

### SUCCESS ATTENDED FIRST STOCK SHOW OF CC ON MONDAY

#### HUNDREDS VIEW EXHIBITS AT TABERNALE; COLORADO BOYS CARRY OFF HONORS IN JUDGING EVENTS

Success which surpassed the predictions of even its most optimistic supporters was accorded the first Colorado Fat Stock show of the Colorado chamber of commerce by the hundreds of enthusiastic Mitchell countians who attended it Monday at the union tabernacle.

All those who were connected with the show expressed themselves Tuesday as being highly pleased with the quality exhibits which it included and the public interest which it aroused. Among those playing prominent parts in show arrangements were Truett Barber, president of the chamber of commerce; C. C. Thompson, general chairman of the livestock-agriculture committee directly responsible for the show; P. K. Mackey, executive chairman; Carl Blasig, secretary-manager; B. J. Baskin, county farm agent; the county's two vocational agriculture teachers, F. C. Shillingburg of Colorado High school and C. V. Cox of Westbrook; and all members of special committees.

Thousands of interested spectators milled about in the tabernacle throughout the day, and the building was filled almost to capacity for the judging events beginning at 1 o'clock Monday afternoon. W. L. Stangel, head of the animal husbandry department of Texas Tech, Lubbock, was judge.

Forty-two calves, twenty lambs, and four hogs were included in the show. All were fed by Mitchell county boys under either FFA or 4-H supervision.

Major honors in the judging went to Colorado FFA boys. Jack Long, Colorado FFA boy, won the grand champion steer which won the grand championship in the calf division after first winning the heavyweight division. Reserve honors went to Clay Smith, Jr., another Colorado FFA boy.

The champion Rambouillet lamb was shown by J. F. McCabe, Jr., Colorado FFA boy, who also won third place in the lamb show. Ross Glover won second place. A Duroc Jersey barrow shown by Wallace Hestand, Buford 4-H boy, was named grand champion in the hog division. A. K. McCarley, Jr., Longfellow FFA, won reserve honors.

Winners by divisions follow: Dry lot steers, 800 pounds and over—First, Jack Long, Colorado FFA; second, Waddell Strain, Colorado FFA; third, Raymond Fuller, Colorado FFA; fourth, Raymond Uzzle, Colorado FFA; fifth, Oscar D. Roberts, Colorado FFA; sixth, Garland Strain, Mitchell county 4-H.

### MARBLE LION DELIVERED TO SNYDER CLUB BY 15 LOCAL MEMBERS TUESDAY

Fifteen members of the Colorado Lions club visited the Snyder Lions club Tuesday noon and delivered to them the marble lion of Carthage, Mo., which was brought to Colorado by the Roscoe club on Friday, April 1.

Included in the group were John Watson, Clarence Cook, Jake Richardson, Dell Barber, Archdeacon, J. W. Hayes, Jack Helton, Louis Elliott, Jake Merritt, Bill Oswald, Jerald Riordan, Oscar Majors, Joe Mills, M. O. Chapman, Walter Whipkey, and Joe Earnest.

The lion, carved from Ozark mountain marble by a member of the Carthage, Mo., Lions club, has been on a tour of Lions clubs of the nation since March, 1936. Colorado was the fifteenth town in Texas and the fifty-sixth in the nation to receive him. Ten Roscoe Lions delivered him to the Colorado club.

### CHS RETAINED ON APPROVED LIST OF SOUTHERN SCHOOLS

#### WARNING ABOUT NEED OF FULL TIME LIBRARIAN IS REPEATED, HOWEVER

Notice that Colorado High school has been retained on the approved list of the Southern Association of Colleges and Secondary schools was received by John E. Watson, superintendent.

The school has been listed in the association since 1928. Its retention this year was even more significant than usual in view of the fact that such prominent secondary schools as Abilene and Corpus Christi have been dropped, both because of having too many students for the number of teachers.

Supt. Watson and other school officials here felt confident that Colorado would not be dropped for this particular reason, but they have been doubtful of retention because of the fact that Colorado High school has no full-time librarian.

The Southern association has issued several warnings to Colorado High school on this matter, and the warning was repeated this year. Colorado now has a paid librarian for only two periods each day.

### PROGRAM BEING ARRANGED FOR HISTORICAL MEETING IN COLORADO ON MAY 14

Program is being arranged for the 15th annual session of the West Texas Historical society in Colorado on May 14, according to Judge R. C. Crane of Sweetwater, president.

E. M. Landers of Hardin-Simmons university is secretary and Dr. R. N. Richardson of Hardin-Simmons is editor of the yearbook, of which 13 editions have been published.

Those who read papers at the session will include Col. M. L. Crimmins, retired army officer of San Antonio and New York City, who will discuss "General Earl Van Dorn in West Texas"; Dr. H. B. Carroll of the state college at Portales, New Mexico; Dr. J. S. Waller of Texas College of Mines, Dr. S. S. McKay of Texas Technological college, J. W. Williams of Wichita Falls and others.

The West Texas Historical society was organized in 1924, and since that time its membership has delved into history of West Texas.

### TRUSTEE ELECTIONS ARE REPORTED IN THREE MORE RURAL SCHOOL DISTRICTS

Trustee election results from three more rural districts of Mitchell county had been received at the office of Roy Davis Coles, county superintendent, this week.

E. H. Cockrell was reported elected at Seven Wells, Frank Stewart elected at North Champion, and Lester Webb as Bauman.

Shepherd is the only district now remaining unreported, according to Mrs. Harold Bennett, assistant county superintendent.

### NAMES OF CRIPPLED CHILDREN ARE SOUGHT

Names of crippled children in Mitchell county are being sought through the office of Mrs. Bonnie Burt, county welfare chairman.

This move has no connection, it is pointed out, with the Easter seal sale campaign now being held by the Texas Society for Crippled Children. These names are wanted because a recent endowment to a well-known West Texas hospital has placed treatment within the reach of many children who may have been in need of medical care for some time. The Easter seal campaign is state-wide, but this endowment applies only to crippled children of West Texas.

The term "crippled children" applies not only to children who are actually crippled, but also to children having harelip and cleft palates.

Anyone having or knowing of such a child is requested to write or call on Mrs. Burt at the welfare office.

### DEATH WROTE TRAGIC FINIS TO ATTEMPT OF PIONEER COLORADOANS TO ESTABLISH RANCH HOME ON THE PLAINS 37 YEARS AGO

It was 37 years ago this spring that Mrs. M. P. McCall, 84-year-old Coloradoan, experienced what she recalls as the "saddest day of my life" as death wrote a tragic finis to an attempt which she and her husband had made to establish a ranch home on the plains.

On that day the spring sunshine which lay still and warm over greening West Texas ranglands only emphasized the bewildered grief in Mrs. McCall's heart, as accompanied only by three strange men, she drove from dawn till dark to carry the body of her husband, J. D. McCall, to Colorado for the services of an undertaker.

The McCalls had been living on the Square and Compass ranch south of Lubbock for only a little more than a week when Mr. McCall was stricken with pneumonia. With the help of only two ranch hands, Mrs. McCall nursed him. There were no neighbors. A doctor was summoned twice from Gail, 27 miles away. At 3 o'clock on the morning of March 21, 1901, Mr. McCall died.

Exactly two weeks from the day they had left Colorado the McCalls returned in a sorrowful little procession that included the hack which carried Mr. McCall's shrouded body and the buggy where his widow rode with one of the ranch hands.

But today Mrs. McCall remembers courageously, not bitterly. Her alert grey eyes, beautiful under snow-white hair, dim but momentarily as she recalls the sorrowful times of her life, and as she points out, gently, that "it's a little hard to be the last one." She is the last member of a family which originally included four sisters and a brother. The brother, J. O. McCress, died in San Antonio last summer. She has no children.

Although she is too gently mannered to flatly refuse a request for an interview, Mrs. McCall frankly "doesn't like publicity." She insists

Hickman has been on the law force of Colorado for 20 years, and is now serving his fifteenth year as chief of police.

The council swore in Roy Dozier and Charles Mooser as new aldermen. They were elected to succeed themselves in city balloting on April 5.

Prices that were described as "excellent" by those in charge were paid for the animals which Mitchell county FFA and 4-H boys exhibited and put up for auction in the first Colorado Fat Stock show Monday.

Sam Wulfjen was auctioneer for the sale of the animals after the judging events. The grand champion calf, weighing 810 pounds and fed by Jack Long, Colorado FFA boy, was sold to Piggly Wiggly for 15 cents. The reserve champion fed by Clay Mann Smith, also a Colorado FFA boy, brought 12.50 from Pick & Pay.

These two calves won the first places in the heavy and light divisions. The other fourteen winning calves were sold as follows: Heavy weight—second, Waddell Strain, to City market for 11.25; third, Raymond Fuller to I. Webb to City National bank for 10; fourth, Myrtle Jameson to Wulfjen Bros. for 10; fifth, Raymond Uzzle to Broadway Cafe for 9.50; sixth, M. A. Webb to Earl Hammonds for 9; seventh, Murrell Blasingame to D. H. Snyder for 9.25; eighth, Nathan Welch to R. E. Gracey of Roscoe for 9.25.

Piggly Wiggly paid 20 cents for the first prize lamb belonging to J. F. McCabe, Jr. Truett Barber paid 9 cents for the grand champion barrow of A. K. McCarley, Jr., and Pick & Pay bought McCarey's reserve champion for 8.75.

Others who bought calves in addition to the winners were Pick & Pay, Bronson Gregory, Col-Tex employees, Dr. Oscar Rhode, Wimberley Motor Co., Safeway, Texas Electric Service company, John Colson, C. D. Hornberger, Lee Carter, Oswald Drug, and Joe Mills.

### DRILLER OF FIRST WEST TEXAS WELL RETURNS TO FIELD

The man who drilled the first producing oil well in West Texas in 1918 in what is now the Westbrook pool of Mitchell county returned to the West Texas oil picture this week when S. S. (Steve) Owen of Tulsa, Oklahoma, staked location for a deep test in northeastern Howard county.

The test is to be drilled in the NE corner of the SE quarter of the SE quarter of section 33, block 33, Twp 3N. It will be known as the No. 1 Delta Slaughter Wright. Rig and tools for a 4,500 cable tool test are being moved in. Top of brown lime is expected around 3100 feet, and the well is expected to test the big pay found in the Westbrook pool of Mitchell county at around 1,400 feet in the big lime. This will be the first test of this horizon in northeastern Howard county.

Owen not only drilled the first producing well in West Texas, but also drilled the largest well on the east side of the Permian basin, the No. 2 Dora Roberts in southern Howard county. This well had an initial production of over 7,000 barrels per day natural.

Owen and Geo. F. Thomas, geologist from Tulsa, made headquarters at the Colorado hotel while arranging for the well location. They left Wednesday morning for Dallas and Tulsa.

A program on "Our Nation's Safety" was presented at the luncheon meeting of the Lions club Friday.

John E. Watson, superintendent of schools, and the Rev. T. A. Patterson, pastor First Baptist church, were speakers. Woodie Holden, minister to the Church of Christ, was a visitor.

Plans were made for carrying the marble lion of Carthage, Mo., to the Snyder club on Tuesday.

### DON'T FORGET YOUR EASTER SEAL MONEY!

Don't forget to pay for your Easter seals!

That was the request issued this week by D. M. (Jake) Merritt, who is treasurer for the Easter seal fund in Mitchell county.

Letters containing 100 or more seals were mailed out last week to around 1,600 Mitchell countians. In the letters were self-addressed envelopes for mailing payment for the seals to Merritt.

The seal sale drive lasts through Easter. The money derived from the sale of seals in Mitchell county will be divided between the Texas Society for Crippled Children and local child welfare agencies. The drive is being sponsored in this county by the Colorado Lions club.

Merritt is receiving payment for the seals either by mail or in person. Each person pays what he considers the seals worth, but the average price is \$1 per 100.

### WESTBROOK FFA'S LEAVING SATURDAY ON FIVE-DAY TOUR

Between 15 and 20 Future Farmers of Westbrook High school will leave early Saturday morning to spend five days visiting A. & M. and other points of interest, according to C. V. Cox, Westbrook vocational agriculture teacher.

Included in the group will be the Westbrook poultry judging team which won first place in district contests held recently at Roscoe. They are to compete in state contests at A. & M. on Monday. Kenneth York, Ansel York, and Rufus Jackson compose the team.

Only those FFA boys who are passing in all their school work will be taken on the trip, Cox says. After spending Sunday and Monday at A. & M., the group will go to Houston and Galveston. They plan to come home via San Antonio and Brackenridge park on Wednesday.

The boys have been trying to raise money to pay most of their expenses, Cox says. On Friday night they plan to present two plays at the Westbrook auditorium in a final money-raising effort. One of these plays won first place in district contests at Roscoe. Its cast includes Alfred Taylor, Leslie Bassinger, Kenneth York, Boyd Anderson, Harold Berry, Ray Moody, and Billy Waters.

### PARK AMPHITHEATER WILL BE ENLARGED UNDER WPA PROJECT

Approval on the city of Colorado's application for a WPA grant to be used in enlarging the Ruddick park amphitheater was received Friday morning by Mayor J. A. Sadler, who is in charge of the project.

Total cost of the project is to be near \$1,400, with WPA furnishing an estimated \$672 and the city and local amount.

The project covers the extension of terraces at the amphitheater so as to almost double the present seating capacity. The amphitheater was entirely inadequate to accommodate throngs attending the weekly amateur hour of the Colorado chamber of commerce last summer.

Work on the project will be completed in time for the outdoor program of the coming summer, Mayor Sadler says.

In the hours between these two the meaning of Easter will be commemorated in song and sermon at the various church services.

SUNRISE SERVICE The sunrise service at First Christian church will begin promptly at 5:45, it was announced this week.

Those who attend are asked to enter the church quietly. The church will be lit by candles, and the dawn of Easter will be heralded with due reverence. W. W. Porter has charge of arrangements, and all pastors of the town are to have part. Mrs. Nat Thomas is to decorate the church for the occasion.

### FORT WORTH SUICIDE BELIEVED TO BE MAN WHO ONCE LIVED HERE

A man who was found dead in a Fort Worth hotel on Monday afternoon is believed by Coloradoans to have been in business here for some time about 10 years ago.

The man was identified as Meyer Levinson, 49, of Fort Worth. A man bearing that same name once operated a store known as the Public Market here, and this man was living in Fort Worth when last heard of here. Max Berman, D. Bodzin, and other Coloradoans who knew the Levinson who lived here, however, find it hard to believe that he would have taken his life, especially for financial reasons.

When the Fort Worth man's death was discovered Monday a note written in Hebrew was found in his room, and in his clothing was an application filed with the Texas State Unemployment commission. The application gave his occupation as a salesman, which is the kind of work the former Colorado man followed after leaving Colorado.

An inquest verdict of suicide by poisoning was returned in the death. The Meyer Levinson who lived here, had two sons and a daughter.

**BASEBALL FANS REMINDED OF FILM TO BE SHOWN ON TUESDAY MORNING AT RITZ**

With the place changed from the Palace to the Ritz theater, the two baseball films which are to be shown Tuesday morning under auspices of the Colorado chamber of commerce are exciting much interest among local baseball fans.

The first show will start at 10 o'clock, the second at 11 o'clock, according to Carl Blasig, chamber of commerce manager. Both shows are free.

The films include newsreel shots of the All Star game at Washington, the 1937 World Series. The picture is particularly instructive during the slow motion portions of Joe DiMaggio's swing and the batting, fielding and pitching technique of many of the other American League baseball stars. Joe DiMaggio, Jimmy Foxx, Hank Greenberg and Hal Trosky are pictured as home-run sluggers; Joe Kuhel and Charley Gehringer and others as infielders; Lefty Gomez, Bob Feller, Johnny Allen et al for their tricks in the pitching box.

This is the first time this picture will be shown in this section of Texas. It has been booked for several months in advance and was procured at this time by the Trade Extension committee of the Colorado chamber of commerce through the courtesy of the Fisher Body Division of General Motors Corporation.

**Death Wrote**

(Continued from Page One)

she has "nothing interesting to tell." Yet she remembers how her father's slaves hid horses in the canebrakes and how her mother buried hams during the Civil War to save them from Yankee hands. And she remembers how she and her husband ran an "ice cream parlor" in Geneva, Alabama, using precious ice that was delivered twice weekly via steamboat on the Choctawhatchee river, and freezing the cream by hand in a five-gallon freezer.

She was born Margaret Palestine McCreless in that part of Pike county, Alabama, which is now included in Bullock county on March 1, 1854. Her father, John McCreless, was a farmer. He joined the Confederate army in 1863, and this left her mother alone on the farm with five daughters and two negro slaves. The brother was born after the war. It was the slaves who hid horses and other livestock in the canebrakes when the news came that the Yankees were approaching along the highway about a mile from the McCreless home. Only two Yankees ever came to the home, however, and these found nothing that they wanted or needed.

J. D. McCall was a farmer in that same county. After a courtship that included horseback rides and buggy rides he and Margaret McCreless were married at Mount Hilliard, Alabama, on December 21, 1882.

After four or five years at Mt. Hilliard the McCalls moved to Andalusia, Covington county, where they farmed for two years. Then they moved to Geneva. It was here that they operated the ice cream parlor with a cafe in connection, and also owned a livery stable. The ice they used in making the cream was brought from Pensacola, Fla., by boat through Choctawhatchee bay and up the Choctawhatchee river. No one else in Geneva took ice, and when the McCalls had plenty they sold it at 5 cents per pound. Mrs. McCall made the cream herself, but had hired helpers to turn the freezer. She had a special blended flavor that her neighbors were never able to copy. Incidentally, one one kind was made each day, and whoever wanted ice cream took whatever kind was on hand, or none at all.

Three years passed. The McCalls decided to return to farm life in Andalusia. It was from there that they came to Mitchell county in 1895, settling on a farm in what is now the Dorn community. They moved from this farm to the Square and Compass ranch, where Mr. McCall died.

After Mr. McCall's death Mrs. McCall made her home with a sister, Mrs. J. F. McGill, and her husband. The McGills lived for years on their ranch south of Colorado, then moved to Colorado when Mr. McGill traded for a stock of goods at Lancaster and

opened a store in Colorado. Mrs. McCall died in 1921.

Mrs. McCall feels today almost as if Mrs. McGill's only daughter, Mrs. Ed Dodge of Albany, is her "own" child, and she likes to think of herself as "grandmother" to Mrs. Dodge's little daughter, Nancy Mary. Mr. McGill now lives in Albany with Mrs. Dodge, who was Ruby McGill before her marriage.

Reading and sewing and doing her own housework pass the time for Mrs. McCall. Her eyesight is unusually good for her age. She likes listening to the radio. She belongs, she says, to "nothing but the Methodist church and the Daughters of the King Sunday school class."

**Neither flood nor storm can silence your telephone long**

We depend upon Western Electric... Bell System supply unit... to pour material into wrecked areas AT ONCE!

Floods and storms in Arkansas and Oklahoma took heavy toll of telephone lines in February. Yet almost all the silenced telephones were back in service within a few days.

One reason: Western Electric warehouses, spotted so no Southwestern Bell town is farther than an overnight jump, poured material into the wrecked areas AT ONCE.

Without Western Electric supplies, instantly available, our job of giving you good telephone service at low cost would be vastly more difficult. And Western Electric prices are moderate. Over the last 20 years its earnings have averaged less than 7%.

County's leading negro citizen is said to be its oldest citizen.

"80 John" Wallace, Mitchell county's leading negro citizen and said to be its oldest citizen in point of years spent here, and his wife celebrated their golden wedding anniversary Friday, April 8.

Wallace came to Mitchell county with the late Clay Mann in 1877, nearly four years before there really was a Mitchell county. His nickname, "80 John," was given to him by cattlemen because of the years he spent on Clay Mann's "80" ranch.

After a time with Clay Mann, Wallace went to work with John Nunn. He went up the trail on many occasions, and can tell interesting tales of pioneer days, wide-open ranges, buffalo, and savage Indians.

He owns an extensive ranch near Loraine in addition to numerous other properties. The new negro school in Colorado is named for him because he gave the land on which it stands. His daughter, Hetty Wallace, has taught in the school for years.

His real name is "D. W." but it gave away years ago to "80 John." The Wallaces have four children.

**FUNERAL FOR RANDLE'S FATHER HELD SUNDAY IN CHURCH IN CHILDRESS**

Described by Coloradans who attended as one of the largest funerals which they had ever witnessed, last rites for Cross Randle, 66, father of J. W. Randle of Colorado, were held from the First Methodist church in Childress Sunday afternoon.

Mr. Randle, a pioneer resident of Childress county, died unexpectedly Friday morning. According to word reaching here from Childress, he left home for work apparently in the best of health. He was stricken on the way and died in a filling station where he stopped for aid.

He settled at Esteline in Childress county in 1889, moving to Childress in 1919. He was engaged in the hardware and implement business there.

The Rev. Cal C. Wright, former pastor of First Methodist church here and now presiding elder at Vernon, assisted in conducting the funeral service. John E. Watson, J. Ralph Lee, and Earl Bibby attended from Colorado.

Surviving are Mrs. Randle; two daughters, Mrs. Ed Warren of Goodlet and Miss Mittie Lee Randle of Childress; and the son of Colorado.

Mr. and Mrs. Randle returned home Wednesday night, being brought by Mrs. Randle's sister, Mrs. Ralph McBride, and her husband, who returned to Childress after

spending the night. Mrs. Randle's mother, Mrs. M. E. Higginbotham, came to Colorado Sunday with the funeral. She has been staying with the Randle children since Sunday. Prior to that time the children stayed with Mr. and Mrs. Bill Coffey.

Mr. and Mrs. Randle had to go to Childress by train Friday because the snowstorm and blizzard had isolated Childress from all other traffic.

**PICKED UP ALONG THE NEWS PATH**

Three prankish "youngsters"—one of 'em is not only a husband but also a father and holds a responsible position in a certain Colorado institution—had quite a bit of fun with a "dummy" man Saturday night, according to my grapevine telegraph system. . . . First they knocked on the door of their grandmother's home, then scooted away leaving the dummy lying on the porch. . . . Getting no reply from the "man" who lay so still on the porch when they answered the door, members of the grandmother's household phoned the police that a "drunk" was apparently sleeping it off on their doorstep. . . . The dummy's next appearance was at the Jim Hale home. . . . But Jim Hale wasn't to be trifled with—when the "man" on his porch wouldn't answer him, he took off his shoe and let him have it—right over the head. . . .

It seems that the first Colorado Fat Stock show was a success, every way you look at it, and those who ought to know are predicting great things for the 1939 show. . . . This writer can lay no claim to knowing what's quality and what isn't in animals, so the fact that I enjoyed looking at the calves and the sheep and the hogs proves that anybody could have enjoyed it. . . . And hundreds did. . . . They tell me lots of people visited the show building Sunday while the exhibits were being prepared, and this number must be added to the other hundreds who were on hand Monday. . . . Personally, I looked longest at the sheep, especially one cute fellow who wiggled his nose at me and looked as if he would like to be petted—honest he did. . . . I'd have obliged, but I was afraid there might be some rule like the one about not feeding the monkeys at the circus. . . . Fun to watch the calves getting their "finger waves." . . . B. J. Baskin.

county farm agent, was doing a grand beautifying job on one animal. . . . There was only one somber note about the whole business, and thinking about it puts me, I guess, "on the sentimental side." . . . That was the thought of those pretty, gentle, friendly calves going off to lose their marcelled hides and become roast and beefsteak. . . . I can hear the masculine chorus saying, "Just like a woman!"

From Margaret Turner's "The Woman's Angle" column in the Lubbock Avalanche-Journal: "Fishermen who are planning a trip in the near future will be glad to know that there is no special change in the style of tackle this year, excepting that the bottle has more body and not quite so much neck."

In spite of her deep grief over the recent loss of her husband, Mrs. W. H. Garrett is said to be going courageously forward with plans for the observance of the tenth anniversary of the Methodist church's McCall mission Sunday school in East Colorado on April 24. . . . Mrs. Garrett has been superintendent of the mission ever since it was established to make Sunday school accessible to many East Coloradans who had no way to get to the mother church. . . . She and Mrs. L. A. Costin and other helpers have given up easier work in more comfortable surroundings to carry on the mission Sunday school every Sunday morning. . . . Their faithfulness deserves a tribute. . . . Shortly before Mr. Garrett's death Mrs. Garrett was made very happy by a check which Congressman George Mahon sent to her as an anniversary offering for the mission. . . .

Seems that Billie True Templeton had ten grandparents when she was born rather than the nine mentioned in a recent Record story. . . . Well, nine was enough to make news, anyway. . . . Mrs. H. B. Broadus is said to have a rose bowl that is the only one of its kind in the nation and one of five in the entire world, the other four being in Europe. . . . I'm told that Iva Helen Lee recently attended a grand opera, which should make her one of the youngest in Colorado to hold that distinction. . . . In fact and in truth, it would put her in kind of a rare class even if she were several years older, grand opera being as plentiful as it is in these parts. . . .

Whispers have it that there's a new diamond on the most significant finger of a certain Colorado girl's hand. . . . If there is, it must have been put there by a certain Colorado boy. . . . The same whispers have it that the wedding bells will follow in June or July. . . . All of which means that a certain little Colorado church may be the setting for two weddings rather than one in the next few months. . . .

Easter will be a busy day for Archdeacon J. W. Heyes of All Saints' Episcopal church. . . . He will take part in the sunrise service at First Christian church here at 5:45, hold Easter communion at All Saints' at 9 o'clock, preach an Easter sermon at the Sweetwater Episcopal church at 11 o'clock, and hold services at the Coleman Episcopal church Sunday night. . . . Outside of that he has nothing to do. . . .

**ROSCOE MINISTER FILLS BAPTIST PULPIT HERE**

Pulpit of First Baptist church was filled Sunday morning and evening by the Rev. G. W. Parks of Roscoe in the absence of the pastor, the Rev. T. A. Patterson. . . . The Rev. **R. TEMPLE DICKSON OF SWEETWATER ENTERS RACE FOR STATE REPRESENTATIVE'S POST**

R. Temple Dickson, prominent Sweetwater attorney and well known throughout West Texas, Thursday announced his candidacy for state representative for the 117th district, subject to action in the Democratic primaries in July. The district is composed of Nolan, Fisher and Mitchell counties.

Repeal and simplification of several existing state laws, and elimination and consolidation of state bureaus for purposes of economy are among the planks in his platform.

Mr. Dickson has been practicing law in Sweetwater for about six years and has figured prominently in many notable court cases throughout West Texas. He was special prosecutor here last year when the Ringer brothers were given a maximum 4-year penitentiary sentence on charges of theft of sheep. Although a young man he has had extensive practice in both state and federal courts, and has an enviable record for the number of cases won. His experience has given him a deep insight into the legal needs of the state, both in the civil and criminal statutes. He is a forceful speaker.

Mr. Dickson is a member of a noted family of attorneys. His father, Jo A. P. Dickson, has served for the past 13 years as district judge at Seymour, and previous to that was district attorney of the same district for eight years. A brother is a former district attorney at Seymour.

He was admitted to the bar at the age of 20, and at one time was the youngest lawyer and court reporter in the state. He practically grew up in a court room.

Mr. Dickson is 29 years old, is married and has one son. He has farm and ranch interests in Nolan county and is well acquainted with the needs and problems of the rural sections of the district.

In making formal announcement

of his candidacy, Mr. Dickson issued the following statement: "Should I be elected I would advocate the repeal of many of our existing state laws that have grown obsolete. I would favor abolishment of several state departments, organized for the primary purpose of furthering the political interests of some of our state officials. I am against lobbyists and would favor the enactment of a law requiring all lobbyists to reveal the names of their employers before they would be permitted to appear before either house, senate or any committee of either. . . .

"I am for changing our present Workmen's Compensation Law so that injured employees can have their claims acted on by the Industrial Accident Board with the least possible delay. . . .

"The interests of stockmen who have been plagued by thefts should be protected by amending our present theft statutes. . . .

"Unreliable life insurance companies that exist under our present statutes—companies that are exacting millions from our old should be driven from the state. . . .

"It is unbelievable to me that a state with the natural resources of Texas should have a general fund deficit of approximately \$13,000,000.00; and that our state, the largest and one of the wealthiest, should be compelled to issue checks that cannot be cashed and are dishonored at every bank in the state unless they are discounted. . . .

**DISTRICT LEAGUE MEET EVENTS TO BE HELD THIS WEEKEND AT SWEETWATER**

All district interscholastic League events which were scheduled to be held in Sweetwater last Friday and Saturday were postponed to this week because of the weather, and Colorado and Mitchell county students who were to have taken part in the meet will therefore be in Sweetwater this week-end.

The Colorado group will be accompanied by G. D. Foster, high school principal and director-general of the county league, and by Supt. John E. Watson, who is director of essay in the district. Those representing Colorado in athletics will be accompanied by Coach Jack Christian and Assistant Coach Newby Pratt.

Colorado's next match will be on April 24 with Odessa on the course here. Colorado tied its first match of the tournament when playing Crane here on Sunday, April 3. The score was 20-20.

**FOUR MITCHELL YOUTHS ENROLLED IN CCC CAMPS**

Four Mitchell county youths have been accepted for CCC service at Alamogordo, New Mexico, according to Mrs. Bonnie Burt of the Mitchell county welfare and relief office.

They are Jim Barkley of Lorraine, William D. Hill, Osborn E. Blakerby, and Louis D. Hobbs of Colorado. They were taken by truck from Lamesa to Lubbock, and from there by train to New Mexico. Mrs. Burt delivered them in Lamesa on Friday.

**WORKERS' CONFERENCE AT LORAIN WELL ATTENDED**

Attending from here were the Rev. and Mrs. T. A. Patterson, Truett Barber, C. A. Burgess, Mrs. A. L. Whipkey, Mrs. Dean Phenix, and Miss Violet Moeser.

An interesting talk by a returned missionary from Africa featured the afternoon program. The May meeting is to be at the Pleasant Valley church north of Lorraine.

Davis said that the car had been standing in the drive at least two hours.

Even those who have to haul water can still have a certain amount of water conveniences in the kitchen, it was brought out by Miss Vera Crippen, county home demonstration agent, at the Plainview Home Demonstration club meeting Wednesday afternoon of last week at the home of Mrs. J. C. Sheppard.

Miss Crippen pointed out that water can be piped into the kitchen sink from a barrel just outside the house. She showed several posters with water systems that can be easily installed.

Refreshments were served to Mrs. T. W. Daughtrey, Mrs. C. M. Dalton, Mrs. Lee Taylor, Mrs. Dee Bynum, Mrs. L. R. Howell, Mrs. J. C. Franklin, Miss Crippen, Mrs. T. H. Shurtlett, and Joan Shurtlett. The next meeting will be April 20 with Mrs. Dee Bynum.

**ROGERS RAMBLINGS**

"We admire people who pull the trigger when they have an aim in life."

There were only a few in our Sunday school classes Sunday but we had good lessons. People, people, what's wrong? Can't we get out to church at 11 o'clock on Sunday morning? Why surely we can; well let's come to Sunday school then. Spend your Sunday morning worshipping God as one should and not staying at home. Come on and let's have a large crowd next Sunday. Come early because if you don't you're going to miss something.

We had a fine crowd at singing Sunday night. Yes sire-e-e. Some of us were out of our pews—so we were told, but singing went on. Of course you've heard by this time that each Sunday night at 8 o'clock we have singing. Really we do. You are welcome from the time you arrive until you depart. Come to see us and hear our singing.

**KLEVER KEYHOLE**  
 Hello, hello, palsy waisies—here am I with a few news flashes of the week.

Back to Canyon where we find Frank and Elbert:

Elbert: Frank did you ever take appendicitis?

Frank (only a poor freshman): No, who teaches it?

Long ago love used to laugh at locksmiths, but a gasoline bill is no joke.

**THAT FIRST KISS**  
 Never before had they been alone. But tonight the others had withdrawn and left them on the broad stretch of green.

He had seen her before in the crowd; once he had brushed against her. Could nothing bring them together? He hesitated, but she remained motionless—waiting perhaps, gleamingly fair in the pale light. Then an impulse, greater than he drew him to her. She waited dark and shining as he drew near.

They touched and with a soft whispering sigh they kissed.

They parted—each billiard ball plunking into a pocket.

It rains on the just and unjust fellows

But mostly on the just, 'cause the unjust swipe umbrellas."

**WHY SHE CAN'T LEARN TO DRIVE**  
 Now we're all set, just turn the jigger over and push on the hickey with your left hand and pull down on the other little jim-crack with your right, then press down the doodad with your foot and pull the thingumbob at the same time, and when it starts you push down on the doofunny with your left foot and yank the umptydiddy back, then let up on the foot-dingus and put your other foot on the hickey-madoodle; and don't forget to push down the hootnanny every time you move the whatyoumaycallit, and you'll be hunkydorey, see?

"You should never judge a man by his clothes."

"I don't, I judge him by his wife's."

**WE WONDER WHY:**  
 1. Harlon was so undecided about

where he wanted to go Sunday night.

2. Who was wearing the "flat pan" Sunday?

3. Why some of our pals like "haunted houses?"

4. Most of all why all this "bunk" is in here?

Don't you??

Always for you,

The remainder of the business hour was devoted to making plans for the district convention in Eastland. The club's general report and its beautification report were discussed.

"Honey in the Horn" by H. L. Davis was the subject for the study hour, when Mrs. J. M. Doss was leader. Mrs. Ed Jones, Sr. gave an outline of Clay's wanderings in the book. Mrs. W. C. Hooks discussed the author's treatment of nature, and Mrs. Thompson recounted several picturesque anecdotes.

The next meeting will be with Mrs. Harry Ratliff.

**Still Going Strong . . . Not 1c More to Operate Now Than When New . . . Still Silent . . . Because IT HAS NO MOVING PARTS In the Freezing System . . .**

"We have been the satisfied owners of a Servel Electrolux refrigerator for over ten years. This remarkable refrigerator, after almost eleven years of daily use, is still just as economical, silent, and trouble-free as when it was first installed in our home.

"A representative of the local Electrolux dealer called on us recently in an attempt to interest us in trading for a late model, but we declined for the reason that our old Electrolux is still giving us such excellent and economical service that we would have nothing to gain by giving it up.

"We have lived in Abilene for fifty-five years, and I often think how wonderful it would have been could we have had the protection and convenience of a Servel Electrolux for all those years. And judging from the condition of our present refrigerator, I sincerely believe that could we have purchased one at that early date it would still be in operation today."

**Noble Cain**  
 Presents Famous Choir on N.B.C.

Noble Cain, one of America's leading choral directors and author of the textbook, "Choral Music," presents his famous A Capella Choir on the N. B. C. morning show, "Aunt Jemima's Cabin at the Crossroads."

The choir, a mixed chorus of eight voices, offers secular as well as sacred music. Their interpretation of old-time negro spirituals is so realistic that it has created unusual interest in the show.

Cain, who is Hoosier-born, was for many years employed by N. B. C. to audition all aspiring singers. He attended the American Conservatory of Music and is considered one of the country's outstanding authorities on all types of choral music.

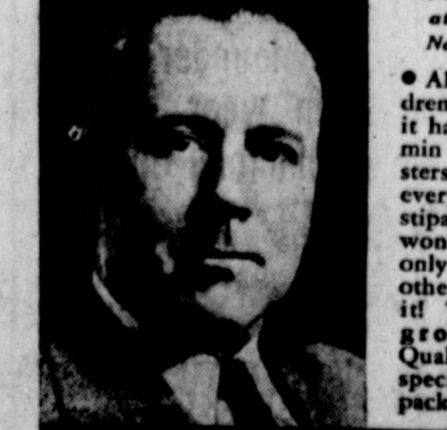

The Noble Cain chorists also offer the theme music for "Margot of Castlewood," the fifteen-minute script show which comprises the second half of the Quaker Oats half-hour program. The "Aunt Jemima" show is presented at 9:00 a. m. C. S. T. Monday through Friday on the N. B. C. Blue network. It includes the contralto voice of Etta Moten, the tenor voice of Roy Brower, the comedy of Forrest Lewis and Vance McCune, the swing music of Sammy Williams' band, and the hospitality and philosophy of Harriette Widmer, who plays "Aunt Jemima."

"Margot of Castlewood" follows the Jimmie show and is broadcast over the same network.

DYNAMIC STARS**

Joan Crawford, who has romanced on the screen with Clark Gable, Robert Taylor, Robert Montgomery, Gary Cooper and other famous film heroes, adds rugged, two-fisted Spencer Tracy to her long list in "Mannequin," which co-stars them for the first time. The new film opens at the Palace theater Saturday midnight and shows Sunday and Monday.

Frank Borzage directed the swift-moving story of modern young people against a background of New York's grimy tenements and multi-millionaire's penthouses from the pen of Katharine Brush, author of "Young Man of Manhattan."

Miss Crawford as Jessie Cassidy has the role of a shop girl who seeks escape from poverty by marrying Eddie Miller, a cheap crook. Eddie is played by Alan Curtis. Hollywood's newest leading-man discovery. When Eddie fails her, Jessie decides to live her own life. John L. Hennessey, a role which gives Tracy a powerful characterization as a man who work-

ed his way up from the docks to become a wealthy steamship owner, refuses to let her. Jessie marries Hennessey. She learns to love him when Eddie attempts to blackmail them. His plan fails because Hennessey goes broke. This gives Jessie the chance to prove her love in a surprising dramatic climax.

Never more beautifully gowned, Miss Crawford has twenty-eight costume changes, designed by Adrian as an advance fashion preview of feminine styles for 1938.

In prominent featured roles are Ralph Morgan, Mary Phillips, Oscar O'Shea, Elizabeth Risdon and Leo Gorcey.

A highlight of the new picture is Miss Crawford's singing of "Always and Always," a haunting melody of the torch-song type, which was especially written for the star by Edward Ward, with lyrics by Bob Wright and Chet Forrest.

**GOODYEAR TIRE DEALERS  
GET READY FOR SUMMER**

Getting ready for a busy summer, Thomas Bros., local dealers for the Goodyear Tire & Rubber Company, have announced that they are starting an advertising campaign that will keep residents of Mitchell county informed on latest developments in tires.

"Large part of Goodyear dealers' advertising this year will be devoted to the famous LifeGuard, a remarkable safety device that takes the danger out of a tire failure at high speed," Luke Thomas explained. "The LifeGuard is a reserve tire within a conventional tube, and when a tire fails at high speed, there is sufficient air remaining in the reserve tire to allow the driver to come to a safe stop without a swerve."

"Coming in for its full share of attention during the advertising campaign will be the line of automobile tires made by Goodyear, familiar to motorists not only in this country but throughout the world for their sturdy carcasses and reliable traction. The line includes tires designed to fit the pocketbook of every motorist, whether he possesses a brand new streamlined 1938 model or a car that was new several years ago."

"Another product that is of especial interest in rural areas is the Goodyear Sure Grip tractor tire, which offers the utmost in traction in all kinds of soil, but is particularly helpful to the farmer who must operate his tractor and implements in wet clay or gumbo, where steel wheels would bog down." The Record has been selected to carry the advertising of Thomas Bros., the local Goodyear dealers.

One of the best Joe E. Brown fun pictures in a long time. A genuine attempt has been made to give Brown a story in which his slapstick antics show to advantage. This one deals with one of those mythical mythical kingdom intrigues in which Brown as a reporter on his first assignment becomes involved in the conspiracy. Helen Mack, as the princess who is used unwittingly by a former prime minister to regain power, attracts by her charming appearance and pleasing performance. Brown thwarts the plot, gets the scoop, and the girl, Paul Kelly contributes a fine part as the rival reporter. Edward Edgewick directed.

Written in the vein of the ever-popular "The Criminal Code," this gripping drama of penitentiary life is above average fare for support on de luxe programs and can maintain the top spot in subsequent and neighborhood houses. The feature is convincingly produced and directed, while a strong cast delineates with admirable restraint. Acting honors are shared by Walter Connolly as the hardboiled district attorney with political ambitions who is forced to convict a clean youngster, victim of circumstances, and who later again crosses the path of the embittered young man when he becomes warden of the state prison; and John Howard as the youthful convict. Jean Parker supplies the love interest as the warden's daughter. Marjorie Mains adds the comedy. John Brahm directed.

Out of 202 second-class postoffices in Texas, the Colorado office stood 62nd in bond sales per capital for the year ending August 31, 1937, according to a report just received by Joe Y. Fraser, postmaster.

Savings bonds amounting to \$37,556.25, representing a maturity value of over \$50,000, were sold through the Colorado office during that period.

Fraser stated in connection with the report that his office sold over \$9,000 worth of bonds during the first three months of this year.

The rating attained by Colorado in sales during 1937 was higher than that in such places as Albany, where total sales were \$5,700; Childress, where sales were \$23,025; Snyder, where sales were \$6,825; Lamesa, where sales were \$9,943.75; Pecos, where sales were \$23,793.

According to a press release sent to Postmaster Fraser with the bonds sales report, the Government to date actually retains more than 92% of all the money that has been invested in Savings Bonds, less than 8% of

the bonds sold having been redeemed. The majority of the registered owners are small investors who are buying the bonds out of income. Purchases by individuals represent approximately 85% of the amount of bonds sold. Of the remaining 15%, 9% was purchased by banks and trust companies, 3% by corporations, and approximately 3% by associations.

Recently a questionnaire was forwarded to the owners of Savings Bonds, and to date several hundred thousand replies have been received by the Treasury Department. Preliminary examination of the replies indicates that most purchases are made to provide funds for education of children, for retirement funds, or to set up a reserve for emergencies. Among the features of the bonds most frequently influencing their purchase are safety, the constant availability of the funds and the fact that Savings Bonds increase 33-1/3% in value if held for ten years. The redemption feature, which eliminates any chance of loss to the investor, appeals to all purchasers.

The \$100 bond unit is the most popular denomination and has accounted for 30.38% of the number of the bonds sold. The \$25 unit ranks next with 23.71% of sales. The \$50 unit is next with a sale of 18.49%. The \$1,000 unit follows with 18.19%; while the \$500 unit accounts for 9.23%.

As to population groups, cities of 100,000 and over account for 44.62% of the sale, cities of 25,000 to 100,000, 13.92%, 10,000 to 25,000 population, 10.20%, 5,000 to 10,000, 7.68%, the remaining 23.58% going to the villages and rural America.

**EASTER HATS**

This writer visited this week in one of our Colorado beautiful homes. The husband was preparing to go off on an Easter trip and wrote a letter to his wife which she handed me:

**THE LETTER**

What with spring in the air, and Easter just around the corner, I want to have a heart to pocket-book talk with you. Yes, I know we have had this same talk at this time every year since we were married. No, I didn't notice that every other woman except you had on a new hat at church last Sunday, you know that I never look at any other woman. No, of course I wouldn't expect you to wear that old bird's nest again, you have already worn it twice, but after all, it doesn't seem to have a hole in it.

Certainly I know that you could have married Harry, Tom or Dick, and that they are all very rich now, but please remember that they never married.

Ouch, if you scratch me again I'll call in the neighbors. Of course you stay at home and slave and save and wear your fingers to the bone for the children and me, and what thanks do you get? What thanks do you want? I'll yell for help if you come one foot closer with that poker.

And don't forget that I bought you a new wash tub for Christmas with three more payments to go, and have practically agreed to buy you a new coffee pot for your birthday. Where is your gratitude? No, you can't go back to your mother immediately, your dad told me today that your mother had just gone back to her mother. Yes, it was over a new hat.

Now stop that sobbing and take this money and go shopping. No I am not the dullest old darling in the world, and stop kissing my bald spot, I'm just an average American husband wearing a five year old hat and darn glad that he has it to wear Easter Sunday.

Your devoted Romeo.

P. S. Stop in at the gas office on your way shopping and tell them that if they don't stop threatening to turn off the gas, I'll turn it on and forget to strike a match. And Lamb, try to talk the butcher out of a can of dog food for my lunch. Yesterday when I was in there he threatened to cut me off if I did not pay up just below the ears.

**OIL HISTORY**

The government of Mexico seems to be having some trouble over the expropriation of the oil interests. We believe a brief history of the Mexican oil interests will be of interest to the readers of this column:

**HISTORY**

Almost since the inception of the petroleum industry in Mexico its course has been one of sharp ups and downs. To secure a proper background let us glance at the salient points of the oil business in Mexico. Since some immemorial the Indians utilized chapote, or crude asphalt, in medicinal capacities, but it was not until the year 1864, when a Mexican company drilled a well in the Congas region, which produced about two barrels of petroleum daily, that there could be said to have been any oil activity in Mexico. Even this first attempt was soon abandoned and nothing was done until Dr. Autrey in 1870, with the use of a small kettle still, refined a few thousand barrels of kerosene. There could yet be said that there was no real activity in the petroleum industry in Mexico, but in 1900 the Mexican Petroleum Company of California, whose guiding geniuses were Messrs. Doheny and Canfield, began operations and soon brought in the great gusher well at Ebano in May of 1901. This field within five years produced 4,000,000 barrels of crude oil.

Percy Furber brought in a well near Congas in 1907 that still further increased the oil activity in Mexico and in 1906-7 the British firm of Pearson & Sons formed the company known as Compania Mexicana de Petroleo El Aguila, and drilled in the famous Dos Bocas (Two Mouths) well, which startled the entire world by producing a quarter of a million barrels of oil a day. This initial start made Pearson one of the wealthiest men in the world, and eventually resulted in his being knighted by the British Government and given the title of Lord Cowdray. His descendants still live in luxury from this first well.

Many new companies entered the Mexican oil fields within four years after the bringing in of the great Dos Bocas well, and the world was again startled by the striking of a new, prolific pool at Tuxpan and soon by another strike at Panuco. Changes in Government and unsettled conditions halted but did not stop operations and with the outbreak of the World War in 1914 there was unleashed in Tampico, because of the frenzied demand and high price for crude oil, an economic boom the like of which the world has never seen and will probably never see again.

Drillers were paid as high as \$500 a day, gold, while roughnecks on the derrick floor got a hundred dollars a day, American money. Men worked in the fields a week, then came into Tampico to spend in a single night their fabulous earnings. Gold fifty-peso pieces were tossed by the handful to the floor in cabarets just to watch the girl "hostesses" scramble for them; field workers would rent for a night a "cabaret" and invite all comers to be their guests; drillers matched gold fifty-peso coins as though they were matching nickels; prices of everything went to unreasonable heights, and the oil region along the Gulf Coast was one mad, snarling, fighting, seething district, mad for the sticky, gummy crude oil that flowed from the earth of Mexico like artesian water, but which was worth \$4 per barrel. It was a fabulous world, with no sense of values, for what did it matter? The world was crying for oil to help commit wholesale murder in the name of war! war! war!

Sam T. Mills writes in on the subject of the tenant farmer:

**LOOKS LIKE HARD YEAR FOR FARM TENANTS**

Cotton control won with a bang. If you vote the Roosevelt-Wallace way, time alone will tell the tale. But here is one thing that looks pitiful to me: Young men, future farmers, full of pep and honesty, renting every empty negro shack in this country and paying a good price for it. Just married, lots of them, no land to work, no job, he knows that we landlords have lied to beat the Government on every side. He knows he will get thin on a few days cotton chopping and he knows with a crop of 11,000,000 bales picking will be 25c to 35c. So would it not be better to conserve posterity than to lie about conserving soil that is now overproducing cotton, corn, wheat, tobacco and rice?

These young men are not unlucky or unfortunate; they are the ones Jesus had in mind when He said: "The poor you will have with you always." They don't crave to be a private secretary, or on an A. & M. board, but they crave a job from daylight till dark, so they may raise a baby that won't be starved in this land of overproduction.

Here is what you will hear the loan companies and landlords say next year: "Mr. Tenant, give me all the Government benefits, plant what you damn please on the retired land, do whatever you please with your part, I'll sell mine; I'm not afraid of the penitentiary, and, too, your pasture will cost you \$4 per acre; that's what the Government says it's worth." The renter says, "It's a trade; I have

nowhere else to go."

If you will permit, I want to thank every one that sent me compliments on my recent squib. I am 59 years old, have lived through several panics and depressions, but this prolonged Hoover-Roosevelt thing that takes Government (people's) money to carry on seems to have a patent on its and a guarantee to last for ever.

**EDITORIALS**

New York and the whole country is in the midst of a depression. There is no depression, only a faint recession. The difference between a depression and a recession is not only a difference in spelling and pronunciation but a difference between the Roosevelt administration trying to do everything and a Hoover administration trying to do nothing. Mr. Hoover thought the faith cure without any sort of applied tonic would cure the depression, whereas Mr. Roosevelt thinks medicine should be prescribed by the gallon—droneches, pills, powders and salves all applied at once. Mr. Hoover believed the patient would get well by thinking itself back to health, while Mr. Roosevelt thinks the patient should be dosed with everything in the economic pharmacopeia.

Away back when the Czar ruled Russia, there lived Tolstoy, a Count in the confidence of the Emperor. One day the Emperor asked the sister of the Count to get from him an opinion as to the future. She went to him and he said that when he was feeling in the proper mood he would be glad to serve the Emperor. One day he called to his sister to take a paper and write: "I see a great war over Europe; America will be drawn in. Your cousin of Germany will be defeated and he will lose his throne. You and your family will be murdered. There will come from the central south of Europe a man who will unite many forces and Germany will once more become a power." That man has come; his name is Hitler.

A man getting a salary of fifty thousand dollars a year, can't make much headway trying to persuade a fellowman to be satisfied with a wage that won't comfortably house, feed and clothe his family. Many of the high salaried officials are not given positions to make honest profits, but they are employed to "chisel" the people by unethical schemings and manipulations. Big salaries and big profits hurt consumers. Small wages, and low production returns, make a dissatisfied class of citizens. The pay for labor in all lines of activity should be on a scale basis that will enable the frugal to live comfortably, and not be ashamed to appear with his family in social or public places.

## LIFE-SPAN WHICH HAS INCLUDED 54 YEARS IN THE NEWSPAPER BUSINESS LIES BEHIND 'UNCLE FRED' WHIPKEY AS HE PASSES 78

A life-span which has included 54 years in the newspaper business lay behind "Uncle Fred" (F. B.) Whipkey of Colorado as he quietly passed his 78th birthday Saturday.

He marked the occasion by repeating his annual threat to "stop writing the column." Since his retirement from active work as senior publisher of The Colorado Record ten years ago "Uncle Fred" has written The Record's editorial column under the heading, "The Columnist." Because "The Columnist" has survived many such threats in the past, its readers are counting on its doing the same this time.

"The Columnist" is a column of much philosophy, some humor, some argument, and some musing, all with a steady under-tone of religion. As his birthday approached "Uncle Fred" wrote in the column:

"The amazing thing to me is that anybody thinks I'm old. . . I never thought I'd live this long, and my lengthening years have brought me perennial surprises. . . As a boy, I thought all old men were good. At seventy-eight I know that age never helped a man to goodness. . . I am not the kind of good man I thought I would be if I lived to be this old."

Although he seems to cultivate for the world's eyes a gruff and often rough exterior, "Uncle Fred" is one of the most deeply religious men in Colorado and one of the best-read. He reads omnivorously all day and far into the night. In spite of his age and the fact that a mishap a few years ago cost him one of his eyes, he feels no need for glasses and never uses them. Incidentally, his teeth are his own, too.

Reading has given him, in full measure, the education he missed as a boy. He was born on a farm in southern Illinois on April 9, 1860 and was orphaned at 14. When he was 19 he and his brother, A. L. Whipkey, who is known in Colorado as "Uncle Abe," came to Texas. Uncle Fred's newspaper career began when he started work in 1884 as circulation man for papers at Cameron and Rockdale. Two years later the brothers opened their first newspaper plant at Granger.

When a state prohibition election was ordered shortly afterward, the brothers went to Temple and established a prohibition paper, the Temple Daily Herald. Their immediate war was with the Temple Times, a strong anti-prohibition daily published by W. D. Cox. After the overwhelming defeat of prohibition in 1887 the Whipkeys' office was covered with beer kegs and they were hanged in effigy from a telephone pole. They walked out of the town, and a few months later bought a small office at Corn Hill, moving it by wagon to Holland and founding the Holland Guard.

The next year the Whipkeys sold the Holland Guard to members of the Populist party and moved to Corsicana, leasing the Corsicana Courier and changing it to a daily. Once more they adopted the fight for prohibition, and at the same time adopted one against Senator F. Q. Mills, who had taken part the year before in the famous Mills-Carroll debate. The Carroll clan at being B. H. Carroll of Waco, Mills' supporters used an injunction to stop the Whipkeys' publication of the Courier, but in four days the brothers had a new press out of Dallas and were putting out the Corsicana Evening Light.

**HAS 78TH BIRTHDAY**

F. B. Whipkey, otherwise "Uncle Fred" or "The Columnist," who has been in the newspaper business 54 years.

They held out 13 months at this post, then gave up the fight and went to West, McClellan county.

In West they established the West Times, which they owned and operated 14 years, or until 1904. A year later they came to Colorado, known then as a "graveyard for newspapers," and established The Colorado Record.

Three papers were being published here at that time, these being the Colorado Clipper owned by C. W. Simpson, The News owned by Tom Cooper, and The Record owned by Mrs. T. A. Kindred. It was the plant of Mrs. Kindred which the brothers bought.

Newspaper men had earned such a reputation for non-payment of debts in Colorado that the Whipkeys could not get a dwelling place nor a business location without paying a year's rent in advance.

At the time the Whipkeys came here Colorado was unincorporated. The old courthouse was located on the extreme northeast corner of the present courthouse square. Uncle Fred has since described that building as "a monstrosity with a kind of Eiffel leaning tower that looked like an umbrella with the cover off." The St. James hotel stood where the Oswald pharmacy is now located. George Root's livery and racing stable was on the present site of the Colorado hotel. The Doss brothers, John and the late Will, had a drug store together at that time. The old city hall and fire station were where Piggly Wiggly is now located. An old gin stood where the city hall now is. There was a sunken lake deep enough for row boats north of what is now the Max Berman Department store.

The Whipkeys brought with them Dr. A. H. Weston as Record editor and J. A. Fore as printer. They worked 16 to 18 hours a day. Within a year The Record had the newspaper field in Colorado to itself. There have been other competitors since then, but none of them have lasted longer than two years. The Record is now in its 33rd year. In an article written nearly ten years ago Uncle Fred recalled some of his early publishing experiences in

Colorado, among them the fight which his paper carried on for the incorporation of Colorado, for the passage of a stock law to keep cattle from roaming Colorado streets, for a new courthouse.

A. L. Whipkey sold his interest in The Record to Uncle Fred and his son, Walter W. Whipkey, in 1926. Walter Whipkey, only child of Uncle Fred, is now active publisher of The Record. Before his retirement Uncle Fred was familiarly known as "The Big Boss." That title has now given away to "The Columnist."

Today Uncle Fred is definitely one of Colorado's "characters." He takes long walks alone, refusing all offers of rides. He spends days out on the hills looking for some particular kind of wild flower or cactus. Gardening with him is a serious business—and he changes his garden plan every year, sometimes oftener.

All books, both new and old, be they fictitious, religious, biographical, classical or otherwise, are food for his insatiable hunger after reading matter. He reads all the major daily papers line by line, and probably knows more about what Congress and the legislature are doing than anyone else in Colorado. He never misses any service at First Baptist church, where he has been a pillar for years, and rarely misses special services at other churches in town. His figure is a familiar one at all public programs.

The burden of having nothing that must be done after years of having too much to do lies heavily upon him at times, and he is often impatient with the limitations which time has brought to his strength, but withal he lives a life much enriched by religion, philosophy, and knowledge. These are reflected in his attitude toward the inevitable close of life as expressed in these words from his birthday column:

"But it is in the program of life that the curtain must go down on the drama at the golden sunset. . . Your phone will ring some morning, and the word will pass: 'Hello! Had you heard that Uncle Fred is dead?'

Yes, he died last night. . . I've never been afraid to die. I look across the hills with expectant heart, yet I no more want to die than I did at sixteen. . . If I could get out of this fleshly tabernacle without dying I'd yell 'Hallelujah!'"

# DON'T BLAME Your RECIPE

It is not fair to hold recipes responsible for those roasts with a flat "steamed" flavor and vegetables without taste or color you have been serving your family. That worn-out range you are using probably is the cause.

Proper roasting requires an oven in which excess moisture is allowed to escape if meats are to be juicy and crisp. The new 1938 gas range has an insulated oven with improved ventilation that assures perfect distribution of heat and a circulation of fresh air at all times. Its temperature is automatically controlled.

Bolling vegetables with little or no water preserves their color and vitamin and mineral content. Needed is a highly flexible heat. The improved simmer burners

on the 1938 gas range give the exact shade of low heat required for this more healthful cooking. Because of this no special utensils are needed.

See these improved 1938 gas ranges for better, easier more economical cooking.

WHAT TO EXPECT

Who would have ever thought of having snow in April? Well... you never know what to expect in West Texas.

When you get up in the morning and the sun is shining brightly, even though it is a little cool, you think, "It's chilly now, but it'll get warmer by noon." So, you wear some light spring outfit. Then when you start home after school, there is a fierce cold wind which chills you and almost blows you away.

What to wear is most always the first question asked when getting up on a warm spring day. If you wear a coat, you will have to carry it home in the evening... If you wear a light dress, you will probably freeze before you arrive home. Well... what can we do other than take what comes when it comes.

FRESHMAN NEWS

Mr. Coffman conducted a regular home economics class in math last week. This was led by a certain problem, and the boys learned to make cornbread while the girls only listened.

After all this candy eating, especially Hershey eating that is going on, how on earth can you Fish keep so beautiful! (You few that are!)

The Fish were glad they were so well represented in the Style Parade last Thursday. They placed, but that is for the home economics reporter to tell, so I pass on.

The Fish seemed to enjoy Kid Day all the time. They took advantage of chances to chew gum and eat candy, also of playing games at noon.

John DeGarmo has to keep his bike locked of late. It has still been carried off several times.

Biographies have just been studied in English I classes. Many students enjoyed "Mildred Babe Didrikson" and "The Champion of Honor" most, although many others were read.

Alfred Maddin was threatening to kill Betty Whipkey. Afterwards, she wanted to kill him. If you can solve this they want an answer, so that they may kill each other.

LET'S READ

Checking over the magazines in the library I found that some of the most educational ones are not being read so much as they should.

Correct English is one of these. In this you will find the use and abuse of slang. Is there such a thing as good slang? There are two pages of questions asked by the people that are also answered. These questions may be of help to you if you take time to read them. How is your telephone personality? Read Correct English and find out also how to write better business letters.

"Think," another interesting magazine, has many interesting articles.

HOMEMAKING NEWS

The homemaking classes have spent time in an interesting and helpful activity this week. Those enrolled in Foods have prepared deserts. Baked custards and gingerbread were their outstanding products. In a personal grooming unit, the Sewing I students are now studying blouse and its effect on dress. The Sewing II class is, at present, working on personality development. Self-Rating scales have proved helpful.

On last Thursday afternoon, April 7, a contest was held in the auditorium to determine the representatives from C. H. S. for the State H. E. Rally. This rally will take place in San Antonio May 5, 6, and 7. Members of all the sewing classes modeled their dresses before one local and two out-of-town judges. Winners were selected as follows:

First Year Classes (School Dress Division): First place, Lila Manning; second place, Frances Blassingame; third place, Ruth Griffith, Doris Kidd (tie).

Second Year Class (Silk, Wool, and Rayon Division): First place, Doris Doss; second place, Doris Montgomery; third place, Roeburta Hamrick, Lucille Goode (tie).

The first place winner in each division will get to go to San Antonio with all expenses paid. Beulah Robinson will also go, as club delegate.

Would you acquire poise, students? Then—

"When going through the hall, your haste should be concealed. You're not a halfback charging up and down the field!"

MR. CHRISTIAN MAKES MOVIE DEBUT

Last week the boys of C. H. S. were shown a movie of Camp Stewart, popular boy's camp located fourteen miles west of Kerrville, in which Mr. Christian made his initial screen appearance before C. H. S. students. The camp's owner and director is Bill James, assistant coach of A. & M. Coach Jack Christian has been a counselor at Camp Stewart for the past seven years, and had the movie brought to Colorado to give the boys a graphic view of the camp and its facilities.

The camp is located on the Guadalupe River among rocky, cedar-crested hills, and has a total area of three thousand acres. Many big-name coaches and athletes act as counselors at Camp Stewart; coaches from various Texas high schools, assistant college coaches, and stars such as Sammy Baugh and Bobby

Poorly Nourished Women— They Just Can't Hold Up

Are you getting proper nourishment from your food, and restful sleep? A poorly nourished body just can't hold up. And as for that run-down feeling, that nervous fatigue—don't neglect it!

Cardul for lack of appetite, poor digestion and nervous fatigue, has been recommended by mothers to daughters—women to women—for over fifty years.

Try it! Thousands of women testify Cardul helped them. Of course, if it does not benefit YOU, consult a physician.

Wilson are to be found during the summer at Camp Stewart directing nature study groups or accompanying the boys on long-distance hikes.

Many state champions have received their initial training at Camp Stewart's adobe tennis courts, on the camp baseball diamond, or in the well-appointed, screened-in gymnasium. Swimmers who now hold state and even national ranking once played in the "Bath-tub," and trained in the senior pool. The camp is divided into four, Indian-named divisions; each week the divisions compete against each other in all sports.

Among sports in which one may engage are swimming and diving (in these many precautions against accidents are taken by the counselors), track, tennis, baseball, archery (the boys make their own bows), boxing, rifle practice (under Mr. Christian), and even ping-pong in Uncle Tom's cabin or the other recreational house.

Red Cross life-saving classes are also conducted.

Mr. Christian screens well, but Clark Gable still retains his throne as movie king! Shots showing Mr. Christian in action are especially good. He is shown splashing in the "Bath Tub" with his young charges, and directing rifle and baseball practice.

The movie is a detailed description of the grand times the boys have in this summer camp, and Mr. Christian is eager to talk with any one who is interested in joining the fun at Camp Stewart.

LA TERTULIA

The third year Spanish Club met Tuesday afternoon at 12:45. Shirley Kiker gave a very interesting talk on "Spanish Peasantry" and Betty Hodge gave a review on "Laughter in Madrid" from the Reader's Digest.

Gerald Montgomery also gave a report, "A Mexican Challenge." It was a very interesting program.

BUICK BUILDS CAR FOR KING'S YOUNG BROTHER

FLINT, Mich.—His Royal Highness, The Duke of Kent, youngest brother of the King of England, has just taken delivery in London of his second Buick, according to an announcement made recently in Oshawa, Canada, from where the car was shipped.

The Duke of Kent purchased his first Buick a year ago, according to the statement, and his 1938 car is of the same type, the only radical changes being the installation of special "one-way" glass in the back and rear quarter windows. This glass makes the passengers of the rear compartment invisible from the outside, while affording a clear view from the interior. In the Duke's car this special glass is made in two sections and hinged so that on formal occasions it can be rolled down into a specially constructed recess permitting an unobstructed view of the occupants of the rear seat.

Custom work necessitated to fit the car with this and other special accessories, was performed in the Canadian plant of General Motors at Oshawa. Among other special equipment were concealed reading lamps, arm swings, two batteries with a change-over switch and a sound-proof partition behind the chauffeur's seat.

WE were pretty sure we had a great car when some months ago we checked the final blueprints on the 1938 Buick.

It had the new and mighty DYNAFLASH engine for sparkling action—the sensationally desirable TORQUE-FREE SPRINGING for a lullaby of a ride.

Looking ahead in that promising day, we figured we had every chance of getting our sales share by reason of what this car gave the buyer for his money.

Now, when times are sterner, it appears we built better than we knew—we've got a car folks just won't do without!

This great new Buick was first introduced to the public last fall. Through September, October, November, it sold in steadily increasing volume.

In a period when sales of other cars were sliding off it went ahead, in one month actually outselling one of the Big Three of the lowest-priced field.

It's still going ahead—not car Number Seven or Eight, as one might expect by its price-class, but one of the season's Four Best Sellers!

There is only one explanation of such a record when made by a car in the thousand-dollar bracket.

Such a car is so good—has so much of value in it—people just won't do without it!

They buy it not only in preference to other cars—they buy in preference to waiting for easier times and readier money-to-spend!

That's the convincing sort of car you're about to drive when you first take the wheel of a 1938 Buick.

If you haven't yet handled a new Buick, you ought to—just to see what such a car is like!

A lovely four-course dinner was served at the noon hour. The table was beautifully decorated with cut flowers, and a two-tier cake on which was written the words "40th Anniversary" served as a centerpiece.

Many lovely gifts were presented the couple and friends called during the afternoon to extend their best wishes to Mr. and Mrs. Lee.

### THE SEVENTH GRADE

Mr. Templeton gave us a talk on courage Thursday. He was one of the American Legion speakers. We all enjoyed his speech very much.

The snow that fell seemed to be a case of winter time in the spring. It sure brought exams.

We took our exams Thursday and Friday. Some of the seventh grade thought they were "awful." Cheer

up, seventh grade, we just have six more weeks of school.

The question is now, "Why did Mr. Cox shave his mustache off?" Maybe it was because of the chapel program Tuesday.

### VOCATIONAL AG. NEWS

Two Westbrook Vocational Agriculture students took calves to the Colorado Fat Stock Show. Mack Walker took two shorthorn steers, and John Hines took one Hereford steer. None of the calves placed in the show, but brought good prices.

Mack received \$8.75 per hundred pounds for his 825 pound steer.

The F. F. A. boys who are raising poultry are coming along nicely. They have sold over 300 fryers and received from 24 to 24½ cents per pound for them. They will sell the rest of the roosters soon. Some of the boys are going to keep some of theirs, and others are going to sell them all.

The boys who are passing in their subjects and can go, will leave Saturday, April 16, on a trip to A. & M. college.

They will probably go from there to Galveston. The trip will last five days. They will get home on Wednesday, April 22. The poultry judging team will judge poultry at A. & M. college.

Rufus Jackson took one mutton to the show but it didn't place. He is going to feed his sheep several more weeks and then sell them.

### FISHES FUN

Everyone is happy again since the six weeks tests are over. There hasn't been any reports of the grades yet, but I imagine the fish will be very disappointed.

It seems that Arnold can't remember what days he comes to school and what days he doesn't. He said he didn't take the literature exams, but Miss Speights had a paper with his name on it. When he looked at it he said it was his.

The airplanes are to be finished this week so if you see any flying around you had better get out of its way.

### SENIOR NEWS

The invitations have arrived and everyone has been worrying and trying to arrange for their money. Some of them have already paid and is that a load off their minds? They must be paid soon, so don't forget. They will probably start going through the mail in about three weeks.

Those exams! The seniors have one consolation—and this is only one more time for exams this year. Think they will all be glad when it is over.

Clarence Moore, who has been quite ill and was out of school last week was able to come back last Monday. We were very glad to see him.

Lena Lee Bird is quite ill. We miss her and hope for her a quick recovery.

Many of the seniors saw "Tom Sawyer." We have heard quite a bit of discussion on it. They seemed to like it. Perhaps it brought back memories. Was that it?

Our play is progressing nicely. The date has been changed and there has been no definite time decided upon. Wait and see, but make plans now to attend.

### V. A. BOYS PROGRAM TO BE GIVEN FRIDAY NIGHT

The V. A. boys will present two one-act plays and several short subjects Friday night. The class urges everyone to attend. The proceeds will go to take the teams to the district contests at A. & M. The boys need the money to make the trip and will appreciate the cooperation of everyone. The plays and program will be carried on differently from any that has ever been given in Westbrook. They will open the program with the regular parliamentary procedure of their usual meetings. They will present "Carbon Takes a Ride" and "King Cabot Retires." The first play is the one that they will present at Alpine in the district one-act play contest some time soon. Everybody come and help the boys along.

### NEW GYM OPENED TO PLAY MONDAY 11TH

At noon Monday, there wasn't a

play on the outside. Play had opened in the new gym! Inside, everyone in school almost watched the volleyball teams work out. They were given lockers and will practice in their suits each day. Almost every student wanted to participate. Never was such interest shown in volleyball before. The outsiders team of Westbrook played the seventh grade after physical education period. The seniors will present their play "Murdered Alive" in the gym just as soon as the new curtain comes. It will be the first play in the new auditorium. Everybody plan to attend the first play in the gymnasium.

SIX MAN FOOTBALL TEAM IN ACTION

For the first time in the history of Westbrook school a football team is seen working out each day. The team will see its first action when it meets Courtney next Friday week, April 22, at Courtney. They have been practicing football for about two weeks now. They have their uniforms and believe themselves to be in good shape for their first battle. On Westbrook!

### SOPHOMORE REPORT

In case you have forgotten, this is again Sir Van of the House of Boredom, who is supposed to weekly report sophomore scandal. Conditions and class complications haven't permitted me to hand in a report the last two weeks, but I'll try and disappoint you and hand one in from now on.

I'm liable to be listed in the sophomore news again next year if some of my grades don't improve. The horrible ordeal of six weeks exams has just been undergone by the sophs and results have been almost a hundred per cent "awful." Congratulations and honors are due about three students who marvelously passed World History. Mr. Hood took pity on the remaining failing members of the class and gave a second test to give them the chance of raising their grades. The results haven't been posted yet. Luck to all!

Miss Speights, when giving the English II, found most of the sophomores well trained in a certain profession. Due to their skillful and expert ways of practicing it, she decided to throw away the papers and have each student write a theme on the subject. Oh, such humiliation!

Spring is here all right. James Skelton attained the colossal sum of 100 in the algebra exam. Other members fared equally as well, and are we glad? One set of good grades to our credit.

To the surprise of the student body, several usually lazy manual training students have gone to work. I wondered what did the trick.

To the joy of a certain sophomore girl, Chippy is now back in school after a long illness. He must be fully recovered as he is again back at his old tricks.

It seems that in Algebra I when Ruth Smith fully understands a problem it's time for class dismissal. Note: Now I'll turn you over to our scandal editor, Earl Neal, who takes the name of "Roofy." To your sorrow—Roofy.

Well, the love birds of the soph class seem to know that Spring weather is here, for if you were to see them making eyes in history class you would understand. Seen making love: John Bob and Jannie Lee; Chippy and Thelma and Billie Bob (quite complicated); Pete and Thelma (she's mixed up again).

Oh boy, Thelma has more than one on her string. Chippy has met with complications also. Red and Mattie Bianche! Gerald loves them all. Ruth seems to have a certain senior boy all nuts about her. Byrl and he enjoys all the ninth grade girls. The scandal reporter wishes to state that Roofy and Goody are still "women haters," and are not getting in the spring cupid mood, but we are sure getting sleepy and want to go fishing.—Van and Earl.

JUNIOR NEWS

Another week goes by and no report from the junior class, so before they fire me, I suppose I had better get to work.

Here is some news that should have turned up last week. The juniors finally had that entertainment. At the last minute of Wednesday of last week they decided to go to see the movie "Conquest" and make it a class doing.

The annual affair, the Junior-Senior banquet is being planned. The date has been set to May 7th on Saturday. From the talk that goes around and round everyone intends to make it the "big night" of the year—dates—and everything!

From the way the guys talk if you want a date with the girl you want, you had better hurry, hurry, hurry!! Iris had a black eye this bright

The Standard Coupe

The Standard Ford V-8, with 60-horsepower engine, gives you a lot of car for a little money.

300,000 new owners acclaimed the "thrifty 60" last year. Hundreds a day are buying it in 1938. Why?

Because it is priced low—includes essential equipment without extra charge—and goes farther between filling stations than any Ford car

ever built. Owners all over the country report averages of 22 to 27 miles on a single gallon of gasoline.

But economy isn't all the story by any means. The Standard "60" is built with the same precision as the De Luxe "85," and has the same 112-inch wheelbase chassis. It is easy to look at and ride in—as well as easy to buy and run.

There's a Ford dealer near you.

## "Thrifty Sixty" FORD V-8

Monday morning. Well anyway, Monday morning! And guess what, Iris doesn't blame it on the door.

Byd, Sidney, A. G. and Ray made our six man football team. Boy that looks like the big haul! Stay in there, guys, and the junior class will be well represented!

The six weeks exams are over and the worried look on the brow of our classmates have disappeared—good. We wonder if they will reappear on Thursday when we receive our report cards.
