Mrs. Maggie Lion left on Tuesday of last week for her home at Goliad. She expected to visit friends at Temple and Belton on her way home.—Hamilton Herald.

To some one, at all times, under all circumstances, man is indebted. First to God for his existence, to his parents for his maintenance and education and to whom he is perhaps never able to fully justify, and to his country that afforded his parent's protection while he was being raised. Then if he follows any occupation, which he is bound to do for a livelihood, he owes a debt of gratitude to his predecessors for the advantage they made in the arts to such a degree that labor was lessened by inventions which they left off when he began. As a farmer he tills the soil with implements invented before he was born, and is under some obligations to further perfect the inventions by adding his mite to progress in that line. He is made a debtor to the art wherein he deposits seeds that spring up and grow to maturity, to the sun that affords light and heat and rain that furnishes moisture. The world does not owe any man a living until he works and earns it, and while at work he is merely obeying the high decree of heaven enjoined on the fallen race to earn his bread by the sweat of his brow.—Exchange.

There are advantages in favor of each of them and we will be glad to explain these advantages and talk the matter over with those wishing to buy a harvester.

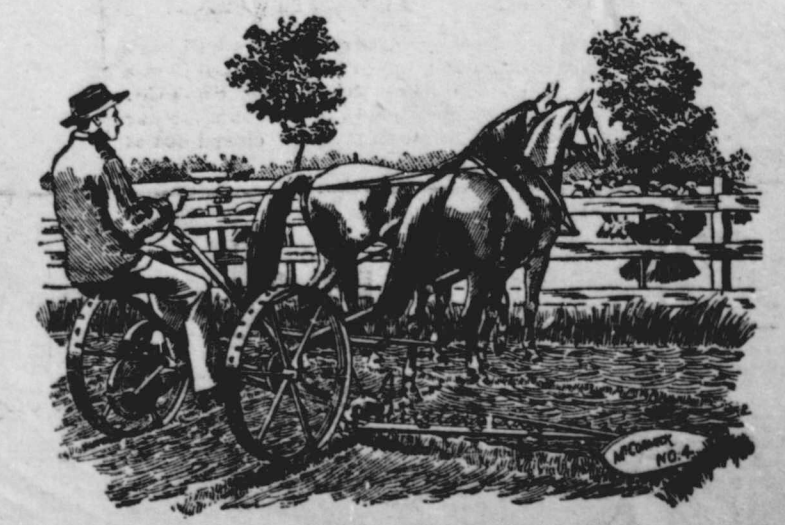

In order that the work may be done with the least possible cost and at the same time be well done, it is important that a Deering or McCormick Harvester be used.

MULLIN TEXAS.

Editor Eagle:

In the midst of sickness, of which I have been a participant, I will write a short letter to the Eagle, breaking the silence of five months.

"La grippe" has not failed to call on every family, or nearly so, in Mullin. Mrs. J. M. Kirkpatrick and Miss Nellie are both entertaining this unwelcome guest this week. Miss Minnie Wilson is teaching for the latter this week.

Chas. Hancock has a position as salesman in M. C. Kirkpatrick's store.

C. L. Summy is improving his resident lot near Mr. Bowling Tyson by erecting a nice little cottage.

J. T. Eaton has invested in Mullin real estate, purchased six lots of M. C. Kirkpatrick adjoining W. I. Taylor's.

D. Blake, Santa Fe agent, after contending with the grippe for several days is again able to attend to business.

Mr. Bross has purchased the resident property of Mr. Lumpkin and has moved in.

Mr. and Mrs. Rogers who have recently moved to their farm, visited friends in Mullin Tuesday.

Mrs. Hutchinson has rented her hotel to Mr. Hilliard of Trigger Mountain and will take a few months recreation, she too has been a victim of grippe and needs to rest and recuperate. Mrs. Hutchinson has taken rooms with Mrs. Bross, and her daughter, Miss Sammie, will visit her sister, Mrs. John Goode, in Kansas.

At Mrs. Kirkpatrick's last musical recital Miss Vera, the little daughter of Mr. and Mrs. H. F. Butts, was voted the prize for her rapid improvement in music. The little lady is just seven years of age.

Prof. Groves has organized the Christian Endeavor at the Methodist church, and a large number have joined. G. V. M.

BARN BURNED.

C. C. Yarborough's barn was burned yesterday morning about 1 o'clock. The building was filled with corn, cotton seed and hay and the entire loss is placed at between \$300 and \$400, with no insurance. Owen Yarborough first discovered the fire and ran to the barn to turn his horse out. In his haste he ran over some object and out and bruised his foot so badly that he was suffering considerably with it yesterday. The horse was liberated and ran off, but it was feared he was badly scorched, as the stall was on fire in side while he was yet confined in it. There is no definite idea as to how the fire originated.

The heavy ice on the telephone wires last Saturday and Sunday caused many of them to break. Saturday afternoon the poles from the Trent bank to the Baptist church fell at one time, putting the exchange entirely out of business. A large force has been at work this week replacing the broken poles and others of the system with much larger and stronger poles and repairing the line. The exchange will be in operation again in a few days.

PURE FEED.

Editor Eagle:

I would like to ask space in your columns that I may answer the question that is asked me every day in regard to the mixed ground feed for stock, (corn chops) which are being extensively used. I will first state that in order to keep a work horse in good condition he must have good wholesome food and water, unsound wheat, corn, in fact any unsound feed is what produces what is commonly known as blind staggers in the horse; consequently all kinds of grain in particular, that is fed to the horse ought to be pure and good, and so corn cobs ground together with unsound corn and stale wheat so as to make a cheaper or rather a more profitable feed is in my opinion, unfit for the horse but all right for the cow and hogs quite a good feed that is now in the market is spoiled wheat, rice bran, corn cobs, weevil-eaten corn and milomaise seed ground together with some corn and in my opinion this is very unwholesome food for the horse as before stated. Respt. H. T. WHITE, Veterinary Surgeon.

DEATH'S VISIT.

Several homes in Mills county have been made sad this week by the visits of death.

MRS. POTTER.

Mrs. S. M. Potter died at the residence of her son, John Potter, in this city Thursday night and was buried in the Odd Fellows cemetery yesterday. She was 78 years of age and had made her home here for a long time. She was a consecrated Christian and a devoted member of the Methodist church. For a number of years Mrs. Potter suffered with cancer and this ultimately caused her death. She leaves two sons, Messrs. John and W. B. Potter, and one daughter here, Mrs. J. K. P. Rhodes. To the bereaved ones the Eagle extends sincere sympathy.

RUFE GOODE.

Rufe Goode died at the home of his parents in the Shaw Bend community last Friday afternoon and was buried in the cemetery here Saturday. He had been paralyzed about seven years, having been totally paralyzed at the first stroke. He regained use of one side and was able to get about unassisted for a number of years, but later he became more helpless and for a week before he died his death was momentarily expected. Prior to the stroke of paralysis he was engaged in the cattle business here and had lots of friends. He was a good hearted, clever fellow whom everybody liked. His relatives have many friends who grieve and sympathize with them.

MR. SMITHERMAN.

Mr. Smitherman died at his home in Center City Thursday night. He suffered from pneumonia for some time and when he had about recovered from that trouble, blood poison set up in his leg causing his death. He leaves a wife and five children.

CENTER CITY.

Editor Eagle:

After a month of severe weather, which has been very destructive to live stock we are rejoicing over the pleasant spring like weather of the past few days.

The farmers are nearly all behind with their breaking, and some of them have not sown oats.

J. R. Welch and family of Sterling county have been visiting relatives at this place the past week. They seem to be well pleased with their western home.

Mrs. C. H. Cantor died Wednesday evening and was buried in the Center City cemetery Thursday evening. Rev. Hays conducted the burial services.

Mrs. T. P. (Grandma) Brown is reported quite sick.

E. M. Geeslin, who has been very sick with grip, is improving.

Mr. and Mrs. F. M. House have both been sick the past week, but are said to be much better at this writing.

Our school is moving along smoothly with good attendance.

L. Walton, who has been sick for the last two or three weeks, is very sick. AMIGO.

PRATT'S STOCK FOOD

Is unquestionably the best on the market, having been manufactured for the past thirty years. Pratt's food is a health producer and a money saver, and this is the time of year when it can be used to the best advantage. "A dose in time saves nine." Pratt's different preparations are Pratt's Stock Food, Poultry Food, Animal Regulator, Lice Killer, Worm Powder and Gall Cure, all of which we recommend to be the best to be obtained. We handle LeGears, International, Security, Dr. Kay's and other stock foods, but Pratt's beats them all. Give it a trial. When people once use it they never use any other afterwards.

How about paints? We carry a full line of house, carriage, implement and wagon paints, besides a full line of varnish and varnish stains. We solicit your patronage and will appreciate a share of your trade.

Yours for Business.

R. E. CLEMENTS Druggist.

STAR ROLLER MILLS.

A number of exchanges arranging the merchandise drummers who go around through the country and take orders for groceries. Incidentally the papers are saying some things to the people who buy. It's no use boys. There is a sucker born every second and a grafter every minute. The suckers are going to give up their money to someone, so let the grocery drummer

set it. The drummer probably has a family to support anyhow. We have long since learned that it's no use to warn folks about fakes. They won't listen. It's perfectly natural for them to believe that every man out of his own state is honest, and every man in it a robber, as it is for them to breathe.—Nooogdookes Plaindealer.

It gave you to deal with your home merchant. Settle your grinning with J. B. Ferguson on or before March 1, as we can not wait any longer.—Goldthwaite's Gin Co. Leon Harr's Lumber Company has an advertisement in this issue. This company has one of the finest lumber sheds in Texas. John Prater, a substantial and prosperous farmer of Brown County, spent Saturday with his brother, J. T. Prater, who is a progressive merchant of this city.

ROCK SPRINGS,

Editor Eagle: By request of the Eagle to send in news from the communities I will give a few items.

The health of the community is very good at present, having escaped the dreaded disease, Isgrip.

Farmers are progressing very slow in the way of farming on account of the recent cold weather, but they are still humming the old tune "we will reduce the acreage of cotton."

W. J. Stark visited the bayou community one day this week in search of seed oats, but failed to find any. He reports several cases of Isgrip.

Dave Reynolds' father is very low.

The free school at this place will close Friday. The patrons of the community will probably have a month's subscription school taught.

The singing convention, which was to convene the second Saturday and Sunday in this month was postponed till the second Saturday and Sunday in May, on account of bad weather. We are sorry those that came from a distance were disappointed, but we heartily welcome them back again to help us in our singing convention. We also extend the invitation to all who will come and assist us.

There will be singing at this place the second and fourth Sundays. All come who will, as these are our regular meeting days.

Come on all you correspondents and cheer up the old Bird.

A Spanish jeweler of the city of Mexico has confessed that he is the person who attempted to defraud the revenue department by smuggling jewels and valuable gold watches in an ice cream freezer, which was delivered at Vera Cruz on arriving from Europe. He says the plot was hatched between him and a jeweler in Paris, who advised him to play the trick on the Mexican customs officials. Twenty thousand dollars worth of goods were found in the bottom of the freezer.

Abraham Fidler, a beggar of Nice, France, died there at the age of 93 years. When his clothes were removed the shabby receiver of alms was found to have sewed in the lining drafts amounting to \$400,000. A will also was found bequeathing the entire sum to Baron Rothschild. When informed of his legacy the baron assigned detectives to trace the beggar's life and relationship. It was found that he had been kidnapped from Olness in childhood, and became a professional beggar, which he continued to be all his life.

The United States war department will carefully mine the mouth of the Mississippi river and increase the number of soldiers stationed at Forts St. Philip and Jackson. It is said the war department will teach the art of mining rivers and harbors and carry on a school at these forts from now on. The important factor in the Russian-Japanese war that mines and hidden torpedoes have proven has led the United States government to pay more attention to mines and mining in its coast defenses.

This is believed to be the significance to the move.

The judge of the United States court, which convened at Durant, I. T. Monday created a stampede when he announced that if some arrangements were not made by 6 p. m. to feed and sleep the negroes attending the court as witnesses, he would adjourn the court and move to Caddo and complete the term there. A temporary hotel was provided by the business community. One juror was sent to jail by the court for refusing to serve on the jury with a negro.

SUPPLEMENT TO The Goldthwaite Eagle

PROBABLY WILL. "Should a widow remarry? Well now that depends. Upon what she thinks of her gentleman friends. If there's any she thinks will just do the bill, You are safe in asserting 'she probably will' But if she looks pretty in crepe and and well, longer her love she will seem to be buried her heart. When widows desire to marry again, the wooer can tell—without being too vain— That he is the victim, but he'd lose his eyes. Before he would give up his chance For whether he's poor or a man of great wealth, The widow will do half the courting by stealth. And do it so charmingly, modestly, neat That she's more bewitching when facing defeat. Trust the widows to settle the question in view. Without any hint or suggestion from you. And 'twill be settled right 'twill just fill the bill; If she won't, then she won't; if she will then she will" —Mrs. D. H. Elder, Murray, Utah

We also earnestly request all others to meet with us and especially those of Goldthwaite, as we wish to make permanent arrangements for the park, as the Confederates are fast passing away therefore we wish to hand it down to the rising generation for their amusement and recreation.

J. D. FEXTON, Commander.

Man must work. That is certain as the sun. But he may work grudgingly or he may work gratefully; he may work as a man, or he may work as a machine. He cannot always choose his work, but he can do it in a generous temper, and with an up-looking heart. There is no work so rude that he may not breathe a soul into it; there is no work so dull, that he may not enliven it.—Henry Giles.

They treat the curable diseases and deformities of the Eye, they tell you just what you may expect at the beginning, hence you do not go into it blindly. They guarantee vision to those blind from Cataract, Granulated Lids, Ingrowing Lashes, Etc. Their fees are reasonable, and people who cannot pay cash will be given time. If you have an Eye trouble you should call or write for names and investigate for yourself.

AUSTIN LETTER

Austin, Tex., Feb. 22.—The Twenty-ninth legislature is now well on the way toward the end of the sixty day limit, which means that the legislature will soon be working for a measly "\$2 per day." This reminds one that a constitutional amendment will probably be submitted increasing the compensation of legislators to \$1000 for the first year and \$5 per day for called sessions of the second year. It is contended by many that this would get better men and hence would be a money saver after all.

There is now a big fight on between the beer people and those who want a uniform high license law. The Love-Holmes bill puts it at \$2000. The advocates of this bill assert that unless it or a similar measure is enacted, Texas will see a state prohibition fight within five years, which will result in putting the whisky and beer people out of business, so far as Texas is concerned.

There are parties in cities and in labor centers who make a business of buying the wages of clerks, railroad crews and other labor people. Railroads and others who employ large numbers of people are compelled, as a matter of protection, to discharge all who sell their wages. So when a man sells his time or borrows money on his time, he not only pays "ten per cent a month," but for fear of dismissal, becomes the slave, in all the term implies, of the Shylock and the money lender. To cure this evil and to protect the wives and children of the laboring people, Love of Dallas introduced a bill to prohibit these assignments. This bill, strange to say, provoked the hardest fight of the session and the bill was finally defeated by a vote of 43 to 47. A new bill to tax the Shylocks out of existence has been prepared and another effort will be made to drive them out of business.

Fifty more bills have been introduced in the Twenty-ninth than in the Twenty-eighth, four see joint resolutions, the number of local and senate bills deposited of being the same. Of committee reports and enrolled bills the Twenty-ninth exceeded the Twenty-eighth by twelve, while the Twenty-ninth in general bills finally disposed of by thirteen.

The "Anti-Pass" question is making the average legislator "lie awake" at night, cudgeling his gray matter seeking some solution of the vexed and embarrassing question. The senate has passed what is no doubt the most drastic measure of the kind that has ever been proposed by any legislature. Should the house pass it without amendment there would be no "free rides" unless, perchance, the law should be trampled under foot, as most anti-pass laws are said to be. It is stated however, that a large number of house members are receiving strong protests against its passage. It is freely predicted that the bill will be defeated and no legislation of the kind be had. The house committee, however, has reported the senate bill with an amendment exempting railway employees, railroad attorneys and newspaper publishers. A minority report will be filed against the passage of the bill.

While there are a number of important measures before the legislature, yet the taxation question is easily the paramount one. If the appropriations for the next two years are kept to the smallest possible figure, the revenues will be about \$2,440,000 short. This amount must be provided for, but how is the question Governor Lanham recommended that the ad valorem rate should be placed at 25 cents on the \$100 valuation. This will be resisted by an influential part of the house. It is claimed that this would simply put the burden upon those who are now bearing their share, whilst many corporations are and have been escaping. The committee on revenue and taxation has reported several bills which it is to be hoped will supply all needed revenue without resorting to a "tax raise" on farmers and the business community. These bills provide for a tax on the gross receipts of railroads, express companies, car companies, water and light companies, pipe line companies and increased charter and franchise fees on corporations. Insurance companies are also taxed more heavily than now. Some of these have already passed the house and all of them will be in the senate by the last of the week.

The fight on the Williams bill, the leading tax bill of the session, was fast and furious for an hour or two and then the house passed the bill just as Mr. Williams assented it. Cobbs of San Antonio led the fight against the bill.

There is a strong effort being made in the house to pass the senate bill increasing the salaries of district judges to \$3000. The proposition will be bitterly opposed by many of the leading members of the house.

CHAMBERLAIN'S COUGH REMEDY THE MOTHER'S FAVORITE. The soothing and healing properties of this remedy, its pleasant taste and prompt and permanent cures have made it a favorite with people everywhere. It is especially prized by mothers of small children, for colds, croup and whooping cough, as it always affords quick relief, and as it contains no opium or other harmful drug, it may be given as confidently to a baby as to an adult. For sale by all Druggists.

LETTER TO HUDSON & RAHL, Goldthwaite, Texas. Dear Sirs: Porterhouse, so much neck, so much; all the way between. Just so with Devote lead and zinc in the porterhouse. Nobody wants the neck; for them, some say, is good enough for them. But Devote costs less, not more, than lead and zinc is the point that wears twice as long as lead-and-oil. Mr. John N. Deitel, Fair Haven, N. Y., writes: "Mr. Charles Hollenbeck of this place painted his horse three years ago with Devote lead and zinc; his father painted at the same time with lead and oil. Today the son's horse has new porcelain line tubes, and if you want a nice bath or the best and most satisfactory work."

COME TO THIS FIRST CLASS SHOP John Lochabay, Proprietor. Has been refurbished and all modern conveniences provided for the comfort and convenience of our patrons. Our bath rooms are large and comfortable and have new porcelain line tubes. If you want a nice bath or the best and most satisfactory work, come to this first class shop. Best Laundry work is done by leaves Wednesday and returns Friday.

STARTLING BUT TRUE. People the world over were horrified on learning of the burning of a Chicago theater in which nearly six hundred people lost their lives, yet more than five times this number or over 3,000 people died from pneumonia in Chicago during the same year, with scarcely a passing notice. Every one of these cases of pneumonia resulted from a cold and could have been prevented by the timely use of Chamberlain's Cough Remedy. A great many who had every reason to fear pneumonia have ward off by the prompt use of this remedy. The following is an instance of this sort: "Too much cannot be said in favor of Chamberlain's Cough Remedy, and especially for colds and influenza. I know that it cured my daughter, Laura, of a severe cold, and I believe saved her life when she was threatened with pneumonia." W. D. Wilcox, Logan, New York. Sold by all Druggists.

Good news for a majority of the people, as very few have wheat to sell, but all have flour to buy. Wheat has taken a tumble, also Silver Spray and Whole Wheat flours have declined in sympathy with wheat. If you desire to save money on your flour bills get prices on the above.

Commissioners court has been in extra session this week. A. H. Miller of Nabors Creek had business in this city Tuesday. Willis Harris was here from Carleton the first of the week. L. W. Welsh made a visit to Brownwood the first of the week. Will Kemp was a visitor from Mullin Monday and made the Eagle a pleasant call.

W. E. Wiggins, a good farmer of the Center City community, had business in the county capital the first of the week and renewed his subscription to the Eagle. J. W. McCall, business agent of the Farmer's Union, was here from Center City Tuesday and showed his pleasant contentment in the Eagle office for a few moments.

The claim can not be made that goods can be bought cheaper elsewhere than in Goldthwaite, for several merchants are conducting special money raising sales and great benefits are derived by the public. J. H. Allen, Jr., represents the Mutual Life Insurance Company of New York, one of the strongest companies in existence. If you want your life insured see him at Allen & Faulkner's store.

The most of the farmers and cattle raisers report very little loss of stock during this most severe winter. "The oldest inhabitant" never saw a winter to compare with this one for severity and duration. Goldthwaite merchants are offering many bargains to the people. When you expect to buy goods of any kind it will be advantageous to glance over the Eagle's advertising columns and see who is giving bargains in the particular line of goods you need.

M. C. Kirkpatrick was here from Mullis Wednesday. Mr. Kirkpatrick is a leading merchant of his town and his opinion of men and measures carries much weight with those who know him. He believes that the present low price of cotton will result in untold benefit to the farmers of the South, who will now turn their attention to raising feed stuff and will come nearer "living at home" than they would have done had they received 10 cents or more for their cotton. Had the cotton crop of 1904-5 sold for 10 to 12 cents, said he, the probabilities are that 20,000,000 would be a reasonable estimate of the 1905-6 crop, but now it will be much smaller and the prosperity of the people will be correspondingly greater.

BIG VALLEY. Editor Eagle: I beg your pardon, for I intended writing sooner, all the excuse I have to offer is negligence and cold weather more of the former. Since the cold weather is over everyone seems to be awfully busy at his daily occupation.

Cleveland Perry is working for E. F. White and Henry Franklin is working for Mark Dawson. Will Oglesby and Mark Dawson are working on their irrigation plant. They have all of their machinery on the ground except their engine. They have employed Cy Mauldin, Drew Brown and Lyze White to put it in for them. Mr. Oglesby says he don't care what he is worth in three or four years from now. He is putting out quite a large fruit orchard. Will put over three hundred trees this year, that is a good way to grow "money on trees". Earl Baker built a new house on Sam Walker's place. Cy Mauldin is building a new house close to Oglesby's and Dawson's pump, on Mr. Dawson's land.

Our Society is progressing nicely. It will meet Saturday night. We invite everybody that can to come out. The cold weather has stopped our Sunday school, but we hope now to renew and start it up again.
