MEETING TO BEGIN.

The Holiness meeting to be held here by Rev. Lohman and Humphreys is to begin next Friday night. A brush arbor is to be built on the base ball grounds, near the flour mill, where the meeting will be held. The public will be welcome to attend this meeting, as it is for everybody.

Mr. Lohman has held several meetings in this county and is highly spoken of by everybody. He is a preacher of force whose preaching always brings good results. In the meeting he held last week at Miller Grove there were conversions in every service and a Holiness band was organized at that place with about 20 members. His meeting at Pleasant Grove was also very successful.

Mr. Humphreys lives here and everybody knows him to be a man worthy of every confidence and an enthusiastic Christian. We who know him realize that he is thoroughly conscientious and consecrated and we feel that he will be of great help in the meeting.

The two ministers are now holding a meeting at Atherton and are having good success and great things are expected.

John Henry, the man who brought in the first bale of this year's cotton, was here with another bale one day this week.

The band attended the picnic at Priddy Monday and all had a good time.

"We make our surroundings and they in turn influence us. Thus it is equally true: when ideal surroundings are made for us that our happiness is two fold. One of the most unique and delightfully planned affairs of the season was the courtesy of Mr. and Mrs. Skaggs, on Friday evening, August 21 from nine to twelve o'clock, when they royally entertained the members of the Goldthwaite Cornet Band and their lady friends at their hospitable home on Fisher street.

As the guests arrived they were shown to the dining-room, where delicious punch was served from a huge punch bowl which was surrounded by a large block of ice banked with lovely cut flowers. Pencils were passed and the evening began. The results of which provoked much laughter. All had good subjects, but as one of the young gentlemen expressed it, they were lacking in artistic ability to do them justice. As when all had finished the band

MANY a \$20 Watch

Is of no use because it needs a dollar's worth of repairs. A watch in that shape represents money that isn't working, and money that doesn't work doesn't do its full duty.

IF YOU own a helper, useless timepiece, why don't you bring it into our repair department?

We are perfectly equipped to change it into an article that you can again depend upon.

Of course we charge for this service according to the extent of the repairs that are necessary.

But in any event the amount will be very small, very small, indeed, compared with the advantage of having a "stopped" watch turned into a reliable timepiece.
