LIKES THE SOUTHWEST.

Editor Eagle:

Will you please allow me to give through the columns of the dear old Eagle a short report of my trip in Southwest Texas. I will not enter into a full detail of my trip, but I will give the most important features. I will first tell why I made this trip. I have been in very bad health for the last two or three winters. I have had to stay housed up the most of the time in winter, so I decided to hunt a milder climate. I boarded the train at Goldthwaite, March 8 at 8 p. m. and arrived at Cotula, LaSalle county, on March 9, at 2 p. m. There I stayed at night and drove over the surrounding country in the day, which is a rich, red, sandy soil with a clay foundation; somewhat rolling but not enough to wash. Plenty timber on all this land for fire wood and fence post. Some water is very bad, while some is good, soft water and can be had by digging from 30 to 200 feet. Land in this country ranges in price all the way from \$5 to \$150 per acre.

On Monday morning the 12th I started for Dimmit county in a hack, as there are no railroads in that county. I found Dimmit county pretty much the same as LaSalle, but land a little cheaper in Dimmit. I bought 640 acres for \$1920. The next day after I bought I was offered \$2560 for the land that I had bought, but I did not want that for it; I would not take \$3000 for it. Today this land is 150 miles from the coast, 110 miles from San Antonio and forty-five miles from Old Mexico. The climate is delightful. I did not go to the fire while I was there; I sat on the veranda every night until bedtime while I was there. Early corn had six and seven leaves; cotton from the old stalk was one and a half to two inches high; the leaves on mulberry trees were nearly grown, young mulberries about grown; hackberry leaves half grown; grass two or three inches high; lots of weeds in full bloom.

Well, I will say that I found and bought just the kind of land that I started out to find and the climate that suited me.

Well, I will close for fear I make this too long. Success to the Eagle and its many readers.
BEN SMITH.

B. A. Harris is having the residence on Fisher street recently vacated by Mr. Baxley repaired and improved. It is to be occupied by Mr. Skaggs and family.

M. V. Nowell, one of the good men of Big Valley and one of the Eagle's best friends, had business in this city yesterday and dropped a dollar in the Bird's craw.

Miss Jennie McAlister and Mrs. Covington's children left Thursday for Granger, where Mrs. Covington is engaged in the millinery business and where they will reside in the future. Goldthwaite regrets to lose this good family.

Jack Carswell of Ballinger spent the first of the week here with relatives and friends. He was suffering with a sprained knee, caused by stepping through a hole in the mill floor at Ballinger.

P. Rapp, a leading citizen of the Priddy community, was here one day this week with cotton which he sold for a good price. He loaded seven wagons with lumber to be used in building his new residence on his farm.

The cemetery association will serve dinner today in P. M. Morris' new restaurant. The receipts will be used for the benefit of the cemetery. The liberality of Mr. Morris in allowing the use of his business for this laudable undertaking is appreciated by everybody.

**Fashionable

I cordially invite you to inspect my line of Latest Pattern Hats. Styles Perfect and Prices Lowest... Your patronage will be Appreciated...

Mrs. GRISHAM
Everly Building--Fisher Street
Goldthwaite,

A citizen of the Cowhouse country brought cotton here Wednesday and sold it to one of the leading buyers of this city for 83-4c per pound. On the day previous he had carried the same cotton to another market and was only offered 81-2c. This is another proof of the fact that Goldthwaite buyers pay the top price for cotton as well as other farm products.

Prof. Ike Davis walked a slack wire across Fisher street in front of A. J. Gatlin's store last Saturday. Notwithstanding the inclement weather quite a large crowd assembled to witness the feat. He is an expert in the business and interested the crowd for some time. He was paid by Mr. Gatlin and, therefore, the entertainment was free to the onlookers and was for the purpose of attracting a crowd to Mr. Gatlin's store for the millinery opening.

FROM EAST TEXAS.

Editor Eagle:

Something over a year ago I wrote a letter for your paper in which I attempted to tell how the farmers were making their living since the coming of the boll weevil and if a reader of that letter was to visit this country, expecting to find things as they were then he would be disappointed. For truck farming was a complete failure last year, owing to excessive wet weather and the only thing that saved the farmer was the part the cotton that was worked, made a very fine yield, the weevil doing no perceptible damage until in the fall. I cannot say why they did not but one thing I learned and that is the value of thorough cultivation. To illustrate this I will state that a tenant on the farm which I am managing, had a piece of cotton which he plowed every time it rained, that is when it got dry enough to plow between rains, regardless of what became of the balance of his crop and he made something over a bale to the acre on this particular piece of cotton, and joining him was a piece of cotton planted of the same kind of seed and about the same time, which received only good ordinary cultivation and made less than one-half bale per acre. And to sum it up in a few words, we have found our faith and returned to our "old stand by" and the cucumber and squash business will have to take a back seat until we give cotton one more chance anyway. I learn from the Eagle that as a general thing where a man leaves Mills county, he writes some letters, telling about what a mighty fine country he has discovered and then we hear no more of him until some of your local correspondents state that Mr. So-and-So, who had left for other parts, is back in his old neighborhood and mighty glad that he is there.

In regard to this country I will say that I do not see any difference in the way people are getting along here and in other parts of the state where I have lived; some have a hard time getting their "regulars" and some have a good time getting rich. I will state that a man—a poor man without a dollar, can come here and go to work, use ordinary intelligence and there is no reason why his belt measure should grow less.

Now Mr. Editor, if this letter is too long, just chop it off to suit yourself and when I am in Goldthwaite, you will get the glad hand just the same.

Yours very truly,
B. F. HARRIS,
Livingston, Texas.

Nothing definite is known as to what will be the plans of the joint committees, but it is confidently believed in Goldthwaite that the road would be a paying investment and a good thing for both towns.

He had been away from home several weeks on the railroad and returned sick. Saturday he was in town and came in contact with many people. CITATION.

The State of Texas. To the Sheriff or any Constable of Mills County, Greeting:

Oath having been made as required by law. You are hereby commanded to summon A. F. Shaw, whose place of residence is unknown, by making publication of this citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your county, if there be a newspaper published therein, but if not, then in any newspaper published in the 35th Judicial District; but if there be no newspaper published in said Judicial District, then in a newspaper published in the nearest district to said 35th Judicial District, to appear at said court on the 30th day of January, A. D. 1906, the same being the 10th day of April, A. D. 1906, then and there to answer a petition filed in said court on the 30th day of January, A. D. 1906, in a suit, numbered on the docket of said court No. 888, wherein Mrs. J. L. Shaw is plaintiff, and A. F. Shaw is defendant, and said petition alleging that plaintiff resides in Mills county, Texas, and that the defendant's place of residence is unknown to her.

For cause of action plaintiff shows that on or about the 2nd day of April, 1899, she and defendant were lawfully married in Mills county, Texas, and she lived with him as his wife until about the 29th day of July, 1899, at which time the defendant separated from her without assigning any reason for so doing; that at the time of their said marriage they lived in Mills county, Texas, and continued to do so until their said separation, that as a result of their said marriage there was born to them on Jan. 3rd, 1900, one child, to-wit, Norma Viola Shaw.

That on or about July 29th, 1905, defendant persuaded her to live with him again, which she did, until about October 20th, 1905, when he again left her, at which time they were living in Denton county, Texas; that during the time she lived with the defendant she conducted herself with propriety, and managed their household affairs with prudence and economy, and at all times treated her said husband with kindness and forbearance, but that defendant disregarded the solemnity of his marriage vows and his obligation to treat her with kindness and attention, and instead treated her in a cruel and disgraceful manner. Plaintiff prays that defendant be cited to answer her petition, and that upon hearing thereof she have judgment setting aside the marriage between herself and defendant, the care and custody of their said child, and all costs of this suit.

Herein full not, but have before said court, at its next regular term, this writ, with your return thereon, showing how you have executed the same, at office in Goldthwaite, this the 9th day of (L. S.) March, A. D. 1906.

E. G. CHAFFORD, Clerk, District Court, Mills County, Texas.

Everybody should patronize the dinner at Morris' restaurant today, for aside from getting the full value of their money they will help in a good cause. The receipts, after paying the necessary expenses, which will be small, will be used to improve the cemetery.
