

### MITCHELL FARMERS WELCOME AAA BOOST IN ACRES FOR FEED

**PLAN CHANGES AUTHORIZED BY TELEGRAM RECEIVED AT BASKIN'S OFFICE SATURDAY MORNING**

Because it will boost considerably the amount of land which Mitchell county farmers can plant to feedstuffs this year a change which was authorized in the government's 1938 farm program by a telegram received at the office of B. J. Baskin, county farm agent Saturday morning was welcomed by practically all Mitchell county farmers. The telegram came from the state committee of the Texas Agricultural Conservation association in College Station.

Under the altered plan the amount of land which each farmer can plant to feedstuffs is raised from 25 to 40 acres. While government acreage devoted to soil conserving crops is reduced from 45 to 20.

Baskin said the telegram announcement was a welcome relief to the farmers.

Attention of all Mitchell county farmers is called to a change in the number of acres to be planted to corn and 100 bushels of wheat to be planted. The new plan states that each farmer may plant up to 40 acres to corn and 100 bushels of wheat. This is a change from the old plan which provided for 25 acres to corn and 100 bushels of wheat. The new plan also provides for a 10 percent increase in the amount of land which can be planted to feedstuffs.

This change means that the total acreage on each farm is increased by approximately 8 percent. The acreage of the farm which the new plan provides for is increased by approximately 8 percent. The total acreage is increased by approximately 8 percent.

## Appreciative Audience Hears Reading Of Play As Courtesy Of DAR and UDC

An audience that was alternately convulsed with appreciative laughter, or breathless in anticipation of the next point, heard Mrs. Earl Powell of Stanton read the Pulitzer prize play "You Can't Take It With You," at First Baptist church Saturday afternoon. Mrs. Powell was presented by members of the U. D. C. and the D. A. R. as a courtesy to their friends. Members of the two organizations greeted arrivals at the church entrances. Mrs. E. L. Latham played organ numbers as guests assembled. Mrs. Arlie Martin of Loraine, D. A. R. president, was in charge. She introduced two organ solos by Mrs. Latham and a vocal solo by Mrs. W. R. Martin of Loraine. Mrs. Martin presented Mrs. Jack Smith, vice-president of the U. D. C. who in turn presented Mrs. Powell. Mrs. Smith and Mrs. Powell are sisters. Mrs. Powell is a member of both the U. D. C. and the D. A. R. For the occasion Mrs. Powell had chosen a dress of black net with deep bands of white all-over embroidery at the bottom of the skirt and around the elbow-length puffed sleeves. A large bow tie of the black net was the only throat ornament. The unusual, husky quality of Mrs. Powell's voice added to the interesting manner in which she read the play. She read with complete naturalness as to both tone and facial expression, depending upon the very slight inflections of her voice and the merest lift of an eyebrow to accentuate the quiet humor of the play. Her ability is indicated by the fact that none of the points which she emphasized even so slightly went unappreciated by her audience. The religious undertone of the play was handled by Mrs. Powell with the same fine touch which characterized her reading of the humorous portions. Mrs. Powell was detained at the church for some time following the reading to receive the congratulations of her hearers and the greetings of her friends. She is well-known in Colorado having lived here as a girl and having taught in Colorado High school before her marriage to Earl Powell, son of Mr. and Mrs. Lay Powell of Colorado.

**WESTBROOK LOSES TO ACKERLY 19-30**  
 In a fast game on the home field last Friday the Westbrook six-man football team lost to Ackerly 30-19. The first game the main team has played at home. The Ackerly team has had three years experience to the three weeks experience for the Westbrook boys. However, they put up a good game and made plenty of competition for any team.  
 They meet the Garner team at Westbrook next Friday afternoon.

**JUNIOR NEWS**  
 The Junior class are working hard (a certain percentage of them) on the Junior-Senior banquet, and we are hoping it will go over with a wham!  
 Winton Lee and his date have ceased to be of any amusement, so I'll not bother with that again.  
 The dachhound song: "Get a long" little doggie.  
 The Juniors have come to a decision, "people do have more fun than anybody."

Thanks, June, for the advice, but remember, "It's the truth that hurts!" I could change it around, tho, June, probably won't have a bit of trouble getting a gigolo now. It's the gigolo that's gonna have the trouble dating June!  
 It's a triangle now—Ramelie has to share the Junior boy friend with another girl.  
 June's and Marjorie's pictures have arrived for the county tennis champs and boy are they swell? Some people (besides them) seem to think so.  
 They remind me of Winton Lee—"Doc" in "Snow White and the Seven Dwarfs," Earl Neal—"Dopey"; Sidney Jones—"Bashful"; Jackie Hamilton—"Sneezy"; Jack McDonald—"Sleepy"; and Van Boston—"Happy". And although it doesn't fit very well, Boyd would you mind being "Grumpy"?

Flash!!! (this was written by someone other than the Junior reporter) Weldon has a new name "Inkey pants." It all happened when Weldon speled his ink in his lap!  
**OUT OF THE NEWS BOX**  
 The poor Junior reporter is catching it again. Someone says "From the looks of things the Junior reporter is running a Walter Winchell gossip column instead of a Junior news."  
 We wonder where Boyd Rae got his black eye. He claims it's from playing football, but we still wonder.  
 Some of the feeble minded boys surely do get a kick out of writing falsehoods about people especially "chasin' boys," and "falling down." "Cheer up boys" your future still looks brighter. They are building for you a new home in Big Spring.  
**WESTBROOK'S SIX-MAN FOOTBALL TEAM SLATED FOR TWO MORE GAMES**  
 Two more games, one at Westbrook and one at Coahoma, are slated for Westbrook's six-man football team in the practice league formed early this spring by Westbrook, Coahoma, Stanton, Courtney, Garner, Ackerly, Forsan, and Garden City.  
 Westbrook will play Garner at Westbrook this Friday afternoon at 2:30. They will play Coahoma at Coahoma Friday, May 13.

### BLISTERED FACES AND TALL STORIES BROUGHT IN BY ANGLERS SUNDAY

A large part of Colorado's masculine population—and some of its feminine—wore deep "blushes" Monday morning.

Between these "blushes" and the official opening of the fishing season Sunday there was, to the detective-minded observer, a close connection. . . Sunday's high, hot wind and summer-like sun burned such blushes into the as-yet tender faces of eager anglers who spent the day at fishing places of the area, trying their first luck. . . Luck was pretty good, according to reports, but the high wind detracted from both luck and enjoyment—to say nothing of bringing on the blushes (blistered faces to you.)

### CHEVROLET TRUCK STANDS HARD TEST

DETROIT.—Although it has condensed into 10 gruelling weeks more mileage than the average vehicle covers in a year, the Chevrolet truck which Harry Hartz is piloting on a long-distance dependability run is still writing a remarkable record of economy and durability. This fact is revealed by figures released this week by the AAA Contest Board at Washington, under whose sanction and supervision the run is being made.

Since Jan. 11, when it left Detroit, the truck, a 1½-ton model carrying a 4,500-pound load of steel, has visited Ottawa, Can., Mexico City, Miami, Los Angeles, and intervening points. It is now on the Pacific coast, preparing to swing east once more. The 25,000-mile point was passed near El Paso, Texas, March 25.

Some of the highlights of the truck's performance, as revealed by the AAA report, are an average speed of 31.87 miles per hour over the entire run, and a gasoline economy record of 15.31 miles per gallon. The total cost of gasoline, oil actually consumed, lubrication, mechanical work and periodic inspection was \$363.59, the official report showed. Ton-miles per gallon, figured on the gross weight of 9,260 pounds including driver and observer, were stated as 70.89. Total cost per mile was \$0.145, and total cost per ton-mile, \$0.0313.

W. E. Fish, manager of the Chevrolet truck department, expressed gratification as the official figures on the run. "The truck," he said, "has traveled a distance equivalent to that around the world, at an expense which the average motorist would not think excessively high for a journey a fraction that long. Moreover, it has not been 'coddled' or favored in any way. It has followed a predetermined route, regardless of surface conditions and of weather. It has been serviced with oil and lubricants only at the intervals recommended to owners in general, and all fueling and other service has been performed under official supervision.

"Such thrift as the truck has registered on both gasoline and oil is proof not only of economy but of durability as well, since it is largely by reason of the engine's capacity to stand up under continued punishment that fuel and oil consumption are kept down."

Mr. Fish expressed himself especially pleased at the proof of efficient cooling, as furnished by the AAA report. In spite of considerable mountain and desert driving, only three quarts of water were added in the entire 25,000 miles.

### WINDBREAK TREES ARE DISTRIBUTED ON PLAINS

LUBBOCK.—Farmers in twenty-one counties of the South Plains and Panhandle regions last year planted 86,000 trees to fight wind erosion and to serve as windbreaks for their crops.

The trees were distributed by the nursery of the Lubbock Experiment Station, Don L. Jones, superintendent, said. The trees were all grown here in co-operation with the State and United States Forest services. The work has since been discontinued by the Texas Legislature.

A small charge, sufficient to cover the cost, was made. The work was not done as a commercial proposition, but to encourage farmers to plant more trees for windbreaks and for ornamental purposes around farms. Windbreaks have definitely proved their value in actual tests. On the J. Lydeck farm near Craig, Neb., corn protected on the south by tall windbreak plantings yielded seventy bushels to the acre while unprotected averaged much less. In the 1936 drought Lydeck's oats produced twenty-five bushels per acre because of the protection compared with only five acres on unprotected fields: Counties receiving the trees follow: Bailey, 4,000; Briscoe, 640; Castro, 4,245; Cochran, 5,054; Crosby, 2,825; Dawson, 4,866; Dickens, 2,100; Floyd, 1,400; Gaines, 2,780; Garza, 275; Hale, 4,187; Hockley, 10,125; Lamb, 2,355; Lubbock, 11,572; Lynn, 20,330; Motley, 500; Parmer, 775; Scurry, 1,025; Swisher, 3,944; Terry, 3,100; and Yoakum, 675.

The examinations are open to men and women who have been citizens of Texas for at least five years immediately preceding the date of employment.

Applicants must meet the following minimum requirements for participation in the examinations: (1) A high school education and three years of the required experience; or (2) a college education and one year of the required experience; or (3) any equivalent combination of (1) and (2); or (4) four years of the required experience. Required experience is full time paid employment

### TIRES IMPORTANT IN SAFETY OF HIGHWAYS

NEW YORK.—The automobile tire industry of the nation has taken up the fight for safer highways and better business.

Estimating that there are 59 million tires in use on motor cars in the United States which should be replaced this year with more than a half-billion dollars' worth of safe, new tires, the tire division of the Rubber Manufacturers Association announced a mighty cooperative program to reduce highway accidents and to stimulate business.

The program will be climaxed by observance of National Tire Safety Week, during the week of May 14-21, with tire makers, distributors, and dealers all supporting it.

Pleas to car owners and drivers to protect themselves, their families, and others on the road with them by replacing their old, smooth tires, will be presented to the motoring public.

"Industry figures indicate that 59 million tires now in use are smooth or will become smooth during 1938," said A. L. Viles, president of the Rubber Manufacturers Association. "Many of these are unsafe. Unless these dangerous tires are replaced, millions of motorists will be taking needless chances. They will be risking their lives for just a few extra miles."

"This is why tire manufacturers banded together to institute National Tire Safety Week. They wanted to show motorists everywhere the utter foolishness of trying to obtain those few extra miles. And they wanted to stimulate business by encouraging sales which would total more than a half-billion dollars, if all old, smooth tires were replaced."

## CATHERINE SLAGLE AND WEYMAN MOSELY WIN JUNIOR CC PRIZES FOR ESSAY AND POSTER ON NATIONAL AIR MAIL WEEK

Winners of the National Air Mail week essay and poster contests in Colorado schools have been announced by Joe Y. Fraser, county chairman of National Air Mail week observance. The contests were sponsored locally by the Colorado Junior Chamber of Commerce.

Catherine Slagle, Colorado High school sophomore, has been announced as winner in the essay division for her paper on "Wings Over America." Weyman Mosely, also a sophomore, was winner of the poster contest with a drawing titled, "Air Mail Saves Time." Each winner received a \$2.50 cash prize offered by the junior chamber of commerce.

Both the winning pieces of work have been sent in to the state contest, along with several other essays and posters, according to Fraser and Tom J. Goss, assistant county chairman.

Judges in the essay contest were Miss Velma Barrett, Juan P. Mason, and Miss Gladys Miller, members of the high school English faculty. The posters were judged by Mrs. R. H. Ratliff, Miss Alwilda Crosthwaite, and Miss Beatrice English. Catherine Slagle is the daughter of Mr. and Mrs. H. P. Slagle, and Weyman Mosely is the son of Mr. and Mrs. W. M. Mosely.

## PICKED UP ALONG THE NEWS PATH

An anonymous person (anonymous by request, you understand) asked me to give a word picture of how Fern Kelley climbed stairs after her earlier softball efforts. . . . But I didn't see her, so how could I? . . . And I refuse to take my word pictures second-hand—at least, this time I do. . . .

If there were anything left to say about "Snow White and the Seven Dwarfs," we might try saying it. . . . But there doesn't seem to be, so we'll let it go by admitting, quite publicly, that we saw the picture twice and enjoyed it more the second time than the first. . . . Just to illustrate the wide range of its appeal, there was Mrs. P. C. Coleman, regal and white-haired, pushing her way in among the Seven Wells school children, who got out of lessons and came in, by bus for the picture Monday afternoon.

Speaking of enjoyable things, I've seldom enjoyed anything more than Mrs. Earl Powell's reading of "You Can't Take It With You" Saturday afternoon. . . . Readers and reviewers who consider vocal and facial gymnastics necessary to putting over their points, could, in my opinion, take a lesson from her utter naturalness. . . . But one must remember that not all such are endowed with Jane's (this Mrs. Powell business is too long) unusual, husky voice. . . . I always liked it, even when it was being employed to lambast me back in my high school days. . . . Yes, I went to school to Jane Bounds Powell, but don't get the idea that I'm trying that lovable feminine trick of handing out sour grapes on a silver platter in regard to age, for I'm adding that Jane wasn't far out of school herself at the time.

With a cloak of injured dignity wrapped closely about our offended person, this column refers you to the society page of this issue of The Record to see an announcement which justifies one of our matrimonial predictions of not so long ago. . . . The one about "romance brewing in the frequent visits of a certain Big Spring man in the home of a certain Colorado girl," or something like that—remember? . . . This is, I-told-you-so stare is for those who hinted that our predictions were just curiosity teasers, nothing more. . . . And now that we're vindicated on at least one count, we hereby pass on another little whisper into what we hope is a more receptive public ear: A young man who recently returned to Colorado after an absence of several months is said to have his ears all set for the sound of wedding bells that are supposed to ring when commencement is over at a certain college not far to the eastward. . . . And if those bells don't ring, don't blame us—he could be listening just the same, couldn't he?

The writer of this column is indebted to Joe Earnest for the following paragraph—and Joe insists that he, in turn, is indebted to Rod Merritt for some of the ideas therein. . . . And so, with all the crediting over with, here's the paragraph: "Those of us who saw Snow White (and who didn't?) doubtless remember among the credits at the beginning of the film was the name of a Joe Grant as one of the two designers of character. It is something more than mere conjecture on our part which makes us believe that this is the Joe Grant who used to work in the Alceve and the John Doss drug store. For Joe, in the days before druggists were painting signs on show windows and soda fountain mirrors, used to make fancy drawings for window and mirror. And good ones, too, they, as weird as any of the dwarfs. Joe left Colorado for Los Angeles, and Hollywood is a part of Los Angeles. Ergo, we'll go on believing that the Snow White Joe Grant is our own Joe, and that Dopey is Joe's favorite brain child. . . . And Snow White reminds old timers of Colorado that about the year 50 B. D. (Before Disney) in other words in the fall of 1885, Colorado had its own Snow White production, a real live version of the fairy story. Dottie Rix (now Mrs. Henry Vauchette of Hollywood), sister of Mrs. C. M. Adams, was the girl with hair as black as night, cheeks as white as snow, and Dora Walker, daughter of Mrs. N. S. Walker, who moved from Colorado to her old home in Exeter, New Hampshire, and eventually to Los Angeles, was the wicked queen. Mrs. Walker directed this performance, given in the Frenkl Opera House, which was on the third floor of the building formerly at the Thornhill store location."

From Joe's pen (or typewriter, rather) comes also this contribution: "When Fortune smiles on some people, she laughs out loud, so beneficial is she. This good lady so favored David Currie, son of the Reverend and Mrs. Thomas S. Currie of Austin. Mrs. Currie was the former Jeannette Roe of Colorado. David attended Choate School, which is in Connecticut and is one of the best preparatory schools in the East, and was this year a sophomore at Texas University, getting along quite peaceably with no idea that lightning was about to strike him. Another former Choate graduate, a boy whom David did not know was this year a senior at Yale University, had a nervous breakdown, and his doctors advised a round-the-world trip if some reliable person could accompany him. Getting in touch with the headmaster of Choate, the boy's parents learned of David, offered him the trip, and there was, of course, nothing to do but pack up, hurry to New York to catch a boat. So the two are globe-trotting by water. An older son of Dr. and Mrs. Currie has had several trips to Europe, one of them being to Helsingfors, Finland, to a meeting of Y. M. C. A. students. Until this year, Dr. Currie, who is president of Presbyterian Seminary at Austin, has been commuting back and forth from Austin to Dallas on Sundays and serving as pastor at the Highland Park Presbyterian church in Dallas. However, he has given up his Dallas work and is devoting full time to the seminary. . . . In a week when our brain, if we have one, has been more than usually dull because of the hovering threat of old Morpheus (spring fever to you), we are very grateful to Joe for these offerings. . . . It must be pointed out, in justice to Joe, that he submitted the paragraphs for us to pass off as our own, with no thought of his being credited with either the writing or the ideas. . . .

Seems there were others who wondered about how the little Johnnie who visited here last week goes traveling and at the same time does his call for Phillip Morris on the radio so regularly. . . . W. L. Doss, Jr., asked the young man about this very thing, and was informed that there are, in reality, two Johnnies with identical voices and much the same appearance. . . . When one's traveling, the other announces, and vice versa. . . .

We folks who always had our difficulties trying to remember which was which in regard to the "Jenkins Twins" can sympathize with the problems of the Braniff Airways management as set forth in the following Oklahoma City and appearing in a recent issue of the San Angelo Morning Times (and our thanks to Mrs. Stewart Cooper of Odessa for sending this clipping in): "Twin sisters, 21, working as hostesses for Braniff Airways put the management in a dither. . . . "When airliners report to stations in line of flight by radio, the rules call for giving the names of pilots and hostesses. But the names of the twins, Loyse and Louise Jenkins, of Fort Worth, Texas, sounded alike over the air. . . . "L. H. Luckey, the line's operations manager, solved the problem. Loyse, he said, would be Jenkins No. 1 and her sister Jenkins No. 2."

**CONSERVATION OF STATE'S UNDERGROUND WATER URGED**

AUSTIN, Texas.—Unless immediate steps are taken to conserve the State's underground water supplies, Texas will be facing a serious shortage of underground water, according to the Texas Planning Board's water resources committee, which is making an exhaustive study of the State's underground water resources.

Some sections of the State already are beginning to feel the pinch of a diminishing supply of underground water. The underground water table in the famous Winter Garden area is dropping at an alarming rate and unless drastic conservation measures are taken soon, that area will be faced with a serious underground water problem.

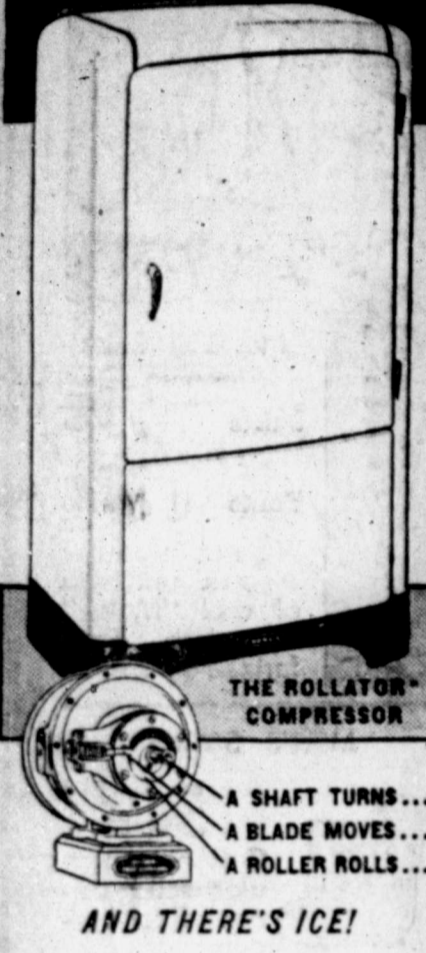

Contrary to popular belief, most of the cities and towns in Texas get their water for domestic purposes from underground sources. In some sections of the State the underground water is replenished almost as rapidly as it is used, but there are other sections where the forces of nature are unable to keep the supply replenished. It is in these sections that stringent conservation measures will have to be taken if the State is to be insured a continuous and bountiful supply of sparkling underground water.

The planning board's water resources committee, under the direction of C. S. Clark, planning board member, and chairman of the State Board of Water Engineers, is studying several conservation measures. Each of the measures, however, provides for the conservation, and orderly use, of the State's precious supply of underground water.

### SURPRISE BIRTHDAY DINNER

Mrs. R. K. Thornhill entertained a number of neighbors and friends Monday evening honoring her husband's birthday. All arrangements were made secretly, therefore Mr. Thornhill was much surprised when he came from the store to find his living room filled with guests and a lovely dinner consisting of fried chicken galore with all accessories, followed with a delicious dessert of Angel food and gold cake with ice cream served cafeteria style. Mrs. Thomas Riden presented the beautiful birthday cake.

The evening was spent in pleasant conversation and an old time song led by Thomas Riden in which everyone took part. We enjoyed every minute of our visit in this hospitable home. At a late hour we bid them goodnight wishing Mr. Thornhill many happy returns of the day, whose pleasure of the occasion was evidenced by his expressions of happiness and broad smiles.

SENIORS HAVE BUSY WEEK-END The Seniors enjoyed a very good picnic Friday at the Sweetwater lake. They left the high school about 9 o'clock and arrived at the lake about 10 or 10:30. Although the season had not opened they swam, went boating, and hiked.

The Seniors returned between 6 and 8 after a splendid time.

SOPHOMORE NEWS

Wednesday being Randall Webb's birthday, the first period Spanish class arose to a man (at Miss Smith's request) and trilled "Happy Birthday To You" to the blushing honoree.

That little fellow wanted to know where the presents were, so Miss Smith, not to disappoint him, fished a bright penny from her purse to give him! All the sophs were last week "Winging Across America" after reading up on Wilbur and Orville Wright!

Musicians who suggest a navy tune to replace the Star Spangled Banner as national anthem should remember that its the high C's we're trying to get rid of. Harvey Cook was the algebra star who shone in last Monday's class when Mr. Foster was traipsing about the countryside with the Choral Club.

Did you know that in 1927 the C.H.S. Wolves whipped the Loraine footballers to the tune of 52-0? Short story: Moon, Croon, Spoon, Groom. Weyman Moseley was awarded \$2.50 offered by the Jaycees for the best poster in the "Wings Over America" contest.

And Germans named their ships after jokes so that the English wouldn't see them. Burl Ballard and Jack Smith will be leaving the latter part of the week for the State track meet at Austin. Hoss-shoes to you, boys!

In a motor car With hands together At Midnight No, that can't be censored, for it was only a clock. Nancy Price startled everyone by suddenly contemplating upon the profundities of Existence by remarking after a long, deep silence: "What fun does an ant set out of life, anyway?"

And did you hear about the Home Ec. girl who wanted to know "What is life, anyway?" This Harry Etta-Dock affair is running everybody nuts, including the two interested (?) parties. Motto for gossips: Stop, Look, and Listen In.

Charles Nuckolls said that the last time his dog chewed on a watch he started running. Miss Smith remarked (and Bazell blushed) that Bazell's mind must have been on some gay caballero during class period the other day. Maybe she has something there!

That shiner Nan Price was sparring a while back only goes to prove that the hand is quicker than the eye. Miss Miller: Name two pronouns. Oscar D. Who? Me?

One factor of a formerly "thataway" couple is giving the other the run-around—and the other party doesn't seem to mind—much. He who laughs last is usually the dumbest. Catch on? Pauline Simpson has been working at the Round Top lately. Beulah Robinson will have attended a Junior-Senior ban-

quet each year of her high school career—and that's sumptin'! Three is defined as a figure meaning one too many. Buzz wears those lode socks to keep him awake. Pome of the week: Underneath the mistletoe The ugly maiden stood. She stood and stood and stood. And stood and stood and stood. Dook Cox is having a swell time with that shiny new Ford. They all laughed when I walked out on the dance floor with a paper bag full of water. They didn't know I was going to swing it. Two sophomores, Ann Axtell and Freddie Watson, have pledged the '38 Sub-Debs and are currently being initiated. They are saying the alphabet backward and otherwise being put through their paces. Among boys coming out for the baseball team C.H.S. is entering this summer's tourney are Ross Glover, M. A. Webb, Burl Ballard.

Catherine Slagle. FRESHMAN NEWS There was never and will never be anything better than that Fish picnic at the park. Wednesday afternoon shoes ruined. Pictures snapped. Colds as rewards. Johnnie Lee was seen ginnin' around in that little Ford. Going through the creek on bumpers was swell. Slipping off from other students was better. Wellers and popsicles still better. What was best? Some thought the above things, but others proved the Price's back yard contained golf, scooter riding, bicycling, and fence hitting!

Quite a few Fish missed most of fifth period Thursday. They wanted to help greet the Dallas Business Men. Some girls were attracted to those good-looking men, so BEWARE boys!

This essay writing in English I classes hasn't been so bad after all. The Fish found it was better to learn now, also to make outlines. (Especially the latter since Mr. Mason, the instructor, stated he did about 400 pages of outline work in one six weeks for only three teachers.)

Some feed the "Death at 40" look, however, by that Sunday driving, some don't.

Mary Price. BOOKS WANTED FOR LIBRARY Some very interesting books have been suggested by Miss Miller to place in the library. Among the outstanding are:

"18,000 Words Often Mispronounced." "Art Through The Ages." "Choice of An Occupation." "Universities of the World." "Color in Everyday Life." "Travel Books." "What to Say and How to Say It." "Form and Function of American Government." "An Approach to Choral Speech." "Twelve Tests of Character." "Biographies."

These would add much to the library in several different ways. Ruth Hardison.

GOLF TEAM DETERMINED The top-flight golfers of C.H.S. have been determined by rounds played last week. Grover Williams, defeating Barry Joyce 7-6, gained a berth on the squad. Robert Lacey dethroned Glen Churchill, 4-3. Howard Lewis stepped into a top position by a 4-up victory over George Mallard. Chick Carter defaulted, giving Hardison Almond a place on the team.

Mr. Christian stated that a match with Sweetwater has been asked for Saturday, but this plan is only tentative. Catherine Slagle.

CHORAL CLUB NEWS The choral club went on a tour Monday and as for having a good time we had one! The first stop was at Sweetwater about 10 o'clock; then from Sweetwater to Roby. We then returned from Roby to Sweetwater to eat lunch.

Our next stop was Roscoe. It seems Roscoe's stage scenery is not so substantial for just as Mrs. Moe-ser was announcing our first number some fell on top of a group of the choral club. That reminds me, "How does the knot on your head feel by now, Betty?"

The last stop, but not least, was at Loraine. A "high-heel" good time was en-

joyed by all and all are looking forward to another tour next year. Freddie Blackwell.

Blackwell were chosen. Olive Warner, Joy Hinton, Rachel Wood, and Barry Joyce were among the best Senior themes.

Weyman Moseley and Doris Richardson made the best airmail posters. Weyman Moseley won first place in the local contest sponsored by the Junior Chamber of Commerce. He received a prize of \$2.50.

Ruth Elliott. JUNIOR NEWS No, your reporter hasn't died although she has been incapacitated for the past week. Spring fever, love, just plain laziness, but not one of these things—she has been working. Book reports are stacking up now and it takes quite some time to get them in.

Pingpong seems to be the fad now among the big leaguers are Sam Richardson, Jimmie Harrison, Bob Lacey, Corley Rogers, Jack Womack, Turkey Chadwick and Duff Chesney. The girls of the class compose a slow league of their own.

Preparations are fast beginning to come to realities. The banquet is progressing famously, the menu is being planned and committees are beginning to work furiously.

Last week the Junior committee consisting of Thomas Chadwick, Duff Chesney, Sam Richardson and Virginia Whipkey voted to standardize the same invitations as the Seniors are sending this year making this a three year contract.

Geometry is now this is to that as that is to that—grab me—in other words its proportion. Ten more days to go!

The Choral Club seemed to have had an enjoyable time Monday—Junior members were Geheva Campbell, Billie Blackwell, Aleene Bodine, Fae Porter, Mollie Lou Rice, Paul Rogers, Rudel Glover and Nathan Welch.

This could go on and on but all our Colorado is still the same dull town. Virginia Whipkey.

CHEMISTRY CLASS The class had a very enjoyable trip to Abilene with the exception that Ted Hale didn't get left at the Colony. Seriously, the class will never forget the people they saw and the eager way in which they received the students. The Banner factory was very interesting and for once Thomas Chadwick got more ice cream than he could eat at one time.

After returning to town some of the students went to the show, some shopped and other visited the colleges. It was the nicest and most enjoyable field trip the class has made this school year. Virginia Whipkey.

BEST THEMES From the Air-Mail Contest themes, the best have been chosen by Miss Miller and Miss Barrett in their Sophomore, Junior, and Senior classes. The three best themes from the Sophomore class were Catherine Slagle, Earnest Porter, and Billie True Templeton. From the Junior class Willie Grace Doss, Louise Dockery, Billie Louise and Freddie Ruth

MUSICAL APTITUDE TESTS TO BE GIVEN CHILDREN OF ELEMENTARY GRADES HERE Musical aptitude tests for children of primary and elementary school age have been announced for Thursday or Friday of next week by R. P. Rose, director of the Colorado school band.

These tests are being given to determine the amount and type of musical ability which a child has while he is still in his most trainable age, Rose says. It is planned to have musical groups in all divisions of the school next year, he explains, starting with a simple rhythm band for primary pupils. This early training will result in better musicians for Colorado's high school band and for other organizations of the town, he believes.

The tests will be given free of charge by an Abilene representative of the King Band Instrument company.

Blackwell were chosen. Olive Warner, Joy Hinton, Rachel Wood, and Barry Joyce were among the best Senior themes.

Weyman Moseley and Doris Richardson made the best airmail posters. Weyman Moseley won first place in the local contest sponsored by the Junior Chamber of Commerce. He received a prize of \$2.50.

MUSICAL APTITUDE TESTS TO BE GIVEN CHILDREN OF ELEMENTARY GRADES HERE Musical aptitude tests for children of primary and elementary school age have been announced for Thursday or Friday of next week by R. P. Rose, director of the Colorado school band.

These tests are being given to determine the amount and type of musical ability which a child has while he is still in his most trainable age, Rose says. It is planned to have musical groups in all divisions of the school next year, he explains, starting with a simple rhythm band for primary pupils. This early training will result in better musicians for Colorado's high school band and for other organizations of the town, he believes.

The tests will be given free of charge by an Abilene representative of the King Band Instrument company.

# Stars of Screen, Stage, Opera and Radio Glitter in 'Goldwyn Follies,' Lavish Technicolor Picture

"WORLD'S BIGGEST SHOW" MARKS PRODUCER'S SWING TO COLOR STANDARD

FEATURES GERSHWIN'S LAST SONGS

FIRST FILM IN 25 YEARS OF PICTURE-MAKING TO CARRY PRODUCER'S NAME

Presenting a dazzling array of stars and a variety of talent that staggers the imagination, "The Goldwyn Follies," the glorious Technicolor musical extravaganza which marks the first entertainment in Goldwyn's 25 years of picture-making to carry the producer's name, begins a 3 day engagement at the Palace Theatre Saturday midnight, Sunday and Monday, May 7, 8, and 9.

The musical, which also marks the producer's swing to the color standard, has been produced on a scale more lavish, more opulent and more magnificent than anything the screen has ever known.

Goldwyn invaded every field of

entertainment to find stars to augment the screen cast headed by suave Adolphe Menjou, The Ritz Brothers and the beautiful, rising young star, Andrea Leeds.

From radio he took Edgar Bergen and Charlie McCarthy, the comedy sensation of the world; Kenny Baker, Jack Benny's silver-voiced romanticist; irreplaceable Phil Baker and his accordion; from grand opera, lovely Helen Jepson and the sensational newcomer, Charles Kullmann; from the world of the dance, the beautiful Zorina and George Balanchine's America Ballet of the Metropolitan Opera; and from musical comedy goggle-eyed Bobby Clark to clown with petite Ella Logan.

Then there are the hand-picked Gorgeous Goldwyn Girls as well as Hollywood's 12 loveliest and most talented tap dancers; Jerome Cowan, Nydia Westman, Frank Shields and a hundred more who fit into the pattern of one of Ben Hecht's best stories—a comedy of Hollywood which casts Menjou as a film producer out of touch with his public, and Andrea Leeds as the typical American girl whom he hires as "Miss Humanity" to keep him posted on what the public wants.

"The Goldwyn Follies" boasts the last and perhaps greatest score written by the late George Gershwin, studded with several very singable song hits, including "Love Walked In," "I Was Doing All Right," "I Love to Rhyme," and "Love Is Here to Stay." The lyrics are by Ira Gershwin.

The music for the beautiful ballet numbers, as well as the hit song, "Spring Again," is by Vernon Duke. The ballets were conceived and staged by George Balanchine. The Ritz Brothers specialties and songs, including the hilarious "Pussy, Pussy," are by Sid Kuller and Ray Golden.

Richard Day designed the breathtaking settings, while the eye-filling costumes are the work of Omar Khan.

"The Goldwyn Follies" was directed by George Marshall for release through United Artists.

"SCANDAL SHEET" Palace—Thursday, May 5

Delving into the small-town mind and slant on life, Paramount brings forth herein a well-made comedy drama, neatly etched and consistent in story development, which is ideally geared for neighborhood theatre consumption. Fine work by the principals makes it thoroughly enjoyable entertainment that will not come amiss on any program. Miss Campbell, sojourning in a typical American suburb awaiting the arrival of her fiance, Lew Ayres, is caught in a merciless trap of suspicion and circumstance when she is found beside the murdered body of Roscoe Karns, a would-be playboy who has been giving her the rush. Neighborhood gossip strengthens the case against her, but she is proved

innocent when little Virginia Weidler does some sleuthing to find the killer. James Hogan directed.

Players are Louise Campbell, Lew Ayres, Roscoe Karns, Porter Hall, Edgar Kennedy, Elizabeth Patterson, Virginia Weidler.

"BATTLE OF BROADWAY" Palace—Friday and Saturday May 6 and 7

Introducing Victor McLaglen and Brian Donlevy as promising successors to the once popular Quirt-Flagg combination, here is a lusty and wholesome comedy with an authentic American Legion background which should be a bell ringer as top spot program material. Louise Hovick, tall and tantalizing, and Raymond Walburn lend noteworthy support. McLaglen and Donlevy, steel workers, are sent to attend a Legion convention, in New York. Their boss, Walburn, assigns them to get his son, Robert Kellard, out of the clutches of a girl whom his father thinks is a gold digger. But Kellard throws the pair off the scent by pretending it is Miss Hovick, when in reality he is in love with Lynn Bari. George Marshall directed.

Players are Victor McLaglen, Brian Donlevy, Louise Hovick, Raymond Walburn, Lynn Bari, Jane Darwell, Robert Kellard.

"BARONESS AND THE BUTLER" Palace—Tuesday and Wednesday May 10 and 11

Subtle and satirical farce comedy of European society and politics which is perfect for the sophisticates but cannot hope to enjoy the mass support necessary to make it a big money picture. The feature gets away to a slow start but gathers speed. William Powell delivers his usual fine and suave performance. Annabella, French importation, shows a tendency to overact. Production is on the high budget side while the screenplay and direction sustain the artifices of the play by Ladislaus Bus-Fekete from which it was adapted. Powell is the perfect butler in the home of a Hungarian nobleman. His leftist leanings win him a seat in the national parliament where he proceeds to make a political sucker out of his employer, thereby winning national acclaim and the baroness. Walter Lang directed.

Players are William Powell, Annabella, Helen Westley, Henry Stephenson, Joseph Schildkraut, J. Edward Bromberg, Nigel Bruce.

"THE FIRST HUNDRED YEARS" Ritz—Sunday and Monday May 8 and 9

Witty and tender by turns, at all times thoroughly delightful, this comedy-drama of marital joys and sorrows shows class production all the way and should register boxoffice returns commensurate with its calibre. The acting shines in the capable hands of Robert Montgomery, Virginia Bruce and Warren William, are on a par with the tasteful mounting by Producer Norman Krassna and the smooth, flowing direction of Richard Thorpe. Montgomery finds a part made to measure for him as the handsome and charming young husband whose wife, Virginia Bruce, won't give up her own lucrative job to make a home for him in a rural locality where he has obtain-

ed work. There separation provokes a novel situation, the wife paying alimony to her spouse.

Players are Robert Montgomery, Virginia Bruce, Warren William, Alan Dinehart, Binnie Barnes, Nydia Westman, Lee Bowman.

## ROGERS RAMBLINGS

"Be pleasant until ten o'clock in the morning, and the rest of the day will take care of itself."

We had a very good crowd in Sunday school Sunday. Some of our members were at singing in Colorado and perhaps others were at home, but we had 30 present and good lessons. We want each of you to come back and bring someone with you. Don't let the good classes cease to go on just because school is out and summer is here again. We cordially invite everyone to come to our Sunday school each Sunday morning at ten o'clock.

We had a very fine crowd for our closing school program Friday night. Really we think you missed something if you weren't there.

We wish to take this opportunity for expressing our appreciation for the splendid cooperation given us this year by the members of our community. We include those many friends outside of our group who helped to make this 1937 and '38 school year a progressive and successful one. We do hope that our next year will be just as successful, and with such people as we have back of us we feel sure that it will be. We thank you again for your kind patronage.

## GOODYEAR DEALER POINTS OUT NEED OF TIRE SAFETY

Serious accidents reported during 1937 as being the result of high-speed tire failures, totalled 9,530, a gain of 1790 mishaps over the reported figure for 1936! And not all of the tire-failure accidents were reported, so that many minor injuries and much property damage would add greatly to the toll taken by blowouts, in the opinion of Thomas Bros., local Goodyear dealers.

"Nothing short of a disabled steering wheel makes a car so helpless—a danger to its occupants—and a menace to other motorists," declared Luke Thomas, "as a high-speed tire failure. Cars today," he said, when interviewed by a reporter from The Record on the subject of greater safety in driving, "are built with all steel bodies, safety glass and four-wheel brakes, but there is still one vulnerable point, the tires. As fine as tires are made today, there is still no such thing as a blowout-proof tire. Tires fail from previous road injuries, when the car owner is least expecting trouble. And so tubes let go, throwing the automobile into a crazy road-weave, either hurtling off the highway or smashing into the lane of approaching cars.

"Fortunately there is something that motorists can do to avoid high speed, tire accidents. I refer to the use of the Goodyear LifeGuard, a two-ply reserve tire inside the tube, both being inflated through the same valve. When the casing and tube fail, the inner tire holds enough air to support the car until it can be brought to a safe, smooth stop," continued Mr. Thomas. "The driver is able to retain braking and steering control until he gets the car stopped.

LifeGuards are made for use not only on passenger cars but on trucks, buses, fire fighting apparatus, ambulances and motorcycles.

WHAT IS A FRIEND? We had a friend? A person who often tried will still be there. On whom you always can depend. To stand by you until the end. Who, when you make yourself a cad, will see the good, pass up the bad; One to whom, tho' you be unkind, Will still unto your faults be kind.

WHAT IS A FRIEND? A person who Forgets himself, and thinks of you. A person who will dare to keep A vigil while you soundly sleep. A person who the mire will wade To help you to a higher grade. One whom your faults will not offend. That person surely is a friend.

"Yes, a friend is a person who knows all about you, but loves you just the same."

KLEVER KEYHOLE Vacation!! And how? It's here again, but it won't be long until we will be hearing the school bell again. Did we have a big time at the show Monday night? I'll say we did. Harlow was a wee bit puzzled about the birds and we animals helping clean the house; but after a clear explanation by Lavern his mind could rest easy. Even George wondered how he could find some ears like those of "Dopey's" and poor Leon is wondering how he can be so fortunate as the prince. Don't worry Leon, "Lady Luck" will be around your way sometime. Frank is wondering what this "half ticket" business means. Can't

you, won't you, why don't you, somebody tell Frank the secret to this? Why was it, that Bonnie wanted to sit by Lavern. Could it have been that "she" likes to hear "her" laugh? It seems that everyone had acquired one of "Sleepy's" traits by the time we left the show. Everyone seemed to have enjoyed everything anyway.

WHAT'S THIS? "How nice of you to stop with us! To see old friends from home!" (Who told 'em that we run an inn? Is this the road to Rome?)

"No just sit down—You need a rest." (Me, too, but guests must eat.) "You'll stay all night?" (Ye Gods, Today I used the last clean sheet.) "Yes, you're fortune is in your face, but you're bankrupt and don't know it."

As each of you know who "The Tattler" is I wish to thank those of you who showed such splendid sportsmanship in regard to the Keyhole. It was greatly appreciated. I'm sure you will be just as faithful to your new reporter—Irene

Housewives are finding that cheap electricity and their electric refrigerators save them money by preventing food spoilage, even in the hottest summer weather. The surplus freezing capacity of electric refrigerators also assures plenty of ice cubes and frozen desserts.

### EDITORIAL

#### A SERMON

We have been criticised by some for writing too much about the Bible or writing sermons. We consider that life beyond the grave, the most important thing to think about and things we might say or write to improve ones living should be first.

#### THE COMMANDMENT TO LOVE

It was just before His death that He said,

"A new commandment I give unto you,

"That ye love one another."

It is a commandment yet.

It is a law of economics as well as of Life.

"By this shall men know that ye are my Disciples,

"That ye have love, one to another."

And this test still holds good.

It is a law often violated but never repealed.

#### THE WAY, THE TRUTH AND THE LIFE

JUST before His death He said to Thomas,

"I am the way, the truth, and the life;

"No man cometh unto the Father but by me."

Philip wanted to see the Father. He said to him,

"He that hath seen me hath seen the Father."

Another declaration of His oneness with Him.

Then came the most comforting of all assurances,

"Let not your hearts be troubled;

"Ye believe in God, believe also in me.

"In my Father's House are many mansions . . .

"I go to prepare a place for you,

"That where I am, there ye may be also."

Again He said,

"Let not your heart be troubled."

And He emphasized this when

He said, "NEITHER LET IT BE AFRAID."

"But they cried out, 'Away with him,

'Away with him; crucify him.'

"Then delivered he him to be crucified."

"There stood by the cross of Jesus his mother."

Mary is still standing by the Cross.

He who wrote the words herein quoted

Was not only a Disciple, but a witness,

For he says, "And he that saw it bear record.

And his record is true; and he knoweth

That he saith is true, that ye might believe."

#### MAN'S GREATEST TROUBLE

MAN has no trouble like terrifying Fear.

Fear in Life, Fear of Death, Fear of many things.

"Man is born unto trouble as the sparks fly upward."

Thus spoke Job, and Fear causes most of it.

From Genesis to Revelation we read, "Fear not."

"Fear thou not, for I am with thee;

"Be not dismayed, for I am thy God;

"I will strengthen thee, yea, I will help thee;

"Yea, I will uphold thee with the

"Right hand of my righteousness."

Why should one who has the Light be afraid?

"The last enemy that shall be destroyed is death."

Paul said, and He who was the Giver of Life was

Also the destroyer of Death. He brought death to DEATH!

#### HIS KINGDOM

WHEN one takes a survey of the world, as it is

He understands why it was that Jesus said,

"My Kingdom is not of this world."

With a broken, bleeding heart He sees the world today riven by dissension, seething with hatred and strife. Those for whom He came He sees taking one another's lives. This after bankrupting Heaven to pay the debt of sin.

The horrible monster of war, the gaunt specter of disease, the unutterable spectacle of brokenhearted women and little dying children—a "Slaughter of the Innocents" that makes Herod's butchery seem insignificant. This notwithstanding the new commandment, "Love one another."

Perhaps He is saying again, "Father, forgive them; they know not what they do."

Those who are made sinless through His sacrifice and the forgiveness of their sins can have peace in their own hearts, and have warrant yet for exclaiming, "Glory to God in the highest, peace on earth, good will to men."

#### EASTER HATS

A lady reader of this column asked the writer how he liked the display of ladies Easter hats at the church last Sunday.

Smokestack looking things that look as if they might turn into Mount Vesuvius at any moment—pancake hats that look as if they might be dripping maple syrup at any moment—spiral hats that look as if an astonished mammoth Nautilus might pop out at any moment and ask, "Say, lady, what are you doing wearing my shell?"—all these things made it almost like a journey to another planet. So out of the fact that we men buy hats to keep our hair, the sun and rain out of our eyes, comes the thought: Just how and why can the ladies wear these things—and call them hats?

One girl who sang in the choir had on a hat that looked like a biscuit pan bent cunningly and topped with half a whisk broom. The reason why a girl likes a peculiar hat is because it gives an impression of her superiority. There could be no better reason. A girl who feels a superiority should be encouraged. To feel inferior is fatal.

Lee Carter stepped on a banana peel and got a severe fall on the sidewalk, not being hurt as it turned out, but, having his dignity somewhat ruffled. When he recovered a moment later a friend was holding his hat and a number of people had formed a circle.

"What do these idlers want?" asked Carter.

"They are not idlers," explained his friend soothingly. "Here's a doctor who wants to look you over, a lawyer ready to bring suit for you and a producer of comic films who would like to sign you up."

A widow came into the Record office and wanted to insert an obituary notice and asked how much it would be. The editor told her, twenty-five cents an inch. The widow exclaimed, "Land sakes John was six feet tall."

W. W. Porter was having trouble with the telephone. He could hear nothing but a confused jumble of sounds, and finally he became so exasperated that he shouted into the transmitter:

"Is there a blithering fool at the end of this line?"

"Not at this end," answered a cool feminine voice.

On the street corner this week we overheard an argument between a doctor, an architect and a politician. The doctor was Ratliff, the architect was Walter Whipkey and the politician was Charlie Thompson, and they were arguing as to whose profession was the oldest.

Dr. Ratliff said: "Eve was made from Adam's rib, and that surely was a surgical operation." "Maybe," said Walter, the architect, "but prior to that, order was created out of chaos and that was an architectural job." "But," said Thompson, "somebody created the chaos first."

Truett Barber had been invited to address the Sunday school, although he was more accustomed to older pupils or church congregations. He was momentarily at a loss what to say to the eager young faces, and asked: "Now children, about what shall I talk tonight?" "About three minutes," said a little boy.

While in Dr. Ratliff's office this week a patient came in complaining of his back and in the doctor's diagnosis he explained that the spinal column is a collection of bones running up and down your back, to keep you from being legs clean up to your neck.

A customer talking to John Holt said, "You sold me a car two weeks ago." "Yes, sir." "Tell me again all you said about it then. I'm getting discouraged."

Dick Hickman in addressing a motorist asked, "How did you knock this pedestrian down?" Motorist: "I didn't knock him down. I just pulled up to him, stopped my car and waited for him to pass. He fainted."

In talking to J. L. Pidgeon this week we asked, "What part of an automobile kills most people?" Pidgeon said: "That's an easy one, the 'nut' behind the wheel."

The Hill-Sheppard bill presented to Congress is supposed to have for its purpose the democratizing of war. That is, it claims to make everybody including the wealthy play ball together by taking the profits out of the whole war business. Opponents see in this merely a camouflaged attempt to establish wartime dictatorship.

The Vinson amendment to the naval bill calls for a navy sufficient to insure victories in both oceans at the same time. If this became an actuality the U. S. would have a navy that must be at least as big as the combined navies of the largest Atlantic power and the largest Pacific power.

In the next few months Soil Conservation checks will go out to the amount of 400 million dollars.

250 million more will be added to the 700 million already allotted to the WPA funds for spending between now and July 1.

Before July 1st it is estimated that 150 million dollars will be paid out in unemployment insurance checks.

It is hoped that the slum clearance program of the government may get under-way to help cushion the shock of the present economic recession.

The present White House policy to let Congress work out its own problems naturally slows down the tempo of Congressional action.

It is found that revenues collected to date under the unemployment insurance feature of the Social Security Act will not be sufficient to meet the requirements for payments if present rate of unemployment keeps up.

For the benefit of stamp collectors Congress has passed a bill legalizing the reproductions of U. S. stamps if on a considerably larger or smaller scale than the actual stamp. This will permit stamp album manufacturers to picture the exact stamps featured on a particular page or in a particular series.

It is still illegal to make pictures of paper money.

Attempts are being made to deport the very successful and very troublesome leader of the Pacific coast longshoremen, Harry Bridges, who is not a U. S. citizen. If deported it will not be as a successful labor leader but as an alien agitator.

Ex-mayor James M. Curley of Boston, one time governor of Massachusetts, has been found guilty in the Massachusetts Superior Court of accepting graft.

The President has signed the new Agricultural Adjustment Act which makes it law, warning when he signed it that the cost involved must necessitate the raising of more revenues.

Much concern is felt by leaders who do not want to see us involved abroad as to what is the administration's foreign policy as regards agreements or commitments with one side or another in the European struggle of fascist leadership for fascist supremacy.

South Carolina's law limiting weight of trucks permitted to travel its highways has been upheld by the Supreme Court. This may be a serious blow to the trucking business and a direct aid to railroads.

It is claimed that from eighty to ninety percent of all trucks engaged in interstate commerce are larger or heavier than the South Carolina laws permit.

The GOP has announced its intention to voluntarily audit the New Deal and publish its findings.
