and comes from Conlen.  
 Sophomore boy—a good basketball player, we think that he likes an upper classman (we mean girl) but you never can tell! He also plays in the band.  
 Junior girl— she is smart like the other girls in her class. She is often seen with a senior boy who has been written about in Guess Who. She formerly was the writer of the column "Guess Who."

Senior boy— He is learning the show business and is making good at it. He is also from Conlen, but he stays here in Stratford. He is on the Duster staff, is rather small, and wears glasses.  
 Answers to last weeks column: Joyce Ann Billington, Claudine McQueen, Jewel Rita Cowdrey, Wanda Jean Bryant.

### MUSICAL NOTES

Of course, we were thrilled about winning first place at the Band Festival but—that wasn't all! We got to stay on the top floor of the Herring Hotel, too. Something tells me that those elevators ran more in two days than they usually run in two weeks. Sure we can still wear our hats, but did you know that one of the judges wrote on his comment sheet, "How about entering competition next year?" Much to our surprise, another judge wrote our band was the best he had heard thus far in our division, and no other band won first division after we had played!

We want to salute our drum major, Bobbie Wiginton, she really did a swell job, and also we want to thank our band director and all the people who took cars and chaperoned us while we were in Amarillo.

Next year, we want S. H. S. to go again and win just as many laurels.

miss, if not more, than we did this year.  
**GRADE SCHOOL NOTES**  
 The first grade, 33 of them, are all back in school again.  
 On the absentee list are: Patsy Chambers, Alton Blades, Alvin Enggelbrecht and Donald McWilliams. Glen Ray Goodman and Dean Brinkley were absent last week. We have a new girl who is Virginia Mowers from McPherson, Kansas.  
 Jackie Williams went to Amarillo Wednesday.  
 Kirk McWilliams and Loretta Houser have been ill.  
 We lost a student, Murvin Benningfield, who went to California.  
 Mary Katherine Woodard has been absent from school.

## THE RECORD... Facts That Concern You

No. 26 of a Series

### ARE YOU SEEING ONLY PART OF THE PICTURE?

The great majority of beer retail establishments are clean wholesome places.

Yet it is the once-in-a-while exception—the anti-social, law-violating tavern that everybody notices.

Such undesirable retailers give beer a bad name it doesn't deserve. Furthermore, by arousing public indignation, retailing abuses endanger your right to enjoy good beer, the beverage of moderation. They also endanger the benefits that beer has brought to Texas—31,165 persons employed since re-legal-

ization, an annual payroll of \$22,076,182 and \$2,273,968.64 taxes paid last year.

While it is the brewers' responsibility to brew good beer and the retailers' responsibility to sell it under wholesome conditions, nevertheless the brewing industry wants anti-social retailing eliminated entirely.

You can help us by (1) patronizing only the legal and reputable places where beer is sold and (2) by reporting any law violations you may observe to the duly constituted law enforcement authorities.

BEER...a beverage of moderation

IF YOU LIVE IN

the Panhandle

YOU'RE IN THE OIL BUSINESS

There are nearly 65,000 like us, including oil workers and our families, in the Texas Panhandle. We get our entire living from oil and gas. The wage earners of our group receive over 19 million dollars a year.

My Dad is a rancher. He gets nearly one-fourth as much from his lease and royalty payments as he does from his cattle and crops. Over four million acres of Panhandle lands are now under lease and nearly 1 1/2 million produce oil or gas.

The oil and gas industry spends in our Panhandle area 50 million dollars a year. This money, paid to workers, ranchers, farmers, tax collectors and others, is spent and repented until every merchant, business and professional man—in fact everyone—in our section gets his share of it.

You and I and our families and our community have a very important stake in the oil and gas industry and its future in Texas.

Flying Cadets Witness Aerial Review

Flashing overhead in wave after wave, 250 low wing monoplanes of the Gulf Coast Air Corps Training center at Randolph field, Texas, demonstrate the might of Uncle Sam's expanding air force to 25,000 spectators and the 900 future pilots now in training at the "West Point of the Air." A cheer went up from the Flying Cadets, formed in ranks along the field's edge, as veteran flying instructors flashed across the airdrome, wing tip to wing tip.

Willkie Gets Big Ovation in Canada

As great an ovation as any which he received when running for the presidency was tendered Wendell L. Willkie when he visited Montreal, Canada. St. James street forgot to be staid when he and Mrs. Willkie drove down its length to a civic welcome at the city hall. They are shown waving as they passed the Canadian Bank of Commerce.

Kathleen Norris Says:

The Luckiest Girls in Town

(Bell Syndicate—WNU Service.)

No girl of sixteen or eighteen knows what she is jeopardizing when she goes about with a reckless crowd. She endures half-intoxicated women and men who can't make up their minds to go home. She risks the return home with a driver who is unfit to handle a car.

By KATHLEEN NORRIS

Girls who are kept at home by strict maternal rule and obliged to obey pretty severe rules of conduct in the matters of dances and dates and late hours, are the luckiest girls after all.

They may not see it at 18, but ten years and fifteen years later they see it. And it is then, in happy young wifehood and motherhood, with their own potential responsibilities coming along, that they turn to the older woman with an affectionate laugh and begin to repay the debt they owe her for guarding their girlhood.

"Mother was a Gorgon!" they say proudly. "Nancy and I couldn't get away with ANYTHING! Mother had to know all about boys before they could even take us to movies." But of course Sixteen and Eighteen don't see this, and if they possibly can, they escape from home control. "Good heavens," they mutter, as they curl up their shining locks and paint their young mouths, "what's the harm of dancing? What's the harm in one cocktail! I never took too much to drink in my life and neither did Nancy! You'd think from the way Mother and Dad talk that we were going right to the bad!"

Too Much Freedom Harmful.

But there IS harm in giving youth too much freedom. The harm is that no girl of Sixteen or Eighteen knows what she is losing or jeopardizing when she goes about with a reckless crowd. She is completely incapable of judging how she will feel a few years later, how this group of men and women will impress her. Even if she stops short of actual improprieties with men, she has to face infinite dangers. She sees men drunk; she hears stories and phrases that should never reach her ears; she endures the stupid delays of half-intoxicated women and men who can't make up their minds to go home, or go anywhere, but who remain drowsily drinking and dancing hours after all pleasure has gone out of the occasion. She risks the return home with a driver who is unfit to handle a car.

Must Pay Some Price.

Many a girl quite innocently invites danger and fright and harm to herself in this way. She may apparently escape actual injury, she may not have to face the world with a fatherless child in her arms; although even that Victorian situation is not as unusual as today's girls would like to think. But no girl gets off scot free after a few young years of recklessness and license. Her manner, speech, standards, personality are all affected; other women realize that the minute they meet her.

For the young years are very important years. It is in them that we lay the foundation for the future. And restraint and fineness and discrimination and self-control in those years bear inevitable fruit. The girl who deliberately makes herself lawless and common at eighteen is not going miraculously to emerge from cheapening associations and find herself admirable at 25, clean of speech, clean of mind, clean of soul.

Here is a letter some girls might read to advantage this Sunday morning. It comes from East St. Louis. "Dear Mrs. Norris, I am 29," writes Anna, "and have been mar-

WHAT PRICE FREEDOM?

Does mother have to know where you're going, with whom, and how long you intend to be gone? . . . Does she object to late hours and dime-a-dance night clubs? . . . You say she does and you hate it! Well, Kathleen Norris has a different view on the subject. Read her frank discussion of the effect too much freedom has on young women!

ried for five years to the finest man in the world. We have a daughter of three and are expecting a new baby in midsummer. This is my problem.

Went With Wrong Crowd.

"My husband is a doctor, a year younger than I. He was recently offered a very advantageous position with a clinic in my old home town. Since our marriage, and indeed for two years before that, my family has lived in this city, and I met Tom here. I have never been back to the place where I lived as a girl, nor seen any of my old associates there. I went with the wrong crowd, as I see now, and I was glad to leave it all behind me.

"In that old group, in those reckless days, was a man I will call Larry. He was a rough, dark, violent sort of fellow, older by six or seven years than the rest of us, coarse and noisy, but fascinating, and we all knew he was brilliant. This man, if Tom accepts the flattering offer he has just received, will be my husband's immediate superior and close associate.

"I was never, in the sense of making our relationship public or constant, this man's mistress. But we were always paired off together, and on certain week-end trips either to hotels in the mountains, or to somebody's cabin or camp, I did not feel, at 18, able to behave in a manner very different from the rest. The tragedy of it is that I never really loved Larry. He wanted me and I wanted to go along with the others.

Fears to Move Back.

"My husband knows nothing of this. It was long ago, it was unimportant, it has been completely forgotten in the realer experience of being a beloved and honored wife. Tom is proud, sensitive and fine in every way; he would never recover my place with him. And, as I say, it is not important enough to worry about; it has nothing to do with our lives now.

"But at the same time, how can I move straight back into the neighborhood not only of this man, who will instantly remember all the past, but perhaps other members of that group, who knew perfectly well what was going on? Larry is a coarse man, our sex is not much respected by him, it was part of his charm—or in my idiotic little girl days I found it so, that he boasted of his masterful ways with women.

"I am trying to influence Tom not to accept this offer, which bewilders and disturbs him. What I am writing to ask you is whether it would be wise for me to write honestly to Larry, and ask him to have his board of directors withdraw the invitation?"

And she encloses the money for a telegraphic answer.

Face the Difficulties.

What I advised was her return to her old town, an honest facing of the difficulties, an explanation to Larry that will not be too long or involved or tearful or penitent, and a concentration upon the building into her life of fineness and goodness and simplicity, with a complete forgetfulness of the past.

**An Open Letter to Easter Brides..**

Dear  
Easter  
Bride:

about how you and an all-electric kitchen go together. Chances are you're dreaming and planning the wonderful home you'll make for Jack. But have you thought how easy and how practical it is to start off with everything clean and cool and white and beautiful? And how wonderful it is to have your kitchen STAY clean and cool and white and beautiful!

"Home-making, you know, isn't all a bed of roses IF the home isn't modern or if it lacks the up-to-date comforts and conveniences your friends enjoy.

"So I want to give Jack a hint: suggest to him that he call us today. Ask a salesman to come out and explain our budget plan which makes it easy for newlyweds to start right away enjoying the many benefits brought to West Texas homes by CHEAP Electric Service."

Your Electric Servant,

*Reddy Kilowatt.*

"OUR salesmen are in the midst of a campaign to provide electric servants in every home where the womenfolks are overworked... dishwashers, food mixers, new refrigerators, ranges, hot water heaters, and the like. That, of course, means I, Reddy Kilowatt, do the work—and the ladies merit credit for being neat, clean, cool and lovely home-makers.

"Maybe the boys haven't contacted you, not knowing you're to be an Easter bride.

## INDUSTRIAL SABOTAGE AND THE AMERICAN SYSTEM

WE AMERICANS, the people of the cities, towns and farms, have a vital interest in the labor turmoil throughout the nation.

As taxpayers, we are interested in the terrific increase in cost of the preparedness program these strikes involve and which we must pay.

As consumers, we are interested in the increased costs of the things we must buy.

But our greatest interest is in the effect it may have on our system of government, on our way of life, on our future as a nation.

A part, a small part, of the turmoil is occasioned by an honest effort on the part of labor leaders to better conditions of the working classes, to increase their standard of living. With that small part the vast majority of American people will have no objection, will offer no protest.

Another part, and a large part, is occasioned by gangsters, not working men, who have seized control of labor organizations and who are seeking personal profit from the agitation they create. All too many of the labor organizations are today controlled by such gangsters, who are collecting vast sums from the working classes and reporting to no one but themselves.

Another part, also a large part, and one in which we Americans are especially concerned, is occasioned by fifth columnists who would, through created labor difficulties, change our form of government, our way of life.

Representative Dies, after long and careful investigation, tells us the Communist party is attempting, through the creation of industrial strife, to socialize American industry and remodel it on the Russian plan.

Former Ambassador Bullitt tells us that because of these industrial conflicts, we are headed for the fate that befell France.

It is the part of the industrial turmoil engendered by these alienisms that is our greatest concern. We object to the sabotaging of that system, that way of life which has made us the most prosperous people, with the highest standard of living of any nation on earth.

America cannot countenance such alien methods. Our political leaders of all parties should realize the vast majority of all us—laboring men, farmers, manufacturers, merchants, all—are strenuously opposed to a continuance of the activities of the adherents of any European ism in their efforts to destroy us; that we demand legislation to stop the calling of unjustified strikes, the underlying purpose of which is to undermine the American system of government.

The fifth columnist and the gangster will go to all lengths to gain their ends. There is no place in American labor organizations for either of these.

### OH FOR THE FOOD OF THE 1941 SOLDIER

IT IS A LONG JUMP from "canned willie," salt pork, boiled spuds, boiled beans, hardtack and cheap coffee to roast duck, turkey, ribs of beef and Yorkshire pudding, asparagus tips, au gratin potatoes, ladyfingers, lemon meringue pie, cream puffs, and all the other delicacies which can be found on a Waldorf-Astoria menu.

That represents the difference between soldiering in 1898 and soldiering in 1941. I was soldiering in 1898 and as I see the difference, am sorry I am past the draft age in 1941.

Well do I remember how, as a cavalry troop officer, I confiscated a box of cake, cookies and other sweets which a fond mother sent to her son, because the doctors told me no soldier could eat such food and survive the rigors of a soldier's life and work.

As I see the luxurious barracks constructed for our soldiers of today, I recall how I was threatened with a court-martial because I had taken the dividend my troop received from the regimental canteen to buy lumber for floors in our troop tents so the men might get out of the mud and stay out of the hospitals. That is another difference between soldiering in 1898 and soldiering in 1941.

In 1898 the "top kick" assigned the dumbest men of the troop—the men who could not do "fours right" and "fours left" to the kitchen as cooks. Now they give company cooks a special schooling, teach them all about calories and vitamins, before they permit them to cook, and for cooking they pay them extra money. What a jump from 1898 to 1941.

Even as late as 1918, rations were not tops, but they had improved as compared to 1898. I stopped one day for a meal with a Texas outfit in France just before the close of the first World war, and it consisted of a beef stew—the best beef stew I ever ate, and better than anything one could get in England at the time. I thought it was the best soldier food ever heard of, but it did not compare with the things our soldier boys are being served today.

Who would not want to be a soldier?

GOOD TIDINGS FOR THE EASTER BREAKFAST (See Recipes Below)

### EGGSTRAORDINARY!

With the passing of winter and the arrival of spring comes the joyful Easter season, bringing with it new life and new hope. Why not express these good tidings in the traditional Easter Sunday breakfast?

Make your Easter breakfast the No. 1 breakfast of the year—the time when the whole family, and guests, too, perhaps, gather leisurely 'round a gaily decorated table laden with their favorite early-morn dishes.

Let color-splashed eggs be the centerpiece. You can use those that the children have "discovered" in their traditional pre-breakfast egg hunt.

Pile them high in the center of a grass-filled Easter basket. Then, to complete the scheme, mark each person's place at the table with an egg caricature—Uncle Sam, an Indian Chief, Mr. Rabbit or even a pert young lady.

"While they're still 'oh-ing' and 'ah-ing,' serve 'eggs in nests'—just to keep the theme in mind. To complete your menu, you'll of course want glasses of cold fruit juice, crisp ham slices or bacon curls and steaming popovers. It's taken for granted that you'll make plenty of hot coffee. They couldn't ask for more!

**\*Eggs in Nests.**  
(See picture at top of column)  
1 egg  
¼ teaspoon salt  
Butter  
5 bread sticks

Separate egg, placing white in small, deep bowl and retaining yolk in one of the half shells. Beat egg white until stiff and slightly dry (when dry, it will have a slightly coarse appearance). Pile egg white in oven-proof cup or dish in which 5 bread sticks have been arranged. Drop yolk into depression made in center of egg white. Bake in a moderately slow oven (325 degrees F.) until bread tips and egg white are delicately browned (about 15 minutes). Season with salt, pepper if desired, and a lump of butter dropped on yolk. Serves 1.

Just in case you're wondering how the bread sticks are made, here are directions. Because of their dainty arrangement in the serving dishes, I call them **Bread Buttercups**:

Remove the crusts from a loaf of uncut bread. Cut lengthwise slices from the loaf. Trim the slices so that they are about 1½ inches wide and the ends pointed. Brush with an egg and milk mixture and arrange in baking cups. It is best to brush the tips with a little melted butter so that they will brown more readily.

**\*Pop-Overs.**  
2 eggs, beaten  
¾ cup milk  
1 cup flour  
¼ teaspoon salt  
1 teaspoon melted fat

Combine eggs and milk. Pour over sifted dry ingredients. Beat with a rotary beater until smooth. Add butter. Beat. Pour batter into hot greased muffin pans, filling one-third full. Bake in a hot oven (450 degrees F.) for 35 to 45 minutes. Dry in oven about 10 minutes with

### LYNN SAYS:

Eggs join with other foods to fill your needs and produce your health. They are among our best sources of the muscle building proteins. They are high in iron which is needed to build good red blood. They supply phosphorus which forms a part of every active cell of the body.

When "peeling" hard-cooked eggs, crackle the shells, then start the peeling at the rounded end of the egg. Holding the eggs under running cold water or dipping in a bowl of cold water helps to ease the shell off, leaving a smooth, unbroken surface of white.

heat turned off. Yield: 10 large Pop-Overs.

And now a word about the cleverly decorated Easter eggs that appear in the basket above.

You'll agree that even the most aristocratic rabbit should be proud to claim these original eggs. Decorating them is both easy and inexpensive. You'll need large white eggs, a package of dyes from the Five and Ten, a spoon-shaped wire hook with an end to use as a handle (for dipping eggs into the dye), rubber cement and stickers.

Buy gold and silver stars, dots in various colors, small red hearts, linen reinforcements that are really meant for loose-leaf notebooks, flower seals such as tulips, and red and blue legal seals. Most of these come in several sizes, but the small ones are the easiest to glue on a curved surface.

After the well-known hard boiling process you use your imagination about covering the eggs with stars and dots. Then try arranging hearts in four-leaf clover patterns, or turn the points outward and stick them around a center dot, as flower petals. All-over designs of blue legal seals and stripes of the red ones, pasted so closely that they overlap a bit, are quite effective. There are endless arrangements, and you have the advantage of being able to soak off and replace designs until you are pleased, without wasting an egg.

What to do with the Easter supply of hard-cooked eggs? I'm coming to that. . . Coarsely chopped or sliced hard-cooked eggs in superbly seasoned cream or white sauce become **CREAMED EGGS**. They will give luncheon and dinner menus a lift when served on crisply fried cornmeal slices, potato cakes, or waffles.

With eggs and cheese such boon companions, and cheese a prime favorite, too, **ESCALLOPED EGGS** and **CHEESE** is another use for Easter eggs—after Easter.

**CREAMED EGGS.**  
6 eggs, hard cooked  
4 tablespoons butter  
4 tablespoons flour  
1½ cups milk  
¼ teaspoon pepper  
¼ teaspoon salt  
Dash of cayenne or nutmeg

Melt butter, add flour and stir until smooth. Add cold milk. Cook and stir constantly until thick. Remove from fire and place over hot water. Add seasonings and sliced eggs, cut lengthwise. Stir carefully. Serves 4.

**Escalloped Eggs and Cheese.**  
1½ tablespoons butter  
1½ tablespoons flour  
1 cup milk  
¼ teaspoon salt  
¼ teaspoon pepper  
¼ teaspoon paprika  
1 teaspoon Worcestershire sauce  
1 cup soft bread crumbs  
3 tablespoons melted butter  
½ cup grated cheese  
6 to 8 hard cooked eggs

Prepare a sauce of butter, flour, milk and seasonings. Arrange in greased casserole in layers using three-quarters of the crumbs, the sliced eggs, cheese and sauce. Top with remaining one-fourth cup of crumbs, mixed with the melted butter. Bake in a moderate oven, (350 degrees F.) until sauce is bubbly and top nicely browned, about 40 minutes. Serve plain or with tomato sauce. Serves 4 or 5.

## TIPS to Gardeners

### TRIM FLOWER GARDEN

THERE is much value in keeping the flower garden trimmed. Wise gardeners pick bouquets of favorite annuals like Marigold, Zinnia, Petunia, Sweet Peas and Snapdragon with systematic regularity, for the picking promotes continued blooming.

Periodic trimming is not best for such small, low-growing edging flowers as Alyssum. A complete cutting, however, will benefit this type of plant. This treatment may be applied to Ageratum, Linaria, Lobelia, and Nemesis as well as Alyssum.

Pinks, Cynoglossum, and Dwarf Bedding Rust Resistant Snapdragon are grown both for cutting and for garden beauty, but they too will profit by a thoroughgoing "haircut" such as that prescribed for the smaller, edging favorites.

It is advisable to pick the flowers of certain popular perennials when they are in their prime, to prevent their running to seed, and to promote the production of a second crop of blossoms in a single season. Delphinium, Sweet William, Coreopsis, Perennial Dianthus, and Pyrethrum should be handled in this manner.

**SENIOR REPORT**

By a majority vote of the members of the play cast and the production committee, the Seniors presented the play, "Love Troubles Tommy", again Tuesday, April 8. We did this for the benefit of those who could not come last time due to the bad roads. Seniors are ordering caps, gowns, and announcements next week. We are on our last step toward graduation and urge every Senior to do his best to graduate.

**FRESHMAN REPORT**

Well folks, here I am again with a small report. I didn't get one the last time because I "plum" forgot about it. I'll have to make up for it now. I guess we will have our assembly program this Friday, but I am not sure.

Most of the Freshman class was gone Friday with the band. It wasn't a very large class after the band members were taken from it. Boy, are the Freshmen in a mess. We have to get in our career books the first of May and most of us are half way through them. That means there will be some home work for the next month!

**JUNIOR REPORT**

What a ball team the junior class has! You know what they did? The junior boys beat those senior boys in the basket ball tournament last Tuesday (April Fools Day).

The girls didn't get to show what they could do; the seniors were supposed to play us but they didn't want to. The fish were left to play us but when time came to play they were elsewhere. Anyway it wouldn't have amounted to much— we have won for the last two or three years.

Too bad the band couldn't go to Amarillo more often. We spent a full day studying— well morning, anyway.  
We juniors can't think of anything but the banquet and prom and the six weeks tests that we are having this week, So Help Us!

**YEA TEAM!**

On April 1 the Freshman girls were supposed to play the Senior girls, but the Seniors backed out and forfeited the game to the Fish. The Junior girls won over the Sophomores and then entered the finals of the intra-murals to defeat the Freshmen.

The Freshmen boys played the Juniors and, of course, were beaten pretty badly! The Sophomores forfeited their game to the Seniors who then lost to the Junior team, making the Juniors the winners of the Play Day intra-mural tournament.

**Get Diesel Economy**  
with the **McCORMICK-DEERING WD-6 DIESEL TRACTOR**

Here's the tractor for the man who uses a tractor day-in and day-out and who has to keep fuel costs and fuel consumption just as low as possible. It's the McCormick-Deering WD-6 Diesel. It's for the man who needs a big tractor—3-plow capacity and power to handle machines like a 28-inch thresher and the larger hammer mills and ensilage cutters. A day's work to the McCormick-Deering WD-6 means plowing from 9 to 13 acres a day, double-disking 30 to 40 acres a day, drilling (14-ft. drill) 40 to 60 acres, and other field jobs in proportion. In addition to its economy, the WD-6 is handsome to look at and easy to operate. There's more tractor here than meets the eye. Ask us for a demonstration—get acquainted with the new Diesel-powered WD-6.
