Harvesting is in full blast now. The oats are turning out well in most places but the wheat that promised such a splendid yield a few weeks ago is almost a failure, having been ruined with black rust. Some farmers have cut their wheat and burned it. There are fields in the county however that will turn out 15 to 30 bushels to the acre, but they are scattering.

At a special session of the commissioner's court Monday the question of co-operating with Erath county in the building of an iron bridge across the Bosque near Hico and just over the line of Hamilton and Erath counties, was taken under consideration. A committee from the Business Men's club of Hico presented the matter to the court and secured an appropriation for the purpose, the amount to come out of Hico's precinct pro rata of the road and bridge fund. It is a stipulation in the order that the bridge is to cost not more than \$1,300, and this county to pay one-third of the cost of its construction, and maintain the bridge after its completion.—Herald.

THE Enormous Demand

FOR GOOD MERCHANDISE

IS increasing daily and it has not been a surprise to us, but it has been a positive proof that our goods are popular and that we have hit a responsive chord among the people throughout Goldthwaite and Mills county. It is our motto at all times to give the best goods for the least money. When buying goods you want something that has value in it, this we give you, for we handle only dependable goods. We have no "Fake schemes" to offer you, neither do we make false representations in order to sell you. We have no premiums to give you, but instead we give you values. We are willing to compare our goods and prices with anybody, and if you will do this we have no fears in saying that we will get your trade. We are cutting the prices in every department in the house. You will not find a better variety or larger stock to pick from, and you cannot find goods cheaper than we will sell you.

Some people advertise the "cheapest" goods on earth, but we don't sell that cheap kind. If you will consider, you will conclude that it is better to buy goods that have a value to them than to buy trashy, cheap stuff.

AGENT'S GLEANINGS.

Editor Eagle:

South Bennett's Sunday school pupils are many, but teachers are few. How can they learn without a teacher? How can they teach except they first be taught? Superintendent B. R. Cashner appointed W. Joe Benningfield for vice-superintendent last Sunday.

Webb Hill announced singing and dinner all day next Sunday at South Bennett. It will be first Sunday in July, all day, so bring your dinner, song books, "best girl and feller" next and next Sunday.

The Elberta Ranchman's (Elberta) Mexican kids and grades of goats and hogs are up better than peaches in the Elberta orchard it seems, so come over and enjoy these good things at South Bennett whosoever will. The rains last week were good enough. Pray send us another similar one this week—if it's Thy will.

Ex-Governor Frank R. Lubbock was paralyzed Tuesday at his home in Austin.

The Texas Court of Appeals has ruled that a man can give liquor away when he sells a lunch.

It has been fully decided that the meeting of the peace commissioners representing Russia and Japan shall take place in Washington August 1.

The constable of Austin announces that he proposes to have gambling and the violation of the Sunday law in the Capital City closed. He talks like a man.

Gen. Stoessel, who was in command of Port Arthur at the time of the capitulation, has been absolved from all blame by a committee of investigation appointed at St. Petersburg.

Sherrill of Milam county shot and killed ex-sheriff Giles Averett in the court house in Cameron Tuesday. Political rivalry is said to have been the cause of the difficulty.

Gen. Linevitch urges the Russian government to not agree to a cessation of hostilities in Manchuria until he can have an opportunity to restore the prestige of the Russian army. He certainly has a big job on hand.

Dr. C. G. Clifford, postmaster at San Antonio, died Tuesday after a lingering illness. He was appointed postmaster by President McKinley in 1898 and his bondmen will appoint a postmaster to serve until President Roosevelt can make a selection.

President Roosevelt has dismissed from service Herbert A. Bowen, who was until recently minister to Venezuela. Bowen's conduct in bringing charges against his predecessor was criticized and pointedly rebuffed by the President.

Stewart, the Confederate officer who has recently been released from a Mexican dungeon, where he was placed several years ago for killing a Mexican, is now in Texas. He reached San Antonio Thursday and it is thought he will accompany Judge Clarence Martin and a party of friends to Mcardville to attend a meeting of the Mountain Remnant brigade.

In the United States district court at St. Louis Monday M. L. Reddick, formerly postmaster at Yazoo City, Miss., entered a plea of guilty to a charge of perjury, and was sentenced to one year's imprisonment in the penitentiary and fined \$100. The specific case against Reddick was the charge that he had trumped up charges of the sale of political influence against a North Carolina congressman.

What Texas needs now is not cattle, but better cattle and more feed. Every ranch man who is trying to improve the quality of his herds should not forget that the feed crop is one of the things that is necessary to back up the good blood. The old practice of letting cattle starve during one-third of the year always results in dead loss, from the fact that another third of year is lost in the process of getting them in thrifty condition again. Raise feed and keep your cattle in thrifty condition the year around.—Texas Stockman and Farmer.

An Associated Press report says that "the supreme court, in an opinion by Associate Justice Brown, has rendered a most important decision relative to the law passed in 1901 providing penalties for railroads permitting Johnson grass to go to seed upon their rights of way. The court construes the second provision of the law to mean that if the adjoining property owner has also permitted the grass to go to seed the railroad company can not be held liable for damages. The court also expressed serious doubts as to the constitutionality of the act and indicates that it might be held void if properly brought up for consideration."

OLD TIMES.

Caradan, June 17.

Editor Eagle:

Twenty-five or thirty years ago the ground where the picnic is to be held in the Neiman pasture, was used by Tom Christian as a salt ground to salt his cattle. There was a few live oak trees scattered about, or they were scattered then, as they were half as large as now. There was no small growth of timber there then except mesquite wood, of which was no higher than a man's head, and I doubt if any of it was large enough to make a walking cane. Just below about a quarter of a mile was Salt Spring, where the people of the whole country got their water supply, where the few settlers here then, met to tell yarns and have a good time. Everything was quite different then to what it is now. Instead of rushing around and trying to get rich, as people are doing now, we were all trying to see just how little work we could get along with and how much leisure we could have. It is true sometimes an emergency would arise, then we had to work. Once about the year 1878 or 1879, the water hole near Salt Spring, which was fed by the same vein of water as Sand Spring, gave out, so the settlers met to discuss the question, and it was decided to come together on a certain day and try to make the hole deeper. Some one suggested that we borrow a scraper, said he knew of one we could get in Comanche county. Probably not another man there had any idea what kind of an implement it would be, so when the day arrived everybody was there to see the scraper work. For a long time there was but three or four settlers out on the prairie, but the settlement was confined to the coves, where the settlers could get vacant land to pre-empt and get close to timber, as wire for fencing had not come into use. The very best land could be bought for \$1.50 per acre, but there was but few then who could raise enough money to make a one-fourth payment at even that price. So most of us had to be content with a pre-emption. The writer remembers, after being settled on his claim, going to the town of Hamilton on some business concerning same with a crowd of other settlers. When, after arriving at the town, he saw a man with a gun on talking to some one of his crowd and pointing in his direction, when all of a sudden the man with the gun made a bee line for him. "What will I do, what will my wife say when she hears I have been arrested, I will do everything I can to convince him that I am not the man," all went through the writer's brain. What is your name? The writer gave his true Texas name, and was about to begin to argue the case when he was informed that he was on the grand jury for the next term of court. Quite a different feeling immediately came over the OLD SETTLER.

Editor Eagle:— Another week has glided by upon the river of time, during which interval I have chronicled a few of the current events of Mullin for the Eagle.

Saturday evening afforded a variety of places from which the citizens of Mullin could select the one most congenial to their tastes to pass the time. The doors of the Methodist church were thrown open and the house lighted for a young servant of God, Bro. Steele, of Howard Payne College, to hold service. A few listened to the old story of the cross, by this young brother who spoke so tenderly.

Quite a number were attracted by the "Merry go Round" where they spent the evening in hilarious amusement. At the hospitable home of Mr. and Mrs. Burgess, a short distance in the country, Prof. and Mrs. Sam Fisher entertained, Saturday 18th, in honor of the Misses Kerfoot and Miss Alice Fleher prior to their departure for the summer normal school at Lampasas.

Saturday night was the regular meeting of the Masonic lodge Sunday morning and evening Brother Steele preached to good congregations, and especially large in the evening. He would have continued the meeting had it been a propitious time. We regretted to see him depart, hope he will come again. He was here in the interest of the Missionary Baptists and all other denominations. He is working for the Lord.

Mrs. L. J. Vann is reported very sick. Brother Vann arrived home from Waco Saturday to attend court at Brownwood Monday, but could not leave Mrs. Vann.

H. F. Butts left Sunday night for Galveston and returned Tuesday morning. Mr. and Mrs. W. C. Dew spent Sunday with Mr. and Mrs. Fairman at Goldthwaite.

Rev. D. I. Harralson preached at the Baptist church Sunday morning and evening. Mrs. Dr. Jones has been on the sick list, but at last reports was convalescent.

Mrs. Alice Savoy is still with her mother, Mrs. M. S. Wallace, under the treatment of Drs. Jones and Herrington, and is improving, I am glad to say. M. C. Kirkpatrick joined Mrs. Kirkpatrick and little son, Master Hugh, in Brownwood Saturday, spent Sunday with friends, attended court Monday and returned home Monday on the evening train.

Mr. and Mrs. Aaron Little are the proud parents of another fair daughter. As flowers beautify the yard, so these little jewels adorn the family circle. Little Norman Glenn, infant son of Mr. and Mrs. John Hancock, is quite sick.

Mrs. J. T. Eaton visited Brownwood last week. Prof. Grove is at home much sooner than he expected to be, in consequence of indisposition. Dr. Herrington reports favorably on Mr. Keating's condition. Wm. Keating has entirely recovered from his illness.

Mrs. W. C. Dew, J. M. Kirkpatrick and Misses Maude and Hattie White spent a most enjoyable afternoon Tuesday with the Misses Kerfoot at the home of Mr. and Mrs. Carleton. They called to see Mrs. Little on their return home. Dr. and Mrs. Herrington's children are afflicted with whooping cough.

Mr. and Mrs. C. Wilson of the Duran community, were the guests of their niece, Mrs. V. L. Blake, Saturday. Little Miss Francis, daughter of Mr. and Mrs. V. L. Blake is sick; hope she'll soon be well. Willie Kirkpatrick, D. R. McCormick, Drs. Herrington and Jones and others went to Brownwood Monday to attend court. T. S. Sharp of San Angelo, is among the visitors to Mullin this week.

The youths of our land enjoy court in a way that a fascinating young lady is to decide the case, but when arraigned before a tribunal where men sit in judgment it is not so funny, eh, boys? Tom Armstrong from Hill

OBITUARY. Lucy V. Thornton, daughter of Daniel and Sarah Thornton, and wife of Thomas Priddy, died at her home fifteen miles north of Goldthwaite. Lucy was born April 4, 1876, at Chestnut Hill, Jefferson county, Tenn., and died June 7, 1905. Her many friends, relatives and school mates back in Tennessee will mourn the loss of one they loved so well, besides her companion and little boy, and a host of friends here and a heart-broken mother. She was kind and affectionate to all who knew her and always so kind to her mother. Her last words were "I want to go to mamma's," and then passed quietly away and fell asleep in Jesus. But she is gone where there is no sickness, pain or death. She often said, "I want for my little boy, I would rather die than to live, as I feel so bad and have no enjoyment of life." But she is done with the trials and troubles of this world. She has gone through the pearly gates and is walking the golden streets of the New Jerusalem, with loved ones who have gone before.

She has a little boy, a father, a brother and four sisters to join her in that heavenly home where there is no sickness, sorrow, pain nor death, and it won't be long until mamma will join you in that heavenly home. When the roll is called she will be there. I pray that God will watch over the little boy and keep him near and nearer to Him, and he will join his mamma and brother who have gone before when he is called from this world. A MOTHER. Santa Ana, Texas.

PRIDDY. Editor Eagle: Perhaps it would not be an intrusion for me to venture forward with a budget of Priddy's latest happenings.

Farmers have been behind with their crops all the year, but are now about to come to the front. Corn was late as well as cotton, but will make a very good yield. Most of the grain, which was not damaged by the hail, has been harvested this week.

Brother Miles filled his regular appointment here Saturday and Sunday. He delivered excellent sermons both days. A large crowd was present Sunday, and more arrangements were made for the erection of the new Baptist church at Priddy.

Wilma, little daughter of Mr. and Mrs. O. L. Mason, was very sick last week. Mrs. A. L. Stricklin was also reported to be very ill last week, but is now much improved.

Mrs. Dr. Jack of Newburg and her sister, Mrs. Arnold of Dallas, were the guests of Mrs. P. T. Willis Sunday.

The protracted meeting at this place will begin Saturday before the third Sunday in July.

The singing at Mr. Lewis' Sunday evening was enjoyed by all who attended.

Allan Bulay was in our community last week selling maps.

Buster Conner and wife of Fleming, Misses Mary and Ulta Cunningham of Comanche and J. V. Lewis and wife of Newburg visited relatives here Saturday and Sunday.

Those who attended the ice cream supper at Rev. Arch Lewis' Saturday night report a nice time. Misses Mary Lou and Lilly Grundy of Goldthwaite, accompanied by their mother, spent the latter part of last week visiting friends here.

George Lewis returned home from Galveston last week, where he has been attending school. George has many friends who are glad to have him back again.

Priddy is still improving. Mr. Gibson of Lampasas is having a dwelling house put up just south of the McCulley residence.

DYING OF FAMINS. Is, in its torments, like dying of consumption. The progress of consumption, from the beginning to the very end, is a long torture both to victim and friends. "When I had consumption in its first stage," writes Wm. Myers of Cearloss, Md., "after trying different medicines and a good doctor in vain, I at last took Dr. King's New Discovery, which quickly and perfectly cured me." Prompt relief and sure cure for coughs, colds, sore throats, bronchitis, etc. Positively prevents pneumonia. Guaranteed at R. E. Clements' drug store, price \$2.00 a bottle. Trial bottle free.

A BAD SCARE. Some day you will get a bad scare, when you feel a pain in your bowels as if a fear appendicitis. Safety lies in W. R. King's New Life Pills, a sure cure, for all bowel and stomach diseases, such as headache, biliousness, constipation, etc. Guaranteed at R. E. Clements' drug store, only 25c. Try them.

BUY OR SELL. When you have anything in the way of hides, furs, beeswax, corn, hay, cotton seed, etc., to sell, or want to buy anything in the way of corn, hay, sorghum seed, millet seed, seed corn, corn chops, bran, etc., don't fail to come around to the P. H. Clements' drug and feed store.

INDIGESTION'S RECORD. Indigestion is making an awful record as a cause of sudden death. It is beating heart-failure in its ghastly harvest. You read in the papers daily of apparently healthy and even robust men being suddenly attacked with acute indigestion after enjoying a hearty meal, and of their dying in many cases before a physician could be called in.

This should be a warning to you who suffer with regular or periodical attacks of indigestion. If these unfortunate victims of acute indigestion had taken a small dose of Green's August Flower before or after their meals they would not suddenly be prey to such sudden seizures. August Flower prevents indigestion by creating good digestion. It also regulates the liver, purifies the blood and tones up the entire system in a natural way.

Coleman, Texas, March 3, 1935.
This is to certify that less than one bottle of the Texas Wonder, Hall's Great Discovery, cured me of severe kidney and bladder trouble. Its effects are wonderful. I can cheerfully recommend it to others suffering in same manner. Respectfully,
J. E. McCOYD.

It's Your Kidneys.

DO NOT MISTAKE THE CAUSE OF YOUR TROUBLES—A GOLDTHWAITE CITIZEN SHOWS YOU HOW TO CURE THEM.

Many people never suspect their kidneys. When they have a lame, weak or aching back they think it is only a muscular weakness. When urinary trouble sets in they think it will soon correct itself. And so it is with all the other symptoms of kidney disease. That is just where the danger lies. You must cure these troubles because they are certain to lead to more serious ills.
Doan's Kidney Pills is the remedy to use. It cures all troubles caused by weak or diseased kidneys.
Tom Evans, farmer, living nine miles west of Goldthwaite, Texas, at Pecan Bayou, says: "Both myself and wife have used Doan's Kidney Pills with excellent results. I have suffered off and on for several years, with a constant misery in my back, and at times it was so bad that I could scarcely get around. Seeing Doan's Kidney Pills advertised at E. H. Clements' drug store, I procured a box. I had not used over half of it when the pain disappeared. Seeing Doan's Kidney Pills advertised at E. H. Clements' drug store, I procured a box. I had not used over half of it when the pain disappeared. We cannot recommend Doan's Kidney Pills too highly."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y. Sole agents for the United States.
Remember the name—Doan's—and take no other.

INLAND IRRIGATION.

People are now becoming accustomed to the possibilities of irrigation along the constantly flowing streams. The possibilities of irrigation away back among the hills has not been so well considered. There are, however, great opportunities throughout the whole of Mills county. There is scarcely a farm but has a number of places on which tanks can be made that will irrigate from one acre up. There is one place in the county where this is being appreciated. At or near Ratler postoffice there are seven tanks, all made inside of two years. Mr. Harvey has three of them, Mr. Wilcox has two and Mr. Curtis two. This is the first year for Mr. Curtis. Mr. Wilcox irrigated from one last year, was so well pleased that he made a second one the past winter. The tank he used last year cost him \$100 by contract. He considers that he easily got it all back in the increased crop for one year. Mr. Harvey irrigated from two tanks last year; he irrigated eleven acres of cotton three times and got a bale to the acre on part of it. He liked the result so well that he commenced making a third one the past winter. It progressed far enough to get water for three irrigations on about 15 acres this year. He contemplates putting two or three more winter's work on it when he expects to be able to irrigate about 75 acres.

These people do not have any advantage over a great many others in the county. What they have done many others can do. There will be some corn on some of these places soon that will show something to the advantage of the business. For a great number of people the storing of the waste water from the excessive rains is a means of greatly improving their condition. It is a method of making a large profit from something heretofore useless. Not only useless, but has been causing destruction in its way to the gulf. Why not store it and convert it into corn, cotton, alfalfa and the much needed vegetable? It is a way of getting a crop reasonably sure every year. One, too, that is within the reach of a great many people, where it would not be possible to buy a pump.
Every farmer has a team, and after his cotton is in the bale, he has a few months in which his other work is not pressing. He can get a scraper and put in about 75 days on a tank. This 75 days ought to be worth at least \$200. He will get nearly all

of the first year in increased returns. That will be making good use of time that otherwise would not have produced anything. Then in addition to getting pay for the work once it can be had almost every year over again, then still further the price of the land will advance more than equal to the cost of the tank and get paid for the work again. Well managed by an energetic wide-awake person, it is one of the openings to financial success that is right at hand. It is a business that can grow with experience. A crop without irrigation sometimes looks very encouraging, then just for need of one rain every one knows the result.
In making these tanks large provision should be made for the excess of water to get away without running over the dam. A good wide waste way cut down at one end or both ends of the dam so that it will be impossible for the water to run over the dam is a very important point. If the water gets started over the top it is likely to wash out to the bottom in a little while. One acre in a tank covered one foot deep will irrigate one acre four times or four acres once. One acre ten feet deep, will irrigate ten acres four times or 40 acres once. If the ground is rolling and not too sandy, six to eight acres will collect water enough to cover one acre one foot deep in an ordinary season, sometimes it will double it in a single rain. So there is no harm in making a tank large. Even then it must have a large waste way to take care of the possible surplus in excessive floods. There are some bare pastures that run off the water almost like the roof of a house in the hard rains—such soils give a very large run off of water and an opportunity for large storage.
There is no way in sight that the people of Mills county can do more to develop one of its great natural resources than by making a great many of these tanks. It will much more than double the production of all the land brought under irrigation. Take a trip and see what they are doing near Ratler postoffice on the above mentioned places.

H. CULBERSON, Irrigation Agt. under Dept. of Agriculture.

TALK ABOUT HIM TO HIS BACK.
(By O. M. Thomason)
If a brother isn't perfect
Talk about him to his back.
For, of course, you have no defect
Talk about him to his back.
If perchance he does you wrong
Go and tell it to his back.
If he's weak 'twill make him strong
Talk about it to his back.
If you know his faults are many
Talk about them to his back.
For, of course, you haven't any
Talk about them to his back.
If he makes just one mistake
Talk about it to his back.
For such things you never make
Talk about it to his back.
If you find he is in error
Talk about it to his back.
Make him shake and quake with terror
Talk about it to his back.
In his eye you find a splinter
Talk about it to his back.
Though your own is full of timber
Talk about it to his back.
If at gnats he will not gage
Talk about him to his back.
Say you think he's on a leg
And talk about him to his back.
If a camel you have found
Keep on talking to his back.
Smack your lips and gulp it down
And keep on bleating at his back.
For his good, give him no credit
Keep on chewing at his back.
For, of course, he don't deserve it
Keep on slobbering on his back.
I'll help to make him do well
Just keep gnawing at his back.
Then you'll spend your days in hell
And throw brimstone on his back.
Goldthwaite, Texas, June 20, 1935.

VISITORS COMING.
There will be a big crowd here during the reunion, unless all signs are wrong. The following letter indicates the number of soldiers from other counties who come:
Brownwood, June 17, 1935.
Capt. J. T. Frater, Adjutant.
Dear Comrade:—I thank you for your kind favor. I am sorry for your of the sickness of Col. Crews, and hope he will recover in time to be with you at the reunion. I see in the Eagle that Brown and Coleman counties are invited to meet with you. The Regiment consists of Mills, Brown, Coleman, Rannells, Concho and Tom Green counties. The Lieut. Col. H. D. Pearce lives in Ballinger, and the ex Mayor Milton Mays lives in San Angelo.

In regard to rates on railroad the larger the territory included the more certain you are to get good rates. I think you will have no trouble to get convention rates of 1 1/2 fare for the round trip.
Our camp passed a resolution for all to go. I think half or more will attend. I will come down on morning or evening train on 3rd, Ballinger and Concho will be represented, but have not heard what Coleman will do. I will have our papers copy part of the program as adopted, and call attention to date, etc. I will be in San Angelo, Ballinger and Coleman this week, and will stir the old boys up the best I can to come down with full baskets, blankets, etc. I do hope you will have a complete success.
With highest regards I am your comrade
G. I. GODWIN.

JUST WHAT EVERYONE SHOULD DO.

Mr. Barber says: "I have tried Chamberlain's Colic, Cholera and Diarrhoea Remedy, which is one of the best medicines I ever saw. I keep a bottle of it in my room, as I have had several attacks of colic and it has proved to be the best medicine I ever used." For sale by All Druggists.

Fistula, Pellet and the Teeth a Specialty
Derangements of the teeth of the horse very frequently lead to grave difficulties, both local and constitutional. The teeth often become decayed, holes form in them and toothache is a common occurrence. There is no such thing as blind teeth, as is often termed, it is either a rotten or a long tooth. Ninety per cent of the horses that are fed condition powders to recuperate their health, need nothing but their teeth repaired.
