fun and a pleasure to read fiction, but not all the time. Some non-fiction books are really wonderful books. They not only increase your knowledge but are a pleasure to read. Have you ever read "North to the Orient"? No. Well, you should. It's by Ann Lindbergh and is about a trip to the Orient. But, if you had rather have another, here's one by Dorothea Brande, "Wake Up and Live," which means exactly what the title says. Now, if you are in more thoughtful mood read "The Book Nobody Knows," which refers to the Bible. It is by Bruce Barton and is a very good book. If you have never read very many non-fiction books, read one of these books I have just named and I am sure you will agree that non-fiction books are a pleasure to read also.

 OOOOO! The goblins were here. We can say one thing for the "Fish" boys this year; they are "swell" sports. But the Freshmen girls were very hard to handle. It seems that some of them can tackle very well. Any way you look at it, it was just fun although the Freshmen got the bad end of it. But seriously all in all we had a grand time including the Freshmen, and the "Fish" promise they will be on the other side of the game next Hallow'e'en night.

MR. CROSLIN VISITS HIGH SCHOOL
 After school Monday Mr. Lloyd Croslin, former English teacher in C. H. S., and now attending Georgetown University, Washington, D. C., made several visits to see friends at the high school. With him was his roommate, Mr. DeBusk, who is attending the Law School of George Washington University.
 Both Mr. Croslin and Mr. DeBusk plan to spend most of their vacation at their homes in Lubbock, Texas.

CHORAL CLUB SELECTS PROGRAMS
 The Colorado High School Choral Club is beginning the year with some favorite songs. Mrs. Mooser let the club members select their songs and the ones selected were "Drink To Me Only With Thine Eyes," and "Who Is Sylvia." The other songs they are learning as Mrs. Mooser's choice are "Country Gardens," "I Passed By Your Window," and "In the Evening, by de Moonlight."

WELCOME MR. COFFMAN
 It is with great pleasure that we welcome Mr. Robert Coffman back as a friend and a teacher in Colorado as a friend and a teacher in Colorado smiling face and we hope that it will continue to be that way.

ASSEMBLY NEWS
 Wednesday afternoon at the assembly period Mr. Watson presented the new high school principal, G. D. Foster, who had before taught Freshman math and algebra in the high school. Mr. Foster then presented Rev. T. A. Patterson, pastor of the First Baptist church who had with him a guest, Tommie Godfrey, assistant pastor at Palestine, Texas, who is directing the singing in the Baptist meeting here. Mr. Godfrey sang "When Irish Eyes Are Smiling," accompanied by Mrs. Latham. He then read the poem "Jonah and the Whale" which was much enjoyed by the entire high school.

BAND NEWS
 The C. H. S. band now has about fifty-eight members, suited in new uniforms. Twenty-one new ones were received last week.
 Since there is no ball game Friday, the band is giving a concert. The admissions is 10 cents. Everyone is urged to attend.

FUTURE FARMERS AT WORK
 The Future Farmers of Colorado are progressing very nicely. They have at the present 62 calves on feed, a good number of hogs, and are expected to put 27 sheep on feed last Tuesday.
 Class III is studying the problem of making money and keeping good farm records. Class I is studying the problems of the farm and keeping good records also.

The chapter is starting a Sweetheart contest. The contestants are: Beulah Robinson, Sophomore; Fae Porter, Junior; Betty Whitley, Freshman; Kathryn Hodges, Senior; Dorothy Morrison, Junior. The winner is to receive a beautiful blue sweater with the F. F. A. emblem on the front and Aggie sweetheart written across the top, 1937-8 across the bottom. The sweater is to be blue with gold or yellow letters. One vote costs the sum of one cent. We should like the cooperation of the city in this race as the money taken in is to pay the debts and send different teams to contests this year.
 The boys of Ag. III are going to start a trench silo next week at Mrs. C. H. Lasky's residence. The digging and filling is to be directed by F. C. Shillingburg, head of the Agriculture department of Colorado High school.

WOLVES MEET WATERLOO
 At last the Colorado Wolves met their Waterloo, when they met the Roscoe Plowboys last Friday the 29th.
 The Plowboys outweighed the Wolves about twelve pounds to the man. Though outweighed, the Wolves played a very good game.
 Mr. Foster stated in assembly Monday that the Wolves lost the score of the game but won a good game of sportsmanship.
 The Plowboys made the first score in the first quarter, the next two in the second quarter, and another in the last quarter making the final score 26 to 0. This was a loss to the Wolves, but they still might have a chance to come out on top in the next game with Albany, November 12th.

OATMEAL IS GOOD CRUMB SUBSTITUTE FOR TORTES

When a cake wears its welcome out and lasts longer than the family's appetite then many housewives think it's time to bake a Tortie. However, for the cook whose cakes are so good that they disappear before she can salvage any crumbs, oatmeal acts as a good crumb substitute in preparing tortes. The eggs and nuts give the oatmeal torte its lightness and richness.
 The following ingredients are essential in preparing oatmeal Tortie:
 1 cup all-purpose flour
 4 eggs, separated
 2 teaspoons baking powder
 2 cups Quick Quaker Oats
 1/4 teaspoon salt
 1 teaspoon vanilla
 1/2 cup butter
 1/4 cup milk
 1/4 cup sugar
 1 cup chopped nuts
 Sift flour, measure and sift with baking powder and salt. Cream butter, add 1/2 cup of sugar and blend, then add egg yolks one at a time and beat thoroughly. Add vanilla. Add Quaker Oats to flour mixture and add to butter mixture alternately with milk, beginning and ending with the flour mixture. Place mixture in refrigerator and beat egg whites until frothy; then to this add remaining sugar, beating until smooth and stiff. Spread batter over bottoms of 2 well buttered 9-inch spring form pans. Sprinkle with chopped nuts. Bake in moderate oven 350 degrees for 30 minutes. Cool and put together with following pineapple filling:
 1/2 cup water
 1/4 cup sugar
 1 cup crushed pineapple 1 egg, beaten
 1 tablespoon cornstarch
 salt
 Turn water and pineapple into top of double-boiler. Add cornstarch, sugar and salt and cook over boiling water 20 minutes, stirring constantly. Add hot mixture slowly to beaten egg, stirring well, then return it to double boiler, and cook 2 minutes longer. Spread this, when cooled between layers of torte. Serve with whipped cream. Makes 12 servings.

BETTER SPANISH
 Many things have had to go unsaid in the Spanish III classes since they have to speak everything in Spanish. This certainly has quieted Willadene Mullins, down; much to Miss Smith's delight, who very seldom hear a peep out of her. Yesterday in La Tertulia club meeting some of the students nearly had heart failure when a few of the girls said that everyone had to give his newspaper articles in Spanish. You should have seen Mary Jane Aycock's face when she got up and tried to translate her current event into Spanish. Finally after much giggling, Miss Smith said it was all a joke and that she might read it in English. However, in spite of all the practical jokes, the Spanish students think that by speaking Spanish for 45 minutes every day that they will be able to speak Spanish more fluently by the time school is out.

MRS. E. J. EDDLEMAN CELEBRATES BIRTHDAY

Surrounded by her children, grandchildren, and friends in the house which has been her home since she came to Mitchell county as a young wife in 1889, Mrs. E. J. Eddleman of Spade celebrated her sixty-eighth birthday Sunday.
 Seventy-four people were present. Reminiscences filled a large part of the day.
 Mrs. Eddleman recalled early days when she would load her family into a wagon and travel 12 miles or more to church at what is now Dorn. When there was a revival or a series of services, those who had to travel any distance camped at the church, that being the only way they could attend without spending all the time on the road.
 In her younger days Mrs. Eddleman rode horseback a great deal, her farm having always included a large number of cattle. She is still very active. Only the other day she ran out into the pasture and helped a mounted man corral a calf which she wanted to sell. She told the man on the horse, "If I were 20 years younger I'd get on that horse and corral the whole bunch."
 To many of her friends Mrs. Eddleman is still "Mrs. McCullough." A Van Zandt by birth, she was married for many years to the late Mr. McCullough, father of all her children. After his death she married Mr. Eddleman, who is also dead.
 Attending the dinner Sunday were Lum Van Zandt and family, Jim McCullough and family, O. T. Brinson and family, J. D. Van Zandt and family, W. J. Wilson and family, Aubrey Wilson and children, George Van Zandt and family, Bud Moore

Freedom of Judgment
 —is essential to sound banking policies.

THIS bank has no special interests to serve or motives to satisfy other than strict adherence to the principles and practices of good, every day banking. It is free to use its best thought and to exercise its honest opinion on the merits of every transaction presented for its consideration. Its judgment as to the loans it grants and the investments it makes are unswayed by considerations that are not directly a part of safe, conservative and constructive banking.

We believe that this is fundamental to sound banking practice—that it is also the friendliest type of service we can render our depositors and our Community.

All set? listen: HERE'S THE ENGINEERING MUST STORY OF THE YEAR!

Featuring the **DYNAFLASH ENGINE and TORQUE-FREE SPRINGING** — in the Most Modern Chassis in the World

You won't drive a hundred yards in a new Buick without realizing that something marvelously new and different is happening here.

It's something that happens in no other car, in no other engine.

Speeding through the intake manifold, the fuel charge hurries into the cylinder at something like 250 miles an hour.

Leaping to meet it is the piston, with a unique device called a Turbulator built into its face.

Then occurs something more than

high compression—literally cyclompression—as swirling gasoline vapor is compacted about the spark plug.

The spark sets off a fist-size hurricane—and gasoline gives up more performance than it ever gave up in a commercial engine before!

This livelier, smarter power might seem enough for engineers to lavish on a car in a single year.

But matching DYNAFLASH power in importance is Buick TORQUE-FREE SPRINGING and its arrolite ride.

Take a Buick over a railroad crossing—around a curve—over bumps.

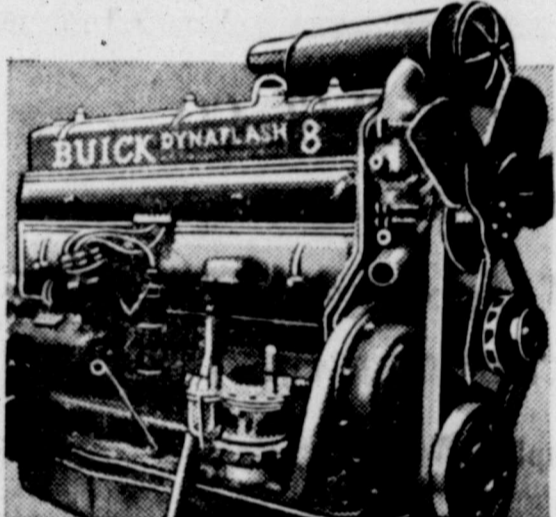

There's no thud and chatter, no tail-swing or roll; you cover rough going with the silk-smoothness of a panther on the prowl.

All because old-type leaf springs are gone! In their place, each wheel has a soft, shock-smothering cushion of stout coiled steel.

Skid risks are blessedly reduced. Rear tires last longer. The whole car handles more easily! That's TORQUE-FREE SPRINGING at work!

If it's power you're after, you'll want Buick's DYNAFLASH engine. If it's comfort, you'll choose the TORQUE-FREE SPRINGING ride.

With either you get the other—plus half a score of features your Buick dealer is waiting to describe. See him now—for the engineering "must" story of the year!

"Better buy Buick!"

Loraine Outplayed Rotan 52 to 12 In District B Contest

Air Attacks, Hard Running Antics Carry Bulldogs To Easy Victory Friday

The Loraine Bulldogs unleashed attack in all fury against the Rotan Yellow Hammers in district B-B conference play at Loraine Friday afternoon to defeat the Fisher county school boys 52 to 12. Well timed air attacks and hard running by the canines kept the visitors on defensive through much of the fight.

The Bulldogs opened up their scoring parade in the first quarter and never let up, pushing over one or more touchdowns in each period. Rotan scored in the second and fourth but at no time did the Yellow Hammers seriously threaten to upset the favored Mitchell county club.

Loraine's first score came on a pass. Al Simmons to Robert James. The Bulldogs connected with 7 out of 13 forwards for a total of 208 yards. Rotan completed 8 out of 29 passes.

Several Coloradans were among fans attending the game.

SHILLINGBURG ATTENDS DUBLIN DAIRY BANQUET

F. C. Shillingburg, head of the vocational agriculture department of Colorado High school, was in Dublin Saturday night to attend a banquet given by the Dublin Heart of Texas Dairy association to honor Erath county boys on the A. & M. team which won the national dairy judging contests recently.

Shillingburg and other former Erath county residents who, as students at A. & M., had been on winning judging teams in past years, were special guests at the banquet.

A. L. Darnell of the A. & M. faculty, coach of the winning team this year, was the main speaker on the banquet program.

Mrs. Shillingburg accompanied her husband to Dublin for the week-end.

Rogers Ramblings

The Seniors had charge of the devotional services Sunday morning. A short program was presented by various members of the class, after which a good general report was given to the secretary. We had some very interesting lessons Sunday and a good number for the services. We had some new members and we extend a hearty invitation to everyone to come and be with us.

The Senior class was entertained in the home of their teacher, Miss Moore, with a Halloween party Thursday night. The winners of the contest are "all set and ready" for Leon Callan's group to lose again. We believe they liked his entertainment. What? The party was carried out as a Halloween and barn party. The decorations were of various Halloween cut-outs with cowbells and chains and feed scattered throughout the home. After several games were played and contests lost and won the hostess presented each group with a clue for a treasure hunt, the treasure was a box of candy. After the treasure hunt, hot chocolate, cookies, candy and marshmallows were served to about 25 guests.

Everyone reported a good time. SCHOOL NEWS Well, well, for only 5c and 10c one can see the best show of the season. Our dancing, colored dolls have been limbering up and now with the "marionette" family they are ready to show you some good dance steps (that only their kind can do.) Don't live to say, "I wish I'd gone to see that show," but be here and ready to say, "Boy! I'd like to see that again." We are sure you will be amazed, surprised and delighted with the wholesome entertainment and clever actors and actresses in this "get-up." Come and see the "never-to-be-forgotten" story of "Jack and the Beanstalk" with every character turned into a human being. Don't miss it! Nov. 5, 7:30 o'clock. Thank you.

WE WONDER:

Why J. P. was trying to "erase" car tracks out of the road in front of a "certain gate" Sunday morning.

Why Mr. Sweatt was having a certain person chasing tennis balls this week, just because of something that was in the paper.

Why Bessie Mae insists on carrying on a conversation with a certain "little boy" in the class.

Mr. Sweatt (during a History class): J. P. what is a comet? J. P.: A comet is a star with a tail. Mr. Sweatt: Name one. J. P.: Mickey Mouse.

LOCALS

We wish to express our sincere appreciation for the donations given to our school by the Williams & Miller Gin Co. of Westbrook and the Guitler Gin Co., of Colorado.

Miss Moore's brother, who is attending Tarleton College at Stephenville spent the week-end in the home of Miss Moore and her parents of Westbrook.

Bro. Hobson and family from Rotan and Leonard Howell from East Texas were the guests of T. A. Howell and family Sunday.

GOOD-BYE PUMP MONKEY

Time was when you called the fellow who filled your fuel tank and checked your oil a "pump monkey". Nine times out of ten, he looked the part. But those days, as the saying goes, are gone forever. In Humble service stations, you'll find neatly-uniformed representatives of the company, carefully trained in the service of your car, thoroughly competent to give you expert advice on its care. Their merchandise — Humble motor fuels, motor oils, and other Humble products — is plainly labeled and guaranteed as to quality; their service is a by-word among Texas motorists. These days, there are no "pump monkeys" in the Humble picture; that's a good reason why so many folks stop for service where they see the Humble sign!

FEDERAL FARM BILL TO BE SUPPORTED BY NEW TAXES, ROOSEVELT SAYS

Congressional leaders sought Saturday to draft a new farm bill within the limits of President Roosevelt's emphatic declaration that any additional Federal expenditures for agriculture must be covered by new taxes.

Mr. Roosevelt warned the chairmen of the House and Senate Agriculture Committees during the day that the farm program must not endanger his plans to balance the budget next year. He outlined the points he believes should be included in the new bill. If fulfillment of those objectives will require additional expenditures, he said, the new obligations must be backed 100 per cent by additional receipts from new taxes.

Congressional leaders quickened their efforts to draft a bill in time for submission at the start of the special session Nov. 15. They said they will make every effort to obtain Senate and House agreement in time for final action during the extra session.

President Roosevelt's insistence that there be no budget-unbalancing provisions in the new farm bill appeared to reflect apprehension lest his fiscal plans for the 1938 fiscal year be upset in the same manner as during this fiscal year.

Last January Mr. Roosevelt's budget message to Congress forecast a layman's balanced budget. In a revised estimate last week the President estimated expenditures would exceed receipts by \$695,000,000.

The 1937 deficit has climbed to almost \$500,000,000—resulting partly from increased expenditures authorized by Congress and partly from disappointing revenue receipts.

COLORADO-LORAIN TIED FOR SECOND BRACKET IN 6-B CONFERENCE TUSSLE

The Wolves are tied with Loraine's Bulldogs for second place in 6-B conference competition after defeat by Roscoe Friday night. Roscoe had not lost a conference game out of four played during the season.

Colorado and Loraine have lost one game each. The Bulldogs were nosed out by Colorado by one point three weeks ago. Colorado was defeated by Roscoe 26 to 0.

Snyder is in fourth place with two games won and two lost. Rotan has lost three out of five games played. Roby and Merkel have their first engagement of the season to win.

POETRY

This Columnist is not much given to poetry but this week we fill our space with poetical effusions. We want to reproduce a parody on "Let Me Live By Side of the Road" written by Mrs. W. C. Taggart of Abilene and in order to do so we print the original and the parody:

ORIGINAL

There are hermit souls that live withdrawn
In the peace of their self-content;
There are souls, like stars, that dwell apart
In a fellowless firmament;
There are pioneer souls that blaze their paths
Where highways never ran;—
But let me live by the side of the road
And be a friend to man.

Let me live in a house by the side of the road,
When the race of men go by—
The men who are good and the men who are bad,
As good and as bad as I.
I would not sit in the scorners' seat,
Or hurl the cynic's ban;—
Let me live in a house by the side of the road
And be a friend to man.

I see from my house by the side of the road,
By the side of the highway of life,
The men who press with the ardor of hope,
The men who are faint with the strife.
But I turn not away from their smiles nor their tears
Both parts of an infinite plan;—
Let me live in my house by the side of the road
And be a friend to man.

I know that there are brook-gladdened meadows ahead
And mountains of wearisome height;
That the road passes on through the long afternoon
And stretches away to the night.
But still I rejoice when the travelers rejoice,
And weep with the strangers that moan,
Nor live in my house by the side of the road
Like a man who dwells alone.

Let me live in my house by the side of the road
Where the race of men go by;
They are good, they are bad, they are weak, they are strong,
Wise, foolish,—so am I.
Then why should I sit in the scorners' seat,
Or hurl the cynic's ban?—
Let me live in my house by the side of the road
And be a friend to man.

PARODY

"Did you ever meet a youngster who had been an' stubbed his toe,
An' was settin' by the roadside, just a cryin' soft and low,
A-hodin' of his dusty foot, so hard and brown and bare,
Tryin' to keep from his eyes the tears a-gatherin' there?
You hear him sort o' sobbin' like, an' sniffin' of his nose;
You stop and pat him on the head an' try to ease his woes,
You treat him sort o' kind like, an' the first thing that you know,
He's up and off a-smilin'—clean forgot he's stubbed his toe.

Now, 'long the road of life you'll find a fellow goin' slow,
An' like as not he's some poor man who's been and stubbed his toe;
He was makin' swimmin' headway 'till he bumped into a stone,
An' his friends kept hurryin' onward an' left him there alone;
He's not sobbin', he's not sniffin', he's just too old for cries,
But he's grievin' just as earnest, if it only comes in sighs,
An' it does a lot of good sometimes to go a little slow,
An' speak a word of comfort to the man who's stubbed his toe.

Today, you're bright and happy in the world's sunlight and glow,
An' tomorrow you's a freezin' and trugin' through the snow,
The time you think you've got the world the tightest in your group
Is the very time you'll find that you're the likeliest to slip,
So it does a lot o' good sometimes to go a little slow,
An' speak a word o' comfort to the man who's stubbed his toe."

This age's pace is quite terrific
With everything so scientific
Press a button, your eggs are fried
Turn a switch and your hair is dried
Your ice box works without a hitch
By simply turning on a switch
The airplane and the radio
Have cut the distance very low
The chances are that very soon
We'll ride a rocket to the moon.

I long to express myself
The eager poet cried
Oh pull your freight, resignedly
The editor replied

GONE WITH THE WIND

Another thought just flashed through my mind—and burned out a fuse.

We might add that but little of the poetry this week is original. About all the poetry we learned was:
Mary had a little lamb,
The boy stood on the burning deck,
Oh, were you ne'er a school-boy and did you never train,
Ye crags and peaks, I'm with you once again. Etc

For you, beloved, for you
I'd battle snow and ice
But there's something I'll never do
That's see the same show twice.

A little nonsense here and there
Will keep the color in your hair
But too much nonsense you'll agree
Is not good for you and me.
—Enough.

A pun, we are told is the lowest form of humor and appreciated only by the feeble minded. Hence no more puns.

ARMAGEDDON

Nearly all Christians believe there is an Armageddon in waiting. Just when they don't know, but certain it is. When we see the buds begin to swell we know spring is near at hand; when we see the leaves begin to fall we know it is time to prepare for winter. Many of the prophecies pointing to Armageddon have been fulfilled, and others show that the leaves are turning and falling. The restlessness of the people, and the unsettled condition of the Nations of the world point an awful cataclysm of the human race in the near future. The

near future means God's time, not man's. Read the 33rd chapter of Ezekiel's prophecy for forecasts, and the 24th and fifth chapters of Matthew for Christ's words of warning. Study the Jew and the Holy Land as central figures in coming world events. Christ on earth was a Jew, and God gave the Holy Land to the Jews, and it is a guaranteed title.

CIGARETTE SMOKERS

One of our exchanges, The Winnsboro News, last week said: "There are hundreds of wrecked homes over the country today because of the lack of chicken dumplings. Many women who now are flirting around, smoking cigarettes and looking like an amateur painter when if they were at home making chicken dumplings the divorce courts would soon be as ancient as the old-fashioned domestic undershirt. One woman said she worked four years to get her man and never did succeed till one day he called and smelled chicken dumplings cooking, and if she will keep him smelling them no other woman ain't a going to get him—unless said other woman can cook better dumplings."

Of course chicken dumplings go a long way toward holding a home together. But cigarettes are not to be discounted in their relation to domestic bliss. Coming next to a cob pipe is the cigarette. What is a more beautiful picture than that of a devoted couple sitting side by side, beside the glowing hearth and enveloping each other in a cloud of cigarette smoke? What is more pretty than for him to light her cigarette and her to blow smoke and sweet nothings simultaneously into his ear? If she can make chicken dumplings without neglecting her cigarettes or her rouge, very good. Very good indeed. But what woman would want a husband who could be held only by the strength of her chicken dumplings, a husband who made rouge and cigarettes secondary and chicken dumplings primary? What woman of high sensitivity would want a husband who gorged himself at the table and then went to sleep in the living room like a python with a pig inside? It is hardly possible to conceive of two mouths that gobble as one, but it is conceivable that two souls can smoke as one.

This writer is an incessant smoker of a cob pipe, no cigarettes, and we can remember way back when it was not uncommon for a genial couple to set at opposite ends of the hearth and smoke clay pipes. Corn cob pipes were not made then, but that was not a sign of perfect unity; it was a sign of nothing to say to each other.

QUESTIONS

If while a man was robbing a house the owner saw him and shouted at him and the man ran across the street, a careless driver ran over him and killed him, who would be tried for the crime?

ANOTHER QUESTION

If two men are standing on the concrete sidewalk quarreling and one man becomes angry and knocks the other man down, he hits the sidewalk with his head and fractures his skull. An ambulance is called and on the way to the hospital the ambulance has a wreck and the poor man is thrown out and breaks one of his arms, and crushes one lung. They carry him on to the hospital and on the way he develops pneumonia. After he gets to the hospital one of the nurses leaves the window up too high and he develops double pneumonia and finally dies. Is anyone tried for murder?

THE PEOPLE ARE NOT DUMB

The senatorial economy bloc at Austin is a huge joke. The people have not forgotten how that body rushed through a bill to raise salaries and the acting governor signed the bill while the governor was absent, attending official (?) business in Washington.

Many people imagine that Noah Webster must have studied much, and traveled far to have been able to compile a dictionary of countless words. No by reading ancient history we learned that he simply sat at home and listened to his wife and mother-in-law talk.

Each and every Thursday The Record is mailed out to hundreds of out of town subscribers, many of whom are former citizens of Colorado and Mitchell county, who by circumstances are separated from us by years and miles, but still want to keep in touch with old friends here through the medium of the county paper.

These good people remain firmly and kindly affixed in our memories and are often in our minds and when passing through Colorado are invited to stop in and visit with us.

In this spirit The Record takes the opportunity in behalf of the town and county to extend greetings and best wishes to all.

Editing a paper without ruffling anybody's feelings is like fishing without a hook on your line, you get lots of recreation, but no results.

The only way to be rid of the worry about the things we have not done is to do them.

A person may write and publish a hundred good practical ideas, like this writer does, and we never know whether they are read with approval or not. But let us write some foolish thing, or make a mistake in stating a fact, and he finds out that nearly everybody has either read or heard about it. The writer of this column would like to know if he is talking in harmony with public opinion or whether he is setting in the "seat of the scornful."

H. D. Broadus consulted a specialist this week and the specialist told him, "Frequent water drinking prevents you from becoming stiff in the joints." "Yes," said Mr. Broadus, "But some of the joints don't serve water."

Ed Jones said this would be a lovely world if men showed as much patience in all things as they do in waiting for a fish to bite.

W. W. Porter said some men get what they deserve; others remain single.

We visit the Carlsbad Cavern with a bunch of ladies and the guide said: This ladies and gentlemen is the greatest cataract in the country and if the ladies will only be silent for a moment you can hear the deafening roar of the waters.

A stranger who had just drove into town met A. R. Wood and said, I've come out here to make an honest living. Wood said well there is not much competition.

Charlie Thompson and his wife were talking over matters when the wife said, Still, the woman who drives from the back seat is no worse than the husband who cooks from the dining-room table!

A salesman tried to sell Jewel Barrett a typewriter this week. He said, "This typewriter will revolutionize the industry." "How," asked Jewel. "Look at the adjustable mirror, powder compartment, manicure set built in, and a hideaway for chewing gum."

The lady at one of our recent cooking schools was addressing the meetings on "The Duties of the Housewife." She remarked that it was the duty of every woman to mother her husband. Wishing to see what impression this had made on her audience, she asked all those to stand up who were willing to mother their better halves. Only one woman stood up. "Ah, she said, I am glad to see there is one of you willing to mother your husband. Oh, excuse me, said the standing woman, I thought you said another your husband.

An able-bodied man who will lay in bed of mornings and let his wife get up, start the kitchen fire, get breakfast, and look after the baby, is a mighty "onery" helpmeet.

Shakespeare wrote of the Merry Wives of Windsor, but that must have been when Windsor had more than one wife—Wally.

We have all seen the sorry spectacle of men suddenly made rich in money but still poor in mental resources, painfully trying to kill time in what Richard Steele called "the insupportable labour of doing nothing." George Chapman described it as the "wretched estate of men of fortune blest, that ever idle never rest."

IGNORANCE

Ignorance, because of the stupidity that must and always has characterized it, also because of the power and authority it possesses, is the creator of egotists. The combination of ignorance and egotism gives him who incarnates them the idea that he is great. If he should realize that he is not, it doesn't matter so long as he can cause others to think he is. Such a one is not so desirous of being wise as he is of making those about him believe he is.

One of the grammar teachers asked a pupil in the class to name a collective noun. He did, "garbage can."

Higher Newsprint Price May Reduce U.S. Consumption

Unless North American newsprint manufacturers reduce their previously announced prices next year most American publishers will probably be forced to increase advertising rates as well as subscription prices, the newsprint committee of the American Newspaper Publishers' Association has announced in the ANPA monthly bulletin.

An increase of \$7.50 a ton for the first six months of 1938 has been posted by International Paper Company, Price Brothers and Abitibi, with intimation of further increase the last six months. Great Northern Paper Company announced an increase of \$5.50 a ton for the first six months and \$7.50 the last half. Together they will impose a \$35,000,000 extra expense on United States newspapers.

Such a burden, the committee says, will, in addition to increasing advertising and subscription prices, force drastic reductions in consumption by newspapers. Average delivered price of newsprint the first six months of next year in Dallas and vicinity will be \$55 a ton.

Manual DeBuck of Washington, employee in offices of the Federal Housing Administration, was a visitor in Colorado Monday. DeBuck arrived here Sunday night in company with Lloyd Croslin. DeBuck left late Monday afternoon to visit his mother in Lubbock before returning to Washington.

2. Be quick to answer when called.
