A Great Meeting.

Editor Eagle: After a visit to Pilot Point to attend the annual council of the Holiness church and general council of the Pentecostal church of the Nazarine, thought it not amiss to let the Eagle have a few dots from one of the grandest as well as the largest bodies of Christian people ever assembled in the great state of Texas. First the object was to unite the holiness people of the north, south, east and west in one great body of workers for the Lord as well as to preach the Word of God in its purity to hungry souls. Prof. Elyson, president of the T. H. U., delivered the address of welcome in his usual brilliant and impressive style, which made every one feel at home in the midst of the hospitable people of Pilot Point. The sessions during the day were presided over by Dr. Breesee of Los Angeles, Cal.

After a fine address by Dr. Breesee the Lord's supper was observed on Friday and the afternoon was principally taken up in the appointment of various committees and preparation of the work they had before them. The delegates were delightfully entertained by the dear people of the little city of Pilot Point. One man, Rev. J. D. Scott, president of the Bible institute, provided meals daily for four hundred delegates free, also purchased one car load of mattresses from the Dallas factory and furnished rooms for quite a large number. There were delegates from almost every state in the union and some of the Islands of the sea, Nova Scotia, New Foundland, India and ... Among those from foreign lands whose names we recall were: Pastor Lawson from Phillibeth, India, S. M. Stafford of Tonals, Mex., state of Onispas; C. H. Miller, City of Mexico, Graham Quesberry of Jalisco, Mannaia Escobar, Le Ponta, Sara Solis and Amelia Montey of La Ponta, and Brictoris of Jalisco and many others whose names I cannot remember.

The New England delegation was large and came in on special cars. California sent a brainy delegation to represent holiness in the assembly. One morning while looking over the vast audience I said, "surely we have met the wise men from the east," and in the years to come we will feel the glorious effect of the work wrought by God's people in the general assembly and unions of Holiness and Nazarine church.

We listened to three sermons daily and saw many people saved and sanctified, and had the pleasure of listening to some fine reports from various points where holiness is established. It seemed no trouble to raise money among the people for incidental expenses. At one time we remember they raised over \$400, besides various other collections. It is enough to say we had a glorious time and a great work is being accomplished by the holiness people all over the land.

We had an opportunity of visiting the Orphanage and Rescue work while in the city and we were forced to exclaim "It pays, yes it pays a thousand times to work for Jesus." A DELEGATE

UNITED IN ONE.

The Great Gentry Brothers Show is Bill For Goldthwaite.

That portion of the amusement loving public particularly described as "the young generation" is to have its especial tining of the circus game when the Gentry Brothers Famous shows visit Goldthwaite, Friday Oct 23.

For over twenty years the name of Gentry has been inseparably associated with trained dogs and ponies and with an exhibition conceived, treated and conducted for the principal purpose of giving delight to the boys and girls. Cleverness has been the Gentry trademark and cleanliness its chief virtue.

Up to this season there has been two Gentry shows en tour, but the opening of this season saw a change in policy which permitted the uniting of the "eastern and the western" shows and the addition of many attractions—all of which has resulted in putting the Gentry shows easily in the van of all trained animals exhibition and making them more and more than ever the favorites of those who regard the Gentry shows as next to Santa Claus in the power of pure pleasure giving and a visit to their tents as a journey into fairyland.

The hundred of trained dogs and ponies which have always given the peculiar character to the Gentry show are still retained and give their two hours' program, of which so much has been said in praise during prior visits of the shows.

The monkey fire brigade and the monkey railway smashup are also still among the features of the program and all the old juvenile favorites have been retained, but in the little animal kingdom over which the Gentry reign there are many new subjects. There are five performing elephants Nero, Tribby, Satan, Diamond and Baby, whose elephant band and elephant supper give unalloyed pleasure to the little ones. There is also a herd of camels, the principal of which is "Oklahoma" a baby born this spring in the state whose name it bears. Trained pigs, sheep and geese have also been added to the Gentry happy family.

Where Bullets Flew.

David Parker, of Fayette, N. Y., a veteran of the civil war, who lost a foot at Gettysburg, says: "The good Electric Bitters have done me worth more than five hundred dollars to me. I spent much money doctoring for a bad case of stomach trouble, to little purpose. I then tried Electric Bitters, and they cured me. I now take them as a tonic, and they keep me strong and well." 50c. at R. E. ... drug store.

Mullin.

Editor Eagle:

The best wishes and longing desires for the prosperity and happiness of the tillers of the soil should be uppermost in every true American heart, and yet when this class of people undertake to organize their forces for protection against trusts and combines many who are wholly dependent upon them for everything they eat and wear, raise a hue and cry against them, calling them moss-backs, green-hornes, hay-seeders and such like. Why is this? Why tolerate co-operation of every other occupation under the sun and want to set a seal upon the mouth of him, whose true place is at the head of the ranks with every other occupation and profession looking up to him, as the real benefactor of the race? When man came from the hand of the Creator and he looked upon the work of his hands, he declared it was good and very good, and without a moment's hesitation chose for this very good work the occupation of farming, declaring by this that the first, noblest and highest calling of this creature should be that of tilling the earth.

No sound of the mechanic's tools, no rattle of the inventor's machinery, no pill bags, no political bosses, no monopolies and trusts, no centralization of capital against labor, no military tactics, no speculators, nor the click of the banker's lock seemed to have come into the mind of the Deity to displace the man he had made paramount to these and to whom he said "look after the products of the earth." When the God of the universe gave him such prominence why should others claim the right to call him hay-seeder, greeny, country hunk and such like when he undertakes to only ask for equal recognition and rights to co-operate and manage his own affairs that are accorded to every other profession and occupation under the sun without the hint of an objection? Mr. Reader had you ever stopped to consider that about all the prominent places from the president down are and have always been filled by the boys from the farm? Then why not accord to the hard-fisted yeomanry the right to say, what the products of the farm is worth just like other people say, what the labor of their hands is worth? Why Mr. Editor had you stopped to think that this wonderful farmer was here and his occupation assigned him and he was going ahead feeding the world long before your printing press was ever thought of? And don't you know if he were to lay down the hoe, hang up the scythe, ungear old Beck, to take a vacation of just one short twelve months, that the finger that now handles the type would cease to move and the voice that has often been raised against this wonderful being would be stilled in death? That market gambler who has made his millions off of the hard earnings of his beneficiary of mankind would come to want and would gladly scatter his millions like chaff before a wind as an inducement to have the vacation cease and the rattle of machinery, and the voice of the farmer again be heard wending his way to the field. Too small an estimate has been placed upon the farmer and his rights in the past and while they realize it, many of them will stand off and fail to lend a helping hand to turn the tide in their favor. They would gladly see a change, yet they are unwilling to help bring it about, if they knew the effort to bring about this change would succeed they would be Johnny on the spot, but for fear it won't succeed and they'll get no say, "I told you so," they are Johnny off the spot and are willing to stay off, and let their neighbor and brother farmer fight the battle that is going to bring relief to the tolling millions. The farmers union of

America has come to our relief and would have had her banner floating from the ruins of every trust and combine throughout this land had the farmers united and stood shoulder to shoulder, but alas! alas, too many stand off hoping something will be done to bring relief but afraid to enlist under the grandest flag and the surest and greatest cause that has ever come to their door. It is coming boys, it is coming and you are coming abroad when the battle is fought; why not come now and feel like you helped to win the battle? Every honest farmer in Mills county ought to join the Union and join at once for there is nothing surer than your staying out has held the old ship in check that is headed for the shore and to the harbor where, when the landing is made the glad voices of the tillers of the soil will shake this continent from center to circumference. Believing there is more happiness in possession when we helped to pursue, we give you a broad, open handed, warm hearted invitation to step aboard and do your part. Yours for the right, H. C. COBB

Letter to F. N. Irwin.

Goldthwaite, Texas.

Dear Sir: One of the ways to get rich is to make a quarter look like thirty cents.

There's a better; make it thirty cents. It has this advantage; one keeps out of jail.

There are 300 paint-manufacturers making quarters look like 30 40 50 60 cents and all the odd cents between. That is, their "paints" profess to be paints; and they are, in about the proportions named: they get 30 to 60 cents for a quarter's worth; some get 75.

There's a better way to paint: Devoo. There are eight honest paints. By "honest," we mean not adulterated and full-measure. These honest ones differ; no two are alike. In one, the quarter is worth 27 or 28 cents; in another, 30 cents; there must be a best one in eight; it is the one that takes least gallons to cover a job—Devoo.

To cover; that seems a light way to speak of a paint. No, it isn't. That is what paint is for: to cover. It means to hide and protect. The paint that goes furthest is best, wears longest. Go far is all; and Devoo is the go-far paint.

Yours truly,
F. W. DEVOO & Co.

Mullin.
Editor Eagle:
Over 2500 hundred bales of cotton will have been ginned at Mullin by the time this reaches you. Quite a lot is coming in from our gin, Mullin market is drawing from Brownwood and other towns.

Renfroe Bros. have found a very fine quality of building stone near Mullin which they will use in the erection of the Childers & McCormick building. A few more valuable finds around Mullin will put her in the lead of all central and western Texas towns. We are expecting some steps take right soon by the railway to improve the depot and sidetracks.

Rev Carter's brother and nephew from San Angelo are visiting him this week.

Mr. Editor, we think you might show your smiling face in our little city and let the people see how you look. We live too close to you for you to be so distant.

Two more Kentucky boys arrived in Mullin last Friday night. They secured positions at once and went to work Monday morning. They hail from the same county that the Cobb brothers came from.

There is one of the best openings at Mullin for a general mercantile store of any place in western Texas. Who will avail themselves of this opportunity to get in on the ground floor? A trip to the country around Mullin will convince any one that there is more good tillable land in the vicinity of Mullin than almost any place west of Temple until you get to Coleman and the crops this year is proof that said land produces abundantly.

Mr. Burgess and sister from Arkansas have cast their lot among our people. Mr. Burgess is a blacksmith and a cousin of Hays Burgess. The gate swings wide open for the reception of such people. Let others come.

John Hester and his wife are comfortably housed in their neat little home. We think it would be real nice for other boys to follow suit, especially if they could bring to Mullin from other towns the choice girls of those towns. The Mullin band gave them a serenade last Monday night, closing with Home Sweet Home. May their home ever be such an one as the old song suggests.

E. C. Curtis sold his home to the Misses Kerfoot and is building again in the same neighborhood. Mullin will grow. The 60 foot front, two story business houses are moving right along. Other buildings are being talked of. Let the good work go on.

Why Colds are Dangerous.

Because you have contracted ordinary colds and recovered from them without treatment of any kind, do not for a moment imagine that colds are not dangerous. Everyone knows that pneumonia and chronic catarrh have their origin in a common cold. Consumption is not caused by a cold but the cold prepares the system for the reception and development of the germs that would not otherwise have found lodgment. It is the same with all infectious diseases. Diphtheria, scarlet fever, measles and whooping cough are much more likely to be contracted when the child has a cold. You will see from this that more real danger lurks in a cold than in any other of the common ailments. The easiest and quickest way to cure a cold is to take Chamberlain's Cough Remedy. The many remarkable cures effected by this preparation have made it a staple of trade over a large part of the world. For sale by E. E. Clements' druggist, Goldthwaite & Mullin, Texas.

More Than Enough is Too Much.

To maintain health, a mature man or woman needs just enough food to repaid the waste and supply energy and body heat. The habitual consumption of more food than is necessary for these purposes is the prime cause of stomach troubles, rheumatism and disorders of the kidneys. If troubled with indigestion, revise your diet, let reason and not appetite control and take a few doses of Chamberlain's Stomach and Liver Tablets and you will soon be all right again. For sale by R. E. Clements' Druggist, Goldthwaite & Mullin, Texas.
