

### Decommissioned Subs Go Back to Duty

These submarines, shown tied up at Charlestown, Mass., said their farewell to arms after the World war armistice in 1918. Now they are getting ready to stage a comeback. These eight, and many others, will be recommissioned and returned to duty with the planned Atlantic fleet. The navy expects to have 36 of these submarines ready for duty by January 1. In addition, it has 104 first-line submarines, and 81 more which are now in the process of building.

### Instead of a Campaign Button

Here's a new wrinkle, from Hollywood, designed by Max Factor Jr., for a red-hot political campaign. Starlets Joan Barclay and Muriel Zaler wear their choice for President in the form of an old-fashioned beauty patch, with the initials cut out of court plaster. As a fad it's good until November 6, but not a day longer.

### Draft Chief

Dr. Clarence D. Dykstra, president of the University of Wisconsin, who was unanimously confirmed by the senate as director of selective service.

### On Secret Mission

U. S. Naval Commander Walter Frederick Boone, who left Washington for London via Atlantic clipper to Portugal, on what purported to be a secret mission.

IN THE wake of football's mid-season mark we find again one major flaw in the mental attitudes of too many supporters. It is this. When some team gets beaten the crowd swings from that outfit to others unbeaten and untied. This is all out of focus. In the first place, most teams have certain objectives for which they must later on be ready. In the second place, schedules play a big part in any season's final roundup—a terrific part. Pennant-winning teams in the National and American baseball leagues are only supposed to have a .660 average—about two out of three. Few coaches have the reserve strength on hand to get keyed up for every game. It can't be done unless the reserve material is exceptional or the schedule is full of weak spots. Why should a team that plays eight or nine hard games be judged against a team that plays four hard games and four or five setups? **Take Your Choice** I recall a good many years ago when Major Daley was coaching Army. His two main assignments were Yale in October and Navy in late November. "I can win either game," he said to the Army staff. "I can beat Yale in October or Navy in November. But I can't win both. Which is your main objective?" We'll take last fall. Ohio State won one of the hardest conference championship football kno\vs—the Big Ten. Yet Ohio State lost two major games—to Cornell and Michigan. Southern California won the Pacific conference title and the Rose Bowl windup. Yet Southern California was tied by Oregon and outplayed by Washington, both of whom were beaten and outplayed by U. C. L. A. **Shining Examples** The two best teams in football last fall were Cornell and Texas A. & M. They were neither tied nor beaten. Nor was Tennessee until it hit the Rose Bowl. But in all frankness not one of these had to play a Notre Dame or an Iowa schedule—or a Minnesota schedule. For another example, suppose most teams had to meet Vanderbilt's current schedule—Princeton, Kentucky, Georgia Tech, Mississippi, Alabama and Tennessee among others. Let some of these mop-up winners try out that last-named menu on their piccolos. I'll give you another—U. C. L. A. Here it goes—S. M. U., Santa Clara, Texas A. & M., California, Oregon State, Stanford, Oregon, Washington State, Washington and Southern California. Only nine or ten tough ones in a row, including six of the nation's best. **The Big Difference** Two or three setup games can make all the difference in the world, such as many high ranking teams have. They give the coach a chance to rest up any injured men and get them ready for the next hard test, while another coach, facing one tough opponent after another, has no such break. For this reason there is no such animal as a national champion. It is a complete impossibility with so many teams playing so many different schedules. The closest claim I recall to any so-called national championship was Knute Rockne's last Notre Dame team—1930—that mopped up East, Midwest, Southwest and Far West. The only close calls came against Southern Methodist and Army, the latter on the worst football day and the worst football field I ever saw—rain, sleet, snow, fog and ice. Bob Zuppke of Illinois, philosopher, artist and coach, comes closer to calling the turn on football than anyone I've ever known. 1. "There are times you can lose 'em all, and still look good in every game you lost. There are times you can win and not look good at all." 2. "There is only one thing in football that is more important than winning. That is to leave the field with your opponent's respect, win or lose." **The Game's the Thing** After all, if you have left either a winning or a losing field without your opponent's respect for the main things that make up sport—we'll say courage, clean play, hard play, decency—the harvest is hardly worth while. It's tough to be a good loser, but a good loser looks better in defeat than an overbearing, unsportsmanlike victor does in his moment of triumph. Once again I believe too many football followers expect too much from too many teams.

Washington, D. C. **WAR PROPAGANDA** Never in our history has there been such open propaganda for offensive action that would make unavoidable our prompt involvement in war on the other side of the world—war indeed over a range at least as wide as the vast stretch from the Straits of Malacca to the Straits of Dover. It might be wider. If we enter this war on the side of England, whatever we call ourselves we shall be her ally. We must fight wherever defeat threatens, or victory beckons. It now seems quite probable that the direction of the war has turned from westward to southeastward. New Theaters threaten in the Mediterranean, the Balkans, perhaps Persia, the Persian gulf and even unto India. That is the British domain on which "the sun never sets." Propagandists now openly say that to preserve democracy on earth we must preserve the British empire. Perhaps the millions of conquered and exploited black people in Africa and brown people in Asia and Malaysia are their idea of democracy; but to try to push this great, powerful and peaceful nation into wars to protect such foreign possessions is hysteria that has broken all bonds of reason. These war-minded men advance measures which could take us into such remote and sterile fields as "defense of America." They say that the Atlantic and Pacific oceans are no longer barriers of defense, but avenues of attack. Since Hitler can't cross twenty-odd miles of the British channel to get at Britain with a land army, it is a safe bet that he doesn't turn up his nose at the Atlantic ocean, even if these potential architects of their country's disaster do so every day in their war dancing madness. If we push our belated defense preparations on land and seas as rapidly as possible, the chance of our involvement in bloody war, no matter what may come, is too remote to consider. The catastrophe of our involvement in war would not be merely the bloody loss and danger to life and limb. It would immediately adjourn our free democracy for a war dictatorship. It would permanently adjourn our free economic system of private ownership and liberty of enterprise by so burdening it with additional debt and taxes that the government would control all private property and absorb all private income in the United States.

ST. LAWRENCE WATERWAY The senate has twice refused to ratify the St. Lawrence waterway. It never was and never will be a waterway project. It is a power project. It was called a shipway to fool the Middle West. Actually a 10,000 cubic foot diversion into the Mississippi from Lake Michigan which was bargained for with Canada in the boundary waters treaty for the Chicago Drainage canal has already been largely surrendered. That greatly helped low water navigation in the Mississippi. Its surrender hurt every Mississippi valley state far more than the St. Lawrence can ever help them. The plea was "Great Lakes navigation." The facts were that inexpensive works in the lake outlets could have raised their levels 10 times the amount that diversion lowered them. The motive was not navigation but power—and, in that particular case, private power at Niagara Falls.

SHADES OF TEXAS GUINAN "Hello, suckers!" So Texas Guinan used to greet her guests in her high-class honky-tonk, where she sold them champagne which they knew to be faked from apple cider, at prices which they knew to be multiplied. She fleeced them outrageously in many other obvious ways from the moment they gave their wraps to the hat girl to the instant of their departure. She was rolling them, but made no effort to conceal that process of her methods of doing it. Texas Guinan was tops in inventing and putting over attractive fakes. She gloriied in being able to do that even while laughing openly at the weakness of their deception and the incredible gullibility of the suckers who swallowed them, paid through the nose for them, and clamored for more.

GOVERNMENT SPENDING Some time before the effort to protect ourselves at a cost of billions, Assistant Secretary of State Adolf Berle boldly told the Senate O'Mahoney business-baiting committee that increase in federal debt and taxes would inevitably result in final federal ownership and operation of all private property. The job was one-third complete before the "national defense" spending began. When the new "national defense" taxes and restrictions are fully applied it will be at least two-thirds.

### Daisy Hot Dish Mat

An Appropriate Gift

By RUTH WYETH SPEARS  
IT WAS the flower handle of the tea-pot lid that suggested this daisy mat. I had been thinking of making a hot dish out of firmly braided strips of cotton cloth. I wanted it to be thick and sewn firmly like a rag rug, so that it would stand frequent scrubbing. The design had to be novel and gay so that it would be appropriate for a Christmas gift or would

attract attention if used to sell at a church bazaar. All the directions you need to make one are right here in the sketch. Cotton flannel or heavy cotton knitted material are good to use for the braided strips. Cut the strips two inches wide if the goods is heavy or wider if light weight. Braid tightly and then use No. 8 white cotton thread to sew, as shown. A set of these mats are pretty on the table; and mats for oval dishes may be made by sewing two daisies together.

NOTE: There are directions for a hot dish mat made of cable cord in SEWING, Book 4. Books 2 and 3 also contain directions for many gifts and novelties. These booklets are a service to our readers and each contains 32 pages of illustrated directions for things to make for the home. Send order for booklets, with 10c coin for each copy desired, direct to:

### Old Gent Didn't Suspect Child Was in Duplicate

A young wife was aboard ship, sailing from New York to Panama, there to join her husband. Just before the ship was to dock, she missed her little twin daughters and set out to hunt them. "Have you seen my twins?" she asked a crusty old gentleman in a deck chair. "Twins?" he repeated. "I didn't even know there were any on board." She was just going to remark that it was odd he hadn't noticed, when she spied a pig-tailed head peeking around a corner. "There's one now," she told him. "Oh, that child!" said the man. "I've seen her all over the place!"

### Strange Facts

Superfine Lines  
Wind the Musician  
Seatless Temples

The finest ruled lines in the world are Nober's lines, made by diamond points on the glass plates used to test the power of microscopes. Some of the plates have more than 225,000 of these hairlines within the space of one inch.

Fingal's cave on Staffa, one of the Hebrides islands off Scotland, is believed to be the only cavern in the world in which one may hear natural musical sounds. It was this "music," produced by the wind playing around the prism-shaped pillars, that inspired Mendelssohn to write his famous overture, Fingal's Cave.

More than half of the people in the world worship in temples that have no seats and that prohibit the wearing of shoes within their doors.—Collier's.

#### Speak 'Pidgin' Eskimo

As the Eskimo language contains so many nouns and verbs that can be spoken and written in several hundred different ways, few traders or explorers have ever tried to learn it. Instead, they use a sort of "pidgin" Eskimo, which contains words from many languages including the Danish, Spanish and Hawaiian.—Collier's.

### Apprehensions

hang a large one of all of the class down in the office? poor Mr. Tabor. These young rascals were seen at the show last Tuesday night.— Christie Jo Roberts, Dwight Hester, Jo Bryan, Bill Garrison, Selma Mullins, Sam Lasley, and Joyce Ann Billington and Orland Lasley. — Were't the tiny tots cute though?

The sophomores had a line party in Dalhart Friday evening. Coming home a few stopped off at the Community Meeting in Conlen. Seen: (and heard) at Dalhart Friday and Saturday night. Jo Bryan, Douglas Dettle, Jo Bryan, Bill Garrison, Marcella Garrison, Delmer Schafer, Peggy Whetstone, Dickie Buckles, Joyce Ann Billington and Orland Lasley.

The Freshman class gave a cute amateur hour Thursday in chapel. Some of the contestants' ambitions were: to get married, to a professional school teacher— (impossible), to be a milk maid, to pass plane Geometry (can't be done) and to be a professional hula-dancer oo— la-la. Anyway it was very cute and very entertaining. Well, so long, kiddoes. I just got a long distance call saying "astante", which means stop so until next time; this is the little girl who wasn't there signing off.

### SENIOR REPORT

Well, here's the week for that big senior carnival. Take it from me, it's going to be a big affair. For instance, listed among things to do, we find bingo, cigarette wheel, ring toss, penny throw, cake walk, etc. Other assets of our carnival include the dart throw and the completely new game of skill for the year, the archery range. Our stunt contest starts at 7:30 P. M. The carnival will get under way immediately after the stunts. Of course we will have the Queen's contest, and that is where you vote for Jo Bryan, senior queen.

### JUNIOR REPORT

This is your favorite reporter tuning in from station V.R.E.Z. Flash! We are interrupting this station to make an emergency announcement. Sir Lord Cornwallis Gaston, alias Gaston has just escaped from his bottle of ink and is not to be found. Anyone not knowing his whereabouts please notify the Incorporated Bottles of Unwritten Ink Company in care of this station. (For the information of any readers who have not

### FRESHMAN REPORT

The freshman class had an assembly program Friday afternoon. It was an amateur program, and we think it was the best one yet. Prizes of sticks of candy were given to Geraldine Kelp, Vendell Guthrie, Marvin Patterson, Mr. Robertson and Marcie McWilliams. We have been entertained during our activity period by plays given by members of the class. We enjoy them very much.

### SEVENTH GRADE REPORT

We have two new members this six weeks, Amelia and Tenoch Ramon, to whom we give our heartiest welcome. By now everyone is wishing he had studied while studying was easy for after two or three weeks with about fifty percent really preparing their lessons, the teacher grew tired of begging them to study. So now the whole group has been forced to return to the old method of a written outline. "We live and learn."

### SIXTH GRADE REPORT

The sixth grade is glad to have Ophelia Green back this morning after a week of absence. Several of the sixth grade pupils are trying to make the distinguished list for the second six weeks. The sixth grade wished to thank each and everyone who helped in any way with the sixth grade bake sale, especially does the class express its appreciation to Mr. Martin.

### FIFTH GRADE REPORT

The fifth grade boys and girls have been busy the past two weeks bringing up their low grades. If you haven't decided whom to vote for for queen, we suggest that you vote for Lena Faye Cowdrey. We are sure you won't go wrong if you vote for her. The boys and girls are all looking forward to the Hallowe'en Carnival Saturday night.

### FIRST GRADE

I made several mistakes last week. First, I failed to put Dorothy Nell Harding and Wanda Marie Lemke on the Distinguished List. Dorothy Nell made 91 8/11 (with no grade below 90), and Wanda Marie made 91 9/11. Richard Williams made 91 4/11, and Retah Cameron, 90 2/11. We are having a meeting of the Parent-Teacher Association next Monday afternoon. The room that has the highest percentage attendance of parents gets \$2.00 to spend on some necessity in the room, and that is an incentive for the child. We have a fine group
